Mrs. Odens' September, 2018 School Board Report

We are off to a great start to the school year. The PTO Ice Cream Social and Meet the Teacher Night was well attended. The students seem to be adjusting to their schedules and the enforcement of policies. Teammates had a rootbeer float kick off for the mentors and mentees on Thursday, September 6th.

The students in grades K-6 have started MAP testing. The teachers have worked out their own schedules and will complete all testing by September 27th. We will test the students again in December before Christmas Break. The teachers will use the data from MAP testing to help plan differentiated activities in their lessons and during their RAMP/RTI time.

AIMSWEB testing is happening in grades K-6 September 11th and 12th.

The PBIS monthly team meeting was on September 4th. The action plan and timeline was created with the help of our coordinator, Linda Clavel. A survey was sent out to the teachers to help decide on our umbrella expectations and the 5-7 areas common school area that we want to focus on to start the process.

Enrollment Numbers as of 9/6

K-39 students
1st-51 students
2nd-45 students
3rd-48 students
4th-61 students
5th-41 students
6th-64 students

Total students K-6 is 349.

7-12 Principal Report: September 2018

The school year got its official start on August, 23rd. Students in grades 7-12 spent the first hour of the day in the auditorium reviewing rules and expectations for the year. During the second hour of the day students in grades 7-8 worked with teachers to learn about the opportunities that they will have this year for participation in extracurricular activities. Students in grades 9-12 had class meetings with their elected officers and student council representatives, they worked together to design their class T-shirts. Local financial institutions pooled their money together to sponsor a class t-shirt for each student in grades 9-12. The t-shirts have recently been completed and distributed to students. Sponsors of the shirts included Farm Credit Services of America, Pinnacle Bank, Waypoint Bank, Imperial Credit Union, and Adams Bank & Trust.

Overall the school year is off to a great start. While most new policies have been well received students have expressed concerns about others. I have been working with the student council to listen to their concerns and work out ways to improve our school. Overall, things are going well.

A major effort has been put forth in scheduling students, with the goal of improving learning and ACT Test scores. The ACT serves as the State's evaluation tool and also has a considerable impact on if students will be admitted to college, which colleges they can be admitted to, and how much money will be available to them in the form of scholarships. The biggest change has been scheduling students so that they will have a math class each year leading up to the ACT test their 11th grade year. We have also put restrictions on the use of Odysseyware online classes in an effort to increase rigor for students to better prepare them for their future.

Students in grades 7-12 are in the process of completing their first round MAPS tests in the areas of Math, Science, and Language Arts. MAPS is a testing program that allows teachers to see which areas students are excelling and those where they need improvement. We will test students again in the middle of the year and at the end of the year. The data generated by the MAPS tests are used by teachers to help guide their instruction. Our expectation is that we will see growth from students between each test.

Enrollment numbers as of 9/5/2018 for 7-12 are as follows:

7th Grade - 52 students	8th Grade - 42 students	9th Grade - 46 students
10th Grade - 44 students	11th Grade - 52 students	12th Grade - 38 students

Community RelationsStatement of Intent

It is the desire and intent of the Board of Education that there be continuous planned public relations activities for all participants in the school community - for students, staff, parents and for the public at large. The public relations efforts should emanate from the school, as well as from the administrative offices.

Because the Board is proud of the staff, students and the school, public relations activities should encompass all areas of school life, including regular instructional activities, special events of unusual interest, extra-curricular activities, accomplishments of students and staff and Board of Education activities.

The purpose of the public relations activities shall be to inform so that all participants in the public education endeavor may gain pride in and understanding of their schools.

Methods of Communication

The Board of Education will use various media to keep the public informed—including news releases on the school website, to the area newspapers, issuance of newsletters, school newspapers, presentations before parent groups and other community organizations.

All Board of Education publicity releases shall be made through the Superintendent. The Superintendent shall establish procedures for the dissemination of information regarding deliberations and decisions of the Board of Education. The Superintendent shall also establish procedures for the dissemination of local school news, emphasizing student and staff activities and achievements.

Community RelationsVisiting School

Parents and other interested individuals are encouraged to visit school and are to be made welcome by the respective building staffs and student bodies. Under ordinary circumstances, the teacher being visited by a parent should continue with the regular classroom work. It is desirable that any individual parent-teacher conference be held before or after school in order that the normal instructional activities not be disrupted.

Contacts during school hours with non-school individuals and agencies for materials, service, or programs may be made only with the approval of the principal.

For security reasons, all school personnel and students are asked to see that all visitors are courteously directed to the building principal's office. In addition, the administration may exercise its discretion and has the authority to direct that certain individuals who may pose a threat of harm to students or staff or who may create or have created a disruption to the educational program be prohibited from being on school grounds.

Employees in school buildings shall report to the principal immediately any person loitering on or near the school grounds. If necessary, the principal will notify the appropriate law enforcement agency to investigate the situation.

Community RelationsCitizen Communication to the Board of Education

The Board of Education recognizes the necessity for open communication with students, parents, patrons and staff but is also aware that a procedure for processing concerns and complaints is imperative to the normal operations of the District. It is the intent of the Board that concerns and complaints be resolved at the lowest possible level.

Complaints Made to Individual Board Members

Members of the Board of Education have no authority or power to act on behalf of the Board or the District except when acting as a member of the entire Board at a duly called board meeting or when acting with express, specific authority granted by the Board or by law. Should any member of the Board be approached by a student, parent, patron or staff member who has a concern or complaint, the member should:

1. Listen attentively to the concerns but not take any inflexible position.
2. Instruct the individual about the District's process for resolving concerns and complaints and direct the individual to the appropriate complaint or grievance procedure or to the Superintendent for information concerning such procedures. If the concern or complaint involves a teacher, the individual should be informed to discuss the matter with the teacher first.
3. Inform the Superintendent of the concern.

The Board and the District shall not be bound in any way by the action or statement on the part of any individual Board member or committee, except when such statement or action is taken or made in conformance with express, specific authority granted by the Board or by law.

Complaints Made to the Board

Concerns or complaints may be made to the Board of Education at a duly called Board meeting at such time as the agenda provides for public participation or comment.

In the event the complaint involves a personnel matter relating to an employee of the District, the individual raising the complaint shall be directed to first exhaust the appropriate complaint or grievance procedure. The board shall not respond or take action on such a complaint until such complaint or grievance procedure has been exhausted, unless it is determined by the Board, under the circumstances, that an immediate response or action is required.

Individuals raising concerns or complaints involving non-personnel matters which may be the subject of a complaint or grievance procedure may also be directed to first use such complaint or grievance procedure.

Community RelationsParent/Patron Comment Forms

Parents and patrons may file a comment with the Superintendent. Comment forms are available in the office of each building. These forms are intended to help resolve issues, arbitrate disputes, facilitate understanding, recognize achievements, and commend success.

Comment forms which have been properly filed with the Superintendent which directly involve a staff member shall be forwarded to the staff member's immediate supervisor for analysis, discussion, and resolution. The forms shall be retained in a separate confidential file in the office of the staff member's immediate supervisor for a period of three years. At the end of the three year period they may be discarded. Comment forms shall not be placed in the staff member's personnel files unless deemed appropriate by the Superintendent or immediate supervisor.

The Superintendent shall further ensure that the School District implements a systematic on-going process that guides planning, implementation, and evaluation and renewal of school improvement activities to meet local and statewide goals and priorities. Community RelationsCommunity Use of School Facilities

School facilities are primarily intended for the District's educational and extracurricular activity programs. School facilities are, however, made available for use by outside groups to further the interests of the District and the community. Use by non-school groups is allowed pursuant to an application process and is subject to the terms and conditions set forth in this policy.

1. Application for Use.

Outside groups that wish to use school facilities must submit a completed Application for Use form signed by a representative of the outside group who has authority to commit the outside group to the terms and conditions of the Application. The outside group, as Applicant, shall specify the nature of the intended use, the dates and times of the requested use, and the facilities for which use is requested.

The form shall be developed by the administration. The form shall include the statement that:

This application is subject to the terms of the Board's "Community Use of School Facilities" policy. The terms and conditions of that policy are incorporated into this application by this reference. Applicant accepts all such terms and conditions.

2. Acceptance of Application for Use.

Acceptance or rejection of applications shall be the responsibility of the Superintendent or the Superintendent's designee.

Applications shall not be rejected for any unlawful reason, including unlawful discrimination on the basis of race, national origin, gender, religion, disability, age, marital status, or veteran status, and including the applicant's legally protected exercise of constitutional or statutory rights.

The District's facilities are designated as nonpublic forums. Accordingly, applications shall not be accepted for:

- a. Uses that may conflict with or that disrupt the District's educational or extracurricular activity programs.
- b. Uses inconsistent with the mission of the District.
- c. Uses that present an unacceptable risk that the conditions of use set forth in this policy will not be adhered to; either due to the nature of the requested use or the character of the group or individuals within the group.
- d. Uses that present an unacceptable risk of damage or unacceptable wear and tear to facilities or equipment.

- e. Uses for outside commercial activities except with approval of the Board; and except for camps and other activities for high school students subject to and consistent with Bylaws of the Nebraska School Activities Association.
- f. Uses that involves gambling or games of chance.
- g. Uses that involves a group or activity which advocates or condones the violent overthrow of the Constitution or of the government.
- h. Uses that involve the meetings of secret clubs not open to members of the public.
- i. Non-community type uses such as wedding receptions, slumber parties, personal use and similar activities.

Applications for use of facilities may be denied based on unsuitability of the date or time of the requested use. Facilities will generally not be available for community use at times when school staff are not available to monitor the Applicant's use, such as on legal holidays; before 7:00 a.m.; after 10:00 p.m. and Sunday mornings prior to Noon.

Leases of school facilities require approval of the Board. As such, Applications that request long-term use of facilities in the nature of a lease will be denied.

Applications may be denied based on the determination of the Superintendent or the Superintendent's designee that the Applicant does not have the financial ability or financial responsibility to pay fees or expenses or to reimburse the District for any damages that may be sustained to facilities or equipment or any liability that may be created by the use.

When an Application conflicts with another Application, the Applications will be accepted according to the following priority order:

- a. Events or activities that are designed to service students of the District or which are related to any function of the District, including approved school-community associations and school-affiliated non-profit groups.
- b. Tax-supported agencies such as educational entities or units of city, county or state government.
- c. Nonprofit community agencies such as private educational agencies.
- d. Groups where the majority of the members reside within the District.

For use conflicts within each group, priority will be given to the first to submit their Application; provided that the Superintendent or the Superintendent's designee may approve an Application that is not first-filed if the other Applicant's use could be feasibly changed to a non-conflicting time or area.

Applications that are accepted may not be assigned or transferred to another outside group.

Applications that are accepted are subject to cancellation by the Superintendent or the Superintendent's designee. Cancellation will occur in the event the administration reasonably determines:

- a. Any of the reasons for non-acceptance of an application exist.

- b. The Applicant fails to meet any term or condition required prior to the use. This includes but is not limited to failure of the Applicant to pay required fees or deposits or failure to show evidence that any required insurance is in place.
- c. Circumstances make the use unsuitable. This includes but is not limited to:
 - i. The condition of the facilities being unsafe. For example, the presence of snow, ice, fallen limbs or other potential hazards that the school would not otherwise clear prior to the activity or event. The Applicant may request that the District clear the hazards such that it may proceed with its activity or event. If the District agrees to do so, the Applicant shall be responsible for all costs incurred by the District in clearing the hazard.
 - ii. School staff being unavailable to monitor the use or to provide set-up or clean-up services where the District has accepted responsibility for such.
 - iii. The need to use the facilities for a school activity or purpose.

Generally, if school is closed on the date of the Applicant's intended use due to inclement weather or hazardous conditions, the Applicant's use will be cancelled.

The Applicant shall remain responsible for fees or expenses, and any deposit that has been received by the District shall be forfeited and be kept by the District, if cancellation occurs because of the fault of the Applicant. Otherwise, the District will return any deposit that has been received by the District. The District will in no event be responsible for any damages, expenses, or losses incurred by the Applicant or any person arising from the cancellation.

An Applicant may withdraw its Application at any time prior to acceptance. An accepted application may be withdrawn by the Applicant, subject to approval of the Superintendent or the Superintendent's designee. Approval is subject to the conditions that the Applicant has given reasonable advance notice (ordinarily, at least 48 hours) and that the Applicant reimburse the District for any expense the District has incurred.

3. Conditions of Use.

The conditions for use are as follows:

 - iii. Comply with reasonable administrative rules related to use of facilities and the requests of school officials related to the Applicant's use of the facility.
- b. Disclaim School Sponsorship. The District does not sponsor or endorse the Applicant or the activity or event conducted by the Applicant. To ensure that the public understands this fact, the Applicant agrees to not make any statements

suggesting such sponsorship and to publish statements of non-school sponsorship in such form and manner as the administration may request.

- c. Supervision. Applicant agrees to provide appropriate supervision of the activity or event in all respects, including supervision reasonably necessary to ensure that no person participating in or attending the activity or event:
- i. Is presented with conditions that pose an unreasonable risk of personal injury or damage to personal property.
 - ii. Enters any area of the school facilities that the Applicant has not been given permission to use, or accesses any school records.

 - iv. Possesses a firearm or a weapon.
 - v. Engages in disorderly, lewd, or lascivious conduct.
 - vi. Engages in any criminal behavior.

Applicant shall remove any person from the activity or event who engages in any of the above listed conduct. Applicant agrees to report to the school administration by the close of the next business day the identity of any person who engaged in any of the above listed conduct and the details of the conduct. If the offending person is a student, the report shall be made immediately.

In the event the school administration determines that the nature of the activity or event warrants the presence of security services, Applicant agrees to provide such security services.

Applicant agrees to ensure that all persons attending its activity or event are off school grounds at the end of its time of permitted use, except for students or school staff who are authorized to remain for a school-related purpose.

- d. Condition of Premises. Applicant agrees to:
- i. Conduct a reasonable inspection of the premises prior to the activity or event to ensure that the premises are safe for the intended use. In the event of any unsafe condition, Applicant shall notify an administrator. - vi. Not allow the wearing of street shoes or shoes with black soles on gym floors or other protected surfaces.
 - vii. Not park or allow others to park in fire lanes or reserved spaces or in any manner inconsistent with the school's parking rules.
 - viii. Not cause or allow others to cause damage to school facilities or equipment.
 - 1. In the event damages are sustained, Applicant accepts responsibility for reimbursing the District for the cost of repair or replacement.
 - 2. Applicant agrees that the school administration's determination that damage was sustained in connection with the Applicant's use, and of the cost of repair or replacement, is controlling.
 - 3. Applicant shall immediately report to the school administration any damage to school facilities or equipment that occurs during the Applicant's use of school facilities that may present a risk of injury to students or any subsequent users. Any other damage shall be reported by the close of the next business day.
 - ix. Return the facilities in as good a condition as it was prior to use. This includes, without limitation, cleaning, removal of trash, and returning tables and chairs and other school property to their proper location. The clean-up shall be promptly completed. In the event the District provides the clean-up service, Applicant agrees to reimburse the District for the cost of such clean-up.
 - x. Remove any property brought in by the Applicant and by any person attending the activity or event. The District is not responsible for any personal property that is left on the premises.
- e. Financial Responsibility. Applicant agrees to:
- i. Procure, at its own expense, a Comprehensive General Liability insurance policy naming the District as an additional insured. This policy shall be written with a minimum of \$1,000,000 Combined Single Limit per occurrence. A Certificate of Insurance evidencing coverage must be submitted prior to the Applicant's use.
 - ii. The insurance requirement is subject to waiver by the Superintendent or the Superintendent's designee only in circumstances where the intended use presents very little potential for injury or damage and the activity or event is designed to serve the District's students or staff.
 - iii. Indemnify and hold the District, the Board, school employees and agents of the District harmless from any and all claims, demands, causes of action, or lawsuits for any death or personal injury or damage to property sustained during, caused by or arising out of the Applicant's use of school facilities.

4. Fees for Use.

The Superintendent or Superintendent's designee shall establish a daily use fee schedule that establishes rates for specific parts of the school facilities (that is, kitchen, auditorium, gymnasium, athletic field, classrooms, meeting rooms). The rates shall be reviewed on a periodic basis; with the review to occur no less than every two years.

The fee rates shall be in an amount sufficient to cover estimated staff time and direct costs associated with:

- a. Processing. Cost of processing the Application, postage, invoicing and coordination of the use.
- b. Access. Cost of providing access; such as unlocking doors before use and locking after use, turning lights on and off, and disarming/re-arming security systems.
- c. Custodial. Cost of providing custodial or maintenance services to prepare the facility for the use and for clean-up after the use.
- d. Kitchen. Cost of providing access to the kitchen facilities; as ordinarily any permitted use of the kitchen will require the presence of a member of the school's food service staff.
- e. Special Equipment. Cost of making special equipment available such as sound and lighting set-up; as ordinarily any permitted use of special equipment will require the presence of a member of the school's staff who is familiar with proper use of the equipment.
- f. Monitoring. Cost of administrative or other professional staff to monitor the Applicant's use to ensure compliance with the terms and conditions of the permitted use.
- g. Security. Cost of providing security services when determined to be needed for the activity or event.

The fee schedule shall be applied evenly to all Applicants, with two exceptions:

- a. A different fee may be assessed where the Superintendent or Superintendent's designee reasonably determines that the Applicant's use will require staff time or cause direct costs different than those used in establishing the fee schedule.
- b. A fee waiver or reduced fee rate shall be given for use where the activity or event is designed to serve students of the District or children; such as approved school-community associations and school-affiliated non-profit groups and summertime sports leagues, sports camps, etc., that are subject to NSAA regulations.

5. Use Consistent with NSAA Bylaws.

Use of school facilities for activities that are subject to the Bylaws of the Nebraska School Activities Association (NSAA) shall be permitted subject to and in accordance with the NSAA Bylaws. Such use shall be consistent with this policy for non-school groups. Examples of acceptable use of school facilities for activities are:

- a. Summer Leagues. There must be evidence that the organization or individual conducting the league has rented or leased the facility (for example, via an Application for Use) to prove the school is not involved in its sponsorship or funding.
- b. Commercial Sport Camps/Clinics. School facilities for use by individuals, including the District's own coaches or other organizations for commercial camps/clinics or schools. Camps conducted by high school coaches shall be publicized as open to all area individuals wishing to attend and not limited to students from the coach's high school.
- c. All-Star competition that involves graduated seniors.
- d. Competitive meets and contests sponsored by non-school groups.
- e. Facilities approved under the above stipulations include: gymnasiums, tracks, swimming pools, tennis courts, athletic playing fields, and baseball and softball diamonds.

Community RelationsUse of School Facilities: Student Groups and Scouts

1. Equal Access to Student Groups. In the event any of the secondary schools (grades 6-12) have a limited open forum as defined in the Equal Access Act, such school(s) shall not deny equal access or a fair opportunity to, or discriminate against, any students who wish to conduct a meeting within that limited open forum on the basis of the religious, political, philosophical, or other content of the speech at such meetings. A limited open forum for this purpose exists if the secondary school grants an offering to or opportunity for one or more noncurriculum related student groups to meet on school premises during noninstructional time.

All such student meetings at school are subject to the following requirements:

- a. the meeting must be voluntary and student-initiated;
- b. there must be no sponsorship of the meeting by the school or its agents or employees;
- c. employees or agents of the school are present at religious meetings only in a nonparticipatory capacity;
- d. the meeting must not materially and substantially interfere with the orderly conduct of educational activities within the school; and
- e. non-school persons may not direct, conduct, control, or regularly attend activities of the student group.

The administration shall in all respects maintain the District in compliance with the Equal Access Act.

2. Equal Access to Scouts. If the District provides an opportunity for one or more outside youth or community groups to meet on school premises or in school facilities before or after school hours, the District shall not deny equal access or a fair opportunity to meet to, or discriminate against, any group officially affiliated with the Scouts of America. The same principles apply to any other youth group listed in Title 36 of the United States Code as a “patriotic society.” The administration shall in all respects maintain the District in compliance with the Scouts of America Equal Access Act.

The use of school facilities for student meetings and Scouts as provided above shall be subject to the same provisions as other community, non-school groups and may be required to complete a community use application as and to the same extent as other noncurriculum related student groups (in the case of student meetings) and other outside youth or community groups (in the case of the Scouts).

For purposes of this policy, discrimination or harassment based on a person's sex, disability, race, color, religion, veteran status, national or ethnic origin, age, marital status, pregnancy, childbirth or related medical condition, or other protected status, is prohibited. The following are general definitions of what might constitute prohibited harassment.

- a. In general, ethnic or racial slurs or other verbal or physical conduct relating to a person's sex, disability, race, color, religion, veteran status, national or ethnic origin, age, marital status, pregnancy, childbirth or related medical condition, or other protected status, constitutes harassment when they unreasonably interfere with the person's work performance or create an intimidating work, instructional or educational environment.

- b. Age harassment has been defined by federal regulations as a form of age discrimination. It can consist of demeaning jokes, insults or intimidation based on a person's age.
- c. Sexual harassment has been defined by federal and state regulations as a form of sex discrimination. It can consist of unwelcome sexual advances, requests for sexual favors, or physical or verbal conduct of a sexual nature by supervisors or others in the work place, classroom or educational environment.

Sexual harassment may exist when:

- (a) Supervisors or managers make submission to such conduct either an explicit or implicit term and condition of employment (including hiring, compensation, promotion, or retention);
- (b) Submission to or rejection of such conduct is used by supervisors or managers as a basis for employment related decisions such as promotion, performance evaluation, pay adjustment, discipline, work assignment, etc.
- (c) The conduct has the purpose or effect of unreasonably interfering with an individual's work or educational performance or creating an intimidating, hostile, or offensive working, class room or educational environment.

Sexual harassment may include explicit sexual propositions, sexual innuendo, suggestive comments, sexually oriented "kidding" or "teasing", "practical jokes", jokes about gender-specific traits, foul or obscene language or gestures, displays of foul or obscene printed or visual material, and physical contact, such as patting, pinching or brushing against another's body.

2. **Procedures:**

- a. Employees or students should initially report all instances of discrimination or harassment to their immediate supervisor or teacher. However, if the employee or student is uncomfortable in presenting the problem to the supervisor or teacher, or if the supervisor or teacher is the problem, the employee or student is encouraged to go to the next level of supervision.
- b. If the report is not satisfactorily resolved within ten calendar days, or if the discrimination or harassment continues, please report your complaint to the Superintendent of Chase County Schools.

- c. If a satisfactory arrangement cannot be obtained through the Superintendent, the complaint may be processed to the Board of Education.
- d. The person to whom the complaint is made is to thoroughly investigate the complaint and work with the person filing the complaint to seek an appropriate resolution so the discrimination or harassment can be remedied and put to an end.
- e. Complaints of discrimination or harassment will be treated with the utmost confidence, consistent with resolution of the problem.

Service Animals

Individuals with a disability shall be permitted to use a service animal on school premises as and to the extent provided by law.

1. Definition of Service Animal

A service animal is a dog that is individually trained to do work or perform tasks for the benefit of an individual with a disability. Other species of animals are not service animals for the purposes of this definition, though miniature horses are in certain circumstances entitled to similar treatment.

The work or tasks performed by a service animal must be directly related to the handler's disability. Examples of work or tasks that a service dog may perform to meet this definition include:

- Navigation: assisting individuals who are blind or have low vision with navigation and other tasks,
- Alerting: alerting individuals who are deaf or hard of hearing to the presence of people or sounds,
- Protection: providing non-violent protection or rescue work,
- Pulling: pulling a wheelchair,
- Seizure: assisting an individual during a seizure,
- Allergens: alerting individuals to the presence of allergens,
- Retrieving: retrieving items such as medicine or the telephone,
- Physical support: providing physical support and assistance with balance and stability to individuals with mobility disabilities, and
- Interrupting behaviors: helping persons with psychiatric and neurological disabilities by preventing or interrupting impulsive or destructive behaviors.

Work or tasks that are excluded from meeting the definition are:

- Guard dogs: the crime deterrent effects of an animal's presence and
- Companion dogs: the provision of emotional support, well-being, comfort, or companionship.

2. Permit Presence of Service Animals

An individual with a disability shall be permitted to be accompanied by his or her service animal in all areas where members of the public, participants in services, programs or activities, or invitees, as relevant, are allowed to go. A bona fide trainer of a service animal also has the right to be accompanied by such animal in training. The individual may not be required to pay an extra fee for the service animal to attend events for which a fee is charged.

Service animals may be excluded from school premises if:

- a. The service animal is out of control and the service animal's handler does not take effective action to control it;
- b. The service animal is not housebroken; or
- c. The presence of the service animal poses a direct threat to the health or safety of others. To determine whether a "direct threat" exists, an "individualized assessment" is to be made to ascertain: the nature, duration, and severity of the risk; the probability that the potential injury will actually occur; and whether reasonable modifications of policies, practices, or procedures or the provision of auxiliary aids or services will mitigate the risk.

3. Control of the Service Animal.

The service animal must be under the control of its handler. In most cases, the dog must have a harness, leash, or other tether. The service animal does not need to be on a leash, however, if the handler is unable because of a disability to use a leash. A leash is also not required if it would interfere with the service animal's safe, effective performance of work or tasks. If either of the leash exceptions applies the service animal must be under the handler's control via voice control, signals, or other effective means.

4. Responsibility for Care or Supervision.

The school district is not responsible for the care or supervision of the service animal. The individual with the service animal shall be liable for any damage done to the premises or facilities or to any person by such animal.

5. Inquiries.

When addressing a service animal matter, staff shall not ask about the nature or extent of the person's disability.

Staff may not ask questions about the dog's qualifications as a service animal when it is readily apparent that the dog is trained to do work or perform tasks for an individual with a disability. Examples include where the dog is observed guiding an individual who is blind or has low vision, pulling a person's wheelchair, or providing assistance with stability or balance to an individual with an observable mobility disability.

Where it is not readily apparent that the dog qualifies as a service animal, staff may ask if the dog's presence is required because of a disability and what work or task the dog has been trained to perform. Staff may not require documentation, such as proof that the dog has been certified, trained, or licensed as a service animal.

Community RelationsFund Raising Activities

Fundraising is the selling of a product, providing a service or activity, or requesting donations of any kind. School fundraising directly funds school programs and student organizations.

A. General Guidelines.

The School Board of Chase County Schools recognizes a desire and a need for ongoing fundraising support. The school board also recognizes a need for restraint to prevent fundraising activities from becoming too numerous and overly demanding on employees, students, and the general public.

All fundraising for student organizations and charitable giving campaigns must have prior administrative approval. School District employees who supervise official school programs or extracurricular activities are directed not to organize, conduct, or involve students in fundraising activities unless the fundraising activity has been approved by the building administration.

B. Student Organization Fundraising.

Student organizations are groups that are sponsored by the district and approved by the school board. They are designed to provide opportunities for students to participate, on an individual or group basis, in school and public events for the improvement of skills. Student organizations are directed or supervised by School District staff.

1. Approval Criteria. Student organization fundraising activities are to be considered for approval based on the following criteria: (1) the project will be fun and safe for students, (2) students will not be exploited for sectarian, political, or commercial purposes, (3) the project will accomplish the goals for the fundraiser without undue risk of financial loss, (4) the project will be consistent with the mission and goals of the School District and the student organization, (5) the number of fundraisers run by the particular student organization and within the school and the District within the last twelve months, and (5) the project meets all legal requirements.
2. Food Sales. The sale of foods as a fundraiser is subject to the School Wellness Policy.
3. Safety Considerations. The District does not sponsor activities involving driving vehicles unless a school employee or sponsor or a responsible adult is driving. Projects that involve door-to-door sales will not be approved for student participants who are not in high school. Parent approval must be given before any student is permitted to participate in door-to-door sales.

4. Non-Approved Activities. The following activities may not be approved as fundraising activities: raffles, lotteries, car bashes (or other comparable destructive activity), direct solicitation of money, and slave days.
5. Contracts. Teachers, coaches and sponsors are not authorized to sign contracts for the procurement of items to be sold or used in student organization fundraisers. Any contract that obligates school funds shall be submitted to the building principal for approval and execution.
6. Purchases. All purchases related to student organization fundraisers are to be made in the school district name. Deliveries of fundraising items for sale shall be made to the school building, not to personal addresses. Items shall be kept in a secure place to avoid theft. Items which are overpriced or of an embarrassing or controversial nature to the school will be rejected. Items which are in direct competition with local businesses shall be avoided where practicable.
7. Money-Handling. All funds collected must be given by the fundraiser sponsor intact (i.e., cash and checks must be deposited in the same cash/check mix in which they were received) to the building principal or designee for deposit into the School District depository account no later than the next school day following receipt. Funds may not be deposited into personal accounts and may not be taken home.
8. Inventory. The fundraiser sponsor shall maintain an inventory of items related to the project. Upon completion of the project, unsold items may not be given away. The items shall be returned to the vendor for credit, sold at reduced prices in a clearance sale, or kept for sale in a future student organization fundraising event.
9. Disbursement of Fundraising Proceeds. Fundraising proceeds shall be disbursed to and used by the student organization for the purposes for which the project was initiated.
10. Records. The fundraiser sponsor shall submit all records related to the fundraising project at the conclusion of the project. The records to be maintained and submitted include: fundraiser approval, purchase order or procurement card receipt, invoices and packing slips, student checkout sheets, deposit receipts, inventory of merchandise and list of unsold merchandise, receipt for return of merchandise and records of credit or receipt for returned merchandise.
11. Student Conduct. All students who participate in approved fundraising activities are expected to represent the school, the student organization, and the community in a positive manner. All rules pertaining to student conduct and student discipline extend to student fundraising activities.

If a donation of cash or equipment is offered to a staff member for a school organization or the School District, the coach or sponsor shall refer the intended donor to the building administration. If the donor insists on giving the cash or equipment immediately, the staff member shall turn the donation over to the building principal immediately upon receipt.

Coaches or sponsors who also coach, manage or otherwise participate in club teams or similar non-school organizations must clearly separate any student organization fundraising from fundraising activities for their club team. Such individuals who receive donation offers must

request that the donor be very clear as to whether the donation is intended for the student organization or the club team.

C. Fundraising by Outside Organizations.

Outside organizations are non school-funded groups such as parent/teacher organizations, sports booster groups, and commercial enterprises that provide supplementary services to existing school entities. Outside organizations are separate and apart from the School District. Decisions on fundraising activities and the expenditure of fundraising proceeds should involve consultation with the school administration.

Independent sales consultants may not use schools as a source of sales, even if the consultant intends to donate a portion of the funds raised to the school. An independent sales consultant includes individuals who operate as a franchisee for businesses that sell products such as food storage containers, cosmetics, etc.

D. Charitable Giving Campaigns.

A charitable giving campaign is fundraising conducted for the purpose of providing money for a charitable cause not directly related to any District goal. Purposes for which such a campaign may be permitted include fundraising for student scholarships or student exchange programs, to assist families within the District who have experienced a catastrophe, or to fund community projects.

Any fund-raising activity conducted by any such organization using Chase County Schools' facilities or using the District's name in solicitation of donations must have prior approval of the Chase County School Board of Education. If the request is approved, the organization shall include a statement that the Chase County Schools is not endorsing the organization or campaign and has no affiliation with the event.

District funds cannot be used to off-set, front-fund, or pre-pay expenses for any charitable giving campaign. A charitable giving campaign shall not be permitted to conduct fundraising among the student population.

Gifts to School Employees

Gifts to employees from parents or students, with a monetary value in excess of \$30, are to be referred to the Chase County Education Foundation for disbursement.

Administration

Evaluation of Principals and Other Certificated Administrative Personnel

1. Objectives

The Board recognizes that the roles of a school superintendent, principal, assistant principal, and other certificated administrative personnel of the School District (hereinafter collectively referred to as “Administrators”) are varied and complex requiring an appraisal process that accurately measures performance and provides support for the continued growth and improvement of the Administrator. The general job description and an evaluation instrument with performance standards for each administrative position shall be promulgated under the direction of the Superintendent of Schools and approved by the Board of Education, and provided to the affected Administrator. The appraisal process for each Administrator and administrative position shall serve these purposes:

- a. To raise the quality of administration and educational service to the children of our community.
- b. Clarify for the Administrators their respective role in the school system as seen by the Board.
- c. Clarify for all Board members the role of the administration and the immediate priorities among each Administrator’s responsibilities.
- d. Develop harmonious working relationships between the Board and administrative supervisors and each Administrator.
- e. Aid the individual Administrator to grow professionally.

The evaluation of administrative performance is intended to be a cooperative and continuing process designed to improve the quality of the educational program.

2. General Procedures

The formal Administrator appraisal is based primarily upon the procedures and processes defined below. The procedures provide for a consistent and equitable appraisal of important aspects of the Administrator’s duties and responsibilities. They do not, however, specifically include the total range of expectations of the effective performance of the administrative duties of each administrative position or the Administrator assigned to such position. As a result, additional data and information related to the respective administrative role may be utilized to generate a comprehensive appraisal.

3. Appraisal Cycle

Probationary Administrators shall be observed and evaluated at least once each semester, except the Superintendent, who shall be observed and evaluated by the Board of Education once each semester in the first contract year of employment, and once per year each contract year thereafter. Permanent (tenured) Administrators shall be evaluated at least once each school year. Observations and evaluations of greater frequency or number than required may be conducted and made at the request of the Administrator or in the discretion of the appraiser.

The appraisal cycle and appraisal process for a permanent Administrator is intended for the direction of the responsible appraiser. A failure to complete evaluations within the designated cycle or in the manner directed by this policy shall not give the permanent Administrator rights, but may be addressed in evaluating the responsible appraiser's performance.

The entire instructional period for Administrators cannot be defined in terms of an instructional period and shall be satisfied by the actual observation of an Administrator's work for no less than fifty (50) minutes (cumulative) during the time periods being evaluated.

4. Appraisal Process

The appraisal process is the responsibility of the Administrator and the Administrator's immediate supervisor as determined by the Board of Education and/or the Superintendent of Schools, provided that the supervisor of the Superintendent shall be the Board of Education. In the event the responsible appraiser has not initiated the appraisal process within the time or in the manner required, the Principal has the responsibility to timely notify the responsible appraiser.

Performance standard categories set forth in the evaluation instrument for each administrative position, as adopted and amended from time-to-time, shall serve as the basis for the informal job-target-based formative appraisal and the formal summative appraisal. During the formal summative appraisal, data is collected as required to provide a basis for appraising the performance categories. Data collection may include, but is not limited to, surveys (formal or informal information gathering from staff, students, parents, community members, and other Administrators), statistics received by routine reports; statistics generated by reports specifically designed for the appraisal; review of sample written materials of the Administrator (such as, for example, a Principal's evaluations of teachers) and observations of performance. The Administrator may be assigned responsibility to assist with data collection and shall have the duty to provide such assistance as is requested.

The collected data along with the professional opinions of the responsible appraiser shall serve as the basis for the final appraisal report.

5. Final Formal Summative Evaluation

The appraisal process culminates in a final formal summative evaluation. The final formal summative evaluation consists of a rating of each performance category identified in the evaluation instrument, identification of whether the Administrator's performance meets or does not meet district standards of performance, a list of deficiencies in the Administrator's performance, suggestions and plans for improvement to assist the Administrator in overcoming such deficiencies, and follow-up evaluations as appropriate in order to correct performance below district standards. As a professional, the Administrator may be assigned responsibility to provide suggestions for improvement plans or similar job growth strategies and shall have the duty of complying with such requests. Further, in the event improvement plans or other similar performance measures are implemented, the Administrator shall have the duty to comply with such plans. The Administrator is expected to be cooperative, professional, and to exhibit a

willingness to improve performance and to accept the constructive criticisms and suggestions of the appraiser.

Administration

Administrative Actions in Emergencies

In any crises or emergency circumstances, the immediate concern is securing the safety and welfare of students and staff. A second priority, if appropriate, will be the securing and salvaging of property. The superintendent of schools will be in charge of administering and monitoring any emergency event, except that if the situation is confined to a particular building, the principal will be in charge with the superintendent of schools advising on necessary decisions. Once the nature of the emergency is determined and the immediate concerns for students and staff are addressed, the superintendent of schools will:

1. Alert board members.
2. Decide whether or not to convene or postpone school, with attendant adjustments in transportation and activity schedules.
3. Determine the need to involve other agencies and/or officials (e.g., Police, fire and emergency personnel, counseling services, insurance representatives). All administrators will maintain an accessible, emergency phone list.
4. Notify students, staff, and patrons via appropriate media.
5. Report on the incident at the next regular or emergency board meeting and evaluate the effectiveness of the response strategy.

Inclement Weather: In the event of bad weather, or other circumstance in which the safety of students would be endangered by attending school, the superintendent of schools will make the decision to cancel or delay the start of school and whether or not staff are to report for duty. When school is canceled, ordinarily all after-school activities will be canceled. Any decision to the contrary must have the superintendent of school's permission and include provision for communicating with all affected parties in a timely manner. Weather information will be sought from current weather station reports and consultation with the transportation director and other area superintendents. The decision to cancel school will be made as early as possible. A system will be developed to alert the staff, and the superintendent of schools shall inform appropriate television and radio stations and request that they make the appropriate announcement to the local media. The board of education will determine in the spring whether time missed for inclement weather or other emergency school closings should be made up.

Fire, Tornado, Gas Leaks: Principals shall design and keep current drill and evacuation plans, to include emergency shelter, and publish them in staff and student handbooks. Teachers will post said plans in their classrooms and educate students on their implementation.

Student or Staff Deaths: When notice is received of a student or staff death, the involved administrators will inform and consult with the superintendent of schools. Ordinarily school will be convened; however, appropriate modifications in daily school activities which are sensitive to the incident will be made. Further, if deemed necessary, a counseling intervention team will be made available, in conjunction with school counseling services, to provide assistance to students and staff. Substitute teachers will be employed if deemed appropriate. School officials will

attempt to balance funeral accommodations with the need to convene school with minimal disruption.

Civilian Emergencies: The school buildings are available as emergency shelters if needed. School officials, to the extent possible, will cooperate with other civil authorities, including local, area, and state law enforcement agencies and fire department officials, in making school facilities available during any civilian emergencies.

Date of Adoption: [Insert Date]

AdministrationStaff Handbooks

The Superintendent shall have the authority to establish staff handbooks. The handbooks shall define the duties of all special school officers and employees; define responsibilities, duties and policies concerning the relation of personnel to the administration, the community and the students; shall list the responsibilities of the administration to the staff together with staff welfare measures; and shall list general policies pertaining to students. Staff handbooks shall, when approved by the Board, have the effect of Board policy and control over any conflicting Board policy adopted prior to the staff handbook in the event of a direct conflict.

All staff shall be furnished or be provided access to a handbook at the beginning of each school year. Should a circumstance present itself that is not covered by the provisions of the staff handbook applicable to a specific employee, reference should be made to Board policy.

AdministrationAttendance at Professional Growth Meetings

The board of education expects its administrative staff to be informed on contemporary educational issues and therefore encourages active participation in the respective professional administrative organizations, including state, regional, and national associations for the superintendent and principals. Accordingly, the Board of Education authorizes and will fund, within budgetary limits, attendance to state, regional, and national conferences sponsored by professional administrative organizations, curriculum groups, institutions of higher education, legislative bodies, and other agencies having a relationship which is in agreement with the school district's educational objectives.

Administrators' attendance at national conferences is subject to board approval. If a first-year administrator is granted permission to attend a national convention, expenses for such attendance shall be allowed, provided that should the administrator not return for the next school year the cost of the administrator's attendance at such national convention shall be deducted from the administrator's last pay check. Any convention expenses already paid for a first-year administrator who chooses to terminate employment at the end of the contract year shall be refunded by that administrator to the district.

Approved national conventions include: the American Association of School Administrators, the National Association of Elementary School Principals (NAESP), the National Association of Secondary School Principals (NASSP), the Association for Supervision and Curriculum Development (ASCD), the American Association of School Administrators (AASA), the National Association of School Boards (NASB), or other conferences approved by the Board of Education. Any expenses allowed shall be consistent with those allowed through the guidelines approved by the Board for the Superintendent.

The Superintendent and the Principal, when approved to attend a national convention, shall be allowed expenses which shall include registration fee, transportation, lodging, meals and incidentals not to exceed the amount specified in the contract of such administrator. In the absence of such contractual provisions, the expenses allowed shall be the amount set forth in the "Coffee Act Policy," Policy No. 8231. Ticket stubs, receipts, and other records pertaining to expenses incurred shall be submitted.

The expenses of the spouse of the administrator, accompanying the administrator on the convention trip, shall be borne by the administrator.

Periodic reports will be given to the board of education regarding administrator attendance at conferences, including prior announcement of intended national conferences. Ordinarily, the board of education will automatically authorize conference attendance with adoption of the annual budget, but it may, in its discretion, limit or deny administrator conference attendance as the school year progresses.

Business OperationsFund Balance Reporting

Fund balance classification shall be recorded in accordance with governmental accounting standards as promulgated by the Governmental Accounting Standards Board (GASB), including GASB #54.

The order of spending and availability of the fund balance shall be to reduce funds from the listed areas in the following order: restricted, committed, assigned, and unassigned. Negative amounts shall not be reported for restricted, committed, or assigned funds.

Fund Balance shall mean the gross difference between governmental fund assets and liabilities reflected on the balance sheet. Governmental fund assets are those of the General Fund, Special Revenue Funds, Debt Service Funds, and Capital Project Funds.

The fund balance of the general fund finances most functions in the District. The fund balance of the general fund shall mean the gross difference between general fund assets and liabilities reflected on the balance sheet.

The five classifications of governmental fund balances are as follows:

1. Non-spendable fund balance means the portion of the gross fund balance that is not expendable (such as inventories) or is legally earmarked for a specific use (such as the self-funded reserves program).

Examples of non-spendable fund balance reserves for which fund balance shall not be available for financing general operating expenditures include: inventories, prepaid items, deferred expenditures, long-term receivables, and outstanding encumbrances.

2. Restricted fund balance includes amounts constrained to a specific purpose by the provider, such as a grantor. Examples of restricted fund balances include: child nutrition programs, technology programs, construction programs, and resources from other granting agencies.
3. Committed fund balance means that portion of the fund balance that is constrained to a specific purpose by the Board. Examples include: potential litigation, claims, and judgments and activity funds.
4. Assigned fund balance means that portion of the fund balance that is spendable or available for appropriation but has been tentatively earmarked for some specific purpose by the Superintendent or designee. Such plans or intent may change and may never be budgeted, or may result in expenditures in future periods of time. Examples include: insurance deductibles program start-up costs; and other legal uses.

5. Unassigned fund balance includes amounts available for any legal purpose. This portion of the total fund balance in the general fund is available to finance operating expenditures.

The unassigned fund balance shall be the difference between the total fund balance and the total of the non-spendable fund balance, restricted fund balance, committed fund balance, and assigned fund balance.

3. Purchases of ~~\$90,000~~ \$100,000 and above. The Superintendent shall advertise for sealed bids which shall be opened in conformity with any applicable laws and in compliance with any procedures established by the Superintendent. In the event that a receipt does not accompany an authorized cardholder's purchase, the Superintendent or designee shall temporarily or permanently suspend said cardholder's purchasing card privileges.

Micro-Purchase Procedures

Micro-Purchases may be used for annual transactions under \$310,500-000 made with a vendor [2 CFR 200.320(a)].

 - c. If a protest is received, it must be handled in accordance with 7 CFR 210.21
5. Retain all records pertaining to the formal competitive bid process for a period of five years plus the current year

(Note: If the bid threshold established in the sponsor's procurement policy statement is less than \$150,000, the smaller bid threshold will govern.)

This organization incorporates the following elements into the Procurement Policy Statement, as required by 2 CFR 200 and 7 CFR parts 210, 3016 and 3019.

1. Purpose. The Board authorizes the use of video cameras and other passive electronic measures (such as motion detectors) for the purposes of ensuring the health, welfare and safety of staff, students and visitors, safeguarding District facilities and equipment, and maintaining student discipline and an appropriate educational and work environment.
2. Placement. Video cameras and similar devices are authorized to be used on school facilities, school vehicles and other places within the control of the District. The locations in which the devices will be placed and the times the devices will be in use are to be determined by the Superintendent or the Superintendent's designee consistent with the purposes set forth in this Policy. The devices shall not be placed or operational in locations in which individuals have a high expectation of privacy, such as restrooms and locker rooms.
3. Notice. Notice of the fact that video surveillance cameras are being utilized shall be given through appropriate mechanisms, such as by posting signs in the building entry and other locations and by including a notice in the student-parent and staff handbooks.
4. Viewing Monitors and Video Recordings. Monitors used to view video recordings are to be located and positioned such that only authorized personnel are able to see the images on the monitors. Only authorized personnel shall be allowed to view recorded video. Authorized personnel for these purposes are: school administrators, school staff members with a direct involvement with the recorded contents of the specific video recording and employees or agents responsible for the technical operations of the system (for technical purposes only).

School administrators may allow law enforcement officers to view monitors and recorded video when such is consistent with school security and discipline and consistent with law.

Students shall not be permitted to view the monitors. Students shall not be permitted to view recorded video except where the individual student is the focus of the recorded video.

5. Use of Video Recordings. Video records may be used as a basis for student or employee disciplinary action and for making reports to law enforcement.
6. Video Recordings as Education Records. Video recordings which are considered to be "education records" within the scope of FERPA shall be maintained in accordance with FERPA and other applicable laws. A video recording may be considered an education record when a specific student is the focus of the video recording.

For example, if the video recording shows a student violating a school rule, the video recording is an education record of that student. It may be viewed on request by that student's parent (or the student if age 18 or older). The video recording may not be viewed by, nor will a copy be given to, others without the parent's written consent unless a FERPA exception exists.

In the event more than one student is a focal point of the video recording, it may be an education record of each such student. This would be the case, for example, if two students are recorded fighting. In that event, the school would allow both set of parents an opportunity on request to view the video, but will not give a copy of the video to either set of parents, without the written consent of the other student's parent.

7. Maintaining Video Recordings. The District shall comply with all applicable state and federal laws related to record maintenance and retention of video recordings. Video recordings that contain personal information shall be securely stored and, when such recordings are no longer needed or required to be maintained, shall be properly disposed of or erased.
8. Maintaining the Integrity of the Video Surveillance System. The building principals shall be responsible for periodically checking the video surveillance system within their building to ensure it is operating properly. Students or staff who vandalize, damage, disable, or render inoperable surveillance cameras or equipment, or use the video surveillance system in a manner that is not consistent with the purposes set forth in this Policy, shall be subject to appropriate disciplinary action (up to and including expulsion, for a student, and termination, for a staff member) and referral to appropriate law enforcement authorities.

- Conduct a safety audit on an annual basis.
- Review at least annually the District's policies and protocols on active supervision throughout school buildings and campus, and recommend any changes in policies or protocols to the Board.
- Review at least annually the District's policies and protocols on security and visitors (including visitors in specialized areas, such as prekindergarten areas, playgrounds, science labs, and so forth) in school buildings, and compare the District's policies and protocols with guidance issued by the Readiness and Emergency Management for Schools Technical Assistance Center (REMS-TA), and recommend any changes in policies or protocols to the Board.
- Conduct a performance review of emergency drills and suggest any changes, when appropriate.
- For any safety and security procedures or protocols, review said procedures and protocols to ensure that such procedures and protocols accommodate individuals with special needs.
- Consider, develop and implement procedures supporting academic, physical, operational and psychological/emotional aspects of an incident, after an incident occurs. Such procedures shall ensure that students and employees are supported and given an opportunity to address psychological and emotional health needs after an incident. Such procedures shall also ensure that resource requests and management of the incident be conducted in a way that supports the psychological and emotional needs of students and staff after an incident. The Committee shall explore mutual aid agreements to address the academic, physical, operational, psychological, and emotional recovery areas, and make any recommendations to the Board.
- Adopt and maintain an effective written Injury Prevention Program for the District.

The Safety Committee shall maintain documentation of its compliance with this policy.

Standard for Drivers of Small Vehicles for Activity Trips: Each person who drives a small vehicle (car or van) other than a pupil transportation vehicle for school activities and who is not required to have a permit to operate a pupil transportation vehicle shall be precluded from driving in the event it is discovered that the person does not have a record of satisfactory driving. For such persons, a satisfactory driving record means a record which reflects the absence of any of the following offenses or circumstances:

1. Motor vehicle homicide;
2. Driving while under the influence of alcoholic liquor or drugs or refusal to submit to a chemical test, within the immediate prior 5 years; or,
3. Reckless driving or willful reckless, within the immediate prior 2 years; or
4. Accumulation of 7 or more points under the motor vehicle operators' license point system, within the immediate prior 4 years. In the event the person has accumulated 6, 7 or 8 points within the immediate prior 4 years, the determination of whether the person has a satisfactory driving record shall be made by the Superintendent or Superintendent's designee based on the nature and proximity of the offense as it relates to safe transportation.

Standard for Drivers of Other School Vehicles: Each person who drives a school vehicle other than a pupil transportation vehicle and does not transport students in the vehicle shall be precluded from driving in the event it is discovered that the person does not have a record of satisfactory driving. In the event the person's employment position requires driving vehicles as a

Basic First Aid Procedures

First aid is the immediate and temporary care given to the victim of an accident or sudden illness until medical services can be obtained. Keep these points in mind when handling situations that may require you to administer first aid:

- Remove everyone from danger and then provide first aid in a safe location. Also, do not attempt to make a rescue until you are sure you won't become a victim.
- Remain calm. Keeping your composure while helping the injured person will help him/her to keep calm and cooperate. If the person becomes anxious or excited, the damage from the injury could be increased.
- Plan quickly what you need to do. Learn basic procedures or have your first aid information available so you can care for the injured person.
- Send for professional help as soon as possible. The local emergency telephone number is _____. The school telephone number is: _____
- Let the person know that help is on the way and try to make them as comfortable as possible.

Evaluating the Situation and Setting Priorities

To effectively deal with emergencies, the situation must be evaluated and priorities set.

Three evaluations which must be made to establish priorities for treatment: <ul style="list-style-type: none"> • Condition of the scene • Type of injury • Need for treatment 	Primary first aid procedures are to: <ul style="list-style-type: none"> • Restore breathing. • Control bleeding. • Prevent shock
--	---

Whenever possible, do not move the victim. Treat the person where you find him/her. However, several types of situations require the person to be moved out of immediate danger, such as fire, electrocution, and drowning.

Bleeding

Bleeding needs immediate attention. Evaluate the type of bleeding and the amount of blood lost:

<ul style="list-style-type: none"> • Capillary oozing. 	Injuries to capillaries or small veins. It is indicated by steady oozing of dark colored blood.
<ul style="list-style-type: none"> • Venous bleeding 	Bleeding from the vein. It is indicated by a flow of dark-colored blood at a steady rate.
<ul style="list-style-type: none"> • Arterial bleeding. 	Bleeding from an artery. It is indicated by bright red blood flowing quickly in spurts.

Blood flowing in a small, steady stream or small spurts can be serious, but can be controlled. Blood flowing in a heavy stream or large spurts is very serious and must be brought under control immediately.

The primary step to control bleeding is to exert direct pressure over the wound. Place the cleanest material available against the bleeding point and apply pressure by hand until the wound clots and can be dressed with bandages. If necessary, apply direct, even pressure with your bare hand. If blood soaks through the bandage, do not remove it. Apply more bandages and secure them. Make sure the bandages are not too tight so circulation is not restricted.

Look for swelling around the wound. If the bandage interferes with the circulation of the blood, loosen it. Elevate the wound above the level of the heart, except when there is a broken bone.

Artery Pressure Point

If direct pressure on the wound does not control bleeding, direct pressure on any artery pressure point closest to the wound is necessary. The artery pressure point must be located between the heart and the wound.

Tourniquet Warning

A tourniquet should only be used for hemorrhaging that cannot be controlled by direct or arterial pressure. Tourniquets are dangerous to apply, to leave on, and to remove. Stoppage of blood supply below the tourniquet can lead to gangrene and loss of limb.

Shock

Shock occurs when the vital body functions are depressed. The three most common causes of shock are:

- Excessive bleeding
- Inadequate breathing
- Unsplintered fractures

If shock is not treated promptly, death may result, even if the injury causing the shock is not severe enough to cause death. It is NOT recommended that drivers attempt to splint a fractured bone; instead simply treat the victim for shock.

Recognizing shock

When a person is in shock, the skin is pale, cold, clammy, and moist with beads of sweat around the lips and forehead. The pulse is fast, weak, or entirely absent. Breathing is shallow and irregular and the eyes are dull and vacant with dilated pupils. The person complains of nausea and dizziness. She may be unaware of the seriousness of the injury and then suddenly collapse.

Control of shock

The victim should lie down on top of an article of clothing, newspaper or other material and kept warm with a light blanket. In warmer temperatures, it is not necessary to use a cover.

The person should not become overly warm so that perspiration occurs. Perspiration draws blood to the skin, away from the interior of the body where it is needed. In order to help the flow of blood to the heart and head, elevate their legs at least 12 inches high. If there is a head or chest injury or breathing seems difficult, elevate the chest instead of the legs.

Offer small amounts of water to the person every 15 minutes. Do not give water if the victim is vomiting, nauseous, or unconscious.

Burns

It is not recommended to treat burns. First aid treatment often causes complications and interferes with the treatment given by the physicians. Keep the burned area uncontaminated and treat for shock.

Do not apply burn preparation and do not use ice water. It intensifies the shock. There are exceptions when it may be necessary to give first aid. Chemicals may continue to burn the skin if they are not removed. Large amounts of water should be used to flush the area free of the chemicals, particularly if it is a chemical burn of the eyes or face.

Be Prepared--Learn Cardiopulmonary Resuscitation (CPR)

CPR should be used when a person is unresponsive or when breathing or heart beat stops.

1. Call 911 immediately or ask someone else to do so.
2. Try to get the person to respond; if he doesn't, roll the person on his or her back.
3. Start chest compressions. Place the heel of your hand on the center of the victim's chest. Put your other hand on top of the first with your fingers interlaced.

4. Press down so you compress the chest at least 2 inches in adults and children and 1.5 inches in infants. One hundred times a minute or even a little faster is optimal. (That's about the same rhythm as the beat of the Bee Gee's song "Stayin' Alive.")
5. If you're been trained in CPR, you can now open the airway with a head tilt and chin lift.
6. Pinch closed the nose of the victim. Take a normal breath, cover the victim's mouth with yours to create an airtight seal, and then give two, one-second breaths as you watch for the chest to rise.
7. Continue compressions and breaths -- 30 compressions, two breaths -- until help arrives.

Epilepsy

Once an epileptic seizure begins, you may not be able to move the person. Try to prevent him/her from injury, such as striking his head or body against any hard, sharp, or hot object.

Do not restrain the person or interfere with his movements. Epilepsy victims seldom bite their tongues during seizures. More harm is done when an object is forced between the teeth or into the mouth. Breaking teeth, cutting lips, mouth, or tongue, can occur more often than by the tongue being bitten because of the seizure.

You should communicate information about any seizure to the parents and to the school authorities.

Choking

The Heimlich Method, or Hug of Life, is a procedure to help a choking person. Stand behind the person, place your arms around his/her waist and grasp your hands together halfway between the navel and sternum (right below the rib cage). Form a fist with the thumb side against the midriff area. Grasp your fist with your other hand, press midriff area with a quick upward thrust. If the person has collapsed, turn him on his back. Straddle him and press into the same spot with a quick upward thrust with the heel of one hand placed on top of the other hand. Continue until object is freed and/or the person begins coughing.

Do not pound or slap a choking person on the back. This can force the object further into the throat. Artificial respiration or offering water is useless because the throat is blocked. Children often choke from running with food or other objects in their mouths.

EMERGENCY EVACUATION PROCEDURES **(For Students Being Transported in Small Vehicles—Cars & Vans)**

In a vehicle accident or emergency situation, the driver must use his/her best judgment to decide what action shall be taken. As a driver, your primary responsibility is student safety. In an emergency, it may be necessary that the vehicle be evacuated.

A Vehicle Must Be Evacuated In These Situations:

- The vehicle is on fire. It must be stopped and evacuated immediately. Passengers will move to a point 100 feet or more from the vehicle and remain there until the vehicle driver has determined that no danger remains. If a vehicle is unable to move and is close to existing fire or highly combustible materials, the danger of fire shall be assumed and all passengers must be evacuated.
- The vehicle is stopped in an unsafe location and is unable to proceed (e.g., due to an accident or weather conditions). The driver must determine immediately if it is safer for passengers to remain on the vehicle or to evacuate. For example, if the vehicle is in the path of any train, or on or closely adjacent to any railroad tracks.
- The vehicle could change position and increase the danger. For example, if a vehicle were to come to rest near a body of water or precipice where it could slide into the water or over a cliff, it must be evacuated;
- If there is danger of collision. Under normal traffic conditions, the vehicle should be visible for a distance of 300 feet or more. A position over a hill or around a curve where such visibility does not exist should be considered reason for evacuation.

Important Factors In School Vehicle Evacuation: The safety of the pupils is of utmost importance and must be given first consideration. Prior to evacuation, the emergency brakes shall be set, ignition turned off, the transmission placed in an appropriate gear; and hazard flashers turned on to warn traffic. The driver should stay in the vehicle during evacuation to facilitate the evacuation procedures. The driver should be familiar with any extra equipment on the vehicle that would aid in an evacuation of a student with a disability and assure that the student is safely evacuated.

Students should be instructed to evacuate on side of the vehicle away from the roadway—typically the passenger side. Evacuations shall be conducted with deliberate speed. A time interval of 1½ to 2 seconds per passenger has proven to be the safest and most efficient. A vehicle should be completely evacuated in 2 ½ minutes. To insure a safe exit, passengers must have their hands free. They must leave personal belongings in the vehicle except those needed for their safety (coats, etc.). During an evacuation, passengers must be directed to a safe point at least 100 feet from the vehicle and remain there until given further directions.

Upon evacuation, the driver should attend to any injured students and immediately contact emergency service (call 911 and the school). Discuss the accident only with police and school district officials. Do not leave the scene of an accident until the safe transportation of all students has been arranged by the student's parent, the school, or emergency personnel.

To assist the driver in evacuations (or to respond to situations where the driver is incapacitated), mature, responsible students should be selected and trained to lead passengers to safety from each door utilized for evacuation. The selected student should be trained to: • turn off ignition switches; • set emergency brakes; • summon help when and where needed (instructions and telephone numbers shall be available); • use windows for evacuation in emergencies; • set flags and reflectors or reflective triangles; • open and close service and emergency exit doors; • direct school vehicle evacuations; • perform other duties as directed by the driver.

Emergency Equipment: The driver should be familiar with and appropriately use emergency equipment during an evacuation. Emergency equipment for a small vehicle may include the following: • reflector kit; • vehicle-mounted hazard flashers; • body fluid clean-up kit; • first aid kits; • fire extinguishers; • triangle shaped reflectors.

Business OperationsTransportation

Chase County Schools shall not provide free transportation to and from school except for circumstances where the administration determines it to be appropriate and efficient to provide transportation for students who would otherwise be entitled by law to a transportation allowance; to students residing on an established route; and to students entitled by right to transportation services.

Transportation may be provided for school activities and field trips as determined appropriate by the administration from time to time.

Business OperationsProcedures—Bidding Construction Projects

The District shall bid every project for the construction, remodeling, or repair of any school-owned building or for site improvements when the contemplated expenditures for the project is in excess of \$100,000.00, or such sum as adjusted pursuant to §73-106. The bidding procedures shall comply with the requirements of state law and shall include the following:

1. Notice to Bidders: The Administration shall prepare a notice to bidders containing a general description of the scope of the project being bid; the location of the project; the means of obtaining project documents, including plans and specifications; the date and hour bids will close; and the date, hour and place bids are to be returned, received and opened, and a provision that such bids will be immediately and simultaneously opened in the presence of the bidders or representatives of the bidders, when the hour is reached for the bids to close.
2. Regular Manner of Advertisement for Bids: The notice to bidders shall be published one time in a newspaper of general circulation in the School District. The notice shall be published at least seven (7) days prior to the date designated for the opening of such bids. The Board of Education or Administration may, in its sole discretion, elect to utilize further advertisement for bids as it may determine appropriate to secure a sufficient number of qualified bidders for the scope of the project.
3. Bid Opening: When the hour is reached for such bids to close, bids will be immediately and simultaneously opened in the presence of the bidders or representatives of the bidders.
4. Contract Award: The contract shall be awarded to the lowest responsible bidder as to the extent required by law. When not so required, the award shall be made on the basis of consideration of the contract award criteria determined appropriate by the Board or administration.
5. Performance and Payment Bonds. Whenever any contract is entered into for the erecting, furnishing, or repairing of any building or other public structure or improvement, the contractor shall be required, before commencing such work, to furnish a performance, labor and material payment bond. The bond requirement shall not apply, however, to any project bid or proposed which has a total cost of \$10,000 or less unless the School Board or Administration includes a bond requirement in the specifications for the project. The bond shall be in an amount not less than the contract price. The bond shall be conditioned on the faithful performance of the contract and the payment by the contracting party of all laborers and mechanics for labor that is performed and of all material and equipment rental that is actually used or rented in connection with the improvement project and the performance of the contract. Such bond shall contain such provisions as are required by statutes, and be in a form prescribed and required by the district.

6. Retention of an Architect or Engineer. The School District shall not engage in the construction of any public works involving architecture or engineering unless the plans, specifications, and estimates have been prepared and the construction has been observed by an architect, a professional engineer, or a person under the direct supervision of an architect, professional engineer, or those under the direct supervision of an architect or professional engineer; provided that such requirement shall not apply to any public work in which the contemplated expenditure for the complete project does not exceed one hundred thousand dollars (\$100,000), as adjusted from time to time by § 81-3445 or other applicable law.

7. Additional Procedures. Each bid for which a labor and material bond is required shall be accompanied by a bid bond or certified check in the amount of five percent (5%) of such bid unless the School Board or Administration waives such requirement. The Board of Education or Administration may provide for additional procedures for the procurement, opening and acceptance of bids as deemed appropriate for a particular project.

Business OperationsRebates to School Personnel

No school employee or board member shall receive any commission, expense-paid trips, or anything of value from individuals or companies from which the school district purchases equipment or materials required in the operation of the school district. Business OperationsRecords Management and Disposition

1. General Standard. Records should generally be organized, managed, retained and disposed of in accordance with law and the Secretary of State's schedules for retention and disposition of public records.
2. Records Officer. The Superintendent is hereby designated as the records officer of the school district for purposes of this policy. Any questions about the type or category of a record or the required retention period for it should be addressed to the records officer.
3. Electronic Messages. Electronic messages are communications using an electronic system for the conduct of school district business internally, between other state and local government agencies, and with parents, students, patrons and others in the outside world. These messages may be in the form of e-mail, electronic document exchange (electronic fax), and electronic data interchange (EDI). In this policy, the terms electronic messages and e-mail are used, depending on the context, to mean the same thing. The school district's electronic system in which records are collected, organized, and categorized to facilitate preservation, retrieval, use, and disposition is as follows:
 - a. End-User Management. End-user means anyone who creates or receives electronic messages on the school district's electronic system. Electronic messages are to be managed at the end-user's desktop rather than from a central point. Each end-user is responsible for organizing, managing and disposing of records that are part of his or her desktop computer.
 - b. Categories for Retention. Electronic messages fall within three categories: (1) transitory messages; (2) records with a less than permanent retention period; and (3) records with a permanent retention period. End-users are to organize, store, retain and dispose of electronic messages according to these three categories. This means determining which electronic messages require long-term retention, determining who is responsible for making this decision, and establishing storage and disposition requirements for electronic messages.
 - i. *Transitory messages*. Transitory messages include copies posted to several persons and casual and routine communications similar to telephone conversations. For example, as determined on an individual case-by-case basis by the end-user, transitory messages include certain embryonic materials, notes or drafts; unwanted and unneeded "junk" mail; "personal" mail for employees not related to school business; unsolicited sectarian, religious, partisan, political or commercial messages, or political advertising or advertisements promoting particular personal or religious beliefs, a specific ballot question, or controversial topics or positions. There is no retention requirement for transitory messages. Employees

sending or receiving such communications may delete them immediately without obtaining approval.

- ii. *Less than permanent retention records.* These records are governed by the retention period for equivalent hard copy records as specified in the approved records retention and disposition schedules. These records should be converted to hard copy (printed) or an electronic format which can be retrieved and interpreted (downloaded) for the legal retention period. Employees creating or receiving such communications may delete or destroy the records only according to the applicable retention schedule. Questions relating to the retention or destruction of these records should be referred to the records officer.
 - iii. *Permanent/archival retention records.* These are records scheduled for transfer to the Nebraska State Historical Society (NSHS). Decisions relating to such records should be made by the records officer in consultation with NSHS, and the State Records Administrator about either transferring the records or maintaining them in the agency of origin. If the transfer decision is made, the method, frequency and format of the transfer should be determined cooperatively by the records officer, the NSHS, and the State Records Administrator.
- c. Electronic Storage Limitations. The district's computer systems have storage limitations. E-mails are deleted by the computer system within 60 to 90 days to avoid operational problems. End-users are instructed that electronic messages that are required to be maintained past that time period should be converted to hard copy (printed) or an electronic format which can be retrieved and interpreted (downloaded) for the legal retention period. The retention period for the particular record is the best indicator of which storage medium or format to choose.
- d. Proper Use of Electronic Messages.
- i. Non-Discrimination. Electronic messaging is not permitted to be used to promote discrimination on the basis of race, color, national origin, age, marital status, sex, political affiliation, religion, disability or sexual preference; promote sexual harassment; or to promote personal, political, or religious business or beliefs.
 - ii. Permissible Use. Electronic messaging is to be used only for purposes that are consistent with the mission of the school district. Electronic messaging is not permitted to be used for personal purposes except for: incidental, intermittent or occasional use which does not interfere with performance of duties as determined by the administration, use that is authorized pursuant to an individual use agreement, and use that represents a form of the employee's compensation. Electronic messaging is not permitted to be used for personal financial gain or for the purpose of

campaigning for or against the nomination or election of a candidate or the qualification, passage, or defeat of a ballot question. Electronic messaging is not permitted to be used for purposes of assisting a non-profit organization except when and to the extent such use serves a school purpose or facilitates school district business.

- iii. Conduct. Employees shall not read electronic messages received by another employee when there is no school purpose for doing so, send electronic messages under another employee's name without the employee's consent or administrative authorization, or change or alter any portion of a previously sent electronic message without administrative authorization.
- iv. Other Regulations. Electronic messaging is subject to all requirements of the school district's "Acceptable Use of Computers, Network, Internet and Websites" policy and may be monitored and accessed at any time without prior notice. The school district has complete authority to regulate all electronic messaging. Electronic messaging is a privilege and not a property right and is not a public forum. Electronic messaging is made available subject to all board policy and regulations, these regulations, building guidelines, use agreements, handbook provisions, and all administrative orders or directives as issued from time to time.

4. Electronic Records

All books, papers, documents, reports, and records kept by the District may be retained as electronic records. Minutes of the meetings of the school board may be kept as an electronic record.

5. Litigation Holds

When litigation against the District or its employees is filed or threatened, the District will take all reasonable action to preserve all documents and records that pertain to the issue. Such action will in particular be taken when the litigation may be filed in federal court or otherwise subject to federal rules of discovery.

As soon as the District is made aware of pending or threatened litigation, a litigation hold directive will be issued by the records officer or designee. The directive will be given to all persons suspected of having records that may pertain to the litigation issue.

The litigation hold directive overrides any records retention schedule that may otherwise call for the disposition or destruction of the records until the litigation hold has been lifted. E-mail and computer accounts of separated employees that have been placed on a litigation hold will be maintained by the records officer until the hold is released.

Employees who receive notice of a litigation hold are to preserve all records that pertain to the litigation issue. This includes preserving electronic messages that would otherwise be deleted by the computer system; such messages are to be converted by the recipients of the litigation hold to hard copy (printed) or electronic format which can be retrieved and interpreted (downloaded) for the duration of the litigation hold.

No employee who has been notified of a litigation hold may alter or delete an electronic or other record that falls within the scope of the hold. Violation of the litigation hold may subject the employee to disciplinary actions, up to and including dismissal, as well as personal liability for civil and/or criminal sanctions by the courts or law enforcement agencies.

6. Settlement Agreements

A public written or electronic record of all settled claims shall be maintained.

The record for all such claims settled in the amount of fifty thousand dollars or more (or one percent of the total annual budget of the School District, whichever is less) shall include a written executed settlement agreement. The settlement agreement shall contain a brief description of the claim, the party or parties released under the settlement, and the amount of the financial compensation, if any, paid by or to the School District or on its behalf. Any such settlement agreement shall be included as an agenda item on the next regularly scheduled public meeting of the School Board for informational purposes or for approval if required.

Any such settled claim or settlement agreement shall be a public record. Nonetheless, specific portions of the record may be withheld from the public to the extent permitted or provided by statute.

The foregoing does not apply to claims made in connection with insured or self-insured health insurance contracts.

Meal Charge Policy

It is the policy of the District to comply with the National School Lunch Program and School Breakfast Program and all other federal grant programs that provide free or reduced meals to qualifying students.

Student Eligibility

Families of students who may be eligible for free or reduced price school meals should submit an application to determine their eligibility. Applications are available through the Superintendent or Superintendent's designee. As long as an application is submitted on or after July 1, the application will be considered current for the new school year. A student may become eligible for free or reduced meals at any time during the school year if the household experiences a change in financial circumstances.

Meal Account Balances

The District will ensure that families can check their meal account balances in a manner other than exclusively online. The District will ensure that at least one form of meal account payment is free of charge.

The District encourages families to pre-pay without charge for meals. Notwithstanding the option to pre-pay, students and families will have a method to add funds during the school day. Any balance remaining in a pre-paid account shall carry over into the next month. Households approved for free or reduced price meals with funds remaining in their meal account at the end of the school year may request a refund. When a student leaves the District or graduates, the District shall attempt to contact the student's household to return any funds remaining in the student's meal account.

Unpaid meal charges may be carried over at the end of the school year as a delinquent debt and the District shall undertake reasonable collection efforts to collect unpaid meal charges classified as delinquent debt, pursuant to and in compliance with state and federal law. The District shall maintain records of its collection efforts and, once delinquent meal charges are converted to bad debt, its documentation establishing and handling of the bad debt.

Student Confidentiality

The District will disclose individual student eligibility information only to those persons (and organizations) who require the information in order to carry out an activity specifically authorized by the National School Lunch Act, subject to applicable legal exceptions.

The District shall not use or implement any colored or coded meal cards, tickets, tokens, or other methods of payment that would overtly identify a student as being eligible for free or reduced price meals.

Distribution Annually

This policy shall be provided in writing to all students' households at the start of each school year and to households transferring to the District during the school year.

This policy shall also be provided annually to District staff members responsible for the enforcement of this policy, including food service professionals.

The Superintendent or the Superintendent's designee shall maintain documentation of the annual distribution of this policy to students' households and District staff.

Business OperationsInsufficient Funds

When a check is returned for insufficient funds or payment on a credit or debit card is rejected, the Superintendent's designee shall attempt to contact the person a minimum of two times to collect the amount that remains due and owing. At least one attempt shall be in writing, either via letter or email.

In the event that an individual's method of payment is rejected, such person shall be required to pay the amount that remains due and owing by cash, cashier's check or money order, plus a returned check fee of \$10.00 to cover the administrative expense of having to address the matter. In addition, whenever said person wishes to make a payment in the future, said person may be required to pay only by cash, cashier's check or by money order.

Notice of this returned check fee policy will be given annually to students and parents via the school website, and may be included in newsletters, student handbooks, or postings.

Any individual who attempts to pay any amount to the District by check or credit card agrees to the terms of the Policy and the returned check fee. In the event that an individual does not agree with this Policy or is unwilling to pay the returned check fee, then such individual must pay by cash, cashier's check or money order.
