BOARD OF EDUCATION

2:30 School District Elections

School District elections are non-partisan, governed by the general election laws of the State, and include the election of Board of Education members, various public policy propositions, and advisory questions. Board of Education members are elected at the consolidated election held on the first Tuesday in April in odd-numbered years. If, however, that date conflicts with the celebration of Passover, the consolidated election is postponed to the first Tuesday following the last day of Passover. The canvass of votes is conducted by the election authority within 21 days after the election.

The Board, by proper resolution, may cause to be placed on the ballot: (a) public policy referendum according to [Article 28 of the Election Code](#), or (b) advisory questions of public policy according to [Section 9-1.5 of the School Code](#).

The Board Secretary serves as the local election official. He or she receives petitions for the submission of a public question to referenda and forwards them to the proper election officer and otherwise provides information to the community concerning District elections.

The Superintendent shall ensure the efficient and cost-effective operation of the District's business management using computers, computer software, data management, communication systems, and electronic networks, including electronic mail, the Internet, and security systems. Each person using the District's electronic network shall complete an *Authorization for Access to the District's Electronic Network*.

Budget Planning

The District's fiscal year is from July 1 until June 30. The Superintendent shall present to the Board of Education, no later than the first regular meeting in August, a tentative budget with appropriate explanation. This budget shall represent the culmination of an ongoing process of planning for the fiscal support needed for the District's educational program. The District's budget shall be entered upon the Ill. State Board of Education's (ISBE) *School District Budget Form*. To the extent possible, the tentative budget shall be balanced as defined by ISBE guidelines. The Superintendent shall complete a tentative deficit reduction plan if one is required by ISBE guidelines.

Preliminary Adoption Procedures

After receiving the Superintendent's proposed budget, the Board of Education sets the date, place, and time for:

1. A public hearing on the proposed budget, and
2. The proposed budget to be available to the public for inspection.

The Board of Education Secretary shall arrange to publish a notice in a local newspaper stating the date, place, and time of the proposed budget's availability for public inspection and the public hearing. The proposed budget

shall be available for public inspection at least 30 days before the time of the budget hearing.

At the public hearing, the proposed budget shall be reviewed including the cash reserve balance of all funds held by the District related to its operational levy and, if applicable, any obligations secured by those funds, and the public shall be invited to comment, question, or advise the Board of Education.

Final Adoption Procedures

The Board of Education adopts a budget before the end of the first quarter of each fiscal year, September 30, or by such alternative procedure as State law may define. reserve reduction plan by December 31.

6. Make all preparations necessary in order for the Board to timely file its Certificate of Tax Levy, including preparations to comply with the Truth in Taxation Act, and file a Certificate of Tax Levy with the County Clerk on or before the last Tuesday in December. 4:20 Fiscal Goals and Objectives

All school districts in the State of Illinois are expected to financially operate under the provisions of The Balanced Budget Act. An adequate financial support base is necessary to provide for the programs and services identified by the community without compromising the expectations outlined in The Balanced Budget Act. In order to provide a quality educational experience for students under the provisions of The Balanced Budget Act, the Board of Education will strive to: [PRESSPlus1](#)

- Explore all possible revenue sources of funding.
- Operate on a fiscally sound basis by approving a balanced budget in the Operating Funds (Educational, Operations & Maintenance, Transportation, IMRF and Working Cash).
- Maintain a financial status of Recognition as determined by the Illinois State Board of Education.
- Maintain a fund balance as a percent of revenues (cash basis) that is at least 33% for the Operating Funds on June 30 of each fiscal year.
- Secure community understanding and support of the fiscal requirements of the elements needed to offer, maintain and sustain the financial position of the school district.

If the fund balance percentage is projected to fall below the minimum percentage, the Board will develop a plan to keep it above this level.

The School District seeks to maintain a year-end fund balance to revenue ratio of no less than 15-20 percent, as calculated under the Ill. State Board of Education's *School District Financial Profile*.

limited to: (1) corporate governance and leadership factors, (2) environmental factors, (3) social capital factors, (4) human capital factors, and (5) business model and innovation factors, as provided under the Ill. Sustainable Investing Act, [30 ILCS 238/](#).

Selection of Depositories, Investment Managers, Dealers, and Brokers

The Chief Investment Officer shall establish a list of authorized depositories, investment managers, dealers and brokers based upon the creditworthiness, reputation, minimum capital requirements, qualifications under State law, as well as a long history of dealing with public fund entities. The Board will review and approve the list at least annually.

In order to be an authorized depository, each institution must submit copies of the last two sworn statements of resources and liabilities or reports of examination that the institution is required to furnish to the appropriate State or federal agency. Each institution designated as a depository shall, while acting as such depository, furnish the District with a copy of all statements of resources and liabilities or all reports of examination that it is required to furnish to the appropriate State or federal agency.

The above eligibility requirements of a bank to receive or hold public deposits do not apply to investments in an interest-bearing savings account, interest-bearing certificate of deposit, or interest-bearing time deposit if: (1) the District initiates the investment at or through a bank located in Illinois, and (2) the invested public funds are at all times fully insured by an agency or instrumentality of the federal government.

The District may consider a financial institution's record and current level of financial commitment to its local community when deciding whether to deposit funds in that financial institution. The District may consider factors including:

1. For financial institutions subject to the federal Community Reinvestment Act of 1977, the current and historical ratings that the financial institution has received, to the extent that those ratings are publicly available, under the federal Community Reinvestment Act of 1977;
2. Any changes in ownership, management, policies, or practices of the financial institution that may affect the level of the financial institution's commitment to its community;
3. The financial impact that the withdrawal or denial of District deposits might have on the financial institution;
4. The financial impact to the District as a result of withdrawing public funds or refusing to deposit additional public funds in the financial institution; and
5. Any additional burden on the District's resources that might result from ceasing to maintain deposits of public funds at the financial institution under consideration.

Collateral Requirements

All amounts deposited or invested with financial institutions in excess of any insurance limit shall be collateralized in accordance with the Public Funds Investment Act, [30 ILCS 235/](#). The Superintendent or designee shall keep the Board informed of collateral agreements.

Safekeeping and Custody Arrangements

The preferred method for safekeeping is to have securities registered in the District's name and held by a third-party custodian. Safekeeping practices should qualify for the Governmental Accounting Standards Board (GASB) Statement No. 3, Deposits with Financial Institutions, Investments (including Repurchase Agreements), and Reverse Repurchase Agreements, Category I, the highest recognized safekeeping procedures.

Controls and Report

The Chief Investment Officer shall establish a system of internal controls and written operational procedures to prevent losses arising from fraud, employee error, misrepresentation by third parties, or imprudent employee action.

The Chief Investment Officer shall provide a quarterly investment report to the Board. The report will: (1) assess whether the investment portfolio is meeting the District's investment objectives, (2) identify each security by class or type, book value, income earned, and market value, (3) identify those institutions providing investment services to the District, and (4) include any other relevant information. The investment portfolio's performance shall be measured by appropriate and creditable industry standards for the investment type.

The Board of Education will determine, after receiving the Superintendent's recommendation, which fund is in most need of interest income and the Superintendent shall execute a transfer. This provision does not apply when the use of interest earned on a particular fund is restricted.

Ethics and Conflicts of Interest

The Board of Education and District officials will avoid any investment transaction or practice that in appearance or fact might impair public confidence. Board members are bound by the Board policy [2:100](#), *Board Member Conflict of Interest*. No District employee having influence on the District's investment decisions shall:

1. Have any interest, directly or indirectly, in any investments in which the District is authorized to invest,
2. Have any interest, directly or indirectly, in the sellers, sponsors, or managers of those investments, or
3. Receive, in any manner, compensation of any kind from any investments in that the agency is authorized to invest.

The Superintendent or designee shall prepare all documents and notices necessary for the Board of Education, at its discretion, to: (1) issue State Aid Anticipation Certificates, tax anticipation warrants, working cash fund bonds, bonds, notes, and other evidence of indebtedness, or (2) establish a line of credit with a bank or other financial institution. The Superintendent shall notify the Ill. Bond Issue Obligations

In connection with the Board's issuance of bonds, the Superintendent shall be responsible for ensuring the District's compliance with federal securities laws, including the anti-fraud provisions of the Securities Act of 1933, as amended and, if applicable, the continuing disclosure obligations under [Rule 15c2-12](#) of the Securities Exchange Act of 1934, as amended.

Additionally, in connection with the Board's issuance of bonds, the interest on which is excludable from *gross income* for federal income tax purposes, or which enable the District or bond holder to receive other federal tax benefits, the Board authorizes the Superintendent to establish written procedures for post-issuance compliance monitoring for such bonds to protect their tax-exempt (or tax-advantaged) status.

4:42 Debt Management

The policies set forth in this Debt Management Policy (the "Policy") have been developed to provide guidelines relative to the issuance, sale, statutory compliance and investment, of bond proceeds by Gurnee School District 56. (the "District") The District recognizes that the foundation of any well-managed debt program is a comprehensive debt policy. "Debt" is defined as any short-term or long-term obligation to repay principal and interest on a loan whether for operating purposes or capital expenditures and including but not limited to general obligation bonds, notes, warrants, leases, alternate bonds, limited tax bonds, debt certificates, installment contract certificates and any other forms of indebtedness. While the issuance of debt can be an appropriate method of financing for capital projects, careful and consistent monitoring of such debt issuance is required to preserve the District's credit strength, budget, and financial flexibility. This policy will serve the District in determining the appropriate uses for debt financing and debt structures as well as establishing prudent debt management goals.

The key financial management tools and goals that are intrinsic to the Policy include:

A. *Fund Balance Policy:*

The District has a Fund Balance Policy, which has been adopted by the Board of Education. (See Board Policy 4:20)

B. *Capital Improvement Program:*

The Director of Business will prepare a 5 year capital Improvement Program in conjunction with the capital budget. The plan will detail the sources of financing for all facilities in the capital budget, establish funding priorities and review the impact of all borrowings on the District's long-term debt affordability ratios. The plan will consider all potential sources of financing, including non-debt options and ensure that these financing sources are in accordance with the goals of this policy. The Board of Education, upon recommendation from the Director of Business and Superintendent, may consider incurring additional debt to fund multiple

phases of the Capital Improvement Program. The plan is updated annually.

Section I. Purpose and Goals:

The purpose of the Policy is to provide a functional tool for debt management and to enhance the District's ability to manage its debt in a conservative and prudent manner. The Policy will establish standards regarding the timing and purposes for which debt may be issued, types and amounts of permissible debt and structural features that may be incorporated. These standards constitute realistic goals that the District can expect to meet, and will guide, but not bind, debt management decisions. In following this Policy, the District shall adhere to the following goals:

- The purpose for which debt can be issued shall be in accordance with applicable State of Illinois and Federal Statutes.
- The Board of Education will avoid issuing debt for payment of operating expenses unless needed to meet short-term cash flow needs.
- The District shall endeavor to attain the highest possible credit rating for each debt issue in order to reduce interest costs, within the context of preserving financial flexibility and meeting capital funding requirements. (See Section III, Item B)
- The District shall consider all practical precautions and proactive measures to avoid any financial decision, which will negatively impact current credit ratings on existing or future debt issues.
- The District shall remain mindful of debt limits in relation to assessed value growth within the school district and the tax burden needed to meet long-term capital requirements.
- The District shall, when planning for the issuance of new debt, consider the impact of such new debt on overlapping debt and the financing plans of local, state and other governments, which overlap with the District.

Section II. Authorization:

Illinois laws authorize the issuance of debt by the District and confer upon it the power and authority to make lease payments, contract debt, borrow money, and issue bonds for public improvement projects. Under these provisions, the District may contract debt to pay for the cost of acquiring, constructing, reconstructing, rehabilitating, replacing, improving, extending, enlarging, and equipping such projects, or to refund existing debt or to provide for cash flow needs.

A. *Periodic Review:*

The Policy shall be reviewed and updated periodically and presented to the Board for approval as necessary. At a minimum, the District will review this policy prior to the submission of a bond referendum to the electorate. The Director of Business is the designated administrator of the Policy and has overall responsibility, with the Board's approval, for decisions related to the structuring of all District debt issues. The Board is the obligated issuer of all District debt and awards all purchase contracts for any debt issuances.

Section III. Structure of Debt Issues and Guidelines:

A. *Maturity of Debt:*

The duration of a debt issue shall be consistent, to the extent possible, with the economic or useful life of the improvement or asset that the issue is financing. The length of maturity of any debt instrument shall be equal to or less than the useful life of the asset(s) being financed.

B. *Debt Service Structure:*

The District shall design the financing schedule and repayment of debt so as to take best advantage of market conditions, provide flexibility, and as practical, to recapture or maximize its credit for future use.

The District shall avoid issuing Debt Service Extension Based Bonds greater than a ten-year maturity.

C. *Capitalized Interest:*

Unless required for structuring purposes (e.g. first interest payment due before levy dollars are received), the District will avoid the use of capitalized interest in order to avoid unnecessarily increasing the bond size and interest expense.

D. *Derivatives:*

The District shall not employ derivative products as approved by the State of Illinois such as swaps and swaptions.

E. *Impact on Operating Budget:*

When considering any debt issuance, the potential impact of debt service

and additional operating costs induced by new projects on the operating budget of the District, both short and long-term, will be evaluated. The District shall avoid issuing bonds payable through the operating funds greater than a ten-year maturity.

F. *Debt Limitation:*

Limitations on school district bonded indebtedness are determined in relationship to a district's equalized assessed value (EAV) of real property. [Section 19-1 of the Illinois School Code](#) limits the District's total outstanding debt to 13.8% of the assessed valuation of the taxable property of the District.

G. *Reporting of Debt:*

The Annual Audit of the District's Financial Statements will serve as the repository for statements of indebtedness.

H. *Monitoring Outstanding Debt:*

The District will monitor all forms of debt annually and include an analysis in the District's financial planning program. Concerns and recommended remedies will be reported to the Board of Education as necessary.

The District will monitor bond covenants and federal regulations concerning debt, and adhere to those covenants and regulations at all times.

I. *Arbitrage:*

All issuances and funds subject to arbitrage constraints shall be monitored by the Director of Business and have arbitrage liability calculations performed in a timely manner.

J. *Investment of Bond Proceeds:*

Investment of bond proceeds shall at all times be in compliance with the District's adopted investment policy, comply with federal arbitrage regulations and meet all requirements of bond proceed covenants.

Section IV. Financing Team Members:

The District may use the services of professional service providers, such as Bond Counsel, Legal Counsel, Independent Financial Advisors, Bond Rating

Analysts, or other debt management advisors in order to assist the District with the effective management of its debt.

All financing team members will be required to provide full and complete disclosure, under penalty of perjury, relative to any and all agreements with other financing team members and outside parties. The extent of the disclosure may vary depending on the nature of the transaction. However, in general terms, no agreements will be permitted which would compromise a firm's ability to provide independent advice which is solely in the best interests of the District, or which could reasonably be perceived as a conflict of interest. All financing team members shall abide by the Board's code of ethics as well as State and Federal laws.

Section V. Related Issues:

A. *Financial Disclosure:*

The District will follow a policy of full disclosure on every financial report and official statement, voluntarily following disclosure guidelines provided by the Government Finance Officers Association for financial reporting and budget presentation, the disclosure requirements of the Securities and Exchange Commission, and arbitrage and rebate restrictions imposed by the Internal Revenue Service. To the extent necessary, professional service providers will be used to insure compliance with continuing disclosure requirements, SEC Rule 15c2-12, as amended from time to time.

B. *Review of Financing Proposals:*

All capital financing proposals involving a pledge of the District's credit through the sale of securities, execution of loans or lease agreements or otherwise directly or indirectly the lending or pledging of the District's credit initially shall be referred to the Director of Business who shall determine the financial feasibility of such proposal and make recommendations accordingly to the Board.

C. *Establishing Financing Priorities:*

The Director of Business shall administer and coordinate the Policy and the District's debt issuance program and activities, including timing of issuance, method of sale, structuring the issue and marketing strategies. The Director of Business shall, as appropriate, report to the Superintendent and the Board regarding the status of the current and future year programs and

make specific recommendations.

D. *Rating Agency, Credit Enhancer, and Investment Community Relations:*

The District shall endeavor to maintain a positive relationship with the investment community. The Director of Business along with the District's financial advisors shall meet with, make presentations to, or otherwise communicate with the rating agencies, bond insurers and credit enhancers on a consistent and regular basis in order to keep the agencies informed concerning the District's capital plans, debt issuance program, and other appropriate financial information.

The District will make every reasonable effort to maintain its high quality credit ratings. The District will seek to maintain or improve its current "Aa2" bond rating and will specifically discuss with the Board of Education any proposal which might cause that rating to be lowered.

The Director of Business shall, as necessary, prepare reports and other forms of communication regarding the District's indebtedness, as well as its future financing plans. This includes information presented to the media and other public sources of information. To the extent applicable, such communications shall be posted on the District's website.

E. *Call Provisions:*

The District will seek to optimize the cost/benefit trade-off from optional redemption call provisions, consistent with its desire to obtain the flexibilities of call provision on bonds when compared to obtaining the lowest possible interest rates on its bonds. The District and its financial advisor will evaluate optional redemption provisions for each issue to assure that the District does not pay unacceptably higher interest rates to obtain advantageous calls.

F. *Credit Enhancement:*

For competitive sales the District will provide the option for the purchaser to obtain credit enhancement, such as municipal bond insurance, at the purchaser's option and cost. In the event of a negotiated sale, the District will seek credit enhancement when necessary for marketing purposes or to make the financing more cost effective.

G. *Competitive versus Negotiated Debt Issuance:*

The District will consult with its financial advisor to determine whether a competitive or negotiated sale is most appropriate. Such determination may be made on an issue-by-issue basis for a series of issues or for part or all of a specific financing program. A negotiated financing may be used where market volatility, refunding sensitivity or the use of an unusual or complex financing or security structure causes a concern with regard to marketability. The underwriting team for a negotiated sale will be selected through a competitive process, but the ultimate decision will be based upon the team's qualifications.

H. *Refunding and Restructuring Policy:*

Whenever deemed to be in the best interest of the District, the District shall consider refunding or restructuring outstanding debt when financially advantageous or beneficial for structuring. The Director of Business, along with the District's Financial Advisors, shall review a net present value analysis of any proposed refunding in order to make a determination regarding the cost-effectiveness of the proposed refunding.

I. *Tax Anticipation Notes or Warrants:*

The District's Fund Balance Policy is designed to provide adequate cash flow to avoid the need for Tax Anticipation Notes or Warrants through the establishment of designated and undesignated fund balances sufficient to maintain required cash flows and provide reserves for unanticipated expenditures, revenue shortfalls and other specific uses. The District may issue Tax Anticipation Notes or Warrants in a situation beyond the District's control or ability to forecast when the revenue source will be received subsequent to the timing of funds needed.

J. *Variable Rate Debt:*

To maintain a predictable debt service burden, the District gives preference to debt that carries a fixed interest rate. It will not issue any variable rate debt.

K. *Transaction Records:*

The Director of Business or designee shall maintain complete records of decisions made in connection with each financing, including the selection of the financing team members, the structuring of the financing, and selection of investment products. The Director of Business shall timely provide a

summary of each financing to the Board.

L. *Special Situations:*

Changes in capital markets, District programs and other unforeseen circumstances may from time to time produce situations that are not covered by the Policy. These situations may require modifications or exceptions to achieve policy goals. Management flexibility is appropriate and necessary in such situations, provided specific authorization is received from the Board of Education.
