4162 - CONTROLLED SUBSTANCE AND ALCOHOL POLICY FOR COMMERCIAL MOTOR VEHICLE (CMV) DRIVERS AND OTHER EMPLOYEES WHO PERFORM SAFETY-SENSITIVE FUNCTIONS

Purpose

The Board of Education believes that the safety of students while being transported to and from school or school activities is of utmost importance and is the primary responsibility of the driver of the school vehicle. To fulfill such a responsibility, each driver, as well as others who perform safety-sensitive functions with District vehicles, (collectively "Covered Employees") must be mentally and physically alert at all times while on duty.

To that end, the Board has established this policy, which includes an alcohol and controlled substances testing program. The Board also expects all Covered Employees to comply with Board Policy 4122.01 on Drug-Free Workplace which prohibits the possession, use, sale, or distribution of alcohol and any controlled substance on school property at all times.

Further, the Board concurs with the Federal requirement that all Covered Employees should be free of any influence of alcohol or controlled substance while on duty. Therefore, participation in the alcohol and controlled substances testing program is a condition of employment for all Covered Employees.

- D. The term *controlled substance abuse* includes excessive use of alcohol as well as prescribed drugs not being used for prescribed purposes, in a prescribed manner, or in the prescribed quantity.

- E. The term *safety-sensitive functions* includes all tasks associated with the operation and maintenance of District-owned and/or operated vehicles. Any staff member who tests positive as defined in the guidelines shall be immediately prohibited from driving any District-owned and/or operated vehicle or conducting a safety-sensitive function and subject to discipline, up to and including discharge, in accordance with District guidelines and the terms of any applicable collective bargaining agreements.

No staff member who has tested positive for alcohol or a controlled substance may be returned to a safety-sensitive position without having been evaluated by a qualified substance abuse professional (SAP), completing any required treatment program, and passing a retest. Return to a safety-sensitive position is solely at the District's discretion and the employee may be required to participate in ongoing services if recommended by the SAP. Any staff member who has tested positive for alcohol or a controlled substance will be provided with a list of SAPs available and acceptable to the District.

Furthermore, if during any test the lab determines that an adulterant has been added to the specimen, then the test will be considered positive and the employee shall be prohibited from performing any safety-sensitive functions and be referred to the District's Employee Assistance Program and/or the employee will be re-tested with an observed collection to prevent the addition of an adulterant to the specimen.

Any staff member who refuses to submit to a test shall immediately be prohibited from performing or continuing to perform his/her safety-sensitive functions (e.g., driving any Board-owned vehicle).

Prior to the beginning of the testing program, the District shall provide a drug-free awareness program which will inform Covered Employees and their supervisors, about:

All time spent undergoing an alcohol or controlled substance test, including travel time, will be paid at the staff member's regular rate of pay, or at his/her overtime rate, if applicable. Any staff member who is not allowed to return to work while awaiting test results will be compensated during the waiting period for all work time lost, including overtime, if applicable. The Board shall pay all costs associated with the administration of alcohol and controlled substance tests. This includes testing of the "split specimen" at a Federally certified laboratory if so requested by a staff member. Requests for a "split specimen" must be made within seventy-two (72) hours of receipt of the notification of a positive drug test. The Board will not pay for the employee's time while not on duty, if the split specimen test results are positive.

Alcohol and drug test results shall be protected as confidential medical records as appropriate under Federal law (i.e. test results shall be provided on a right to know basis - the employee, the employer, and the substance abuse professional - and the results shall not be presented until analyzed by a Medical Review Officer).

A tested individual, upon written request, will be promptly provided copies of any records relating to his/her use of drugs and alcohol, including any records pertaining to his/her drug and alcohol tests. A tested individual must provide specific written consent before his/her test result can be provided to any other person except as required by law.

All tests shall be conducted in accordance with Federal testing guidelines and be performed by a laboratory that is Federally certified.

The alcohol and drug testing program shall be under the direction of the Superintendent.

Notification

A tested candidate shall be notified of the results of a pre-employment controlled substances test conducted under this part, if the driver requests such results within sixty (60) calendar days of being notified of the disposition of the employment application.

A tested individual shall be notified of the results of random, reasonable suspicion and post-accident tests for controlled substances conducted under this policy if the test results are verified positive. The tested individual shall also be informed which controlled substance or substances were verified as positive.

The Superintendent shall make reasonable efforts to contact and request each driver who submitted a specimen under the employer's program, regardless of the driver's employment status, to contact and discuss the results of the controlled substances test with a medical review officer who has been unable to contact the driver.

The Superintendent shall immediately notify the medical review officer that the driver has been notified to contact the medical review officer within seventy-two (72) hours.

Individuals holding a CDL license must notify all current employers of any DOT violations (such as testing positive for the presence of alcohol or a controlled substance in violation of this policy). The notification must be made 1) by the end of the business day following the day the individual first receives notice of the violation or 2) prior to performing any safety-sensitive function, whichever comes first. Individuals are not required to notify the employer that administered the test or that documented the circumstances giving rise to the violation.

In the event that an individual is selected for testing, the Superintendent will inform the individual that the test is required by applicable law.

Reporting Test Results

The Superintendent shall report all information required by Federal regulations to the Clearinghouse in a timely manner. The Superintendent shall prepare and maintain a summary of the results of its alcohol and controlled substances testing programs performed under this policy during the previous calendar year, when requested by the Secretary of Transportation, any DOT agency, or any State or local officials with regulatory authority over the employer or any of its drivers. Such summaries shall be submitted in a manner and timeline as required by law.

Return-to-Duty (Safety-Sensitive Positions)

Employees who are removed from performing safety-sensitive functions as a result of this policy must complete the Return-to-Duty ("RTD") process as required by the U.S. Department of Transportation ("DOT") regulations and their Federal Motor Carrier Safety Act ("FMCSA") Drug and Alcohol Clearinghouse status must be changed from "prohibited" to "not prohibited" before resuming safety-sensitive duties. The RTD process requires an evaluation by a qualified Substance Abuse Professional ("SAP"), successful compliance with the SAP's prescribed education and/or treatment program, and a follow-up evaluation by the SAP determining that the employee has complied with the program. The employee must then complete a DOT return-to-duty test and obtain a verified negative drug test result and/or an alcohol test result of less than 0.02 before being permitted to return to the performance of safety-sensitive functions.

In addition, employees must comply with the SAP's written follow-up testing plan, which will be administered by the District in accordance with DOT regulations. An employee who fails to comply with the follow-up testing plan will not be permitted to perform safety-sensitive duties.

Subject to any collective bargaining agreement or other legal requirements, employees who are otherwise eligible to resume safety-sensitive functions may not do so without the Superintendent's approval.

~~Employees who are removed from performing safety sensitive functions as a result of this policy must take and pass return to duty test before returning to performing safety sensitive functions. The return to duty test will not occur until after a Substance Abuse Professional (SAP) has determined that the employee has successfully complied with prescribed education and/or treatment. The employee must have a negative drug test result and/or an alcohol test with an alcohol concentration of less than 0.02 before resuming performance of safety sensitive duties. The employee will not be permitted to perform safety sensitive functions until the start of the employee's next regularly scheduled duty period, but not less than twenty four (24) hours following administration of the return to duty test.~~

-

~~Employees must also comply with the SAP's written follow up testing plan, which will be administered by the District, or they will not be permitted to perform safety sensitive duties.~~

-

~~Subject to any collective bargaining agreement or other legal requirements, employees who are eligible to return to performing safety sensitive functions may not do so without the approval of the Superintendent.~~
