

River Trails

SCHOOL DISTRICT 26

To: Operations Committee
From: Ryan Berry
Date: July 21, 2026
Subject: Summer Facility Projects Update

Introduction

Summer is widely considered the "golden window" for facility maintenance projects within our schools. With classrooms empty and hallways quiet, the building and grounds department can tackle facility upgrades, maintenance, and small renovation projects that would be highly disruptive during the academic year. We will review the list of projects below that the team has been working on this summer.

River Trails Middle School

- Classroom #27 renovation
- Flooring upgrade
- 16 Additional ClearTouch Panels
- Stage curtain replacement
- Parking lot sealcoating and striping

Euclid

- Gym doors replacement
- Community garden

Indian Grove

- Parking lot sealcoating and striping
- Gaga pit installation

Prairie Trails

- Parking lot striping
- Playground upgrades

District-wide

- Signage
- Deep cleaning
 - Wiping all furniture
 - Shampooing carpets
 - High dusting and window washing

Ultimately, utilizing the summer break ensures that highly intrusive projects are completed safely and efficiently, allowing schools to open on time in the fall with refreshed, fully operational facilities.
