TVAH recommends the approval of the purchase of IXL licenses at a total cost of \$587,500.00. IXL has been used by the campus for the past two years and we would like to continue using the program. The data supports strong overall performance, with 82% of standards showing positive growth and consistently high gains across the majority of content areas, including particularly strong results in Social Studies and Science. Additionally, most courses achieved positive growth, reflecting effective, standards-aligned instruction and meaningful student progress. IXL is contributing to measurable academic gains, supporting instructional consistency across courses, and providing scalable, differentiated support for diverse learners in a virtual environment.
