Re: School Data Solutions Recommendation

Date: July 6, 2026

One of the first topics I researched after starting here in Riverside was a potential demographic study with a focus on enrollment history and projections. One of the potential partners, School Data, not only facilitated enrollment history and projections with demographic breakdowns, but they also provided analytical tools for financial and operational forecasting.

In addition to providing a useful tool for internal use, School Data also provides the means to create public facing graphics and dashboards that will allow the district to continue to strive towards financial and operational transparency with our staff, community and stakeholders.

School Data also provides a similar tool that connects financial and operational data with student achievement. We will continue to review and consider this tool in the future as a potential alternative to existing tools.

I am recommending the approval of an agreement with School Data at an annual cost of \$5,000 with a one time set up fee of \$750.

EPIC Analytics: Informing decisions with Efficiencies, Performance Insights, & Comparability

Proactive fiscal forecasting.

Take control of your district's future with "what-if" scenario planning and color-coded health scores that spot risks before they impact the classroom.

Strategic personnel planning.

Align hiring with real enrollment trends and student needs to secure the right personnel and drive data-informed contract negotiations.

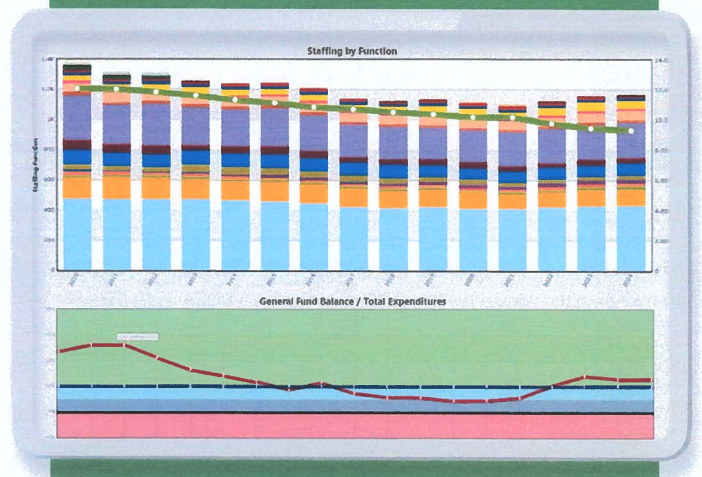

Intelligent peer benchmarking.

Stop guessing how your spending and academic achievement stack up; use objective comparison tools to justify resource allocation to your board and the public.

Transparent performance insights.

Build community trust by transforming complex records into shareable dashboards that connect financial data to student achievement.

Bridge the gap between your district's finances and student achievement by unifying budget, staffing, and performance data.

With this single source of truth, your team can test future scenarios and benchmark against peers, ensuring every dollar is intentionally invested to drive equitable outcomes and build community trust.

One team. One roadmap. One source of truth.

Success in school districts requires more than just managing the present; it requires architecting the future. EPIC Analytics aligns your financial health, personnel strategy, and community trust through a unified platform designed for the entire cabinet.

Budget and forecast with confidence

- Test future scenarios with dynamic “what-if” modeling to predict the impact of shifting revenue or enrollment.
- Assess district health instantly using color-coded fiscal wellness scores.
- Protect your fund balance with multi-year projections and capital project tracking.

Benchmark performance against peers

- Find hidden efficiencies by comparing your spending, overhead, and academic outcomes against custom groups of similar peer districts.
- Demonstrate how resource allocation translates to student success and compare with your peers.

Unify stakeholders with communication

- Streamline reporting with ready-to-use templates for parent meetings, board presentations, and collective bargaining.
- Centralize compliance by tracking safety drills and other state requirements.
- Promote community trust with visual dashboards and reports that tell a clear district story.

Optimize your workforce and resources

- Align hiring and retention with real-time enrollment trends and grade-level progression for optimal pupil-to-staff ratios.
- Lead contract negotiations with objective data on teacher distribution and personnel costs to secure fair agreements.
- Drive educational equity by analyzing building-level staffing to place experienced educators where they are needed most.

“When I get questions, the first thing I say is, ‘Let me show you where that is.’ It’s part of our overall transparency. SchoolData is not just a source that I see, it’s a source that educators can touch and check themselves.”

Jamie Cowan
Assistant Superintendent of Business and Finance
Swartz Creek Community Schools (MI)
