

***Killeen Independent School District
Board Agenda Item Action Sheet***

Date: July 14, 2026

Agenda Item Caption: Consideration of District Educational Facility Specifications

Purpose of Agenda Item: Action needed

Administrative Recommendation: Move to approve the Educational Facility Specifications as presented.

Background Information: On January 12, 2021, the Board approved the District Educational Facility Specifications for elementary, middle and high school facilities. Educational specifications are required by Texas Administrative Code, and they serve to combine a new school facility's instructional program with the physical conditions necessary to see it carried out. They identify not only TEA recommended sizes for spaces, but also the types of furniture, teaching tools, utilities, technology, and spatial characteristics needed to deliver education as intended by the District. They provide the District with a guiding document for planning any future facilities, while also providing instruction to design teams for arranging spaces throughout campuses in the development of plans that respond to the functional needs of education.

Educational Specifications are required by code to be updated every 5 years and are also a required component of the District's Long Range Facilities Master Plan. If approved, staff intend to present the Long Range Facilities Master Plan on August 25, 2026.

Fiscal Analysis: None

Regulatory Requirements: Texas Administrative Code Title 19, 61.1036(a)(2), CS (LEGAL) Facility Standards
