BUDGET PROCESS AND FORMAT

This section explains how the District's budget is organized and developed. The goal of the budget is to present a meaningful financial plan that can be readily understood by all members of our community and create a sound basis for decision making.

WHAT IS A BUDGET?

A budget is a **financial plan** containing estimates of revenues and expenditures for a **single fiscal year**. The District operates within a fiscal year beginning on July 1 and ending the following June 30.

Budgeting allows the District to evaluate its needs in light of the revenue sources available to meet those needs. A complete budget justifies the imposition of ad valorem (according to value) property taxes. Budget provisions are determined by Oregon's Local Budget Law, which can be found in Chapter 294 of the Oregon Revised Statutes. The law sets out several specific procedures that must be followed during the budgeting process.

WHAT IS LOCAL BUDGET LAW?

Budgeting in Oregon is a joint effort between the people affected by the budget and the appointed and elected officials responsible for providing the services. Oregon's Local Budget Law does several very special things:

- It establishes standard procedures for preparing, presenting and administering the budgets of Oregon's local governments.

- It encourages citizen involvement in the preparation of the budget before its formal adoption.
- It provides a method of estimating revenues, expenditures and proposed taxes.
- It offers a way of outlining the programs and services provided by local governments and the fiscal policy used to carry them out.

It is up to the District to prepare a budget that clearly outlines its fiscal policies and is satisfactory to its patrons. If a budget is clear and concise, taxpayers better understand how their tax dollars are spent.

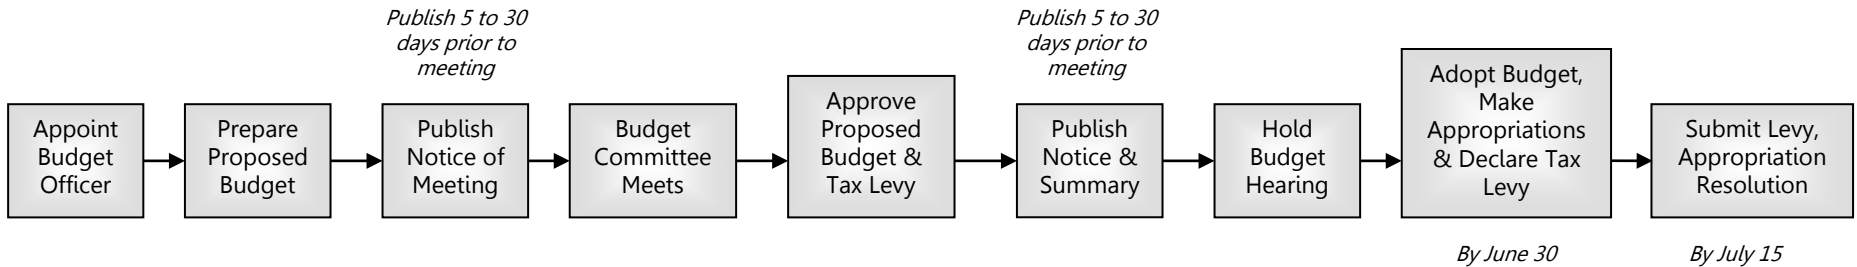

THE BUDGET PROCESS

Budgeting is not simply something that the District does once a year. It is a continuous process taking 12 months to complete a cycle. The budgeting process has five parts. The budget is: 1) prepared, 2) approved, 3) adopted, 4) executed, and 5) audited.

To give the public ample opportunity to participate in the budgeting process, the District appoints a Budget Officer and forms a Budget Committee. The Budget Officer draws together necessary information and prepares the proposed budget. The Budget Committee then reviews and may revise the proposed budget before it is formally approved. Notices are published, budgets are made available for review, and public meetings are held. These requirements encourage public participation in budget-making. They also give exposure to budgeted programs and fiscal policies before the Board of Directors adopts the budget.

The budget committee is an advisory group established by statute. The committee is made up of the governing body of the District and an equal number of appointed members. The appointed members must be electors of the District; they cannot be employees, officers, or agents of the District. Budget committee members are appointed for staggered, three-year terms.

Local budget law requires that the budget committee hold at least one meeting for the purpose of receiving the budget message and budget document, and providing members of the public with an opportunity to ask questions about and comment on the budget. The District must give prior notice of the meeting(s) held for these two purposes.

The budget committee can revise the proposed budget to reflect changes it wants to make in the District’s fiscal policy; it does not have the authority to negotiate employee salaries. The committee approves the budget, approves the property tax rate, and approves the dollar amount for debt service for the payment of bond principal and interest.

BUDGET FORMAT

The budget document is organized into five major sections:

- Superintendent’s Budget Message
- The Budget at a Glance
- District Overview and Reader’s Guide
- General Fund
- Other Funds

The **Superintendent’s Budget Message** presents a comprehensive, narrative overview of the budget and explains the major influences affecting the District’s financial condition. It presents the Superintendent’s budget goals for the year and identifies changes in the budget.

The Budget at a Glance contains budget summaries for all funds, and key budget factors such as enrollment and staffing levels.

The **District Overview** and **Reader’s Guide** includes a description of the District and its programs, school board goals, the District’s guiding financial management goals and policies, a list of acronyms and a glossary of commonly used terms.

The **General Fund** is the District’s major operating fund and accounts for most of the District’s financial resources. Revenues come from two main sources: state funding and local property taxes. State funding, property taxes, and other local revenues are included in the State School Fund formula, which determines approximately 98% of General Fund operating revenue.

General Fund expenditures represent costs incurred to operate the District: salary and benefit costs for teachers, administration and support staff, student transportation, classroom supplies and materials, building maintenance and utilities, and other expenses. General Fund expenditures are presented in detail by service area. The seven service areas are:

- District Operations and Administration
- Special Education
- Elmira Elementary
- Veneta Elementary
- Fern Ridge Middle School
- Elmira High School
- Non-Operating

Other Funds includes the following:

- *Special Revenue Fund* – This fund accounts for self-supporting programs, grant funds received for specific projects, or fee-based programs.
- *Debt Service Fund* – This fund accounts for the accumulation of resources for, and the payment of, general long-term debt, principal and interest.

SUPERINTENDENT'S BUDGET MESSAGE

**FERN RIDGE SCHOOL DISTRICT 28J
SUPERINTENDENT'S BUDGET MESSAGE
2026-2027**

Dear Members of the Budget Committee and Community:

The 2025-2026 school year wraps up the first year of the current biennium. The proposed budget document represents the Fern Ridge School District's 2026-2027 fiscal year financial plan. The forecasts included in the proposed budget are based on the latest local information as well as the latest information available from the Oregon Department of Education and projected federal funds. The budget is built on an enrollment forecast that is 38 students fewer than our 25-26 budget was built on. Public School enrollment throughout Oregon is on a decline, and that trend has been consistent here in Fern Ridge as well. In 2025, Oregon ranked 47th/50 in both birth rates (number of births per 1,000 people in a population within a year), and fertility rates (the number of births per 1000 women of reproductive age in a population year).

In this upcoming 2nd year of the biennium, the District is projected to receive approximately \$454,089 more in general fund revenue than we did in 25-26, or about 2.3%. While this increase in funding is certainly welcome, it remains a challenge to keep up with inflationary pressures in areas such as purchased services, out of district special education placement costs, insurance and supplies.

Despite the significant rise in costs, combined with declining enrollment, the district has positioned itself well in recent years to be able to weather this inflationary period. In recent years we have focused on moving out of a deficit spending cycle. In 24-25 we operated in the black by 955k, mostly due to underspending of 7%. In 25-26, if we underspend at 3% we will essentially remain flat. For each % over 3 that we underspend, we will operate in the black approximately 200k as of current numbers. While this 26-27 budget does have us deficit spending, if we underspend this proposed budget by 6%, instead of the 3% that is factored in, we will again remain pretty much flat in regards to our end fund balance.

I would also mention that by remaining conservative, planning well, always looking to the future, and not using the COVID dollars we received on additional staff, we have been able to increase account balances in three critical areas. At the beginning of the 2016-17 fiscal year when I became Superintendent it was a goal of mine as well as our business manager Mrs. Bennett, to increase our savings in three primary areas: Our end fund balance, as well as our facilities and technology reserve accounts. In July of 2016 those accounts and the difference today is displayed below:

<u>July 2016</u>	<u>July 2026</u>
BFB: 1.277M (10.55%)	5.5M (28%)
Tech: \$148k	\$884k
Maintenance: 608k	3.2M

These balances not only help protect the district should emergencies arise, but will give flexibility to future school boards, budget committees, business managers and Superintendents should any transfers to the general fund be necessary to meet an immediate need. This level of financial security and stability is not the norm around the state of Oregon and it is a credit to many folks in our organization, including past and present school boards, our business manager and our staff/bargaining units.

Things to note:

- **State funding:** Because we are in the 2nd year of the biennium, our funding is known, which makes this process a bit easier. In odd numbered years, for example next year in 2027, we often find ourselves budgeting based on our best guess.
- **Bond:** The passage of the district facilities bond in the Spring of 2024 was a significant help to the general fund, as a major component of the bond was addressing HVAC and other mechanical systems that would have needed to be addressed using general fund dollars had it not passed. This has allowed our facilities reserve account to grow a bit. In addition, we expect to have in excess of 2M dollars left over, after the completion of all promised bond related projects as a result of interest earned and bond premiums earned at the sale.

- **Federal dollars:** This continues to be in flux, with significant reductions coming in Title I, II and IV in recent years. Our Title I program will need a “reset” in the 26-27 school year and we have a plan to do just that.
- **Bargaining:** Another strength of our current position is that we have contracts now in place for all certified, classified, and administrator and District Office groups through June 30th, 2028. Having these costs locked in and known, is a significant help as we look to plan for the future. I would also like to recognize all of our employee groups who have bargained in good faith, and understand the balance of supporting our staff with a fair and competitive financial package, while also doing what is best for our students. Their partnership is a significant reason for our financial stability.

Every year there are adjustments both small and large in our budgeting plan. I have identified a few below I would like to bring to the committee’s attention.

- .3 FTE will be moved back from the Capital Fund to the General Fund
- The reduction of 1.0 elementary teacher. With another smaller kinder class coming in, and a larger 5th grade class moving out, I would not expect average elementary class sizes to increase at all, even with this reduction.
- The increase from .36 to 1.0 for a district wide Athletic Director

- The addition of .36 FTE EHS Certified staff that is a result of this position having the partial A.D. duties taken away.
- .10 FTE of TAG being moved back to the General Fund from Special Revenue

The District is committed to providing the best possible learning environment that is fiscally possible. I believe this proposal is an accurate depiction of the budget, and it is the most reasonable projection of our fiscal resources and uses at this time. This proposal implements the desires of the Board and utilizes fiscally responsible financial practices.

While our proposed 2026-2027 budget does not fully fund everything our students deserve, our efforts are designed to maintain an environment that still promotes high levels of student achievement and progression to college, careers, and other postsecondary pathways. Through conservative and sound budgeting practices, the district is positioned to weather the elements of this inflationary market without the cuts, reductions in force, school closures and other cost cutting measures that some districts around the state are experiencing. We will continue to look for meaningful ways to support staff and students in the years to come, while ensuring we remain fiscally responsible.

We are grateful to you, the budget committee and school board, for reviewing this proposed budget and thank you for generously balancing your responsibility for our district's financial plan with your heartfelt desire to do what is best for all of our students.

Professionally,

Gary E. Carpenter, Jr., Superintendent

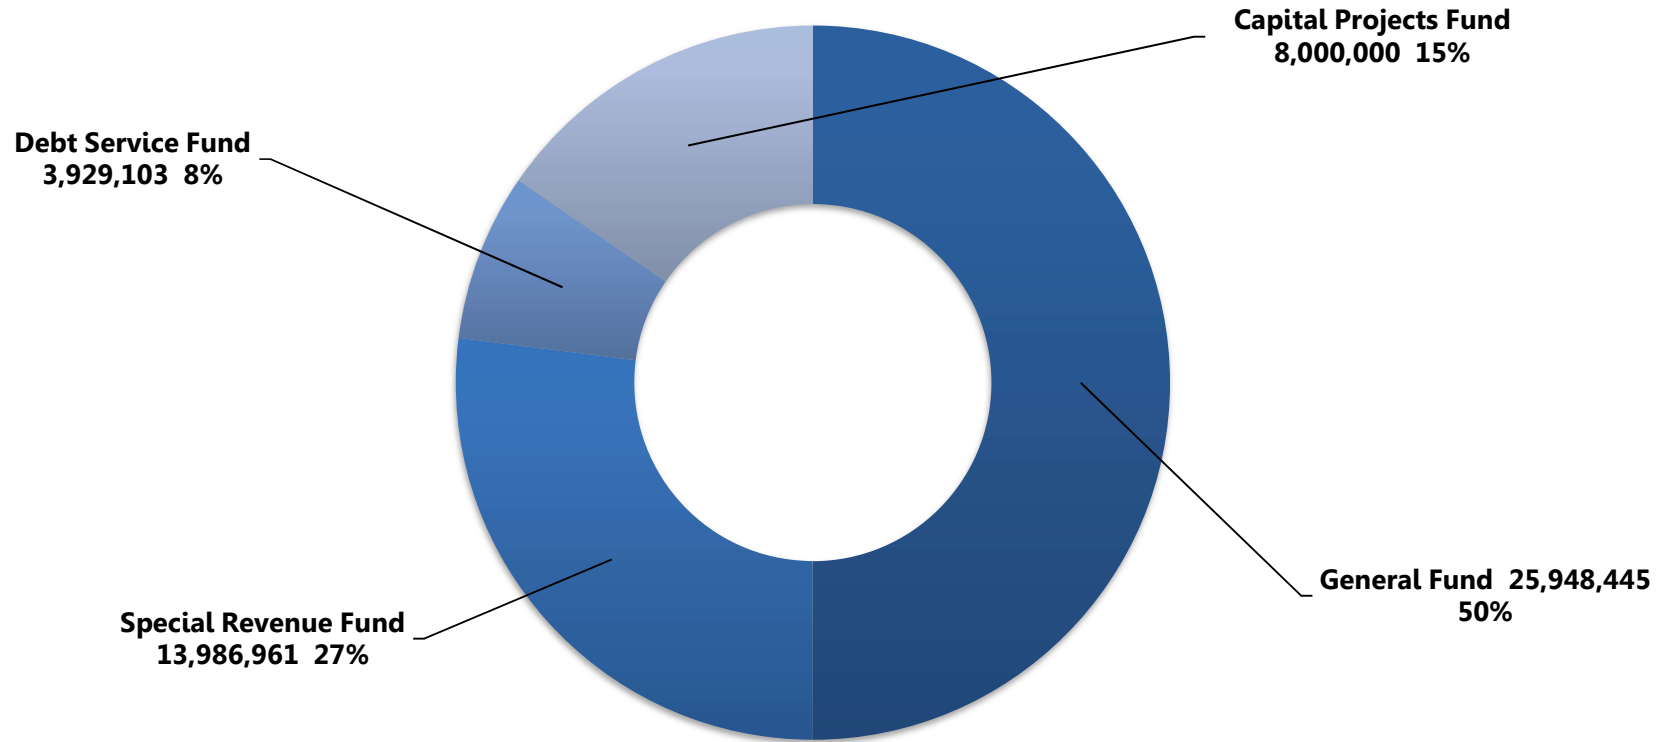

THE BUDGET AT A GLANCE

The Budget: Each year the Board of Directors adopts a budget for the upcoming school year that guides our District staff in how funds are spent toward instructional programs for students. The budget is initially put together by the Superintendent and District staff. Then, the Budget Committee reviews the budget and gathers feedback from the local community. After reviewing the budget and deliberating any possible revisions, the Budget Committee approves the budget. The School Board then adopts the budget – and this becomes the operating budget for the upcoming school year.

Student Enrollment and State Per Pupil Funding: Student enrollment is expressed as ADMr, or average daily resident membership. It represents the average annual enrollment as of June. The state uses ADMr as the basis for allocating funding under the State School Fund formula, as money is provided to districts on a per student basis. The graph below shows history of changes in student ADMr over the past ten years and provides a forecast for next year, which is what our State School Fund revenue estimates are based on. The bottom table shows Extended ADMw for each year as well as the per pupil funding.

DISTRICT OVERVIEW AND READER'S GUIDE

FERN RIDGE SCHOOL DISTRICT 28J

DISTRICT OVERVIEW & READER'S GUIDE

THE DISTRICT

The Fern Ridge School District 28J is located primarily in Lane County, Oregon with a small portion extending into Douglas County. The total area encompasses 214 square miles, serving children from the surrounding communities of Walton, Noti, Veneta and Elmira. The District's size, rural setting, proximity to Eugene, Fern Ridge Reservoir and easy access to the Oregon coast make Fern Ridge an attractive place to live and raise children.

In 1911 Union High School District No. 4 began serving the students in our area. On June 16, 1960, Union High District No. 4 became a unified district and Lane County School District 28J became the official new District name, the 28th district to form in Lane County. The "J" stands for "joint" because the District's area extends across two counties. All in all, the District has been providing education to the children of our area for over 115 years.

Fern Ridge School District 28J is now one of sixteen school districts in Lane County with a full-time equivalent population of approximately 1,350 students. The District is comprised of four schools (Elmira Elementary, Veneta Elementary, Fern Ridge Middle School, and Elmira High School), and one charter school (West Lane Charter).

THE SCHOOL BOARD

The school board is the governing body of the District, and is responsible for setting policy, approving expenditures and contracts, appointing the Superintendent for hiring, terminating and approving resignations of all certified, classified and administrative staff. The Board of Directors is comprised of five citizens, elected on a district-wide basis, who serve four-year terms, which are staggered so that no more than four members are elected in a given year. The Board and five appointed citizen members make up the Budget Committee.

SCHOOL BOARD GOALS

1. The Fern Ridge School District Board will commit to continuous board professional development, with a focus on the culture and climate on the board and the roles and responsibilities, authority of the board.
2. The Fern Ridge School District Board will use data to identify and prioritize student needs and hold themselves accountable for meeting all student learning expectations by monitoring the progress of the district goals.
3. The Fern Ridge School District will continue to engage and receive input from stakeholders to help the board make informed decisions.

CITIZEN INVOLVEMENT

The citizens are the most important part of the District organization. District services are directed to meet the needs of the citizens. Public hearings are held so that citizens can contribute to the planning and budgeting process of the District. Citizens may express their concerns and requests to their representatives on the School Board, Budget Committee and other District committees. Citizens are also encouraged to attend the various public hearings held regarding the District.

Notices of all budget committee meetings and budget hearings are published in the legal notices section of the *The Register Guard*. In addition, the School Board meeting calendar and all School Board

meeting agendas and minutes can be viewed on the District's website at www.fernridge.k12.or.us.

FINANCIAL MANAGEMENT GOALS AND POLICIES

The budget was developed to reflect Generally Accepted Accounting Principles (GAAP), a uniform minimum standard for financial accounting and reporting. The District uses a fund accounting system to categorize revenues and expenditures together into accounting reporting units called "funds." Each fund is distinct and is segregated for the purpose of carrying on specific activities within that fund.

Revenues and expenditures are budgeted and accounted for using the modified accrual basis of accounting. Under this basis, revenues are recognized when they become both measurable and available. Available is defined as collectible within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures are recorded when the related fund liability is incurred.

The district's fiscal management goals and policies provide the framework for financial planning and decision making by the school board, superintendent, budget committee, and district staff. The fiscal management goals are designed to ensure the district's financial integrity which, along with prudent management of the district's financial resources, is necessary if the district is to provide the educational services, support services and facilities that address student needs as well as community expectations.

The following goals and policies are intended to guide the district in its financial matters. The goals are broad statements of board philosophy for the district's fiscal management.

Fiscal Management Goals

1. The district will establish a financial base sufficient to support high quality and innovative educational programs which meet student need.
2. The district will follow prudent and professional financial management practices in order to achieve and maintain long-term financial stability.
3. The district will demonstrate to the district's taxpayers and the financial community that the district is well managed through yearly certified audit(s).
4. The district will have an adequate capital improvement program that maintains district assets, provides for student and employee safety, maintains a quality instructional environment, and affords the ability to address changes in enrollment.
5. The district will continually review and improve its formal budget document and other financial information so resources, expenditures, and the district's financial position are transparent.
6. The district will communicate, as permitted by law, with its employees and the community so that they understand the district's program requirements and financial status.

Fiscal Management Policies

The district will strive to establish a stable revenue base for the operating budget for program needs through cooperation with its associations, legislators, and other districts and public agencies. The

district may periodically make capital funding requests to assure adequate safety and preservation of school buildings, district equipment, and other capital assets.

1. The board will establish funds as needed to support effective and efficient service delivery. The budget committee and the board will review each fund annually as the budget is prepared and reviewed. If certain funds are not found to enhance the district's services or financial goals, they will be re-allocated.
2. Each fund will maintain an appropriate contingency account to meet unanticipated requirements that may occur during the budget year. Cash reserves and fund balances will be consistent with generally accepted accounting practices and local budget law. The targeted contingency goal for the general fund should be no less than two percent of the operating budget. The district will review other funds for contingency and cash reserve requirements to ensure that each fund has sufficient reserves and a positive balance at year end, as required by local government or best practice budget law.
3. The district will maintain an ending fund balance in the general fund, in order to provide stable services and employment to offset cyclical variations in revenues and expenditures.
4. The district will consistently fund dedicated reserve and replacement accounts for its future liabilities, claims and fixed assets. Each dedicated reserve account will include clear standards for setting the amount of the reserve.
5. Excess one-time funds may be available for capital improvement, equipment, automation or other one-time projects that improve the district's productivity and efficiency, but only if the ending fund balance is deemed to be sufficient.

6. Each fund will maintain adequate cash reserves or contingency in order to meet operating cash flow needs or borrow internally from another fund, or as a last resort, borrow externally to provide for cash requirements.

The targeted floor for the ending fund balance will be at five percent of annual operating revenues. Taking into consideration revenue and expenditure volatility and other district needs, the board will allocate an appropriate portion of the projected ending fund balance to the unappropriated ending fund balance (UEFB) in the annual budget. The UEFB may not be spent or appropriated during the fiscal year in which it is budgeted.

Once the targeted floor of five percent for the ending fund balance has been achieved, the superintendent and/or business manager at the superintendent's request will advise the board if at any time the ending fund balance falls below or is projected to fall below that amount. The superintendent and/or business manager at the superintendent's request will update the board on the financial condition of the district and present financial options for board consideration.

If district revenues are less than anticipated, operating capital and ending fund balance allocations will be reviewed by the board for possible program fiscal support reductions. The board may decide to use a portion of the projected ending fund balance to stabilize services. When such a determination is made, the board will adopt a plan to rebuild reserves to the five percent targeted floor over a five-year period or less.

GENERAL FUND

FERN RIDGE SCHOOL DISTRICT 28J *GENERAL FUND RESOURCES*

Resources supporting District General Fund operations primarily reflect local and state revenues, with additional income representing federal, county, and other sources. The largest portion, which includes state funding and local property taxes, is determined by the State School Fund (SSF) formula. Since Measure 5 property tax limitations were approved in 1990, state appropriations for K-12 education are decided each biennium by the legislature. Amounts paid by the state are highly dependent upon corporate and personal income taxes as well as local property taxes.

STATE SCHOOL FUND

The SSF formula was developed with the goal of providing equal funding to all districts, with funds allocated on a weighted, per-student basis. Extra weighting is provided for special education, English language learners, students living in poverty, and teen parents. To determine a district's general purpose grant, the weighted student count is multiplied by a statewide target grant amount (currently \$4,500), which is adjusted to reflect average teacher experience. Based on individual district expenditures, a transportation grant, high cost disabilities grant and facilities grant are added to the general purpose grant to determine total formula revenue. Once total formula revenue is calculated, local property taxes and other specified revenues are deducted to determine the amount of the grant to be paid to a district.

PROPERTY TAXES

Under Measure 5, district property taxes are based on a permanent tax rate of \$4.82 per \$1,000 of assessed value, applied to the value of real and personal property located within district boundaries. Tax revenues budgeted for 2026-2027 assume a 3.5% increase in assessed values and a collection rate of 95%. Most taxes not collected in the year in which they were levied are collected in subsequent years. It is estimated that approximately 30% of the outstanding balance of uncollected taxes will

be received during the 2026-2027 fiscal year. Other property tax-related revenues include interest earnings from delinquent taxes.

OTHER STATE FUNDING FORMULA REVENUES

- County School Fund – Miscellaneous tax receipts from Lane County distributed on a per student basis.
- Common School Fund – State allocation per ORS 327.403 distributed on a per student basis (varies from year to year).
- Federal Forest Fees – Receipts under ORS 294.060 from forest reserve rentals, sales of timber, and other sources from forest reserves within the State of Oregon.
- State Managed County Timber – Revenue in addition to that distributed through the county school fund per ORS 530.

OTHER SOURCES OF REVENUE

The district receives money from a variety of sources that are not deducted from the SSF grant. These include interest earnings; receipts from the rental and use of school facilities; services provided to charter schools; and other miscellaneous revenues.

BEGINNING FUND BALANCE

Other General Fund resources include unexpended resources and the unappropriated ending fund balance carried over from the previous year. These resources are also excluded from the SSF formula.

NON-OPERATING (TRANSFERS, CONTINGENCIES AND RESERVES)

FERN RIDGE SCHOOL DISTRICT 28J

GENERAL FUND REQUIREMENTS – NON-OPERATING (TRANSFERS, CONTINGENCIES, AND RESERVES)

PROGRAM DESCRIPTION

The Non-Operating (Transfers, Contingencies and Reserves) program includes appropriations for interfund transfers, contingencies, and unappropriated ending fund balance.

Interfund transfers represent transfers of resources between funds or the transfer of equity between. For fiscal year 2026-2027 this appropriation includes proposed transfers of \$8,500 to the Food Service Fund, \$200,000 to the Textbook Fund, \$35,000 to the Technology Fund, \$85,000 to the District Maintenance Fund, and \$90,000 to the PERS Reserve Fund. A contingency appropriation provides a resource for occurrences or emergencies which cannot be foreseen at the time of budget preparation. Authorization by the Board is required prior to the use of these funds. The Unappropriated Ending Fund Balance (UEFB) represents the estimated resources which will remain undesignated for the current year.

MAJOR FUNCTIONS

5200 Interfund Transfers

These are transactions which withdraw money from one fund and place it in another without recourse.

6000 Contingencies

Expenditures which cannot be foreseen and planned in the budget process because of an occurrence of an unusual or extraordinary event.

7000 Unappropriated Ending Fund Balance

An estimate of funds needed to maintain operations of the school district from July 1 of the ensuring fiscal year and the time when sufficient new revenues become available to meet cash flow needs of the fund. No expenditures shall be made from the unappropriated ending fund balance in the year in which it is budgeted.
