DATE: July 15, 2026

RE: 6.1 – District Financial Review & Fiscal Processes

EXPLANATION: This spring, the District identified and presented significant fiscal challenges to the Board. Contributing factors included insufficient reconciliation of budgeted versus actual revenues, late and incomplete audits, limited budget monitoring, and revenue projections that exceeded actual collections from previous fiscal years. After hiring an experienced school business expert to conduct a review of District finances, the District is beginning to identify opportunities to strengthen financial reporting, improve budget monitoring, and address ongoing systemic issues such as insufficient financial reporting.

This evening, District staff will provide the Board with a high-level overview of what we've found to date and discuss the fiscal procedure updates that are expected to be developed as the District moves forward with this work.
