

**Subject: Referendum Update**

**Date: June 16, 2026**

On June 4 and June 9, the district hosted multiple focus group meetings to gather feedback on the unsuccessful March referendum and opinions regarding options for the November referendum. The provided feedback will help the Board of Education determine the appropriate tax rate to include on the ballot, inform the messaging that is essential to the process, and provide perspectives on what voters need to know to make an informed decision this fall. The administrative and communications team continue to analyze the themes of the discussion and the survey participants completed.
