

2025-2026 Audiology Report

Month: July 2026

Administrator: Angela Telfer, Executive Director for Special Education

Update:

During the 2025–2026 school year, KRESA Audiology Services provided comprehensive support to students across all nine districts through hearing screenings, diagnostic evaluations, Deaf/Hard of Hearing (DHH) services, amplification management, consultation, and community outreach. Key accomplishments included 632 DHH student support contacts, 294 Head Start hearing screenings, 110 comprehensive audiological evaluations, and 73 early childhood screenings.

Eighteen students were identified with hearing loss or required additional follow-up. Services focused on ensuring timely identification and intervention, promoting consistent auditory access, and supporting educational teams and families. Continued outreach, collaboration with community partners, and ongoing support for students with hearing needs contributed to improved access to learning and communication opportunities throughout the county. This two-person KRESA team continues to serve Kalamazoo County students with excellence.
