## RFQ #19-001 – Property and Casualty Insurance 12-Months Premium Renewal

**Purpose:** Renew Premium for Property and Casualty Insurance for ECISD

**Background Info:** ECISD was expected to realize a renewal for its property insurances around \$2.9M, or expected a 20% increase. We predicted this back in the summer. The Arthur J. Gallagher team, realizing that this cost was getting excessively expensive and continued to look into other options for ECISD. No other reasonable options were found in the open marketplace to help save the district costs, on a stand-alone basis. That said, as the nation's leading broker for pools and purchasing groups, Arthur J. Gallagher Risk Management Services, Inc. continues to recommend the Interlocal Agreement with another client of Gallagher's, Amarillo ISD. The reason Amarillo ISD remains a good fit is because of the size of their property portfolio relative to their loss history (2014 and 2017 hail losses). After continued conversations with both districts, Arthur J. Gallagher Risk Management Services, Inc. successfully marketed the districts property insurance and ECISD remains part of Amarillo ISD policy.

**Premium Renewal Cost:** \$2,518,072

**Funding Source:** General Funds

**Recommended Service Provider:** Arthur J. Gallagher Risk Management Services, Inc.

Dear Yolanda,

At the request of Ector County ISD, our office assisted in the preparation and analysis of the District's Request for Proposal # 22-06 for Specific & Aggregate Stop Loss Insurance.

We performed an in-depth review and analysis of the proposals. Based upon our review of the proposals, it would be our recommendation that the District accept the proposal issues by your incumbent Sirius America Insurance Company for \$350,000 Specific Deductible with an \$200,000 Aggregating Specific Deductible. This coverage includes Aggregate coverage). This option results in a 8% premium increase. The annual premium is estimated to be approximately \$ \$728,000 per year in premiums.

Sincerely,

Eric D. Smith

### **Report/Discussion Items**

**25699** **Strategic Plan Quarterly Update:** Special Assistant to Superintendent Albert Anchondo opened this item for discussion. This quarterly presentation focused on three specific projects (1) Establish District Technology Standardization, (2) Implement Personalized Professional Learning (3) and the 2021 Indicators of Success.

*First*, Establishing District Technology Standardization is one of the projects under the theme of Foundational Excellence. The focus of this work has been on three areas. One: WiFi and internet connectivity. In April 2021 all portables were equipped with wireless access; in October 2021, nearly 3,000 access points were installed around ECISD; in November switches will be installed for power; and by February 2022 another 3,154 access points will be installed making ECISD classrooms ready for anytime, anywhere connectivity. Two: devices for staff. Teachers have expressed the desire for mobility in class, so each is to be outfitted with a laptop computer, docking station, an additional computer monitor, and an external keyboard and mouse. Three: devices for learning in the classroom. This includes a Promethean interactive flat panel and

1:1 student devices, iPads for kindergarten through second graders and Chromebooks for 3<sup>rd</sup> through 12<sup>th</sup> graders.

*Second*, Developing Personalized Professional Learning. This is set up in several ways; coaching that takes place in the classroom, in real time with current students; mentoring that takes place in the classroom in nearly real time, away from students; Professional Learning Communities (PLCs) that take place shortly before or after instruction; or independent learning in which a teacher researches a problem of practice, implements a solution, then reflects on the experience. These are always centered on issues of actual practice. By the numbers, Talent Development has now offered 113 professional learning sessions for teachers plus another 37 for non-instructional employees equaling more than 13,000 seats filled in professional learning sessions this year. The Talent Development Department offers professional learning opportunities for teachers, aspiring campus leaders, principals and staff members. Coming is a TCLAS grant to provide space for 52 teachers residents over the next three years and 6 paraprofessionals to become certified teachers.

*Third*, ECISD's strategic plan features 14 measurements, or Indicators of Success. The Trustees and superintendent reviewed those measurements from year one of the plan and compared them to the goals projected for the year. These indicators range from attendance to student academic growth to kindergarten readiness to graduation rates and more. The presentation included the most updated measurements plus a look at the many ways the District is already working to improve those areas.

No action required.

## **REQUEST FOR APPROVAL OF 2022-2023 DUAL CREDIT MATRIX**

District request for Dual Credit Matrix to be approved by the Board of Trustees for the 2022-2023 school year. Dual Matrix is a list of courses used to show the alignment between ECISD, OC, and UTPB courses. Students are able to select from these courses to obtain both high school and college credits.

Attached is the 2022-2023 Dual Credit Matrix.

## Odessa College and The University of Texas of the Permian Basin High School Dual Credit Courses Effective 2022-23

Only Core (Math, Science, English, Social Studies) and Languages Other than English for graduation requirements will count on the 4.5 GPA Scale.

No Dual elective courses count toward GPA. These courses will NOT have a negative impact on your GPA.

Please see each course listing for the GPA Weight.

9<sup>th</sup> and 10<sup>th</sup> Grade students will be placed in dual classes before and after their full-day schedule with ECISD. 11<sup>th</sup> and 12<sup>th</sup> graders can be placed into dual courses during the day within their schedule. 11<sup>th</sup> and 12<sup>th</sup> grade students must sit face-to-face for 5 credit-bearing courses before approved for online courses or courses on the college campus which do not report attendance to ECISD. Students will be enrolled in the face-to-face section on the ECISD campus when possible.

OHS, PHS AND NTO: 8-week Dual-Credit courses are ONLY allowed outside of the school day. 8-week courses will be placed on the schedule for 0 and/or 9<sup>th</sup> periods. Students taking 8-week courses must meet the registration deadlines at the beginning of each semester.

**Dual courses are subject to change due to pathway and course requirements by Odessa College or UTPB**

**Courses in Red Font are new courses added for 2022-23**

## University of Texas at Austin On-Ramps Dual Enrollment Courses

### OHS and PHS only

On-Ramps courses are rigorous courses offered at PHS and OHS campuses. Students will be taught by ECISD teachers trained through the UT On-Ramps program. All English, Math, Science, Social Studies and LOTE courses will receive a GPA weighting of 4.5. Students will decide at the end of the course whether they would like the dual course added to their UT Austin transcript at a cost required by UT Austin and paid by ECISD for the 2021-22 school year. OnRamps students are enrolled both in a high school course—led by a high school teacher, taught on the high school campus—and in a college course—led by credentialed UT Austin faculty and college instructors of record (approved by the University's associated academic department for each course). The college course is taught as a distance education course using the Canvas Learning Management System. The OnRamps high school teacher is responsible for evaluating and awarding students' high school grades. UT Austin Faculty and college instructors of record are responsible for evaluating and awarding students' college grades.

**Courses are all full-year courses.**

**No TSI is required for On-Ramps Courses**

District request for approval of the renewal of the Master Clinical Affiliation Agreement between Lamar University and Ector County ISD for counseling practicum and internships for both professional school and clinical counseling. This allows ECISD to utilize counseling interns at no cost to the district while Lamar University students gain valuable experience.

Attached is the Master Clinical Affiliation Agreement between Lamar University and Ector County ISD.

Contract Number: 734-2022-AA-002849  
Start Date: Tuesday, January 18, 2022  
End Date: Friday, January 17, 2025

**MASTER CLINICAL AFFILIATION AGREEMENT BETWEEN  
LAMAR UNIVERSITY  
AND  
ECTOR COUNTY ISD**

This Affiliation Agreement (“this Agreement”) is made and entered into on Tuesday, January 18, 2022 (the “Effective Date”), between Lamar University, an institution of higher education in the State of Texas and a component of The Texas State University System, (“University”), which is located at 4400 MLK Parkway, Beaumont, Texas 77710 and Ector County ISD (“Facility”), which is located at 802 N. Sam Houston, Odessa, TX 79761. University and Facility shall be known collectively as “the Parties” and singularly as “a Party” or “the Party.” This Agreement incorporates by reference the attached Program Addendum(s) (“Program Addendum”) and expressly includes any additional terms and conditions stated in the Program Addendum(s), as if set out herein. In case of a conflict between this Agreement and any Program Addendum, this Agreement shall control. Each Program Addendum shall constitute a separate and independent contract between the parties and may have a term shorter than this Agreement.

**WHEREAS**, Facility owns and operates a business and has a commitment to training students.

**WHEREAS**, University has established and sponsors certain accredited programs for students and seeks to educate students by providing and coordinating educational and clinical practice sites for qualified students (“Students”) and,

**WHEREAS**, the Parties recognize that they have certain objectives in common to educate and train students in particular fields as identified in the Program Addendum(s) and seek to provide clinical and educational experiences for Students enrolled in the University’s undergraduate and graduate programs by utilizing the Facility for said purposes.

**NOW THEREFORE**, the Parties agree as follows:

**ARTICLE 1 – TERM AND TERMINATION**

- (1) This Agreement shall commence on the Effective Date and shall be in full force and effect for three (3) years, unless sooner terminated by mutual consent of the Parties, or by any Party hereto giving the other Party written notice of termination in accordance with the Terms of this Agreement. This Agreement shall automatically renew for two successive one (1) year periods, unless earlier terminated by either Party.
- (2) Either Party may terminate this Agreement without cause at any time upon sixty (60) days written notice to the other Party.
- (3) Notwithstanding any automatic renewal, this Agreement shall automatically terminate five (5) years from its Effective Date.
- (4) In the event that either Party terminates this Agreement, the Parties agree that no termination shall be effective with regard to Students currently participating or enrolled in an ongoing clinical education experience until such Students are allowed to complete any previously scheduled clinical assignments then in progress at Facility. In such an event, all applicable provisions of this Agreement shall remain in force until the end of the clinical education experience.

- (5) The University may terminate this Agreement effective upon delivery of written notice to the Facility, or at such later date as may be stated in the notice, if any license, permit, certificate or accreditation required of Facility by law, rule or regulation, or by the terms of this Agreement, is for any reason denied, removed, suspended, or not renewed.

## ARTICLE 2 – RESPONSIBILITIES OF UNIVERSITY

University shall:

- (1) Appoint a Program Liaison and timely inform Facility of the name, address, email address and phone number of said Program Liaison who will be available to assist Students and Facility personnel. The Program Liaison will be responsible for maintaining ongoing contact with Facility's designated representative.
- (2) Provide the educational direction of the Program as well as the placement and basic preparation of Students through classroom instruction and identification of educational and clinical objectives. University shall further direct the Program in accordance with all guidelines established by local, state or national associations, as well as develop, organize, and assist Facility in implementing and operating a Program that is suitable to each Student, including Students with disabilities.
- (3) Obtain from Facility the name, address, email address and phone number of Facility's designated representative and acquaint Facility's designated representative with methods, objectives, goals, and specifics of the Program as outlined in the Program Addendum.
- (4) Ensure that each Student assigned to Facility pursuant to this Agreement is enrolled in the Program with the University.
- (5) Recruit, screen, evaluate, select and assign to Facility only Students who have fulfilled all prerequisites for training or clinical educational experience and provide Facility with information requested by Facility about the Student, to the extent not prohibited by the Family Educational Rights and Privacy Act (FERPA), U.S.C. § 1232g; 34 CFR Part 99, or other applicable state or federal law. Facility is not authorized to redisclose any FERPA or other protected information.
- (6) If required by Facility, University shall notify students of Facility's requirements to obtain the necessary criminal background check prior to assignment, but University shall not be required to conduct drug testing or criminal background checks for students. The University shall refer students to either Facility's approved vendor(s) or to a third party vendor at Student's sole cost and expense for the purposes of performing drug testing, health care and criminal background checks. All results will be submitted by the vendor to the Facility without involvement by the University.
- (7) Coordinate with Facility to determine the number of Students to be placed at Facility, the duration of such placement/assignment; the number of hours the Facilities will be available and assign only the number of Students mutually agreed upon by Facility and University. University will notify Facility as soon as possible of the names and arrival dates of Students.
- (8) **Insurance:** The University will require its Students and faculty involved in the performance of the Affiliation Agreement to maintain professional liability insurance or self-insurance covering their activities under this Agreement. Prior to each assignment to Facility, the University will furnish Facility, if applicable, with evidence that each Student and faculty member/representative has in effect professional liability insurance coverage of not less than \$1,000,000 per incident and \$3,000,000 in the aggregate. The University will issue the Facility certificates of insurance as evidence that Students and faculty have current professional liability insurance and will be kept current while such person is assigned to the Facility. University will inform Facility

immediately of each renewal, cancellation or change in the content or amount of such coverage.

- (9) **Immunizations:** The University will inform Students of Facility’s immunization and vaccination requirements and notify all Students participating in clinical education experiences involving patient contact or exposure to patient their obligation to comply with immunization requirements.
- (10) Inform Students of their obligation to provide transportation, appropriate supplies, uniforms and health insurance, as applicable.
- (11) Inform Students of their responsibility to adhere to all applicable administrative policies, rules, standards, schedules, and practices of Facility and University, and attend orientation as applicable.
- (12) **Protected Health Information and the Health Insurance Portability and Accountability Act:** The University shall direct its students to comply with the policies and procedures of Facility, including those governing the use and disclosure of individually identifiable health information under federal law, specifically 45 CFR Parts 160 and 164. Solely for the purpose of defining the students’ role in relation to the use and disclosure of protected health information, such students are defined as members of Facility’s workforce, as that term is defined by 45 CFR 160.103, when engaged in activities pursuant to this Agreement. However, such students are not and shall not be considered to be employees of Facility. Additionally, no services are being provided to Facility by the University pursuant to this Program Addendum and therefore this Agreement does not create a “business associate” relationship as that term is defined in 42 CFR §160.103.
- (13) **Infection Control:** The University shall provide to Facility evidence of current tuberculosis screening prior to any representative or Student providing services to Facility under the terms of the Affiliation Agreement. University shall be responsible for notifying all employees or Students performing under the Affiliation Agreement of any on-going screening requirements for tuberculosis and maintain adequate records of current tuberculosis screens pursuant to guidelines established by law. If Facility suspects that faculty or Students providing services under this Agreement have been exposed to or have a positive screening for a communicable disease, Facility must respond according to the current CDC guidelines and keep documentation of the action taken. Facility will conduct and document a reassessment of the risk classification. Facility will conduct and document subsequent screening based upon the reassessed risk classification.
- (14) Upon notice, inform Facility of any adverse circumstances to which Facility may be exposed because of the activities or health status, including the mental health status, of a Student.
- (15) Upon notice, notify Facility of any complaint, claim, investigation, involving a Student, faculty or Facility representative or employee that is related to the educational or clinical experiences provided under this Agreement, to the extent permitted by law.
- (16) Accept the overall responsibility for the education, evaluation, qualifications, and competency development of each Student and be solely responsible for the determination of a grade representative of the Student’s performance in the placement using the evaluation and observation of the Facility Liaison as well as other objectives identified by the University.

### ARTICLE 3 – RESPONSIBILITIES OF FACILITY

Facility shall:

- (1) Designate a qualified Facility Liaison and timely inform University of the name, address, email address and phone number of said Facility Liaison who will be available to assist University personnel and Students of the Program. The Facility Liaison will be responsible for maintaining ongoing contact with University’s

designated representative and providing instruction and supervision of the Students based in the Facility.

- (2) Provide facilities necessary to support the Program(s) for the training and qualifying of Students in the Program as identified in the Program Addendum; provide a supervised learning experience for Students in accordance with agreed upon learning objectives, skill development areas, learning experiences, and intended learning outcomes.
