E. Appointment of OPEB Custodian, Trustee, and Financial Investment Advisors  
*Approved US Banks to serve as the District's Custodian and Trustee for its OPEB Trust Assets. Approved Public Financial Management (PFM) Asset Management, LLC as the District's Investment Advisor for its OPEB Trust.*

Appointment of  
OPEB Custodian  
Trustee, and  
Financial  
Investment  
Advisors

Several firms responded to the District's "Request for Proposal for OPEB Trust Administration Services". Five firms participated in the initial interviews and two of these firms participated in an in-depth second interview. Upon careful consideration of the committee, each of the selection criteria as well as the needs of the District was evaluated. In making this recommendation, the selection committee is confident that the recommended firms will serve the District well.

It is worth mentioning that the District has many years of direct experience in working with both US Bank and PFM. Currently, US Bank and PFM assist in the management of our operating Funds' cash and investment management program. US Bank is the 6<sup>th</sup> largest U.S. financial services holding company with \$266 billion in assets. PFM currently manages, administers and advises on more than \$34 billion funds primarily for public institutions.

As the District currently uses both companies, our current agreement will simply be amended to reflect and election to use each for OPEB trust services as another service in addition to the services currently being provided.

**ITEM: A. East Middle School Student Presentation**

**COMMENTS BY: Dr. Jane Sigford**

The Little Buddy Book Program pairs an interdisciplinary focus of geography and language arts classes with the opportunity for our East Middle School students to serve as a mentor to their Little Buddy. At the beginning of the year, each 8th grader is paired with a 2nd grader from one of our feeder elementary schools. We arrange a visit to the elementary schools in the fall, exchange pen pal letters throughout the year, visit the elementary schools again in February, and celebrate with our Little Buddy Day in May.

We are fortunate to have two of our scholars, Mary Grismer and Jenny Lai, join us to discuss their experience with their Little Buddies. Both of these students created extraordinary books for their Little Buddies. Their achievements are all the more impressive as they each had two 2nd grade buddies.

Mr. Paetzel will introduce the students who will share some of their experiences with us.

**COMMENTS BY: Superintendent Anderson**

Three Wayzata Middle School students placed at the Minnesota History Day contest this year.

**Elise Olsen, Haley Larsen and Sophie Leininger**, all seventh grade students from West Middle School, earned third place in the state competition. The three students are taught by Mandy Kraus.

History Day is a co-curricular program that encourages young people to explore a historical subject related to an annual theme. The 2009 theme is “The Individual in History: Actions and Legacies.” Students make history come alive as their research leads to imaginative exhibits, original performances, informative documentaries and historical research papers. Students in grades 6 through 12 participate in History Day events. Historians, educators and professionals in related fields evaluate their work at different stages. Students participate in regional History Day events at which some are selected to advance to the statewide History Day held at the University of Minnesota, Twin Cities campus. Top entries in each category in the state competition are eligible to participate in the National History Day contest in June near Washington, D.C.

**COMMENTS BY: Superintendent Anderson**

The Promising Young Writers program represents NCTE's commitment to early and continuing work in the development of writing. The school-based writing program was established in 1985 to stimulate and recognize student's writing talents and to emphasize the importance of writing skills among eighth-grade students.

Students who are eighth-graders in the present academic school year are eligible to be nominated for the Promising Young Writers program. Students must be nominated by their teachers. Home-schooled students may submit through a cooperating school.

This year, **Laura Isdahl**, an eighth grade student at West Middle School, received a certificate of recognition for the Young Writers program. She was one of only three students in Minnesota to be recognized. Laura is taught by Cassidy Rice.

**Indicate the District student academic achievement goal for the Q Comp plan:**

Improve student achievement in the areas of reading and math as measured by performance on Measures of Academic Progress (MAP).

**Indicate the Q Comp school wide student academic achievement SMART goal:**

57.18% of all students who participate in Spring MAP testing will meet or exceed their individual NWEA Reading RIT growth target score.

**Provide the rationale and supporting data used to determine the above Q Comp schoolwide goal.**

**a) Rationale for this goal:**

This goal was determined using the one year of achievement data available at Wayzata East Middle School and the district data representing the impact of mobility for the Wayzata Schools. The average percent of 6<sup>th</sup>, 7<sup>th</sup>, and 8<sup>th</sup> grade students who met or exceeded their Reading RIT target score was 58.76. ( $67.2 + 52 + 57.1$  divided by  $3 = 58.76$ ) The district data indicating the impact of mobility from the spring of 08 to the fall of 08 shows a decrease of 3.58 percent of students who met or exceeded their target Reading RIT score. This decrease can be seen by comparing the NWEA School Overview Report dated fall of 2008 to the same report dated June of 2008, (which lists the percent of students at each grade level who met or exceeded the Target RIT score). With this trend data, the percentage of students who met or exceeded their reading RIT target score would be 55.18. The goal, 56% of all students who participate in spring MAP testing will meet or exceed their target Reading RIT score, is an increase in achievement that also takes into account the new 2008 NWEA Norms. The 2008 NWEA Norms information states that districts might notice a slightly smaller proportion of kids at the high end of the RIT scale for their grade exceeding their target growth norms than they saw with the 2005 norms. As indicated in the chart below, the district has a high number of high achieving students, which could result in a smaller proportion of kids exceeding their target growth norms.

**Indicate the action plan for the Q Comp school wide goal:**

**1. Create a literary-rich environment in all classrooms**

- Homeroom teachers will read common literature (books, vignettes, articles)
- Common Language and Visual Cues in all classrooms (will include NUA strategies)
- Word Walls (content-specific vocabulary words displayed on a wall or bulletin board in classroom)
- Individual teachers, teams and school wide we will create opportunities to share “a love of reading” with our students.

**2. Training Teachers**

- Commitment to updating/training teachers new to our building
- Train teachers in more effective team meeting strategies that focus on student learning.
- Offer out of school professional study groups that address student literacy needs (may or may not include an AWE class)
- Professional Growth Plan Goals will reflect action plans that address student literacy needs
- Use classroom visits and observations to gain feedback about reading instruction in individual classrooms.
- Train a 2<sup>nd</sup> cohort of teachers in the National Urban Alliance (NUA) strategies related to vocabulary, comprehension skills and thinking maps. Using the train the trainer model, these teachers will come back and hold workshops for the rest of the staff.

**3. Identify and support all readers not meeting his/her target growth**

- Continue implementation of the Read 180 program to service the needs of our struggling readers.
- Continue to utilize team meetings to discuss specific readers and create individualized learning plans to foster growth in our classrooms.
- Continue to use Just 5 Clicks data for identification purposes.

Become more aware of ALL of our readers not meeting targeted growth and be open to differentiation strategies to meet their developmental needs.

ZAP Program – Zeros Aren't Permitted

What is ZAP?

It's a shift in how we look at zero grades for missing work. Research states receiving zeros does not teach responsibility but reinforces underachievement and poor grades.

The goal of the 'ZAP' program is to encourage all students to be responsible and successful at school as well as improve overall academic achievement through the reinforcement of materials by improving student understanding of subject matter. Homework should reinforce classroom instruction and increase understanding of the material.

**Strategies/Activities: (copy format if need more)**

**ZAP 1**

If you do not turn in an assignment on the due date you will receive a ZAP TICKET stating that you have until the next school day to complete the assignment and turn it in to the teacher without penalty. (Warning or Head's Up)

**ZAP 2**

If the student fails to turn the assignment in the next school day the teacher will complete a ZAP Form and you must stay after school to complete the work. If the assignment is completed before the end of that day the student can turn it in and be removed from the ZAP List and not be required to remain after school. Student should have the teacher initial their planner indicating you are 'off Zap' and show this to the ZAP supervisor. If the student is unable to complete the assignment before 3:10 he must go to the Media Center to complete the work. Once it is completed, the student turns the work in to the supervisor and is then removed from the list. The student can then leave and participate in after school activities or go home.

**ZAP 3**

If the assignment is still missing, the student will receive a 'working lunch' and is allowed to go to the head of the lunch line, get a lunch, grab their homework and report to the designated classroom to complete the assignment. If the assignment is finished before the end of the lunch period the student can return to the cafeteria. If the assignment is not finished during lunch the student must remain after school to finish the assignment.

- It is the students responsibility to complete the school work and turn it in to the teacher.
- It is the students responsibility to have the teacher initial their planner to indicate the assignment is complete in order to be removed from the ZAP list and not be required to remain after school.

**Status:**

**Date Completed:**                      **Ongoing: X**

- The ZAP program will be implemented at the start of the next school year and run Monday through Thursday when school is in session. The results of the program indicate a significant increase in the amount of homework completion directly impacting the final grade at the end of each quarter. Feedback from teachers strongly recommends the continuation of the ZAP program at EMS.

**Person/Group Responsible:**

Individual teachers – record student name, missing work and submit list on a daily basis.  
 Paraprofessional – Karen Ortman - compiles and prints off all ZAP forms and daily list.  
 Amy Van Dunk, School Social Worker – supervises program, collects completed assignments and turns them into teachers at the end of the ZAP program.

**Timeframe:**

Current: Began at start of 3<sup>rd</sup> Quarter (1/26/09) and continues through 4<sup>th</sup> quarter.

Summer plan: compile data of students

- Gather list of students who received D/F's; compare with the number of missing assignments recorded in grade book; determine how often student was Zapped and how often student remained after school and completed the missing assignment.
- Work with technology specialist to determine if a ZAP form can be sent to the parent of the student via email when a teacher submits a form to the para.
- Restructure the after school program to include the ZAP program.
- Discuss the possibility of using the last 3-5 minutes of the school day to gather the students who have been placed on the ZAP list and have them report to the media center in order to ensure student do not leave school.
- **2009 -2010 SCHOOL YEAR:** Implement the ZAP program at the start of the school year.

**Strategies/Activities: (copy format if need more)**

- The advisory committee focused on two main aspects of EMS's advisory program. The first focus was creating curriculum organized by monthly themes. We developed a routine for each day of the week to keep the curriculum regimented. Mondays were a recap of the weekend and an overview of the week ahead. Tuesdays and Wednesdays were curriculum days about the monthly themes; this usually involved reading and discussing since our site's goal is to improve reading. Thursdays emphasized journaling and conferencing while Fridays were reserved for celebrations and competitions. The second focus was to evolve the advisory program into something useful and fun for the students and staff. We constantly self-assessed to improve communication, delivery of materials, curriculum, and the overall moral of the building towards advisory. Besides reflection, the committee is using student and staff surveys to continue to tweak our performance.

**Status:**

**Date Completed:**                      **Ongoing: X**

- **Full Implementation of the Advisory program will be achieved in the 2010 – 2011 school year. At that time all students will experience three consecutive years of advisory.**

R. Thomas Gillaspay, State Demographer  
State Planning Agency  
Room 300, Centennial Office Building  
658 Cedar Street  
St. Paul, MN 55155

Dear Mr. Gillaspay:

The Wayzata Public Schools ISD # 284 would like to submit a new population estimate of **58,355** as of June 2009.

Our new estimate of **58,355** represents a 1,062 increase from our 2007 estimate of 57,293. I have attached the extract of minutes from our School Board meeting on June 8, 2009. Below is the rationale we used to come up with this revised estimated population.

Wayzata Public Schools ISD # 284 serves all or a part of the municipalities of Corcoran, Maple Grove, Medicine Lake, Minnetonka, Orono, Plymouth and Wayzata. While most of our cities in the southern and eastern portion of our district were mature and largely fully developed at the time of the 2000 census, the northern part of our district was largely agricultural and undeveloped. Our district's student enrollment has grown and two of our cities, Plymouth and Maple Grove, have seen robust growth since the 2000 census was prepared. According to the City of Plymouth, the City of Maple Grove, and the Metropolitan Council, the population of the Wayzata Public Schools has grown approximately 7.98% since the 2000 census.

From the attached map, you can see that the Wayzata Public Schools ISD # 284 northern part of the district is currently in a developmental phase and that the district continues to anticipate an increase in its population over the next decade.

If you have any questions, please contact me. Thank you for your assistance.

Sincerely,

James Westrum  
Executive Director of Finance and Business
