

Activities Information

Attached are the graphic images to the Winter End of Season Questionnaire Student Results for the board members to look at. I will be explaining how I use these results in my evaluations of coaches/advisors and programs.

Also, here are a couple websites for them to look at as samples to the new Activities website that we will be rolling out in the fall. We are moving away from rschools software for a more user friendly program called Bound. I will be explaining some of the changes and benefits to the district with this switch.

[Southwest Christian High School](#) (Chaska, MN)

[Mound Westonka High School](#)

Finally, I will be sharing about my business partnership initiative that I have started while working with Daktronics to purchase new video boards for the high school gym and football field/track. Attached is the promotional packet with renderings and information regarding this project.
