

TRANSPORTATION BOARD REPORT FOR

MAY 2026

SUBMITTED BY WAYNE BULLCALF

Hi all, this is my May Board Report.

So, for our mechanic department, they have completed 37 workorders. They are getting the food bus ready for the summer. We have no pickup truck to pull the food trailer so they will have to use their red suburban to pull the trailer. The shop is changing out fuel pump in bus 51. We also submitted a quote for a new team bus. This process takes about 6 to 8 months to build that why we are submitting so soon.

For the office she is getting our second semester bus reimbursement done, preparing for our upcoming MAPT training. She is also getting the book prepared for our annual county meeting.

As for our trip department, there was 104 trips and 140 buses some of these trips required up to 5 buses per trip. Buses that went out on trips these were for sports trips, field trips, and college trips.

So, as for the disciplinary department, there were there were 39 rite ups and 23 removals. All stemming from fighting, vaping and talking back and rude to the driver and for having to many warnings' write ups.

This is my May board report thanks for reading God bless.
