(800) 852-2247

March 27, 2026

Dear Valued Customer,

Ongoing global supply chain disruptions, energy market volatility, and continued production constraints have significantly impacted the availability and cost of polyethylene globally. These factors are tightening supply across North America and driving rapid upward pressure on resin pricing. Our suppliers have announced a further price increase for April as market conditions remain highly dynamic.

In response to these continued resin cost increases, Sigma Commercial Bag. will implement a price increase of 20%, effective on all new orders placed on or after April 20, 2026.

All orders must call for immediate delivery. **Due to severely constrained resin availability and ongoing supply uncertainty, Sigma Commercial Bag. will strictly limit order volumes and allocation.** Order acceptance will be prioritized based on available resin supply, and we may be unable to fulfill all requested quantities. Sigma reserves the right to accept or decline any order, in whole or in part, at our sole discretion.

We recognize the significant impact this increase may have on your business and do not take this decision lightly. These actions are necessary to ensure continuity of supply in an extremely constrained market. Your Sigma Commercial Bag. sales representative is available to work closely with you to help navigate these changes and provide the most up-to-date information possible. We sincerely appreciate your understanding, continued partnership, and support.

Sincerely,

Steve

Stephen N. Schroeder - President, Sigma Commercial Bag of CA & TX
