

Conduct Code for Participants in ~~ExtracCo~~-Curricular Activities

The Superintendent or designee, using input from coaches and sponsors of ~~extracoe~~-curricular activities, shall develop a conduct code for all participants in ~~extracoe~~-curricular activities consistent with Board policy and the rules adopted by any association in which the District maintains a membership.

The conduct code shall: (1) require participants in ~~extracoe~~-curricular activities to conduct themselves as good citizens and exemplars of their school at all times, including after school, on days when school is not in session, and whether on or off school property; (2) emphasize that hazing and bullying activities are strictly prohibited; and (3) notify participants that failure to abide by it could result in discipline, up to and including removal from the activity. Participants who violate the conduct code will be allowed to give an explanation before being progressively disciplined. The conduct code shall be reviewed by Building Principals periodically at their discretion and presented to the Board.

Participants in ~~extracoe~~-curricular activities must abide by the conduct code for the activity and Board ~~P~~olicy 7.190, *Student Behavior*. All coaches and sponsors of co-curricular activities shall annually review the conduct code with participants and provide participants with a copy.

In addition, coaches and sponsors of interscholastic athletic programs shall provide instruction on steroid abuse prevention to students in grades 7 through 12 participating in these programs.

Reasonable Suspicion ~~ExtracCo~~-Curricular ~~Drug-Alcohol~~ and ~~Alcohol-Drug~~ Testing ~~Program~~

~~In order to foster the health, safety, and welfare of its students, The-the District maintains an will conduct extracoe-curricular drug-alcohol and/or alcohol-drug testing program whenever there is reasonable suspicion that a participant has used or ingested alcohol or drugs in order to foster the health, safety, and welfare of its students. Participation in extracoe-curricular activities is a privilege and participants need to be exemplars. The program promotes healthy and drug-free participation.~~

Each student and his or her parent(s)/guardian(s) must consent to having the student submit to ~~random-reasonable suspicion drug-alcohol~~ and ~~alcohol-drug~~ testing in order to participate in any ~~extracoe~~-curricular activity. Failure to sign the District's "~~Random-Reasonable Suspicion Drug Alcohol and Alcohol-Drug Testing Consent~~" form will result in non-participation.

~~If a test is positive, the student will not participate in extracoe-curricular activities until after a follow-up test is requested by the Building Principal or designee and the results are reported. The Building Principal or designee will request a follow-up test after such an interval of time that the substance previously found would normally be eliminated from the body. If this follow-up test is negative, the student will be allowed to resume co-curricular activities. If a positive result is obtained from the follow-up test, or any later test, the same previous procedure shall be followed. Participants who are found to have committed alcohol and/or drug violations will be subject to the sanctions in the conduct code in addition to discipline in accordance with Board Policy 7.190, Student Behavior.~~

~~The Superintendent or designee shall develop procedures to implement this policy. No student shall be expelled or suspended from school as a result of any verified positive test conducted under this program other than when independent reasonable suspicion of drug and/or alcohol usage exists. This program does not affect the District policies, practices, or rights to search or test any student who at the time exhibits cause for reasonable suspicion of drug and/or alcohol use.~~

Performance Enhancing Drug Testing of High School Student Athletes

The Illinois High School Association (IHSA) prohibits participants in an athletic activity sponsored or sanctioned by IHSA from ingesting or otherwise using any performance-enhancing substance on IHSA's banned substance list, without a written prescription and medical documentation provided by a licensed physician who evaluated the student-athlete for a legitimate medical condition.

IHSA administers a performance-enhancing substance testing program. Under this program, student athletes are subject to random drug testing for the presence in their bodies of performance-enhancing substances on the IHSA's banned substance list. In addition to being penalized by IHSA, a student may be disciplined according to Board ~~P~~policy 7.190, *Student Behavior*.
