Principal's General Narrative:

May is one of the busiest months of the school year. Even though the school year is coming to an end, our Brackett students continue to represent Brackett ISD in multiple events around the state. Some of our track students qualified for regionals. They did a great job representing BISD. One Tennis player made it to the state tennis tournament. Our OAP team made it to Area this year. The Academic UIL team competed in regionals and one student made to the state level in number sense. We also have band members and Tiger Paws members advancing to state competition. Overall, our students continue to put Brackett ISD on top of the charts.

Again, the Brackett Tigers are ending the school year strong. We have students certifying in different CTE areas such as Culinary, Welding, Graphic Design and Educational Aide. We will end the year with many student recognitions at our scheduled awards ceremonies. Brackett staff is working hard to make the end of the year events memorable for students, parents, and the community. We have great kids and they deserve it!

One District.....ONE Team! *Sergio Jimenez Secondary Principal*
