

Math EdGems Adoption Overview

During the 2026-2027 school year, Hauser Junior High School is interested in piloting EdGems Math resources. The pilot will begin with training for Hauser staff on May 27. During the pilot, Hauser will have access to the EdGems resources until December 31, 2026. On or before that time, we will need to determine if we would like to commit to using EdGems starting in 2027. If so, we would continue to have access to the EdGems digital materials at no cost. If we choose not to move forward with EdGems, we will lose our access, and there will be no further commitment.

The representative from EdGems has provided pricing for a one-year commitment and a six-year commitment. The pricing is preliminary; we have not yet received a written proposal. Table 1 shows one-year pricing, and Table 2 shows six-year pricing.

Table 1 - One Year Pricing

EdGems Math Course 1 Student Digital Program	\$16.00	600	\$9,600.00
* EdGems Math Course 1 Teacher Digital Program [Note: Enter your quantities under the No Charge column if you are purchasing Student Digital licenses for this course.]	\$350.00	14	N/A
	Total		\$9,600.00

Table 2 - Six Year Pricing

EdGems Math Course 1 Student Digital Program	\$90.00	600	\$54,000.00
EdGems Math Course 1 Teacher Digital Program [Note: Enter quantities under the No Charge column if purchasing Student Digital licenses for this course.]	\$1,440.00	14	N/A
	Total		\$54,000.00
