W.J. Zahnow Elementary Board Report July 2026

Online Registration opened on July 1st for the Waterloo School District. Parents are encouraged to register their child(ren) online if they have not done so. As a reminder, if it is a new student or Kindergartener who did not make it to screening, they will need to come into the office to complete paperwork before registering online. Class lists for elementary students will be coming out on July 30th.

In July, the custodial and maintenance staff are continuing to work hard to clean, move, and finish up classrooms, hallways, and other areas of the school. Classrooms are slowly coming back together, and hallways are getting waxed. The technology department is updating and cleaning up computers and working on their work orders for our building. Our administrative assistants are collecting paperwork, adding students, and updating all information for the upcoming school year. It takes a team during the summer to get things ready for the new year! Things are moving quickly but smoothly, and we are ready and excited for our students' return!

Looking Ahead
