Annotations

- Nebraska's public meetings laws do not apply to school board deliberations pertaining solely to disputed adjudicative facts. McQuinn v. Douglas Cty. Sch. Dist. No. 66, 259 Neb. 720, 612 N.W.2d 198 (2000).
- The primary purpose of the public meetings law is to ensure that public policy is formulated at open meetings. Marks v. Judicial Nominating Comm., 236 Neb. 429, 461 N.W.2d 551 (1990).
- The public meetings law is broadly interpreted and liberally construed to obtain the objective of openness in favor of the public, and provisions permitting closed sessions must be narrowly and strictly construed. Grein v. Board of Education of Fremont, 216 Neb. 158, 343 N.W.2d 718 (1984).
- Although a committee was a subcommittee of a natural resources district board, it was not subject to the Open Meetings Act because there was never a quorum of board members in attendance and the committee did not hold hearings, make policy, or take formal action on behalf of the board. Koch v. Lower Loup NRD, 27 Neb. App. 301, 931 N.W.2d 160 (2019).
- A county board of equalization is a public body whose meetings shall be open to the public. Wolf v. Grubbs, 17 Neb. App. 292, 759 N.W.2d 499 (2009).

84-1409. Terms, defined.

For purposes of the Open Meetings Act, unless the context otherwise requires:

(1)(a) Public body means (i) governing bodies of all political subdivisions of the State of Nebraska, (ii) governing bodies of all agencies, created by the Constitution of Nebraska, statute, or otherwise pursuant to law, of the executive department of the State of Nebraska, (iii) all independent boards, commissions, bureaus, committees, councils, subunits, or any other bodies created by the Constitution of Nebraska, statute, or otherwise pursuant to law, (iv) all study or advisory committees of the executive department of the State of Nebraska whether having continuing existence or appointed as special committees with limited existence, (v) advisory committees of the bodies referred to in subdivisions (i), (ii), and (iii) of this subdivision, and (vi) instrumentalities exercising essentially public functions; and

(b) Public body does not include (i) subcommittees of such bodies unless a quorum of the public body attends a subcommittee meeting or unless such subcommittees are holding hearings, making policy, or taking formal action on behalf of their parent body, except that all meetings of any subcommittee established under section 81-15,175 are subject to the Open Meetings Act, (ii) entities conducting judicial proceedings unless a court or other judicial body is exercising rulemaking authority, deliberating, or deciding upon the issuance of administrative orders, and (iii) the Judicial Resources Commission or subcommittees or subgroups of the commission;

(2) Meeting means all regular, special, or called meetings, formal or informal, of any public body for the purposes of briefing, discussion of public business, formation of tentative policy, or the taking of any action of the public body; and

Annotations

- A township is a political subdivision, and as such, a township board is subject to the provisions of the public meetings laws. Steenblock v. Elkhorn Township Bd., 245 Neb. 722, 515 N.W.2d 128 (1994).
- A county agricultural society is a public body to which the provisions of the Nebraska public meetings law are applicable. Nixon v. Madison Co. Ag. Soc'y, 217 Neb. 37, 348 N.W.2d 119 (1984).
- Failure by a public governing body, as defined under section 84-1409, R.R.S.1943, to take and record a roll call vote on an action, as required by section 84-1413(2), R.S.Supp.,1980, grants any citizen the right to sue for the purpose of having the action declared void. In this case such failure could not be later corrected by a nunc pro tunc order because there was no showing that a roll call vote on the disputed action was actually taken, and even if it was the record showed it was not recorded until over a year later. Sections 23-1301, R.R.S.1943, and 23-1302, R.R.S.1943, make it the duty of the county clerk to record proceedings of the board of county commissioners. State ex rel. Schuler v. Dunbar, 208 Neb. 69, 302 N.W.2d 674 (1981).
- Although a committee was a subcommittee of a natural resources district board, it was not subject to the Open Meetings Act because there was never a quorum of board members in attendance and the committee did not hold hearings, make policy, or take formal action on behalf of the board. Koch v. Lower Loup NRD, 27 Neb. App. 301, 931 N.W.2d 160 (2019).
- Although the Open Meetings Act does not define "subcommittee," a subcommittee is generally defined as a group within a committee to which the committee may refer business. Koch v. Lower Loup NRD, 27 Neb. App. 301, 931 N.W.2d 160 (2019).
- The Open Meetings Act does not require policymakers to remain ignorant of the issues they must decide until the moment the public is invited to comment on a proposed policy. By excluding nonquorum subgroups from the definition of a public body, the Legislature

has balanced the public's need to be heard on matters of public policy with a practical accommodation for a public body's need for information to conduct business. Koch v. Lower Loup NRD, 27 Neb. App. 301, 931 N.W.2d 160 (2019).

- As an administrative agency of the county, a county board of equalization is a public body. Wolf v. Grubbs, 17 Neb. App. 292, 759 N.W.2d 499 (2009).
- The electors of a township at their annual meeting are a public body under the Open Meetings Act. State ex rel. Newman v. Columbus Township Bd., 15 Neb. App. 656, 735 N.W.2d 399 (2007).
- The meeting at issue in this case was a "meeting" within the parameters of subsection (2) of this section because it involved the discussion of public business, the formation of tentative policy, or the taking of any action of the public power district. Hansmeyer v. Nebraska Pub. Power Dist., 6 Neb. App. 889, 578 N.W.2d 476 (1998).
- Informational sessions in which the governmental body hears reports are briefings. Johnson v. Nebraska Environmental Control Council, 2 Neb. App. 263, 509 N.W.2d 21 (1993).

84-1410. Closed session; when; purpose; reasons listed; procedure; right to challenge; prohibited acts; chance meetings, conventions, or workshops.

(1) Any public body may hold a closed session by the affirmative vote of a majority of its voting members if a closed session is clearly necessary for the protection of the public interest or for the prevention of needless injury to the reputation of an individual and if such individual has not requested a public meeting. The subject matter and the reason necessitating the closed session shall be identified in the motion to close. Closed sessions may be held for, but shall not be limited to, such reasons as:

(a) Strategy sessions with respect to collective bargaining, real estate purchases, pending litigation, or litigation which is imminent as evidenced by communication of a claim or threat of litigation to or by the public body;

(b) Discussion regarding deployment of security personnel or devices;

(c) Investigative proceedings regarding allegations of criminal misconduct;

(d) Evaluation of the job performance of a person when necessary to prevent needless injury to the reputation of a person and if such person has not requested a public meeting;

(e) For the Community Trust created under section 81-1801.02, discussion regarding the amounts to be paid to individuals who have suffered from a tragedy of violence or natural disaster; or

(f) For public hospitals, governing board peer review activities, professional review activities, review and discussion of medical staff investigations or disciplinary actions, and any strategy session concerning transactional negotiations with any referral source that is required by federal law to be conducted at arms length.

Nothing in this section shall permit a closed meeting for discussion of the appointment or election of a new member to any public body.

(2) The vote to hold a closed session shall be taken in open session. The entire motion, the vote of each member on the question of holding a closed session, and the time when the closed session commenced and concluded shall be recorded in the minutes. If the motion to close

passes, then the presiding officer immediately prior to the closed session shall restate on the record the limitation of the subject matter of the closed session. The public body holding such a closed session shall restrict its consideration of matters during the closed portions to only those purposes set forth in the motion to close as the reason for the closed session. The meeting shall be reconvened in open session before any formal action may be taken. For purposes of this section, formal action shall mean a collective decision or a collective commitment or promise to make a decision on any question, motion, proposal, resolution, order, or ordinance or formation of a position or policy but shall not include negotiating guidance given by members of the public body to legal counsel or other negotiators in closed sessions authorized under subdivision (1)(a) of this section.

(3) Any member of any public body shall have the right to challenge the continuation of a closed session if the member determines that the session has exceeded the reason stated in the original motion to hold a closed session or if the member contends that the closed session is neither clearly necessary for (a) the protection of the public interest or (b) the prevention of needless injury to the reputation of an individual. Such challenge shall be overruled only by a majority vote of the members of the public body. Such challenge and its disposition shall be recorded in the minutes.

(4) Nothing in this section shall be construed to require that any meeting be closed to the public. No person or public body shall fail to invite a portion of its members to a meeting, and no public body shall designate itself a subcommittee of the whole body for the purpose of circumventing the Open Meetings Act. No closed session, informal meeting, chance meeting, social gathering, email, fax, or other electronic communication shall be used for the purpose of circumventing the requirements of the act.

(5) The act does not apply to chance meetings or to attendance at or travel to conventions or workshops of members of a public body at which there is no meeting of the body then intentionally convened, if there is no vote or other action taken regarding any matter over which the public body has supervision, control, jurisdiction, or advisory power.

- Negotiations for the purchase of land need not be conducted at an open meeting but the deliberations of a city council as to whether an offer to purchase real estate should be made should take place in an open meeting. Pokorny v. City of Schuyler, 202 Neb. 334, 275 N.W.2d 281 (1979).

- Teacher waived right to object to lack of public notice in board of education employment hearing by voluntary participation in the hearing without objection. Alexander v. School Dist. No. 17, 197 Neb. 251, 248 N.W.2d 335 (1976).
- A county board of commissioners and a county board of equalization are not required to give separate notices when the notice states only the time and place that the boards meet and directs a citizen to where the agendas for each board can be found. Wolf v. Grubbs, 17 Neb. App. 292, 759 N.W.2d 499 (2009).
- A county board of equalization is a public body which is required to give advanced publicized notice of its meetings. Wolf v. Grubbs, 17 Neb. App. 292, 759 N.W.2d 499 (2009).
- Notice of recessed and reconvened meetings must be given in the same fashion as the original meeting. Wolf v. Grubbs, 17 Neb. App. 292, 759 N.W.2d 499 (2009).
- True notice of a meeting is not given by burying such in the minutes of a prior board proceeding. Wolf v. Grubbs, 17 Neb. App. 292, 759 N.W.2d 499 (2009).
- An agenda notice which merely stated "work order reports" was an inadequate notice under this section because it did not give interested persons knowledge that plans for a 345 kv transmission line through the district was going to be discussed and voted upon at the meeting. Inadequate agenda notice under this section meant there was a substantial violation of the public meeting laws; however, later actions by the board of directors cured the defects in notice, and such actions were in substantial compliance with the statute. Hansmeyer v. Nebraska Pub. Power Dist., 6 Neb. App. 889, 578 N.W.2d 476 (1998).

84-1412. Meetings of public body; rights of public; public body; powers and duties.

(1) Subject to the Open Meetings Act, the public has the right to attend and the right to speak at meetings of public bodies, and all or any part of a meeting of a public body, except for closed sessions called pursuant to section 84-1410, may be videotaped, televised, photographed, broadcast, or recorded by any person in attendance by means of a tape recorder, a camera, video equipment, or any other means of pictorial or sonic reproduction or in writing. Except for closed sessions called pursuant to section 84-1410, a public body shall allow members of the public an opportunity to speak at each meeting.

(2) It shall not be a violation of subsection (1) of this section for any public body to make and enforce reasonable rules and regulations regarding the conduct of persons attending, speaking at, videotaping, televising, photographing, broadcasting, or recording its meetings, including meetings held by virtual conferencing.

(3) No public body shall require members of the public to identify themselves as a condition for admission to the meeting nor shall such body require that the name of any member of the public be placed on the agenda prior to such meeting in order to speak about items on the agenda. The body shall require any member of the public desiring to address the body to identify himself or herself, including an address and the name of any organization represented by such person unless the address requirement is waived to protect the security of the individual.

(4) No public body shall, for the purpose of circumventing the Open Meetings Act, hold a meeting in a place known by the body to be too small to accommodate the anticipated audience.

(5) No public body shall be deemed in violation of this section if it holds its meeting in its traditional meeting place which is located in this state.

(6) No public body shall be deemed in violation of this section if it holds a meeting outside of this state if, but only if:

(a) A member entity of the public body is located outside of this state and the meeting is in that member's jurisdiction;

(b) All out-of-state locations identified in the notice are located within public buildings used by members of the entity or at a place which will accommodate the anticipated audience;

(c) Reasonable arrangements are made to accommodate the public's right to attend, hear, and speak at the meeting, including making virtual conferencing available at an instate location to members, the public, or the press, if requested twenty-four hours in advance;

(d) No more than twenty-five percent of the public body's meetings in a calendar year are held out-of-state;

(e) Out-of-state meetings are not used to circumvent any of the public government purposes established in the Open Meetings Act; and

(f) The public body publishes notice of the out-of-state meeting at least twenty-one days before the date of the meeting in a legal newspaper of statewide circulation.

(7) Each public body shall, upon request, make a reasonable effort to accommodate the public's right to hear the discussion and testimony presented at a meeting.

(8) Public bodies shall make available at the meeting or the instate location for virtual conferencing as required by subdivision (6)(c) of this section, for examination and copying by members of the public, at least one copy of all reproducible written material to be discussed at an open meeting, either in paper or electronic form. Public bodies shall make available at least one current copy of the Open Meetings Act posted in the meeting room at a location accessible to members of the public. At the beginning of the meeting, the public shall be informed about the location of the posted information.

- To preserve an objection that a public body failed to make documents available at a public meeting as required by subsection (8) of this section, a person who attends a public meeting must not only object to the violation, but must make that objection to the public body or to a member of the public body. Stoetzel & Sons v. City of Hastings, 265 Neb. 637, 658 N.W.2d 636 (2003).

84-1413. Meetings; minutes; roll call vote; secret ballot; when; agenda and minutes; required on website; when.

(1) Each public body shall keep minutes of all meetings showing the time, place, members present and absent, and the substance of all matters discussed.

(2) Any action taken on any question or motion duly moved and seconded shall be by roll call vote of the public body in open session, and the record shall state how each member voted or if the member was absent or not voting. The requirements of a roll call or viva voce vote shall be satisfied by a public body which utilizes an electronic voting device which allows the yeas and nays of each member of such public body to be readily seen by the public.

(3) The vote to elect leadership within a public body may be taken by secret ballot, but the total number of votes for each candidate shall be recorded in the minutes.

(4) The minutes of all meetings and evidence and documentation received or disclosed in open session shall be public records and open to public inspection during normal business hours.

(5) Minutes shall be written or kept as an electronic record and shall be available for inspection within ten working days or prior to the next convened meeting, whichever occurs earlier, except that cities of the second class and villages may have an additional ten working days if the employee responsible for writing or keeping the minutes is absent due to a serious illness or emergency.

(6) Beginning July 31, 2022, the governing body of a natural resources district, the city council of a city of the metropolitan class, the city council of a city of the primary class, the city council of a city of the first class, the county board of a county with a population greater than twenty-five thousand inhabitants, and the school board of a school district shall make available on such entity's public website the agenda and minutes of any meeting of the governing body. The agenda shall be placed on the website at least twenty-four hours before the meeting of the governing body. Minutes shall be placed on the website at such time as the minutes are available for inspection as provided in subsection (5) of this section. This information shall be available on the public website for at least six months.

- Under prior law, if a person present at a meeting observes and fails to object to an alleged public meetings laws violation in the form of a failure to conduct rollcall votes before

taking actions on questions or motions pending, that person waives his or her right to object at a later date. Hauser v. Nebraska Police Stds. Adv. Council, 264 Neb. 944, 653 N.W.2d 240 (2002).

- Subsection (2) of this section does not require the record to state that the vote was by roll call, but requires only that the record show if and how each member voted. Neither does the statute set a time limit for recording the results of a vote, after which no corrections of the record can be made. If no intervening rights of third persons have arisen, a board of county commissioners has power to correct the record of the proceedings had at a previous meeting so as to make them speak the truth, particularly where the correction supplies some omitted fact or action and is done not to contradict or change the original record but to have the record show that a certain action was taken or thing done, which the original record fails to show. State ex rel. Schuler v. Dunbar, 214 Neb. 85, 333 N.W.2d 652 (1983).
- Failure by a public governing body, as defined under section 84-1409, R.R.S.1943, to take and record a roll call vote on an action, as required by section 84-1413(2), R.S.Supp.,1980, grants any citizen the right to sue for the purpose of having the action declared void. In this case such failure could not be later corrected by a nunc pro tunc order because there was no showing that a roll call vote on the disputed action was actually taken, and even if it was the record showed it was not recorded until over a year later. Sections 23-1301, R.R.S.1943, and 23-1302, R.R.S.1943, make it the duty of the county clerk to record proceedings of the board of county commissioners. State ex rel. Schuler v. - There is no requirement that a public body make a record of where notice was published or posted. Wolf v. Grubbs, 17 Neb. App. 292, 759 N.W.2d 499 (2009).

84-1414. Unlawful action by public body; declared void or voidable by district court; when; duty to enforce open meeting laws; citizen's suit; procedure; violations; penalties.

(1) Any motion, resolution, rule, regulation, ordinance, or formal action of a public body made or taken in violation of the Open Meetings Act shall be declared void by the district court if the suit is commenced within one hundred twenty days of the meeting of the public body at which the alleged violation occurred. Any motion, resolution, rule, regulation, ordinance, or formal action of a public body made or taken in substantial violation of the Open Meetings Act shall be voidable by the district court if the suit is commenced more than one hundred twenty days after but within one year of the meeting of the public body in which the alleged violation occurred. A suit to void any final action shall be commenced within one year of the action.

(2) The Attorney General and the county attorney of the county in which the public body ordinarily meets shall enforce the Open Meetings Act.

(3) Any citizen of this state may commence a suit in the district court of the county in which the public body ordinarily meets or in which the plaintiff resides for the purpose of requiring compliance with or preventing violations of the Open Meetings Act, for the purpose of declaring an action of a public body void, or for the purpose of determining the applicability of the act to discussions or decisions of the public body. It shall not be a defense that the citizen attended the meeting and failed to object at such time. The court may order payment of reasonable attorney's fees and court costs to a successful plaintiff in a suit brought under this section.

(4) Any member of a public body who knowingly violates or conspires to violate or who attends or remains at a meeting knowing that the public body is in violation of any provision of the Open Meetings Act shall be guilty of a Class IV misdemeanor for a first offense and a Class III misdemeanor for a second or subsequent offense.

6.A. Proclamation declaring week of May 4, 2025, as Professional Municipal Clerks Week. Bulkley proclaimed the week of May 4, 2025, as Professional Municipal Clerks Week and thanked the staff in the city clerk's office for all the work they do.

7. PUBLIC HEARINGS:

7.A. Public Hearing - authorization of acquisitions of various interests in real estate for Lift Station No. 15. No public testimony was heard. The public hearing closed with a motion by Hiemer and a second by Bahr. Alarcòn, Bahr, Hiemer, Jablonski, Lopez, Palensky, Roth, and Schilling voted "Aye" and none voted "Nay".

8. PETITIONS AND COMMUNICATIONS: None

9. REPORTS OF CITY OFFICES:

9.A. Update on revised hours and rules for Recycling Trailer. Sliva provided an update on the challenges and recent changes related to the new recycling trailer. He explained that the first load of recyclables was rejected due to improper disposal of various non-recyclable items. The trailer was shut down this past week while staff worked to find a vendor willing to accept the load as is. Moving forward, new procedures have been implemented to improve recycling quality, which includes the sorting of items into individual totes to reduce contamination. Additionally, new operating hours have been established: Tuesday from 8:00 a.m. to noon and Wednesday and Thursday from 2:00 p.m. to 6:00 p.m. During these hours, the site will be temporarily staffed by Keep Columbus Beautiful employees who will assist with proper sorting and monitor for improper disposal. Bulkley reiterated the importance of following the rules.

10. REPORTS OF COUNCIL COMMITTEES:

10.A. PUBLIC PROPERTY, SAFETY, AND WORKS COMMITTEE - May 5, 2025

10.A.1. Authorizing acquisition of interests in various tracts of real property by purchase or eminent domain for Lift Station No. 15. The Public Property, Safety, and Works Committee recommended approval. Bogus noted that the current lift station is in a State of Nebraska right of way and needs to be relocated. The report was adopted with a motion by Schilling and a second by

Hiemer. Alarcòn, Bahr, Hiemer, Jablonski, Lopez, Palensky, Roth, and Schilling voted “Aye” and none voted “Nay”.

10.A.1.a. Purchase agreement with JLO Properties LLC in the amount of $10,071.22 for Lift Station No. 15. CIP #20-93 The Public Property, Safety, and Works Committee recommended approval. The report was adopted with a motion by Hiemer and a second by Schilling. Alarcòn, Bahr, Hiemer, Jablonski, Lopez, Palensky, Roth, and Schilling voted “Aye” and none voted “Nay”.

10.A.2. Purchase from Nebraska Department of Transportation for Maintenance Yard 31000 in the amount of $950,000 for multi-department use. The Public Property, Safety, and Works Committee recommended approval. Vasicek explained that purchasing this maintenance yard would provide additional property to meet the operational needs of both the Wastewater division and the Parks and Recreation department, offering a much more cost-effective solution than constructing new facilities. She added that the purchase would enable the City to enhance public service delivery, expand recreational amenities, and support long-term infrastructure and maintenance planning. Additionally, it would create an opportunity for the Police Department to expand at the current Park Maintenance site. Vasicek clarified the facility is still in pretty good shape for its age, however, future upgrades or maintenance needs may need to be addressed over time. The report was adopted with a motion by Roth and a second by Bahr. Alarcòn, Bahr, Hiemer, Jablonski, Lopez, Palensky, Roth, and Schilling voted “Aye” and none voted “Nay”.

10.A.3. Determine necessity for sidewalk improvements at 1404 14 Street with final completion by August 5, 2025, and authorizing the City Engineer to proceed on a Notice of Construction. The Public Property, Safety, and Works Committee recommended approval. The report was adopted with a motion by Schilling and a second by Alarcòn. 3. Valuation and Appraisal

The Nebraska Department of Transportation stated they intend to dispose of their Old Maintenance Yard Number 31000. They chose to offer the surplus maintenance yards to local government entities prior to opening it to the general public. They will sell the land at the appraised value per their internal policies.

An independent, certified real estate appraisal has been obtained by the Nebraska Department of Transportation in accordance with Nebraska state statutes to confirm fair market value. The NDOT also conducted an internal review appraisal. Both of these are attached as Exhibits J and K.

The official offer letter is attached as Exhibit C. A final agreement will be presented to council when available.

Appraisal Value: ***$950,000.00***

4. Existing and Proposed Use Statements

Wastewater Division of Public Works Department

A full description of the existing and proposed uses can be read in Exhibit H. The following list are the key points of the statement:

- Separate the Wastewater Collection Division from the Water Utility Distribution Division
    - Could be required per a proposed federal law and is an industry trend
- Sufficient space for equipment, vehicles, and personal
- Reduce response time for service calls

Parks & Recreation Department

A full description of the existing and proposed uses can be read in Exhibit I. The following list are the key points of the statement:

- Sufficient space for equipment, vehicles, and personal
- Allow for Police Department expansion for large evidence, long-term storage, and impound area
- Warm storage for necessary assets (i.e.–vehicles, soils, plants, and repair parts)
- Future expansion area for a greenhouse

Police Department

The Police Department supports the purchase of the new land and the moving of the parks department to that location. This enables the PD to grow at the current Park Maintenance site. Being able to utilize the entire building where the parks department is currently would be the most beneficial for our department. The location near the gas pumps for inside storage allows PD to use a building they are already using, and provides more room for this inside storage. The inside storage is normally for vehicles that are seized as evidence. This location has much more traffic than the impound lot near the compactor. Police officers fill their squad cars with fuel at the beginning or end of shift, which is an additional positive to the security of the location. Putting a building up for this purpose near the transfer station and outside impound lot would not afford the same sort of security that the parks department building would. The cost savings is another significant advantage of this plan.

Nebraska Department of Transportation

The property under consideration is presently used by NDOT for a variety of operational needs, including outdoor equipment storage and construction material staging. The site includes stalls for construction waste storage and houses salt brine containers, though their future disposition is still uncertain. The facility is equipped with two main buildings—each with truck bays, office spaces, break rooms, and storage areas designed to support maintenance and construction operations. The truck bays are sized for tight accommodation of straight trucks outfitted with plows. The space also includes designated office areas, reception, and support spaces for technical and administrative functions.

5. Anticipated Alternative Financial Calculations

April 25, 2025

The following NDOT surplus property west of 33rd Ave and 12th Street, has been offered to the City of Columbus.

The property has a west building that has office space and 6 truck bays with 14' Overhead Doors. This building would be a perfect site to separate and house the Wastewater Collection division from the Water Utility Distribution equipment and inventory.

This property could be utilized for separation of utility sewer service trucks that are on call 24-7 and must be stored in heated bays. There is ample space for repair of pumps and equipment storage as well as room for inventory storage.

The industries trend has seen a push to separate potable water and wastewater divisions to not be housed in the same facilities for various health reasons.

The Utility staff could also utilize the office space for operations, training for sewer related day to day operations, including the wastewater Scada control systems.

The East 7 bay shop and office space would be utilized Parks dept as well as the other out buildings and site would be shared with the Parks Dept.

This space and area will make for a safer enter exit plan for truck traffic. Will eliminate the delayed call response time as NECRR blocks the tracks and crossings, multiple times of the day and night. Currently some parking and staging of equipment is taking place along the east property line of CMF, which is actually on the ROW of Ne Central Rail Road.

Office space vacated at the CMF will be utilized by the Water Utility Superintendent as well as the smaller utility breakroom will become a smaller meeting room at CMF.

Water Distribution equipment and inventory will remain housed at the Current CMF.

Thank you,

Chuck Sliva

April 28, 2025

The NDOT property west of 33rd Ave and 12th street has been offered to the City of Columbus. Below are the Parks Departments intentions:

- We would utilize the east 7 bays and office space for the parks department. This would give us additional square footage for our shop and warm storage as well as additional outdoor storage space in a secured location.
- Warm storage is important as much of our equipment runs off of diesel and is utilized in the cold and winter months.
- We intend to use the open space just south of the building as a future site for a park greenhouse as our department explores cost savings measures and the utilization of native vegetation that work well with our sandy soils.
- We intend to bring any of our equipment that can be stored outside, like playground repair parts and turf, to this location so that it can be better secured.
- The office space will be used for the Park Superintendent and the smaller areas will be used for smaller staff meetings and a breakroom area.

The current Parks Department is partially used by PD for evidence collection. The rest of the shop would be a good option for when they have multiple vehicles they are searching.

Thank you,

Betsy Eckhardt

ASSUMPTIONS AND LIMITING CONDITIONS

Identification of the Property

The legal descriptions given to the appraiser are assumed to be correct; however, they have not been confirmed by a survey. The appraiser assumes no responsibility for such a survey or for encroachments or overlapping that might be revealed thereby. The appraiser renders no opinion of a legal nature, such as to ownership of the property or condition of title. The appraiser assumes the title to the property to be marketable; that the property is an unencumbered fee; and that the property does not exist in violation of any applicable codes, ordinances, statutes, or other governmental regulations.

Information and Data

The appraiser has considered information from city, county, state, and federal governments; buyers and sellers of real estate; real estate professionals and others. This information and data received is believed to be reliable, but no further responsibility is implied for its accuracy.

Sketches and Maps

Any sketches included in the report are only for the purpose of aiding the reader in visualizing the property and are not based on survey. Sizes and dimensions are not necessarily shown to scale.

Size and Dimensions

Size and dimensions of the subject tracts and comparable sales are based on information obtained from county records, plats, cadastral maps, aerial photos, and other credible sources. This information is available from governmental entities, the internet and other reliable sources. The information is assumed correct as provided.

Unapparent Conditions

The appraiser assumes that there are no hidden or unknown conditions pertaining to the property, soils or structures that would render it more or less valuable than other comparable properties. The appraiser assumes no responsibility for such conditions or for engineering that may be required to discover such things.

Extraordinary Assumption

The subject parcel is assumed to be free of any contamination that might affect the value.

APPRAISAL SCOPE

According to the Uniform Standards of Professional Appraisal Practice, it is the appraiser's responsibility to determine the appropriate scope of work. USPAP defines the scope of work as:

The amount and type of information researched and the analysis applied in an assignment. Scope of work includes, but is not limited to, the following:

- Defining the appraisal problem
- The degree to which the property is inspected or identified;
- The extent of research into physical or economic factors that could affect the property
- The extent of data research
- The type and extent of analysis applied to arrive at opinions or conclusions.

Purpose of the Appraisal

The purpose of this appraisal is to estimate the market value of property rights considered surplus to the needs of the Nebraska Department of Transportation as of the date of the appraisal.

Property Rights Appraised

The property rights appraised are all of those rights associated with the "bundle of rights" held by ownership in unencumbered fee simple title, which is defined as follows:

> *Absolute ownership unencumbered by any other interest or estate, subject to, and limited by the four governmental powers of taxation, eminent domain, police power, and escheat.* (*The Appraisal of Real Estate, Eleventh edition, American Institute of Real Estate Appraisers*)

The Need of an Appraisal

Sale of a Property

A. State Laws Governing the Sale of Property

1. **Neb. Rev. Stat. § 39-1325. Real property; power of Department of Transportation to sell and convey excess**.

The department shall have the authority to sell and convey, with the approval of the Governor, any part of or any interest in real property held by the department which is deemed no longer necessary or desirable for highway purposes. The sale or conveyance of such real property shall be in such manner as will best serve the interests of the state and will most adequately conserve highway funds.

2. **Neb. Rev. Stat. § 39-1326. Real property; sale, deed; bill of sale; execution; conditions; disposition of proceeds**.

The Director-State Engineer, for the department, and in the name of the State of Nebraska, may execute, acknowledge, seal, and deliver all deeds, bills of sale, and other instruments necessary and proper to carry out the sale and exchange of real property. Such deeds, bills of sale and other instruments shall have affixed the seal of the department. The deeds, bills of sale and other instruments may contain any conditions, covenants, exceptions, and reservations, which the department deems are in the public interest, or may convey title in fee simple absolute. All

money received from the sale of such property shall be deposited in the state treasury and credited to the Highway Cash Fund.

B. Type of Sale.

In order that the "sale...of such real estate shall be in such manner as will best serve the interests of the State," a classification of the State's miscellaneous holdings should be made for determining the steps to be taken for disposing of them.

1. Restricted Market

Where a remainder has only one neighboring tract and due to size, shape or access can reasonably be expected to have potential for economic use or development by the owner of the adjacent tract only, the sale may be negotiated directly with the single owner on the basis of the reviewed Waiver or Appraisal, whichever was completed, with due consideration given to maintenance costs and nuisance values.

Extent of Data Research

The appraiser researched the local market to produce a current and comprehensive database of relevant market information. Relevant market information includes such items as population trends, employment trends, and trends in listings and sales of various types of real estate. Sources and providers of this information include:

- County Offices and web pages
- City Offices and web pages
- FEMA Flood Map online references, imagery, and flood zone information
- Census tract information
- Local appraisers, brokers or other market participants
- Multiple listing service
- On-line mapping services

Type and Extent of Analysis

The appraisers conducted a physical inspection of the subject property. Photos were taken and notes made of characteristics of the land. Public records at the county courthouse were examined to gain pertinent information such as title history, zoning and assessed values of the subject property. Sales of comparable properties were obtained from public records as well. If possible, the sales information was confirmed with a party to the transaction to determine comparability and reliability as arms-length transactions, market rents and expenses. The comparable sales were then inspected and photographed. After compiling information about the subject property and determining property values, a report is then written and submitted for review.

Approaches to Value

Cost Approach: The cost approach is the cost to build an improvement, less the depreciation of the improvement, plus the value of the land.

Sales Comparison: The sales comparison approach utilizes an analysis of recent comparable sales to estimate the value of the subject property. Adjustments can be made for any differences between the comparables and the subject in order to arrive at an estimate of value. This widely used approach is logical and understandable.

Income Approach: The income approach to value relies on the income generated by a property. This approach is most applicable when the generated income from the property is the motivation behind the transaction.

While all three approaches to value are considered, one or more of the basic approaches may not be applicable to the subject property. Therefore, the data necessary for an analysis by each approach is evaluated in order to determine the applicability of that approach. If insufficient data exists for a meaningful application of a particular approach, then that approach is either omitted or used only as an indication of reasonableness for the better-supported approaches. The value estimate of each approach used is based on the determined Highest and Best Use.

NEIGHBORHOOD DATA

The subject property is located in south central Columbus, NE in an older mixed-use area. The neighborhood boundaries are the north boundary being Howard Blvd, west boundary is 41st Avenue, south boundary is the Union Pacific Railroad tracks, and east boundary being 33rd Avenue (Highway 30). This area is Mixed-use with a combination of older residential and industrial properties with a combination of residential and industrial zoning.

and a pressure washer. These are considered as personal property and are also not valued in this report.

There is also approx. 2,460 linear feet of a 6' tall chain link fence with a 3-strand barbed wire fence that surrounds most of the perimeter of the property, with the exception of the south side along the highway. In addition, there are 2 gates. It all appears to be in average condition for its age with an estimated physical depreciation of 75%. Section 16, Page 4 from the Marshall & Swift Valuation Service was utilized to value this fence. It indicated a value of $31.80/ft. x 2,460' = $78,228 + 2 gates @ $1,280/each = $80,788 - 75% physical depreciation = $20,197 or called $20,200.

3-year Sales History

The subject property has not sold in the three years prior to the effective date of this report

HIGHEST AND BEST USE ANALYSIS

Highest and Best Use may be defined as:

"...the reasonably probable and legal use of vacant land or an improved property, which is physically possible, appropriately supported, financially feasible and that results in the highest value." (From The Appraisal of Real Estate, Tenth Edition, published by The American Institute of Real Estate Appraisers, 1992.)

The estimation of the Highest and Best Use is the foundation on which value rests. Properties are analyzed "as if vacant" and "as improved". The "as if vacant" section analyzes what the ideal improvements would be. The "as improved" section compares the ideal improvements to the existing improvements. The "as improved" section answers the following questions: Should the improvements be used "as is", should the improvements be demolished and replaced or renovated, or should they be held for a period of time then renovated or demolished and replaced?

The Highest and Best Use of the land "as if vacant" or property "as improved" must meet four criteria. The Highest and Best Use must be:

1. Physically Possible
2. Legally Permissible
3. Financially Feasible
4. Maximally Productive

These criteria are typically considered sequentially. For example, use may be financially feasible, but this use would be irrelevant if it is physically impossible or legally prohibited. Therefore, the subject properties must be analyzed "as if vacant" then "as improved" using the above criteria.

Physically Possible Uses

The physically possible criteria consider the physical attributes of the individual tracts. Criteria such as size, shape, topography, drainage, access and available utilities are given consideration to determine the physically possible uses of each tract.

Legally Permissible Uses

The legally permissible criteria consider the legal attributes of the individual tracts. Criteria such as zoning regulations and neighborhood covenants are given consideration to determine the legally permissible uses of each tract.

Financially Feasible Uses

Property uses that are expected to produce a positive return are regarded as financially feasible. Optimum development of the site, if it were vacant, would include improvements that would be compatible with the physical characteristics of the site and neighborhood trends and be legally permitted. To be financially feasible, the cost to develop the site must be such that a return to a purchaser or investor would be possible.

If improvements already exist and their construction costs are already expended, continued use of the existing improvements is justified, as long as the generated income exceeds the direct cost of ownership, and unless new improvements could be constructed which would generate rents in excess of holding costs and in excess of rents that could be obtained from the existing improvements.

Maximally Productive Uses

The maximally productive use is that use which is physically possible, legally permissible, financially feasible and has the greatest positive return on the investment.

Market Overview

After determination of the physically and legally possible uses of the subject, the financially feasible and maximally productive uses are determined primarily by market demand. Therefore, a general overview of the real estate market is needed.

The industrial improved and vacant land market for large parcels is rather slow in Columbus over the last several years as evidenced by a few older sales in this report. This appraiser did not research any other types of property classifications for this report.

HIGHEST & BEST USE AS IMPROVED

Physically Possible Uses

The subject property is a level parcel of an improved industrial property. Access is typical for an industrial property. the location is an industrial mixed-use area that supports the current industrial use.

Maximally Productive Uses

This appraiser did an analysis of several physically possible uses, legally permissible uses, and the financially feasible uses, in addition to a review of the surrounding neighborhood. It was concluded that the maximally productive use of the subject tract is as an improved industrial site.

Legally Permissible Uses

The zoning for the subject supports the legally permissible use as an improved industrial property.

Financially Feasible Uses

The market supports an industrial use as the most financially feasible use of the subject tract.

Conclusion

The four tests of the highest and best use support a highest and best use of the subject tract as an improved industrial site.

RECONCILIATION

In the final reconciliation of value of this parcel, the Sales Comparison Approach was the only approach used since the improvements and land are being valued with recent comparable sales. The Income and Cost approaches were not applicable to this assignment.

VALUATION PROCESS

The approaches to value considered applicable to this assignment are discussed below.

Cost Approach

The basic steps in valuing property with the cost approach are:

1) Estimate the value of the land as though vacant;
2) Estimate the reproduction or replacement cost of the improvements before depreciation;
3) Estimate and add developer's profit to replacement cost new;
4) Estimate accrued depreciation from all sources;
5) Sum the total replacement cost new, depreciation and land value to arrive at an indicated fee simple value of the property.

In estimating the current market value of the subject site, as if vacant, deed records were searched for recent sales of comparable properties within the area. Also, real estate brokers active in the subject's area were consulted as to their knowledge of similar properties that may have sold or are currently offered for sale. Listings are considered since these properties would be in competition with the subject property if it were offered for sale. Step number two uses cost factors that are derived either from cost estimates provided the appraisers by contractors and/or cost handbooks available to the appraisers. Step number three is based on current market conditions and surveys. Step number four uses current market data and trends based on historical data. Step number five is the sum of the land value, developer's profit, and cost new, less accrued depreciation and is the fee simple value by the Cost Approach.

LAND:

Official records were examined from the Platte County Assessor and Register of Deeds offices in an effort to locate recent sales that were considered to be similar enough to the subject property. The sales that were identified were verified by local realtors, market participants, county records, or other knowledgeable parties to verify that the sales were considered to be "Arms-Length" and indicative of the market. The sales all received positive time adjustments for their older sale dates. The sales all received negative location adjustments for being located in superior newer areas on paved roads. Sale 1 received a higher location adjustment for being located in a superior commercial area just off of Highway 30. Sales 3 & 4 are older than desirable, but there was not enough supporting data to support time adjustments. Though the sales are all larger than the subject, it is not felt to be significant enough to warrant any adjustments. Sale 3 received a negative frontage/view adjustment for its superior visibility to Highway 81. Sale 4 received a negative frontage/view adjustment for having frontage along Highway 30. Due to the lack of recent comparable sales, Sales 3 & 4 are older than desirable. With the exception of Sale 2, the sales all have comparable zoning to the subject. Due

to its more recent sale date, Sale 1 is given the most weight in the final value estimate. Due to its older sale date and higher adjustments, Sale 4 is given the least amount of weight. Sales 2 & 3 are given relatively equal weight. An adjusted sale price range was developed from $1.10 to $1.65 per sq. ft. A value of $1.50 per sq. ft. was determined for the industrial land on the subject property.

IMPROVEMENTS:
Improvements Are Affected. This appraiser utilized the Marshall and Swift Cost Manual to determine the value of the improvements. The improvements are described in the Improvement Description section. See Addenda for improvement valuation. See Improvement Description section for the fence valuation.

Total Improvement Value:	**$614,897.00**

The estimation of value by the Cost Approach, as of the effective date, is $882,427.00.

This appraiser located several recent comparable sales of industrial properties in Columbus that were analyzed, and they were narrowed down to the three that were ultimately utilized in this report for the appraisal of the subject property. Sales 5-7 were used in this report and established a value range of between $872,000 and $1,007,500. They occurred between April 2022 and May 2024. These sales were verified by the market participants and county records. These sales are felt to represent the most recent improved comparable sales in the Columbus, NE area.

Sale 5 received a positive $50,000 Condition of Sale adjustment for selling low as per the buyer. Sales 2 & 3 received negative $40,000 Location adjustments for their superior locations along Highway 30. Though Sale 1 is not located along a major highway, it still received a negative $10,000 Location adjustment for the subject's inferior location along a viaduct. Sales 2 & 3 negative $50,000 Condition adjustments based on conversations with the buyers of both sales. The Warehouse/Garage adjustments are based on $10/sq. ft. The Office adjustments are based on $20/sq. ft. The Lot Size adjustments are based on the difference between the $1.50/sq. ft. that is arrived at from recent comparable land sales that are included in this report and the assessed land values for Sales 5-7. The Functional Utility adjustments are based on the subject's inferior narrow and irregular shape. The comparable sales are all rectangular in shape. The sales all received positive Garage/Maintenance Bays adjustments based on $1,000 per bay/overhead door. Sales 2 & 3 received positive $5,000 Fencing adjustments for their lack of fencing. The sales all received positive Outbuildings adjustments for the subject having a larger number of outbuildings. Due to its lower gross adjustments and recent sale date, Sale 3 is given the most weight in the final value estimate. Due to its high gross adjustments and older sale date, Sale 1 is given the least amount of weight. Though the three sales have higher individual and gross adjustments than desirable, they are felt to be the best available and reliable indicators of the subject's market value.

After directly comparing the subject property to each of the comparable sales, the total value of the subject property is estimated at $950,000.

The estimation of value by the Sales Comparison Approach, as of the effective date, is $950,000.00.

Reconciliation of the Value

The Cost Approach provides a good indication of the depreciated value of the improvements. It is a lower value due to the physical depreciation of the improvements and functional depreciation of the higher cost of the building materials used indicating a superadequacy. The Sales Comparison Approach is a more accurate indication of the value of the subject property because it indicates what the typical buyer is willing to pay for the property and what typical building materials are expected in the improvements. The Income Approach was not used because the subject is not an income producing property. The Cost Approach indicates $882,427 for the land and the improvements. The Sales Comparison Approach indicates an overall value of $950,000 for the subject property. The value of the subject property is estimated at $950,000.

Market Value of the Subject Property	$950,000.00

TO: City Administrator

FROM: Jeri Kay Hopkins, Library Director

RE: Leaving OneLibrary Consortium to join Pioneer Consortium

RECOMMENDATION: To pass a resolution ending membership in OneLibrary consortium and pass a resolution to join the Pioneer Consortium.

DISCUSSION: This change in membership will allow for the library to begin using a new Integrated Library System (i.e. Catalog) which is better suited for our needs. OneLibrary intends to continue using our current system which has not kept up with modern improvements in cataloging. The new Pioneer Consortium is using a much better system.

FISCAL IMPACT: The new system will save the library $4000 per year. The expenses of the one-time migration from the old system to the new will be reimbursed out a fund at the Nebraska Library Commission for such an event.

ALTERNATIVE: We stay in the OneLibrary Consortium and continue to pay the extra $4000 for an outdated system.

19. No Re-license. Licensor's consent to any assignment, encumbrance, sub- license, occupation, or other transfer shall not release Licensee from any of Licensee's obligations hereunder or be deemed to be a consent to any subsequent assignment, sub-license, or occupation unless Licensor agrees in writing. The collection or acceptance of the facility fee or other payment by Licensor from any person other than Licensee shall not be deemed the acceptance of any assignee or sub-licensee as the Licensee hereunder or a release of Licensee from any obligation under this License.

20. Events of Default. The occurrence of any one or more of the following events shall constitute an Event of Default: (i) the failure by Licensee to make any payment of the facility fee or any other payments required to be made by Licensee under this License when due; and (ii) the failure by Licensee to observe or perform any of the provisions of this Agreement to be observed or performed by the Licensee if such failure continues for a period of ten (10) days, or such other period if this License specifically provides a different period for a particular failure, after written notice by Licensor to Licensee of such failure; provided, however, that with respect to any failure which cannot reasonably be cured within ten (10) days, an Event of Default shall not be considered to have occurred if Licensee commences to cure such failure within such ten (10) day period and continues to proceed diligently with the cure of such failure.

21. Remedies. Should Licensor, in its sole discretion, determine at any time that any terms of the Agreement and/or this Agreement are in default or are not being strictly followed by Licensee, Licensor has the absolute right to immediately cause the event to be suspended until the violations is corrected or to declare the same terminated; to

cancel any remaining events for that day; to suspend the Licensee's use of the Premises until further notice; and/or, to declare the License at an end and terminate the Agreement outright. In the event of a default, Licensor may sue Licensee for any damages sustained by Licensor. The remedies of Licensor set forth in this provision, or elsewhere in this Agreement, shall not be exclusive, but shall be cumulative and in addition to all rights and remedies now or hereafter provided or allowed by law or equity, including, but not limited to, the right of Licensor to seek and obtain an injunction and the right of Licensor to seek damages in addition to those specified herein.
