RE: Approval of Annual Technology Software and Services Renewals

BACKGROUND:

Each year, the Technology Department evaluates and recommends renewing essential software licenses, support agreements, and cloud services required to maintain district operations. These platforms support critical daily functions across Lake Villa School District 41, including our student information systems, cybersecurity, web filtering, help desk operations, district communications, and campus visitor management.

The following is a list of our renewals. Each vendor and its associated renewal cost is outlined below:

RE: Recommendation for Renewal of Intergovernmental Agreement with
Gavin School District 37

We are requesting Board of Education approval for the renewal of the Intergovernmental Agreement (IGA) between Lake Villa Community Consolidated School District 41 and Gavin School District 37 for the 2026–2027 school year. Gavin School District 37 continues to have a need for physical therapy services, and this agreement provides an opportunity for continued collaboration between the two districts. We anticipate that cooperative partnerships such as this may become increasingly common, particularly in the area of special education services.

The purpose of the IGA is to formalize an arrangement for sharing the services of a Physical Therapist employed by District 41 for the 2026–2027 school year, with the agreement subject to annual review. Under the agreement, the therapist will spend 10% of their work time—approximately one-half day per week—in District 37 and the remaining 90% in District 41. District 41 will remain the therapist’s official employer and will continue to manage all employment responsibilities, including salary, benefits, evaluation, and legal compliance. District 37 will have the opportunity to provide input regarding the therapist’s evaluation.

Financially, District 37 will reimburse District 41 for 10% of the therapist’s total salary and benefits, professional development costs, and any related technology or equipment expenses. In addition, District 37 will cover 50% of the mileage reimbursement for travel between districts.

The agreement will go into effect upon signing and will automatically renew each year unless terminated by either party with written notice by February 1 of the intended final school year. Both districts will maintain appropriate liability insurance as part of the agreement.

RE: Renewal of Licensed Occupational Therapist Agreement for the 2026–2027 School Year with Ampersand Therapy

BACKGROUND:

The District is recommending renewal of its agreement with Ampersand Therapy to provide a licensed Occupational Therapist for the 2026–2027 school year. The District continues to experience challenges in recruiting and securing qualified occupational therapy candidates for open positions. Renewal of this agreement will ensure continuity of in-person occupational therapy services for students during the 2026–2027 school year.

Occupational Therapists provide therapy services, conduct screenings and evaluations, contribute to the development and implementation of Individualized Education Programs (IEPs) and 504 plans, and participate in meetings with families and staff. They support students across all tiers of the Multi-Tiered System of Supports (MTSS) by helping teams identify sensory, motor, and functional needs and recommending appropriate interventions. Continuity of services required under IEPs and 504 plans must be maintained to avoid regression and ensure compliance with applicable federal and state laws and regulations.

Ampersand Therapy provided a qualified Illinois-licensed Occupational Therapists during the 2025-2026 school year, ensuring students receive specialized and effective interventions while supporting operational efficiency and resource management. Continuing this partnership helps mitigate legal risk, maintain regulatory compliance, and avoid interruptions in mandated student services.

The cost for the contracted 1.0 FTE Occupational Therapist for the 2026–2027 school year to serve Thompson School and Palombi School is based on 37.5 hours per week, with annual hours not to exceed 1,462.5, at an hourly rate of \$99.00, for a total cost of \$144,787.50. Hours of service include evaluations, report writing, occupational therapy services, IEP/504/staff meetings, and consultation with families, students, and staff during the 2026–2027 school year calendar.

RECOMMENDATION:

It is recommended that the Board of Education approve the renewal of the contract with Ampersand Therapy for up to 37.5 hours per week for up to 39 weeks to provide Occupational Therapy services for the 2026–2027 school year.

RE: 2025-2026 Professional Development
2026 Summer Professional Development

This memo outlines the professional development (PD) opportunities that will be offered to Lake Villa School District 41 staff during the summer of 2026 and professional development during the 2025-2026 school year. These sessions are designed to strengthen instructional practices, enhance student support systems, and ensure alignment with district priorities including standards-based grading, MTSS, and high-quality core instruction.

Dates Offered:

- **Primary Summer PD Sessions:** August 5–7
- **Additional PD & Collaborative Planning:** August 12–14

All sessions will take place at Thompson Elementary, with structured time blocks and opportunities for both full-day and half-day participation.

Key PD Topics and Sessions

August 5–7 Highlights:

- **Instructional Practices & Curriculum**
 - The Writing Revolution 2.0: From Sentences to Success (K–8)
 - 5 Practices for Math Instruction
 - Strategic Math Groups and data-driven small group instruction
 - Using and Creating Structured Visuals to support comprehension
- **Standards-Based Learning & Assessment**
 - Standards-Based Grading for Middle School
 - Aligning instruction to priority standards and levels of progression
- **Student Support & Behavior**
 - Proactive Strategies to Support Behavior in the Classroom
 - Strategies for Social-Emotional Regulation
 - CPI (Nonviolent Crisis Intervention)

- **Collaboration & Instructional Models**
 - Co-Teaching in K–5
 - Building effective collaborative instructional environments
- **Technology & Innovation**
 - Gemini AI: foundational use and instructional applications

 - Supporting Students with Universal Accessibility Features
 - Exploring Augmentative & Alternative Communication (AAC)
- **Inclusive & Specialized Practices**
 - Co-Teaching in Grades 6–8
 - Fading Adult Support of Diverse Learners
 - Trauma-Informed Practices (Wired Differently)
- **Behavior & Safety**
 - CPI training opportunities for staff requiring certification or renewal

Design and Alignment

These professional learning opportunities were developed through collaboration with instructional coaches, building administrators, and analysis of staff feedback.

The structure reflects a balance of:

- High-impact instructional strategies
- Systems-level implementation (MTSS, SBG, inclusive practices)
- Opportunities for teacher choice and differentiation
- Time for collaboration, planning, and application

Additionally, this work builds coherence with prior institute days and ongoing district initiatives, including standards-based grading implementation, instructional frameworks, and safety training protocols .

We are confident that the 2026 Summer Professional Development Series will continue to build staff capacity, strengthen instructional consistency, and support improved outcomes for all students across Lake Villa District 41.

Additional Institute Day Professional Development Alignment

In addition to the 2026 Summer PD series, professional learning throughout the year has been organized through staff institute days to support districtwide implementation of instructional, safety, assessment, and student support priorities.

October 10, 2025 Institute Day Highlights

- Illustrative Math: Understanding Student Thinking to Assess for Understanding
- Incorporating Student Voice into School Culture and Classes
- Imagine Learning Language and Literacy / Español
- SLD Project
- Unique Session 2
- My Path Exploration
- Skyward Qmlativ training
- LEAP Innovation Update / PLC Time
- Illustrative Math for Administrators

RE: Anti-Bullying Committee

Throughout the 2025-2026 school year, the Anti-Bullying Committee has met 26 times to foster a kinder and more positive environment. Led by students in the Leadership Development class along with Mrs. Calabrese and Mrs. Rhodes, the group has expanded on last year's work. After previously establishing a student-friendly definition of bullying, our leaders have now identified the specific behaviors that define the four types of bullying. To ensure clarity across the student body, these definitions are prominently displayed on posters in every classroom and common areas.

The committee's work also includes a focus on visibility and peer-to-peer engagement. Beyond transforming our hallways with hand-painted ceiling tiles and motivational posters, these student leaders have utilized morning announcements to challenge their peers to engage in positive social interactions. The committee also developed real-life scenarios for Team Huddle time, which are designed to help students build genuine empathy and work through peer conflict. Finally, the committee also focused on the role of the "upstander." The committee created a dedicated bulletin board featuring specific language and strategies, empowering students with the tools they need to safely and effectively intervene when they witness unkind behavior.

RE: Insurance Committee Report

The Insurance Committee met on May 1, 2026.

The Committee reviewed both the proposed 2026–2027 medical insurance rates and the long-term financial outlook of the self-funded health plan, including historical performance and projected trends.

Over the past several years (2019–2024), the District experienced stable claims and built strong reserves, exceeding 500 days. However, the past two years show a sharp reversal. Claims increased significantly (27%–29%), resulting in a projected \$1.24 million loss in 2025–2026. Reserves peaked at over 550 days but are now projected to decline to approximately 203 days by the end of 2025–2026.

It is important to note that the increase required to fully fund projected claims without using any reserves was estimated at 52%. However, due to the availability of reserves to offset a portion of these costs—while maintaining a minimum target of 90 days of reserves, the recommended premium increases are lower, ranging from 7% to 15%:

- Plan 1 (PPO): +15%
- Plan 2 (HDHP with HSA): +7%

This pricing structure is designed to increase funding for projected claims while also encouraging migration to the lower-cost plan, which may generate savings for the District.

Committee discussed employee contributions toward the increased premiums and noted that for the 2026–2027 school year, employees who elect single coverage will have zero cost, per the negotiated teachers’ agreement, and therefore will not be impacted by the premium increases.

Dependent coverage tiers in the PPO 700 plan will see increases that are partially offset by the Board’s increased contribution toward employee premiums. In contrast, employee costs for dependent coverage under the HDHP plan will decrease.

District costs are projected to increase significantly, by approximately 20%. Based on current projections and assuming no changes in enrollment, the total District cost is expected to rise by approximately \$551,000 next year.

The Committee also agreed that comprehensive information on all insurance plan options will be shared with employees before and during open enrollment to support informed decision-making. Particular emphasis will be placed on the HDHP with HSA plan, as it has a lower rate increase and allows for a more cost-effective option for employees.

The proposed medical premium rates, as discussed by the Insurance Committee, will be presented for Board approval at the May 18 Board Meeting.

RE: TCI and HMH Social Science Curriculum and Resource Materials Purchase

BACKGROUND:

Lake Villa School District 41 has conducted a curriculum review in the area of Social Science starting in the spring of 2025. During this time, two pilots were selected for elementary and middle school. The pilots took place this fall and winter of 2025-2026. A rubric for curriculum adoption was defined based on the best practices for social science. The committee also reviewed an analysis of curriculum resources through ED Reports and What Works Clearinghouse, which rates resources for effectiveness.

The cost for the TCI social science curriculum for our elementary school is \$211,514.10 for a six-year contract. The cost for the HMH social science curriculum for middle school \$153,360.00 for a six-year contract. The combined total investment for both resources , including professional development, is \$364,874.10 over six years.

RECOMMENDATION:

The Social Science Committee recommends the purchase of TCI for our elementary and HMH for middle school core social science resource materials. For the combined cost for both resources at \$364,874.10 over six years.

RE: NWEA/MAP Renewal

BACKGROUND:

The NWEA MAP assessment tool has been our local district-wide assessment for over twenty years and was last renewed in 2024. The two-year contract will expire at the end of this school year.

The recommendation is to continue utilizing the MAP assessment to identify areas of strength and needed instruction and monitor student growth throughout the school year. Additionally, the NWEA MAP assessment is utilized for school improvement planning purposes.

The two - year renewal has a total cost of \$73,450.

RECOMMENDATION:

It is recommended that the Board of Education approve the purchase of NWEA-MAP at the two-year cost of \$73,450.

RE: The Meal Rates for 2026-2027 School Year - Approval

BACKGROUND:

Each year, a review of meal rates is conducted to evaluate our revenue against expenses for the food service program. At the April 20 Board of Education meeting, the Board was presented with the proposed increase of \$.20 for student full paid breakfast and full paid lunch meal.

DISCUSSION

USDA released the minimum lunch price requirement for 2026-2027. The minimum lunch price for SY 2026-2027 is \$4.16. LVSD41's current lunch price is \$3.65. Per USDA regulation, if the ending balance in the food service account is negative, lunch prices must be increased by at least 10 cents. As of June 2025, the food service account recorded a negative balance of \$216,241, and therefore, an increase to meal prices is required.

The student breakfast and lunch prices below reflect 20 cents increase, which not only meets the price increase requirement but also will help to reduce the shortfall in the non-profit food services account in the future.

Proposed Rates for 2026-2027 School Year

Meal	Current Price	Proposed Price for 26-27
Breakfast	\$2.00	\$2.20
Lunch	\$3.65	\$3.85

The 20-cent increase helps ensure the price does not fall too far below the USDA's minimum price requirements, while keeping the cost of lunch within the \$3-\$4 range—comparable to the average student lunch cost.

Per USDA regulations, the student reduced breakfast price must be set at \$0.30 and the reduced lunch price must be set at \$0.40. Adult lunch price must be at least \$0.50 more than full paid lunch price.

RECOMMENDATION:

It is recommended that the Board of Education approves the Student and Adult Meal prices as presented.
