RE: Consider amending local policy FEB Attendance – Attendance Accounting

Current legal policy FEB stipulates attendance for absences shall be recorded in the second or fifth period of the day. The attached recommended local policy will clarify the specific hours attendance shall be taken. The recommended local policy more closely aligns with all student schedules, including students that have a non-traditional 21st learning schedule. Approval of this local policy will not change current practices.

Recommendation: Approve local Policy FEB as presented.
