2. General Education Provisions Act (GEPA) Section 427 *

Section 427 of GEPA (20 U.S.C. 1228a) affects all applicants submitting proposals under this program. This section requires each applicant to include in its proposal a description of the steps the applicant proposes to take to ensure equitable access to, and participate in, its federally assisted program for students, teachers, and other program beneficiaries with special needs.

This provision allows applicants discretion in developing the required description. The statute highlights six types of barriers that can impede equitable access or participation: gender, race, national origin, color, disability, or age. The applicant should determine whether these or other barriers may prevent students, teachers, etc. from such access to, or participation in, the federally funded project or activity. The description of steps to be taken to overcome these barriers need not be lengthy; the school district may provide a clear and succinct description of how it plans to address those barriers that are applicable to its circumstances. In addition, the information may be provided in a single narration, or, if appropriate, may be discussed in connection with related topics in the application.

Section 427 is not intended to duplicate the requirements of the civil rights statutes, but rather to ensure that, in designing their programs, applicants for federal funds address equity concerns that may affect the ability of certain beneficiaries to fully participate in the program and to achieve high standards. Consistent with requirements and its approved proposal, an applicant may use the federal funds awarded to it to eliminate barriers it identifies.

Describe the steps that will be taken to overcome barriers to equitable program participation of students, teachers, and other beneficiaries with special needs.

The Gurnee District #56 Board of Education policy states that all students, teachers, paraprofessionals, administrators, participating support personnel, and parents regardless of gender, race, national origin, color, disability, or age, will have equal access to all programs. All teachers and instructional staff will receive training to ensure that all students are included in the curriculum including extra curricular activities. We continue to evaluate access to programs from support to extension to make sure no student is excluded due to identification as a member of a sub group or inappropriate screening systems. District leadership, Board of Education members, District Office staff and general staff continue to engage in professional development, and community engagement, to create equitable access for all families and students.

The district has worked with AIR to facilitate the Needs Assessment process to identify areas of improvement and target those areas in our upcoming School Improvement efforts. We included a wide range of stakeholders in the process. The first step in the process was to assemble the School Improvement Teams and dedicate time to complete a self-reflection using the Illinois Quality Framework Rubric. The second step was to facilitate a Root-Cause analysis with the SIP teams and further analyze those areas in which we felt we needed to improve on the IQFR. Throughout this process, we engaged our SIP Teams in book studies to explore concepts of trauma-informed practices and Inclusionary Practices with a focus on co-teaching as a service delivery model for our Sped and EL students. Most of the planning process involved members of our SIP Teams only as we wanted to identify and develop plans based on the needs assessment data. Lastly, we engaged in summer work with our SIP Teams to design professional learning based on the goals identified through the planning process.

Community outreach events are hosted at each of our buildings during the course of the year. At these events we also gather input from our parent community about the best ways to meet their students' needs through use of Title funds. The Diversity, Equity, and Inclusion Committee altered previous programs from student presentations to family engagement and interactive meetings involving the full community and not just the school community. The school committee and the Parent Advisory Committee are making personal invitations to EL parents to bring them to the planned district wide events, such as BPAC. Bilingual Parent Advisory Committees - continue to look at the needs of our students and our community. Hope to provide more family access to community support and to connect more families to the school community for increased parent engagement. Advisory Committee (discipline) - Parents were invited to review data and discuss parent and student needs and goals for safety and discipline. The committee has restructured its PBIS system with a new discipline flow chart, updated definitions for minors and majors (classroom and office). Future training and tools for staff to support the needs of students who have skill deficits in the area of behavior. The committee will next review and rewrite our attendance/truancy procedures and protocols to meet the needs of all students, including special needs, EL and homeless students.

Gurnee School District 56 currently offers both Early Childhood Special Education classes as well as Early Learning classes. The Early Learning classes are funded through the Preschool For All grant. The Preschool For All funded programs are a blended program as approved by the grant to enroll both At-Risk and Special Education identified students in the same classroom. These programs are currently operated under the Gold performance standard awarded by the state auditors. The program provides a rigorous curriculum addressing academics, social and emotional development, fine and gross motor skills. Response to Intervention programs begin with the Early Learning programs and most often focus on motor development or speech and language development services. School District 56 teachers facilitate parent and child sessions that are modeled after the Parent as Teacher program. This program's aim is to build the capacity of parents who have children that may be at risk of academic failure to support their child's learning at home. Parents are provided with materials to use at home with their child to support their child's learning and development. Community Outreach - In addition to offering Child Find screenings throughout the year both onsite and at other community locations, PreKindergarten and Kindergarten Teachers participate in Kindergarten parent information nights at local preschools to inform parents of kindergarten expectations. Related service staff visit and observe in local preschools to collaborate and set up intervention plans for students that are district residents.

Gurnee School District 56 provides a well-rounded instructional program for students in Pre-kindergarten through Eighth grade including a full day kindergarten program for all students. In addition to the core content areas of Language Arts, Mathematics, Science and Social Studies students participate in daily Physical Education, Health, Art, Music and Technology. Optional courses include Digital Literacy, Band, Choir and Spanish (both native and non-native courses are available.) Content for all of these courses are aligned with the challenging State academic standards, as well as national standards from the appropriately affiliated organizations such as ISTE (International Society for Technology Education) or WIDA. The district fully complies with all requirements of the Illinois School Code and regularly passes audits of compliance. The development of the district curricula is a continual process completed by teachers and monitored by the parent community throughout each school year. The district works under the Illinois Learning Standards as well as other nationally recognized standards (noted above.) Curriculum maps are developed for courses and housed in the Google Workspace. Revisions and updates are done collaboratively to meet the needs of the students and guide the path towards meeting or exceeding standards and prepare students for a successful transition to Warren Township High School (a separate school district). Curriculum updates and revisions are ongoing and fluid. The curriculum maps are considered live documents as adjustments are made to pacing and scaffolding in order to accommodate our changing population. The mission statement for Gurnee School District 56 is Education that Inspires...Opportunities for All. That was at the forefront when the decision to become a 1:1 school district was made in 2012. Ensuring every student had access to the curriculum and providing student learning twenty-four hours a day would support the district goal of one year of growth for one year of attendance. All students in grades K-8 are provided an iPad and classroom sets of iPads are provided in the Early Childhood and Early Learning classrooms. Students and families in grades K-8 are able to keep that device twenty-four hours a day. The iPad has become the primary content and instructional delivery tool for students. The accessibility tools, interactive textbooks, teacher created instructional videos, screen-casting tools, audio and video features and apps have allowed D56 teachers to personalize learning for all students. Self-paced opportunities are plentiful, allowing students to move through the curriculum as they demonstrate mastery of skills that build towards meeting a standard. Students often remark on how much they appreciate being able to go back and replay the teacher, teaching a concept on their own, rather than having to ask questions in class. Creating entry points all along the way to the curriculum supports all learners and their unique learning traits at all grade levels. As a district, we have transitioned from a teacher-centered to a student-centered environment, which maximizes student choice, engagement and productivity for all students. At the teacher level structures are in place for every grade level or content area team to hold regular professional learning conversations. Formative and Summative assessment results are reviewed to determine if students are making growth toward the identified targets/standards. By identifying strands that demonstrate lower student performance, teachers are able to link back to the curriculum maps to make sure that the curriculum is appropriately addressing the strand at a rigorous level. If the curricula objectives, skills and activities are determined to match the target/standards, then the team reviews the instructional strategies being used by teachers. Team members demonstrating success with this strand share the strategies and the instructional plans they used so others may adjust their instruction accordingly when they reach the content. Professional development is offered for staff that have identified a gap in their instructional preparation.

District 56 has long adhered to the regulations set forth with MTSS. It is the foundational system whereby all students access additional support when needed. The goal of this program is to incorporate an effective three-tiered model, utilizing research based teaching strategies and interventions in order to show meaningful academic and behavioral growth for all D56 students. *There is a shared responsibility for student achievement across the entire school community despite environmental, economic, or educational disadvantages. *All staff members have a part in the MTSS decision making process, follow through on intervention plans and the review of growth data. *Improving the effectiveness of the core instruction is essential to this process. *Assessments should inform and evaluate the impact of instruction in all tier levels. *Core instruction and interventions should be supported by research. *Parents, staff, and students are vital members of the team. *The best way to address student learning and behavioral needs is to be proactive. *All staff members must have quality professional development, adequate tools, strategies, support and resources to meet the needs of all students. *The effectiveness of instruction is routinely monitored; ongoing formative data are used to indicate when changes in instruction are needed. Purpose: The purpose of MTSS is to identify student needs and provide all students with a continuum of increasingly intensive programming based on individual need using a comprehensive decision-making process. This system blends general education, special education, and other support staffs' expertise, services and resources into one system that more effectively meets students' needs. The students' strengths and weaknesses are assessed based on their academic performance or behavior in the school environment. The focus is on functional assessment of students' needs, the provision of usable information to classroom teachers and the development of interventions by a collaborative problem solving team. Early intervention in the typical learning environment is emphasized based on reliable and measurable information. The student's progress is directly and frequently monitored, at all levels of decision-making. Foundation of Model: MTSS is based on the following beliefs; *All students can learn and should have appropriate learning opportunities utilizing scientifically based researched instructional materials. *Everyone in the school is responsible for the education of ALL students. *A strong parent-school partnership provides an important foundation for student success. *Ongoing systematic staff development is necessary to meet the needs of ALL learners. *Collaboration is essential for effective decision-making related to student performance. Components: MTSS is defined by the following: Problem Identification *A problem is defined as the discrepancy verified by multiple sources/measures that exist between any child's current and desired performance. *Assessment takes place using Universal Screening three times throughout the school year to identify students with "at-risk" and significant skill deficits. Problem Analysis *Assessments are directed to specific areas of difficulty related to instruction, curriculum, environment, and/or learner. *The primary focus of assessment is on variables that can be changed within the school setting. *Problem solving occurs in multiple forums: with parents, with grade-level colleagues and/or with a building team. Plan Development *Interventions are identified and considered that address the specific area of identified need. *Interventions are implemented to ensure that the plan is implemented with integrity. *The intervention effectiveness is assessed continuously through progress monitoring. *This data collected over time is the primary source of information for instructional decision-making, including eligibility for special education or other services. *The intervention plan includes a measurable goal that reduces the gap between the current and expected performance. *The progress monitoring system is sensitive to small changes in performance, is easy to administer, is time efficient and inexpensive and allows for repeated administration. Plan Evaluation *Problems are considered resolved when the discrepancy between current and desired performance is no longer significant. *The progress monitoring data is used to determine the effectiveness of the intervention and is used for continued decision-making. *The plan is evaluated in terms of progress toward the goal, level of discrepancy, and level of resources needed. *The next steps are planned based on educational need and educational benefit. The intent of this model is not to avoid the identification of students with

disabilities for special education services. This service delivery system is designed to provide support and services to any student experiencing difficulties in the educational setting whether they have an identified disability or not. MTSS Tiers Tier 1 Research-based Core Instructional Curriculum: Grade level general education curriculum with or without adaptations. Assessment: Local and CBM (AIMSweb) assessments are used to identify students underperforming as compared to national and local norms including class ranking. Local assessments are given three times a year to kindergarten through 8th graders. AIMSweb is given three times a year to grades K-5. It is given strictly for progress monitoring in grades 6-8. Students performing below the 25% are referred for MTSS services. SEL screener is given out periodically, each school year. Tier 2 Targeted Group Interventions Curriculum: Grade level general education curriculum with or without adaptations, additional practice and support for isolated skill/strategy development using peer reviewed, scientifically research-based interventions. Assessment: Local and CBM (AIMSweb) assessments to verify skill development. These assessments are used to progress monitor/strategic monitor progress on a more frequent basis (at least monthly), additional diagnostic testing may be performed as needed. Peer Reviewed Scientific Research-based Programs: see programs noted above. Tier 3 Intensive Individual/Small Group Interventions Curriculum: Grade level general education curriculum with additional intensive daily interventions (peer reviewed scientifically research-based), alternative programs of instruction in one or more curricular areas. Assessment: CBM (AIMSweb) progress monitoring of targeted skills. Progress monitoring data is collected on a more continual basis (weekly.) Additional diagnostic testing may be performed as needed. Peer Reviewed Scientific Research-based Programs: See Intervention listing, Examples of supplements and programs used as interventions include but are not limited to the following research based instructional programs: Wilson Reading, Making Connections, Superkids, Lexia, Read Naturally, Reading Mastery, and others.

Additional education assistance is provided in a variety of formats from school to school. Power Up is an additional class added to the school day at appropriate school buildings, specifically to allow additional instruction (Tier 2 and Tier 3 instruction) for students in reading or math. This supplements the Tier one, core instruction program for students requiring additional help. "Class and a half" is another support provided in middle school math for students requiring additional instruction and practice time beyond the regular class period. Students identified as at risk of academic failure may be enrolled in one or both of these intervention programs based upon individual need. Small group, pull-out instruction is most often provided at the K-5 level. These personalized interventions align with the identified gap in learning as determined through analysis of AIMSweb, local and common formative assessments. Based upon the size of the gap, students receive these services anywhere from twice a week to daily. Interventions are research based and delivered either by the classroom teacher directly, a certified interventionist or a teaching assistant under the direction of a certified teacher. All intervention programs are in addition to the core instructional program being delivered by highly qualified, certified teachers. It is important to note that all teaching staff in Gurnee School District 56 are highly qualified in the area of teaching for which they are assigned. Certified reading teachers provide individual, small and larger group instruction for those students challenged with decoding, comprehension and other skill based gaps in literacy.

Students identified as at risk of academic failure may be enrolled in one or both of these intervention programs based upon individual need. Small group, pull-out instruction is most often provided at the K-5 level. These personalized interventions align with the identified gap in learning as determined through analysis of AIMSweb, local and common formative assessments. Based upon the size of the gap, students receive these services anywhere from twice a week to daily. Interventions are research based and delivered either by the classroom teacher directly, a certified interventionist or a teaching assistant under the direction of a certified teacher. All intervention programs are in addition to the core instructional program being delivered by highly qualified, certified teachers. It is important to note that all teaching staff in Gurnee School District 56 are highly qualified in the area of teaching for which they are assigned. Certified reading teachers provide individual, small and larger group instruction for those students challenged with decoding, comprehension and other skill based gaps in literacy.

This includes a description of any additional supplemental instructional activities and strategies designed to strengthen academic and language programs for English learners and immigrant students, as applicable.* [4]**

As a 1:1 iPad school district, ongoing professional development on the appropriate integration/use of technology in the classroom continues to be provided to instructional staff. As the use of the devices became solidly embedded and fluid in the classrooms the focus of the improvement of instruction moved to the expansion of support of the existing evidence based instructional strategies in the areas of reading and math at the K-5 levels, and Co-Teaching for special education teachers paired with a small group of general education teachers. Co-Teaching using SIOP model for EL teachers paired with the special education and/or general education teacher to support language development and academic skills for multilingual students. Programs and strategies addressing students' engagement and the development of skills related to being a scholar have also been brought into the district's core and supplemental instructional programs. Teacher Rounds, CHAMPS Structures, and Kagan Cooperative Learning Structures have been adopted to support teachers at the K-5 level with developing student ownership of learning. The district completed a literacy review during the summer of 2024 aligning literacy practices to the ISBE Comprehensive Literacy Plan. A team of more than thirty educators representing general education, special education, multilingual education, and social emotional education partnered together to read, Teaching Reading by Fisher and Frey and developed professional learning modules aligned to each chapter of the book. This year those modules have been used as professional learning resources for all staff so they can align literacy practices in all grade levels and content areas to best practices. Evidence based reading and math instructional strategies that allow teachers the necessary structures to meet the varied needs that exist in a single classroom. The adoption of iReady math in grades k-5 and Amplify Desmos Math in grades 6-8, partnered with ongoing data analysis, assists teachers with identifying students with gaps or challenges that impede their work towards meeting the State academic standards. Flexible groups complement whole class instruction and provide opportunities for students to receive individualized attention and re-teaching when necessary. Use of materials such as Newsela, provide the same content written at different Lexile levels. This provides differentiated entry points for students allowing them to share the learning of the same content with one another. Co-teaching with special education staff, English Language Learning staff and/or Interventionists may also take place during this time. Students at risk of academic failure receive direct instruction on skill deficits in the regular classroom with the whole class, in a small group with a teacher or specialist and with an intervention group. These small groups spiral curriculum allowing the teacher to cycle back to content taught earlier and measure the retention of the concepts throughout the school year. Co-Teaching, as mentioned above, brings the Special Education teacher into the regular education classroom to support the fully included special education students as well as those students at-risk for academic failure. Co-Teaching will also help to support the linguistic and academic needs of our multilingual students. Teachers will co-plan and deliver differentiated lessons. During these lessons either the regular classroom teacher or Special Education teacher will take the lead on the delivery of the lesson while the other teacher moves around the room to support individual students or pull a small group of struggling students to guide them through the lesson with additional scaffolding of information or smaller steps laid out to guide students towards successful mastery of the content. As the student population of Gurnee School District brings more challenges to the classroom and demonstrates less preparation for school it has become necessary to employ new

approaches to instruction. Students need to learn how to be a student and understand the expectations of school with consistent language throughout their academic experiences. Cooperation and ownership of the learning can no longer be expected, but must be taught, first. Kagan Cooperative Learning Structures and CHAMPS Structures were brought into the primary Title I school as a result of research done by a teacher team and the PBIS Tier 1 team. Their work on creating a collaborative classroom has demonstrated success and created excitement and consistency in these classrooms. Title III funds will be used to cover the costs of acquiring, implementing, and sustaining the use of these supplemental resources for EL students. These resources are supplemental to the core curriculum, meaning they provide targeted, additional support specifically for ELs beyond what is offered to all students. This ensures that the district is meeting its obligation under Title III to improve the language proficiency and academic achievement of English learners. Imagine Learning: This platform provides personalized instruction in reading, math, and language development. Title III funds will be used to purchase licenses for EL students, ensuring they receive targeted support in language acquisition through interactive lessons and assessments. Imagine Learning will also help teachers track progress, adjust instruction, and provide personalized learning plans for each student. Words Their Way / Palabras a su Paso: These word study programs focus on phonics, spelling, and vocabulary development, with a specific focus on bilingual instruction for ELs. This resource will help students develop their literacy skills in both English and Spanish, building a strong foundation for reading and writing in both languages. Heggerty: This phonemic awareness curriculum supports early literacy development, which is critical for EL students learning English. This resource will help students build phonological awareness, which is a key predictor of reading success for ELs. By providing these supplemental resources, the district ensures that EL students receive differentiated and targeted instruction that meets their unique language development needs. These resources will provide EL students with the necessary support to succeed in their language development journey. By utilizing Title III funds to implement these programs, the district ensures that the needs of EL students are met through high-quality, evidence-based interventions that are tailored to their learning profiles. We will continue the work on the SIOP model with staff who work with EL students. The SIOP model offers strategies to support language development at any grade level.

The enrollment system at Gurnee District 56 equitably distributes students throughout the school district and classrooms. There are two school sites for every grade level from kindergarten through eighth grade. Enrollment moves back and forth between the two schools to make sure that class sizes and class make up is equitable between each school site. There are no neighborhood schools. Students residing in subsidized housing or low-income areas are assigned to all four schools. Transportation is provided for every D56 student and all four schools receive a mode of transportation from every residential area of the district. As for classroom assignments, each building creates heterogeneous class lists through a process that is completed each spring. A profile is completed on the demographic information for each student identifying gender, ethnicity, income, required special services, reading performance, math performance, behavioral concerns, special interests and other information that would allow for a successful class placement. The process results in equitable classrooms where each classroom has a balance of demographics and small groups of students identified with similar special needs. This allows teachers the ability to provide the additional attention and support to our students that are exceeding or not meeting state standards. Students requiring EL services are placed in classrooms with teachers certified to teach EL or receive EL services from an EL certified resource teacher. All teachers review final class lists to ensure balance of need. No one classroom is allowed to have higher rates of students requiring targeted assistance or identified as at risk of academic failure than other classrooms. When reviewing the needs of the students with special needs and receiving special education support, the team always considers the 70/30 ratio of special education students to general education students in any one given classroom. The process in place has been highly effective in supporting this goal. All teachers in Gurnee School District 56 are highly qualified to be in the position they hold. The profile of students assigned to a new teacher's (inexperienced) classroom and the makeup of that classroom mirror that of the other classrooms in that grade level or content area, throughout the district. Any teachers that are inexperienced or out of placement and requiring support would be continued in the existing mentor program or reenrolled, if necessary. Should the deficiency be identified in any area the teacher would be directed to participate in, participate in professional learning or instructional coaching. The teacher would also be required to create a PDP (professional development plan) in collaboration with their building administrator and the collective bargaining agent's representative. Any necessary conferences or paid consultants agreed upon by both parties would be supported by D56.

Each of the four schools employs a full-time, certified librarian and the district employs a STEM instructional coach ensuring students and teachers have access to the best library media resources and STEM related instruction. All four schools at Gurnee School District 56 offer fully developed "library" spaces that have completed a transformation to add STEM labs and makerspaces to the more traditional library space. Each of these facilities offer flexible seating that allows for whole class or multiple class sessions for cross curricular studies. Each space offers a presentation center that allows students to work in small group collaborations on projects, inquiry studies or STEM based challenges. Each presentation center is equipped with furniture that facilitates collaboration and a touchscreen television for displaying the presentation being developed. These spaces are conducive for students to work independently, with partners, in small groups or with a full class and a teacher for direct instruction. The spaces are designed to accommodate more than one class at a

time. It is possible to have two classes conducting inquiry-based learning while another class is using the makerspace to build models of a cell and small groups of students working at the presentation center creating the soundtrack for a Public Service Announcement or in the STEM lab building bridges. The STEM labs are equipped with robotics, Lego, construction materials, 3D printers, 3D pens, green screen recording spaces and other materials needed to accomplish the STEM challenges being presented in either core classes or in the Digital Literacy class. The STEM lab is available for any teacher in the school to take advantage of throughout the course of the year. The makerspaces are equipped with small tools, such as soldering irons, saws, screwdrivers, hammers, drills and the associated materials such as lumber, foam board, cardboard, tape, glue, etc. Each space has a sewing machine, materials and thread. Finally new equipment is added regularly such as a vinyl cutting machine or 3D printers. The library continues to house volumes of fiction and nonfiction reading materials for research and checkout purposes. It is important to note that as a 1:1 iPad district the students have a digital library at their fingertips, as well. Novels for class studies as well as independent reading are available for students 24/7 through their device. Both Follett and SORA library services are used in the district schools. All technological resources, applications, and/or apps are SOPA/FERPA compliant for all district employees and student usage. Finally, digital literacy skills are taught from Kindergarten to Eighth grade. The curriculum objectives move students towards being able to create digital presentations using a variety of tech-enhanced tools. Students are capable of combining apps and other applications for a multi-faceted presentation. With coding being taught formally in grades K- 8 students are able to design their own applications, solving problems or demonstrating their learning. An example would be a second grade student creating a display that codes the animation of the water cycle, modeling evaporation, condensation and precipitation. These opportunities are open to all students throughout the district and the curriculum supporting this is taught to all students across the district.

Services for students identified as performing significantly above grade level expectation may be considered for participation in the formal Advanced Academics Education Program. These services are provided in Language Arts and Mathematics from grades 4-8. The programming offers replacement classes for the regular Language Arts and Mathematics programs taking place in the general classrooms. Students may be placed in one or both of the offerings based upon the findings of the eligibility process noted below. (Students found to be "borderline" are offered placement in the class with the consent of the parents and understanding if the placement is determined to be inappropriate for the student and he/she may be removed from the class at the parent/student/teacher's request.)
Mission: When it comes to the possibility that a student is demonstrating advanced learning needs in Gurnee District 56, we have designed a continuum of services we consider when seeking to meet the needs of a particular student. The mission of the Advanced Academics program is to provide a diversified language arts and/or math curriculum and instructional experience to students with high cognitive ability and/or achievement. Philosophy: Students who have a high cognitive ability and/or achievement that is significantly above the norm require specialized instruction. This instruction should be faster paced, more rigorous, at a greater depth, or accelerated beyond the typical grade-level instruction. It should provide opportunities for students to engage in high level thinking skills and interaction with students of similar abilities. The Advanced Academics program encourages success by supporting the needs of identified students while ensuring that grade level standards are met. Definition: A student who demonstrates ability and/or achievement that is significantly above the norm may be considered for the Advanced Academics program. This program is designed to address the needs of students who require instruction that is above their grade-level peers.

In order to facilitate effective transitions for the middle school students graduating from Gurnee D56 and moving on to the local public High School District, Warren Township High School 121 (a separate school district), the District Office and building administrators meet regularly with the administrative team for all feeder schools and the high school to collaborate on outcomes and expectations. Since this high school educates students from three separate elementary feeder districts it is imperative that every district is represented equitably and that the educational opportunities for all students from within the larger community meet a high standard as the minimum expectation. No student should enter the high school at a disadvantage as a result of attending any of these feeder districts. Meetings between the Curriculum and Instruction departments take place through the school year as do meetings with the Pupil Services representatives. These meetings examine both common practices, curriculum, assessment, programing, services and academic expectations as well as individual student needs particularly in the Special Education, English Learner and medically fragile areas. The goal is for all EL students to transition from District 56 to high school with the opportunity to select the pathway that aligns with their future goals related to college and career. Our Biliteracy Program provides students with the opportunity to leave elementary school fluent in both English and Spanish. Annual articulation meetings take place between the high school department chairs and their teachers and the middle school department teachers. These meetings work on standardizing expectations, sharing instructional materials and strategies, reviewing final exams and discussing student placement for the fall. Warren Township High School has offered a comprehensive summer school program that allows incoming freshmen with concerns regarding their understanding of a particular content area to bridge the learning gap by taking review and high school preparation sessions. Students and parents participate in an incoming freshman meeting in January where they receive orientation information and their schedule for fall. This allows students ample time to prepare and review for classes that may prove challenging. Special education students and their families are required to participate in transition meetings with the staff from the high school to review existing services for students with IEPs or 504 plans. Students receiving significant levels of MTSS services are also offered the opportunity for a transition meeting, as well. The middle school courses of Algebra, Geometry and Spanish I are accepted at the high school to advance placement of the student. This allows students to enter high school enrolled in higher level courses of Geometry, Algebra II Trig or Spanish II. Band and Choir students audition in advance for placement into the appropriate band/choir.

Annual articulation meetings take place between the high school department chairs and their teachers and the middle school department teachers. These meetings work on standardizing expectations, sharing instructional materials and strategies, reviewing final exams and discussing student placement for the fall. Warren Township High School has offered a comprehensive summer school program that allows incoming freshmen with concerns regarding their understanding of a particular content area to bridge the learning gap by taking review and high school preparation sessions. Students and parents participate in an incoming freshman meeting in January where they receive orientation information and their schedule for fall. This allows students ample time to prepare and review for classes that may prove challenging. Special education students and their families are required to participate in transition meetings with the staff from the high school to review existing services for students with IEPs or 504 plans. Students receiving significant levels of MTSS services are also offered the opportunity for a transition meeting, as well. The middle school courses of Algebra, Geometry and Spanish I are accepted at the high school to advance placement of the student. This allows students to enter high school enrolled in higher level courses of Geometry, Algebra II Trig or Spanish II. Band and Choir students audition in advance for placement into the appropriate band/choir.

2. If applicable, describe the district's support for programs that coordinate and integrate the following:* [2]

Academic and career and technical education content through coordinated instructional strategies, that may incorporate experimental learning opportunities and promote skills attainment important to in-demand occupations or industries in the State; and work-based learning opportunities that provide students in-depth integration with industry professionals and, if appropriate, academic credit.

Gurnee School District 56 is a Pre-kindergarten through Eighth grade district. Students matriculate from our program into either the local public high school (which is a separate school district, Warren Township High School District 121) or one of the local private high school programs in the area. There are no work release programs at the middle school level. Developing the knowledge and importance of jobs and career choices is taught in an integrated fashion beginning with the Early Childhood students' study of jobs on a farm and concluding with the middle school language arts students development of a resume as an assessment piece of the career research project. Throughout their PreK-8 grade studies, students are exposed to a variety of careers affiliated with the content that they study. Second grade students learn about the job of a meteorologist as a component to their study of the weather. First Grade students study the World of Work and the role that workers and community helpers play in their daily lives. Career days are held related to content areas, such as community workers at the primary grades, technology workers as a component to the study of computer science and coding and health workers as fields in the Health classes. Middle School Art teachers conduct a unit on the study of careers in the arts. Finally all Middle school students complete a Research study on careers that culminates in the writing of a resume, speech on a career of interest and a research paper.

B. Title I, Part A - School Improvement Part 1003

The district has been working with AIR to facilitate the Needs Assessment process to identify areas of improvement and target those areas in our upcoming School Improvement efforts.We have included a wide range of stakeholders in the process during our planning year in order to set us up for success and improvement. The first step in the process was to assemble the School Improvement Teams and dedicate time to complete a self-reflection using the Illinois Quality Framework Rubric. From there, we have partnered with school leaders, parents, and members of the SIP teams to work on developing yearly school improvement plans aligned to the needs assessment.The second step was to facilitate a Root-Cause analysis with the SIP teams and further analyze those areas in which we felt we needed to improve on the IQFR.Throughout this process, we engage our SIP Teams in book studies to explore concepts of trauma-informed practices and Inclusionary Practices with a focus on co-teaching as a service delivery model for our Sped and EL students. Most of the planning process will involve members of our SIP Teams only as we want to identify and develop plans based on the needs assessment data.Lastly, we will engage in summer work with our SIP Teams to design professional learning based on the goals identified through the planning process.

Gurnee District 56 has three Board Policies that address behavior management of all students. 7:20 Harassment of Students Prohibited, 7:180 Prevention of and Response to Bullying, Intimidation and Harassment and 7:230 Misconduct by Students with Disabilities all lead to the necessity to have programs and systems in place that address misbehavior, bullying and harassment in a respectful manner that takes into account individual differences of all students. A three pronged approach to addressing incidences of students who may step outside of the approved behavioral norms including instances that include bullying and harassment. Two programs, Team Lead and PBIS are proactive in nature while Restorative Practices are growing in use throughout the district as the system for when the staff/schools are in a situation that requires a reactive stance or consequence. Both Team LEAD and PBIS explicitly teach acceptable behaviors as well as strategies for students to employ if they encounter a situation when a peer is behaving in an unacceptable manner. Team LEAD is a Bystander Leadership program focused on empowering student leaders to combat bullying in the schools. The students are taught how to actively and safely deal with bullying through a mentoring program. Viking and River Trail Schools began the Team LEAD program in 2008. Since this time both schools have incorporated the program into the intermediate age groups located at the other school buildings in the district. The philosophy of the program is that teachers aren't always around when bullying occurs. Bullies often harass students only in the presence of other children. Therefore, it is imperative to empower the kids and teach them the correct and safe ways to deal with bullying. The program teaches students the different forms of relational aggression and bullying. It also teaches them not to be bystander, to take an active role in stopping bullying in our schools. Team LEAD develops student leaders at the middle school grades and teaches them how to conduct lessons and provide special programs for their peers at the middle school and at the elementary schools focused on being positive contributors to the learning environment, how to not be a bystander to bullying and how to recognize bullying when it is taking place. It also teaches them that if they stand-by and watch the bullying occur, it will continue. Students learn about the negative consequences of being a bystander. While this does remove students from the classroom, it is an opportunity for students to present materials, work with their peers and teach them the content of the Team LEAD program. PBIS (Positive Behavior Interventions and Supports) is a school-wide behavioral system that is focused on these four key areas: *Prevention-based school-wide systems of positive behavior support *Data-based decision-making for instruction of behavior and academics *Wraparound planning for students with complex emotional and behavioral needs and their families *Community-based supports for families, youth and schools The goal is to educate students on district behavioral expectations to increase academic success of all students. PBIS is a proactive systems approach to providing behavioral support and social and academic success. PBIS involves setting school-wide behavioral expectations. At Gurnee District 56 the expectations include: *Be Respectful *Be Responsible *Be Productive *Be Safe Behavior expectations are taught to all students in all settings and situations throughout the school day. Our emphasis is on acknowledging appropriate behavior and celebrating positive growth in individuals in the school community. When students step outside of the expected behaviors the PBIS system is used to redirect and reteach the appropriate behavior. Schools have developed online presentations, videos and ebooks that are used as resources to review and reteach appropriate behaviors with these specific students. If a staff member notices a student who requires redirection for a specific behavior, they work with the student to work through a form of redirection and reteaching. Behavioral data is monitored throughout the year by each building. When a trend is noted and identifies an increase in negative behavior in the class, grade level or entire school, they will pause general programming to reteach the behaviors that directly impact the area identified through the data review. These strategies do not compromise student health and safety. These strategies aim at empowering students to make the appropriate choices and ensure that the knowledge of appropriate behavior exists for all students. The DBAC, District Discipline and Behavior Committee also review the procedures and data frequently throughout the year to determine trends in the data at buildings and across the district. The DBAC also helps to brainstorm possible resources and understanding of potential root causes of the patterns of behavior and discipline. This committee is made up of staff members across all buildings with differing areas of specialty and expertise. Restorative Practices Restorative Practices are an approach that addresses misbehavior through the social/community lens. Processes that allow restitution and promote reconciliation are in place in all schools. Choices for restitution are provided and all choices include contact with the home, the student taking ownership of the behavior, apologies and the agreed upon restitution completed. For all students we are utilizing restorative conversations and practices as a way to make amends within the school setting. All of our classrooms are also starting their days with morning circles or morning meetings to build community amongst each classroom. D56 is able to disaggregate data on student behavior by all subgroups through the use of SWIS and Skyward. This information is also used to inform the school improvement and PBIS teams at each school to determine if there are any irregularities in suspensions and detentions and students in an identified subgroup.

Students enrolling in Gurnee School District 56, who are determined to be homeless, are automatically provided with a number of services per Board of Education Policies 6:140 Education of Homeless Children and 7:60 Residence: Homeless Students. Students are immediately enrolled in a D56 school. Students are assigned to the building with the smallest class size available at the appropriate grade level. Families with a pre-school aged student are referred to the district run Early Learning/Early Childhood programs. Transportation begins immediately for any homeless student enrolling in the district. The district works with the district considered as the school of origin or school of attendance to share transportation. If the parent is unable to provide the needed paperwork and information to complete the registration process a District Office staff member will assist with obtaining a birth certificate, health records and academic records from the school district of origin. The District Office staff provides a backpack filled with classroom supplies suited for the student's grade level whether primary, immediate or middle school for each student in the family. Students requiring a gym uniform and lock for a locker (middle school) are provided these items, as well. All students are provided a free breakfast and lunch through the Community Eligibility Program which is part of the National School Lunch Program. Once at the school, students receive their iPad and a mobile wifi card that will provide Internet access and 24/7 access to their school materials and assignments. Each student receives a district email account that allows them to communicate within the district environment only. This allows them to communicate directly with their teacher whenever needed. Students are evaluated and provided a screening assessment to determine academic readiness assisting with class placement at the appropriate school. If needed, the students are immediately brought to the building team to create an RTI plan of services. District Social Workers and office assistants will help with referrals to related services such as medical appointments, counseling and village/community services, such as Warren Township Youth Services and Referral GPS. Prairie Trail School, Viking School, and Spaulding School all earned the designation of targeted during the 2024-25 school year. As a result, we are reviewing the existing comprehensive assessment of performance and program options in each school building as compared to the other school that did not receive that designation. Additional funds to support retraining of staff or additional programming options, will be allocated to support the areas noted as deficient. Additional assessment sessions including standardized and local formative would be put into place to enhance the already ongoing measurement of student growth towards the state standards. The district has been working with AIR to implement changes identified during the Needs Assessment process. We have identified areas of improvement and are targeting those areas in our School Improvement efforts.We have included a wide range of stakeholders in the process both during the planning year and now that we are in implementation. This has been critical for success and improvement. The first step in the process was to assemble the School Improvement Teams and dedicate time to complete a self-reflection using the Illinois Quality Framework Rubric.The second step was to facilitate a Root-Cause analysis with the SIP teams and further analyze those areas in which we felt we needed to improve on the IQFR.Throughout this process, we have engaged our SIP Teams in book studies to explore concepts of trauma-informed practices and Inclusionary Practices with a focus on co-teaching as a service delivery model for our Sped and EL students. For the 2025-26 school year we meet those requirements again so we will provide schoolwide support to our two Title I schools. Title 1 funds have been used to provide additional programming and a higher degree of support for students enrolled in those schools identified as homeless, low-income or at risk for academic failure. The impact of these additions is measured with the district's use of nationally normed local assessments as well as the full RTI process as noted in the response to question 1. District annual goals are set increasing the percentage of students that meet or exceed their targeted growth for both reading and math for all schools. Additional intervention programs are available at the Title I schoolwide designated schools delivered by specific interventionist staff and/or the regular classroom teacher. Programs such as Second Step, ST Math, and Imagine Learning, all supplement the core instructional programs at the Title I identified schools. And, teachers will receive professional learning as described in the goal above.

Prairie Trail School earned the designation of comprehensive during the 2023-24 school year. As a result, we are reviewing the existing comprehensive assessment of performance and program options in that school building as compared to other schools that do not receive that designation. Additional funds to support retraining of staff or additional programming options, will be allocated to support the areas noted as deficient. Additional assessment sessions including standardized and local formative would be put into place to enhance the already ongoing measurement of student growth towards the state standards. The district will work with AIR to facilitate the Needs Assessment process to identify areas of improvement and target those areas in our upcoming School Improvement efforts.We need to include a wide range of stakeholders in the process as the planning year is critical to set us up for success and improvement. The first step in the process will be to assemble the School Improvement Teams and dedicate time to complete a self-reflection using the Illinois Quality Framework Rubric.The second step will be to facilitate a Root-Cause analysis with the SIP teams and further analyze those areas in which we felt we needed to improve on the IQFR.Throughout this process, we will be engaging our SIP Teams in book studies to explore concepts of trauma-informed practices and Inclusionary Practices with a focus on co-teaching as a service delivery model for our Sped and EL students. Most of the planning process will involve members of our SIP Teams only as we want to identify and develop plans based on the needs assessment data.Lastly, we will engage in summer work with our SIP Teams to design professional learning based on the goals identified through the planning process.For the 2023-24 school year we met the requirements of schoolwide funding without the need to complete the waiver for both of our Title 1 schools. For the 2024-25 school year we meet those requirements again so we will provide schoolwide support to our two Title I schools. Title 1 funds have been used to provide additional programming and a higher degree of support for students enrolled in those schools identified as homeless, low-income or at risk for academic failure. The impact of these additions is measured with the district's use of nationally normed local assessments as well as the full RTI process as noted in the response to question 1. District annual goals are set increasing the percentage of students that meet or exceed their targeted growth for both reading and math for all schools. Additional intervention programs are available at the Title I schoolwide designated schools delivered by specific interventionist staff and/or the regular classroom teacher. Programs such as Second Step, ST Math, and Imagine Learning, all supplement the core instructional programs at the Title I identified schools. And, teachers will receive professional learning as described in the goal above.

2. Does the district serve eligible children in an institution or community day program for neglected or delinquent children or in an adult correctional institution?*(Section 1112(b)(5))

- Yes
- No

3. Select the poverty criteria below that will be used to rank school attendance centers.A district shall use the same measure(s) of poverty, which measure the number of children aged 5 through 17 in poverty counted in the most recent census data, with respect to ALL school attendance centers in the LEA.* (Section 1112(b)(4))

[Measures of Poverty from 1113\(5\)\(A\) and \(B\)](#)

- School Lunch: the number of children eligible for a free or reduced price lunch under the Richard B. Russell National School Lunch Act (42 U.S.C. 1751 et seq.),
- TANF: the number of children in families receiving assistance under the State program funded under part A of Title IV of the Social Security Act,
- Medicaid: the number of children eligible to receive medical assistance under the Medicaid Program, and/or
- Direct Certification.

4. Describe, in general, the targeted assistance (section 1115) and/or schoolwide programs (section 1114) the district will operate, as well as the goal of those programs.Where appropriate, please explain educational services outside such schools for children living in local institutions or community day programs for neglected or delinquent children.* (Section 1112(b)(5))

We currently identify students in need of support through multiple measures including financial need, local assessments, and nationally-normed benchmarking. Many more were able to be served because our Title I schools receive schoolwide support. For the 2025-26 school year we will not need to complete the waiver because our two highest Title I buildings will be above 40%. We continue to provide pull-out services in the areas of math and reading, and with school-wide services we will continue to provide professional learning for all staff that would allow us to meet the needs of more students, including those at risk of failing to meet rigorous state standards.

The needs assessments have shown that some District 56 students have performance deficits in the areas of reading, math and social emotional learning. Available assessment data indicates that we are performing below state averages in both reading and math in all schools. Local SWIS data, social work and special education caseloads, and administrative referrals indicate an increase in significant behavioral issues across all grade levels. The need for more special education teachers due to workload increases and possibly additional paraprofessionals has led to additional staffing for the 2026 - 2026 school year. The funds will be used to hire paraprofessionals, provide professional development in the areas of training on data collection and updating of FBAs and writing BIPs, Facilitated IEPs, Goal Writing as well as to provide contract OT and PT services, and proportionate share.

Suspension and Expulsion The district has dedicated in-service time to support professional development in the areas of Crisis Prevention and Intervention Practices (CPI), De escalation training, Behavior, autism and ED student needs, conducting Functional Behavior Assessment and writing Behavior Intervention Plans, Goal Writing training and Facilitated IEP training. Gurnee School District 56 utilizes SWIS data to guide our interventions and services for those students who have disabilities in the area of social emotional learning/functioning. The goal is to provide staff with professional development on these important topics in order to reduce our suspension and expulsion rates. Educational Environments Gurnee School District 56 is a member of SEDOL, a special education cooperative and we partner with other private and public institutions to meet the special education needs of our students. This provides us with a wide range of programs and services to support students and the special education continuum of services. Gurnee School has 395 students receiving services for special education. Of these 395 students, students are provided services through SEDOL and other public or private institutions. We utilize some of the IDEA funds to assist with their tuition costs. The district has dedicated in-service time to support professional development in the areas of Crisis Prevention and Intervention Practices (CPI), De escalation training, Behavior, autism and ED student needs, conducting Functional Behavior Assessment and writing Behavior Intervention Plans and Facilitated IEP training. These professional development topics help staff to understand the needs of students and how to provide them the services they need to be successful.

BACKGROUND

Section 6312(5)(B) of ESEA of 1965 as Amended by ESSA requires that the local educational agency (LEA) collaborate with the state or local child welfare agency to develop and implement clear written procedures governing how transportation to maintain students who are Youth in Care in the school of origin when in their best interests will be provided, arranged, and funded for the duration of the time as Youth in Care.

DEFINITION AND REFERENCES

First Division vehicles are defined in the Illinois Vehicle Code as motor vehicles designed to carry no more than 10 persons total.

First Division vehicles can be used to transport 10 or fewer persons, including the driver, on regular routes for any and all school-sponsored activities, including curriculum-related trips. Examples of First Division vehicles include cars, station wagons, mini-vans (10 passengers or less which includes the driver), taxi cabs, medical carrier or medi-car, and Suburbans. The manufacturer sticker (Federal Certification Label) located on the inside of the drivers side door will stipulate MPV for Multi-Passenger Vehicle, MPPV (MultiPurpose Passenger Vehicle), or Passenger Car [49 CFR 571.3]

Any student within the LEA that is eligible under IDEA or Section 504 will be afforded all rights. Federal and state laws will be followed to ensure the student receives the support that they are entitled to based on their eligibility determination. If the Youth in Care is moved outside the school district the district will meet with the guardian and DCFS caseworker to determine the child's best interest for meeting the student's educational, social and emotional needs. The district will support the decision and either work with the new school district to make a smooth transition and provide all needed paperwork for the child to continue receiving the services afforded to them by their IEP or 504, or the district will work to transport the child in order for the child to continue in the current school environment.

Professional Development: Offer regular sessions with administrative teams to transfer information to building based teams of teachers. These sessions can cover relevant laws, regulations, and best practices for supporting educational stability for students in care. Training sessions can be conducted by knowledgeable staff, external experts, or representatives from child welfare agencies. Dedicated time during staff meetings to discuss ESSA requirements related to educational stability for students in foster care. Provide updates on any changes to policies or procedures and share resources, tools, and case studies to help staff understand their roles and responsibilities in supporting these students. Designate a specific staff member or team within the school/district to serve as the point of contact for questions, concerns, or support related to ESSA requirements for students in foster care. This person/team can provide guidance, resources, and assistance to school personnel as needed. Collaboration with Child Welfare Agencies: Establish and maintain partnerships with local child welfare agencies to facilitate communication and collaboration between schools and agencies responsible for students in foster care. Regular meetings, joint training sessions, and sharing of information can help ensure that all stakeholders are informed and aligned with ESSA requirements. Data Tracking and Monitoring: Implement systems for tracking and monitoring the educational progress and stability of students in foster care. Utilize student information systems or other data management tools to identify students in care, track their academic performance, monitor school transfers, and ensure compliance with ESSA requirements. Ongoing Communication: Foster open and ongoing communication channels between school personnel, caregivers, caseworkers, and other stakeholders involved in the education and well-being of students in foster care. Regular communication can help ensure that everyone is aware of ESSA requirements and working together to support student success. By implementing these strategies, the district/school can ensure that all appropriate school personnel are aware of ESSA requirements for educational stability for students in foster care and are equipped to effectively support these students' academic and overall well-being.

Transportation costs should not be considered when determining a child's best interest. Some children in Youth in Care will need transportation to remain in their school of origin when it is in their best interest. An LEA receiving Title I funds must collaborate with the state or local child welfare agency or agencies to ensure that transportation for Youth in Care is provided, arranged, and funded. SEAs and state or tribal child welfare agencies also play a key role in ensuring the adequate provision of transportation for Youth in Care as part of their overall responsibilities under Title I and the Fostering Connections Act to provide educational stability for these children. When registering a student that is identified as a Youth in Care, the district registrar must contact the Youth in Care Student Point of Contact (POC) immediately.

For your convenience, the prior year approved response is provided below. It may be copied and modified to address the Youth in Care Stability Plan needs.

DO NOT use special characters, numbered or bulleted lists copied from Word, 'see above,' or N/A as this may delay the submission or approval of your plan.

The POC works closely with the District Transportation Department in looking at routes that are already established to see if the Youth in Care can be placed on an existing route. This route could be one that is a district route or one that operates for another district that could be shared. If an already established route is not available we will create a new route. If the district does not have the vehicle or certified driver to do so, then we will consider alternate transportation such as a contract route with a local company (Safeway or Topline), who we have established relationships with. The following funding options will be considered: 1. Title IV-E of the Social Security Act if the student is eligible 2. Title I of the ESEA of 1965 as Amended by ESSA (except that funds reserved for comparable services for homeless children and youth may NOT be used for transportation) 3. IDEA funds, if the student has an Individual Educational Program (IEP) that includes provisions for specialized transportation 4. State special education transportation funds, if the student has an IEP 5. Local funds

Federal guidance provides that "if there is a disagreement regarding school placement for a Youth in Care, the child welfare agency should be considered the final decision-maker in making the best interest determination." Further, federal guidance also states that "legislation addresses action that should be taken when parties are in disagreement about the best interest determination. Any party can challenge the decision within three business days of receiving the notice by using the dispute resolution process for a child welfare treatment plan." Such disagreements are to be resolved "expeditiously" and the burden of proof is placed upon the child welfare system to show that its decision is in the child's best interest." Subject: FOIA Request for Legal Fee Invoices Related to Title IX Matters

Dear FOIA Officer,
Pursuant to the Illinois Freedom of Information Act (5 ILCS 140), I request copies of legal fee invoices related to Title IX matters for Gurnee School District 56 from December 01, 2024, to the date this request is fulfilled.

Requested Information:

I am requesting only non-privileged billing details, specifically:

- Dates of service
- Service provided
- Total amounts billed
- Names of law firms or attorneys providing services

General descriptions of services rendered (excluding any privileged legal advice or confidential attorney-client communications)

I understand that portions of the invoices containing legal advice may be redacted under 5 ILCS 140/7(1)(m). However, attorney-client privilege only applies to legal counsel provided to the school district as a public entity, not to individual employees who may have consulted district-paid attorneys for personal defense or non-official matters.

Additionally, billing details, attorney names, and general descriptions of services are not privileged and must be disclosed under FOIA (Illinois Education Ass'n v. Illinois State Board of Education, 204 Ill. App. 3d 406 (1990)).

If the request is denied in full or in part, please cite the specific FOIA exemption(s) applied and provide a written explanation for the denial.

Legal Protections for FOIA Requesters & Title IX Records:

Right to Access Public Records (5 ILCS 140/3) – Public bodies must provide requested records within **five business days**, unless an extension is requested in writing.

Right to a Detailed Denial Explanation (5 ILCS 140/9(a)) – If my request is denied, the district must provide a written response with legal justification.

Prohibition Against Retaliation (5 ILCS 140/4 & 5 ILCS 140/9.5) – Public bodies cannot punish, intimidate, or retaliate against a requester for filing a FOIA request.

Right to Appeal (5 ILCS 140/9.5(a)) – If denied, I have the right to seek review by the Illinois Attorney General's Public Access Counselor (PAC) or pursue legal action in circuit court.

Prohibition Against Willful Denial or Delay (5 ILCS 140/9.5(f)) – A public body cannot knowingly delay or improperly withhold public records. Willful violations may result in legal consequences.

Federal Title IX Compliance Requirement (34 C.F.R. § 106.8 & § 106.45) – Schools must keep accurate records of Title IX complaints and legal matters. Any attempt to withhold, delay, or destroy relevant documents could violate federal law.

Attorney-Client Privilege Limitations in FOIA Requests:

Attorney-client privilege applies only to confidential legal advice given to the school district as an entity.

It does not protect information related to an individual administrator's personal legal defense, especially if district resources were used for personal legal matters.

FOIA requires disclosure of all non-exempt billing records, including dates of service, amounts billed, and general descriptions of work performed.

I request these records in electronic format (PDF).

As this request is in the public interest, I request a waiver of any fees. If fees apply, please notify me in advance within the legally required timeframe.

I look forward to your response within five business days, as required by law.

Thank you for your time and assistance.

Sincerely,

Selene Cortes Tapia

4.8.2025
Luis Correa, Superintendent
Gurnee District 56

Dear Mr. Correa,

Pursuant to the Illinois Freedom of Information Act (5 ILCS 140), I am writing to request access to and a copy of a listing of all Gurnee District 56 employees, including their first and last names, email addresses, titles/positions, and primary campus/department locations. If possible, please provide this information in an electronic format such as Excel or .csv to this email address.

If your agency does not maintain these records, I would appreciate it if you could inform me of the appropriate custodian of these records, including their name, address, and email.

Should there be any fees associated with searching for or copying these records, please notify me before processing my request. However, I would like to request a waiver of all fees in the public interest, as the information I seek is intended for public employee research and awareness.

As stipulated in the Illinois Freedom of Information Act, I expect your response within five (5) business days.

If you choose to deny this request, please specify each exemption that you believe justifies the refusal to release the information and inform me of the appeal procedures available under the law. Additionally, please provide all segregable portions of otherwise exempt material.

Thank you for your assistance.

Sincerely,

Sarah James

Dear Superintendent,

See attached FOIA Request.

When initially responding to the attached FOIA request, please send the first response as a "Reply" email to ad.cuius.bonum@proton.me rather than starting a new thread via a new email. If both parties respond in the same manner (responding to the most recent inbound email from the other party) until the request is fulfilled, there will only be one email thread. Additionally, please remove any "Re: " prefix (or any other "Reply" abbreviation, if any) from the subject line prior to clicking "Send" to ensure that all "Reply" emails related to this request have the same exact "Subject" line text (see above) for sorting purposes. This approach aligns with the statutory duty under 5 ILCS 140/3.5(a)(4), which requires the retention of written communications and responses. By maintaining a single thread, we can ensure that all communications are efficiently organized and retained, facilitating compliance with the Illinois Freedom of Information Act. Thank you in advance for your cooperation in maintaining the suggested structured communication practice, which we both should be able to agree, is essential for efficient communications, record-keeping, and compliance.

Thus, all written communications surrounding the fulfillment of this FOIA can be archived (print-to-PDF) by both the FOIA officer and the requester as a single document, maintaining a clear and organized record of our interaction.

The 5-day due date for this request is: Friday, March 21, 2025

Thank you for your immediate attention to this public records request.

RE: FOIA Request #1 for Financial Records data (5 ILCS 140/2.5)

Dear Superintendent,

INTRODUCTION

We are writing to submit a request under the Illinois Freedom of Information Act (5 ILCS 140) for public records. We are submitting this request for non-commercial purposes. As such, we expect a response by Friday, March 21, 2025, which is five working days from the date of receipt by the public body (5 ILCS 140/3(d)).

If you are the appointed Freedom of Information Act officer for this public body, please acknowledge receipt of this request and confirm that it is being processed. If you are not the FOIA officer responsible for handling financial records, please immediately forward this request to the Treasurer, who is the legal custodian of the school district's funds and maintains the records related to financial transactions, fund balances, and checking accounts. Please add our email address, **ad.cuius.bonum@proton.me**, as a "Cc" to any email forwarding this FOIA request to either the Treasurer or FOIA officer, so that we are made aware that the process of a reply has begun.

As the Superintendent and "Head of the public body" under the Illinois FOIA statute, you have a statutory duty to ensure compliance with this request. According to the statute, "Head of the public body" means the president, mayor, chairman, or other chief executive or administrative officer elected or appointed to the office of the public body, or, in the case of a public body that does not have an elected or appointed chief executive or administrative officer, the person who is

responsible for conducting the affairs of the public body (5 ILCS 140/2). This designation is crucial for maintaining accountability and ensuring that FOIA requests are handled properly, as it creates a clear line of responsibility for compliance with the Act.

The Illinois General Assembly included this definition to ensure that there is a specific individual accountable for compliance, aligning with the FOIA's purpose of promoting transparency and accountability in government operations. The preamble to the FOIA emphasizes the importance of transparency and accountability, and by designating a "Head of the public body," the statute reinforces these principles by providing a structured approach to compliance.

We are submitting this request to the official email address designated by the Illinois State Board of Education for communication with the school district's chief administrator. This ensures that the request is directed to the appropriate individual responsible for ensuring full compliance with the FOIA statute.

We **demand** that our email address, **ad.cuius.bonum@proton.me**, be added to the contact list within the email program of the Head of the public body, FOIA officer(s), and Treasurer. This is essential to prevent future communications from being inadvertently flagged as spam or junk mail. Failure to do so could lead to delayed or missed responses to subsequent requests. Failure to update the contact list after being explicitly instructed to do so, and despite being informed of the importance of this action to prevent emails from being flagged as spam, may be considered a negligent or bad faith act. This negligence could lead to missed or delayed responses to subsequent FOIA requests, which could be asserted as part of any civil action taken to enforce compliance with the Act. We will not tolerate any attempts to avoid compliance through technical oversights or negligence.

As required by the Illinois Freedom of Information Act, we expect a timely response and full compliance with this request. Failure to comply may result in legal action to enforce our rights under the Act.

REQUESTED RECORDS

We are requesting the actual electronic data maintained by the Treasurer's office for the annual expenses paid to identified vendors, firms, and individuals for the fiscal years 2024, 2014, and 2004 by the school district, including any predecessor districts that existed at the end of each respective fiscal year and have since consolidated or annexed into the current district. This includes all relevant financial data from districts that, at the time, were separate entities but now form part of the current district. For example, if Districts #100 and #200 were separate in 2004 but consolidated into District #300 in 2010, we would request data for Districts #100 and #200 individually for 2004, and then only for District #300 for 2014 and 2024. This request specifically excludes salaries, wages, and benefits paid to staff members. We are interested in vendors, firms, and individuals who have received total payments of \$500 or more for each fiscal year, regardless of whether this total comes from a single payment or multiple payments.

These records should be provided in their native electronic format, as they are maintained by the Treasurer. Specifically, we are seeking the data contained within each cell of the Excel worksheets used by the Treasurer to track these financial transactions. This data should be provided in a single Excel workbook file, with each fiscal year's data on a separate worksheet tab. We suggest labeling each tab as "FYxxxx," where "xxxx" represents the respective fiscal year (e.g., FY2024, FY2014, and FY2004). The requested format for the data within each tab is as follows:

- **Column A: Fiscal Year** - The specific fiscal year for which the data applies (e.g., 2024, 2014, and 2004).
- **Column B: Person/Firm/Contractor Name** - The full name of the person, firm or contractor receiving payments.
- **Column C: Aggregate Amount Paid** - The total aggregate dollar amount paid to each vendor or contractor for the respective fiscal year.

	A	B	C	D
1	Fiscal Year	Person, Firm, or Corp	Aggregate Amount	
2	2024	Acme Books	\$4,235.00	
3	2024	Apple Computer	\$4,235.00	
4	2024	Ameren Illinois	\$76,511.24	
5	2024			
6	2024			
7	2024			
8	2024			
9	2024			
10	2024			
11	2024			
12	2024			
13				
14				

By maintaining a structured system gathering expenditure data for vendors, contractors, individuals, etc. at or greater than \$500 in a single, organized file, this approach transforms raw data into actionable information. It creates a centralized repository that can be easily updated annually by the Treasurer, allowing for seamless additions of new fiscal year data. This "evergreen" file will serve as a valuable resource, first and foremost, for the elected members of the Board of Education who collectively oversee the public body, secondly for the taxpayers who fund the public body, and also for parents, employees, media, academic researchers, and other community stakeholders, enhancing transparency and facilitating informed decision-making and long-term analysis of financial trends. It also aligns with best practices for record-keeping and compliance, ensuring that financial information remains accessible and organized over time.

In the event that we submit subsequent FOIA requests for additional fiscal years, we kindly request that these new data sets be added to the same Excel workbook file, maintaining the same format and organization. This will allow us to keep all relevant data in a single, searchable file, enhancing our ability to analyze and compare financial information across multiple years.

FORMAT AND DELIVERY

Pursuant to 5 ILCS 140/3(e), we request that these records be provided in an electronic format, as they are already maintained in such a format for submission to the ISBE. This will ensure compliance with the Act's provisions regarding the provision of records in a reasonable electronic format.

We request that the Treasurer certify the electronically maintained data in a manner similar to the following:

"I, [Treasurer's Name], Treasurer of [School District Name, County and RCDT Number], do hereby certify that the attached records, which consist of expenditure data for vendors, contractors, and individuals (i.e., excluding the salaries and benefits of staff and employees), at or greater than \$500 for the fiscal years 2024, 2014, and 2004, are true, correct, and complete copies of all relevant records found in the files of the Office of the School Treasurer, official custodian of all district money as well as all investments owned by the district. These records are provided in response to a Freedom of Information Act request received by the public body on [Date Received], as evidenced by the email server timestamp. I further certify that these records include all information responsive to the request and that no other records exist that are not included in this response."

Additionally, we request a waiver of any applicable certification fee, as this request serves the public interest by promoting transparency and accountability in the use of public funds.

STATUTORY REQUIREMENTS AND EXPECTATIONS

Under the Illinois Freedom of Information Act, all records in the custody or possession of a public body are presumed to be open to inspection or copying, unless the public body can prove by clear and convincing evidence that the records are exempt from disclosure (5 ILCS 140/1.2). We expect a timely response and adherence to the statutory requirements. Public bodies are required to respond to requests within five working days after receipt of the request, unless an extension is properly justified (5 ILCS 140/3(d)).

Any failure to comply with this request will be viewed as indifference or negligence in fulfilling statutory duties. If necessary, we will pursue all available legal remedies, including filing complaints for official misconduct under Section 33-3 of the Illinois Criminal Code (720 ILCS 5/33-3), which may result in felony charges against responsible officials, including the Superintendent. Additionally, we may seek injunctive relief, attorney fees, and civil penalties as provided under the Illinois Freedom of Information Act, to ensure that our rights under FOIA are respected.

CONCLUSION AND NEXT STEPS

We understand that the Act permits a public body to charge a reasonable copying fee not to exceed the actual cost of reproduction. However, we are requesting a waiver of any applicable copying or processing fees, as this request serves the public interest by promoting transparency and accountability in the use of public funds. By disclosing these records, the public can better understand how financial resources are allocated and ensure that they are used efficiently and effectively.

Thank you.

Subject Line: [County*Type+##*Name (xx-xxx-xxxx-xx): FOIA REQUEST #1]

Dear Superintendent,

See attached FOIA Request.

When initially responding to the attached FOIA request, please send the first response as a "Reply" email to **ad.cuius.bonum@proton.me** rather than starting a new thread via a new email. If both parties respond in the same manner (responding to the most recent inbound email from the other party) until the request is fulfilled, there will only be one email thread. Additionally, please remove any "Re: " prefix (or any other "Reply" abbreviation, if any) from the subject line prior to clicking "Send" to ensure that all "Reply" emails related to this request have the same exact "Subject" line text (see above) for sorting purposes. This approach aligns with the statutory duty under 5 ILCS 140/3.5(a)(4), which requires the retention of written communications and responses. By maintaining a single thread, we can ensure that all communications are efficiently organized and retained, facilitating compliance with the Illinois Freedom of Information Act. Thank you in advance for your cooperation in maintaining the suggested structured communication practice, which we both should be able to agree, is essential for efficient communications, record-keeping, and compliance.

Thus, all written communications surrounding the fulfillment of this FOIA can be archived (print-to-PDF) by both the FOIA officer and the requester as a single document, maintaining a clear and organized record of our interaction.

The 5-day due date for this request is: Friday, March 21, 2025

Thank you for your immediate attention to this public records request.

Subject: FOIA REQUEST #2 for Financial Records Data ... Fiscal Years 2019, 2009, and 1999 (5 ILCS 140/2.5) (ROE Grouping - 34)

Dear Superintendent,

NOTICE: Please refer to FOIA #1's Notice section (dated March 14, 2025) for detailed instructions on handling this request. Note that there is no attachment to this FOIA #2; instead, all instructions found in FOIA #1 should be referenced and adhered to for this request as well. This serves as a reminder that you are bound by the same requirements and expectations outlined in FOIA #1. In summary, please respond as a "Reply" to this email, removing any "Re: " prefix or other

"Reply" abbreviation from the subject line. By maintaining a single thread, we can ensure that all communications are efficiently organized and retained, facilitating compliance and making it easier to track and archive our interaction.

This request is submitted for non-commercial purposes under the Illinois Freedom of Information Act (5 ILCS 140). It is similar to FOIA #1 but seeks financial data for different fiscal years. Please refer to FOIA #1 for detailed instructions on handling this request, including the format for the data and the structured communication practice.

REQUEST #2

We are requesting the actual electronic data maintained by the district's Treasurer for the annual expenses paid to identified vendors, firms, and individuals for the fiscal years **2019, 2009, and 1999** by each school district, including any predecessor districts that existed at the end of each respective fiscal year and have since consolidated or annexed into the current district. This request specifically excludes salaries, wages, and benefits paid to staff members. We are interested in vendors, firms, and individuals who have received total payments of \$500 or more for each fiscal year, regardless of whether this total comes from a single payment or multiple payments.

For convenience and organization, we suggest adding the data for fiscal years **2019, 2009, and 1999** as additional worksheet tabs to the Excel workbook delivered for FOIA #1 (containing FY, 2024, FY2014, and FY2004). This would result in a single Excel workbook containing six tabs (FY2024, FY2019, FY2014, FY2009, FY2004, and FY1999), organizing all responses to date in one file. If this is not feasible, please provide the data for **FY2019, FY2009, and FY1999** in a separate Excel workbook following the same format as specified in FOIA #1.

We request that each district's Treasurer certify the electronically maintained data. The certification should be similar to the one requested in FOIA #1, stating that the records are true, correct, and complete copies of all relevant records found in the files of the Office of the School Treasurer, official custodian of all district money as well as all investments owned by the district. This certification should cover the data for fiscal years 2019, 2009, and 1999.

We request a waiver of any applicable copying or processing fees, as this request serves the public interest by promoting transparency and accountability in the use of public funds.

Please add our email address, ad.cuius.bonum@proton.me, to your contact lists to prevent future communications from being flagged as spam.

Under the Illinois Freedom of Information Act, all records in the custody or possession of a public body are presumed to be open to inspection or copying, unless the public body can prove by clear and convincing evidence that the records are exempt from disclosure (5 ILCS 140/1.2). We expect a timely response and adherence to the statutory requirements.

The 5-day due date for this request is: Friday, March 28, 2025

Thank you for your immediate attention to this public records request.

2. A determination that the public body has *"acted in bad faith"* as contemplated by **5 ILCS 140/11(j)**, potentially subjecting the public body to civil penalties.

6:120 Education of Children with Disabilities

The District shall provide a free appropriate public education in the least restrictive environment and necessary related services to all children with disabilities enrolled in the District, as required by the Individuals With Disabilities Education Act (IDEA) and implementing provisions of the School Code, Section 504 of the Rehabilitation Act of 1973, and the Americans With Disabilities Act. The term "children with disabilities," as used in this policy, means children between ages 3 and 15 for whom it is determined, through definitions and procedures described in the Ill. State Board of Education (ISBE) *Special Education* rules, that special education services are needed.

It is the intent of the District to ensure that students who are disabled within the definition of Section 504 of the Rehabilitation Act of 1973 are identified, evaluated, and provided with appropriate educational services. Students may be disabled within the meaning of Section 504 of the Rehabilitation Act even though they do not require services pursuant to IDEA.

For students eligible for services under IDEA, the District shall follow procedures for identification, evaluation, placement, and delivery of services to children with disabilities provided in the ISBE *Special Education* rules. For those students who are not eligible for services under IDEA, but, because of disability as defined by Section 504 of the Rehabilitation Act of 1973, need or are believed to need special instruction or related services, the District shall establish and implement a system of procedural safeguards. The safeguards shall cover students' identification, evaluation, and educational placement. This system shall include notice, an opportunity for the student's parent(s)/guardian(s) to examine relevant records, an impartial hearing with opportunity for participation by the student's parent(s)/guardian(s), and representation by counsel, and a review procedure.

The District may maintain membership in one or more cooperative associations of school districts that shall assist the School District in fulfilling its obligations to the District's students with disabilities.

2. Beginning with the 2014-2015 school year, students between the ages of 6 (on or before September 1) and 17 years.

Subject to specific requirements in State law, the following children are not required to attend public school: (1) any child attending a private school (including a home school) or parochial school, (2) any child who is physically or mentally unable to attend school (including a pregnant student suffering medical complications as certified by her physician), (3) any child lawfully and necessarily employed, (4) any child over 12 and under 14 years of age while in confirmation classes, (5) any child absent because of religious reasons, including to observe a religious holiday, for religious instruction, or because his or her religion forbids secular activity on a particular day(s) or time of day, and (6) any child 16 years of age or older who is employed and is enrolled in a graduation incentives program.

The parent/guardian of a student who is enrolled must authorize all absences from school and notify the school in advance or at the time of the student's absence. Students absent for a valid cause may make up missed homework and classwork assignments in a reasonable

timeframe.

Absenteeism and Truancy Program

The Superintendent or designee shall manage an absenteeism and truancy program in accordance with the School Code and Board policy. The program shall include but not be limited to:

See Board policy 6:110, *Programs for Students At Risk of Academic Failure and/or Dropping Out of School and Graduation Incentives Program*.
7. A process for the collection and review of chronic absence data and to:
 - a. Determine what systems of support and resources are needed to engage chronically absent students and their families, and
 - b. Encourage the habit of daily attendance and promote success.
8. Reasonable efforts to provide ongoing professional development to teachers, administrators, Board members, school resource officers, and staff on the appropriate and available supportive services for the promotion of student attendance and engagement.
9. A process to request the assistance and resources of outside agencies, such as, the juvenile officer of the local police department or the truant

office of the appropriate Regional Office of Education, if truancy continues after supportive services have been offered.

10. A protocol for cooperating with non-District agencies including County or municipal authorities, the Regional Superintendent, truant officers, the Community Truancy Review Board, and a comprehensive community based youth service agency. Any disclosure of school student records must be consistent with Board policy 7:340, *Student Records*, as well as State and federal law concerning school student records.
11. An acknowledgement that no punitive action, including out-of-school suspensions, expulsions, or court action, shall be taken against a truant minor for his or her truancy unless available supportive services and other school resources have been provided to the student.

BOARD OF EDUCATION

2:130 Board-Superintendent Relationship

The Board of Education directs, through policy, the Superintendent in his or her charge of the administration of the District by delegating its authority to operate the District and provide leadership to staff. The Board employs and evaluates the Superintendent and holds him or her responsible for the operation of the District in accordance with Board policies and State and federal law.

The Board-Superintendent relationship is based on mutual respect for their complementary roles. The relationship requires clear communication of expectations regarding the duties and responsibilities of both the Board and Superintendent.

The Board considers the recommendations of the Superintendent as the District's Chief Executive Officer. The Board adopts policies necessary to provide general direction for the District and to encourage achievement of District goals. The Superintendent develops plans, programs, and procedures needed to implement the policies and directs the District's operations.

OPERATIONAL SERVICES

4:80 Accounting and Audits

The School District's accounting and audit services shall comply with the *Requirements for Accounting, Budgeting, Financial Reporting, and Auditing*, as adopted by the Ill. State Board of Education (ISBE), State and federal laws and regulations, and generally accepted accounting principles. Determination of liabilities and assets, prioritization of expenditures of governmental funds, and provisions for accounting disclosures shall be made in accordance with government accounting standards as directed by the auditor designated by the Board. The Superintendent or designee, in addition to other assigned financial responsibilities, shall report monthly on the District's financial performance, both income and expense, in relation to the financial plan represented in the budget.

Annual Audit

At the close of each fiscal year, the Superintendent or designee shall arrange an audit of the District funds, accounts, statements, and other financial matters. The audit shall be performed by an independent certified public accountant designated by the Board and be conducted in conformance with prescribed standards and legal requirements. A complete and detailed written audit report shall be provided to each Board member and to the Superintendent.

The Superintendent or designee shall annually, on or before October 15, submit an original and one copy of the audit to the Regional Superintendent of Schools.

Annual Financial Report

The Superintendent or designee shall annually prepare and submit the Annual Financial Report on a timely basis using the form adopted by the ISBE. The Superintendent shall review and discuss the Annual Financial Report with the Board before it is submitted.

Inventories

The Superintendent or designee is responsible for establishing and maintaining accurate inventory records. The inventory record of supplies and equipment shall include a description of each item, quantity, location, purchase date, and cost or estimated replacement cost, unless the supplies and equipment are acquired by the District pursuant to a federal or State grant award, in which case the inventory record shall also include the information required by [2 C.F.R. §200.313](#), if applicable. The Superintendent shall establish procedures for the management of property acquired by the District under grant awards that comply with federal and State law.

Capitalization Threshold

To be considered a capital asset for financial reporting purposes, a capital item must be at or above a capitalization threshold of \$5,000 and have an estimated useful life greater than one year.

Disposition of District Property

The Superintendent or designee shall notify the Board, as necessary, of the following so that the Board may consider its disposition: (1) District personal property (property other than buildings and land) that is no longer needed for school purposes, and (2) school site, building, or other real estate that is unnecessary, unsuitable, or inconvenient. Notwithstanding the above, the Superintendent or designee may unilaterally dispose of personal property of a diminutive value. The Superintendent shall establish procedures for the disposition of property acquired by the District under grant awards that comply with federal and State law.

Controls for Revolving Funds and Petty Cash

Revolving funds and the petty cash system are established in Board policy 4:50, *Payment Procedures*. The Superintendent shall: (1) designate a custodian for each revolving fund and petty cash fund, (2) obtain a bond for each fund custodian, and (3) maintain the funds in compliance with this policy, State law, and ISBE rules. A check for the petty cash fund may be drawn payable to the designated petty cash custodian. Each revolving fund shall be maintained in a bank that has been approved by the Board and established in an amount approved by the Superintendent or designee consistent with the annual budget. All expenditures from these bank accounts must be directly related to the purpose for which the account was established and supported with documentation, including signed invoices or receipts. All deposits into these bank accounts must be accompanied with a clear description of their intended purpose. The Superintendent or designee shall include checks written to reimburse revolving funds on the Board's monthly listing of bills indicating the recipient and including an explanation.

Control Requirements for Checks

The Board must approve all bank accounts opened or established in the District's or a District school's name or with the District's Federal Employer Identification Number. All checks issued by the School District must be signed by either the Board President, Superintendent and/or their designee, and the Board Treasurer, except that checks from accounts containing student activity funds or fiduciary funds and checks from revolving accounts may be signed by their respective account custodians.

Internal Controls

The Superintendent or designee is primarily responsible for establishing and implementing a system of internal controls for safeguarding the District's financial condition; the Board, however, will oversee these safeguards. The control objectives are to ensure efficient business and financial practices, reliable financial reporting, and compliance with State law and Board policies, and to prevent losses from fraud, waste, and abuse, as well as employee error, misrepresentation by third parties, or other imprudent employee action.

The Superintendent or designee shall annually audit the District's financial and business operations for compliance with established internal controls and provide the results to the Board. The Board may from time-to-time engage a third-party to audit internal controls in addition to the annual audit.

To the Gurnee District 56 School Board,

The Band Department proposes to run its Summer Lessons program again this year. The program consists of 4 lessons taught by area professionals over 4 weeks, and costs \$100 for students. All of our instructors are officially registered as employees of the district. The lessons would occur mid June through mid July. The band department takes responsibility for communicating with families regarding scheduling and payment, and all payment is submitted to the District Office.

The department's primary concern is the safety of all participants, and we believe we can run this program in a very safe manner.

We ask that you please approve the program.

Thank you. Please see Glenn Eikenberry for any further questions.
