

## **TRANSPORTATION BOARD REPORT FOR**

**JUNE 2026**

**SUBMITTED BY WAYNE BULLCALF**

**Hi all this is my half of May and June report**

**So, for our mechanic shop, they had about 25 workorders completed. Such as breaks, rotors and calipers. Changing tires on school vehicles and buses also service jobs. We had all drivers do a complete end of the year walk-around on all buses So they will find out what needs to be done though out the summer.**

**As for the office, she's getting the final steps completed for the MAPTS training in Great Falls Mt. Also getting the books ready for our annual Glacier County meeting and closing out all bills that need to be paid.**

**So, for the trip personal there were 98 trips in all, there were 35 sport trips and 63 field trips. There was almost not enough work force available to do what needed to be done by the transportation department on daily basis.**

**For the disciplinary department, there were 43 write ups, with 23 removals. The write ups included fighting, vaping, damaging bus seats and swearing at the bus drivers. Most incidents were from the elementary age. So, we're hoping that all the K-5th schools will take advantage of having buster the bus visit their schools to help with these matters.**

**This is my June report thanks for reading God bless.**
