Terms and Conditions

- This proposal assumes the job site is ready for ASC product installation. Once ASC crew and equipment arrive onsite, the job site should be ready for installation. If not, additional mobilization charges of 2000 / day to customer may result.
 - As a standard, our proposals include use of one scissor lift. This requires the concrete to be poured. If heavy equipment is required, there will be an additional cost which will be included when elevations require it.
 - This proposal assumes that the structural attachment points such as steel, wood blocking, CMU, or grouted masonry are in place. Each wall attachment point must be smooth to securely and properly mount the ASC product.
 - Any site preparation delays incurred by ASC may result in an additional trip charges to customer.
 - This proposal assumes the inclusion of one mobilization for field measurements and one mobilization for installation. Additional mobilization requests may result in an additional trip charge to customer.
- * GC is responsible for providing a safe, clean, secure place to store materials free from damage when necessary once delivered to job site.*
