

Prepared for:

Brecksville-Broadview Heights Schools

May 2026

QUICKmed Occupational Health is pleased to present comprehensive medical services for your staff and their employees. Pricing options as listed:

This pricing structure is based on a current workforce of approximately 500 full-time employees enrolled in the employer-sponsored medical plan. The program is designed to support access to care across the full workforce while providing flexible utilization options that align with insurance coverage and employer sponsored benefits. For the concierge option, the employer agrees to provide an updated employee roster at the beginning of each month to ensure accurate records of all participants enrolled in the program. Workforce counts may be reviewed periodically to ensure the program continues to match operational needs and service demand. Under the concierge model, personal insurance will not be billed for urgent care visits. Additionally, Brecksville-Broadview Heights Schools or its MCO (Minutemen) will not be billed for occupational health services that fall within the defined scope of work under the program.

Pricing Option 1- A' la Carte

Client may utilize any approved A' la Carte services on an as-needed basis. Services will be billed individually only when authorized and performed. Invoices will be generated monthly based on actual utilization during the billing period and are due within thirty (30) days of the invoice date (Net 30 terms).

Pricing Option 2- Concierge Model

Monthly cost of \$10.00 per employee per month paid by the employer. This option includes the employee and direct family members of the employee. Employees and their families receive access at any QUICKmed location for urgent care and occupational health services. Covered occupational health services include workplace injury care, pre-employment and annual exams, drug/alcohol testing and other ancillary occupational health services as authorized by the employer. This option does not include labs, vaccinations, or non-negative drug test confirmation testing.

The concierge option is especially valuable for employees who may not have insurance coverage. It ensures access to care and demonstrates that the employer is investing in the health and wellbeing of their workforce. It is a strong retention and recruitment tool and reinforces a culture of support and employee care.

Please indicate the selected pricing structure by checking the option that best aligns with your organization’s operational and workforce needs.

<input type="checkbox"/>	*Option 1-A' la Carte
-	BWC (Billed Direct to client MCO, Minutemen)
