

Principal Williams Reports for 25/26

May 13, 2026 (Williams will NOT be present, as I will be driving back from a Portland Dr. visit.)

ASB voting!

Students gave presentations in the cafeteria; the student body brought their chrome books and then voted directly after. We have all class officers in place. 7th grade will vote later on in the 26/27 school year.

Step Up

MS/HS Forecasting is underway.

The Step Up day and Parent Education Evening (6th to 7th grade) went well.

The Master Scheduling Team is working on Fall 26/27 schedules- these should be completed in May, for fall alignment. It was announced that a 5 day school day will remain in place.

iReady Diagnostics

These are nearly completed, the results will be prepared for fall student progress.

Johnson's update:

FBLA State in Eugene Results

Two PHS students placed in the Top 4 in their event which qualifies them to compete at Nationals:

ONE earned 1st place in the middle school event: Exploring Marketing Concepts

Another, in HS, earned 2nd place in Journalism. Seven others placed in Top 10 in their event:

OASC Spring Conference in Seaside

The 5 students who attended that conference told me that it was a great experience, they learned valuable information, and they would recommend attending the conference to others.

They especially like the keynote speaker, Erin Pompa.

Student Council has been in discussion about bringing a speaker to PHS. As the advisor I am looking for funding to make that happen. The OASC team think Erin would be a great choice for our school.

Biology field trip to Newport

Ms. Carlton stepped in to cover this field trip at the last moment as I was unable to attend for medical reasons. The sophomores reported to me that they had a great time! They particularly like the ROV class they attended at HMSC. They also visited the Cape Perpetua visitor center and the Oregon Coast Aquarium.

As a final part of the field trip, I plan to take the class on a hike out to Blacklock in June and identify plants along the way.

MS Track: (Carpenter's Update)

Many students were placed on the podium this season! Both our boys and girls relay teams ran in the 4x1 and 4x4. It was a great season for all with lots of PR's.

Our Cape Blanco soccer team got second place trophies after two days of games at the Mother's Day weekend tournament.

SENIOR TRIP

The senior class had a great time on their senior trip staying at Sunriver and exploring Bend, Oregon. They enjoyed activities such as go kart racing, off-road ATVs, and visited the last Blockbuster, with lots of swimming and rest in between. Everyone is on track to graduate and we had our scholarship award evening, Monday night.

SENIOR SCHOLARSHIP NIGHT

Students received over \$62,000 in scholarships. A phenomenal feat, which is such a small class of six. They have lots of exciting plans for the future and have only a few weeks before the big day.

Pacific is otherwise doing well and anticipating the summer break!
