

THE BLUEPRINT FOR IMPROVEMENT

Strategic Plan 2026-2027

Deploying a three-pillar framework for immediate acceleration

Priority Goal 1: Increasing Academic Achievement in Core Disciplines

Primary Outcome Target: 90% of students meeting expected ATLAS growth
(Current baselines: Math 26%, ELA 35%, Bio 28%).

Driver	Baseline	Target	Evidence
Standards-Aligned Core Instruction (HQIM)	Inconsistent	85% of classrooms meeting expectations by April 2027.	Weekly walkthrough tools & TESS evaluations.
Checks for Understanding & Biweekly Formatives	Lacked systematic routine.	100% of core teams conducting biweekly formative reviews.	Data meeting minutes & Rocket Hour logs.
Targeted Skill Remediation	Limited to at-risk.	+20% quarterly increase in student mastery of critical standards.	IXL proficiency reports.

Priority Goal 2: Strengthening Talent Support and Learning Conditions

Primary Outcome Target: Establishing a direct, positive correlation between TESS Evaluation scores and ATLAS test growth.

Driver	Baseline	Target	Evidence
Structured Observation & Coaching	Inconsistent correlation to outcomes.	100% of teachers complete at least one formal coaching cycle per quarter.	TESS records & EES Platform schedules.
Frequent Walkthrough Rotations	Variable transparency.	All teachers receive weekly walkthrough data collection from administrators.	Published dashboard data via Google Forms.
Data-Driven Professional Development	Disconnected from real-time needs.	Monthly PD structured exclusively around observation data.	PD attendance logs mapped to EES "look-for" data.

Priority Goal 3: Securing Graduation and Success-Ready Outcomes

Primary Outcome Target: Achieve a 90% 4-Year Graduation Rate (up from 74%) and 30% Success-Ready Graduates (up from 11%).

Driver	Baseline / Context	Target	Evidence
Robust Graduation Readiness Systems	Managing 30% mid-year mobility rate.	100% digital credit tracking sheets; 100% verified seniors by Spring 2026.	eSchool transcripts, digital audits, ACGRS cohort data.
College & Career Readiness Integration	Systems existed but tracking was inconsistent.	90% of seniors complete postsecondary plan, FAFSA, and SAMS.	Advisory attendance, Launch records, FAFSA/SAMS dashboards.

90% ATLAS Growth.
90% Graduation Rate.
100% Accountability.
