Regular Board of Directors Meeting
Monday, May 8, 2023 6:00 PM
Lower Platte North NRD Office
P.O. Box 126
Wahoo, NE 68066

1. Call to Order

   NOTE: The agenda is on file at the LPNNRD office and may be changed up to 24 hours prior to the meeting as scheduled.

   1.A. Meeting Notice

   1.B. Inform Public on Location of Copy of "Open Meeting Act"

   1.C. Pledge of Allegiance

2. Roll Call

   2.A. Introductions

3. Approval of Agenda
   Are there any additions or corrections to the agenda?
4. Comments - Advisors/Guests

   4.A. Guest Comments

   4.B. NRCS Report

   4.C. NARD Report

   4.D. NRC Report

   4.E. Managers Report

   4.F. Education Program

5. Approval of Minutes
   Are there any additions or corrections to the Minutes? If not they will be approved on the consent agenda.
6. Report of Standing Committees

   6.A. Executive Committee - Action as Required

6.A.1. UNFINISHED BUSINESS

6.A.2. MEETINGS

6.A.2.a. Pending

6.A.2.a.1. NARD Basin Tour

The NARD Basin Tour is scheduled for June 12-13. See attached agenda, registration deadline is May 12th. If interested in attending please let staff know.

6.A.2.b. Reports

6.A.2.b.1. Nitrate Testing: FFA Chapters and Natural Resource Districts

Attached is Jerry Johnson's report on potential FFA Nitrate Education program.

6.A.3. MANAGEMENT ITEMS

6.A.3.a. Directors Absence

Attached find Birkel's excuse of absence from the April Board Meeting.

6.A.3.b. Monthly Education Program

6.A.3.c. Cottonwood 21-A NRCS Supplemental Watershed Plan / Environmental Assessment Agreement

NRCS has notified us we have been officially approved for our environmental assessment, planning and design for our Cottonwood 21-in May.

We received the following e-mail on 4-24-23:

Congratulations,

Agreement #NR236526XXXXC002 to create a Supplemental Watershed Plan - Environmental Assessment for Cottonwood Creek 21-A Flood Control Dam has been approved and is fully executed within ezFedGrants. The period of performance dates for this agreement is 4/21/23 to 05/31/25. Attached is a copy of the signed AD-93 for your records.

Let me know if you have any questions or concerns regarding the amendment or the document.

6.A.3.d. NRD Cleaning Contract

Lisa Russ has informed us she will be unable to continue her office cleaning responsibilities. Staff will begin advertising immediately for a new cleaning contractor to begin June 1st.

6.A.4. EQUIPMENT

6.A.5. PERSONNEL

6.A.5.a. O&M Technician Position

Discussion and possible action to add a technician position to our O & M Department.

A motion will be needed at Board Meeting to proceed with advertising for a new O & M Technician position.

6.A.5.b. Wahoo Creek Administration Position

NRCS funding for our Wahoo Creek Watershed Project will provide funding, up to 10% of total award, for administrative assistance. In the next few months, management will be reviewing project administration responsibilities and needs and how they may be covered within the WFPO program.

6.A.5.c. Wanahoo Summer Staff

I have completed interviews for Wanahoo Summer staff and have hired: Jake Scanlon, Kamron Kasischke, Eli Emerson and Jase Maly at a starting hourly wage of $12.00.

A motion will be needed at Board Meeting to ratify the hiring of Jake Scanlon, Kamron Kasischke, Eli Emerson and Jase Maly as Wanahoo Summer staff at the rate of $12 per hour.

6.A.6. FINANCE

6.A.6.a. Approval of Financial Reports

Grant will be available to update the Executive Committee on the March Financial Statement.

6.A.6.b. Approval of Managers Time and Expense Sheets

Attached find Gottschalk's time and expense sheets.

6.A.6.c. Accounts over 90 Days

6.A.6.d. Annual Audit Proposal

Attached find AMGL proposal for performing our Annual Audit for three years ending June 2023, 2024 and 2025. The last proposal expired on 6/30/22. See attachment.

6.A.7. 2023 Staff Cost of Living Salary Increase

Discussion is requested for this year's salary adjustments as it relates to cost of living and merrit.

6.B. Operations Committee - Action as Required

6.B.1. UNFINISHED BUSINESS

There is no unfinished business.

6.B.2. WILD NE AND OTHER PROGRAMS

Wanahoo Wetland Restoration - Ducks Unlimited plans to finish the survey on the Wanahoo Wetland area this Spring. They mentioned the start of construction this Fall. We hope to burn this area this Spring. After the burn and the cattails

emerge, we may do a herbicide treatment on the area. This may reduce the vegetation load when digging out the wetland.

6.B.3. OPERATION & MAINTENANCE & OTHER ITEMS

The O & M crew continues to cut & treat trees on all of our properties. We have packaged and delivered trees and started planting.

We have 12 sites to plant.

6.B.3.a. Wanahoo Stilling Basin - (FEMA)

M.E. Collins finished the grading, clean up and seeding below the Wanahoo dam. We had a final walk through with Collins, Houston Engineering and NRD staff on Thursday, April 13.

A final pay application #05 worth $34,888.23 will be made to M.E. Collins (attached).

A final invoice from Houston was received for $2,130.59. The total contract fee was $164,440.00, we used $134,592.82. Summary attached.

We can now file and report all our expenses for the Wanahoo Dam repair to FEMA/NEMA.

6.B.3.b. Wanahoo Relief Well Reconditioning

Bids from Well Drillers for the reconditioning of 22 relief wells on the Wanahoo dam over the next three years were due Wednesday, April 26th at 4:00 pm. We received one bid from Rieschick Drilling Co. of Falls City, (attached). The bid for 2023 for 10 wells is $105,600, the bid for 2024 for 7 wells is $87,348, and 2025 for 5 wells is $72,893. The three-year total is $265,841.00.

We received an invoice from Olsson for Geotechnical Exploration for $1,323.00 as part of our Dam Instrumentation Monitoring.

6.B.3.c. Rehabilatation of Cottonwood 21-A NRCS Contract

The agreement to create a Supplemental Watershed Plan - Environmental Assessment for Cottonwood 21-A flood control dam has been approved and is fully executed within ezFedGrants.

The District is currently advertising for RFP's from engineering firms. RFP requests have been sent to engineering firms and are due Friday, May 19 at 4:00 pm.and will be presented at the June 1st Operations Committee meeting.

6.B.3.d. FEMA Funding for Equipment

We received news that FEMA has approved our request to purchase equipment using the Dan Wolfe Jetty funding that wasn't used for lack of a sponsor. The equipment for purchase is for use on our project sites that were damaged by the 2019 flood. Funding may be at a 95% cost-share rate. Equipment on the list: JD 6155 M tractor, JD FC15R Flex wing mower, Ford F-350 chassis 4 x4 SD Super Cab pick-up, Circle D SD flat bed, Klute Dump trailer, Generator, Mule 4010 w/ accessories purchased, Stihl Chainsaws (2) purchased, Bobcat T771 ordered, Stihl pole saw purchased, JD 1550 mower ordered, Klute single axle trailer, Land Pride grading scraper, Land Pride box scraper purchase.

6.B.3.e. Wanahoo Hay Bids

We are asking for bids to hay approximately 124 acres of Wanahoo property. Bids are due May 4 for approval at the May 8th Board meeting.

Bids were received from 7 individuals and opened on May 5. The list of bidders and their bids are attached. The high bids are underlined.

A motion will be needed at Board Meeting to accept the hay bids for approximately 124 acres on Wanahoo property as attached.

6.B.4. ROCK AND JETTY

We have not received any applications or requests for payment.

6.B.5. LAKE WANAHOO

6.B.5.a. Lake Wanahoo Weir Buoy Repair

During the week of April 10th, Heimann noticed that the central buoy at the labyrinth weir had shifted to the west. After investigation, the east anchor line in the lake had broken. At that point, Heimann ordered new buoys for the west line as they were worn and sinking and was in the process of ordering new cable for the anchor lines. On Sunday, April 16th, there were high winds out of the northwest. The stress on the remaining cables was too much and the west anchor cable broke, sending several buoys into the weir and breaking the west buoy cable.

New buoys and cable have been purchased and delivered. Staff has begun building the new cable sections. We are also trying to convert the coordinates of the concrete anchors from the original Wanahoo plans and contact a diver to connect the cables.

Current costs are as follows:
11 buoys from Worthington Waterway Barriers - $3,089.76 (attached)
815' - 1/2" galvanized cable from Ed's Wire and Rigging - $1,450.31

We will be able to repair the damage as soon as we find a diver. In the meantime, staff have installed warning signs at the boat ramp saying that the area near the overflow is dangerous and that they should stay back 50 feet.

6.B.5.b. Lake Wanahoo Annual Permit Sales

For the month of March, the District received $4355.00 in annual park permit revenue. The year by year break down of annual permit sales is listed below.

Month	Monthly Total	YTD
March 2023	$4355.00	$23847.50
March 2022	$5720.00	$27427.50

Month	Monthly Total	YTD
March 2021	$9980.00	$34917.50
March 2020	$5357.50	$27542.50
March 2019	$4455.00	$29090.00

6.B.5.c. Lake Wanahoo Camping Revenue

For the month of March, the District received $4754.57 in camping revenue. The year by year comparison is listed below.

Month	Month Total	YTD
March 2023	$4754.57	$13052.47
March 2022	$5232.26	$12380.84
March 2021	$10462.19	$21402.81
March 2020	$2369.23	$6860.05
March 2019	$2119.08	$6093.08

6.B.5.d. Clint Johannes Education Building

During the month of April, the building was rented 20 times with 3 NRD events. Revenue for the month was $1,275.

6.B.6. INFORMATION AND EDUCATION

6.B.6.a. Information

6.B.6.a.1. Radio & eAds

April's KTIC radio ad featured chemigation permit applications due by June 1 along with prices. This will continue through May.

April's Wahoo Newspaper e-ad featured an ad for all 3 recreation areas. May will feature the chemigation permit application information. Ad sizes have changed so there are now 4 size options. The two smaller options feature the LPNNRD logo, and the two larger options feature the monthly ads similar to what we have done in the past (two new larger sizes attached).

6.B.6.a.2. Analytics

The LPNNRD Facebook/Twitter pages, and the website are the fastest and low-cost ways to get information out to the public. Tracking

analytics are a way to see if people are seeing the information and what ways seem to be most effective. If you are on Facebook or Twitter, please like, follow, share, or retweet the Lower Platte North NRD posts!

Total reach/impressions show how many people saw the post/tweet. Engagements include likes, comments, shares/retweets and link clicks.

	Total Reach	**Engagements**	**Followers**
	6,135	399	1,458
	5,403	5,791	1,450
	8,800	9,065	1,435

	3,663	100	1,427

	Total impressions	**Engagements**	**Followers**
	1,140	56	400
	1,906	94	399
	4,044	213	397

	1,954	95	391
	2,570	102	388

Traffic channels: organic traffic means they use a search engine then choose an option that includes lpnnrd.org, direct traffic means they type in lpnnrd.org directly (or have it bookmarked), and referral traffic is any other traffic not from a search engine or social (such as a link from another site).

Social clicks: 30 from Facebook, 1 from Twitter.
Referral clicks: 36 from NARD, 12 from Visit Nebraska, 8 from the ad on Wahoo Newspaper's site.

6.B.6.a.3. News Channel Nebraska Advertising

We are planning to film on May 9 with NCN for a video to feature all three recreation areas. Production cost is $175 for a :30 commercial with a 3-6 month commitment of airing the commercial. Additional $500 per month airing the commercial.

Proposed Ad Schedule

	June	New Recreation Areas ad	$500
	July	New Recreation Areas ad	$500
	August	TBD	
	September	TBD	

Promotional videos creation budget $3,000
TV Promotion budget $3,500

6.B.6.a.4. Red Thread Contract

Red Thread Creative designed the LPNNRD website in 2018. The majority of the updates on the website at this time are minimal, but in the event we need something beyond our in-house capabilities, they would like us to sign the attached contract for 2023. Upon request, Red Thread will perform maintenance and updates to the LPNNRD website at a mixed hourly rate of $180. An estimate will be provided and LPNNRD will need to approve before any changes will be made.

6.B.6.a.5. Summer Viaduct Printing

	First Bi	$4,800	Plus shipping	Has printed the Viaduct quite a few times (most recently)

6.B.6.b. Education

6.B.6.b.1. Past Events

- **April 5th:** All about bees event. Presenters from Great Plains Master Bee Keeping and Country Road Bees discussed beekeeping and producing varietal honeys. Honey tasting and a talk over backyard habitat for native bees ended the night. 22 adults and 3 children attended. ***Pictures attached.***
- **April 6th**: Coffee Lakeside: Paula Hoppe was our guest speaker and discussed waterfowl identification. 9 adults attended.
- **April 10th:** Students involved in the Shell Creek Watershed Project came to Lincoln for a tour that included: NDEE surface lab; water sciences lab; backyard farmer garden tour; plant growth research greenhouse; and Assurity center/antelope creek/JEO. ***Pictures attached.***
- **April 11th:** Presentation at the Senior Citizen Center on the power of nature-based play and why people of all ages should be spending more time outdoors. 5 adults attended.
- **April 18th:** Survival Club - Campfire starting. Postponed due to state testing.
- **April 19th:** Wahoo Second graders learned about pollinators, plants, and pollination. 77 kids attended. ***Pictures attached.***
- **April 20th:** Fremont Eco-fair for area 4th graders brought in over 400 kids. We talked about pollinators and how important they are. ***Pictures attached.***
- **April 21st:** Wahoo kindergarten classes learned about Earth Day by learning how to recycle. 78 kids attended. ***Pictures attached.***
- **April 23rd:** Community Fishing Event at Lake Wanahoo brought in 5 different families (15 kids and 7 adults). The weather was perfect but water temperatures were still a little cold. 1 carp was caught. ***Pictures attached.***
- **April 26th:**
    - Birding at Sanders County Medical Center Long Term Care. Residents learned about local birds and discussed birding tips and tricks. 8 residents attended.
    - CEO student interview for next school year. Most years, we host a senior from Wahoo High School who is interested in the natural resources field, for the full semester. The students will be interviewed by the business or organization they have chosen prior to starting the internship.
    - Test Your Well Night, Lakeview. Kids tested 10 water samples with a few that were over 10ppm.

6.B.6.b.2. Future Events

- **May 3rd:** Spring Conservation Sensation. Area 5th and 6th graders attend a one-day event learning about all things natural resources. 301 students from 8 schools will be at Lake Wanahoo.
- **May 8th & 9th**: St. Wenceslaus Pre-K classroom will be out to the lake for their end of the year field trip.
- **May 10th**: Classroom visits for Richland and Fisher Schools near Schuyler.
- **May 11th**: Coffee Lakeside: Foraging for wild foods.
- **May 11th:** Survival club.
- **May 15th:** Aquinas Catholic classroom visit - owl pellets.
- **May 16th:** East Butler at Lake Wanahoo.
- **May 18th**: Wahoo 1st grade field trip at Lake Wanahoo.

6.B.7. RURAL WATER SYSTEMS

Attached are an informational brochure and survey that will be going out with the bills this month:
Backflow/Cross connection brochure highlights what a cross connection is and how they can negatively affect public water supply.
Cross connection surveys are completed on a semi-annual basis.

6.B.7.a. Colon System

RWD responded to 23 locate requests; most of these were for OPPD utility pole replacement within Colon.
Routine monthly sampling completed, meters read and bills to be mailed 5/1.

6.B.7.b. Bruno System

RWD responded to 2 locate requests.
Routine monthly sampling completed, meters read and bills to be mailed 5/1.

6.B.7.c. Other

6.C. Water Committee - Action as Required

6.C.1. UNFINISHED BUSINESS

6.C.2. REGULATORY

6.C.2.a. GROUND WATER MANAGEMENT AREA

6.C.2.a.1. Variance in the Hydrologically Connected Area (Limited Development Area)

The committee took no action but wanted staff to discuss this issue with Jovan before the May Board meeting. They want to know what options are available before proceeding. The plan is to have Jovan's opinion at the May Board Meeting and discuss it at the next Water Committee

with options presented.

A new well variance was approved in October 2011 for S4-15N-1E in Butler County with additional acres approved later. Notes from previous discussion of this variance "The original application was 70 acres with the Board approving 35.67 acres at the Jan. 2012 Board Meeting
This irrigation well (G-161259) has been reporting water use reports since approval, with the 2022 water use at 7.08 inches/acre and the previous 7 years averaging 2.76 inches/acre.
Attachments show a map of the current irrigation areas along with the LPNRD approval letter and map from 2012.

Additional staff comments:
I've went through the folders but don't find any reference, condition, regarding the field berms. Comments on the berms were discussed on the tape transcripts at the January 2012 Board Meeting.

- First Variance LPN-V-011-0109 - New water well variance [for 145 acres]
- Well Permit LPN-011-1213 was filed within 90 days of (above) variance approval
- 2nd Variance LPN-V-0125-0147 - Expanded Water Use Variance from Existing Well [for additional 35.67 acres]

Email comments from Joe Peterson: Pictures attached.
"Hello,

I've attached the requested pictures of the water/silt runoff, and pivot.

There are pictures of the dump truck getting stuck ~2400' from the neighboring fence line where the runoff enters, at the beginning of last August during the drought.

There is also a picture of a tree which was recently unearthed by a heavy rain, but was buried several feet down from runoff from the northwest corner. This tree is ~1300 feet east of the northwest fence corner. This is the spot where the fence has also been buried and we had to install new fence on top of all the new soil.
Thank you,"

Joseph R Peterson - CWI
Biological and Agricultural Engineer
Doomsday Diesel LLC - Owner

6.C.2.a.2. Well Permit Program

6.C.2.a.3. AGP Well Status Conversion

AGP in David City has irrigation well G-001157 and would like to convert it to a commercial well. NeDNR is asking for NRD approval before approving the modification. Should the condition of a flow meter with an annual water use report be required?

6.C.2.a.4. Supplemental Well Permit

Kevin Baker Jr. and Lisa Johnson are requesting a supplemental well to G-016279 in SW NW S19-17N-3E, Colfax County. This field is in the Schuyler-Richland Nitrogen Management Area. The existing well is registered at 700 GPM but has been declining after being sleeved. A well was dug for a replacement well but only test pumped at 200-250 GPM. There would not be any increase in irrigated acres.

6.C.2.a.5. Flow Meter Approved List

LPNNRD draft policy on approved water flow meters is attached.

The committee discussed the draft policy and decided to keep with the current flow meter policy. The current policy only allows mechanical propeller meters within the District.

6.C.2.a.6. Cost Share Programs

6.C.2.a.6.A. Flow Meter Maintenance Program

Tri-City has completed their third year of the routine inspection cycle in Zone 3, which is the northwestern part of the district, and will be finishing up with repairs sometime within the next two weeks. They serviced approximately 350 flow meters. There are 4 zones that make up the 4 year maintenance cycle. The meter maintenance zone map is attached. Tri-City also provides a final report that includes pictures of each flow meter before and after the service, along with the flow meter reading.

6.C.2.a.7. LPNNRD Operator Certification

Staff has been working on the list to identify individuals that have wells, tracts of land or farms within the LPN District. The initial list had 698 people but now is at 243 from 2019-2023. The next step is to start contacting people for additional confirmation.

6.C.2.a.8. Lower Platte River Basin Water Management Plan Coalition (LPRBC)

The Board Meeting was held April 12 in Lincoln. The Board recommended that each member of the Coalition continue with the $10,000 annual dues and approved the annual V-IMP reports. The dues will be utilized for projects like drought modeling, stream depletion factors, recharge calibrations etc. The technical group looks at projects that will benefit the coalition and then brings the ideas to the NRD managers with the Board giving final approval.

Presentations were given by LWS on the new proposed well field, Perkins canal and how the JEDI funds are being distributed.

Attached is peak season depletion from each NRDs along with LPNNRD annual report.

6.C.2.b. CHEMIGATION

As of today 4/26/2023, the office has received 279 renewals and 4 new permit applications for a current total of 283. The inspection schedule thus far includes 4 new permits and 91 active renewal permits that were last inspected in 2020.

6.C.2.c. GROUND WATER ENERGY LEVELS

Staff presented the spring water level information to the Committee and discussed the areas of concerns. The committee was shown some graphs comparing 2012-13 to 2023, with 2023 water levels higher than 2012-13.

Attached is information on spring water levels with graphs from the 4 regions. The map shows the regions and sub-regions along with monitoring wells locations. A spring 2022 to Spring 2023 comparison is attached with 91.5% of the wells lower this year.
Staff have attached information from areas of concern within the District. These are areas beyond SQS #1 and SQS #2, which are still a concern.

6.C.2.d. LIVESTOCK WASTE PERMITS

The LPNNRD has received # 0 livestock permit applications from DEQ since the last Water Committee meeting.
The Board did past a motion to stay neutral on livestock facilities and the NRD responsibility is with the permitting of high capacity wells. Manure application is usually treated as any commercial fertilizer, which soil sampling and manure analysis should be conducted and handled by NDEE.

Name	Livestock	Type of Permit	Le

Description of permit application

6.C.3. GROUND WATER PROGRAMS

6.C.3.a. DECOMMISSIONED WELL PROGRAM

6.C.3.a.1. Well Estimates

new wells has been reviewed and approved for decommissioning since the last Committee meeting.

Well Owner	Type of Well	Cost Share Estimate
Paul Thorson	Domestic	$287.25
Todd Went	Hand-dug	$603.05
Dean Vavricek	Irrigation	$894.38
Dorothy Juranek	Irrigation	$1211.82
Dorothy Juranek	Irrigation	$1211.82

6.C.3.a.2. Plugged Wells

wells have been plugged, reviewed, and ready for cost share payment approval this month.

6.C.3.b. LOWER PLATTE NORTH NRD GROUND WATER STUDIES

6.C.3.b.1. Phase Area Update

Cost share update for the Schulyer-Richland Nitrogen Management Area. Attached is a complete list of Applications approved in April 2023 along with the running total below.

- 46 Water Flow Meter Applications Approved for $46,000 ($170,000 in Grant)
- 2 Gravity to Pivot and 2 Gravity to SDI Applications Approved for $40,000 ($50,000 in Grant)

- 3 Cover Crop Applications Approved for 1,190 ($24,000 in Grant)
- 4 Soil Moisture Sensors Applications Approved for $3,000 ($7,500 in Grant)

The firm LRE is progressing on completing the data for GIS files on the bore holes and AEM flights. This contract for $56,000 was approved in February 2023 with a completion date of August 2023. Attached is an invoice for $10,357.40 from LRE. This is part of the WSF BMP grant with a 60-40 split.

The Committee was OK with allowing one flow meter per irrigation system. They also discuss manure credit for calculating agrononomic rates. Manure credit can be utilized 3 years after application with smaller credits given each year.

Rules pertaining to Phase 4.

Rule 3 Fertilizer Application On All Soils
Split application of commercial nitrogen fertilizer is required with 80 pounds maximum applied before May 1.

Rule 4 Nitrogen Recommendations
Nitrogen applications must not exceed District Recommendations. Application data may be required to verify the amount of nitrogen that is applied to the field(s) within the management area.

Rule 5 Well Metering
Flow meters are required on all high capacity wells.
**Condition from NRD Approved Meter List
• A flow meter must be dedicated to each well. (Exceptions will be made if several wells are used to provide enough water to operate a single irrigation system such as a pivot or gated pipe. In these situations, a flow meter shall be placed at the central location where all the water can be metered).

**Is it OK to approve 1 water flow meter per irrigation system?

Rule 6 Acre-Inch Allocations
A rolling acre-inch allocation, in 3-year increments, will be put into place by the District and will be based on the aquifer subarea, crop planted, irrigation distribution system, percent decline of the aquifer, water use of the aquifer, climatic conditions, net corn crop requirements, and discretionary factors.

Rule 7 Staff Assistance
NRD Staff will work directly with individuals on Best Management Practices. Staff may spot check fields before May 1 by collecting a soil sample to monitor Rule 3.

6.C.4. SURFACE WATER PROGRAMS

6.C.4.a. STATE LAKES, FOR THE WEEK OF

Hello, All you Beachgoers!

Beach Watch will begin next week! My name is Justin Haas and I'll be taking over Beach Watch from Mike Archer after his many years of service to the program. Thanks Mike! NDEE and our sampling partners are geared up for another season of beach monitoring for microcystin and *E. coli* bacteria. Sampling will be occurring at 55 beaches on 50 different lakes across the state of Nebraska from May 1st to September 30th. There are a few changes in beaches that will be sampled this year. Valentine Mill Pond, Summit Lake, and Wagon Train Lake will not be sampled this year. Valentine Mill Pond will not be sampled due to sedimentation of the pond. Summit Lake and Wagon Train Lake will not be sampled due to lake renovations. Ogallala Beach at Lake McConaughy and Nunda Shoal at Calamus Reservoir will be added to the sampling list.

A "Health Alert" will be issued at beaches when the microcystin exceeds 8 ppb. When *E. coli* bacteria levels are measured above 235 colonies/100ml of sample a "Health Alert" will not be triggered, but conditions are considered a high risk for illness if water is ingested. Unlike with dangerous levels of HABs, signs are not specifically posted and beaches are not closed for high bacteria levels. This is primarily because bacteria values change quickly while microcystin levels are more persistent and can remain for several weeks.

If you would like more information on HABs follow the links below:

NDEE HABs Fact Sheet:

6.C.5. OTHER

GMDA Summer Conference is July 10-14 in Santa Fe, NM. Interested in attending, please let staff know.

6.C.5.a. COMMENTS FROM THE PUBLIC

6.D. Projects Committee - Action as Required

6.D.1. UNFINISHED BUSINESS

6.D.2. SWCP

6.D.2.a. SWCP Application Approvals

The NRD was contacted by Jay Wemhoff of Platte county about assistance with renovating his windbreak. The current NRD policy allows for up to $1000 cost-share for removal/site prep of the area. He plans to remove and prep the area this year and re-plant next spring.

6.D.2.b. SWCP Payments

6.D.2.c. SWCP Cancellations

6.D.3. WATERSHEDS

6.D.3.a. Shell Creek Watershed

6.D.3.a.1. SCWIG - NET/319 Projects

Our last SCWIG meeting was on 4/3/2023 with lots of discussion regarding ideas for urban projects and agricultural projects that Bill has planned. The upcoming Soil and Water Conservation Society conference in Des Moines on August 6-9 was also discussed since our Symposia and poster presentation requests were approved. Seven SCWIG monitoring students attended the Lincoln tour on April 10th. Lacey is working on a summary of the tour for the upcoming Viaduct publication. NDEE is working with the schools to initiate summer monitoring. The next SCWIG meeting is scheduled for June 20th, 10:00-12:00, Columbus NRCS office.

Bill Bos submitted an estimate for a grade stabilization project along Shell Creek on Tom Sprunks property. The work planned would include grading shaping, rip-rap placement, and a corrugated metal pipe for spillway.
Total estimated cost is $19,144.00. 75% = $14,358

Bill Bos submitted two applications for new stock well, pump, and tanks in Colfax county for Fred Siefken, and in Platte county for Arden Saalfeld. The application covers new well, solar pump, and tanks.
Siefken total estimated cost is $27,929.29. 75% = $20,946.97
Saalfeld total estimated cost is: $23,877.33 75%= $17,907.99

6.D.3.b. Wahoo Creek Watershed

6.D.3.b.1. Wahoo Creek Dam Site Planning Update

6.D.3.b.1.A. Olsson Design Update and Invoice

Attached are the current invoices, and progress report, from Olsson for Wahoo Creek dam designs.

Invoice 453748: First 3 sites: $9,221.66.
Invoice 453749: Second 7 sites: $77,867.77

Olsson submitted 60% design updates to NRCS for review. Most of work has shifted to second 7 designing and geotech analysis. On first 3 sites the goal is to have completed 90% review comments by end of May and have USACE permit submitted then as well.

6.D.3.b.1.B. NeDNR Agreement JEDI Funds

Over the past month Danielle Allen, Olsson Land Acquisitions, Dan Lightbody, Olsson Engineer, and Sean Elliott met with all the landowners impacted by Wahoo Creek Sites 26A, 26B and 27. The conversations were meant to provide a opportunity for the landowners to ask questions about the process moving forward. Danielle Allen explained the upcoming appraisals and how that would work into the land rights easements purchase. Dan Lightbody was available to answer questions regarding specific dam engineering. Elliott represented the NRD and provided a history of the watershed plan, as well as, how the NRD will operate and maintain the dams in the future.
Overall the meetings went well and we plan on moving into appraisals the week of 5/1. Great Plains Appraisals is contracted for the appraisals and will also meet with all landowners through their process.

NeDNR informed the NRD that our project will be allowed to utilize permanent easements. We should see an agreement amendment in the next few weeks reflecting this change.

A motion will be needed at Board Meeting - To authorize Manager Gottschalk to sign Amendment #1 to the NRDNR Contract #1359 after Legal Counsel review.

Attached is the latest invoice for contracted work by Olsson for this phase of land rights acquisition.
Invoice 455173: $4,565.17

6.D.3.b.2. Wahoo Creek Watershed Water Quality Plan - 319

6.D.3.c. Skull & Bone Creek

The PIFR (Preliminary Investigation Feasability Report) request letter and required information was submitted to NRCS on 4/20/2023. The state office responded that it will likely be a while before they take any action on new PIFR's as they are working to ensure existing projects are progressing in an orderly fashion.

The headwaters of Skull and Bone creek (see attached map) are priority areas in our Lower Platte River Corridor Alliance - Water Quality Management Plan. As such, this area is eligible for 319 funds similar to Shell Creek contingent on a plan update. The three NRDs are meeting on May, 4th with NDEE to discuss this update and potential future projects.

6.D.4. JOINT WATER MANAGEMENT ADVISORY BOARD (JWMAB)

6.D.4.a. East Fremont/Elkhorn Township Drainage - FEMA HMPG

A Project Open House occurred on March 30th with 44 individuals signing in. The project website has received 191 views. Responses were all positive.

A progress meeting occurred on 4/26. For multiple reasons, clearing and reestablishing the existing ditches beyond the detention basins will not happen as a part of this project. We will need our financial and maintenance commitment to the partners in the next few months. Staff intent is to develop a recommended motion at our next committee meeting on June 1st for approval at June 12th Board Meeting. As of now, partners are planning to attend the June 1st committee meeting. Partners would also like to discuss rehabbing and long term maintenance needs for several of the ditches.

6.D.4.b. West Fremont - FEMA BRIC

A progress meeting occurred on 4/26 where six potential structural projects were briefly reviewed along with non-structural options. Improvements to the Farmland Levee will likely progress along with non-structural options. Weakness in the Fremont Cutoff ditch near the rail road/highway 30 crossings will be further investigated for potential improvements.

6.D.4.c. Rawhide Creek Watershed - NRCS WFPO

Progress meeting on 4/17 included updates on the status of potential alternatives and incremental analysis along with landowner and field work updates. Meetings with landowners have gone well and there are a few more that will be contacted via certified mail before field work resumes in May.

6.D.5. WOLFE JETTY

6.D.6. LESHARA DRAINAGE IMPROVEMENT

Attached is an updated request #2 for $1,235.34. This leaves a balance of $58,819.35 of the $62,000 approved at the July 2021 Board Meeting.

6.D.7. EROSION AND SEDIMENT RULES AND REGULATIONS

On 4/19 NRD was contacted by a landowner concerned about the installation of

a underground tile outlet placed near his fence. Elliott met with the landowner, listened to his concerns and inspected the site.
The outlet was placed approximately 3-4 feet on the neighbor's property on newly graded surface. The work was not designed, certified, or cost-shared on by the NRD or NRCS. In regards to LB 474 (NE Erosion Sediment Control Act) the installation of storage terraces will reduce erosion on neighboring field the location of the tile outlet could affect the fence after runoff events.
Elliott contacted the landowner to discuss the neighbors concerns. The landowner is willing to work at resolving the issue. Two scenarios that we're working through: extending the tile north to property line and existing tile outlet, or reshaping, armoring current outlet.

6.D.8. OTHER

7. Additional Action Items

7.A. Monitoring Well Equipment

We have received three quotes for replacement of our outdated data logger equipment and cables. See attachment.

A motion will be needed at Board Meeting to approve the three quotes as attached from In-Situ totaling $5,110.60 for replacement of outdated Level Trolls for our monitoring wells.

8. Approval of Bills Pending

9. Consent Agenda Adoption

10. Comments from Directors/Guests

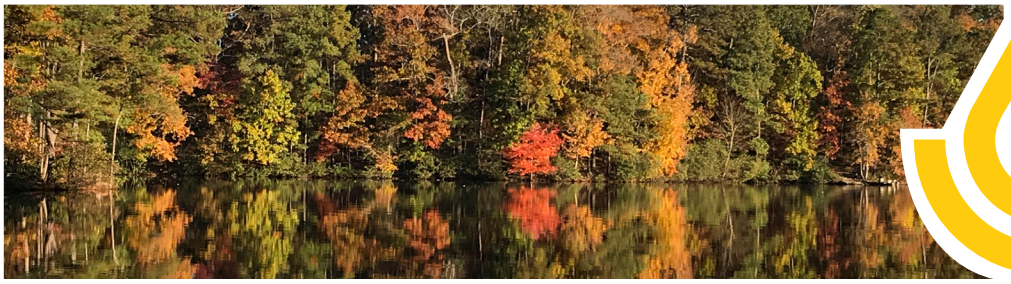

11. Meeting Establishment/Adjournment

NOTE: The agenda is on file at the LPNNRD office and may be changed up to 24 hours prior to the meeting as scheduled.

USDA United States Department of Agriculture

Conservation Update

Report to LPNNRD Manager

District Conservationist: Mark Walkenhorst

Wahoo: District Secretary, Marla Milliken
Reource Conservationist, Jami Thoene
Soil Conservationist, Peyton Harsin
Soil Conservationist, Don Treptow
Soil Conservation Technician, Pearl Smith-Mayar
Josh Charles, Civil Engineering Technician
Pheasants Forever Biologist, Eil Sanders
NRD Technician: Adam Brockman
Contract Technician, Megan Pernicek
Compliance Specialist, Becky Pieper
WRP team 6 coordinator: Patrick Lantis
Urban Conservationist: Brach Johnson

David City: District Secretary, Kim Piitz
Resource Conservationist: Vacant
Contract Technician, Cierra Fischer
Soil Conservationist, Ben Barlean

Fremont: District Secretary, Jessica Marty
Resource Conservationist, Mike Boardman Soil Conservationist, Ryan Jenkin
Contract Technician: Ashley Keeler

Schuyler: District Secretary, Kris Miller
Resource Conservationist: Jenna Kampschnieder
Soil Conservationist, VACANT

Columbus: District Secretary, Jeri Rosno
Resource Conservationist: Chelsea Clark
Program Assistant: Melissa Foreman

FY2023 annual compliance reviews has started for 2023. Notifications have all been sent to the individual farms (tracts) that will be selected for this crop year. 144 will be reviewed in the five-county area for 2023. The breakdown by county is as follows. Butler - 23 tracts, Platte - 33 tracts, Dodge - 18 tracts, Colfax - 24 tracts and Saunders - 46 tracts. Regarding Conservation Compliance, a producer must comply with the Highly Erodible Land Conservation (HELC) and Wetland Conservation (WC) provisions in order to be eligibility for most USDA programs. The producer agrees that they will not:

- Produce an agricultural commodity on highly erodible land without an adequate conservation system;
- Plant an agricultural commodity on a converted wetland;
- Convert a wetland to make possible the production of an agricultural commodity.

NRCS is responsible for providing program participants technical assistance and determinations to assist them in complying with these provisions. Programs effected by conservation compliance are:• FSA loans and disaster assistance, payments • NRCS and FSA conservation program benefits and • Federal crop insurance premium support.

Programs, staff continues to obligate contracts with the Conservation Stewardship Program (CSP), Environmental Quality Incentive Program (EQIP) Classic EQIP, Conservation Incentive Contracts and the Inflation Reduction Act funds. At this time the LPNNRD staff in the five counties have obligated 73 contracts. We have obligated 62 EQIP (Classic) contracts as of today. Of the 62 contracts, 30 contracts address soil erosion and soil quality concerns, 20 contracts dealing with irrigation concerns, 4 pasture concerns, 2 wildlife concerns with the remaining 6 contracts obligated to Urban and small scale ag. concerns. I expect another 13 applications will be obligated under EQIP classic for the LPNNRD in 2023 for a **total of 75 contracts in the LPNNRD area.** We also, will have 2 EQIP - Conservation Incentive Contracts obligated and 20 to 24 EQIP- Inflation Reduction Act applications. For the Conservation Stewardship Program (CSP) 9 contracts have been obligated (5 in Butler, 3 in Platte and 1 in Colfax). 3 applications for CSP, classic and the inflation reduction act have been received and expect to be obligated.

Lower Platte North Local Workgroup recommended some of the following actions for next fiscal year concerning EQIP and the funding of applications. Continue to emphasis and prioritize young/beginning farmers, make it easier to qualify, with simplifying the application process. Reduce the time it takes to apply and obligate a contract. Fund Pools should be set up by land use (Cropland, Grassland, etc.) instead of by Resource Concern. This would allow for a more diverse resource concerns being addressed and add a question that give points to amount of resource concerns addressed and give points to efficiencies and practices. In addition, for soil erosion and soil quality concerns, add incentives for soil carbon credits, increase emphasis on critical areas such as streams and creeks. Increase dollars per acre for a producer who wants to diverse his/her crop rotation and if a low number of applications, we should fund low priorities. Last item was to eliminate payment caps on cover crop scenarios.

Natural Resources Conservation Service

USDA is an equal opportunity provider, employer, and lender.

Manager's Report – May 8, 2023

- Staff continues to work with Nebraska NRCS on the rehabilitation of our Cottonwood Creek site 21-A structure through the PL-566 Watershed program. We have met several interested firms with the RFP process and requirements, so we are expecting a good group of RFP submittals by the May 22nd deadline. Plans are to review all submitted RFPs and have a recommendation ready by the Operations committee meeting on June 1st.
- Our office is gearing up for a very busy summer work season. Our summer interns will be busy finishing up our tree plantings, and dam maintenance projects in the Operations department and water sampling, Chemigation inspections and other water related projects in our Water department. Wanahoo summer staff has also been hired and will begin their work maintaining our Wanahoo Recreation Area. Please stop out when you get a chance this summer and see how great the park looks.
- Management is working with Olsson and Great Plains Appraisal, Inc. as we move forward with land rights and easements on the first three sites of our Wahoo Creek Project (26A, 26B & 27).. Sean Elliott is attending all meetings with landowners and Great Plains to provide an NRD presence and voice as we proceed with this important project component.
- Olsson continues to keep management updated as they move through the USACE Wahoo Creek permit process. Plans are requesting one blanket permit for all sites with the potential of proceeding with a permit request for 26A, 26B & 27, if needed.
- May is an extremely busy time for our Information and Education department. Lacey is preparing for the next edition of the "Viaduct" and keeping up with the very busy graduation party schedules for the education building. The interest in building rental continues to be amazing and there is no Saturday available until November. Sydney's Education program schedule is packed this month with Conservation Sensation, class field trips and other outdoor education programs continuing well into June.
- Staff continues to work with FEMA to close out our projects related to the 2019 event. The work below Wanahoo is complete and we have received notification our scope changes for purchasing equipment with the FEMA 428 funds have been approved and we can now proceed with ordering. We will work to close out all FEMA projects in the months to come allowing us to request our final reimbursements on all projects.
- I will be conducting all annual staff evaluations this month which plays into the merit portion of individual's pay raise.

Have a great month and STAY SAFE!

-Eric Gottschalk – General Manager, Lower Platte North NRD

LOWER PLATTE NORTH NRD MINUTES
BOARD MEETING
April 10, 2023

The regular monthly meeting of the Lower Platte North NRD Board of Directors was called to order at 1:30 p.m. at the NRD Office, Wahoo, NE on Monday, April 10, 2023.

1. NOTICE OF MEETING

The agenda and supporting documents are available on the district's website – www.lpnnrd.org. A copy of the Nebraska Open Meetings Law has been posted on the NRD's website.

The advanced notice of our April 10, 2023, board meeting was posted on the Lower Platte North NRD website and posted in the Wahoo Newspaper on March 30, 2023.

Chair Thompson informed those present that a copy of the "Open Meetings Act" is posted for public viewing.

Pledge of Allegiance

2. ROLL CALL - INTRODUCTIONS

DIRECTORS PRESENT AND CONSTITUTING A QUORUM:

Engel	Hilger	Johnson, Duane
Johnson, Jerry	Kavan	Lawrence
Meduna (arrived 1:48)	McKnight	Olson
Pollard	Saalfeld	Sabatka
Saeger	Tonnies	Thompson

DIRECTORS ABSENT

Bailey (Shell Creek Tour)	Birkel	Seier (Shell Creek Tour)
Yosten		

STAFF AND GUESTS:

Gottschalk	Breunig	Heimann
Andersen	Lausterer	Elliott

3. APPROVAL OF AGENDA

4. COMMENTS - ADVISORS/GUESTS/DIRECTORS

a. Guest Comments

b. NRCS Report

Mark Walkenhorst was present to give the NRCS Report.

c. NARD Report

Bob Hilger gave the NARD report.

d. NRC Report - None

e. Manager Report

Gottschalk reviewed his written report.

f. Education Program

Gottschalk reviewed the first set of General Operating Policies with the Board.

5. APPROVAL OF MINUTES

Johnson, J. made the motion, seconded by Saalfeld, to approve the minutes from the March 13, 2023, Board Meeting. Motion carried on consent agenda.

6. REPORT OF STANDING COMMITTEES

A. EXECUTIVE COMMITTEE REPORT

1. UNFINISHED BUSINESS - None

2. Meetings

a. Pending

1. GMDA Summer Conference

Johnson, J. made the motion, seconded by Saalfeld, to send up to two staff and two directors to the GMDA Summer Conference July 10-13 in Santa Fe, New Mexico. Motion carried on consent agenda.

2. NARD Washington DC Trip- Update Given

b. Reports – None

3. Management Items

a. Director Absences

Johnson, J. made the motion, seconded by Saalfeld, to approve Director Saalfeld's absence from the January Board Meeting. Motion carried on consent agenda.

b. Monthly Education Program – Update Given

c. Lake Level Management – Update Given

d. FFA Chapters and Nitrate Testing

Johnson, J. made the motion, seconded by Saalfeld, to appoint Jerry Johnson as LPNNRD representative when working with FFA Chapters and Nebraska Education Board for Nitrate Testing Curriculum. Motion carried on consent agenda.

e. Wanahoo Property Discussion – Update Given

4. Equipment - None

5. Personnel

a. NRD/NRCS Conservation Technician

Johnson, J. made the motion, seconded by Saalfeld, to approve the General Manager's hire of Adam Brockmann to the position of NRD Conservation Technician at an annual salary of $40,000. Motion carried on consent agenda.

b. GIS/Grant Specialist

Johnson, J. made the motion, seconded by Saalfeld, to approve the General Manager's hire of Drew Ten Bensel as LPNNRD's GIS/Grants Specialist at an annual salary of $55,000 with a tentative start date of May 29, 2023. Motion carried on consent agenda.

6. Finance

a. Approval of Financial Reports
Johnson, J. made the motion, seconded by Saalfeld, to approve the February Financial Reports as presented. Motion carried on consent agenda.

b. Approval of Managers Expenses
Johnson, J. made the motion, seconded by Saalfeld, to approve Manager Gottschalk's time and expense sheets as attached to the Executive Committee Minutes. Motion carried on consent agenda.

c. Accounts Over 90 Days - Update Given

d. Great Western/Interstate Bank Signature Card Update
Johnson, J. made the motion, seconded by Saalfeld, to add Manager Eric Gottschalk and Assistant Manager Ryan Chapman to the Signature Card at First Interstate Bank and authorize Breunig to make inquiries on the CD. Motion carried on consent agenda.

Johnson, J. made the motion, seconded by Saalfeld, that the April LPNNRD Executive Committee Minutes be received and placed on file. Motion carried on consent agenda.

B. OPERATIONS COMMITTEE REPORT

1. UNFINISHED BUSIINESS – None

2. WILD NE AND OTHER PROGRAMS – Update Given

3. OPERATION AND MAINTENANCE & OTHER ITEMS

a. Wanahoo Dam Stilling Basin (FEMA)
Saalfeld made the motion, seconded by Johnson, J., to pay ME Collins the Pay App #4 amount of $39,923.02 plus 50% of the retainage $26,758.23 for a total of $66,681.25 for work on the Wanahoo Stilling Basin. Motion carried all members present voting aye.

b. Wanahoo Relief Well Reconditioning - Update Given

c. NRD Owned Thomas Lake Lots & Clear Creek Levee – Update Given

d. District Mowing Rates
Johnson, J. made the motion, seconded by Saalfeld, to raise the district's custom mowing rate to $75/tractor hour. Motion carried on consent agenda.

e. Lake Wanahoo Lake Level Management – Update Given

f. National Guard Camp Fuse Plug Reimbursement to LPSNRD
Johnson, J. made the motion, seconded by Saalfeld, to reimburse Lower Platte South NRD $11,713.32 for their share in the repair of the Fuse Plug because of Federal and State funding increases. Motion carried on consent agenda.

g. Rehabilitation of Cottonwood 21-A NRCS Contract
Johnson, J. made the motion, seconded by Saalfeld, to sign a design and planning application for the rehabilitation of Cottonwood 21-A with NRCS so the district can move forward with the RFP process. Motion carried on consent agenda.

Sabatka made the motion, seconded by McKnight, to approve signing the design contract with NRCS after Legal Counsel approval and proceed with the RFP process. Motion carried all members present voting aye.

4. ROCK AND JETTY – None

5. LAKE WANAHOO

a. Lake Wanahoo Archery Range – Update Given

b. Lake Wanahoo Future Developments – Update Given

c. Lake Wanahoo Permit Sales - Update Given

d. Lake Wanahoo Camping Revenue – Update Given

e. Clint Johannes Education Building Rentals – Update Given

6. INFORMATION & EDUCATION

a. Information

1. Radio and eAds – Update Given

2. Analytics – Update Given

3. Shell Creek Watershed Student Monitoring Group Scholarships

Johnson, J. made the motion, seconded by Saalfeld, to approve the following Shell Creek Watershed Monitoring Group Scholarship applications received from Mara Ranslem, Eliza Bailey and Kathryn Novacek. Motion carried on consent agenda.

b. Education – Update Given

1. Past Events - Update Given

2. Future Events – Update Given

7. RURAL WATER SYSTEMS

a. Colon – Update Given

b. Bruno – Update Given

c. Other – None

Johnson, J. made the motion, seconded by Saalfeld, that the April LPNNRD Operations Committee Minutes be received and placed on file. Motion carried on consent agenda.

C. WATER COMMITTEE REPORT

1. UNFINISHED BUSINESS

2. REGULATORY

a. GROUNDWATER MANGEMENT AREA

1. Conditional Contract Update in the Restricted Development Area

Johnson, D. made the motion, seconded by Meduna, to approve the update to the conditional policy for LPN-V-015-0427 as attached to the Water Committee Minutes. Motion carried.

AYE: Engel, Hilger, Johnson D., Kavan, Lawrence, Meduna, McKnight, Olson, Pollard, Saalfeld, Tonnies

NAY: Johnson J., Sabatka, Saeger, Thompson

2. Land Applications Management – Update Given

3. Well Permit Program – Update Given

a. John Larson Well Permit Application

Johnson, J. made the motion, seconded by Saalfeld, to approve a new well permit John Larson in the SE¼-NW¼-S24-T22-R6W, Boone County with a required flow meter. Motion carried on consent agenda.

b. Charles Emanuel & Sons Inc. Supplemental Well Permit Application

Johnson, J. made the motion, seconded by Saalfeld, to approve a supplemental well permit for Charles Emmanuel & Sons in the SE¼-SW¼-S28-T18N-R6E, Dodge County with the requirement of a flow meter. Motion carried on consent agenda.

4. Special Quantity Subareas

a. Darla Rosendahl Expansion Request

Hilger made the motion seconded by Saalfeld, to approve a variance for expanding acres with an allocation for Merlin Groteluschen in ethe NW¼-NW¼-S8-T19N-R1E, Platte County for additional 34.14 acres with a rolling allocation on well G-166098 of 21.77-acre inches. Motion carried all members present voting aye.

5. Cost Share Programs

a. Flow Meter Maintenance Program – Update Given

6. LPNNRD Operator Certification – Update Given

7. Lower Platte River Basin Water Management Plan Coalition (LPRBC) – Update Given

b. CHEMIGATION – Update Given

c. GROUND WATER ENERY LEVELS – Update Given

d. LIVESTOCK WASTE PERMITS – Update Given

e. GROUNDWATER MODELING PROJECT

Johnson, J. made the motion, seconded by Saalfeld, to approve and authorize Board Chairman to sign the first amendment of the Interlocal Agreement of the Lower Platte Basin Groundwater Modeling Project as attached to the Water Committee Minutes. Motion carried on consent agenda.

3. GROUND WATER PROGRAMS

a. Decommissioned Well Program

1. Well Estimates – Update Given

2. Plugged Wells – None

b. LOWER PLATTE NORTH NRD GROUND WATER STUDIES

1. Phase Area – Update Given

2. Cost-Share for Reverse Osmosis (RO) Units – Update Given

3. Soil Moisture Sensors – Update Given

4. Groundwater Quality – Update Given

5. Groundwater Management Plan – Update Given

4. MONITORING WELLS EQUIPMENT

Johnson, J. made the motion, seconded by Saalfeld, to approve payment of $1,596 to In-Situ for a new datalogger. Motion carried on consent agenda.

5. SURFACE WATER PROGRAMS – None

6. OTHER

a. Comments from the Public – None

Johnson, J. the motion, seconded by Saalfeld, that the April LPNNRD Water Committee Minutes be received and placed on file. Motion carried on consent agenda.

D. PROJECTS COMMITTEE REPORT

1. UNFINISHED BUSINESS – NONE

2. NEW DIRECTOR INTRODUCTION

3. SWCP

a. SWCP Application Approvals

Johnson, J. made the motion, seconded by Saalfeld, to approve the following SWCP Tree Planting Applications for cost-share: Angie Fuhlrodt – 258 Trees - $483.75; Bill Zumbrennen – 207 Trees - $388.13; Kevin Indra – 207 Trees - $388.13. Motion carried on consent agenda.

b. SWCP Payments - None

c. SWCP Cancellations – None

d. Wahoo Creek Cost-Share Approvals – None

4. WATERSHEDS

a. Shell Creek Watershed

1. Shell Creek Implementation – 319 – Update Given

b. Wahoo Creek Watershed

1. Wahoo Creek Dam Site Planning Update – Update Given

a. Olsson Design Update and Invoice – Update Given

b. NeDNR Agreement JEDI Funds – Update Given

2. Wahoo Creek Watershed Water Quality Plan – 319 – Update Given

5. JOINT WATER MANAGEMENT ADVISORY BOARD

a. East Fremont/Elkhorn Township Drainage – FEMA HMPG – Update Given

b. West Fremont – FEMA BRIC – Update Given

c. Rawhide Creek Watershed – NRCS WFPO – Update Given

d. Lower Platte River General Investigation – Update Given

6. HAZARD MITIGATION PLAN – None

7. MORSE BLUFF LEVEE – None

8. WOLFE JETTY – None

9. LESHARA DRAINAGE IMPROVEMENT – None

10. EROSION AND SEDIMENT RULES AND REGULATIONS – None

11. OTHER - None

Johnson, J. made the motion, seconded by Saalfeld, that the April LPNNRD Projects Committee Minutes be received and placed on file. Motion carried on consent agenda.

7. ADDITIONAL ACTION ITEMS - NONE

8. BILLS TO BE APPROVED

Pollard made the motion, seconded by Engel, that all bills be approved, and warrants be drawn in payment of the same. Motion carried all members present voting aye.

9. CONSENT AGENDA ADOPTION

Johnson, J. made the motion, seconded by Saalfeld, to approve the April Consent Agenda. Motion carried all members present voting aye.

10. COMMENTS FROM DIRECTORS/GUESTS

11. MEETING ESTABLISHMENT AND ADJOURNMENT

The May Board of Directors Meeting will be held on Monday, May 8, 2023, 6:00 p.m. Meeting adjourned at 4:15 p.m.

Discussion on all agenda items that have “Update Given” can be found in corresponding Committee Minutes.

The undersigned, the duly elected and acting Secretary of the Lower Platte North Natural Resources District (the “District”), hereby certifies that the foregoing is a true and correct copy of the minutes of the Meeting of the Board of Directors of the District held on April 10, 2023, that all of the matters and subjects discussed at the meeting were contained in the agenda for the meeting, kept continually current and readily available for public inspection at the principal office of the District during normal business hours, and except for items of emergency nature, the agenda was not altered later than twenty-four (24) hours before the scheduled commencement of the meeting; that at least one copy of all reproducible material discussed at the meeting was available at the meeting for examination and copying by members of the public; that the above minutes were in written form and available for public inspection within ten working days or prior to the next convened meeting, whichever occurred earlier; and, that reasonable efforts were made to provide all news media requesting notification of the meeting and of the time and place of said meeting and the subjects to be discussed at said meeting.

Re: NRD Basin Tour | June 12-13, 2023
Date: April 3, 2023

The NARD, in partnership with the Central Platte NRD, is excited to announce that registration is open for the 2023 NRD Basin Tour. The tour will be based out of Kearney on June 12-13.

Join us as the Central Platte NRD leads us on a two-day tour showcasing several NRD projects across the Central Platte Valley. Attendees will get an expert-guided tour of many unique projects that work to manage and protect the region's natural resources.

Below is a short version of the tentative two-day agenda:

Monday, June 12th

12:00 p.m. - La Quinta Inn & Suites by Wyndham Kearney - 108 3rd Ave, Kearney, NE. The bus will be departing from the La Quinta. Lunch will be provided.

Monday's portion of the tour will include stops at projects across the eastern portions of the Central Platte NRD before concluding with dinner and returning to the hotel. All expenses are included with your registration fee.

Tuesday, June 13th

8:00 a.m. - Following breakfast at the hotel, the bus will depart for destinations across the western portions of the Central Platte NRD before returning to the hotel no later than 3:30 p.m. (CDT).

Monday and Tuesday Tour Highlights

- WFPO Project Sites
- Prairie Silver Moores Creek Flood Control
- Wood River Flood Control
- Groundwater Management Projects
- Outdoor Learning Center
- Precision Ag Presentations
- Surface Water Canal Recharge Projects
- Sandhills Crane Deck

Registration Deadline

To guarantee a spot on the bus, return the attached registration to the NARD office before May 12th.
Seating and hotel rooms are limited; register soon to guarantee a spot.

Registration will cover all meals and activities, motor coach expenses and Monday night lodging (NARD will make reservations for overnight lodging). If you are arriving early and would like a room Sunday night, reservations need to be made through NARD as well. Use the basin tour registration form to reserve an extra night stay (Sunday evening).

Registration Form

Annual Basin Tour - Central Platte NRD. June 12-13, 2023

Registration deadline is Friday, May 12th. Cancellations after that date are non-refundable.

Basin Tour registration fee will include the following:

- Monday, June 12th: Lunch, conservation tour, snacks, beverages, activities, evening group dinner and lodging at La Quinta Inn & Suites, 108 3rd Ave., Kearney.
- Tuesday, June 13th: Breakfast at the hotel, conservation tour, lunch, snacks, and beverages.

Registration options:

- Registration - with single room occupancy - $ 405 per person.
- Registration – with NO HOTEL accommodations - $ 285 per person. If you live in the area and can drive home Monday evening, use this option to register for the tour.

For those arriving on Sunday for the NARD board meeting, or for the Basin Tour, you must reserve your Sunday night lodging through NARD. Use this form to add Sunday lodging. This is an extra fee, not included with basin tour registration.

Report to the Lower Platte North NRD Ex. Committee

Project: Nitrate Testing; FFA Chapters and Natural Resource Districts

"FEET ON THE GOUND" project

April 18, 2023

A Zoom meeting was organized by Megan Grimes (NARD). Included in the meeting were Megan Grimes-NARD, Sarah Heideman-State FFA office, Sydney Abbott-Lower Platte North and Jerry Johnson-Board member LPN NRD

The purpose of the call was to simply introduce the Nitrate Testing Project to Sarah and Megan. I had previously spoken with these representatives and Megan offered to create the zoom meeting.

April 19, 2023

I spent the day at the State Capitol as the Former State Senators meet annually to conduct the business of the Nebraska Association of Former State Senators.

During the day I made contacts with current Senators and with some of their Administrative Staff. This included Senator Hallogren, Chairperson of the Agriculture Committee, and his Research Analyst Rick Leonard, Senator Bostelman, Chairman of the Natural Resource Committee, and Senator Erdman as he has some concerns if the NRD's are doing their job.

My focus with each Senator was talking about the Nitrate issues in the ground water and the contamination issues. I followed up on a "Nitrates Level in Nebraska" Roundtable that met November 8, 2022 which consisted of: University of Nebraska Medical Center, Nebraska Natural Resource Districts, Nebraska Department of Environment and Energy, some Ag groups, Nebraska Extension, the Nebraska Water Center, and the Daugherty Water for Food Global Institute. (I provided the document created at the meeting to our staff).

In conversation with the senators, they appreciated an update on the Nitrate Roundtable. I explained the reason for the LPN NRD authorizing me to work on one missing piece, that being "Getting feet on the ground" to collect certified water samples.

After explaining what the LPNNRD did in cooperation with FFA Chapters in our NRD District with the Shell Creek Atrazine project and now it has been expanded into testing nitrates in ground water. We're looking at creating a program statewide between the Nebraska FFA Chapters and the Nebraska Natural Resource Districts, they recognized that the "Feet on the Ground" project was missing and supported our efforts.

I want to make sure that our board **knows I do not want this issue of "Feet on the Ground" to become part of any legislative action.**

Submitted to the LPN NRD Board of Directors, Ex. Committee

REQUEST FOR EXCUSE OF ABSENCE FROM MEETING (LB 569, 1985 LEGISLATURE)

Chairman, Board of Directors
Lower Platte North NRD
PO Box 126
Wahoo, NE 68066

I hereby request that the Board of Directors excuse my absence at the Regular Meeting of the Board scheduled on 10 day of April, 2023, for the following reason:

I was doing field work, fertilizing
Not sure it qualifies for an excused
absence

Dated this 26 day of April, _____.

ACCOUNTANT'S COMPILATION REPORT

The Board of Directors
Lower Platte North Natural Resources District
Wahoo, Nebraska

Management is responsible for the accompanying financial statements of the Lower Platte North Natural Resources District, which comprise the Statements of Net Position as of March 31, 2023, and the related Statements of Activities for the month and nine months then ended in accordance with accounting principles generally accepted in the United States of America. We have performed a compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. We did not audit or review the financial statements, nor were we required to perform any procedures to verify the accuracy or the completeness of the information provided by management. We do not express an opinion, a conclusion, nor provide any form of assurance on these financial statements.

Management has elected to omit substantially all of the disclosures and statements of cash flows required by accounting principles generally accepted in the United States of America. If the omitted disclosures were included in the financial statements, they might influence the user's conclusions about the Organization's financial position, results of operations, and cash flows. Accordingly, the financial statements are not designed for those who are not informed about such matters.

The accompanying Statements of Activities – Actual vs. Budget are presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management. The supplemental information, except the budget information, was subject to our compilation engagement. We have not audited or reviewed the supplementary information and do not express an opinion, a conclusion, nor provide any assurance on such information. The budget information presented in the Actual vs. Budget is of a nonaccounting nature and has not been subjected to our compilation engagement.

We are not independent with respect to the Lower Platte North Natural Resources District.

Lower Platte North
Natural Resources District
511 Commercial Park Road
P.O. Box 126
Wahoo, NE 68066

Thank you for the opportunity to present this proposal.

AMGL, P.C., has been providing professional services to governmental entities for more than 30 years. Our firm's basic philosophy is to provide excellent client service based on substantial knowledge of, and specialization in, the services to be provided. We recognize that the most important product is prompt and efficient service of the highest quality.

We can continue to serve Lower Platte North Natural Resources District to your complete satisfaction and all our efforts are directed toward achieving that aim. The highest level of skills and resources available to our firm will be utilized in serving your needs. The engagement team has extensive governmental auditing experience.

Our knowledge of governmental operations will enable us to provide professional services timely, efficiently, and at a reasonable cost.

We provide professional services to other governmental entities, with which they have been well pleased. We firmly believe we can offer this kind of dedication, continuity, and commitment to you.

The maximum fee, including travel and out-of-pocket expenses, for work to provide professional services to Lower Platte North Natural Resources District for the years ending June 30, 2023, 2024 and 2025 will be:

	2023	2024	2025
Audit the financial statements as of and for the years ended June 30,	$ 10,650	$ 11,200	$ 11,750
Single Audit, if needed	3,500	3,700	3,900
Total	$ 14,150	$ 14,900	$ 15,650

Billings for our services will be rendered approximately every four weeks, and payment is due within 30 days of the invoice date.

The foregoing proposed cost of service fees will be administered upon acceptance of our engagement.

We look forward to working with you and the professional staff of Lower Platte North Natural Resources District. If you have any questions, please feel free to contact me at 308-381-1810.

Sincerely,

AMGL, P.C.

Kyle R. Overturf, CPA

RED THREAD CREATIVE LLC: ADVERTISING CONTRACT

1. **Parties.** This agreement (this "Agreement") is entered into by the following parties:

Red Thread Creative LLC ("redthread")
201 North 7th Street
Suite 208
Lincoln, NE 68508

Lower Platte North Natural Resources District ("Client")
511 Commercial Park Rd
Wahoo, NE 68066

2. **Services.** redthread will provide the services described in **Schedule A** (the "Services") on a non-exclusive basis to Client in accordance with the terms of this Agreement.

3. **Fees.** In consideration of the provision of the Services and the rights granted to Client under this Agreement, Client agrees to pay redthread at the rate and in the manner set forth in **Schedule B.**

4. **License to Certain Client Intellectual Property.** Subject to and in accordance with the terms and conditions of this Agreement, Client grants redthread and its independent contractors a limited, non-exclusive, royalty-free, non-transferable and non-sublicensable, license to Client's intellectual property to the extent reasonably necessary to perform the Services. Any use by redthread or any representative of redthread of any of Client's trademarks and all goodwill associated therewith shall inure to the benefit of Client.

5. **Representations and Warranties**. Client represents and warrants that it has full right, power, and authority to enter into this Agreement. Client further represents and warrants that any information provided by Client to redthread, including any information contained in any materials provided by Client to redthread, is true and correct. Client further represents and warrants that the provision or grant of any licenses, rights, or materials hereunder by Client to redthread do not, and will not, violate any right of, or conflict with, or violate any contract with or commitment made to, any person or entity, and that no consent or authorization from any third party is required. redthread represents and warrants that it has full right, power, and authority to enter into this Agreement. redthread further represents and warrants that any information provided by redthread to Client, including any information contained in any materials provided by redthread to Client, is true and correct. redthread further represents and warrants that the provision or grant of any licenses, rights, or materials hereunder by redthread to Client do not, and will not, violate any right of, or conflict with, or violate any contract with or commitment made to, any person or entity, and that no consent or authorization from any third party is required.

6. **Ownership of and License to Deliverables.** Ownership and title to all intellectual property rights in the materials delivered to or prepared on behalf of Client by redthread (the "Deliverables") shall be as set forth below. Deliverables shall include, without limitation, whether finished or unfinished and whether used by Client or not, all advertising, marketing, promotion and merchandising materials, copy, storyboards, concepts, ideas, trademarks, trade names, domain names, logos, slogans, taglines, inventions, discoveries, website style, content, structure and look and feel, internet portals, press releases, research, videos, presentations and proposals, artwork, videos, telephone numbers for use by Client's consumers, and original music and lyrics, to the extent the same are actually delivered to and/or prepared on behalf of Client.

a. Upon payment in full, Client shall be the owner of all right, title and interest in and to the Deliverables, including all intellectual property therein. Any Deliverables that may qualify as "works made for hire" as defined in the Copyright Act (17 U.S.C. § 101), are hereby deemed owned by Client as "works made for hire." To the extent that any of the Deliverables do not constitute a "work made for hire," redthread hereby irrevocably assigns to Client, in each case without additional consideration, all right, title, and interest throughout the world in and to the Deliverables.

b. Except for the rights and licenses expressly granted in this Agreement, redthread retains all rights under its intellectual property (the "redthread Retained Intellectual Property"), including without limitation all rights to redthread trademarks, trade names, and goodwill, and no rights shall be deemed granted by redthread to Client by implication, estoppel, or otherwise. Without limiting the foregoing, the redthread Retained Intellectual Property shall include all materials owned by redthread prior to, or independent from, the performance of Services under this Agreement, and all methodologies, software, applications, processes or procedures used, created, or developed by redthread in the general conduct of its business, excluding the Deliverables.

c. Upon payment in full and the transfer of rights in the Deliverables to Client, Client shall grant redthread a perpetual, irrevocable, limited, royalty-free, non-transferable, non-sublicensable, worldwide license to use the Deliverables and any intellectual property therein for the purpose of promoting redthread's services and business.

d. Upon payment in full, redthread hereby grants Client a perpetual, irrevocable, limited, royalty-free, non-transferable, non-sublicensable, worldwide license to use, perform, display, execute, reproduce, distribute, transmit, modify (including to create derivative works), import, make, have made, sell, offer to sell and otherwise exploit redthread Retained Intellectual Property solely to the extent incorporated in, combined with, or otherwise necessary for the use of the Deliverables. All other rights in and to redthread Retained Intellectual Property are expressly reserved by redthread.

e. Notwithstanding anything herein to the contrary, Client's ownership of the Deliverables shall be subject to (a) the rights of third parties whose materials or services are contained in the Deliverables with Client's prior knowledge (e.g., stock footage, photos, music, software, etc.) and used under a license or other permission granted to redthread or Client, and (b) the rights of redthread to the redthread Retained Intellectual Property.

7. Confidentiality and Nondisparagement.

a. Definition. "Confidential Information" means all nonpublic, confidential or proprietary information which is disclosed and/or furnished at any time by one Party (the "Disclosing Party") to the other Party (the "Receiving Party"), either directly or indirectly, in any manner, including visual and oral, and includes without limitation the following: (i) the existence and terms of this Agreement; (ii) all designs, drawings, technical specifications, processes, techniques, technical data, samples, components parts, trade secrets, strategies, reports, data, research and product development plans, development and other intellectual property; (iii) software, source codes, computer systems and equipment, bids, proposals and the prices and other terms thereof; (iv) financial information, cost of materials and pricing information, customer lists and contacts, suppliers, distributors and agents; (v) business inventions, business ideas, plant layout, manufacturing processes; (vi) copyrights, patent claims, derivative and reverse-engineered works, products, product cycles, technology, operations, assets, know-how, concepts, ideas, data, designs, "look and feel" design elements, specifications, inventions, algorithms, formulae, processes, techniques, systems and improvements; and (vii) all notes, analyses, compilations, studies, interpretations or other documents prepared by the Receiving Party that contain, reflect or are based upon, in whole or in part, information furnished by or on behalf of Disclosing Party. "Confidential Information" does not include information disclosed and/or furnished to Receiving Party (a) that is generally known to the public other than as a result of disclosure by Receiving Party; or (b) which is or has been independently developed by the Receiving Party without violation of Receiving Party's obligations under this Agreement.

b. Nondisclosure of Confidential Information. Receiving Party shall keep the Confidential Information secret and confidential as long as Receiving Party retains possession or control of the same, or until such information is no longer Confidential Information under Section 7 above. Receiving Party may disclose the Confidential Information only on a need-to-know basis to (a) any person to whom Disclosing Party has given its prior written consent, and (b) the Receiving Party's personnel or the personnel of an Affiliate of the Receiving Party (collectively, the "Representatives") who are advised of the confidentiality obligations that attach to the Confidential Information, and (c) pursuant to a valid subpoena or order issued by a court of competent jurisdiction or by a governmental body, provided that Receiving Party immediately notifies Disclosing Party thereof. The Receiving Party shall be responsible for the compliance with the obligations set forth herein by any of its Representatives. "Affiliate" of a Party means an entity directly or indirectly through one or more intermediaries Controlling or Controlled by or under direct or indirect common Control with the Party. "Control" means the direct or indirect ownership of at least fifty percent (50%) of the voting rights (or their equivalent) of an entity or the rights to exercise management control.

c. Procedure to Protect. Receiving Party shall maintain a policy and procedure to protect the Confidential Information with reasonable care and in accordance with prudent business practices and shall use at least the same degree of care to protect the Confidential Information that Receiving Party uses to protect its own confidential information of a similar type. Receiving Party will notify Disclosing Party immediately on discovery of any unauthorized use or disclosure of Confidential Information or any other breach of this Agreement by Receiving Party. Receiving Party will cooperate with Disclosing Party in every reasonable way to help regain possession of the Confidential Information and prevent its further unauthorized use or disclosure.

d. Use of Confidential Information. Receiving Party shall use Disclosing Party's Confidential Information only for the purpose of establishing, evaluating, and/or continuing a business relationship with Disclosing Party and for purposes directly and exclusively related to the reason for delivery of the Confidential Information and for no other use or purpose. Each Party consents and agrees that the Receiving Party may disclose and discuss the Disclosing Party's Confidential Information with third parties who have executed a similar non-disclosure agreement.

e. Rights to Confidential Information. Disclosing Party is entitled to protect, and Receiving Party shall develop no rights in, the Confidential Information disclosed by the Disclosing Party. Receiving Party explicitly agrees that all Confidential

Information disclosed is being received subject to Disclosing Party's rights as an owner, licensee, possessor or controller of the Confidential Information and, further, subject to all relevant intellectual and/or proprietary property rights of Disclosing Party, including the relevant laws governing patents, trademarks, copyrights, trade secrets and unfair competition. Nothing in this Agreement shall be construed as granting or conferring upon Receiving Party or any Representative, expressly, impliedly, or otherwise, any license or other right under any patents, trademarks or other intellectual and/or proprietary rights which Disclosing Party or any of its Affiliates now owns or may acquire after this Agreement takes effect.

f. Nondisparagement. redthread agrees to not make any voluntary statement, or make any untrue statement which foreseeably will, harm or damage the reputation of Client or its successors, affiliates, assigns, officers, directors, shareholders, members, agents or employees.

8. Indemnification. Client shall release, defend, indemnify, and hold redthread and its parent, affiliates, subsidiaries, officers, directors, agents, owners, employees, trustees, successors, and assigns harmless with respect to any claims, actions, causes of action, damages, fines, expenses, court costs, attorney fees, damages or judgments suffered by redthread or its agents, resulting from or attributable to any breach of Client's or its agent's responsibilities under this Agreement, any breach of the representations and warranties herein, willful misconduct, and all negligent acts or omissions of Client or its agents. redthread shall release, defend, indemnify, and hold Client and its parent, affiliates, subsidiaries, officers, directors, agents, owners, employees, trustees, successors, and assigns harmless with respect to any claims, actions, causes of action, damages, fines, expenses, court costs, attorney fees, damages or judgments suffered by Client or its agents, resulting from or attributable to any breach of redthread's or its agent's responsibilities under this Agreement, any breach of the representations and warranties herein, willful misconduct, and all negligent acts or omissions of redthread or its agents.

9. Limitation on Liability. In no event will redthread be liable to Client or to any third party for any loss of use, revenue, profit or loss of data or for any consequential, incidental, indirect, exemplary, special or punitive damages whether arising out of breach of contract, tort (including negligence), or otherwise, regardless of whether such damage was foreseeable and whether redthread has been advised of the possibility of such damages. In no event will redthread's liability arising out of or related to this agreement, whether arising out of or related to breach of contract, tort (including negligence), or otherwise, exceed the aggregate amounts paid to redthread pursuant to this agreement.

10. Term; Termination. This Agreement shall commence as of the date it is signed by both parties (the "Effective Date"). The term of this Agreement shall be until delivery of the Deliverables by redthread and payment in full by Client of all accrued fees and expenses set forth in **Schedule B**. If either party breaches its obligations under this Agreement, the non-breaching party shall give the breaching party written notice of such breach and the opportunity to cure such breach for a period of fifteen (15) days after delivery of the notice of breach with respect to a monetary breach, or thirty (30) business days after delivery of the notice of breach with respect to a non-monetary breach. Notwithstanding the foregoing, a party may terminate this Agreement with immediate effect on written notice to the other party if the other party becomes insolvent, dissolves, liquidates, files a petition for bankruptcy or commences or has commenced against it proceedings relating to bankruptcy, receivership, reorganization, or assignment for the benefit of creditors. The expiration or termination of this Agreement, for any reason, shall not release either party from any obligation or liability to the other party, including any payment and delivery obligation that has already accrued hereunder.

11. Independent Contractors. redthread may retain third parties ("Independent Contractors") to furnish services to it in connection with the performance of its obligations hereunder. redthread may permit such Independent Contractors to have access to Confidential Information, but only to the extent and insofar as reasonably required in connection with the performance of redthread's obligations under this Agreement.

12. Compliance with Laws. In the performance of this Agreement, each party shall make commercially reasonable efforts to comply with all applicable governmental laws, statutes, ordinances, rules, regulations, orders, and other requirements. In the event that the other party's assistance is necessary to achieve such compliance, the party shall promptly notify such other party. In the event that Client is aware of any regulations known and applicable to the advertisement or marketing of Client's business, products or services, Client shall inform redthread.

13. Copyright and Trademark. Client is responsible for any copyright or trademark issues related to the creation and use of the Deliverables by Client. Client shall be solely responsible for any trademark or copyright searches pertaining to the Deliverables unless otherwise contracted. redthread will not knowingly copy other rightfully trademarked or copyrighted material.

14. **Force Majeure**. redthread shall not be liable or responsible to Client, nor be deemed to have defaulted under or breached this Agreement, for any failure or delay in fulfilling or performing any term of this Agreement (except for any obligations to make payments to the other Party under this Agreement), when and to the extent such failure or delay is caused by or results from acts beyond the affected Party's reasonable control, including, without limitation: (a) acts of God; (b) flood, fire or explosion; (c) acts of war; (d) actions, embargoes or blockades in effect on or after the date of this Agreement; (e) national or regional emergency; (f) compliance with any law or governmental order, rule, regulation or direction, or any action taken by a governmental authority. Notwithstanding anything in this Agreement to the contrary, Client may terminate this Agreement if such failure or delay continues for a period of sixty (60) days or more.

15. **Entire Agreement.** This Agreement, including the related schedules attached hereto, constitutes the sole and entire agreement of the parties with respect to the subject matter contained herein and therein, and supersedes all prior and contemporaneous understandings, agreements, representations and warranties, both written and oral, with respect to such subject matter.

16. **Severability**. If any term or provision of this Agreement is invalid, illegal, or unenforceable in any jurisdiction, such invalidity, illegality, or unenforceability shall not affect any other term or provision of this Agreement or invalidate or render unenforceable such term or provision in any other jurisdiction. Terms or provisions deemed invalid, illegal, or unenforceable shall be reformed to effectuate the intent of the parties to the maximum extent permitted by applicable law.

17. **Assignment**. Neither this Agreement nor any of the rights, interests, or obligations hereunder shall be assigned by any of the parties hereto without the prior written consent of the other party, which consent shall not be unreasonably withheld, conditioned, or delayed. Subject to the preceding sentence, this Agreement will be binding upon, inure to the benefit of, and be enforceable by the parties and their respective successors and assigns.

18. **Amendment**. This Agreement may only be amended or modified by a writing signed by authorized representatives of both parties.

19. **Waiver**. No waiver under this Agreement is effective unless it is in writing and signed by the party waiving its right.

20. **Relationship of Parties.** Nothing in this Agreement creates any agency, joint venture, partnership or other form of joint enterprise, employment or fiduciary relationship between the parties. redthread is an independent contractor pursuant to this Agreement. Neither party has any express or implied right or authority to assume or create any obligations on behalf of or in the name of the other party or to bind the other party to any contract, agreement, or undertaking with any third party.

21. **Governing Law; Forum**. All matters arising out of or relating to this Agreement are governed by and construed in accordance with the internal laws of the State of Nebraska without giving effect to any choice or conflict of law provision or rule that would cause the application of the laws of any jurisdiction other than those of the State of Nebraska. Any legal suit, action, or proceeding arising out of or relating to this Agreement shall be instituted in the federal courts of the United States of America or the courts of the State of Nebraska in each case located in the City of Lincoln and County of Nebraska, and each party irrevocably submits to the exclusive jurisdiction of such courts in any such suit, action, or proceeding.

22. **Survival**. Provisions of this Agreement, which by their nature should apply beyond their terms, will remain in force after any termination or expiration of this Agreement, including without limitation Section 6, Section 7, Section 8, Section 9, and Section 21.

[Signature page follows]

In witness whereof, the parties hereto have executed this Agreement as of the date first written above.

Schedule A: Services

redthread agrees to provide the following services:

1. 2023 Hourly Web Maintenance

Deliverable: Upon request, redthread will perform maintenance and updates to the LPNNRD website at a mixed hourly rate of $180. redthread will provide an estimate and seek approval before completing any web maintenance.

redthread will provide (upon request):
- Web design
- Web development
- Web organization

you will provide:
- All maintenance/update requests and estimate approvals
- Any pre-existing/new content, including copy, photos/videos, graphics, etc.

Schedule B: Compensation and Payment

1. Compensation. Client agrees to be billed and pay redthread at an hourly rate of **$180/hr** for the services set forth in **Schedule A**, as follows:

2. Expenses. Expenses outlined in **Schedule A** are included in the Compensation. In addition to the Compensation described above, Client agrees to pay redthread for all out-of-pocket expenses incurred by redthread in connection with the performance of the Services, if they are not included in the services set forth in **Schedule A**.

3. Invoices. redthread will issue monthly invoices for the accrued amount of hourly work completed. Client shall pay all properly invoiced amounts due to redthread within thirty (30) days after Client's receipt of such invoice (the "Payment Date"). redthread will send out invoices on the 7th of each month or the nearest weekday if the 7th falls on a weekend or holiday.

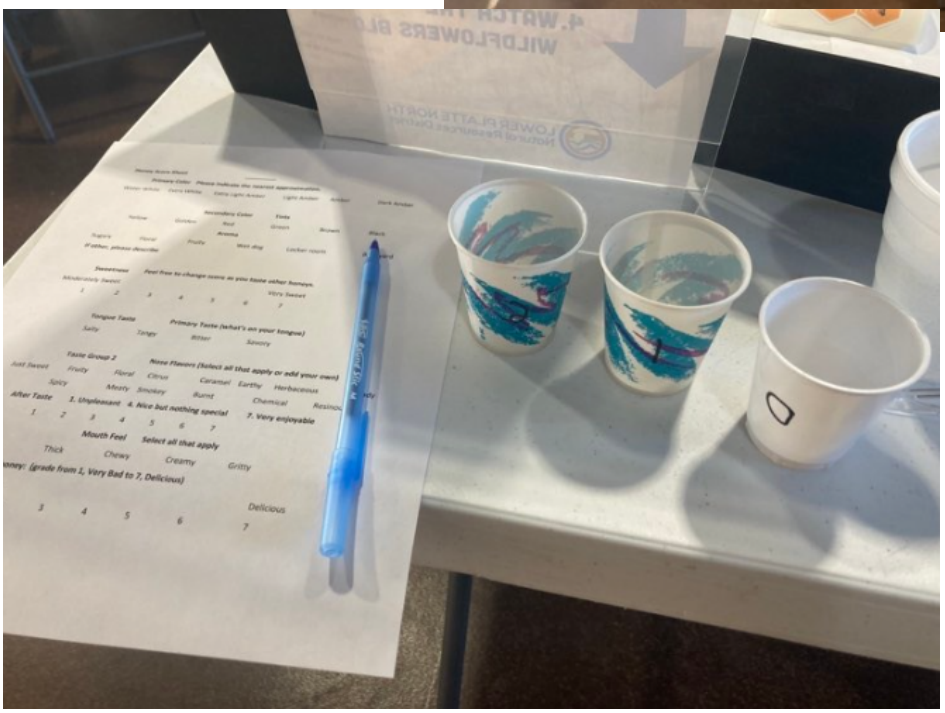

4. Invoice Disputes. Client shall notify redthread in writing of any dispute with an invoice within seven (7) days from Client's receipt of such invoice. Client will be deemed to have accepted all invoices for which redthread does not receive timely notification of dispute, and shall pay all undisputed amounts due under such invoices within the period set forth above. The parties shall seek to resolve all such disputes expeditiously and in good faith. Should negotiations fail to resolve the matter within thirty (30) days of notice of the dispute, the matter shall be settled by arbitration administered by the American Arbitration Association in accordance with its Commercial Arbitration Rules, and judgment on the award rendered by the arbitrator may be entered in any court having jurisdiction thereof.

5. Taxes. All expenses payable by Client under this Agreement are exclusive of all sales, use, and excise taxes, and any other similar taxes, duties, and charges of any kind imposed by any governmental authority on such amounts. Client shall be responsible for any taxes applicable to the Services provided to Client.

6. Late Payments. Except for invoiced payments that Client has disputed in accordance with Section 4 above, Client shall pay interest of 1.5%, or the maximum amount permitted by law, on all payments later than thirty (30) days from the Payment Date. All payments later than thirty (30) days from the Payment Date shall have interest compounded every thirty (30) days at the rate of 1.5%, or the maximum amount permitted by law.

What you can do to prevent cross connections and keep your drinking water safe.

1. Check your faucets to be sure that all faucet endpoints are above the flood level of the sink, tub, basin, or other apparatus they supply.

2. Protect faucet extensions by installing proper backflow prevention devices (i.e. hose bib vacuum breakers) on all faucets capable of having a hose or other extension attached.

3. Check drain lines (refrigerator drink dispensers, water softeners, heat exchangers, etc.) to be sure there is an adequate air gap between the drain line and the floor drain or sewer line into which they discharge.

4. Never use unprotected faucets to fill non-drinking water containers (i.e. water beds, wading pools, stock tanks, hot tubs, etc.)

Following these guide lines and using common sense will help to eliminate the possibility of you contaminating **your** drinking water, your **neighbor's** drinking water and your **community's** drinking water. This not only affects the residents of your community, but their visitors and those people who are passing through.

Helping Keep Our Water Safe !!

NeRWA NeRWA NeRWA NeRWA
NEBRASKA
RURAL WATER ASSOCIATION

Nebraska's Safe Drinking Water Act requires water systems to implement an on-going cross connection control program. An important part of this program is public education. It is believed that a well-informed public will be more aware of the possibility of cross connections within their property and will take reasonable and sensible precautions to avoid creating cross connections on their property. This brochure is intended to explain what a cross connection is, what causes it, what some of the consequences can be, and how it can be prevented.

What is a cross connection?

A cross connection occurs whenever there is an actual or potential physical connection between the public drinking water system and any possible source of contamination.

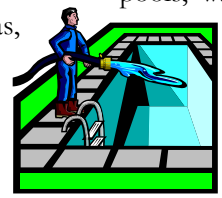

Sources of contamination can include both high hazard materials, which can cause illness or death, and low or non-hazardous materials which are mainly just a nuisance and can cause the water to look, taste or smell unpleasant. Although the high hazards are the primary concern in a cross connection control program, your water utility strives to provide both safe and good quality water to its customers. Whenever there is a loss of pressure in the public water supply, these cross connections can allow unsafe substances to enter the public water supply.

What causes cross connections?

Cross connections can be caused by both permanent and temporary "piping". An example of a cross connection being permanently piped in is the drain on a water softener. Many times these discharge lines are connected directly to the sewer line without any type of protection. Hot tub and whirlpool fill pipes and swimming pool and boiler make-up lines are other examples of permanently piped cross connections.

The most common example of a temporary piped cross connection is the common garden hose. It is estimated that 90% of all cross connections are caused by the inappropriate use of garden hoses. Garden hoses are frequently used to apply fertilizer and pesticides to lawns and gardens. They are also used to fill swimming pools, wash cars, and in rural areas, they are often used to fill stock tanks for watering cattle, horses, and other livestock.

Other temporary piping cross connections occur when hoses are used to fill waterbeds or are connected to utility sinks to fill wash tubs or mop buckets.

What are the consequences of cross connections?

The consequences of cross connections can range from something as simple as "dirty water" to something as severe as serious illness or even death. There are many recorded instances of non-hazardous contamination of public water supplies caused by cross connections. In one case, a line used for cleaning a distilling vat in a wine bottling company was left open, and an entire vat of wine flowed back into the public water system. Although this was not a health hazard, and most of the customers liked the water they drank, this cross connection could have had far deadlier results if it had been something other than wine in the vat.

There are many instances recorded where people have been made seriously ill or even died due to cross connections. There have been cases where dysentery, diarrhea, hepatitis and even polio have been contracted as a direct result of a cross connection.

How can cross connections be prevented?

The best way to prevent cross connections is for each customer to examine the plumbing on their premises and look for any permanent or temporary piped cross connections. Any time there is the possibility of a cross connection between the water supply and any hazardous or unknown substance, there should be an air gap between the faucet and the questionable use.

In cases where this is not possible, as with a garden hose, a proper backflow prevention device or assembly should be installed on the supply faucet. This will protect both the public water supply and the inhabitants of the building from contamination.

In situations where extremely high hazards exist in a building or location, it is sometimes necessary to contain that entire system from the public water supply with a backflow preventer to protect the public water supply from the substances being used on that site.

Cross-Connection Control Reporting Form

State law requires consumers of public water supplies to inspect their facilities not less than once every five years. Completing & returning this form fulfills that requirement!

Completion of this form is a condition of water service!

Thank you,
This form will help prevent the
accidental contamination of
our drinking water

Failure to complete and return this form puts your water system in violation of State Health Department Regulation Title 179.

Your local water supplier, in compliance with the Safe Drinking Water Act of 1974 and the amendment to the Safe Drinking Water Act of 1986, enacted an ordinance which provides for a program preventing backflow and backsiphonage into the public water supply system.

WHAT IS A CROSS-CONNECTION?

A plumbing cross-connection is defined as a connection between a public water supply and a source of contamination or pollution. In other words, a cross-connection makes it possible for contaminating material to enter into the drinking water supply when the pressure of the polluted source is greater than the pressure of the water supply. This can result in either a backsiphonage or backflow (a reversal in the normal direction of water flow).

EXAMPLE

In August, 1978, a professional exterminator was treating a church located in a small town in South Carolina for termites. The highly toxic insecticide, chlordane, was being mixed with water in small buckets. Garden hoses were left submerged in the buckets while the mixing was being accomplished. At the same time, workers came by to disconnect the parsonage water line from the church to install a separate water meter for the parsonage. In the process, the water was shut off in the area of the church building. As the remaining water in the lines was used by residents in the area, the church experienced a negative pressure. The chlordane was quickly siphoned into the water lines within the church and became mixed with the Kool-Aid being prepared by women for the vacation bible school. Approximately a dozen children and three adults experienced dizziness and nausea. Fortunately, none required hospitalization.

Hopefully, your local water system will never have a backflow problem that could endanger the welfare of its citizens. However, because potential backflow problems exist, it is important for YOUR HEALTH AND SAFETY to complete the following survey and return it to _____ within_____ days. If you have any questions, contact _____ at_____.

FAILURE TO DO SO MAY RESULT IN LOSS OF SERVICE

Subject: Expanded Water Use Variance from Existing Well

To: Steven Osantowski

Congratulations, your variance request for expanded irrigated acres from an existing well in the SW ¼ of Section 4, Township 15 North, Range 1 East in Butler County for 35.67 acres for the field located in the W ½ of the NW ¼ of Section 4, Township 15 North, Range 1 East in Butler County has been conditionally approved by the Lower Platte North NRD and has been issued on February 15, 2012. Some of the conditions of this variance are that within 90 days (or by May 15, 2012) you need to update the County assessor records to show these as new and existing irrigated acres, update the well registration information such as number of acres and field locations served by the existing well with the Nebraska Department of Natural Resources, and comply with any additional conditions required by the District as listed on the variance. If these conditions are not met within that time period, then the variance will lapse and the landowner or operator will need to apply for a new variance.

The approved pivot point for this variance has the following location:
Latitude: 41 degrees 18 minutes 16.9378 seconds North
Longitude: 97 degrees 19 minutes 41.2961 seconds West
The pivot would need to be 625' long with an additional end gun spray of 100'. The end gun would need to be shut off as to not apply water to the adjacent properties to the west and east of this property. To alter the location of the pivot point, length of the pivot or distance of the end gun spray would require permission from the Lower Platte North NRD.

The landowner will also need to properly install a flow meter on the existing well and report annual water use to the LPNNRD by January 31st of each following year. In addition, the landowner or operator must put to use the additional water on these new

expanded irrigated acres within one year that the variance was issued, or at least have the equipment purchased, in place and in working condition to irrigate the approved acres. The District may grant an exception for good cause shown. The reason to use the additional water in one year is that the District does not want some landowners sitting on their water appropriation, when another landowner could put this water to use.

If you have any questions about this variance application, please contact the LPNNRD.

Sincerely,

Curtis E. Becker

Effective: April 9, 2023
Approved List of Propeller Flow Meters and Required Conditions

• Anti-reverse flow feature to prevent backflow.
• Meter totalizes flow in acre inches and flow meter dial is in gallons per minute.
• Follow manufactures installation recommendations considering in-pipe jetting or non- jetting flow conditions. (Correct installation of a mechanical flow meter is critical to getting an accurate reading and will save the purchaser and or installer time and money). Meter must be configured: to inside and outside diameter of the pipe, material of the pipe, meter used that will operate within minimum and maximum output flow rates of the well, horizontal or vertical installations, and unobstructed straight run distance upstream and downstream of meter and in most cases straightening vanes (or other flow straightener) will be necessary.
• If positioned on the riser of a pivot, the meter must be calibrated for that installation.
• Flow meter must be positioned to ensure water totally fills the pipe, such as a level pipe or positioned on a riser.
• For propeller flow meter installations, a minimum distance of 10 pipe diameters upstream and 1 downstream distance from any bend or valve in the irrigation pipe is required. No straightening apparatus is needed if those distances listed above exist.
• If only 5-10 pipe diameters exist, then a straightening vane would be required. If the upstream distance is less than 5 pipe diameters, straightening vane must be installed upstream of the flow meter to ensure correct flow measurements. Straightening vanes are required according to manufacturer's installation recommendations to avoid any in-pipe jetting and create laminar (non-jetting) water flow through the flow meter.
• If only 1.5 - 5 pipe diameters exist, then a flow straightener would be required.
• A flow meter must be dedicated to each well. (Exceptions will be made if several wells are used to provide enough water to operate a single irrigation system such as a pivot or gated pipe. In these situations, a flow meter shall be placed at the central location where all the water can be metered).
•Manure/slurry or any other source of liquid from a secondary source such as a lagoon that is not directly extracted from the well that the meter was intended for shall not pass through the meter. If manure or any other source of liquid passes through the meter, then the sum of water that was pumped from the well and the secondary source (lagoon) will be accounted for in the total that is reported. The flow meter shall be installed upstream of where the manure, slurry, or lagoon water enters the irrigation system and cannot pass through the meter.

Lower Platte North NRD Mechanical Meter Approval List

Manufacturer	**Model**	**Notes**
McCrometer	McPropeller	Mechanical Totalizer only ~~All propeller models~~
Sparling	Propeller saddle meter	Mechanical Totalizer only; Model 312 propeller meter
ARAD Group	Saddle Water meter	Meter for SDI irrigation applications
~~Geyser~~	~~Saddle meter~~	~~All propeller models for Farmland Irrigation~~

DRAFT

Magnetic Flow Meters Required Conditions

• Electrically powered meters shall be approved on a case-by-case basis by NRD staff, committee, and board before the owner or operator purchases and installs.
• Additional conditions can be assigned to meter installation and readouts by Lower Platte North NRD District on approval of the magnetic or electronic meter.
• Anti-reverse flow feature to prevent backflow.
• Meter totalizes flow in acre inches and flow meter dial is in gallons per minute.
• Follow manufactures installation recommendations considering in-pipe jetting or non- jetting flow conditions. (Correct installation of a mechanical flow meter is critical to getting an accurate reading and will save the purchaser and or installer time and money). Meter must be configured: to inside and outside diameter of the pipe, material of the pipe, meter used that will operate within minimum and maximum output flow rates of the well, horizontal or vertical installations, and unobstructed straight run distance upstream and downstream of meter and in most cases straightening vanes (or other flow straightener) will be necessary.
• A flow meter must be dedicated to each well. (Exceptions will be made if several wells are used to provide enough water to operate a single irrigation system such as a pivot or gated pipe. In these situations, a flow meter shall be placed at the central location where all the water can be metered).
• Chemigation and manure also affects proper location of magnetic flow meters. These flow meters should be installed upstream of the injection point or far enough downstream so that complete mixing occurs before the solution reaches the meter. In some cases, this may be at least 10 pipe diameters downstream of the injection point. Again, follow the manufacturer's recommendations.
• Magnetic meters have minimum fluid conductivity restrictions so make sure the meter is within the conductivity tolerances of the water being measured (freshwater vs brackish water).
• Irrigation water suitability analysis is required before approval will be considered for LPN approval.

Digital Readout Required Conditions

• Battery life should be at least 3 years with a backup that will store the latest information if the main battery should fail.
• Producer is responsible for battery replacement on a 2-year cycle and accurate annual readings. (LPNNRD will need documentation)

List of Meters that will be considered by Lower Platte North NRD

Manufacturer	Model	Notes
McCrometer	McPropeller	electrically powered totalizer and electromagnetic flow meters
Sparling	Propeller saddle meter	electrically powered totalizer and electromagnetic flow meters (TigermagEP)
ARAD Group	Propeller	electrically powered totalizer

				22%	19%	59%

22% 19% 59%

Lower Platte North static water measurements showed a concerning trend like most of Eastern Nebraska. It showed that 59% of the water levels declined in the spring of 2022 compared to spring 2021. Fall level measurements taken in 2022 also showed a declined from the previous fall. Soil moisture sensors installed at LPN weather stations showed a decline of soil moisture within the top 24 inches from January to December.

The Drought Consortium met to discuss projects that are feasible and which ones should be taken off the list. The group has identified some of the options that will get re-evaluated and discussed further in 2023.

Well Permits Issued Approved, Cancelled or Denied

The Lower Platte North issued 32 new wells permits in 2022. There were 20 irrigation wells, which 12 were replacement: 1 replacement commercial well for a gravel/sand pit and 2 stock wells for existing operations.

Water Use Information for Irrigation Wells

Total Number of Reports from Flow Meters – 1175 in 2022 compared to 1075 in 2021. Water Use from the Special Quantity Subareas (Allocated areas)

Overall Average: (Inches per acre)

SQS#1 – 6.28" in/ac
SQS#2 – 7.64" in/ac.
Both areas combined – 7.18" in/ac.

Corn Avg. 7.16" in/ac. (Min. 1.00"; Max. 12.52")
Soybean Avg. 4.24" in/ac. (Min. 1.72"; Max. 6.77")

Rest of the District:

Pivot/Corn Avg. 8.3" in/acre (Min. 1.06"; Max. 35.88")
Pivot/Soybeans Avg. 6.38" in/acre (Min. 1.68"; Max. 19.01")

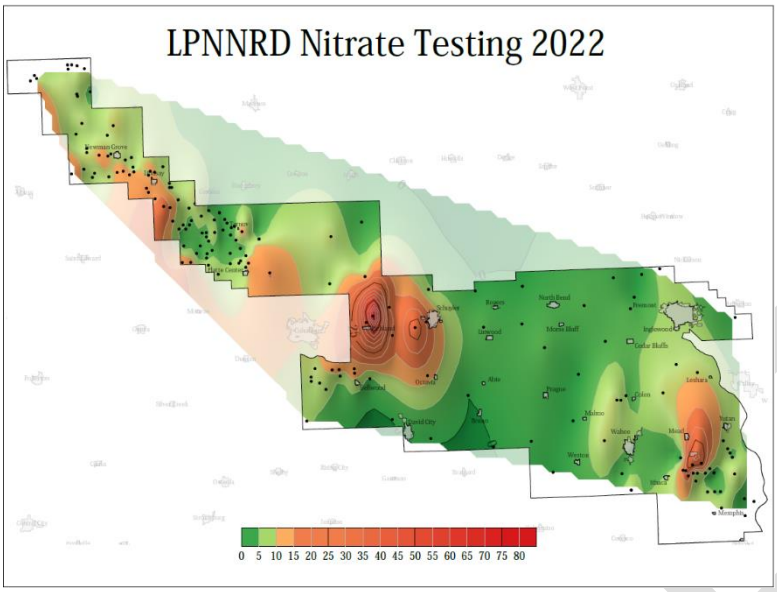

Gravity/Corn Avg. 19.40" in/acre (Min. 12.64"; Max 38.53")
Gravity/Soybeans Avg. 19.66" in/acre (Min. 10.15"; Max. 26.45")

Public Outreach

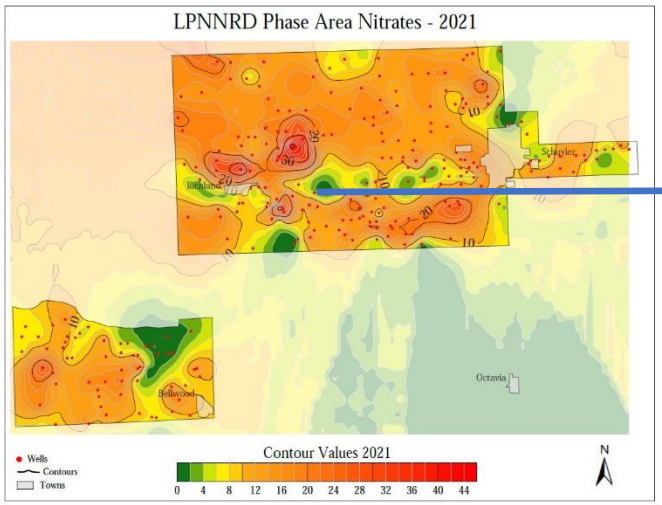

The District conducted 10 nitrogen/irrigation certification meetings for producers with 200-300 in attendance. The NRD has been involved with numerous school events with one event with NeDNR involvement. A joint awareness statement was issued with the Consortium members on the drought situation. The District publishes a newsletter that goes into the local newspapers with topics this last year pertaining to drought, lawn watering and flow meters.

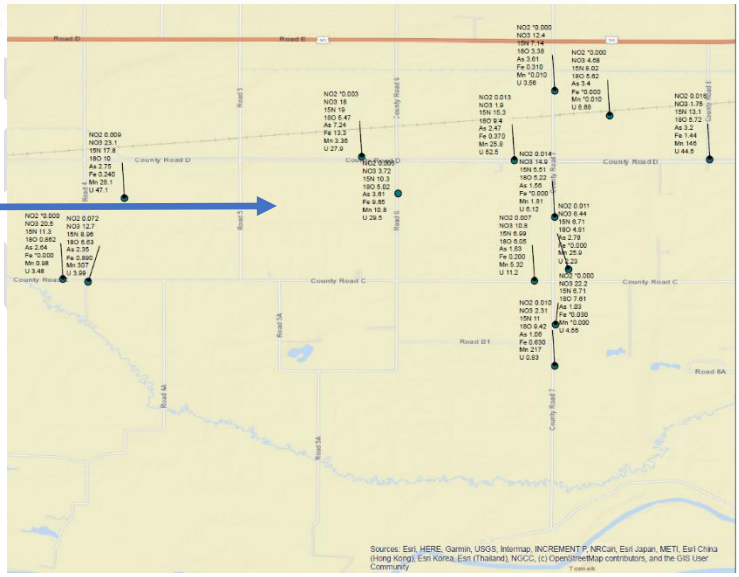

DRAFT

Water Quality Activities

The District continues to see nitrates rising throughout the district. Staff continues to meet individually with producers and offers a mandatory irrigation/nitrogen certification class for all producers within the district.

The figures above show a unique situation on the middle part of this management area with low nitrates. This area shows some high uranium numbers in some of the sampled wells and connectivity to surface water.

Water Demand Inventory

The District is in the sixth year for obtaining required water use reports for municipalities. Industrial and other high-capacity wells report voluntarily, unless drilled after 2012. Shown on the next couple of pages are water consumption from Municipal, Industrial, Livestock and Dewatering wells.

Municipal Water Uses

City-Village-Town	Total Gallons (2021)	Total Gallons (2022)	Population	Consumptive Consumptive Range in Acre Feet- (Non-drought Vs. Drought)
Ashland	157,879,000	183,301,000	3,200	450-575
Bellwood	17,879,000	19,807,000	400	40-60

Morse Bluffs	3,797,000	4,082,000	130	7-12

Lower Platte North Rural Water Systems supplies water to Bruno and Colon with David City and Wahoo supplying the water. The total water use is already shown under the respective communities for 2022.

Industrial Water Uses

Well Reg	2021 Total Water Use	2022 Total Water Use	Owner
G-171827	?	From July 8th-December 31st 18,722,523	Darling International
G-153440	0	0	Butler County Landfill Inc
G-171846	30,989,230	26,882,460	Western Sand and Gravel
G-177445	0	0	Western Sand and Gravel

Livestock Uses

The NRD is obtaining numbers from various livestock operations within the district. A couple of sites have dataloggers with remote reads. Listed below are a few of the livestock operations that we continue to collect pumping information from:

Well Reg	2022 Total Water Use/Gallons	Size	Specific Use
G-152182	26,165,594	9,500	Cattle
G-117412	27,682,060	?	Swine
G-111561	8,166,565	2,500	Cattle
G-185115 & G-136919	58,692,012	?	Dairy
G-189724	9,661,121	12 barns	Chickens
G-186141	7,603,120	8 Barns	Chickens

Turf irrigation within the LPNNRD:

Location	2021 Acre Inches Applied	2022 Acre Inches Applied
Fremont Golf Course	13.51	20.56
David City Golf Course	8.76	12.63
Todd Valley Farms	6.98	15.05

Dewatering Wells within City of Fremont

Well Reg	2021 Total Water Use/Gallons	2022 Reading Total Water Use/Gallons
G-181255	34,568,762	97,965,313
G-181192	16,213,509	Did not use
G-191057	5,107,686	Have not received
G-181257	9,827,796	27,710,928

Stream gage measurements on District Maintained Gages:

Lower Platte North gages are joint projects with USGS or NeDNR. LPN installed 5 cameras on the Platte River with assistance from the USGS.

Water Banking Activities: None for 2022.

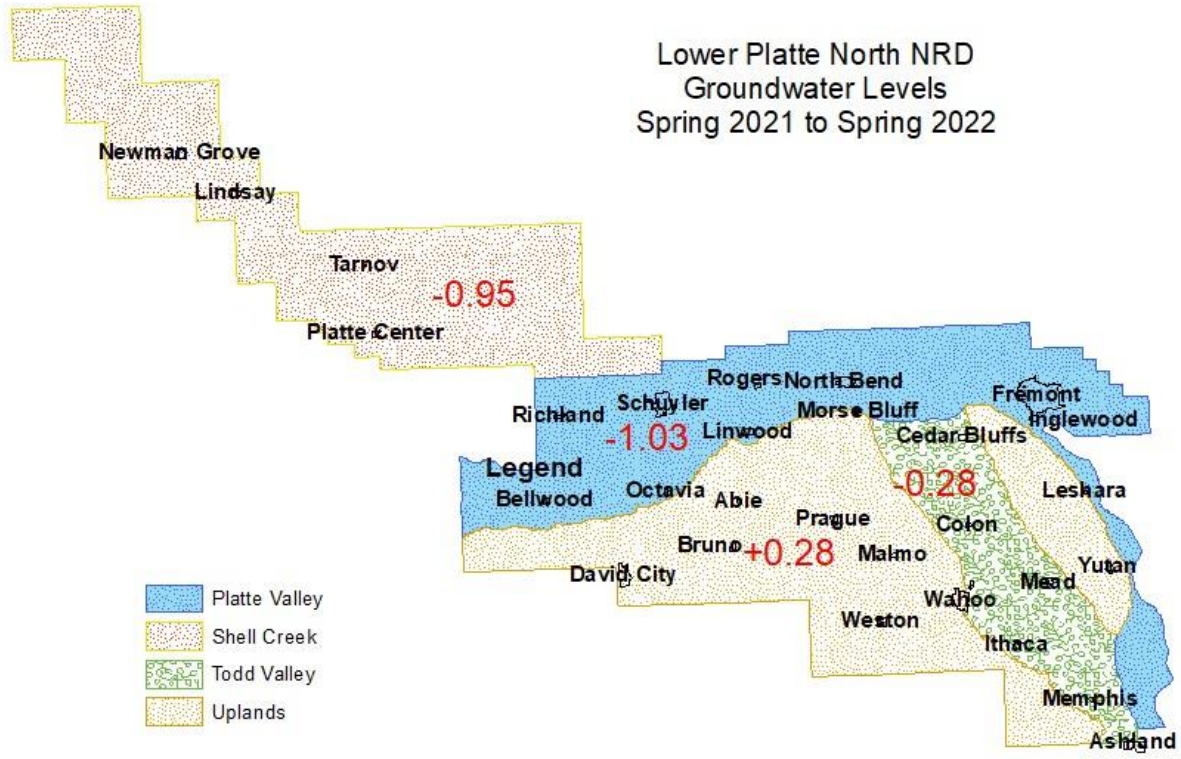

Streamflow Accretion Activities (new projects, conjunctive management

projects, etc.): None for 2022

DRAFT

Water Supply Inventory and Groundwater Elevation Data

Groundwater Levels 2021-2022 - As shown by the map, groundwater levels have declined from spring 2021, with 59% of the wells declined from the 2021 spring levels. Fall levels in 2022 did show a decline from Fall 2021.

Water Transfer Permits 2022 Granted:

The Lower Platte North had 2 additional transfers approved or started in November. The one transfer was not completed until after the first of the year, which is a transfer off a solar farm location. The 2 transfers shown did irrigate in the summer of 2022, so now are included in the report. Transfer LPN-T-022-001 shows a site that came from a more restricted site that has issues with water transmissivity and saturated thickness. This is an area that does not have an SDF number because it is not in LPN HCA area. It is beneficial for the District to move irrigated acres out of this area, so more water is available for everyone.

NRD Transaction ID	County	Township	Range	Range Direction	Section	SubSection	Change Type	Change Date	Area (acres)	Use of Irrigated Acres	SDF	NIR feet	Acre Feet Depletion
LPN-T-022-001	Butler	16	3	E	2	NW	Transfer To	6/1/2022	142	Crop Production	0.822	0.75	26.26

										Total Depletion Difference			**14.74**

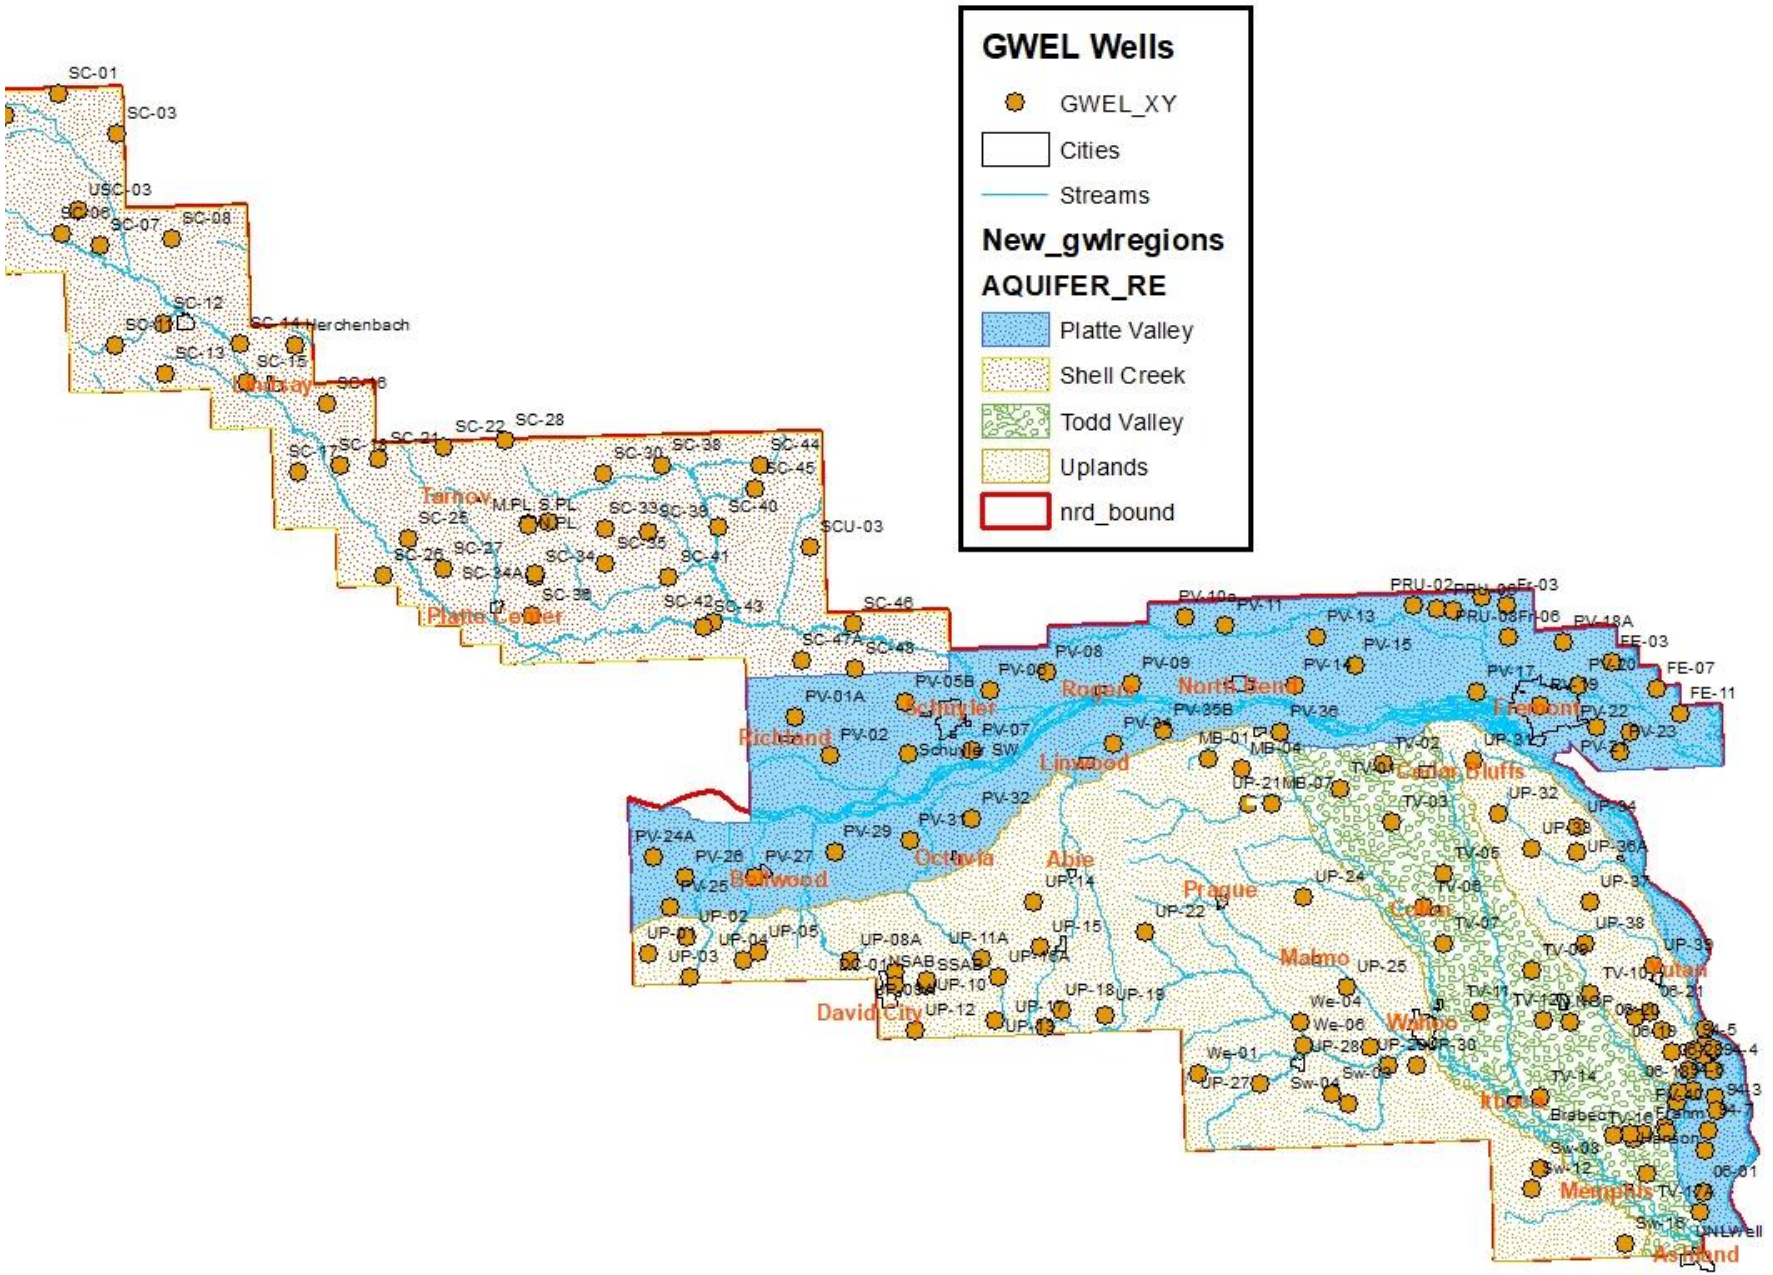

Depletions and Groundwater Consumptive Uses Voided in 2022:

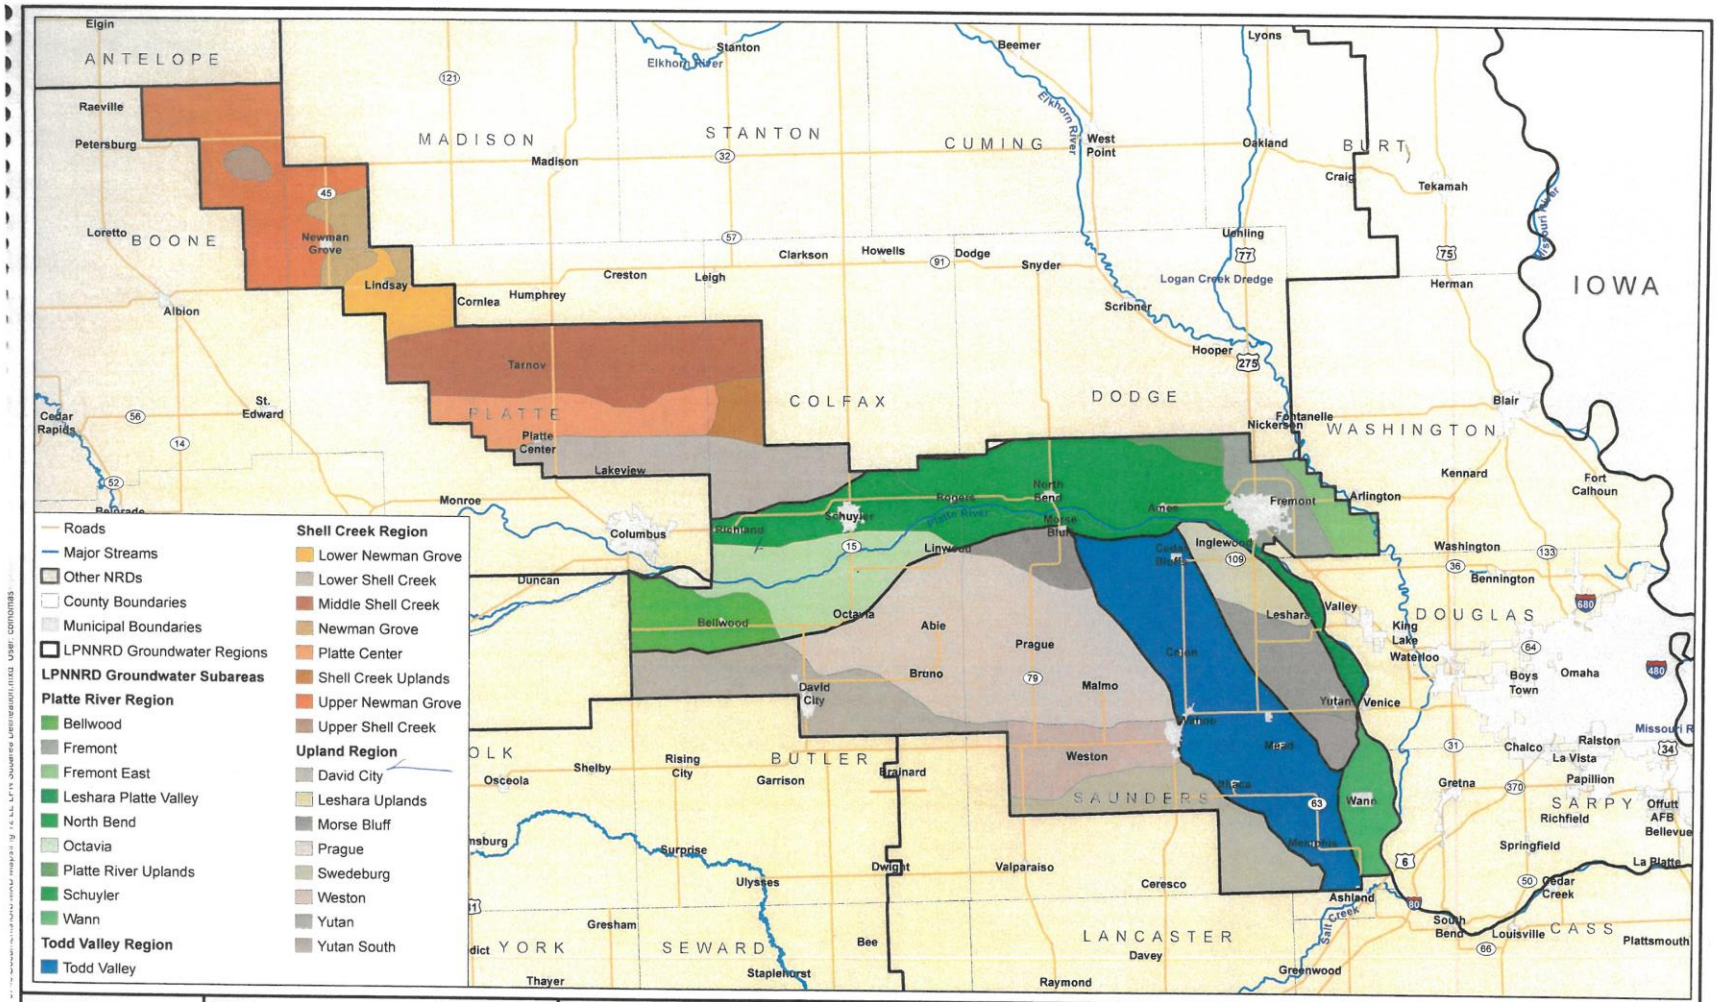

In November action was taken to void the following variance because they were not developed. These sites did have acre feet depletion in prior V-IMP reports and the table shows the year that they were included in the report.

Summary of Depletions and Consumptive Uses.

The Lower Platte North (LPN) gave out 205.081 Acre Feet in new uses in 2022 but will take credit for 259.889 Acre Feet from prior years. This will leave LPN with an additional 54.808 going forward in the next 5-year allotment.

I (we) the undersigned, do hereby request cost-share assistance to help defray the cost of installing the soil and water conservation practices as listed below. It is understood and agreed that:

1. Before receiving any cost-share funds, it will be necessary for the landowner(s) to sign the agreement below relating to the maintenance of practices installed.
2. Practices must be planned and installed in accordance with technical specifications of the Natural Resources Conservation Service.
3. The responsible technician must make prior determination that the practices are feasible on the site where they are to be installed, that they are properly planned and installed, and that estimates of quantities are proper and reasonable.
4. Items of cost for which reimbursement is later claimed are to be supported by documentation of payments made or due to contractors or other workers.
5. This application will not be effective until approved by the Natural Resources District. Claims for payment will not be accepted more than nine (9) months from the date this application is approved unless an extension is granted by the Natural Resources District.
6. Maximum reimbursement will be limited to 75 percent of the actual cost to the landowner, the percentage of average costs specified below or the amount obligated by the Natural Resources District, whichever amount is the least.

PLANNED GRAZING SYSTEM
JUSTIFICATION FOR APPROVAL AND COMMITMENT BY LANDOWNER

Technician

The need and feasibility for the practice(s) itemized on the attached for NSWCP-3 are based on the overall Ranch Plan aimed at achieving a planned grazing system for the ranch. The objective of this installation is increase the quality and quantity of forage production and improve and maintain the condition of existing vegetation while increasing the vigor of key plants.

Acres Benefitted 80 AC

The necessary Job Sheets have been provided.

Bill Bar
Technician

Date April 20, 2023

Landowner

I recognize that the practice(s) itemized on the attached NSWCP-3 are based on my overall ranch plan. In accordance with the objectives of that plan, I agree to comply with the following requirements for ten years after the date of receiving the payment requested.

(a) I will not remove, alter or modify components installed with NS&WCP assistance unless such removal or modification is needed to accommodate a revised plan and the installation has served its intended purpose. Prior approval by the NRD will be required;
(b) I will use those components of the plan that have been installed in a manner consistent with the objectives of the plan;
(c) I will complete any remaining components of the plan in accordance with the plan schedule if cost-share assistance is available from FSA, NRCS, DNR, or the NRD.
(d) I will refund all funds paid to me from the NS&WCP if I fail to comply with items (a) or (b) above;
(e) I will refund all or part of the funds paid to me from the NS&WCP if I fail to comply with item (c) above and if such failure is not due to extreme financial hardship. The amount, if any, to be refunded in such event shall be determined by the NRD by comparing the conservation value of the components installed with the amount of funds paid to me for such installation.

JUSTIFICATION FOR APPROVAL AND COMMITMENT BY LANDOWNER

_____Technician_____

The need and feasibility for the practice(s) itemized on the attached for NSWCP-3 are based on the overall Ranch Plan aimed at achieving a planned grazing system for the ranch. The objective of this installation is increase the quality and quantity of forage production and improve and maintain the condition of existing vegetation while increasing the vigor of key plants.

Acres Benefitted 80AC

The necessary Job Sheets have been provided.

Bill Bar
Technician

Date 4-26-23

_____Landowner_____

I recognize that the practice(s) itemized on the attached NSWCP-3 are based on my overall ranch plan. In accordance with the objectives of that plan, I agree to comply with the following requirements for ten years after the date of receiving the payment requested.

(a) I will not remove, alter or modify components installed with NS&WCP assistance unless such removal or modification is needed to accommodate a revised plan and the installation has served its intended purpose. Prior approval by the NRD will be required;
(b) I will use those components of the plan that have been installed in a manner consistent with the objectives of the plan;
(c) I will complete any remaining components of the plan in accordance with the plan schedule if cost-share assistance is available from FSA, NRCS, DNR, or the NRD.
(d) I will refund all funds paid to me from the NS&WCP if I fail to comply with items (a) or (b) above;
(e) I will refund all or part of the funds paid to me from the NS&WCP if I fail to comply with item (c) above and if such failure is not due to extreme financial hardship. The amount, if any, to be refunded in such event shall be determined by the NRD by comparing the conservation value of the components installed with the amount of funds paid to me for such installation.

Landowner Arden Saalfeld

N

Wahoo Creek Watershed Project

LOWER PLATTE NORTH Natural Resources District

The Upper Wahoo Creek Watershed Plan focuses on constructing 10 floodwater reduction dams within a 100-square-mile-area in the Wahoo Creek Watershed, located west of Wahoo, in Saunders County.

The $19.7 million project includes 10 wet dams on sites south of Prague, west of Weston and west of Wahoo.

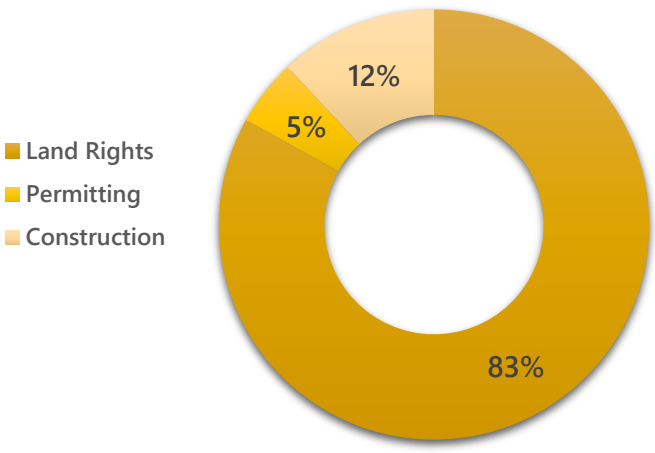

- 10 Flood Reduction Dams to be constructed within the Watershed
- All property will remain private
- LPNNRD will operate/maintain the embankments and spillways through easement access
- Total RCPP allocation = $1,462,000
- Total WFPO allocation = $2,355,913.95 (engineering/planning) $8,239,200 (construction)
- Total JEDI contracted allocation = $19,667,600

Total project costs* split between Federal and State funding.

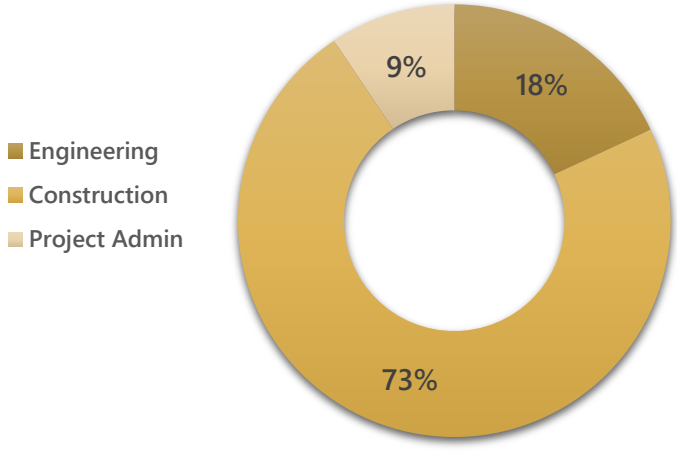

$19,667,600

*Total project cost, based on NRCS approved Wahoo Creek Watershed Flood Reduction Plan.

Agreement to Provide Funding for Flood Reduction Structures of the Saunders County Wahoo Creek Flood Control Project in the Lower Platte North Natural Resources District

This Agreement (Agreement) is entered into by and between the State of Nebraska, Department of Natural Resources (Department) and the Lower Platte North Natural Resources District (LPNNRD) for funding costs pursuant to planned flood reduction structures of the Saunders County Wahoo Creek Flood Control Project (Project).

WHEREAS the LPNNRD is a political subdivision of the State of Nebraska, responsible for flood control within the boundaries of the LPNNRD; and

WHEREAS the LPNNRD has secured funding from multiple sources for earlier stages of the Project, including federal funding and state funding through the Nebraska Water Sustainability Fund Grant #5201for three flood reduction structures, and now seeks additional funding for the entire Project; and

WHEREAS the Legislature has appropriated money from the Jobs and Economic Development Initiatives (JEDI) Fund to the Department's Budget Program 319 Water Projects Fund; and

WHEREAS, pursuant to the JEDI Act, *Neb. Rev. Stat.* §§ 61-401 to 61-405, and LB1011, 2022, Section 87, the Department is charged with the responsibilities of establishing and administering dispersals for carrying out the Fund's purposes, including contracting with natural resources districts for flood control activities; and

WHEREAS the Director of the Department has reviewed the environmental, hydrological, and other feasibility studies associated with the Project and has deemed the Project feasible pursuant to the requirements of *N.R.S.* 61-405(3).

WHEREAS the Department determined that the LPNNRD is eligible for funding for flood reduction activities under the terms of the JEDI Act; and

WHEREAS the LPNNRD through its contractor FYRA Engineering has submitted a summary of the Project budget, Attachment A, and proposed of Scope of Work approved by the Upper Wahoo Creek Watershed Agreement between U.S. Dept. of Agriculture Natural Resources Conservation Service (NRCS) and LPNNRD, Attachment B, hereby incorporated by reference into this agreement

NOW THEREFORE, in consideration of the mutual covenants and promises contained herein, and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties agree as follows:

1. PARTIES. The parties to this agreement are the State of Nebraska, Department of Natural Resources (Department) and the Lower Platte North Natural Resources District (LPNNRD).

2. TERM OF AGREEMENT. This Agreement shall become effective on the date signed by the last party and shall remain in effect until Project construction is completed or until December 31, 2029 or until this Agreement is terminated by either party.

3. WORK TO BE PERFORMED. Attachments A and B describe the scope of work, completion of the ten Wahoo Creek flood risk reduction structures located in Saunders County.

4. INDEPENDENT CONTRACTOR. LPNNRD shall complete through its own efforts, or through contracting with a capable party, all obligations for completing the Project and ensuring that all state, local, and federal legal compliance, accountability, permitting, and reporting obligations are met.

   A. It is agreed that nothing contained in this Agreement is intended to be or should be construed in any manner as creating or establishing the relationship of partners between the Department and the LPNNRD or contractors of LPNNRD.

   B. All claims on behalf of any person arising out of employment or alleged employment (including but not limited to claims of discrimination against the LPNNRD, its officers or its agents) shall in no way be the responsibility of the Department or the State. The LPNNRD will hold the Department and the State harmless from all such claims. The LPNNRD personnel and all other persons acting for the LPNNRD shall not require nor be entitled to any reimbursement, rights or benefits from the Department or the State including but not limited to tenure rights, medical and hospital care, sick and vacation leave, severance pay, or retirement benefits.

4. PAYMENT. The Department will pay LPNNRD up to 100% of its costs, except for amounts required for Nebraska Water Sustainability Fund local match or amounts provided by subsequently procured federal sources, up to a maximum of $19,667,600 in reimbursement for actual, necessary, and reasonable expenses and costs incurred by LPNNRD in performance the work carried out under paragraph 3 of this Agreement after April 7, 2022. LPNNRD agrees to reimburse the Department for any JEDI/Department Budget Program 319 funds it receives pursuant to this Agreement that duplicate any federal funds received for the Project after execution of this Agreement.

   a. LPNNRD shall submit invoices to Department contract manager/project contact Jesse Bradley, Nebraska Department of Natural Resources, 245 Fallbrook Blvd., Suite 201, Box C, Lincoln, NE 68521. Invoice justifications may consist either of certifications of work completion by LPNNRD's contracted engineer or copies of cancelled checks or comparable evidence of payment. Invoices shall set forth

included cost with enough detail to understand its purpose and price. Invoices will be reviewed by the Department Project Contact for satisfactory completion of the work specified in paragraph 3 above.

b. Payment shall be made within sixty (60) days of receipt of satisfactory invoices.

c. LPNNRD shall maintain records adequate to document that it had qualified expenditures under the terms of this contract. Such files shall be available for inspection by personnel of the Department and by representatives of the State Auditor's office during normal business hours of LPNNRD. If the Director becomes aware of a violation of the contract between LPNNRD and the Department, the Director may terminate the contract and/or demand reimbursement of any state funds related to such violation.

d. After July 1, 2023, continued payment eligibility requires that LPNNRD files an annual report of Project progress with the Department, the first one due July 1, 2023, reporting Project work completed during the past twelve-month period and Project work planned for the following twelve-month period.

d. Invoices or reimbursement requests for expenditures acquiring interests in real property must comply with Nebraska Executive Order 21-08 and include, for each legal interest acquired:

(i) Title insurance policy showing title in the seller;
(ii) Closing statement signed by the seller;
(iii) Copy of recorded instrument (deed/easement) from the seller to the Sponsor for the specified real estate;
(iv) Copy of certified check payable to the seller for the indicated transaction; and
(v) Brief explanation of the relationship of the property interest to the Project.

If funds transferred to the District under this contract are used to purchase land easements, the easements required for the flood control dam project (project) shall be limited to ninety-nine (99) years in length. These easements will then be renewed for another ninety-nine (99) years lease unless the landowner or the District desires to end the easement(s) for the project at that time. If the District elects to end the easements for the project the District shall continue to be responsible for operating and maintaining the project in accordance with prevailing dam safety standards.

5. AMENDMENT. This agreement may be amended only in a writing duly executed by all the parties.

6. TITLES NOT CONTROLLING. The titles of the paragraphs are for reference only and shall not be used to construe the language of this agreement.

7. PREVAILING LAW. This Agreement is governed by the laws of the State of Nebraska including the State Contract Claims Act, *Neb. Rev. Stat.* §§ 81-8,302 through 81-8,306.

8. TECHNOLOGY ACCESS. LPNNRD agrees to ensure compliance with Nebraska Access Technology Standards.

   See website at: http://www.nitc.state.ne.us /standards/accessibility.

9. FAIR EMPLOYMENT PRACTICES. LPNNRD agrees to ensure compliance with the Nebraska Fair Employment Practice Act which prohibits contractors of the State of Nebraska, and their subcontractors, from discriminating against any employee or applicant for employment, with respect to hire, tenure, terms, conditions, or privileges of employment because of race, color, religion, sex, disability, or national origin, *Neb. Rev. Stat.* §§ 48-1101 through 48-1125.

10. NEBRASKA DRUG-FREE WORKPLACE POLICY. LPNNRD agrees to ensure compliance with the Nebraska Drug-Free Workplace Policy.

11. WORKER ELIGIBILITY STATUS REQUIREMENTS. LPNNRD is required and hereby agrees to use federal immigration verification system to determine the work eligibility status of any contractors paid with proceeds of this contract that are physically performing services within the State of Nebraska. LPNNRD understands and agrees that lawful presence in the United States is required for such employment and LPNNRD may be disqualified or the contract terminated if such lawful presence cannot be verified as required by *Neb. Rev. Stat.* § 4-108. A federal immigration verification system means the electronic verification of the work authorization program authorized by the Illegal Immigration Reform and Immigrant Responsibility Act of 1996, 8 U.S.C. 1324a, known as the E-Verify Program, or an equivalent federal program designated by the United States Department of Homeland Security or other federal agency authorized to verify the work eligibility status of a newly hired employee.

12. AUDIT BY OFFICE OF THE STATE AUDITOR.

    Any public or private non-profit entity or political subdivision of the state serving as the service contractor or sub-recipient of funds under this Agreement, except for an individual person, is subject to audit by the Office of State Auditor and must comply with requests

for any information or records within three business days after the actual receipt of the request pursuant to *Neb. Rev. Stat.* Reissue of 2015, § 84-304(4) (a) and § 50-1213(2).

13. Indemnification

Neither the Department nor the State of Nebraska shall be liable for any damage or compensation payable with respect to or in consequence of any accident or injury to any workman or other person in the employment of LPNNRD that would be covered by worker's compensation insurance, liability insurance, or otherwise, save and except an accident or injury resulting from an intentional act of the Department. LPNNRD shall indemnify, defend, and hold harmless the Department and the State of Nebraska against all such damages, compensation, and against all claims, proceedings, costs, charges, attorney's fees, and expenses whatsoever in respect thereof or in relation thereof. LPNNRD shall indemnify the Department and the State of Nebraska for any damages, claims or liability to the extent caused by its negligent acts, errors or omissions arising out of the performance of professional services under this Agreement. LPNNRD expressly waives all statutory or common law defenses, including but not limited to those under Workers' Compensation, Contribution, Comparative Fault or similar statutes or legal principles to the extent said defenses are inconsistent with or would defeat the purpose of the indemnification under this section.

14. Entire Agreement/Severability/Waiver

This Agreement is the entire agreement between the parties hereto; no representations, inducements, promises or agreements, oral or other, between the parties not embodied herein shall be of any force or effect. In the event any provision of this Agreement shall be held invalid and unenforceable, the remaining provisions shall be valid and binding upon the parties. One or more waivers by either party of any provision, term, condition or covenant shall not be construed by the other party as a waiver of a subsequent breach of the same by the other party.

15. PROJECT CONTACTS.

LPNNRD's Project Contact for this Agreement is Eric Gottschalk. His telephone number is (402) 443 4675; mailing address is: Lower Platte North NRD, 511 Commercial Park Rd., P.O. Box 126, Wahoo, NE 68006; email address is egottschalk@lpnnrd.org

Department's Project Contact is Jesse Bradley. His telephone number is (402) 219 1357; mailing address is: Nebraska Department of Natural Resources, 245 Fallbrook Blvd., Box C, Suite 201, Lincoln, NE 68521; email address is jesse.bradley@nebraska.gov .

All correspondence, other communication, and notices will be provided by and to Project Contacts.

IN WITNESS WHEREOF, the Parties to this Agreement through their duly authorized representatives have executed this Agreement on the days and dates set out below, and certify that they have read, understood, and agreed to the terms and conditions of this Agreement as set forth herein.

The Effective Date of this Agreement is the date of the signature last affixed to this Agreement.

LOWER PLATTE NORTH NATURAL RESOURCES DISTRICT

Memorandum

To: Eric Gottschalk, Lower Platte North Natural Resources District
From: FYRA Engineering
Project: 10 Wahoo Creek Structures - Saunders County Flood Control Project
Re: JEDI Funding
Date: September 7, 2022

This purpose of this memorandum is to detail the total costs and funding sources for the 10 Wahoo Creek flood risk reduction structures located in Saunders County, NE which were recently allocated JEDI funding.

The project includes 10 flood risk reduction sites, described in detail in the NRCS-funded and approved Upper Wahoo Creek Watershed Plan-Environmental Assessment (EA) and Finding of No Significant Impact (FONSI). Planning has been completed for the project and final design and permitting are ongoing. This project underwent an extensive economic analysis and yielded a benefit to cost ratio of 1.23 with estimated average annual flood damage reduction benefits of $772,100 (price base: 2020, amortized over 58 years at a discount rate of 2.50 percent).

Total Project Costs. Project costs are $19,667,600 (price base: 2020) and include engineering, permitting, mitigation, easements, construction, and project administration. Planning costs total $817,305 and have been exhausted. A portion of the engineering costs have also been utilized. Construction costs are constantly increasing, and it is anticipated that the total project costs will be above those calculated in 2020.

Federal Funding. The project received funding through two NRCS P.L. 83-566 programs, the Regional Conservation Partnership Program (RCPP) and the Watershed and Flood Prevention Operations program (WFPO). RCPP allocated funds include a portion of the construction of Sites 26a, 26b, and 27 (up to $1,350,000) and $150,000 in NRCS technical assistance, including $37,500 for planning. Additional construction costs, as well as engineering/design costs, are not covered under the RCPP program. WFPO allocated funds include 100 percent funding for planning ($817,305), design ($1,325,630), and administration ($15,000) of the seven additional sites. Up to 100 percent of construction costs for the seven sites (excluding mitigation) could be funded by the WFPO program. However, the availability of Federal funds is contingent upon appropriations available for this purpose. Table 1 below shows the allocated and potentially available funds from the Federal programs.

State Funding. The Nebraska Department of Natural Resources (NDNR) Water Sustainability Fund (WSF) awarded funding assistance of $2,269,194 to the LPNNRD to assist with the non-federal construction and easement costs for Sites 26a, 26b, and 27. WSF requires a 40 percent local cost share of non-federal costs. Table 1 below shows the allocated funds for this project.

Land Acquisition/Easements. Easements will be acquired for land within the project limits, including the embankment, permanent pool, flood pool, auxiliary spillway, top of dam limits, and mitigation sites. These easements fall under #7 and #8 of Executive Order 21-08.

Table 1. State and Federal Funding

	Allocated Funds for LPNNRD Use[1]			Potential Funds[2]
Funding Source	WSF	RCPP	WFPO	WFPO
Sites 26a, 26b, 27	$ 2,269,194	$ 1,350,000	$ -	$ -
Remaining 7 Sites	$ -		$ 2,157,935	$ 10,198,500

[1]*Does not include Federal funds allocated for NRCS use*
[2]*Contingent upon future Federal appropriations and not guaranteed*

JEDI funding has given the LPNNRD an opportunity to build the remaining 7 flood reduction sites at an expedited pace that could not be possible if relying on WFPO funds and local cost share. Federal funds for construction of the remaining sites are not guaranteed and, if available, could take many years to acquire. It is anticipated that utilizing WFPO funds and local cost share in lieu of JEDI funds could take over 8 years for project implementation. With JEDI funds, the Federal funds for construction would not be requested, as shown in Table 2. State WSF funds for Sites 26a, 26b, and 27 would still be utilized as the local cost share for the LPNNRD has already been budgeted and the WSF funds have been previously allocated for this project.

Table 2. Accepted State and Federal Funding when Utilizing JEDI Funds

	Allocated Funds for LPNNRD Use[1]			Potential Funds[2]
Funding Source	WSF	RCPP	WFPO	WFPO
Sites 26a, 26b, 27	$ 2,269,194	$ 1,350,000	$ -	$ -
Remaining 7 Sites	$ -		$ 2,157,935	$ -

[1]*Does not include Federal funds allocated for NRCS use*
[2]*Contingent upon future Federal appropriations and not guaranteed*

November 17, 2022

Lee Will, State Budget Administrator

Nebraska Department of Administrative Services

1445 K St., Rm.1320

Lincoln, NE 68508

Dear Mr. Will,

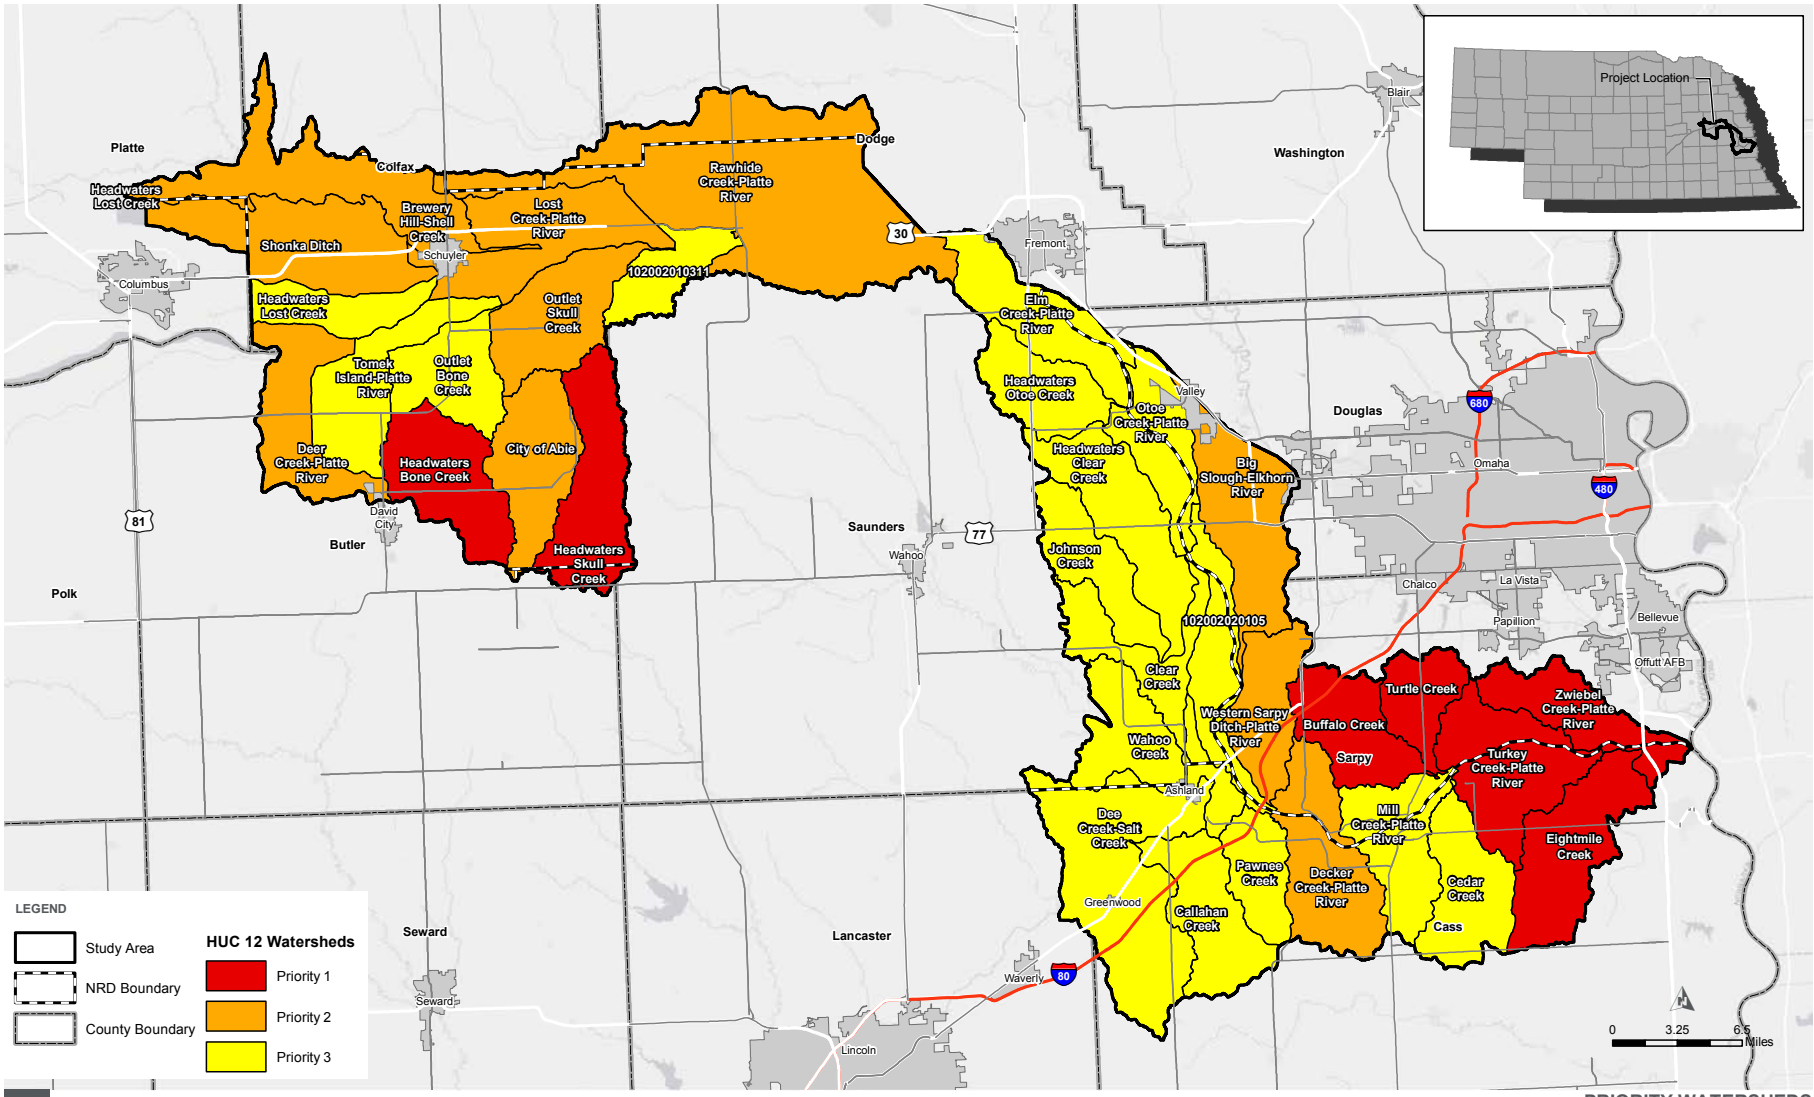

Pursuant to the Jobs and Economic Development Initiative Act and N.R. S. 61-405(3), I wish to certify to you that the Department of Natural Resources has conducted or reviewed all environmental, hydrological, or other feasibility studies necessary to establish the feasibility of the Wahoo Creek Watershed Flood Control Project of the Lower Platte North Natural Resources District (NeDNR Contract #) and based on the results of such studies, I deem the project feasible.

Respectfully,

Thomas E. Riley, P.E. Director

CC: Jacob Leaver, DAS Budget Analyst

WATER QUALITY MANAGEMENT PLAN FOR THE LOWER PLATTE RIVER CORRIDO

Elkhorn Township Drainage Improvement Progress Meeting

DATE AND TIME | April 24, 2023 @ 1:30
PROJECT | Dodge County – Elkhorn Township Drainage Improvement
JEO Project #181941.00
DR-4420-NE-0019
MEETING | Progress Meeting
LOCATION | Fremont City Council Chambers

1. Goal of today's meeting
    i. **Provide project update and**
    ii. **Status of FEMA BRIC application**

2. Project Open House – March 30, 2023 @ Johnson Crossing Academic Center
    a. 44 entries on Sign-In Sheet
    b. 5 Responses to the Open House Comment Form
    c. 6 Responses to the Flood Damage Survey Form (4 hard copy during open house, 2 via website)
        i. Additional follow up photographs etc. from one property owner
    d. 191 views of website (February 23, 2023 thru April 24, 2023)

3. Preferred Alternative Review
    a. Detention Areas
        i. Port Authority
        ii. City of Fremont Property
    b. Channel Improvement (Luther Rd to Co. Rd. 26)
    c. Storm Sewer Improvement (1st St and Clarmar Ave)
    d. Rural Ditch Re-Establishment (Rawhide Creek, Ditch 4, Ditch 3)
        i. Review of easements
        ii. Confirm scope of re-establishment
            1. Focus on stream reaches with current easements
            2. Woody vegetation removal and disposal
            3. Minor Sediment at culverts
            4. Open/clean-out existing culverts
            5. Channel widening/deepening or new culverts **NOT** anticipated at this time
    e. Updated Opinion of Project Cost for Construction
        i. Phase 1 – Engineering Design, Permit Applications and Property Acquisitions
            1. Engineering Design and Permit Applications - $4,850,000
            2. Property Acquisitions including Legal - $3,674,000
            3. Total Contingency (Limited to 5% by FEMA) - $421,700
            4. Total - $8,855,700
        ii. Phase 2 – Construction, Construction Administration
            1. Construction all elements - $43,204,450
            2. Construction Administration/Observation - $2,800,000
            3. Total Contingency (Limited to 5% by FEMA) - $2,300,222.50
            4. Total - $48,304,672.50

iii. Total Project Estimate - $57,160,372.50

f. Long Term O&M Costs
   i. Detention/Channels/Storm Sewer
      1. Mowing/Debris Removal/Storm Sewer Inspection
      2. ~$17,500.00 per year
   ii. Need input from LPN NRD and Dodge County
g. Environmental Review Status
   i. See attached

4. BRIC Grant Application Overview – DCMC
   a. See attached

5. Review of BCA
   a. Structural Damages (private properties)
      i. $56.8 Million
      ii. Currently using 2019 Dodge Co. Assessor Information. Will be updating with 2022 information
      iii. High benefit properties
   b. Structural Damages (public properties)
      i. $26.5 Million
      ii. Currently using FEMA standard property values – (See attached)
   c. Social Damages
      i. $1.4 Million
   d. Environmental Benefits
      i. $12.3 Million
      ii. Large portion coming from detention cell creation
   e. Total Benefits Identified to date
      i. $97 Million
   f. Total BCR to date
      i. 1.70
   g. Other Benefits
      i. Roadway Benefits
      ii. Utility benefits – challenging to quantify/justify

6. Discussion of non-federal cost share and maintenance agreements

7. Next Steps
   a. Advance grant application information for completion June 1, 2023
   b. Coordinate with Tom to schedule meeting with NEMA
   c. Respond to NEMA/FEMA questions throughout the review
   d. Continue to coordinate with Port Authority, NDOT and UPRR

Labels shown above represent the proposed bottom width of the improvements.

32 Total Length Miles
16 Total Time @ 2 mph

$1,200.00 Total NRD Cost @ $75/hr

MEMO

From: Ryan Joe, JEO Consulting Group
Date: 4/18/2023
Subject: Dodge County Township Improvement Regulatory Review

Desktop Review

A desktop review was conducted using U.S. Geological Survey (USGS) topographic maps, U.S. Fish and Wildlife Service (USFWS) National Wetlands Inventory (NWI), Natural Resources Conservation Service (NRCS) Web Soil Survey, Federal Emergency Management Agency (FEMA) Digital Flood Insurance Rate Maps (DFIRM), and USGS National Hydrography Dataset (NHD), as well as current and historic aerial imagery provided through Google Earth to identify potential Waters of the U.S. (WOTUS), including wetlands, and areas historically prone to wetland development. The following is a summary of the desktop review.

USGS 7.5-Minute Series Topographic Map
The general topographic gradient shown in the USGS topographic map within the proposed project boundary is predominantly flat, with elevations approximately 1,160 feet to 1,175 feet above mean sea level.

USGS NHD
The online NHD mapping tool shows the project area within hydrologic unit code (HUC) 102200031005, within the Old Channel Rawhide Creek-Elkhorn River watershed, and within (HUC) 102200031003, within the Rawhide Creek watershed. The map depicts multiple aquatic resources crossing within the project area (see Figure 1). This includes Rawhide Creek (Old Channel), which is identified as an intermittent stream flowing east throughout the project area, three unnamed intermittent stream segments running through portions of the project area, and a reservoir (type: water storage) northeast of the intersection of US 275 and Morningside Road.

USFWS NWI
The NWI map depicts multiple features within the proposed project area (see Figure 2). Rawhide Creek (Old Channel) is depicted as a riverine, intermittent, streambed, seasonally flooded, excavated stream (R4SBCx). Other features mapped within the study area include a riverine, intermittent, streambed, seasonally flooded stream (R4SBC) that extends in multiple directions throughout the study area on the east side of US 275; a palustrine, emergent, persistent, seasonally flooded wetland (PEM1C) on the west side of S County Road 26 approximately 0.35 miles north of County Road W; a palustrine, emergent, persistent, seasonally flooded, excavated wetland (PEM1Cx) on the east side of S County Road 26; and a second PEM1Cx northwest of the intersection of S Johnson Road and E 1st Street. No other features are mapped within the project area, although multiple features exist within the vicinity.

NRCS Web Soil Survey
The Web Soil Survey maps nine soil units within the study area:

- 2288—Wann loam, occasionally flooded
- 3529—Gibbon loam, 0 to 2 percent slopes, occasionally flooded
- 3537—Gibbon silty clay loam, occasionally flooded
- 6528—Janude loam, clayey substratum, rarely flooded
- 7787—Luton silty clay, occasionally flooded
- 7891—Zook silt loam, overwash, 0 to 2 percent slopes, occasionally flooded
- 8403—Alda loam, 0 to 2 percent slopes, occasionally flooded
- 8480—Gibbon-Wann complex, occasionally flooded
- 9986—Miscellaneous water, sewage lagoon

Of these nine soil units, 3529, 3537, 6528, 7787, 7891, and 8403 are included in the Nebraska Hydric Soils list and are therefore considered to be hydric (See attached Figure 3).

FEMA DFIRM
The FEMA DFIRM shows the proposed project on Panel 31053C0415E, effective date 01/02/2008 and Panel 31053C0425E, effective 01/02/2008. A portion of the proposed project is mapped as Zone AO, which are areas with flood depths of 1 to 3 feet (usually sheet flow on sloping terrain. A portion of the project on the eastern limits of the project area is mapped as a special flood hazard area, without base flood elevation (BFE).

Aerial Imagery
A review of both recent and historic aerial imagery (1991 – 2022) in Google Earth depicts the area surrounding the study area within a semi-rural setting surrounded by agriculture around a majority of the project area, and a residential/industrial area on the west side of the project area. Some changes to the landscape were observed in the aerial images reviewed, specifically development along US 275 and the city limits of Fremont.

Farmed Wetland Analysis
In accordance with guidance contained in the Midwest Regional Supplement and NRCS National Engineering Handbook, Part 650, Chapter 19, available data from the NRCS Geospatial Data Gateway for Dodge County, Nebraska were utilized to complete a farmed wetland analysis.

A desktop review of five years of color aerial imagery taken during the growing season obtained from the National Agricultural Imagery Program (NAIP), was completed to determine whether wetland hydrology is present within the agricultural fields in the study area. The selected years of imagery reviewed and analyzed for potential wetlands based on hydrologic indicators includes 2010, 2014, 2018, 2020, and 2022 (see Figures 4a-4f). Precipitation data from the FREMONT, NE WETS Station (the nearest NRCS WETS station to the study area) were analyzed for the three months prior to the date each aerial image was taken. The precipitation data was then given a weighted value to determine wet, dry, or normal conditions.

The hydrology analysis process then requires using at least five years of aerial imagery from normal precipitation years to estimate the boundaries of potential wetlands. In accordance with NRCS National Engineering Handbook, Part 650, Chapter 19, one normal year was available (2018), two drier than

normal years (2020 and 2022), and two wetter than normal years (2010 and 2014) were also reviewed and analyzed. The specific wetland signatures analyzed during the farmed wetland analysis included:

Standing water

Flooded or drowned-out crops

Crop stress

Dry areas

Inclusions of wet areas as "set-aside"

Areas displaying saturated soil signatures that overlapped in at least three years (>50%) of the selected five years of NAIP imagery were identified as potential wetlands and geospatially referenced using GIS (see Figures 4a-4f). Approximately 12.750 acres of farmed wetlands were identified during this preliminary analysis, but field verification will be needed to confirm wetland boundaries and acres.

404 Permitting

Based on our preliminary review, our data suggests that the project may require an Individual Section 404 Permit. This is dependent on design and impact calculations after design is finalized. Additionally, wetland mitigation and/or stream mitigation will likely be required, dependent on wetland impacts. JEO recommends a wetland delineation to identify wetlands and other Waters of the U.S. (WOTUS) to determine permitting approach.

Threatened and Endangered Species

The project area was submitted for preliminary review through the Nebraska Game and Parks (NGPC) Conservation and Environmental Review Tool (CERT) to assess potential impacts to threatened and endangered species. According to the CERT Report (attached), the species listed as potentially occurring in the immediate vicinity of the project include piping plover (*Charadrius melodus*), northern long-eared bat (*Myotis septentrionalis*), and interior least tern (*Sternula antillarum athalassos*). Further consultation will likely be required with the NGPC and US Fish and Wildlife Service (USFWS), and additional conservation conditions may be required to avoid impacts to listed species.

Cultural Resources

A search of the National Register of Historic Places (NRHP) did not identify any historic properties listed or eligible for listing on the NRHP within the project area. Additional coordination between the USACE and SHPO may be required to determine potential impacts to cultural resources.

Executive Summary
Elkhorn Township Drainage Improvements
BRIC Application

Overview of BRIC:

Building Resilient Infrastructure and Communities (BRIC) is a national competitive federal grant program funded annually through the Disaster Relief Fund. Each fiscal year, funding for BRIC is calculated at 6% of the estimated disaster expenditures incurred the previous fiscal year. The grant cost share requirement is 75% federal and 25% non-federal of the project's eligible costs like other Hazard Mitigation Assistance programs.

Projects submitted for BRIC funding mitigate risk from future natural hazards with emphasis on the incorporation of nature-based solutions, enhancing climate resilience and adaptation, and leveraging partnerships for strengthening community relationships. Applications are evaluated and scored for Technical Criteria such as project type, green mitigation solutions, and building codes and standards and Qualitative Criteria including community engagement, considerations for climate change and future conditions, and resilience effectiveness.

Elkhorn Township Drainage Improvements & BRIC:

The Elkhorn Township Drainage Improvements (ETDI) project/application is well positioned for the specific requirements of the BRIC program including:

- The application will be developed from the Advance Assistance federal grant.
- Partnerships between the City of Fremont, Dodge County, and the Lower Platte North Natural Resource District are already in place.
- Additional potential partnerships with the Port Authority, the Department of Transportation, and Union Pacific Railroad strengthen the application.
- The CDC Social Vulnerability Index (SVI) of Dodge County is within the range BRIC requires for mitigation efforts to benefit disadvantaged communities.
- The majority of implementation measures are nature-based solutions such as earthen drainage ditches and detention ponds.
- Ancillary benefits such as the creation of inland wetlands (detention ponds) align with programmatic green infrastructure goals.

ETDI BRIC Application Structure:

The ETDI project will be proposed as a phased project in the BRIC application. Upon award, funding for Phase I activities will be obligated and Phase II funding will be allocated pending final approval of identified deliverables at the conclusion of Phase I. Studies, permits, and final project design implemented during Phase I will be in addition to the information generated through the Advance Assistance grant. At the conclusion of the first phase, deliverables such as

permit applications, 100% design plans, final opinion of probable cost, final work schedule, and final benefit-cost analysis (BCA) will be submitted for review. Upon approval of Phase I deliverables, Phase II of the project will commence and include all construction activities and project closeout.

The BRIC application will include a Management and Administration Budget Narrative for reimbursement of costs associated with grant/program management distributed over the period of performance (48 months) such as the creation of one or two city level positions for dedicated staff to administer and comply with funding requirement activities. These costs can total 5% of the total cost of the ETDI project and include the resources needed for staff to comply with regulations such as computers, printers, furnishings, and transportation.

BRIC Timeline:

The Notice of Funding Opportunity (NOFO) for Fiscal Year 2023 will be issued in late July or early August of this year and contain supplemental programmatic requirements, in addition to the 2023 HMA Guidance requirements, that will apply to the ETDI application package.

BRIC applications are anticipated to be due to the Nebraska Emergency Management Agency (NEMA) in late November or early December 2023 for the State's review. The federal deadline for BRIC applications will be mid-January 2024 and it is expected that FEMA will begin announcing awards in the summer of 2024.

BRIC Overview

Purpose:

- To reduce or eliminate risk and damage from future natural hazards

Funding Source:

- Funded annually through the Disaster Relief Fund
- BRIC funding is calculated at 6% of the estimated disaster grant expenditures incurred the previous fiscal year
- Over $1 billion in funding was available in FY 2021 and $2.295 billion was available in FY 2022

Eligible Applicants

Applicants:

- States
- Territories
- Federally recognized Tribal governments

Sub-Applicants:

- Local governments
- Tribal governments
- State and Tribal agencies

Cost Share Requirement

Federal Cost Share - 75% of eligible costs

Non-federal Cost Share – 25% of eligible costs

- Cash
- Donated or third-party in-kind services or materials
    - Such as land for the detention pond

Note: A non-federal cost share of 30% or greater will score 5 additional Technical Points when the BRIC application is evaluated.

Eligible Activities

Capability and Capacity Building

- To enhance and improve the administration of mitigation assistance
    - Project scoping, building code, and planning activities

Hazard Mitigation Projects

- Cost effective projects designed to increase resilience against natural hazards
    - Construction projects such as Elkhorn Township Drainage Improvements

Management Costs

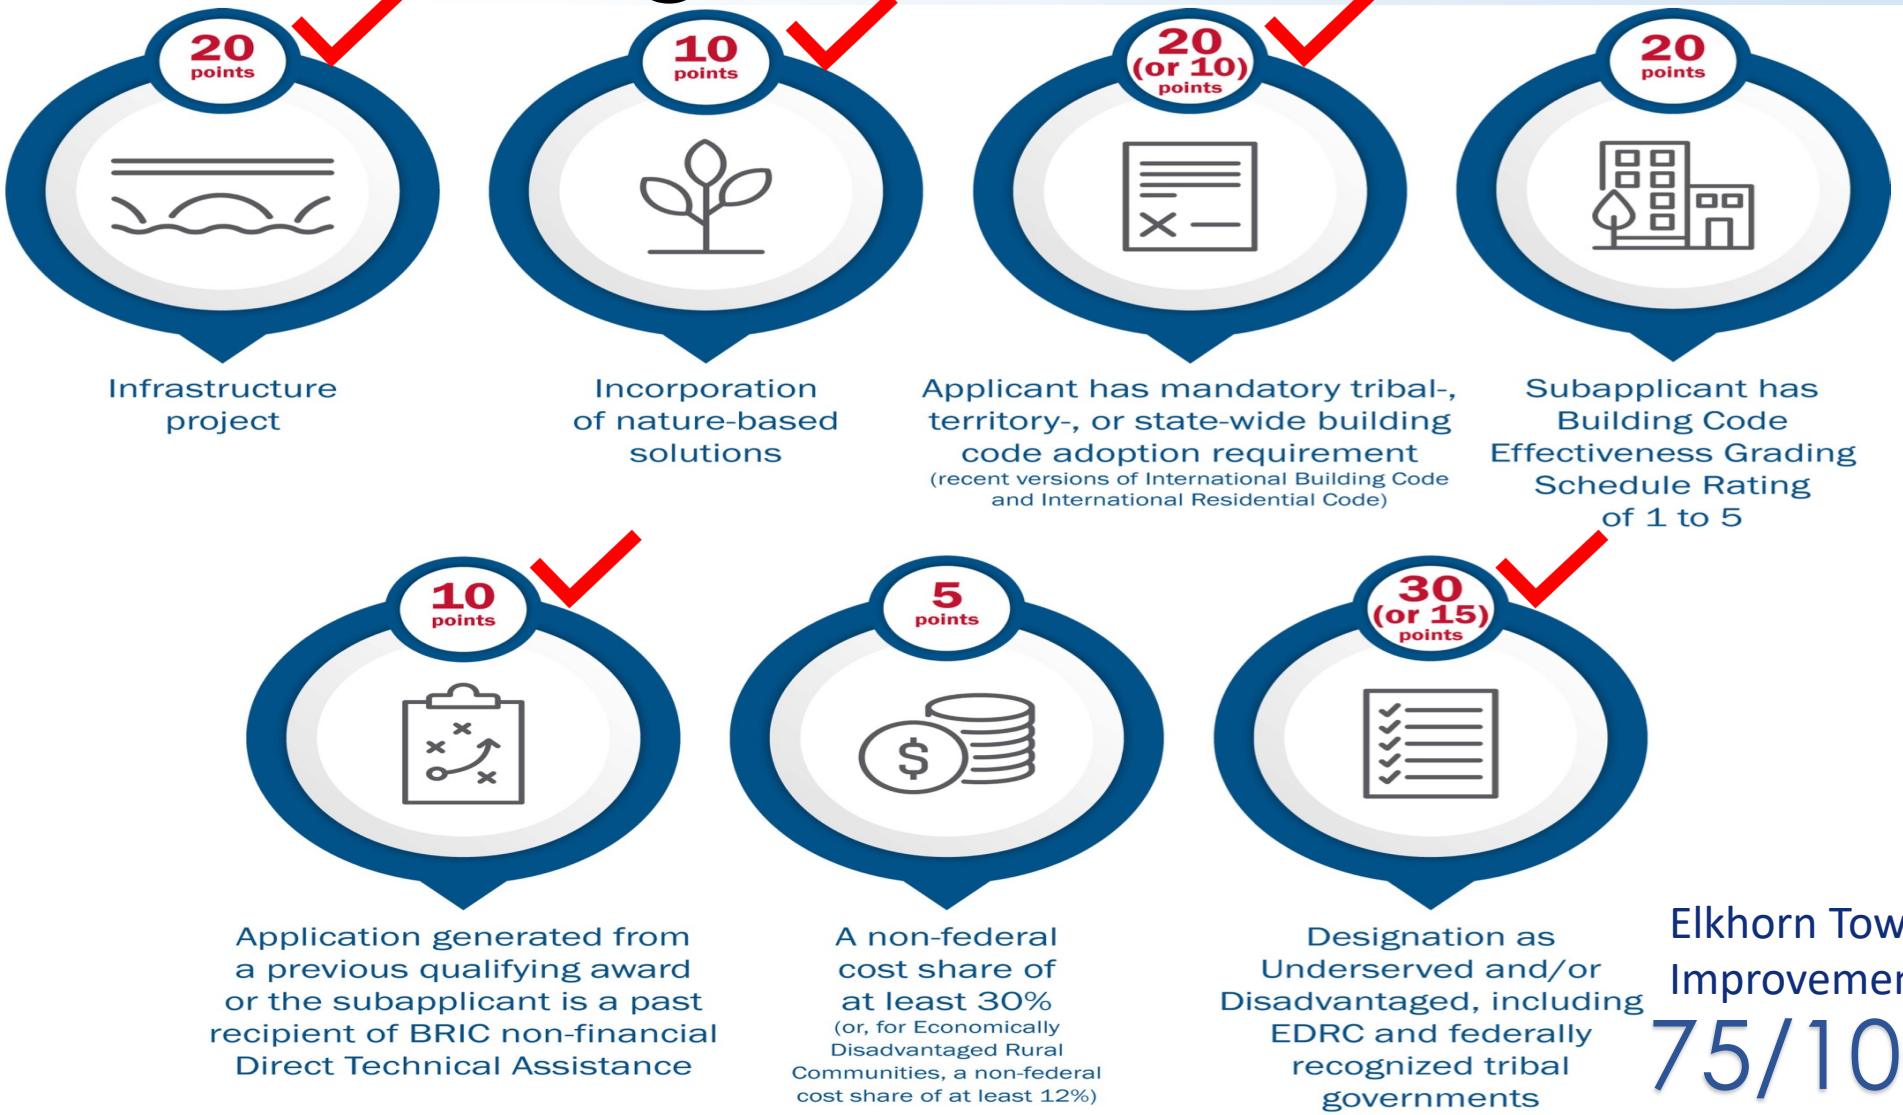

- Reimbursement of eligible direct and indirect costs related to grant management
    - Up to 5% of the total project cost for expenditures such as force account labor and contractual consulting

Management Costs

Grant management and administration costs distributed across the project's period of performance for activities such as:

- Contractual costs for community engagement and hazard mitigation subject matter experts
- Force account labor for City grant management staff
    - Must be trackable hourly/fringe costs
- Equipment required for grant management staff
    - Computers
    - Printers
    - Office furnishings
    - Lease vehicles

BRIC Scoring Criteria - Technical

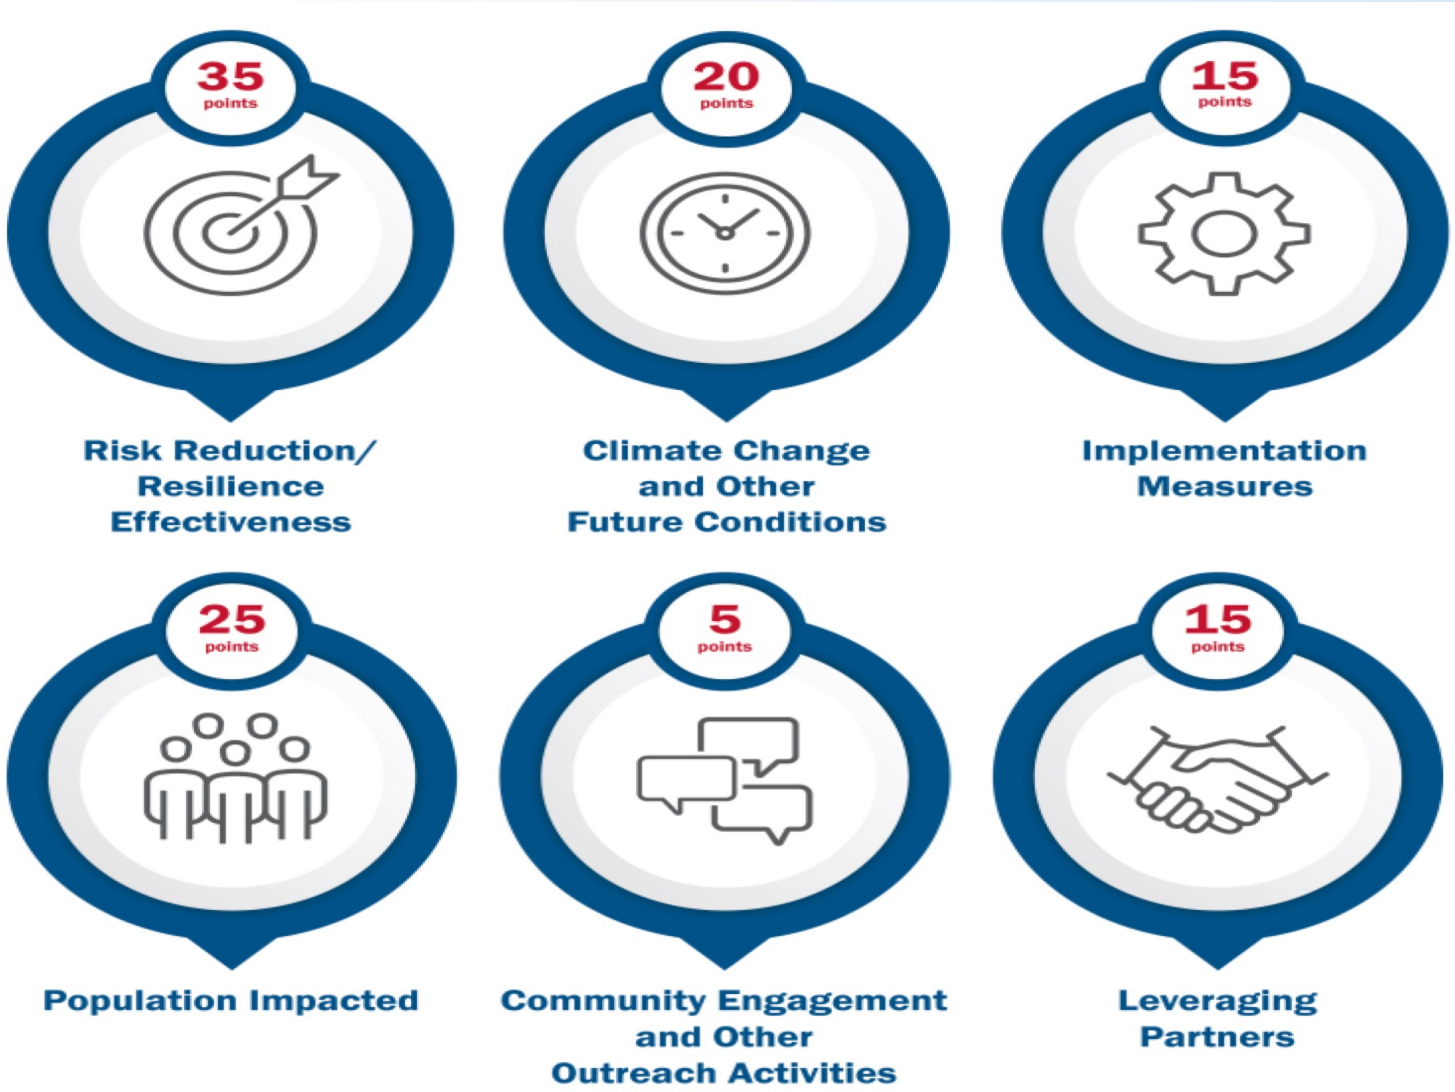

Elkhorn Township Drainage Improvements Project

DCMC PARTNERS
CONFIDENCE DURING CRISIS
A LEMOINE COMPANY

BRIC Scoring Criteria - Qualitative

Graded scale of point scoring

DCMC PARTNERS
CONFIDENCE DURING CRISIS
A LEMOINE COMPANY

Elkhorn Township Drainage Improvements

Sub-Applicant
City of Fremont

Period of Performance
- The period of performance is 48 months
- Regional administration can grant up to two 12-month extensions

Phased Project
- When awarded, Phase I funding will be obligated and Phase II will be allocated; at the conclusion of Phase I, deliverables will be submitted for Phase II approval including final OPC and BCA
    - Phase I: Studies, permitting, design – these activities will not overlap with current Advance Assistance scope
- Upon approval of Phase I deliverables, allocated Phase II funding will be obligated
    - Phase II: Construction

BRIC Timeline:

- Late July to early August 2023 – FY2023 Notice of Funding Opportunity (NOFO) issued
- Late November to early December 2023 – Applications due to NEMA
- January 2024 – Applications from NEMA due to FEMA
- Summer 2024 - FEMA award announcements

Fremont Structural Damages

Fremont, NE

0 0.0375 0.075 0.15 Miles

JEO CONSULTING GROUP INC

West Fremont-Platte Township
Kick-Off Meeting

DATE AND TIME | April 26, 2023
PROJECT | Dodge County – West Fremont Scoping Project
JEO Project #201901.00
EMK-2020-BR-013-0015
MEETING | Progress Meeting
LOCATION | Dodge County EM Office

1. Goal of today's meeting
    i. **Discuss previously presented flood risk reduction actions**
    ii. **Discuss Nonstructural actions**
    iii. **Preliminary screening**

2. Review of Flood Risk Reduction Actions (Presented at February progress meeting)
    a. Dedicated/directed overflow of Platte River through sandpit lakes
        i. Mimicking of Old North Channel through sandpit lakes beginning at Co. Rd 19 and ultimately through Hormel Park
        ii. *See Map - "Platte River 5-year Coincident Flow – Controlled Overflow Path"*
    b. Modifications in Hormel Park to improve conveyance
        i. Removal of dead/dying trees and underbrush in Hormel Park to provide better flow
        ii. *See Map - "Platte River 5-year Coincident Flow – Clean Hormel Park"*
        iii. Removal of dead/dying trees and re-establishment of channel thru Hormel Park to provide better flow
        iv. *See Map - "Platte River 5-year Coincident Flow – Clean & Lower Hormel Park"*
    c. Hardening existing County/City culvert crossings
        i. No additional culvert crossings. Hardening only to minimize costs in future events
        ii. *See Map - "Platte River 10-year Coincident Flow – Ridge Rd and Culverts"*
    d. Strategic road raises (Big Island, Ridgeland and Ridge Rd)
        i. Average raise 6" – 2'0" Big Island Rd.
        ii. Raise 2'-0" - 4'-0"- Ridgeland/Ridge Rd
        iii. *See Map - Platte River 5-year Coincident Flow – Big Island and Ridgeland Road Raise"*
    e. Lake Ventura Cuttoff Improvements
        i. Strengthening/Raising Berms between Highway 30 and UPRR
        ii. Channel improvements through Rod & Gun Club
        iii. *See Map – "Platte River 5 – year Coincident Flow – Cuttoff Outlet"*
    f. Improvements to Farmland Levee
        i. Levee Raise to 50-year +2'-0" of Freeboard (low spots)
        ii. Geotech/Seepage/Stability improvements
        iii. Fremont Levee Evaluation – July 2020
        iv. *See Map – "Figure 23: 50-Year Freeboard"*
        v. *See Map – "Platte River 50-year Coincident Flow – Farmland Levee 50-year+0"*

3. Open Discussion on Structural Alternatives
4. Nonstructural Mitigation Review
5. Alternatives to pursue/develop

Platte River 5 yr Coincident Storm includes a 5 yr Storm on the Platter River and a 2 yr Storm on the Rawhide Creek.

Note: Areas which appear yellow within this map are locations that are inundated under existing conditions modeling but have been removed from inundation by the proposed conditions model. Pale blue areas are locations where existing and proposed conditions overlap and bright blue areas are locations of new inundation.

RE: Village of Leshara #21-PW-013 Drawdown #2

Dear Ms. Wagner:

Enclosed is Drawdown (DDs) #6 for the above-referenced Community Development project. After you have reviewed this material, please have Melvina Ruhe-Langfel (Chair) and yourself sign the DD forms as noted and mail the original forms to SENDD as well as a digital copy via email. Please keep a copy of the signed drawdown form and place that with the remainder of this documentation in File #IV – Financial Management. A claim will need to go before your board.

	TOTAL	CDBG	MATCH
Street Improvements (JEO) Activity Code: #03K	$4,248.66	**$3,530.74**	$717.92
SENDD General Administration #21A Invoices #1-11	$17,801.25	**$17,801.25**	$0.00
Total:	$22,049.91	$21,331.99	$717.92

The following invoices have been paid and thus, will be used to reimburse the Village for claims already paid to JEO.

	TOTAL	CDBG	MATCH
Street Improvements (JEO) Activity Code: #03K	$23,167.35	**$19,252.30**	$3,915.05
Total:	$23,167.35	$19,252.30	$3,915.05

EQUAL HOUSING OPPORTUNITY

AUBURN OFFICE
919 Central Ave
Auburn, NE 68305
Office: 402-862-2201

SENDD is an Equal Opportunity Provider and Employer

Please write a check in the amount of **$17,801.25** to
Southeast Nebraska Development District
7407 O St
Lincoln, NE 68510

Please write a check in the amount of $4,248.66 to:
JEO Consulting Group
1937 North Chestnut Street
Wahoo, Nebraska 68066

For your records, do keep a copy of the bank statement showing funds deposited by DED. **Please email copies of all statements and cancelled checks to jellenwood@sendd.org once payment has been made.** Feel free to give me a call at *402-475-2560* if you have any questions.

NOTES:

1. Upon completed processing at NDED/State, the CDBG funds will be electronically deposited in the identified Village's account. **Please disperse NDED funds within five days; otherwise, it may result in a finding during monitoring.**
2. **If you make a payment with local funds before the CDBG funds are electronically deposited in your Village account, that will be "reimbursement" and those funds are no longer considered "federal" and may be transferred to local accounts as you wish.**
3. **Please remember to keep copies of the bank statements showing deposits of CDBG funds and clearance of checks distributed.**

Sincerely,

Jalynn Ellenwood
Community Development Specialist
