RE: 7.a - Summer Learning Grant

EXPLANATION: The 2026–28 State Summer Learning Initiative, established through House Bill 2007 (2025), created competitive grants for school districts to expand access to high-quality summer learning programs that strengthen literacy and improve student outcomes. The grant supports schools, districts, Education Service Districts (ESDs), Tribes, and community partners in providing engaging, hands-on summer learning opportunities focused on building students' reading and writing skills.

In late spring, Corbett School District was awarded funding through this initiative and is preparing to launch the Summer Learning Academy. The program is designed to accelerate academic growth for students in grades K–9 and aligns with statewide goals to improve literacy and ensure students are reading proficiently.

This evening, district staff will provide an overview of the Summer Learning Academy, including program highlights, implementation plans, and how it supports the district's commitment to accelerating learning while providing enriching, place-based experiences for students.
