PROPOSAL FOR ALTERATIONS AND ADDITIONS TO DISTRICT PROPERTY

In an effort to guarantee any alterations or additions to all structures and grounds in the District, appropriate approval must be made prior to any modifications. This form must be filled out by individuals who desire to make such changes and submit to the building principal for consideration.

If the building principal agrees to approve the proposal, he or she must sign the completed form and submit it to the Director of Planning and Construction for review by the Associate Superintendent, who will then coordinate with appropriate departments for consideration.

The plan for alterations and additions will include all structures, athletic fields, courts, and accompanying structures. Also included are alterations or installation of bookcases, cabinets, permanent equipment, anything to be attached to the building (inside and outside), and any other equipment that has not had prior approval for installation in the school building.

*Appropriate policies must be reviewed prior to submitting a proposal. Examples: Policies CLB, FFA, CL, and CDC.

Once the building principal signs off and submits the proposal to the Associate Superintendent, the Director of Planning and Construction will schedule a meeting for all stakeholders required pending scope of the project.

Name of individual submitting proposal: Aylin Martinez
Title: Principal, PSE Date: 1/8/2020

Description of Proposal:

Installation of a 12-foot-tall chain-link backstop on the recess playground/Spark Park area at Pine Shadows Elementary. This structure, donated by the Weldon Family and installed by Diamond Kuts, will provide a safe and designated space for students to play ball games while preventing balls from entering walkways, parking areas, and other high-traffic zones. The backstop will also benefit the Pine Shadows community during after-school and weekend Spark Park hours.

Specifically how does this proposal support teaching and learning/curriculum and objectives:

The backstop will directly support Physical Education activities at Pine Shadows Elementary by providing a safe, structured area for throwing, catching, striking, and other TEKS-aligned motor-skill development activities. It will help prevent balls from entering walkways and high-traffic zones, reducing interruptions and improving the safety and efficiency of PE lessons and recess play. After school hours, the backstop will also benefit local youth sports teams and families who use the Pine Shadows Spark Park. The addition of a safe, designated space for baseball and softball-related activities enhances community engagement and promotes healthy, active lifestyles for students and neighborhood children.

FACILITIES CONSTRUCTION

CV
(EXHIBIT)

Describe alterations, additions, and the like. Will this take place in a classroom? *If future projected enrollment requires use of this classroom, it will be returned to a classroom as needed.

The installation of a 12-foot-tall chain-link backstop will take place in the Pine Shadows Elementary playground/Spark Park area. This will be an outdoor addition and does not involve any instructional classroom space. The attached map shows the proposed location of the backstop.

Cost, how will proposal be funded? Campus must follow policy CDC.

The project will be funded through a donation from the Weldon Family to the Murphy Oil Corporation gift matching program to the Pine Shadows PTA, which will then fund the installation of the backstop by Diamond Kuts. No school or district funds are required.

What maintenance and additional costs will be required to support the proposal? How will this be funded?

The backstop is constructed of galvanized steel and requires minimal to none ongoing maintenance, limited to standard campus grounds checks performed by district maintenance as part of normal operations. No additional costs are expected for the school, PTA, or district beyond typical long-term upkeep.

Grade Level/Group to utilize proposal:

All students at Pine Shadows Elementary will utilize the backstop during Physical Education classes and recess. In addition, community members and local youth sports groups who use the Pine Shadows Spark Park after school hours will benefit from the improved play area.

Additional required signatures as appropriate from departmental designees:

Spring Branch ISD
