Recommendations for FY24 Budget Savings

Savings	Category	Rationale	Dollars
Delay purchase of high school language arts curriculum one year	Supplies and Materials	The new high school English teachers will have a year to plan, research and trial new curriculum	\$50,000
Reduce purchase of elementary language arts curriculum	Supplies and Materials	ADSIS dollars will be used to purchase language arts curriculum	\$21,000
Reduce capital budget for High School	Supplies and Materials	Some of the Series 2023A, General Obligation School Building Bonds can be used to purchase classroom furniture and other related items.	\$5,000
Reduce capital budget for Elementary School	Supplies and Materials	Some of the Series 2023A, General Obligation School Building Bonds can be used to purchase classroom furniture and other related items.	\$5,000
Assign MA billing duties and responsibilities to high school health aide	Non-Certified	Post-COVID there is enough time for one person to do both roles.	\$33,000
Use the new Student Support Staff Aid to pay a part of the elementary social worker's salary and benefits	Teacher/Programs	The school social worker was being paid, in part, with ESSER dollars. Those dollars will now be used for the salary and benefits of one custodian.	\$40,000
Title Teacher prep for non-certified employees. Paras go back to their old hours	Teacher/Programs	This will return us to what we had been doing before.	\$7,000
			\$161,000.00

Project Scope:

Please note, installation is based on site being ready prior to our arrival to install play equipment as well as site conditions that have been conveyed to our organization by the owner/owner's representative and/or ideal conditions existing for a timely completion of your project as quoted. Unless addressed prior to the installation quote being issued or specifically mentioned herein, any issues that arise that impede the progress/completion of your project as quoted will result in additional charges.

Weather can change project scheduling in many ways. Take rain for an example. Day, or days, before rain... If weather forecasts show a high percentage chance for rain that will effect the site conditions, a postponement may be in order. Digging holes, laying certain surfacing materials, etc., are greatly affected by weather conditions and work may not begin/continue due to weather forecasts. There's the rain days themselves, which if heavy enough rainfall occurs, makes a site unworkable. Day, or days, after rain... Drying time will be needed after rain and the number of days needed will vary depending on amount of moisture received. One actual rain day may equal multiple delay days depending on work scheduled to be done.

- Security fencing of any type
- On site security personnel
- If fencing is in place (by others), ability to unlock fencing is to be provided to our office a minimum of one week prior to our start
- Private utility locates such as, but not limited to, irrigation, fiber optics, private lighting, etc.
- Accepting, unloading and storage of order(s)/shipment(s) prior to installation. Please note, orders can be packaged/shipped in large crates, pallets, etc., requiring heavy-duty equipment to unload.
- Sitework of any kind such as, but not limited to, grading (play area to have max slope of 1%), site restoration, drainage, etc.
- Removal of existing play equipment, border, safety surfacing, etc.
- Backfill and compaction of backfill after removal of existing items (for footing holes as an example) that leave voids in area (marking and digging of new footing holes based on workable site)
- Digging in compacted sub-surfaces, rock, hard pan, tree roots, unstable soil conditions, etc.
- Restoration of compacted sub-surfaces for playground surfacings such as, but not limited to, poured-in-place rubber, rubber tiles, artificial turf, etc.
- Digging/maneuvering in sand, pea gravel, mud, etc.
- Offsite removal of spoils from footing holes (can be stockpiled near play area for owner/owner's representative removal or spread within play area)

- Permits of any kind
- Prevailing, Davis Bacon, Union, or similar, wages
- Restroom facilities. Please provide access to restrooms whether within a building or portable style. Should use of site facilities not be available, additional charges will be required to bring on site temporary/portable restrooms. These temporary facilities will be removed once your project has been completed.
- Short term maintenance, check manufacturer's owner's manual recommendations for maintenance and always follow these written instructions. To help set up short (and ongoing) term maintenance, use the first twelve months to regularly check equipment (such as, but not limited to, tightening hardware, checking moving features, etc.). Twelve months allows use in all seasons and will provide a better understanding of what will be necessary for your ongoing maintenance. This short term schedule will be based on the amount of use the play equipment is getting as well as the type of play event that is being played on. Activities with movement have a more dynamic play which can lead to more maintenance due to the nature of the motion but also because these types of play events tend to be more popular. Static features may require less attention during the short term and ongoing maintenance as inspections will determine frequency of maintenance needed for these events. There may be a need for scheduled lower and higher frequency inspections.
- Ongoing maintenance, check manufacturer's owner's manual recommendations for maintenance and always follow these written instructions. After short term maintenance period is done and data is collected for that time period, an ongoing schedule should be implemented. The ongoing maintenance can change with age and greater use. There may be a need for scheduled lower and higher frequency inspections.

Should weekend work be necessary or non-standard hours be worked, please provide a site contact and the best telephone number to reach this person in case an urgent matter arises requiring immediate attention.

Installations for 2023: Your requested installation time frame has been noted but please keep in mind, completion of projects such as yours, as outlined in the project scope herein, cannot be guaranteed. Should you wish us to attempt to have your project completed with special circumstances taken into consideration, please telephone your company contact to discuss alternate installation processes and costs. Some tasks, like unloading your order/shipment and storing your shipment, can help in completing your project. As soon as the weather/install calendar allows in 2023 your project can be scheduled accordingly. As always, weather plays a major role in scheduling installations and will affect completion of projects. For 2023, as with other years, an estimated installation start date will be around May 1st, but again, this cannot be guaranteed as Minnesota and Wisconsin weather can be unpredictable.

Wet Site Conditions: installation areas located near wetlands, where a high water table exists or in any environment that produces excessive moisture will require additional planning prior to installation of your project. Unless excessively wet conditions have been conveyed prior to installation quote and accounted for in some manner, your installation will not proceed. Ideal dry conditions need to be present to begin, and complete, your project as quoted.

Exclusions: unless specifically included, this quotation excludes all site work and landscaping; removal of existing equipment; acceptance of equipment and off-loading; storage of goods prior to installation; equipment assembly and installation; safety surfacing; borders and drainage provisions.

NORTH PLAYGROUND

While it is our intention to install your playground in a safe and timely manner, our success relies on your preparedness. Site preparation and grading to be performed by others and prior to installation. Since within the play area(s) shall not exceed 1/2" to ensure a successful installation and a compliant playground. Drain tile systems other than within 4" of the perimeter along drain aggregate base material may require installing after the installation of the play equipment and must be coordinated with installation of safety surface materials. Failure to prepare site(s) to these specifications may result in additional charges if installer is required to re-mobilize. Please contact MN W Playground if you have any questions.

Maximum depth of safety surface and drain aggregate base should not exceed an 18" depth and shall not be installed until play equip. has been installed.

Please Initial & Sign the Final Top View.
