Each board member shall:

2. Endeavor to make policy decisions only after full discussion at publicly held board meetings;
3. Render all decisions based on the available facts and his or her independent judgment, and refuse to surrender that judgment to individuals or special interest groups;
4. Encourage the free expression of opinion by all board members, and seek systematic communication between the board and students, staff and all elements of the community;
5. Work with other board members to establish effective board policies and to delegate authority to the superintendent to administer the school district;
6. Communicate expressions of public reaction to the board policies and school program to other board members and the superintendent;
7. Learn about current educational issues by individual study and through participation in seminars and programs, such as those sponsored by the state and national school board associations;
8. Support the employment of those persons best qualified to serve as school staff, and insist on a regular and impartial evaluation of all staff;
9. Avoid being placed in a position of conflict of interest, and refrain from using the board member's position on the board for personal or political gain;

10. Refrain from discussing the confidential business of the board in any setting except a board meeting;
11. Refrain from micro-managing the affairs of the school district;
12. Recognize the superintendent as the executive officer of the board;
13. Work constructively and collegially with the other members of the board, students, staff and patrons.
14. Refer complaints to the superintendent or building principal, as appropriate;
15. Always be mindful of his/her fiduciary obligation to the school district, including duties of loyalty and care, by placing the interests of the district above the board member's personal interests.
16. Remember that a board member's first and greatest concern must be the educational welfare of the students attending this district's schools.
