Re: Superintendents Board Report

Updates

- HB 58 which would eliminate the March and August election dates is making its way through the legislative process. It has passed the House State Affairs Committee and is moving to the full House. This would impact which months we would have available for a plant facility levy or the COSSA levy. The available dates would be May and November. We don't have a supplemental levy so that wouldn't impact us in that regards like it would nearly every other school district in the State of Idaho.
- A new financial literacy bill for students looks to have widespread support. All school districts and public charter schools serving grades 9-12 would be required to teach at least one financial literacy class. Students would learn about bank accounts, investment, credit and loans, insurance, the tax system, budgeting and other financial skills. This could also be included in a current economics class as to avoid finding the time in another teacher's schedule. We don't currently have a teacher that could add this as a standalone course.
