# Storm Shelter Preparedness and Emergency Operations Plan

## Preparedness Requirements

### Overview

**The purpose of the plan's preparedness requirements is to verify that the Storm Shelter is ready and maintained for use and will be fully operational during the storm. The Preparedness Requirements Section includes the following information:**

- **Understanding your Storm Shelter**
- **Storm Shelter Management Team roles and duties**
- **Team Training and Team Drills**
- **Occupant Notification Procedures – by Owner**
- **Occupant Drill Procedures – by Owner**
- **Communications Requirements**
- **Facilities Evaluations Guidelines**
- **Occupant Capacity Evaluation Guidelines**
- **Impact-Protective System Evaluation Guidelines**

### Understanding Your Storm Shelter

**The Storm Shelter is designed with several systems in place to ensure the safety of its occupants during a storm event. The following is an overview of those systems to provide information and understanding of how they work to the Storm Shelter Management Team, General Staff, and other intended occupants.**

**Secure Envelope**

**The Storm Shelter is designed with metal doors and frames to withstand the force of a tornado. The window is designed with a metal frame and overhead coiling door shutter to protect the opening from the storm.**

**Passive Ventilation**

**Passive ventilation is accomplished by allowing fresh air into the shelter near the floor and exhaust air to exit the shelter high on the wall. This means that no**

DocuSign Envelope ID: 9C750A46-4529-43D7-806A-08A7B23816A3

**mechanical systems requiring power are needed to bring fresh air into the Storm Shelter.**

**Electrical Systems**

**It is possible that the power may go out during a storm event; the Storm Shelter will still function properly if this happens. The ventilation system does not require power to function and the lights and exhaust fans have battery back-ups that will allow them to work should this happen.**

**Safety Items**

**The Storm Shelter contains several safety features to handle medical or fire emergencies. The fire sprinkler protection system is part of the overall building and will not be operational if the main building goes down. The fire protection system does not need to stay operational during an event. Additionally, the Storm Shelter is required to have an operational fire extinguisher on hand. A first aid kit is also available within the Storm Shelter.**

**Toilet Facilities**

**As required, the Storm Shelter has toilet facilities designed to serve the occupants of the shelter that will remain functional during a storm event. The toilet rooms should be unlocked, and their availability made known to the occupants of the Storm Shelter.**

**Important Information for Occupants**

**For peace of mind, the Storm Shelter is furnished with a sign at the entrance that explains the design criteria for the construction of the Storm Shelter. This includes information regarding the wind speed the structure can tolerate and impact resistance rating. Additionally, it should be understood that during a storm event, no one can exit the Storm Shelter. This is for the safety of all occupants and the system itself. Back-up lighting systems will come on should the power go out. Fresh air will continue to flow through the space even if the power goes out as the ventilation system does not require power. In the event that the surrounding building may be damaged or destroyed, the Storm Shelter**

**is designed to remain standing, in which case, the occupants are to stay in the Storm Shelter until emergency personnel arrives.**

## Storm Shelter Management Team

Each role listed below shall have an individual assigned to it as a Primary and an additional individual assigned to be the Primary's Back-Up. Any added General Staff Roles whose duties are considered critical to Storm Shelter Emergency Operations shall be assigned a Primary and Back-Up as well.**

**Keep an up-to-date record of the individuals assigned to the Storm Shelter Management Team and their contact information. The Critical Contact Information Sheet (Attachment A) should be updated no less than once per year and be slotted near the beginning of the SSPEOP Manual for easy access during a storm event.**

# Emergency Operational Procedures Requirements

## Overview

**The purpose of the SSPEOP's Emergency Operational Procedures requirements is to inform the owner or owner's agent of the *minimum* criteria for drafting an Emergency Operational Procedures Plan to properly respond to the threat of a tornado. The expected warning time and minimum design duration of the Storm Shelter – 2hrs – shall be taken into consideration when drafting the Emergency Operational Procedures Plan, as well as initiating operation during or after normal operating hours of the Host Building. The Emergency Operational Procedures Requirements Section includes the following information:**

- **Initiating Storm Shelter Activation**
- **Storm Shelter Activation**
- **Operations during a storm event**
- **Storm Shelter Deactivation**

## Initiating Storm Shelter Activation

**The Initiation stage includes the steps that should be taken prior to Storm Shelter Activation to ensure that the Storm Shelter and Storm Shelter Management Team is ready for operation during a storm event and/or not needlessly activated. The Initiation phase should include the following information:**

- **Identification of the Storm Shelter Management Team roles responsible for monitoring storm conditions and putting the rest of the team on alert when indicated.**
- **Major tasks, including roles and responsibilities, that the designated Storm Shelter Management Team will perform during a *TORNADO WATCH* issued by the National Weather Service.**

## Storm Shelter Initiation

***(This section shall include the steps required to initiate the activation of the Storm Shelter, please include the information called out in the corresponding section of the Emergency Operations Procedures Requirements chapter of the SSPEOP)***

**General items, refer to details on next pages.**

**Once all occupants have entered the shelter, verify all doors are secured including entry doors from the school into the shelter.**

**Activate the coiling door shutter over the large window in the north wall to close the shutter and protect the opening in the wall. Key switch is located in Storage room B112F next to the pair of doors.**

**Open the low hollow metal door panels on north side wall with key and open flat to the wall to allow air flow through the exterior louvers – 7 thus.**

**Activate the high dampers on the east wall to open position with key switch. Key switch is located in Room B112F Storage room next to the pair of doors. This allows air flow through the high exterior louvers.**

**The passive ventilation system allows for the air pressure to be balanced between the exterior air and the air pressure inside the building. Air will flow through the high and low louvers to equalize the pressure.**

**There are back up systems for the electrical including the emergency lighting and exhaust fans that are self-contained and just need routine maintenance. If and when power goes down, the emergency inverters will take over instantaneously and emergency lighting will come on. Required exhaust fans will also operate at the bathrooms and mechanical rooms.**

This Contract is entered into between Special School District No. 1, "District", a special school district created and existing under the laws of Minnesota, and Schwab Vollhaber Lubratt "Contractor" (collectively "parties") to renew 2 life-cycled out and failing condensing units at Windom School to Plant Maintenance.

## *1 TERM OF CONTRACT*

1.1 This Contract is effective on 2/26/2024 or the date of the last signature of the parties, whichever is later, and shall remain in effect until 12/31/2024, or until all obligations set forth in this Contract have been satisfactorily fulfilled, or the Contract has been terminated, whichever occurs first. Contractor shall have a continuing obligation, after said Contract period, to comply with any provision of this Contract intended for District's protection or benefit, or that that by its sense and context, is intended to survive the completion, expiration or termination of this Contract.

1.2 Contractor understands that NO WORK SHOULD BEGIN UNDER THIS CONTRACT until all required signatures on this Contract have been obtained and the Contract has been authorized and/or approved by the District's Board. Any work performed by Contractor prior to such time shall be considered as having been performed at Contractor's OWN RISK and as a volunteer.

## 2 SCOPE OF WORK

2.1 Contractor shall perform all of the services related to Labor and Installation set forth herein and any exhibits attached hereto as Exhibit A ("Scope of Work"). Contractor understands that time is of the essence in this Contract and agrees to meet all milestones indicated in this section, in the Contract herein and any exhibits attached hereto.

## 3 CONSIDERATION AND TERMS OF PAYMENT

The consideration for all services (and goods if any) performed or supplied by Contractor

under this Contract shall be paid by District as described below.

*3.1 Total Obligation.*
District's total obligation to Contractor/Schwab Vollhaber Lubratt under this Contract, including compensation for goods and/or services, including reimbursable expenses (if applicable), shall not exceed $182,111. Contractor/Schwab Vollhaber Lubratt shall not receive any additional reimbursement for materials or subsistence expenses incurred in the performance of this Contract.

*3.2 Frequency of Invoicing and Terms of Payment.*
Subject to the conditions herein, payment shall be made by District within thirty (30) days upon receipt of Contractor's invoice for goods delivered or services rendered pursuant to this Contract. The Contractor's standard invoice shall be submitted after satisfactory completion of services on a monthly basis. District has no obligation to pay for services that are not satisfactorily performed or performed in violation of federal, state or local law, ordinance, rule or regulation. In the case of a dispute about satisfactory performance of services, the parties agree to work in good faith to resolve any disputes. If either party does not dispute an invoice in writing within 180 days of receipt of the invoice, no action challenging the invoice may be taken.

As applicable, for all agreed upon work performed by Contractor or Contractor's personnel in the provision of goods and/or services stipulated herein, District shall pay Contractor at the hourly or per diem rates as set forth in the applicable Exhibit B. Payment shall be made to Contractor based on the hours recorded provided such hours are in accordance with the terms of this Contract. Notwithstanding anything to the contrary, and without limitation, District has not promised or guaranteed any minimum amount of work, and Contractor understands and acknowledges same. District has no obligation to pay for overtime or holiday work, nor will it pay premiums for overtime and holidays.

*3.3 Taxes.*
District is exempt from paying Minnesota sales and use taxes on certain purchases, as provided in Minnesota Statute, Section 297A.70. ## 34 CONFLICT OF INTEREST/CODE OF ETHICS

In particular, Contractor: (i) certifies that it has not paid kickbacks directly or indirectly to any District employee for the purpose of obtaining this or any other District Contract; (ii) agrees to cooperate fully with any investigation involving a possible violation; and (iii) agrees to report any suspected violations to the District. Late delivery of goods or services, or delivery of goods or services that are defective or do not conform to the Contract shall, without limitation, be causes allowing District to terminate for cause. The rights or remedies provided here shall not limit the District, in case of any default, error or omissions, by the Contractor, from asserting any other right or remedy allowed by law. Nothing in this Contract shall be construed as a waiver of any right, remedy, liability limit or immunity of the District under law.

## 37 RETURN OF DATA

*(Insert any items not subject to the withholding of retainage, such as general conditions, insurance, etc.)*

For major items installed into the Work, the Contractor may request full payment for the items to ensure prompt delivery and fabrication. Such items shall be recommended by the Architect and approved by the Owner as not requiring retainage. Prompt payment for the items shall be documented by the Contractor to the Owner in the subsequent payment application by submitting a full lien release for the items. Major items may include mechanical units with long lead times, structural systems with long lead times, critical path systems or items, etc. Major items will be discussed and defined by Owner, Architect, Construction Manager and Contractor.

All such certificates evidencing such insurance shall name District as additional insured. Contractor may meet the limits above $1,000,000 per occurrence through umbrella or excess coverage.

13.2 Contractor represents that it has worker's compensation insurance to the extent required by law and agrees to furnish proof of such insurance for worker's compensation and the liability insurance, upon request. Contractor also represents that it has professional liability insurance with limits of not less than $1,500,000 each claim and $1,500,000 each occurrence covering claims that arise out of its acts and operations in providing services to the District, but shall not name the District as an additional insured to the coverage.

and shall require its insurer to mail the District a notice if the coverage is cancelled or revised.

## 14 INDEMNIFICATION

14.1 Contractor agrees to release, defend, indemnify, and hold harmless District, its board, officers, students, employees, and agents from all liability, injuries, claims, damages (including claims of bodily injury, property damage, or negligence), or loss, including costs, expenses, and attorneys' fees, which arise in connection with, in relation to, or as a result of Contractor's negligent acts or omissions or in connection with Contractor's breach of warranties. The foregoing agreement to release, defend, indemnify and hold harmless shall not apply to the extent such liability, injuries, claims, damages, or loss was caused by the intentional, willful, or wanton acts of District. Contractor shall not settle or compromise any claim in which the District has been named a party and for which Contractor must indemnify the District without a signed agreement approved by the District.

## 15 LIMITATION ON LIABILTY

15.1 In no event shall the District be liable for any indirect, consequential, incidental, lost profits or like expectancy damages arising out of the Contract. District's maximum obligation under this Contract shall not exceed the amount set forth herein.

## 16 CONFLICT OF INTEREST/CODE OF ETHICS

16.1 Contractor agrees that it will not represent any other party or client which may create a conflict of interest in its representation with the District. Contractor agrees to be bound by the District's Code of Ethics. In particular, Contractor: (i) certifies that it has not paid kickbacks directly or indirectly to any District employee for the purpose of obtaining this or any other District Contract; (ii) agrees to cooperate fully with any investigation involving a possible violation; and (iii) agrees to report any suspected violations to the District. In the event of such termination, Contractor shall be entitled to payment, calculated on a pro rata or other equitable basis, determined by District in its sole discretion, for work or services satisfactorily performed. In no event shall Contractor be paid for work performed or costs incurred after termination, or for costs incurred by suppliers or subcontractors which reasonably could have been avoided.

18.2 District may terminate this Contract in whole or in part for cause upon seven (7) days written notice if Contractor fails to comply with any material term or condition of this Contract, becomes insolvent or files for bankruptcy protection, or fails to comply in a material way with the requirements of this Contract. Late delivery of goods or services, or delivery of goods or services that are defective or do not conform to the Contract shall, without limitation, be causes allowing District to terminate for cause. If a determination is made that District improperly terminated this Contract for Cause, then such termination shall be deemed to have been for without cause.

18.3 Notwithstanding the above, Contractor shall not be relieved of liability to the District for damages sustained by the District as a result of any breach of this Contract by the contactor. The District, may, in such event, withhold payments due to the Contractor for the purpose of set-off until such time as the exact amount of damages due to the District is determined. The rights or remedies provided here shall not limit the District, in case of any default, error or omissions, by the Contractor, from asserting any other right or remedy allowed by law. Nothing in this Contract shall be construed as a waiver of any right, remedy, liability limit or immunity of the District under law.

## 19 RETURN OF DATA

Contractor shall make such items available for inspection during normal business hours at Contractor's place of business. Such records may be subject to copy, review and/or audit by District, State Auditor and/or the Comptroller General of the United States, or a duly authorized representative, if federal funds are used for any work under this Contract. values shall allocate the entire Contract Sum among the various portions of the Work. This schedule of values shall be used as a basis for reviewing the Contractor's Applications for Payment.

**§ 5.1.4.2** Applications for Payment shall show the percentage of completion of each portion of the Work as of the end of the period covered by the Application for Payment.

**§ 5.1.4.3** In accordance with AIA Document A232™–2019, General Conditions of the Contract for Construction, Construction Manager as Adviser Edition, as modified and subject to other provisions of the Contract Documents, the amount of each progress payment shall be computed as follows:

.1 That portion of the Contract Sum properly allocable to completed Work;

.2 That portion of the Contract Sum properly allocable to materials and equipment delivered and suitably stored at the site for subsequent incorporation in the completed construction, or, if approved in advance by the Owner, suitably stored off the site at a location agreed upon in writing; and

.3 That portion of Construction Change Directives that the Architect determines, in the Architect's professional judgment, to be reasonably justified.

**§ 5.1.4.3.2** The amount of each progress payment shall then be reduced by:

.1 The aggregate of any amounts previously paid by the Owner;

.2 The amount, if any, for Work that remains uncorrected and for which the Architect has previously withheld a Certificate for Payment as provided in Article 9 of AIA Document A232–2019;

.3 Any amount for which the Contractor does not intend to pay a Subcontractor or material supplier, unless the Work has been performed by others the Contractor intends to pay;

.4 For Work performed or defects discovered since the last payment application, any amount for which the Architect may withhold payment, or nullify a Certificate of Payment in whole or in part, as provided in Article 9 of AIA Document A232–2019; and

.5 Retainage withheld pursuant to Section 5.1.7.

*(Paragraphs deleted)*

**§ 5.1.7.1.1** The following items are not subject to retainage:
*(Insert any items not subject to the withholding of retainage, such as general conditions, insurance, etc.)*

For major items installed into the Work, the Contractor may request full payment for the items to ensure prompt delivery and fabrication. Such items shall be recommended by the Architect and approved by the Owner as not requiring retainage. Prompt payment for the items shall be documented by the Contractor to the Owner in the subsequent payment application by submitting a full lien release for the items. Major items may include mechanical units with long lead times, structural systems with long lead times, critical path systems or items, etc. Major items will be discussed and defined by Owner, Architect, Construction Manager and Contractor.

**§ 5.1.7.2** Reduction or limitation of retainage, if any, shall be as follows:

~~*(Identify each assumption.)*~~

~~§ 4.4.8 To the extent that the Contract Documents are anticipated to require further development, the Guaranteed Maximum Price includes the costs attributable to such further development consistent with the Contract Documents and reasonably inferable therefrom. Such further development does not include changes in scope, systems, kinds and quality of materials, finishes, or equipment, all of which, if required, shall be incorporated by Change Order.~~

~~§ 4.4.9 The Owner shall authorize preparation of revisions to the Contract Documents that incorporate the agreed upon assumptions contained in Section 4.4.7.4. The Contractor shall notify the Owner and Architect of any inconsistencies between the agreed upon assumptions contained in Section 4.4.7.4 and the revised Contract Documents.~~

The parties also recognize the delays, expenses, and difficulties involved in proving in a legal proceeding the actual loss suffered by the Owner if the Work is not completed on time. Accordingly, instead of requiring such proof, the Owner and Contractor agree that as liquidated damages for delay (but not as penalty), Contractor shall pay Owner One Thousand Dollars ($1,000.00) per calendar day for each day that expires after the time specified for Substantial Completion in EXH-D Project Schedule until such time the Work is determined to be substantially complete by the Owner.

After Substantial Completion, if Contractor neglects, refuses, or fails to complete the remaining Work within the Contract Time specified in the Contract Documents, the Contractor shall pay the Owner One Thousand Dollars ($1,000.00) per day that expires after the time specified in the Contract Documents for Final Completion and readiness for Final Payment until the Work is completed.

## ARTICLE 1 GENERAL PROVISIONS

### § 1.1 Basic Definitions

**§ 1.1.1 The Contract Documents.** The Contract Documents are enumerated in the Agreement between the Owner and Contractor (hereinafter the Agreement) and consist of the Agreement, Conditions of the Contract (General, Supplementary and other Conditions), Drawings, Specifications, Addenda issued prior to execution of the Contract, other documents listed in the Agreement, and Modifications issued after execution of the Contract. A Modification is (1) a written amendment to the Contract signed by both parties, (2) a Change Order, (3) a Construction Change Directive, or (4) a written order for a minor change in the Work issued by the Architect. Unless specifically enumerated in the Agreement, the Contract Documents do not include the advertisement or invitation to bid, Instructions to Bidders, sample forms, other information furnished by the Owner in anticipation of receiving bids or proposals, the Contractor's bid or proposal, or portions of addenda relating to bidding or proposal requirements.

**§ 1.1.1.1** Notwithstanding the foregoing, it is understood and agreed that the Owner is an intended third-party beneficiary of all contracts between the Contractor and Subcontractors or suppliers who provide labor and/or materials for the Work.

**§ 1.1.2 The Contract.** The Contract Documents form the Contract for Construction. The Contract represents the entire and integrated agreement between the parties hereto and supersedes prior negotiations, representations, or agreements, either written or oral. The Contract may be amended or modified only by a Modification. The Contract Documents shall not be construed to create a contractual relationship of any kind (1) between the Contractor and the Architect or the Architect's consultants, (2) between the Owner and the Construction Manager or the Construction Manager's consultants, (3) between the Owner and the Architect or the Architect's consultants, (4) between the Contractor and the Construction Manager or the Construction Manager's consultants, (5) between the Owner and a Subcontractor or Sub-subcontractor (6) between the Construction Manager and the Architect, or (7) between any persons or entities other than the Owner and Contractor. The Construction Manager and Architect shall, however, be entitled to performance and enforcement of obligations under the Contract intended to facilitate performance of their duties.

**§ 1.1.3 The Work.** The term "Work" means the construction and services required by the Contract Documents, whether completed or partially completed, and includes all other labor, materials, equipment, and services provided or to be provided by the Contractor to fulfill the Contractor's obligations. The Work may constitute the whole or a part of the Project.

**§ 1.1.4 The Project.** The Project is the total construction of which the Work performed under the Contract Documents may be the whole or a part and which may include construction by other Contractors, and by the Owner's own forces and Separate Contractors.

**§ 1.1.5 Contractors.** Contractors are persons or entities, other than the Contractor or Separate Contractors, who perform Work under contracts with the Owner that are administered by the Architect and Construction Manager.

**§ 1.1.6 Separate Contractors.** Separate Contractors are persons or entities who perform construction under separate contracts with the Owner not administered by the Architect and Construction Manager.

**§ 1.1.7 The Drawings.** The Drawings are the graphic and pictorial portions of the Contract Documents showing the design, location and dimensions of the Work, generally including plans, elevations, sections, details, schedules, and diagrams.

**§ 1.1.8 The Specifications.** The Specifications are that portion of the Contract Documents consisting of the written requirements for materials, equipment, systems, standards and workmanship for the Work, and performance of related services.

**§ 1.1.9 Instruments of Service.** Instruments of Service are representations, in any medium of expression now known or later developed, of the tangible and intangible creative work performed by the Architect and the Architect's consultants under their respective professional services agreements. Instruments of Service may include, without limitation, studies, surveys, models, sketches, drawings, specifications, and other similar materials.

**§ 1.1.10 Initial Decision Maker.** The Initial Decision Maker is the person identified in the Agreement to render initial decisions on Claims in accordance with Section 15.2. The Architect will serve as the Initial Decision Maker pursuant to Section 15.2 of AIA Document A232–2019.

**§ 1.2 Correlation and Intent of the Contract Documents**

**§ 1.2.1** The intent of the Contract Documents is to include all items necessary for the proper execution and completion of the Work by the Contractor. The Contract Documents are complementary, and what is required by one shall be as binding as if required by all; performance by the Contractor shall be required only to the extent consistent with the Contract Documents and reasonably inferable from them as being necessary to produce the intended results.

**§ 1.2.1.1** The invalidity of any provision of the Contract Documents shall not invalidate the Contract or its remaining provisions. In such case the Contract Documents shall be construed, to the fullest extent permitted by law, to give effect to the parties' intentions and purposes in executing the Contract.

**§ 1.2.2** Organization of the Specifications into divisions, sections and articles, and arrangement of Drawings shall not control the Contractor in dividing the Work among Subcontractors or in establishing the extent of Work to be performed by any trade.

**§ 1.2.3** Unless otherwise stated in the Contract Documents, words that have well-known technical or construction industry meanings are used in the Contract Documents in accordance with such recognized meanings.

**§ 1.3 Capitalization**

Terms capitalized in these General Conditions include those that are (1) specifically defined, (2) the titles of numbered articles, or (3) the titles of other documents published by the American Institute of Architects.

**§ 1.4 Interpretation**

In the interest of brevity the Contract Documents frequently omit modifying words such as "all" and "any" and articles such as "the" and "an," but the fact that a modifier or an article is absent from one statement and appears in another is not intended to affect the interpretation of either statement.

**§ 1.4.1** In the case of inconsistency between Drawings and Specifications or within Contract Documents not clarified by Addenda, the better quality or greater quantity of Work shall be provided in accordance with the Architect's interpretation.

**§ 1.5 Ownership and Use of Drawings, Specifications, and Other Instruments of Service**

**§ 1.5.1** The Architect and the Architect's consultants shall be deemed the authors and owners of their respective Instruments of Service, including the Drawings and Specifications, and retain all common law, statutory, and other reserved rights in their Instruments of Service, including copyrights. The Contractor, Subcontractors, sub-subcontractors, and suppliers shall not own or claim a copyright in the Instruments of Service. Submittal or distribution to meet official regulatory requirements or for other purposes in connection with the Project is not to be construed as publication in derogation of the Architect's or Architect's consultants' reserved rights. The Owner retains rights to the Instruments of Service pursuant to Article 7 of AIA Document B101-2017.

**§ 1.5.2** The Contractor, Subcontractors, Sub-subcontractors, and suppliers are authorized to use and reproduce the Instruments of Service provided to them, subject to any protocols established pursuant to Sections 1.7 and 1.8, solely and exclusively for execution of the Work. All copies made under this authorization shall bear the copyright notice, if any, shown on the Instruments of Service. The Contractor, Subcontractors, Sub-subcontractors, and suppliers may not use the Instruments of Service on other projects or for additions to the Project outside the scope of the Work without the specific written consent of the Owner, Architect, and the Architect's consultants.

**§ 1.5.3** The Architect shall furnish to the Contractor a version of the Instruments of Service in electronic form for the sole purpose of the construction of the Project for which the Instruments of Service were created.

**§ 1.6 Notice**

**§ 1.6.1** Except as otherwise provided in Section 1.6.2, where the Contract Documents require one party to notify or give notice to the other party, such notice shall be provided in writing to the designated representative of the party to

**§ 1.7 Digital Data Use and Transmission**

The parties shall agree upon protocols governing the transmission and use of Instruments of Service or any other information or documentation in digital form. The parties may use AIA Document E203™–2013, Building Information Modeling and Digital Data Exhibit or other form, to establish the protocols for the development, use, transmission, and exchange of digital data.

**§ 1.8 Building Information Models Use and Reliance**

Any use of, or reliance on, all or a portion of a building information model without agreement to protocols governing the use of, and reliance on, the information contained in the model and without having those protocols set forth in AIA Document E203™–2013, Building Information Modeling and Digital Data Exhibit, and the requisite AIA Document G202™–2013, Project Building Information Modeling Protocol Form or other form, shall be at the using or relying party's sole risk and without liability to the other party and its contractors or consultants, the authors of, or contributors to, the building information model, and each of their agents and employees.

## ARTICLE 2 OWNER

**§ 2.1 General**

**§ 2.1.1** The Owner is the person or entity identified as such in the Agreement and is referred to throughout the Contract Documents as if singular in number. The Owner shall designate in writing a representative who shall have express authority to bind the Owner with respect to all matters requiring the Owner's approval or authorization in accordance with Owner's Delegation of Authority Policy, a copy of which will be provided at Contractor's request. Except as otherwise provided in Section 4.2.1, the Construction Manager and the Architect do not have such authority. The term "Owner" means the Owner or the Owner's authorized representative.

*(Paragraph deleted)*

**§ 2.2 Evidence of the Owner's Financial Arrangements**

**§ 2.2.1** Prior to commencement of the Work, and upon written request by the Contractor, the Owner shall furnish to the Contractor reasonable evidence that the Owner has made financial arrangements to fulfill the Owner's obligations under the Contract. The Contractor shall have no obligation to commence the Work until the Owner provides such evidence. If commencement of the Work is delayed under this Section 2.2.1, the Contract Time shall be extended appropriately.

**§ 2.2.2** Following commencement of the Work and upon written request by the Contractor, the Owner shall furnish to the Contractor reasonable evidence that the Owner has made financial arrangements to fulfill the Owner's obligations under the Contract only if (1) the Owner fails to make payments to the Contractor as the Contract Documents require; (2) the Contractor identifies in writing a reasonable concern regarding the Owner's ability to make payment when due; or (3) a change in the Work materially changes the Contract Sum. If the Owner fails to provide such evidence, as required, within fourteen days of the Contractor's request, the Contractor may immediately stop the Work and, in that event, shall notify the Owner that the Work has stopped. However, if the request is made because a change in the Work materially changes the Contract Sum under (3) above, the Contractor may immediately stop only that portion of the Work affected by the change until reasonable evidence is provided. If the Work is stopped under this Section 2.2.2, the Contract Time shall be extended appropriately and the Contract Sum shall be increased by the amount of the Contractor's reasonable costs of shutdown, delay and start-up, plus interest as provided in the Contract Documents.

**§ 2.2.3** After the Owner furnishes evidence of financial arrangements under this Section 2.2, the Owner shall not materially vary such financial arrangements without prior notice to the Contractor.

**§ 2.2.4** Where the Owner has designated information furnished under this Section 2.2 as "confidential," the Contractor shall keep the information confidential and shall not disclose it to any other person. However, the Contractor may disclose "confidential" information, after seven (7) days' notice to the Owner, where disclosure is required by law, including a subpoena or other form of compulsory legal process issued by a court or governmental entity, or by court

or arbitrator(s) order. The Contractor may also disclose "confidential" information to its employees, consultants, sureties, Subcontractors and their employees, Sub-subcontractors, and others who need to know the content of such information solely and exclusively for the Project and who agree to maintain the confidentiality of such information.

**§ 2.3 Information and Services Required of the Owner**

**§ 2.3.1** Except for permits and fees that are the responsibility of the Contractor under the Contract Documents, including those required under Section 3.7.1, the Owner shall secure and pay for necessary approvals, easements, assessments and charges required for construction, use or occupancy of permanent structures or for permanent changes in existing facilities. Unless otherwise provided under the Contract Documents, the Owner, assisted by the Construction Manager, shall secure and pay for the building permit.

**§ 2.3.2** The Owner shall retain an architect lawfully licensed to practice architecture, or an entity lawfully practicing architecture, in the jurisdiction where the Project is located. That person or entity is identified as the Architect in the Agreement and is referred to throughout the Contract Documents as if singular in number.

**§ 2.3.3** The Owner shall retain a construction manager adviser lawfully practicing construction management in the jurisdiction where the Project is located. That person or entity is identified as the Construction Manager in the Agreement and is referred to throughout the Contract Documents as if singular in number.

**§ 2.3.4** If the employment of the Construction Manager or Architect terminates, the Owner shall employ a successor construction manager or architect to whom the Contractor has no reasonable objection and whose status under the Contract Documents shall be that of the Construction Manager or Architect, respectively.

**§ 2.3.5** If requested by the Contractor and reasonably required for the Project, the Owner shall furnish surveys describing physical characteristics, legal limitations and utility locations for the site of the Project, and a written legal description of the site. The Contractor shall exercise proper precautions relating to the safe performance of the Work.

**§ 2.3.6** The Owner shall furnish information or services required of the Owner by the Contract Documents with reasonable promptness. The Owner shall also furnish any other information or services under the Owner's control and relevant to the Contractor's performance of the Work with reasonable promptness after receiving the Contractor's written request for such information or services. The Contractor is responsible for the timeliness of, or interference caused by, Subcontractors, Sub-subcontractors (of any tier), and others directly or indirectly under contract to the Contractor.

**§ 2.3.7** Unless otherwise provided in the Contract Documents, the Owner shall furnish to the Contractor one copy of the Contract Documents for purposes of making reproductions pursuant to Section 1.5.2.

**§ 2.3.8** The Owner shall forward all communications to the Contractor through the Construction Manager. Other communication shall be made as set forth in Section 4.2.6.

**§ 2.4 Owner's Right to Stop the Work**

If the Contractor fails to correct Work that is not in accordance with the requirements of the Contract Documents as required by Section 12.2 or repeatedly fails to carry out Work in accordance with the Contract Documents, the Owner may issue a written order to the Contractor to stop the Work, or any portion thereof, until the cause for such order has been eliminated; however, the right of the Owner to stop the Work shall not give rise to a duty on the part of the Owner to exercise this right for the benefit of the Contractor or any other person or entity, except to the extent required by Section 6.1.3.

**§ 2.5 Owner's Right to Carry Out the Work**

If the Contractor defaults or neglects to carry out the Work in accordance with the Contract Documents and fails within a three-business-day (3) period after receipt of notice from the Owner to commence and continue correction of such default or neglect with diligence and promptness, the Owner may, without prejudice to other remedies the Owner may have, correct such default or neglect. Such action by the Owner and amounts charged to the Contractor are both subject to review by the Construction Manager and prior approval of the Architect, and the Construction Manager or Architect may, pursuant to Section 9.5.1, withhold or nullify a Certificate for Payment in whole or in part, to the extent reasonably necessary to reimburse the Owner for the reasonable cost of correcting such deficiencies, including Owner's expenses and compensation for the Construction Manager's and Architect's and their respective consultants'

If current and future payments are not sufficient to cover such amounts, the Contractor shall pay the difference to the Owner within ten (10) days following written request for payment delivered by the Owner to the Contractor. If the Contractor disagrees with the actions of the Owner or the Architect, or the amounts claimed as costs to the Owner, the Contractor may file a Claim pursuant to Article 15.

## ARTICLE 3 CONTRACTOR

### § 3.1 General

**§ 3.1.1** The Contractor is the person or entity identified as such in the Agreement and is referred to throughout the Contract Documents as if singular in number. The Contractor shall be lawfully licensed, if required in the jurisdiction where the Project is located. The Contractor shall designate in writing a representative who shall have express authority to bind the Contractor with respect to all matters under this Contract. The term "Contractor" means the Contractor or the Contractor's authorized representative.

**§ 3.1.2** The Contractor shall perform the Work in accordance with the Contract Documents.

**§ 3.1.3** The Contractor shall hire a professional utilities locator to investigate and verify all private utility locations prior to excavation and cutting into of existing Work. The Contractor is responsible for locating, terminating, and reinstallation of all private utilities. Private site utilities may not be in the Drawings and Project Manual and as such, verification of private utilities is the sole responsibility of the Contractor. Costs associated with moving and repairing of unknown and undocumented utilities will be by appropriate Change Order. The Contractor shall comply with Gopher State One Call, or other public utility service locator to locate all public utilities prior to any work on the site. This shall not relieve Contractor from obligations under Article 3.

**§ 3.1.4** The Contractor shall not be relieved of its obligations to perform the Work in accordance with the Contract Documents either by activities or duties of the Construction Manager or Architect in their administration of the Contract, or by tests, inspections or approvals required or performed by persons or entities other than the Contractor.

### § 3.2 Review of Contract Documents and Field Conditions by Contractor

**§ 3.2.1** The Contractor shall carefully study and compare the Contract Documents with each other and with information furnished by the Owner pursuant to Section 2.2.3, and shall immediately report to the Architect and Construction Manager errors, inconsistencies, or omissions discovered. The Contractor shall not be liable to the Owner or Architect for damage resulting from errors, inconsistencies, or omissions in the Contract Document unless the Contractor recognized such error, inconsistency, or omission and knowingly failed to report it to the Architect. If the Contractor performs any construction activity knowing or believing it involves a recognized error, inconsistency, or omission in the Contract Documents without such notice to the Architect, the Contractor shall assume full responsibility for such performance and shall bear the attributable costs for correction and shall bear responsibility for any additional costs, delays, and damages resulting from such failure to immediately report any such errors, inconsistencies, or omissions which the Contractor may discover. By executing the Contract, the Contractor represents that the Contractor has reviewed and understands the Contract Documents, has visited the Site and is familiar with local conditions under which the Work is to be performed, has correlated personal observations with the requirements of the Contract Documents, and has notified the Architect of and obtained clarification of any discrepancies which have become apparent during the bidding or proposal period.

**§ 3.2.1.1** The Contractor shall take field measurements and verify field conditions and shall carefully compare such field measurements and conditions and other information known to the Contractor with the Contract Documents before commencing activities. The Contractor shall not proceed with any work in such areas until written instructions are received from the Architect.

§ 3.2.2 The Contractor shall perform the Work in accordance with the Contract Documents and submittals accepted pursuant to Section 3.12.

§ 3.2.3 The Owner shall be entitled to deduct from the Contract Sum amounts paid to the Architect for the Architect to evaluate and respond to the Contractor's requests for interpretation or information where such information was available to the Contractor from a careful study and comparison of the Contract Documents, Filed Conditions, Owner Provided Information, Contractor Prepared Coordination Drawings, or prior Project Correspondence or Documentation.

§ 3.2.4 If the Contractor believes that any portions of the Contract Documents do not comply with applicable laws, statutes, ordinances, building codes, and rules and regulations, or any orders by code enforcement officials or the Owner or its designees acting in the capacity of building code inspectors or Referenced Standards, the Contractor must promptly notify the Owner and the Architect of the non-compliance as provided in Section 3.2.6 and request direction before proceeding with the affected Work.

§ 3.2.5 The Contractor must promptly notify the Owner and the Architect in writing of any apparent errors, inconsistencies, omissions, ambiguities, construction impracticalities or code violations discovered as a result of the Contractor's review of the Contract Documents including any differences between actual and indicated dimensions, locations and descriptions, and must give the Owner and the Architect timely notice in writing of same and of any corrections, clarifications, additional Drawings or Specifications, or other information required to define the Work in greater detail or to permit the proper progress of the Work. The Contractor must provide similar notice with respect to any variance between its review of the Site and physical data and Site conditions observed.

§ 3.2.6 If the Contractor performs any Work involving an apparent error, inconsistency, ambiguity, construction impracticality, omission or code violation in the Contract Documents of which the Contractor is aware, or which could reasonably have been discovered by the review required by Section 3.2, without prompt written notice to the Owner and the Architect and request for correction, clarification or additional information, as appropriate, the Contractor does so at its own risk and expense and all Claims relating thereafter are specifically waived.

**§ 3.3 Supervision and Construction Procedures**

§ 3.3.1 The Contractor shall supervise and direct the Work, using the Contractor's best skill and attention. The Contractor shall be solely responsible for, and have control over, construction means, methods, techniques, sequences, and procedures, and for coordinating all portions of the Work under the Contract. If the Contractor determines that such means, methods, techniques, sequences or procedures may not be safe, the Contractor shall give timely notice to the Owner, the Construction Manager, and the Architect, and shall propose alternative means, methods, techniques, sequences, or procedures. The Architect shall evaluate the proposed alternative solely for conformance with the design intent for the completed construction. The Construction Manager shall review the proposed alternative for sequencing, constructability, and coordination impacts on the other Contractors. Unless the Architect or the Construction Manager objects to the Contractor's proposed alternative, the Contractor shall perform the Work using its alternative means, methods, techniques, sequences, or procedures.

**§ 3.3.6** The Owner or its approved representative (heretofore referred to as Owner's Representative) shall have access to the Work site and all Work. No supervision or inspection by the Owner or the Owner's Representative, nor the authority to act, nor any other actions taken by the Owner's Representative shall relieve the Contractor of any of its obligations under the Contract Documents or give rise to any duty on the part of the Owner.

**§ 3.3.7** The Contract shall take appropriate precautions to ensure that the Work does not materially disrupt any ongoing operation by the Owner at the Project (if any) except to the extent any such disruption is a necessary result of performing a particular portion of the Work, in which case the Contractor shall provide the Owner with reasonable advanced written notice and shall take all commercially reasonable measures to minimize the impact on the Owner and the Owner's operations.

### § 3.4 Labor and Materials

**§ 3.4.1** Unless otherwise provided in the Contract Documents, the Contractor shall provide and pay for labor, materials, equipment, tools, construction equipment and machinery, water, heat, utilities, transportation, and other facilities and services necessary for proper execution and completion of the Work, whether temporary or permanent and whether or not incorporated or to be incorporated in the Work. Should the Contract Documents require Work to be performed after regular working hours or should the Contractor elect to perform Work after regular working hours, the additional cost of such Work shall be borne by the Contractor.

**§ 3.4.2** Except in the case of minor changes in the Work approved by the Architect in accordance with Section 3.12.8 or ordered by the Architect in accordance with Section 7.4, the Contractor may make substitutions only with the consent of the Owner, after evaluation by the Architect, in consultation with the Construction Manager, and in accordance with a Change Order or Construction Change Directive.

**§ 3.4.3** The Contractor shall enforce strict discipline and good order among the Contractor's employees and other persons carrying out the Work. The Contractor shall not permit employment of unfit persons or persons not properly skilled in tasks assigned to them.

**§ 3.4.5** In the event of a Change related to substitute or additional materials, and which shall comply with Article 7, the Contractor shall exercise reasonable efforts, consistent with the provisions of the Contract Documents to obtain the maximum available case discounts on all materials, provided that, in doing so, the Contractor shall not accept or use materials for incorporation into the Project which are of a type or quality not reasonably contemplated under the terms of the Contract Documents.

**§ 3.4.6** After award of the Contract, a request for substitution of a material, product, or piece of equipment at no change in the Contract Sum will not be approved by the Owner or the Architect, unless the specified item is no longer manufactured, the specified item is unavailable as a result of an act of government such as a declaration of a national emergency, or delivery of the specified items is substantially delayed as a result of labor disputes affecting the manufacturer, unusual delay in transportation, or any other cause beyond control of the Contractor or a Subcontractor or material supplier which the Architect determines justified the delay. Requests will not be approved where the delay in delivery results from failure to promptly place subcontracts and material orders. Requests for substitution shall be submitted in writing to the Architect and shall clearly describe the proposed substitution, state the reason for the unavailability of a specified item and be accompanied by such additional data and information as may be necessary in the discretion of the Owner and the Architect to establish the acceptability of the proposed substitute.

**§ 3.4.7** The Owner shall be entitled to deduct from the Contract Sum amounts paid to the Architect to evaluate the Contractor's proposed Substitutions and for changes made to the Contract Documents as a result of Owner's acceptance of such Substitutions.

If required by the Construction Manager or Architect, the Contractor shall furnish satisfactory evidence as to the kind and quality of materials and equipment.

**§ 3.5.2** All material, equipment, or other special warranties required by the Contract Documents shall be issued in the name of the Owner, or shall be transferable to the Owner, and shall commence in accordance with Section 9.8.4. **§ 3.5.5** The Contractor must furnish all special warranties required by the Contract Documents to the Owner no later than Substantial Completion. The Owner may require additional special warranties in connection with the approval of "Or-Equals" or Substitutions, Allowance items, Work that is defective or nonconforming, or the acceptance of nonconforming Work pursuant to Article 12.

**§ 3.6 Taxes**

The Contractor shall pay sales, consumer, use and similar taxes for the Work or portions thereof provided by the Contractor that are legally enacted when bids are received or negotiations concluded, whether or not yet effective or merely scheduled to go into effect.

**§ 3.7 Permits, Fees, Notices, and Compliance with Laws**

**§ 3.7.1** Unless otherwise provided in the Contract Documents, the Owner, assisted by the Construction Manager, shall secure and pay for the building permit. The Contractor shall secure and pay for other permits, fees, licenses, and inspections by government agencies necessary for proper execution and completion of the Work that are customarily secured after execution of the Contract and legally required at the time bids are received or negotiations concluded. The Contractor shall be responsible for the Sewer Access (SAC) and Water Access (WAC) fees for the Project. The Contractor shall pay the SAC/WAC costs to the authorities having jurisdiction from the Allowance in the Base Bid for such charges as defined in the Construction Documents.

The Architect and Construction Manager will promptly investigate such conditions and, if the Architect, in consultation with the Construction Manager, determines that they differ materially and cause an increase or decrease in the Contractor's cost of, or time required for, performance of any part of the Work, will recommend that an equitable adjustment be made in the Contract Sum or Contract Time, or both. If the Architect, in consultation with the Construction Manager,

determines that the conditions at the site are not materially different from those indicated in the Contract Documents and that no change in the terms of the Contract is justified, the Architect shall promptly notify the Owner, Construction Manager, and Contractor, stating the reasons. If the Owner or Contractor disputes the Architect's determination or recommendation, either party may submit a Claim as provided in Article 15.

**§ 3.7.5** If, in the course of the Work, the Contractor encounters human remains or recognizes the existence of burial markers, archaeological sites or wetlands not indicated in the Contract Documents, the Contractor shall immediately suspend any operations that would affect them and shall notify the Owner, Construction Manager, and Architect. Upon receipt of such notice, the Owner shall promptly take any action necessary to obtain governmental authorization required to resume the operations. The Contractor shall continue to suspend such operations until otherwise instructed by the Owner but shall continue with all other operations that do not affect those remains or features. Requests for adjustments in the Contract Sum and Contract Time arising from the existence of such remains or features may be made as provided in Article 15.

### § 3.8 Allowances

**§ 3.8.1** The Contractor shall include in the Contract Sum all allowances stated in the Contract Documents. Items covered by allowances shall be supplied for such amounts and by such persons or entities as the Owner may direct, but the Contractor shall not be required to employ persons or entities to whom the Contractor has reasonable objection.

**§ 3.8.2** Unless otherwise provided in the Contract Documents:

.1 allowances shall cover the cost to the Contractor of materials and equipment delivered at the site and all required taxes, less applicable trade discounts;

.2 Contractor's costs for unloading and handling at the site, labor, installation costs, overhead, profit, and other expenses contemplated for stated allowance amounts shall be included in the Contract Sum but not in the allowances; and

.3 whenever costs are more than or less than allowances, the Contract Sum shall be adjusted accordingly by Change Order. The amount of the Change Order shall reflect (1) the difference between actual costs and the allowances under Section 3.8.2.1 and (2) changes in Contractor's costs under Section 3.8.2.2.

**§ 3.8.3** Materials and equipment under an allowance shall be selected by the Owner with reasonable promptness.

**§ 3.9.2** The Contractor, as soon as practicable after award of the Contract, shall notify the Owner and Architect, through the Construction Manager, of the name and qualifications of a proposed superintendent. Within 14 days of receipt of the information, the Construction Manager may notify the Contractor, stating whether the Owner, the Construction Manager, or the Architect (1) has reasonable objection to the proposed superintendent or (2) require additional time for review. Failure of the Construction Manager to provide notice within the 14-day period shall constitute notice of no reasonable objection.

**§ 3.9.3** The Contractor shall not employ a proposed superintendent or any other management personnel to whom the Owner, Construction Manager, or Architect has made reasonable and timely objection. The Contractor shall not change the superintendent without the Owner's consent, which shall not unreasonably be withheld or delayed.

**§ 3.9.4** If requested by the Owner, the Contractor shall replace the superintendent at no additional cost to the Owner. No other change in this position shall be made without notice to and written consent of the Owner.

The schedule shall provide for the orderly progression of the Work to completion and shall not exceed time limits current under the Contract Documents. The schedule shall be revised at appropriate intervals as required by the conditions of the Work and Project. The Contractor shall cooperate with the Construction Manager in scheduling and performing the Contractor's Work to avoid conflict with, and as to cause no delay in, the work or activities of other Contractors, or the construction or operations of the Owner's own forces or Separate Contractors.

**§ 3.10.2** The Contractor, promptly after being awarded the Contract and thereafter as necessary to maintain a current submittal schedule, shall submit a submittal schedule for the Construction Manager's and Architect's approval. The Architect and Construction Manager's approval shall not be unreasonably delayed or withheld. The submittal schedule shall (1) be coordinated with the Contractor's construction schedule, and (2) allow the Construction Manager and Architect reasonable time to review submittals. If the Contractor fails to submit a submittal schedule, or fails to provide submittals in accordance with the approved submittal schedule, the Contractor shall not be entitled to any increase in Contract Sum or extension of Contract Time based on the time required for review of submittals.

**§ 3.10.3** The Contractor shall participate with other Contractors, the Construction Manager, and the Owner in reviewing and coordinating all schedules for incorporation into the Project schedule that is prepared by the Construction Manager. The Contractor shall make revisions to the construction schedule and submittal schedule as deemed necessary by the Construction Manager to conform to the Project schedule.

**§ 3.10.4** The Contractor shall perform the Work in general accordance with the most recent schedules submitted to and accepted in writing by the Owner, Construction Manager, and Architect, and incorporated into the approved Project schedule.

**§ 3.11 Documents and Samples at the Site**

**§ 3.11.1** The Contractor shall make available, at the Project site, one record copy of the Contract Documents, including Change Orders, Construction Change Directives, and other Modifications, in good order and updated daily to indicate field changes and selections made during construction, and in addition accepted and approved Shop Drawings, Product Data, Samples, and similar required submittals. These shall be in electronic form or paper copy, available to the Construction Manager, Architect, and Owner as required to complete routine inspections by Architect, Construction Manager and Owner prior to any approval of payments to the Contractor, and delivered to the Construction Manager for submittal to the Owner upon completion of the Work. The Architect and Contractor must verify that all "as-built" Drawings, Specifications, Addenda, Change Orders, and other Modifications are up-to-date before Contractor's Application for Payment is acceptable and before the Owner incurs any duty to pay Contractor in accordance with the Contract. The record documents shall be a separate set of documents labeled "Record Documents" and used only for record purposes and kept clean and undamaged.

**§ 3.11.2** No review or receipt of such records by the Architect or Owner shall be considered a waiver of any deviation from the Contract Documents or approved shop drawings, or any way relieve the Contractor from its responsibility to perform the Work in accordance with the Contract Documents.

**§ 3.12 Shop Drawings, Product Data, and Samples**

**§ 3.12.1** Shop Drawings are drawings, diagrams, schedules, and other data specially prepared for the Work by the Contractor or a Subcontractor, Sub-subcontractor, manufacturer, supplier, or distributor to illustrate some portion of the Work.

**§ 3.12.2** Product Data are illustrations, standard schedules, performance charts, instructions, brochures, diagrams, and other information furnished by the Contractor to illustrate materials or equipment for some portion of the Work.

**§ 3.12.3** Samples are physical examples that illustrate materials, equipment, or workmanship, and establish standards by which the Work will be judged.

**§ 3.12.4** Shop Drawings, Product Data, Samples, and similar submittals are not Contract Documents. Their purpose is to demonstrate how the Contractor proposes to conform to the information given and the design concept expressed in the Contract Documents for those portions of the Work for which the Contract Documents require submittals. Review

by the Architect and Construction Manager is subject to the limitations of Sections 4.2.10 through 4.2.12. Informational submittals upon which the Construction Manager and Architect are not expected to take responsive action may be so identified in the Contract Documents. Submittals that are not required by the Contract Documents may be returned by the Construction Manager or Architect without action.

**§ 3.12.5** The Contractor shall review for compliance with the Contract Documents, approve, and submit to the Construction Manager, Shop Drawings, Product Data, Samples, and similar submittals required by the Contract Documents, in accordance with the Project submittal schedule approved by the Construction Manager and Architect or, in the absence of an approved Project submittal schedule, with reasonable promptness and in such sequence as to cause no delay in the Work or in the activities of other Contractors, Separate Contractors, or the Owner's own forces. The Contractor shall cooperate with the Construction Manager in the coordination of the Contractor's Shop Drawings, Product Data, Samples, and similar submittals with related documents submitted by other Contractors. The Contractor must provide the Owner and the Architect with copies of all submittals made to regulatory agencies.

**§ 3.12.6** By submitting Shop Drawings, Product Data, Samples, and similar submittals, the Contractor represents to the Owner, Construction Manager, and Architect, that the Contractor has (1) reviewed and approved them, (2) determined and verified materials, field measurements and field construction criteria related thereto, or will do so, and (3) checked and coordinated the information contained within such submittals with the requirements of the Work and of the Contract Documents.

**§ 3.12.7** The Contractor shall perform no portion of the Work for which the Contract Documents require submittal and review of Shop Drawings, Product Data, Samples, or similar submittals, until the respective submittal has been reviewed and accepted by the Architect. The Contractor must correct at its cost, and without any adjustment in Contract Time, any Work the correction of which is required due to the Contractor's failure to obtain approval of a submittal required to have been obtained prior to proceeding with the Work, including, but not limited to, correction of any conflicts in the Work resulting from such failure.

**§ 3.12.8** The Work shall be in accordance with accepted submittals except that the Contractor shall not be relieved of responsibility for deviations from the requirements of the Contract Documents by the Architect's acceptance of Shop Drawings, Product Data, Samples, or similar submittals, unless the Contractor has specifically notified the Construction Manager and Architect of such deviation at the time of submittal and (1) the Architect has given written acceptance to the specific deviation as a minor change in the Work, or (2) a Change Order or Construction Change Directive has been issued authorizing the deviation. The Contractor shall not be relieved of responsibility for errors or omissions in Shop Drawings, Product Data, Samples, or similar submittals, by the Architect's acceptance thereof.

**§ 3.12.9** The Contractor shall direct specific attention, in writing or on resubmitted Shop Drawings, Product Data, Samples, or similar submittals, to revisions other than those requested by the Construction Manager and Architect on previous submittals. In the absence of such notice, the Architect's acceptance of a resubmission shall not apply to such revisions.

**§ 3.12.10** The Contractor shall not be required to provide professional services that constitute the practice of architecture or engineering unless such services are specifically required by the Contract Documents for a portion of the Work or unless the Contractor needs to provide such services in order to carry out the Contractor's responsibilities for construction means, methods, techniques, sequences, and procedures. The Contractor shall not be required to provide professional services in violation of applicable law.

**§ 3.12.10.1** If professional design services or certifications by a design professional related to systems, materials, or equipment are specifically required of the Contractor by the Contract Documents, the Owner and the Architect will specify all performance and design criteria that such services must satisfy. The Contractor shall be entitled to rely upon the adequacy and accuracy of the performance and design criteria provided in the Contract Documents. The Contractor shall cause such services or certifications to be provided by an appropriately licensed design professional, whose signature and seal shall appear on all drawings, calculations, specifications, certifications, Shop Drawings, and other submittals prepared by such professional. Shop Drawings, and other submittals related to the Work, designed or certified by such professional, if prepared by others, shall bear such professional's written approval when submitted to the Architect. The Owner, the Architect, and the Construction Manager shall be entitled to rely upon the adequacy and accuracy of the services, certifications, and approvals performed or provided by such design professionals, provided the Owner and Architect have specified to the Contractor the performance and design criteria that such services must

Pursuant to this Section 3.12.10, the Architect will review and approve or take other appropriate action on submittals only for the limited purpose of checking for conformance with information given and the design concept expressed in the Contract Documents. The Construction Manager shall review submittals for sequencing, constructability, and coordination impacts on other Contractors.

**§ 3.12.10.2** If the Contract Documents require the Contractor's design professional to certify that the Work has been performed in accordance with the design criteria, the Contractor shall furnish such certifications to the Construction Manager and Architect at the time and in the form specified by the Architect.

### § 3.13 Use of Site

**§ 3.13.1** The Contractor shall confine operations at the site to areas permitted by applicable laws, statutes, ordinances, codes, rules and regulations, lawful orders of public authorities, and the Contract Documents and shall not unreasonably encumber the site with materials or equipment.

**§ 3.13.2** The Contractor shall coordinate the Contractor's operations with, and secure the approval of, the Construction Manager before using any portion of the site.

**§ 3.13.3** Except as may be specifically provided in the Contract Documents, the Contractor shall provide all necessary temporary facilities, including power, water, sanitation, scaffolding, storage, and security. If Owner makes any such facilities available to Contractor, it is without representation or warranty as to their adequacy for Contractor's use, and Contractor shall indemnify, defend, and hold Owner harmless from and against any claims arising out of Contractor's use of such facilities.

### § 3.14 Cutting and Patching

**§ 3.14.1** The Contractor shall be responsible for cutting, fitting, or patching required to complete the Work or to make its parts fit together properly. All areas requiring cutting, fitting, or patching shall be restored to the condition existing prior to the cutting, fitting, or patching, unless otherwise required by the Contract Documents.

**§ 3.14.2** The Contractor shall not damage or endanger a portion of the Work or fully or partially completed construction of the Owner, Separate Contractors, or of other Contractors by cutting, patching, or otherwise altering such construction, or by excavation. Such obligation shall not be construed to negate, abridge, or reduce other rights or obligations of indemnity which would otherwise exist as to a party or person described in this Section 3.18. The Contractor, furthermore, agrees to obtain, maintain, and pay for such general liability coverage and endorsements (including product and completed operations coverage) as will ensure the provisions of this Section 3.18.1. § 4.2.2 The Architect will visit the site at intervals appropriate to the stage of construction, or as otherwise agreed with the Owner, to become generally familiar with the progress and quality of the Work completed, to endeavor to guard the Owner against defects and deficiencies in the Work, and to determine in general if the Work is being performed in a manner indicating that the Work, when completed, will be in accordance with the Contract Documents. However, the Architect will not be required to make exhaustive or continuous on-site inspections to check the quality or quantity of the Work. On the basis of the site visits, the Architect will keep the Owner and the Construction Manager reasonably informed about the progress and quality of the portion of the Work completed, and promptly report to the Owner and Construction Manager known deviations from the Contract Documents and defects and deficiencies observed in the Work.

§ 4.2.2.2 The Contractor shall reimburse the Owner for compensation paid to the Architect for additional site visits made necessary by fault, neglect, or request of the Contractor.

§ 4.2.3 The Construction Manager shall provide one or more representatives who shall be in attendance at the Project site whenever the Work is being performed. The Construction Manager will determine in general if the Work observed is being performed in accordance with the Contract Documents, will keep the Owner and Architect reasonably informed of the progress of the Work, and will promptly report to the Owner and Architect known deviations from the Contract Documents and the most recent Project schedule, and defects and deficiencies observed in the Work.

§ 4.2.4 The Construction Manager will schedule and coordinate the activities of the Contractor and other Contractors in accordance with the latest approved Project schedule.

§ 4.2.5 The Construction Manager, except to the extent required by Section 4.2.4, and Architect will not have control over, charge of, or responsibility for, the construction means, methods, techniques, sequences or procedures, or for the safety precautions and programs in connection with the Work, since these are solely the Contractor's rights and responsibilities under the Contract Documents, and neither will be responsible for the Contractor's failure to perform the Work in accordance with the requirements of the Contract Documents. Neither the Construction Manager nor the Architect will have control over or charge of, or be responsible for acts or omissions of, the Contractor, Subcontractors, or their agents or employees, or of any other persons or entities performing portions of the Work.

§ 4.2.6 **Communications.** The Owner shall communicate with the Contractor and the Construction Manager's consultants through the Construction Manager about matters arising out of or relating to the Contract Documents. Communications by and with the Architect's consultants shall be through the Architect. Communications by and with Subcontractors and suppliers shall be through the Contractor. Communications by and with other Contractors shall be through the Construction Manager. Communications by and with the Owner's own forces and Separate Contractors shall be through the Owner unless otherwise provided. The Contract Documents may specify other communication protocols. The Owner may require the Architect, Construction Manager and the Contractor to comply with Owner requirements in regards to public communications and site signage.

§ 4.2.7 The Construction Manager and Architect will review and certify all Applications for Payment by the Contractor, in accordance with the provisions of Article 9.

§ 4.2.8 The Architect and Construction Manager have authority to reject Work that does not conform to the Contract Documents, and will notify each other about the rejection. Whenever the Construction Manager considers it necessary or advisable for implementation of the intent of the Contract Documents, the Construction Manager will have authority to require additional inspection or testing of the Work in accordance with Sections 13.4.2 and 13.4.3, upon written authorization of the Owner, whether or not the Work is fabricated, installed or completed. **§ 4.2.9** Utilizing the submittal schedule provided by the Contractor, the Construction Manager shall prepare, and revise as necessary, a Project submittal schedule incorporating information from other Contractors, the Owner, Owner's consultants, Owner's Separate Contractors and vendors, governmental agencies, and participants in the Project under the management of the Construction Manager. The Project submittal schedule and any revisions shall be submitted to the Architect for approval.

**§ 4.2.10** The Construction Manager will receive and promptly review for conformance with the submittal requirements of the Contract Documents, all submittals from the Contractor such as Shop Drawings, Product Data, and Samples. Where there are other Contractors, the Construction Manager will also check and coordinate the information contained within each submittal received from the Contractor and other Contractors, and transmit to the Architect those recommended for approval. By submitting Shop Drawings, Product Data, Samples, and similar submittals, the Construction Manager represents to the Owner and Architect that the Construction Manager has reviewed and recommended them for approval. The Construction Manager's actions will be taken in accordance with the Project submittal schedule approved by the Architect or, in the absence of an approved Project submittal schedule, with reasonable promptness while allowing sufficient time to permit adequate review by the Architect.

**§ 4.2.11** The Architect will, and the Owner may, review and approve, or take other appropriate action upon, the Contractor's submittals such as Shop Drawings, Product Data, and Samples, but only for the limited purpose of checking for conformance with information given and the design concept expressed in the Contract Documents. The Architect's or Owner's action will be taken with such reasonable promptness as to cause no delay in the Work or in the activities of the Owner, Contractor or separate contractors, while allowing sufficient time in the Architect's professional judgment to permit adequate review. Upon the Architect's or the Owner's completed review, the Architect shall transmit its submittal review to the Construction Manager.

**§ 4.2.12** Review of the Contractor's submittals by the Construction Manager and Architect is not conducted for the purpose of determining the accuracy and completeness of other details such as dimensions and quantities, or for substantiating instructions for installation or performance of equipment or systems, all of which remain the responsibility of the Contractor as required by the Contract Documents. The Construction Manager and Architect's review of the Contractor's submittals shall not relieve the Contractor of the obligations under Sections 3.3, 3.5, and 3.12. The Construction Manager and Architect's review shall not constitute approval of safety precautions or of any construction means, methods, techniques, sequences, or procedures. The Architect's approval of a specific item shall not indicate approval of an assembly of which the item is a component.

**§ 4.2.13** The Construction Manager will prepare Change Orders and Construction Change Directives.

**§ 4.2.14** The Construction Manager and the Architect will take appropriate action on Change Orders or Construction Change Directives in accordance with Article 7, and the Architect will have authority to order minor changes in the Work as provided in Section 7.4. The Architect, in consultation with the Construction Manager, will investigate and make determinations and recommendations regarding concealed and unknown conditions as provided in Section 3.7.4.

**§ 4.2.15** Utilizing the documents provided by the Contractor, the Construction Manager will maintain at the site for the Owner one copy of all Contract Documents, approved Shop Drawings, Product Data, Samples, and similar required submittals, in good order and marked currently to record all changes and selections made during construction. These will be available to the Architect and the Contractor, and will be delivered to the Owner upon completion of the Project.

**§ 4.2.16** The Construction Manager will assist the Architect in conducting inspections to determine the date or dates of Substantial Completion and the date of final completion; issue Certificates of Substantial Completion in conjunction with the Architect pursuant to Section 9.8; and receive and forward to the Owner written warranties and related documents required by the Contract and assembled by the Contractor pursuant to Section 9.10. The Construction Manager will forward to the Architect a final Application and Certificate for Payment or final Project Application and Project Certificate for Payment upon the Contractor's compliance with the requirements of the Contract Documents.

**§ 4.2.17** If the Owner and Architect agree, the Architect will provide one or more Project representatives to assist in carrying out the Architect's responsibilities at the site. The Owner shall notify the Construction Manager of any change in the duties, responsibilities and limitations of authority of the Project representatives.

## ARTICLE 5 SUBCONTRACTORS

### § 5.1 Definitions

**§ 5.1.1** A Subcontractor is a person or entity who has a direct contract with the Contractor to perform a portion of the Work at the site. The term "Subcontractor" is referred to throughout the Contract Documents as if singular in number and means a Subcontractor or an authorized representative of the Subcontractor. The term "Subcontractor" does not include other Contractors or Separate Contractors or the subcontractors of other Contractors or Separate Contractors.

**§ 5.1.2** A Sub-subcontractor is a person or entity who has a direct or indirect contract with a Subcontractor to perform a portion of the Work at the site. The term "Sub-subcontractor" is referred to throughout the Contract Documents as if singular in number and means a Sub-subcontractor or an authorized representative of the Sub-subcontractor.

### § 5.2 Award of Subcontracts and Other Contracts for Portions of the Work

**§ 5.2.1** Unless otherwise stated in the Contract Documents, the Contractor, as soon as practicable after award of the Contract, shall notify in writing the Construction Manager, for review by the Owner, Construction Manager and Architect, of the persons or entities proposed for each principal portion of the Work, including those who are to furnish materials or equipment fabricated to a special design. Within 14 days of receipt of the information, the Construction Manager may notify the Contractor whether the Owner, the Construction Manager or the Architect (1) has reasonable objection to any such proposed person or entity or, (2) requires additional time for review. Failure of the Construction Manager to provide notice within the 14-day period shall constitute notice of no reasonable objection. The Contractor shall not employ any Subcontractor or use any material to which the Architect, Construction Manager or Owner may object. Prior to the employment of any Subcontractor, the Contractor must obtain the Owner's approval of such Subcontractor for the designated portion of the Work.

**§ 5.2.2** The Contractor shall not contract with a proposed person or entity to whom the Owner, Construction Manager or Architect has made reasonable and timely objection. The Contractor shall not be required to contract with anyone to whom the Contractor has made reasonable objection.

**§ 5.2.3** If the Owner, Construction Manager or Architect has reasonable objection to a person or entity proposed by the Contractor, the Contractor shall propose another to whom the Owner, Construction Manager or Architect has no reasonable objection. The Contract Sum shall be increased or decreased by the difference in cost occasioned by such change, and an appropriate Change Order shall be issued. However, no increase in the Contract Sum or Contract Time shall be allowed for such change unless the Contractor has acted promptly and responsively in submitting names as required. Notwithstanding the foregoing, the Contractor shall have a continuing duty to the Owner, Construction Manager and Architect to find and propose such persons or entities as shall not result in material increase in the Contract Sum, or a material decrease in the quality of Work contemplated under the Contract Documents.

**§ 5.2.4** The Contractor shall not substitute a Subcontractor, person, or entity for one previously selected if the Owner, Construction Manager or Architect makes reasonable objection to such substitution. Any proposed substitution of a Subcontractor, person, or entity for one previously selected shall be made in a separate writing to the Owner, Construction Manager and Architect. No substitution shall be deemed approved/accepted without written

confirmation from the Owner, Construction Manager and Architect. Neither acceptance of, nor objection to a Subcontractor or Sub-subcontractor, material supplier, or other person or organization by the Owner, Construction Manager and Architect shall limit the responsibility of the Contractor to furnish materials, products, equipment, and services in conformance with the requirements of the Contract Documents.

**§ 5.3 Subcontractual Relations**

**§ 5.3.1** By appropriate written agreement, the Contractor shall require each Subcontractor, to the extent of the Work to be performed by the Subcontractor, to be bound to the Contractor by terms of the Contract Documents, and to assume toward the Contractor all the obligations and responsibilities, including the responsibility for safety of the Subcontractor's Work, that the Contractor, by these Contract Documents, assumes toward the Owner, Construction Manager and Architect. Each subcontract agreement shall preserve and protect the rights of the Owner, Construction Manager and Architect under the Contract Documents with respect to the Work to be performed by the Subcontractor so that subcontracting thereof will not prejudice such rights, and shall allow to the Subcontractor, unless specifically provided otherwise in the subcontract agreement, the benefit of all rights, remedies, and redress against the Contractor that the Contractor, by the Contract Documents, has against the Owner. Where appropriate, the Contractor shall require each Subcontractor to enter into similar agreements with Sub-subcontractors. The Contractor shall make available to each proposed Subcontractor, prior to the execution of the subcontract agreement, copies of the Contract Documents to which the Subcontractor will be bound, and, upon written request of the Subcontractor, identify to the Subcontractor terms and conditions of the proposed subcontract agreement that may be at variance with the Contract Documents. Subcontractors shall similarly make copies of applicable portions of such documents available to their respective proposed Sub-subcontractors.

**§ 5.3.2** The Contractor is responsible for the performance of, the actions of, the timeliness of, or interference caused by, Subcontractors, Sub-subcontractors (of any tier), and others directly or indirectly under contract to the Contractor.

**§ 5.4 Contingent Assignment of Subcontracts**

**§ 5.4.1** Each subcontract agreement for a portion of the Work is assigned by the Contractor to the Owner, provided that

.1 assignment is effective only after termination of the Contract by the Owner for cause pursuant to Section 14.2 and only for those subcontract agreements that the Owner accepts by notifying the Subcontractor and Contractor; and

.2 assignment is subject to the prior rights of the surety, if any, obligated under bond relating to the Contract.

When the Owner accepts the assignment of a subcontract agreement, the Owner assumes the Contractor's rights and obligations under the subcontract.

**§ 5.4.2** Upon such assignment, if the Work has been suspended for more than 30 days, the Subcontractor's compensation shall be equitably adjusted for increases in cost resulting from the suspension.

**§ 5.4.3** Upon assignment to the Owner under this Section 5.4, the Owner may further assign the subcontract to a successor Contractor or other entity. If the Owner assigns the subcontract to a successor Contractor or other entity, the Owner shall nevertheless remain legally responsible for all of the successor Contractor's obligations under the subcontract.

**§ 6.1.2** When the Owner performs construction or operations with the Owner's own forces or Separate Contractors, the Owner shall provide for coordination of such forces and Separate Contractors with the Work of the Contractor, who shall cooperate with them.

**§ 6.1.3** Unless otherwise provided in the Contract Documents, when the Owner performs construction or operations related to the Project with the Owner's own forces or with Separate Contractors, the Owner or its Separate Contractors

**§ 6.2.2** If part of the Contractor's Work depends for proper execution or results upon construction or operations by the Owner's own forces, Separate Contractors or other Contractors, the Contractor shall, prior to proceeding with that portion of the Work, promptly notify the Construction Manager and Architect of apparent discrepancies or defects in the construction or operations by the Owner or Separate Contractor or other Contractors that would render it unsuitable for proper execution and results of the Contractor's Work. Failure of the Contractor to notify the Construction Manager and the Architect of apparent discrepancies or defects prior to proceeding with the Work shall constitute an acknowledgment that the Owner's or Separate Contractor's or other Contractors' completed or partially completed construction is fit and proper to receive the Contractor's Work. The Contractor shall not be responsible for discrepancies or defects in the construction or operations by the Owner or Separate Contractors or other Contractors that are not reasonably discoverable.

In no case will a change involving over $500 be approved without such itemization.

### § 7.2 Change Orders and Change Proposals

**§ 7.2.1** A Change Order is a written instrument prepared by the Construction Manager and signed by the Owner, Construction Manager, Architect, and Contractor, stating their agreement upon all of the following:

.1 The change in the Work;

.2 The amount of the adjustment, if any, in the Contract Sum; and

.3 The extent of the adjustment, if any, in the Contract Time.

**§ 7.2.2** Change Order shall be prepared on AIA Document G731.

**§ 7.2.3** The Contractor must submit Change Proposals covering a contemplated Change Order within ten (10) days after request of the Owner, or the Architect or within ten (10) days of the event, or Contractor's discovery of a condition, whichever is earlier, giving rise to the Contractor's claim for a change in the Contract Sum or Contract Time. No increase in the Contract Sum or extension of the Contract Time will be allowed the Contractor for the cost or time involved in making Change Proposals. Change Proposals will define or confirm in detail the Work which is proposed to be added, deleted, or changed and must include any adjustment which the Contractor believes to be necessary in (i) the Contract Sum, or (ii) the Contract Time. Any proposed adjustment must include detailed documentation including, but not limited to: cost, properly itemized and supported by sufficient substantiating data to permit evaluation including cost of labor, materials, supplies and equipment, rental cost of machinery and equipment, additional bond cost, plus a fixed fee for profit and overhead (which includes office overhead and Site-specific overhead and general conditions) of ten percent (10%) if the Work is performed by the Contractor, or five percent (5%) if the Work is performed by a Subcontractor or Sub-subcontractor. The Subcontractor's or Sub-subcontractor's overhead and profit in turn must not exceed a total aggregate of ten percent (10%). Change Proposals will be binding upon the Contractor and may be accepted or rejected by the Owner in its discretion. The Owner may, at its option, instruct the Contractor through a Construction Change Directive to proceed with the Work involved in the Change Proposal in accordance with Section 7.3 without accepting the Change Proposal in its entirety.

**§ 7.2.4** If the Owner determines that a Change Proposal is appropriate, the Architect will prepare and submit a request for a Change Order or Contract Amendment providing for an appropriate adjustment in the Contract Sum or Contract Time, or both, for further action by the Owner. No such change is effective until the Owner and Architect sign the Change Order.

### § 7.3 Construction Change Directives

**§ 7.3.1** A Construction Change Directive is a written order prepared by the Construction Manager and signed by the Owner, Construction Manager and Architect, directing a change in the Work prior to agreement on adjustment, if any, in the Contract Sum or Contract Time, or both. The Owner may by Construction Change Directive, without

invalidating the Contract, order changes in the Work within the general scope of the Contract consisting of additions, deletions, or other revisions, the Contract Sum and Contract Time being adjusted accordingly.

**§ 7.3.2** A Construction Change Directive shall be used in the absence of total agreement on the terms of a Change Order.

**§ 7.3.3** If the Construction Change Directive provides for an adjustment to the Contract Sum, the adjustment shall be based on one of the following methods:

.1 Mutual acceptance of a lump sum properly itemized and supported by sufficient substantiating data to permit evaluation;

.2 Unit prices stated in the Contract Documents or subsequently agreed upon;

.3 Cost to be determined in a manner agreed upon by the parties and a mutually acceptable fixed or percentage fee; or

.4 As provided in Section 7.3.4.

**§ 7.3.4** If the Contractor does not respond promptly or disagrees with the method for adjustment in the Contract Sum, the Owner and the Construction Manager shall determine the adjustment on the basis of reasonable expenditures and savings of those performing the Work attributable to the change, including, in case of an increase in the Contract Sum, an amount for overhead and profit as set forth in the Agreement, or if no such amount is set forth in the Agreement, a reasonable amount. In such case, and also under Section 7.3.3.3, the Contractor shall keep and present, in such form as the Construction Manager may prescribe, an itemized accounting together with appropriate supporting data. Unless otherwise provided in the Contract Documents, costs for the purposes of this Section 7.3.4 shall be limited to the following:

.1 Costs of labor, including applicable payroll taxes, fringe benefits required by agreement or custom, workers' compensation insurance, and other employee costs approved by the Construction Manager and Architect;

.2 Costs of materials, supplies, and equipment, including cost of transportation, whether incorporated or consumed;

.3 Rental costs of machinery and equipment, exclusive of hand tools, whether rented from the Contractor or others (at rates approved by the Owner);

.4 Costs of premiums for all bonds and insurance, permit fees, and sales, use, or similar taxes, directly related to the change; and

.5 Costs of supervision and field office personnel directly attributable to the change.

**§ 7.3.5** If the Contractor disagrees with the adjustment in the Contract Time, the Contractor may make a Claim in accordance with applicable provisions of Article 15.

**§ 7.3.6** Upon receipt of a Construction Change Directive, the Contractor shall promptly proceed with the change in the Work involved and advise the Construction Manager of the Contractor's agreement or disagreement with the method, if any, provided in the Construction Change Directive for determining the proposed adjustment in the Contract Sum or Contract Time.

**§ 7.3.7** A Construction Change Directive signed by the Contractor indicates the Contractor's agreement therewith, including adjustment in Contract Sum and Contract Time or the method for determining them. Such agreement shall be effective immediately.

**§ 7.3.8** The amount of credit to be allowed by the Contractor to the Owner for a deletion or change that results in a net decrease in the Contract Sum shall be actual net cost as confirmed by the Construction Manager and Architect. When both additions and credits covering related Work or substitutions are involved in a change, the allowance for overhead and profit shall be figured on the basis of net increase, if any, with respect to that change.

**§ 7.3.9** Pending final determination of the total cost of a Construction Change Directive to the Owner, the Contractor may request payment for Work completed under the Construction Change Directive in Applications for Payment up to and not exceeding $25,000. The Construction Manager and Architect will make an interim determination for purposes of monthly certification for payment for those costs and certify for payment the amount that the Construction Manager and Architect determine to be reasonably justified. The interim determination of cost shall adjust the Contract Sum on

the same basis as a Change Order, subject to the right of either party to disagree and assert a Claim in accordance with Article 15.

**§ 7.3.10** When the Owner and Contractor agree with a determination made by the Construction Manager and Architect concerning the adjustments in the Contract Sum and Contract Time, or otherwise reach agreement upon the adjustments, such agreement shall be effective immediately and the Construction Manager shall prepare a Change Order. Change Orders may be issued for all or any part of a Construction Change Directive.

### § 7.4 Minor Changes in the Work

The Architect may order minor changes in the Work that are consistent with the intent of the Contract Documents and do not involve an adjustment in the Contract Sum or an extension of the Contract Time. The Architect's order for minor changes shall be in writing and approved by the Owner. If the Contractor believes that the proposed minor change in the Work will affect the Contract Sum or Contract Time, the Contractor shall notify the Construction Manager and shall not proceed to implement the change in the Work. If the Contractor performs the Work set forth in the Architect's order for a minor change without prior notice to the Construction Manager that such change will affect the Contract Sum or Contract Time, the Contractor waives any adjustment to the Contract Sum or extension of the Contract Time.

## ARTICLE 8 TIME

### § 8.1 Definitions

**§ 8.1.1** Unless otherwise provided, Contract Time is the period of time, including authorized adjustments, allotted in the Contract Documents for Substantial Completion of the Work.

**§ 8.1.2** The date of commencement of the Work is the date established in the Agreement. The date shall not be postponed by the failure to act of the Contractor or of persons or entities for whom the Contractor is responsible.

**§ 8.1.3** The date of Substantial Completion is the date certified by the Architect in accordance with Section 9.8.

**§ 8.1.4** The term "day" shall mean calendar day of 24 hours beginning at 12:00 midnight. Calendar days as stated in the Contract Documents, shall include all days of a seven (7) day week including Saturdays, Sundays, and holidays. The term "Milestone Date" is, in each instance, the date established in the Contract Documents for the Substantial completion of all or a designated portion of the Work.

### § 8.2 Progress and Completion

**§ 8.2.1** Time limits stated in the Contract Documents are of the essence of the Contract. By executing the Agreement, the Contractor confirms that the Contract Time is a reasonable period for performing the Work.

**§ 8.2.2** The Contractor shall not knowingly, except by agreement or instruction of the Owner in writing, commence the Work prior to the effective date of insurance required to be furnished by the Contractor and Owner.

**§ 8.2.3** The Contractor shall proceed expeditiously with adequate forces and shall achieve Substantial Completion within the Contract Time and shall achieve specific contractual Milestone Dates (if any), Substantial Completion and final Completion within the time stated in the Contract Documents.

**§ 8.2.4** Contractor understands and agrees that all Work must be performed in an orderly and closely coordinated sequence so that the dates for Substantial Completion, Final Completion, and Milestone Dates (if any) may be met by the Contractor.

**§ 8.2.5** Timely final completion of the Project is of critical importance to the Owner. The Contractor agrees that it shall substantially complete all Work under the Contract documents within the time established herein and that it shall finally complete the Work in the detail required and in the time required by the Contract Documents.

**§ 8.2.6** To the extent that the Contract Documents contain or provide for specific contractual Milestone Dates in addition to Final and Substantial Completion dates, such dates shall be adhered to and shall be the last acceptable dates for those milestones and completions, unless modified by the Owner.

§ 8.2.7 Notwithstanding anything to the contrary contained in the Contract Documents, in the event that any Contractor fails, or appears likely, in the reasonable opinion of the Owner and Construction Manager, to fail to complete a critical portion of their Work on time or to complete any dates for Substantial Completion, Final Completion, or Milestone Dates as evidenced by the latest update of the CPM Schedule Report, the Owner shall have the right to select and require Contractor's performance under any or all of the following operations:

.1 Require the Contractor to substantiate their capability to get back on schedule within two (2) days;

.2 Require the Contractor, at no additional cost to the Owner, to increase their work force, work overtime and/or extra shifts and do whatever else is required by the Owner until the Contractor gets back on schedule as established by the CPM Schedule Report (including any updates thereto);

.3 Withhold progress payments or portions thereof until such time as the contractor returns to schedule, but only related to Substantial Completion or Final Completion;

.4 Contact or visit the factory, plant, or distribution center whose production or delivery schedule may be critical to the scheduled completion of a portion of the contract work and expedite such production delivery at Contractor's expense; or

.5 Require the Contractor to complete, in detail, and submit weekly a Short Interval Schedule (SIS) showing: (1) planning for the next two weeks; (2) work completed for the previous week; (3) sufficient detail to evaluate daily milestone (if any) and manpower/equipment loading, and shall identify/tie into the monthly updated CPM Schedule Report.

Any costs incurred by the Contractor in fulfilling the option(s) selected by the Owner shall be at the Contractor's expense.

**§ 8.3 Delays and Extensions of Time**

§ 8.3.1 If the Contractor is delayed at any time in the progress of the Work by (1) an act or neglect of the Owner, Architect, Construction Manager, or an employee of any of them, or of the Owner's own forces, Separate Contractors, or other Contractors; (2) by changes ordered in the Work; (3) by labor disputes, fire, unusual delay in deliveries, unavoidable casualties, adverse weather conditions documented in accordance with Section 15.1.6.2, or other causes beyond the Contractor's control; or (4) by other causes that the Contractor asserts and the Architect, based on the recommendation of the Construction Manager, determines justify delay, then subject to the conditions hereinafter set forth, the Contract Time shall be extended by Change Order for such reasonable time as the Architect may determine. Requests for extensions of time for causes enumerated above will be considered by the Architect subject to the following:

.1 Only those conditions enumerated above over which the Contractor has no control will be considered. The burden of proof to substantiate the claim for an extension shall rest with the Contractor, including evidence that the cause was beyond their control. It shall be deemed the Contractor has control over the supply of labor, materials, equipment, methods, techniques, and over their Subcontractors and suppliers;

.2 In the event of Changes in the Work, any consideration for a time extension will be made only at the time of authorizing the changes, and no later than when the Change Order is prepared, and only if the Change Order significantly affects the time and progress of the entire Work. For changes which do not affect the entire Work, time extension may be granted only for the area, phase, unit, or element affected by the change, if due to a valid reason for a time extension;

.3 Any unusual delay in deliveries will not be considered unless it is solely due to transportation issues wholly outside of Contractor's, Subcontractor's, Sub-subcontractor's or Supplier's control. An extension of time will not be granted for delays in deliveries where said delivery was not properly scheduled or when orders were not promptly and properly placed;

.4 With respect to a claim for an extension of time as a result of climatic conditions, the Contractor shall recognize the location of the site and the existence, as normal, or variations from "average" conditions. Foul weather in itself will not be a valid reason for a time extension. Requests for time extensions because of delay resulting from weather extremes will not be considered unless a substantial variation from usual weather conditions occurs for a significant period of time, during phases of the Work when operation necessarily were suspended to a significant degree when they would otherwise have been in progress. In considering the time extension, the weather conditions both before and after the period in which the delay is claimed will be evaluated with credit given to Owner for unseasonably favorable weather;

.5 Delays resulting from a labor dispute will not result in a time extension of a longer period than the dispute, plus a reasonable time for mobilization if justified and necessary as approved by the

Architect, and may be less depending on the impact of the dispute, including what operations were suspended or curtailed;

.6 No time extension will be granted as a result of improper scheduling or for failure to have shop drawings or samples submitted in ample time for review under a reasonable and agreed upon schedule; or

.7 Delays by Subcontractors or suppliers will not be considered justification for a time extension, except for the same valid reasons and conditions enumerated under Section 8.3.1.

**§ 8.3.2** Claims relating to time shall be made in accordance with applicable provisions of Article 15.

**§ 8.3.3** This Section 8.3 does not preclude recovery of damages for delay by either party under other provisions of the Contract Documents.

**§ 8.3.4** The Contractor shall be responsible for all Owner incurred costs associated with a Contractor related to delay in completion of the Project. These costs may include, but are not limited to, Owner staff overtime, Consultant additional fees, additional testing, and/or additional rental or storage costs. A Change Order or Construction Change Directive will be issued to cover these costs. If a Change Order is not agreed to by the Contractor, the Owner, after presenting documentation to the Contractor, may deduct these amounts without a Change Order from the Contract Sum.

## ARTICLE 9 PAYMENTS AND COMPLETION

### § 9.1 Contract Sum

**§ 9.1.1** The Contract Sum is stated in the Agreement and, including authorized adjustments, is the total amount payable by the Owner to the Contractor for performance of the Work under the Contract Documents.

**§ 9.1.2** If unit prices are stated in the Contract Documents or subsequently agreed upon, and if quantities originally contemplated are materially changed so that application of such unit prices to the actual quantities causes substantial inequity to the Owner or Contractor, the applicable unit prices shall be equitably adjusted.

### § 9.2 Schedule of Values

Before the first Application for Payment, the Contractor shall submit to the Architect and Construction Manager a schedule of values allocated to various portions of the Work, prepared in the form, and supported by the data to substantiate its accuracy, required by the Construction Manager and the Architect. The schedule, unless objected to by the Construction Manager or Architect, shall be used as a basis for reviewing the Contractor's Applications for Payment. The Construction Manager shall forward to the Architect the Contractor's schedule of values. Any changes to the schedule of values shall be submitted to the Construction Manager and supported by such data to substantiate its accuracy as the Construction Manager and the Architect may require, and unless objected to by the Construction Manager or the Architect, shall be used as a basis for reviewing the Contractor's subsequent Applications for Payment. The Contractor, after receipt of Notice to Proceed, shall meet with the Owner, Construction Manager and the Architect for the purpose of reviewing the Project CPM Schedule and the Contract Schedule of Values. The Contractor shall develop a CPM Schedule for completing their portion of the Work, in conjunction with all other Contractors or Bid Packages, at the Pre-Construction Meeting(s). The Schedule of Values is to be broken down into specification sections and by labor and materials.

### § 9.3 Applications for Payment

**§ 9.3.1** At least fifteen days before the date established for each progress payment, the Contractor shall submit to the Construction Manager an itemized Application for Payment for operations completed in accordance with the Schedule of Values. Such application shall be notarized and supported by all data substantiating the Contractor's right to payment that the Owner, Construction Manager or Architect require, such as copies of requisitions, and releases of waivers of lien from Subcontractors and material suppliers, and reflecting retainage if provided for elsewhere in the Contract Documents. The form of Application for Payment shall be a notarized AIA Document G732–2019, Application and Certificate for Payment, supported by AIA Document G703–1992, Continuation Sheet.

**§ 9.3.1.1** As provided in Section 7.3.9, such applications may include requests for payment on account of changes in the Work that have been properly authorized by Construction Change Directives, or by interim determinations of the Construction Manager and Architect, but not yet included in Change Orders.

**§ 9.3.1.2** Such applications shall not include requests for payment of amounts the Contractor does not intend to pay a Subcontractor or supplier because of a dispute or other reason, unless such Work has been performed by others whom the Contractor intends to pay.

**§ 9.3.1.3** Following certification of the Application for Payment by the Architect and Construction Manager, the Owner shall pay ninety-five percent (95%) of its value, retaining five percent (5%) until Final Completion.

**§ 9.3.1.4** Contractor shall provide lien waivers for itself for the current payment application and for Subcontractors, Sub-subcontractors, and suppliers for the previous payment application before the Contractor has earned or has the right to receive payment for the specific items of work or materials covered by the lien waivers. All lien waivers shall be provided in the form required by the Owner. This Section 9.3.1.4 shall not limit other obligations of the Contractor contained elsewhere to provide lien waivers.

**§ 9.3.2** Unless otherwise provided in the Contract Documents, payments shall be made on account of materials and equipment delivered and suitably stored at the site for subsequent incorporation in the Work. If approved in advance by the Owner, payment may similarly be made for materials and equipment suitably stored off the site at a location agreed upon in writing. Payment for materials and equipment stored on or off the site shall be conditioned upon compliance by the Contractor with procedures satisfactory to the Owner to establish the Owner's title to such materials and equipment or otherwise protect the Owner's interest, and shall include the costs of applicable insurance, storage, and transportation to the site, for such materials and equipment stored off the site.

**§ 9.3.3** The Contractor warrants that title to all Work covered by an Application for Payment will pass to the Owner no later than the time of payment. The Contractor further warrants that upon submittal of an Application for Payment all Work for which Certificates for Payment have been previously issued and payments received from the Owner shall, to the best of the Contractor's knowledge, information, and belief, be free and clear of liens, claims, security interests, or encumbrances, in favor of the Contractor, Subcontractors, suppliers, or other persons or entities that provided labor, materials and equipment relating to the Work.

**§ 9.3.4** In each Application for Payment, the Contractor shall certify as follows:

> "That there are no known mechanics' or materialmen's liens or stop notice claims outstanding by the application or any of its subcontractors of any tier, or any of the applicant's or subcontractor's material suppliers, or laborers at the date of this application, that all due and payable bills with respect to the Work have been paid or are included in the amount requested in current application, and that, except for such bills, not paid by Owner, but so included, there is no known basis for the filing of any mechanics' or materialmen's liens or stop notice claims on the Work, and that waivers from Contractor, its subcontractors of any tier, or any of the applicant's or subcontractor's material suppliers and laborers have been obtained in such form as to constitute an effective waiver of liens or stop notice claims, under the laws of the State of Minnesota to the extent of payments made by Owner to Contractor."

Notwithstanding the foregoing Section 9.3.4, Contractor acknowledges its obligation to provide a Payment Bond in accordance with the Contract Documents, and that Contractor's failure to pay any of its Subcontractors, Sub-subcontractors, suppliers, or laborers will be resolved through a claim under the Payment Bond.

**§ 9.4 Certificates for Payment**

**§ 9.4.1** Where there is only one Contractor, the Construction Manager will, within seven days after the Construction Manager's receipt of the Contractor's Application for Payment, review the Application, certify the amount the Construction Manager determines is due the Contractor, and forward the Contractor's Application and Certificate for Payment to the Architect. Within seven days after the Architect receives the Contractor's Application for Payment from the Construction Manager, the Architect will either (1) issue to the Owner a Certificate for Payment, in the full amount of the Application for Payment, with a copy to the Construction Manager; or (2) issue to the Owner a Certificate for Payment for such amount as the Architect determines is properly due, and notify the Construction Manager and Owner of the Architect's reasons for withholding certification in part as provided in Section 9.5.1; or (3) withhold certification of the entire Application for Payment, and notify the Construction Manager and Owner of the Architect's reason for withholding certification in whole as provided in Section 9.5.1. The Construction Manager will promptly forward to the Contractor the Architect's notice of withholding certification.

**§ 9.4.2** Where there is more than one Contractor performing portions of the Project, the Construction Manager will, within seven days after the Construction Manager receives all of the Contractors' Applications for Payment: (1) review the Applications and certify the amount the Construction Manager determines is due each of the Contractors; (2) prepare a Summary of Contractors' Applications for Payment by combining information from each Contractor's application with information from similar applications for progress payments from the other Contractors; (3) prepare a Project Application and Certificate for Payment; (4) certify the amount the Construction Manager determines is due all Contractors; and (5) forward the Summary of Contractors' Applications for Payment and Project Application and Certificate for Payment to the Architect.

**§ 9.4.2.1** Within seven days after the Architect receives the Project Application and Project Certificate for Payment and the Summary of Contractors' Applications for Payment from the Construction Manager, the Architect will either (1) issue to the Owner a Project Certificate for Payment, with a copy to the Construction Manager; or (2) issue to the Owner a Project Certificate for Payment for such amount as the Architect determines is properly due, and notify the Construction Manager and Owner of the Architect's reasons for withholding certification in part as provided in Section 9.5.1; or (3) withhold certification of the entire Project Application for Payment, and notify the Construction Manager and Owner of the Architect's reason for withholding certification in whole as provided in Section 9.5.1. The Construction Manager will promptly forward the Architect's notice of withholding certification to the Contractors.

**§ 9.4.3** The Construction Manager's certification of an Application for Payment or, in the case of more than one Contractor, a Project Application and Certificate for Payment, shall be based upon the Construction Manager's evaluation of the Work and the data in the Application or Applications for Payment. The Construction Manager's certification will constitute a representation that, to the best of the Construction Manager's knowledge, information, and belief, the Work has progressed to the point indicated, the quality of the Work is in accordance with the Contract Documents, and that the Contractor is, or Contractors are, entitled to payment in the amount certified.

**§ 9.4.4** The Architect's issuance of a Certificate for Payment or, in the case of more than one Contractor, Project Application and Certificate for Payment, shall be based upon the Architect's evaluation of the Work, the recommendation of the Construction Manager, and data in the Application for Payment or Project Application for Payment. The Architect's certification will constitute a representation that, to the best of the Architect's knowledge, information, and belief, the Work has progressed to the point indicated, the quality of the Work is in accordance with the Contract Documents, and that the Contractor is, or Contractors are, entitled to payment in the amount certified.

**§ 9.4.5** The representations made pursuant to Sections 9.4.3 and 9.4.4 are subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to results of subsequent tests and inspections, to correction of minor deviations from the Contract Documents prior to completion, and to specific qualifications expressed by the Construction Manager or Architect.

**§ 9.4.6** The issuance of a Certificate for Payment or a Project Certificate for Payment will not be a representation that the Construction Manager or Architect has (1) made exhaustive or continuous on-site inspections to check the quality or quantity of the Work; (2) reviewed construction means, methods, techniques, sequences, or procedures; (3) reviewed copies of requisitions received from Subcontractors and suppliers and other data requested by the Owner to substantiate the Contractor's right to payment; or (4) made examination to ascertain how or for what purpose the Contractor has used money previously paid on account of the Contract Sum.

**§ 9.5 Decisions to Withhold Certification**

**§ 9.5.1** The Construction Manager or Architect may withhold a Certificate for Payment or Project Certificate for Payment in whole or in part, to the extent reasonably necessary to protect the Owner, if in the Construction Manager's or Architect's opinion the representations to the Owner required by Section 9.4.3 and 9.4.4 cannot be made. If the Construction Manager or Architect is unable to certify payment in the amount of the Application, the Construction Manager will notify the Contractor and Owner as provided in Section 9.4.1 and 9.4.2. If the Contractor, Construction Manager and Architect cannot agree on a revised amount, the Architect will promptly issue a Certificate for Payment or a Project Certificate for Payment for the amount for which the Architect is able to make such representations to the Owner. The Construction Manager or Architect may also withhold a Certificate for Payment or, because of subsequently discovered evidence, may nullify the whole or a part of a Certificate for Payment or Project Certificate for Payment previously issued, to such extent as may be necessary in the Construction Manager's or Architect's opinion to protect the Owner from loss for which the Contractor is responsible, including loss resulting from the acts and omissions described in Section 3.3.2 because of

.6 reasonable evidence that the Work will not be completed within the Contract Time, and that the unpaid balance would not be adequate to cover actual or liquidated damages for the anticipated delay; or
.7 repeated failure to carry out the Work in accordance with the Contract Documents.

**§ 9.5.2** When either party disputes the Architect's decision regarding a Certificate for Payment under Section 9.5.1, in whole or in part, that party may submit a Claim in accordance with Article 15.

**§ 9.5.3** When the reasons for withholding certification are removed, certification will be made for amounts previously withheld.

**§ 9.5.4** If the Architect or Construction Manager withholds certification for payment under Section 9.5.1, the Owner may, at its sole option, issue joint checks to the Contractor and to any Subcontractor or supplier to whom the Contractor failed to make payment for Work properly performed or material or equipment suitably delivered. If the Owner makes payments by joint check, the Owner shall notify the Architect and the Construction Manager, and both will reflect such payment on the next Certificate for Payment.

**§ 9.6 Progress Payments**

**§ 9.6.1** After the Architect has issued a Certificate for Payment or Project Certificate for Payment, the Owner shall make payment within thirty (30) days of receipt by Owner of Certificate of Payment in the manner and within the time provided in the Contract Documents, and shall so notify the Construction Manager and Architect.

**§ 9.6.2** The Contractor shall pay each Subcontractor, no later than seven days after receipt of payment from the Owner, the amount to which the Subcontractor is entitled, reflecting percentages actually retained from payments to the Contractor on account of the Subcontractor's portion of the Work. The Contractor shall, by appropriate agreement with each Subcontractor, require each Subcontractor to make payments to Sub-subcontractors in a similar manner. Per Minnesota Statutes, Section 471.425, within ten (10) days of Contractor's receipt of payment from Owner, the Contractor must pay any Subcontractor for any undisputed services provided by the Subcontractor. The Contractor shall pay interest of one and one-half percent (1-1/2%) per month, or any part of a month, to the Subcontractor on any undisputed amount not paid on time to the subcontractor. The minimum monthly interest penalty payment for an unpaid balance of $100 or more is $10.00. For an unpaid balance of less than $100, the Contractor shall pay the actual interest penalty due to the Subcontractor. Contractor is advised that by reason of Minnesota Statutes, Section 471.425, subd. 4a, if a Subcontractor prevails in a civil action to collect interest penalties from a prime contractor, the Subcontractor must be awarded its costs and disbursements, including attorneys' fees incurred in bringing the action.

**§ 9.6.3** The Construction Manager will, on request, furnish to a Subcontractor, if practicable, information regarding percentages of completion or amounts applied for by the Contractor and action taken thereon by the Owner, Construction Manager and Architect on account of portions of the Work done by such Subcontractor.

**§ 9.6.4** The Owner has the right to request written evidence from the Contractor that the Contractor has properly paid Subcontractors and suppliers amounts paid by the Owner to the Contractor for subcontracted Work. If the Contractor fails to furnish such evidence within seven days, the Owner shall have the right to contact Subcontractors and suppliers to ascertain whether they have been properly paid. Neither the Owner, Construction Manager nor Architect shall have an obligation to pay, or to see to the payment of money to, a Subcontractor or supplier, except as may otherwise be required by law.

**§ 9.6.5** The Contractor's payments to material and equipment suppliers shall be treated in a manner similar to that provided in Sections 9.6.2, 9.6.3 and 9.6.4.

**§ 9.6.6** A Certificate for Payment, a progress payment, or partial or entire use or occupancy of the Project by the Owner shall not constitute acceptance of Work not in accordance with the Contract Documents.

**§ 9.6.7** Unless the Contractor provides the Owner with a payment bond in the full penal sum of the Contract Sum, payments received by the Contractor for Work properly performed by Subcontractors or provided by suppliers shall be held by the Contractor for those Subcontractors or suppliers who performed Work or furnished materials, or both, under contract with the Contractor for which payment was made by the Owner. Nothing contained herein shall require money to be placed in a separate account and not commingled with money of the Contractor, create any fiduciary liability or tort liability on the part of the Contractor for breach of trust, or entitle any person or entity to an award of punitive damages against the Contractor for breach of the requirements of this provision.

**§ 9.6.8** Provided the Owner has fulfilled its payment obligations under the Contract Documents, the Contractor shall defend and indemnify the Owner from all loss, liability, damage or expense, including reasonable attorney's fees and litigation expenses, arising out of any lien claim or other claim for payment by any Subcontractor or supplier of any tier. Upon receipt of notice of a lien claim or other claim for payment, the Owner shall notify the Contractor. If approved by the applicable court, when required, the Contractor may substitute a surety bond for the property against which the lien or other claim for payment has been asserted.

**§ 9.7 Failure of Payment**

If the Construction Manager and Architect do not issue a Certificate for Payment or a Project Certificate for Payment, through no fault of the Contractor, within fourteen days after the Construction Manager's receipt of the Contractor's Application for Payment, or if the Owner does not pay the Contractor within thirty (30) days after the date established in the Contract Documents, the amount certified by the Construction Manager and Architect then the Contractor may, upon ten (10) additional days' notice to the Owner, Construction Manager and Architect, stop the Work until payment of the amount owing has been received. The Contract Time shall be extended appropriately and the Contract Sum shall be increased by the amount of the Contractor's reasonable costs of shutdown, delay and start-up which shall be accomplished as provided in Article 7.

**§ 9.8 Substantial Completion**

**§ 9.8.1** Substantial Completion is the stage in the progress of the Work when the Work or designated portion thereof is sufficiently complete in accordance with the Contract Documents so the Owner can occupy or utilize the Work for its intended use and when the Architect issues a Certificate of Substantial Completion.

**§ 9.8.2** When the Contractor considers that the Work, or a portion thereof which the Owner agrees to accept separately, is substantially complete, the Contractor shall notify the Construction Manager, and the Contractor and Construction Manager shall jointly prepare and submit to the Architect a comprehensive list of items to be completed or corrected. The Contractor shall proceed promptly to complete and correct items on the list. Failure to include an item on such list does not alter the responsibility of the Contractor to complete all Work in accordance with the Contract Documents. Upon receipt of the Contractor's list, the Architect, assisted by the Construction Manager, will make an inspection to determine whether the Work or designated portion thereof is substantially complete. If the Architect's inspection discloses any item, whether or not included on the Contractor's list, which is not in accordance with the requirements of the Contract documents, the Contractor shall, before issuance of the Certificate of Substantial Completion, complete or correct such item, upon notification by the Architect. The Contractor shall then submit a request for another inspection by the Architect, assisted by the Construction Manager, to determine Substantial Completion. When the Work or designated portion thereof is substantially complete, the Architect will prepare a Certificate of Substantial Completion which shall establish the date of Substantial Completion, shall establish responsibilities of the Owner and Contractor for security, maintenance, heat, utilities, damage to the Work and insurance, and shall fix the time within which the Contractor shall finish all items on the list accompanying the Certificate. Warranties required by the Contract Document shall commence on the date of Substantial Completion of the Work or designated portion thereof unless otherwise provided in the Certificate of Substantial Completion.

**§ 9.8.3** Upon receipt of the list, the Architect, assisted by the Construction Manager, will make an inspection to determine whether the Work or designated portion thereof is substantially complete. If the Architect's inspection discloses any item, whether or not included on the list, which is not sufficiently complete in accordance with the Contract Documents so that the Owner can occupy or utilize the Work or designated portion thereof for its intended use, the Contractor shall, before issuance of the Certificate of Substantial Completion, complete or correct such item upon notification by the Architect. In such case, the Contractor shall then submit a request for another inspection by the Architect, assisted by the Construction Manager, to determine Substantial Completion.

**§ 9.8.4** When the Architect, assisted by the Construction Manager, determines that the Work of all of the Contractors, or designated portion thereof, is substantially complete, the Construction Manager will prepare, and the Construction Manager and Architect shall execute, a Certificate of Substantial Completion that shall establish the date of Substantial Completion; establish responsibilities of the Owner and Contractor for security, maintenance, heat, utilities, damage to the Work and insurance; and fix the time within which the Contractor shall finish all items on the list accompanying the Certificate. Warranties required by the Contract Documents shall commence on the date of Substantial Completion of the Work or designated portion thereof unless otherwise provided in the Certificate of Substantial Completion.

**§ 9.8.5** The Certificate of Substantial Completion shall be submitted to the Owner and Contractor for their written acceptance of responsibilities assigned to them in the Certificate. Upon such acceptance, and consent of surety if any, the Owner shall make payment of retainage applying to the Work or designated portion thereof. Such payment shall be adjusted for Work that is incomplete or not in accordance with the requirements of the Contract Documents.

**§ 9.8.6** Upon Substantial completion of the Work or designated portion thereof and upon application by the Contractor and certification by the Architect, the Owner shall make payment, reflecting adjustment in retainage, pursuant to Minnesota Statutes, Section 15.72, for such Work or portion thereof as provided in the Contract Documents.

**§ 9.8.7** The Architect, assisted by the Construction Manager, shall make one (1) inspection for Substantial Completion and Final Completion in accordance with the AIA Document B101–2017 Owner-Architect Agreement. If additional inspections are required due to the Contractor's failure to complete previously listed corrective or uncompleted work, the Architect's expense for conducting such re-inspections and related time in processing, reviewing, and revision of requirements shall be charged to the Contractor and such payment shall be accomplished by a deductive Change Order to the Contractor.

### § 9.9 Partial Occupancy or Use

**§ 9.9.1** The Owner may occupy or use any completed or partially completed portion of the Work at any stage when such portion is designated by separate agreement with the Contractor, provided such occupancy or use is consented to by the insurer and authorized by public authorities having jurisdiction over the Project. Such partial occupancy or use may commence whether or not the portion is substantially complete, provided the Owner and Contractor have accepted in writing the responsibilities assigned to each of them for payments, retainage if any, security, maintenance, heat, utilities, damage to the Work and insurance, and have agreed in writing concerning the period for correction of the Work and commencement of warranties required by the Contract Documents. When the Contractor considers a portion substantially complete, the Contractor and Construction Manager shall jointly prepare and submit a list to the Architect as provided under Section 9.8.2. Consent of the Contractor to partial occupancy or use shall not be unreasonably withheld. The stage of the progress of the Work shall be determined by written agreement between the Owner and Contractor or, if no agreement is reached, by decision of the Architect after consultation with the Construction Manager.

**§ 9.9.2** Immediately prior to such partial occupancy or use, the Owner, Construction Manager, Contractor, and Architect shall jointly inspect the area to be occupied or portion of the Work to be used in order to determine and record the condition of the Work.

**§ 9.9.3** Unless otherwise agreed upon, partial occupancy or use of a portion or portions of the Work shall not constitute acceptance of Work not complying with the requirements of the Contract Documents.

### § 9.10 Final Completion and Final Payment

**§ 9.10.1** Upon completion of the Work, the Contractor shall forward to the Construction Manager a notice that the Work is ready for final inspection and acceptance, and shall also forward to the Construction Manager a final Contractor's Application for Payment. Upon receipt, the Construction Manager shall perform an inspection to confirm the completion of Work of the Contractor. The Construction Manager shall make recommendations to the Architect when the Work of all of the Contractors is ready for final inspection, and shall then forward the Contractors' notices and Application for Payment or Project Application for Payment, to the Architect, who will promptly make such inspection. When the Architect finds the Work acceptable under the Contract Documents and the Contract fully performed, the Construction Manager and Architect will promptly issue a final Certificate for Payment or Project Certificate for Payment stating that to the best of their knowledge, information and belief, and on the basis of their observations, on-site visits and inspections, the Work has been completed in accordance with the Contract Documents

and that the entire balance found to be due the Contractor and noted in the final Certificate is due and payable. The Construction Manager's and Architect's final Certificate for Payment or Project Certificate for Payment will constitute a further representation that conditions listed in Section 9.10.2 as precedent to the Contractor's being entitled to final payment have been fulfilled.

**§ 9.10.2** Neither final payment nor any remaining retained percentage shall become due until the Contractor submits to the Architect through the Construction Manager (1) an affidavit that payrolls, bills for materials and equipment, and other indebtedness connected with the Work for which the Owner or the Owner's property might be responsible or encumbered (less amounts withheld by Owner) have been paid or otherwise satisfied, (2) a certificate evidencing that insurance required by the Contract Documents to remain in force after final payment is currently in effect and will not be cancelled or allowed to expire until at least (60) days' prior written notice has been given to the Owner, (3) a written statement that the Contractor knows of no reason that the insurance will not be renewable to cover the period required by the Contract Documents, (4) consent of surety, if any, to final payment (5) documentation of any special warranties, such as manufacturers' warranties or specific Subcontractor warranties, including a summary listing all applicable warranties both standard and extended, itemized by specification section and included at the front of the Operation and Maintenance manuals, and (6) other data establishing payment or satisfaction of obligations, such as receipts and releases and waivers of liens, claims, security interests, or encumbrances arising out of the Contract, to the extent and in such form as may be designated by the Owner. If a Subcontractor refuses to furnish a release or waiver required by the Owner, the Contractor may furnish a bond satisfactory to the Owner to indemnify the Owner against such lien, claim, security interest, or encumbrance. If a lien, claim, security interest, or encumbrance remains unsatisfied after payments are made, the Contractor shall refund to the Owner all money that the Owner may be compelled to pay in discharging the lien, claim, security interest, or encumbrance, including all costs and reasonable attorneys' fees.

**§ 9.10.3** If, after Substantial Completion of the Work, final completion thereof is materially delayed through no fault of the Contractor or by issuance of Change Orders affecting final completion, and the Construction Manager and Architect so confirm, the Owner shall, upon application by the Contractor and certification by the Construction Manager and Architect, and without terminating the Contract, make payment of the balance due for that portion of the Work fully completed, corrected, and accepted. If the remaining balance for Work not fully completed or corrected is less than retainage stipulated in the Contract Documents, and if bonds have been furnished, the written consent of the surety to payment of the balance due for that portion of the Work fully completed and accepted shall be submitted by the Contractor to the Architect through the Construction Manager prior to certification of such payment. Such payment shall be made under terms and conditions governing final payment, except that it shall not constitute a waiver of Claims.

**§ 9.10.4** The making of final payment shall constitute a waiver of Claims by the Owner except those arising from

- **.1** liens, Claims, security interests, or encumbrances arising out of the Contract and unsettled;
- **.2** failure of the Work to comply with the requirements of the Contract Documents;
- **.3** terms of special warranties required by the Contract Documents; or
- **.4** audits performed by the Owner, if permitted by the Contract Documents, after final payment.

**§ 9.10.5** Acceptance of final payment by the Contractor, a Subcontractor, or a supplier, shall constitute a waiver of claims by that payee except those previously made in writing and identified by that payee as unsettled at the time of final Application for Payment.

### § 9.11 Damages for Delay

**§ 9.11.1** The Contractor shall be responsible for damages incurred by the Owner and any other separate contractors for delay resulting from the Contractor's failure to complete the Work within the contract Time or resulting from the progress of the Work failing to substantially conform to the Project Construction Schedule. These damages are not included in liquidated damages and represent additional direct costs incurred by the Owner for the delay. These damages may include Owner incurred costs for temporary classrooms, temporary facilities, moving of programs, etc.

## ARTICLE 10 PROTECTION OF PERSONS AND PROPERTY

### § 10.1 Safety Precautions and Programs

**§ 10.1.1** The Contractor shall be responsible for initiating, maintaining, and supervising all safety precautions and programs in connection with the performance of the Contract. The Contractor shall submit the Contractor's safety program to the Construction Manager for review and coordination with the safety programs of other Contractors. The Construction Manager's responsibilities for review and coordination of safety programs shall not extend to direct control over or charge of the acts or omissions of the Contractors, Subcontractors, agents or employees of the

Contractors or Subcontractors, or any other persons performing portions of the Work and not directly employed by the Construction Manager.

**§ 10.1.2** The Contractor shall comply with all applicable laws and regulations. Notwithstanding any language to the contrary, the Owner shall not have any responsibility for job site inspections or safety recommendations. Any inspections or observations by the Owner, Construction Manager or the Architect are solely for the benefit of the Owner and shall not create any duties or obligations to anyone else.

**§ 10.2 Safety of Persons and Property**

**§ 10.2.1** The Contractor shall take reasonable precautions for safety of, and shall provide reasonable protection to prevent damage, injury, or loss to

.1 employees on the Work and other persons who may be affected thereby;

.2 the Work and materials and equipment to be incorporated therein, whether in storage on or off the site, under care, custody, or control of the Contractor, a Subcontractor, or a Sub-subcontractor;

.3 other property at the site or adjacent thereto, such as trees, shrubs, lawns, walks, pavements, roadways, structures, and utilities not designated for removal, relocation, or replacement in the course of construction; and

.4 construction or operations by the Owner, Separate Contractors, or other Contractors.

**§ 10.2.2** The Contractor shall comply with, and give notices required by applicable laws, statutes, ordinances, codes, rules and regulations, and lawful orders of public authorities, bearing on safety of persons or property or their protection from damage, injury, or loss.

**§ 10.2.3** The Contractor shall implement, erect, and maintain, as required by existing conditions and performance of the Contract, reasonable safeguards for safety and protection, including posting danger signs and other warnings against hazards; promulgating safety regulations; and notifying the owners and users of adjacent sites and utilities of the safeguards.

**§ 10.2.4** When use or storage of explosives or other hazardous materials or equipment or unusual methods are necessary for execution of the Work, the Contractor shall exercise utmost care and carry on such activities under supervision of properly qualified personnel.

**§ 10.2.5** The Contractor shall promptly remedy damage and loss (other than damage or loss insured under property insurance required by the Contract Documents) to property referred to in Sections 10.2.1.2, 10.2.1.3 and 10.2.1.4 caused in whole or in part by the Contractor, a Subcontractor, a Sub-subcontractor, or anyone directly or indirectly employed by any of them, or by anyone for whose acts they may be liable and for which the Contractor is responsible under Sections 10.2.1.2, 10.2.1.3 and 10.2.1.4. The Contractor may make a Claim for the cost to remedy the damage or loss to the extent such damage or loss is attributable to acts or omissions of the Owner, Construction Manager or Architect or anyone directly or indirectly employed by any of them, or by anyone for whose acts any of them may be liable, and not attributable to the fault or negligence of the Contractor. The foregoing obligations of the Contractor are in addition to the Contractor's obligations under Section 3.18.

**§ 10.2.6** The Contractor shall designate a responsible member of the Contractor's organization at the site whose duty shall be the prevention of accidents. This person shall be the Contractor's superintendent unless otherwise designated by the Contractor in writing to the Owner, Construction Manager and Architect.

**§ 10.2.7** The Contractor shall not permit any part of the construction or site to be loaded so as to cause damage or create an unsafe condition.

**§ 10.2.8 Injury or Damage to Person or Property**

If either party suffers injury or damages to person or property because of an act or omission of the other party, of any of the other party's employees or agents, or of others for whose acts such party is legally responsible, notice of the injury or damage, whether or not insured, shall be given to the other party within a reasonable time not exceeding ten (10) days after first observance. The notice shall provide sufficient detail to enable the other party to investigate the matter. If a Claim for additional cost or time related to this Claim is to be asserted, it shall be filed as provided in Sections 15.1.4 and 15.1.5.

**§ 10.3 Hazardous Materials**

**§ 10.3.1** In the event the Contractor encounters on the site material reasonably believed to be asbestos or polychlorinated biphenyl (PCB) which has not been rendered harmless, the Contractor shall immediately stop Work in the area affected and report the condition to the Owner, Construction Manager and Architect in writing. The Work in the affected area shall not thereafter be resumed except by written agreement of the Owner and Contractor if in fact the material is asbestos or polychlorinated biphenyl (PCB) and has not been rendered harmless. The Work in the affected area shall be resumed in the absence of asbestos or polychlorinated biphenyl (PCB), or when it has been rendered harmless, by written agreement of the Owner and Contractor.

.1 Except where otherwise stated in the Contract Documents, no hazardous material work of any nature shall be performed by the Contractor pursuant to this Contract.

.2 The term "hazardous materials" includes, but is not limited to, asbestos, toxic chemicals, acids, alkalis, irritants, contaminants, or other pollutants, together with any other waste, material, substance, pollutants, or contaminant, all or a portion of which is or would be designated as hazardous waste or substance under applicable local, state, or federal laws, ordinances, codes, rules, or regulations.

**§ 10.3.2** To the fullest extent permitted by law, the Owner shall indemnify and hold harmless the Contractor, Construction Manager, Architect, their consultants, and agents and employees of any of them from and against claims, damages, losses, and expenses, including but not limited to attorneys' fees, arising out of or resulting from performance of the Work on Owner's property if in fact the material is asbestos or polychlorinated biphenyl (PCB) and has not been rendered harmless, provided that such claim, damage, loss, or expense is attributable to bodily injury, sickness, disease or death, or to injury to or destruction of tangible property (other than the Work itself), including loss of use resulting therefrom, but only to the extent caused in whole or in part by negligent acts or omissions of the Owner, anyone directly or indirectly employed by the Owner, or anyone for whose acts the Owner may be liable, regardless of whether or not such claim, damage, loss, or expense is caused in part by a party indemnified hereunder. Such obligation shall not be construed to negate, abridge, or reduce other rights or obligations of indemnity which would otherwise exist as to a party or person described in this Subparagraph 10.3.2.

**§ 10.3.3** If reasonable precautions will be inadequate to prevent foreseeable bodily injury or death to persons resulting from a material or substance encountered on the site by the contractor, the Contractor shall, upon recognizing the condition, immediately stop Work on Owner's property and report the condition to the Owner, Construction Manager and Architect in writing. The Owner, Construction Manager, Contractor, and Architect shall then proceed in the same manner described in Subparagraph 10.3.1.

*(Paragraph deleted)*

**§ 10.3.5** The Contractor shall reimburse the Owner for the cost and expense the Owner incurs (1) for remediation of hazardous materials or substances the Contractor brings to the site and negligently handles, or (2) where the Contractor fails to perform its obligations under Section 10.3.1, except to the extent that the cost and expense are due to the Owner's fault or negligence. Owner shall be responsible for obtaining the services of a licensed laboratory to verify a presence or absence of the material or substance reported by the Contractor and, in the event such material or substance is found to be present, to verify that it has been rendered harmless.

**§ 10.3.6** Regulations concerning the availability of information and employee training in the use and handling of "hazardous substances" and "harmful physical agents", as set forth in the Employee Right-to-Know Act of 1983, Minnesota Statutes, Sections 182.65 to 182.676 are incorporated herein by reference as if fully set forth herein.

**§ 10.3.7** The Contractor shall furnish three Material Safety Data Sheets to the Owner for each material used in the Work that is classified by the Employee Right-to-Know Act of 1983 as a "hazardous substance" or a "harmful physical agent."

**§ 10.3.8** The Contractor shall label, in generally accepted and/or standardized fashion, all containers on the work site containing "hazardous substances" or as "harmful physical agents." This shall include factory containers and all subsequent containers used in the Work.

### § 10.4 Emergencies

In an emergency affecting safety of persons or property, the Contractor shall act to prevent threatened damage, injury, or loss. Additional compensation or extension of time claimed by the Contractor on account of an emergency shall be determined as provided in Article 15 and Article 7.

## ARTICLE 11 INSURANCE AND BONDS

### § 11.1 Contractor's Insurance and Bonds

**§ 11.1.1** The Contractor shall purchase and maintain insurance of the types and limits of liability, containing the endorsements, and subject to the terms and conditions, as described in the Agreement, in EXH-C Owner Insurance or elsewhere in the Contract Documents. The Contractor shall purchase and maintain the required insurance from an insurance company or insurance companies lawfully authorized to issue insurance in the jurisdiction where the Project is located and which carry a Best's rating of A- or higher or are otherwise acceptable to the Owner. The Owner, Construction Manager and Construction Manager's consultants, and the Architect and Architect's consultants, shall be named as additional insureds under the Contractor's commercial general liability policy or as otherwise described in the Contract Documents.

**§ 11.1.2** The Contractor shall provide surety bonds of the types, for such penal sums, and subject to such terms and conditions as required by the Contract Documents. The Contractor shall purchase and maintain the required bonds from a company or companies lawfully authorized to issue surety bonds in the jurisdiction where the Project is located.

**§ 11.1.3** Upon the request of any person or entity appearing to be a potential beneficiary of bonds covering payment of obligations arising under the Contract, the Contractor shall promptly furnish a copy of the bonds or shall authorize a copy to be furnished. The Contractor shall furnish Certificates of Insurance acceptable to the Owner which shall specifically set forth evidence of all coverage required by Article 11 and EXH-C Owner Insurance and shall be filed with the Owner and Construction Manager prior to commencement of the Work and thereafter upon renewal or replacement of each required policy of insurance.

The Contractor shall not allow insurance required by this Agreement to lapse, be canceled, reduced in limits or coverage, non-renewed, or materially changed or have restrictive modifications added during the life of this Agreement, including the periods of required coverage. The Contractor shall furnish to the Owner and Construction Manager copies of any endorsements that are subsequently issued amending coverage and limits.

If any of the foregoing insurance coverages are required to remain in force after final payment and are reasonably available, all additional certificates evidencing continuation of such coverage shall be submitted with the final Application for Payment. Information concerning reduction of coverage shall be furnished by the Contractor with reasonable promptness in accordance with the Contractor's information and belief.

**§ 11.1.3.1** Acceptable insurance certificates are AIA Document G705, CICC of Minnesota Form 701, and/or ACORD form of the American Insurance Institute.

Failure of the Owner to collect certificates does not void the requirements to obtain insurance.

The acceptance of any certificate of insurance by the Owner shall not relieve or decrease the liability of the Contractor hereunder. It is to be understood the Owner, Construction Manager and Architect do not in any way represent that the insurance specified in these articles are sufficient or adequate to protect the Contractor's interest or liabilities, but are merely minimum requirements.

The Contractor shall furnish to the Owner copies of any endorsements that are subsequently issued amending coverage and limits.

**§ 11.1.4** In the event the Contractor fails to procure or maintain any insurance coverage required under this Agreement, the Owner may purchase such coverage and deduct the cost thereof from any monies due to the Contractor, or terminate this Agreement under Paragraph 14.2. The Contractor shall be liable to the Owner for providing all coverage, defense, and payments that would have been provided by any insurance that the Contractor failed to procure and maintain as required by the Contract Documents.

**§ 11.1.5** Compliance by the Contractor with the foregoing insurance requirements shall not relieve it from liability for amounts in excess of the limits of insurance.

**§ 11.1.6** The Contractor and any of its Subcontractors, Sub-subcontractors, agents and employees, and any separate contractors described in Article 6, if any, and any of their subcontractors, sub-subcontractors, agents and employees shall waive any of their subrogation rights on their Workers Compensation Policy in favor of the Owner, Construction Manager and Architect. The policies shall provide such waivers of subrogation by endorsement or otherwise. A waiver of subrogation shall be effective as to a person or entity even though that person or entity would otherwise have a duty of indemnification, contractual, or otherwise, did not pay the insurance premium directly or indirectly, and whether or not the person or entity had an insurable interest.

**§ 11.2 Owner's Insurance**

**§ 11.2.1** The Owner shall purchase and maintain insurance of the types and limits of liability, containing the endorsements, and subject to the terms and conditions, as described in the Agreement or elsewhere in the Contract Documents. The Owner shall purchase and maintain the required insurance from an insurance company or insurance companies lawfully authorized to issue insurance in the jurisdiction where the Project is located. The Owner may self-insure and maintain the Owner's usual liability insurance. Optionally, the Owner may purchase and maintain other insurance for self-protection against claims which may arise from operations under the Contract. The Contractor shall not be responsible for purchasing and maintaining this optional Owner's liability insurance unless specifically required by the Contract Documents.

**§ 11.2.2 Failure to Purchase Required Property Insurance.** If the Owner fails to purchase and maintain the required property insurance, with all of the coverages and in the amounts described in the Agreement or elsewhere in the Contract Documents, the Owner shall inform both the Contractor and the Construction Manager, separately and in writing, prior to commencement of the Work. Upon receipt of notice from the Owner, the Contractor may delay commencement of the Work and may obtain insurance that will protect the interests of the Contractor, Subcontractors, and Sub-Subcontractors in the Work. When the failure to provide coverage has been cured or resolved, the Contract Sum and Contract Time shall be equitably adjusted. In the event the Owner fails to procure coverage, the Owner waives all rights against the Contractor, Subcontractors, and Sub-subcontractors to the extent the loss to the Owner would have been covered by the insurance to have been procured by the Owner. The cost of the insurance shall be charged to the Owner by a Change Order. If the Owner does not provide written notice, and the Contractor is damaged by the failure or neglect of the Owner to purchase or maintain the required insurance, the Owner shall reimburse the Contractor for all reasonable costs and damages attributable thereto.

**§ 11.2.3 Notice of Cancellation or Expiration of Owner's Required Property Insurance.** Within three (3) business days of the date the Owner becomes aware of an impending or actual cancellation or expiration of any property insurance required by the Contract Documents, the Owner shall provide notice directly to the Contractor, and separately to the Construction Manager, of such impending or actual cancellation or expiration. Unless the lapse in coverage arises from an act or omission of the Contractor: (1) the Contractor, upon receipt of notice from the Owner, shall have the right to stop the Work until the lapse in coverage has been cured by the procurement of replacement coverage by either the Owner or the Contractor; (2) the Contract Time and Contract Sum shall be equitably adjusted; and (3) the Owner waives all rights against the Contractor, Subcontractors, and Sub-subcontractors to the extent any loss to the Owner would have been covered by the insurance had it not expired or been cancelled. If the Contractor purchases replacement coverage, the cost of the insurance shall be charged to the Owner by an appropriate Change Order. The furnishing of notice by the Owner shall not relieve the Owner of any contractual obligation to provide required insurance.

**§ 11.3 Waivers of Subrogation**

**§ 11.3.1** The Owner and Contractor waive all rights against (1) each other and any of their subcontractors, sub-subcontractors, agents, and employees, each of the other; (2) the Construction Manager and Construction Manager's consultants; (3) the Architect and Architect's consultants; (4) other Contractors and any of their subcontractors, sub-subcontractors, agents, and employees; and (5) Separate Contractors, if any, and any of their subcontractors, sub-subcontractors, agents, and employees, for damages caused by fire, or other causes of loss, to the extent those losses are covered by property insurance required by the Agreement or other property insurance applicable to the Project, except such rights as they have to proceeds of such insurance. The Owner or Contractor, as appropriate, shall require similar written waivers in favor of the individuals and entities identified above from the Construction Manager, Construction Manager's consultants, Architect, Architect's consultants, other Contractors,

Separate Contractors, subcontractors, and sub-subcontractors. The policies of insurance purchased and maintained by each person or entity agreeing to waive claims pursuant to this Section 11.3.1 shall not prohibit this waiver of subrogation. This waiver of subrogation shall be effective as to a person or entity (1) even though that person or entity would otherwise have a duty of indemnification, contractual or otherwise, (2) even though that person or entity did not pay the insurance premium directly or indirectly, or (3) whether or not the person or entity had an insurable interest in the damaged property.

**§ 11.4 Loss of Use, Business Interruption, and Delay in Completion Insurance**

The Owner, at the Owner's option, may purchase and maintain insurance that will protect the Owner against loss of use of the Owner's property, or the inability to conduct normal operations, due to fire or other causes of loss. The Owner waives all rights of action against the Contractor, Architect, and Construction Manager for loss of use of the Owner's property, due to fire or other hazards however caused.

**§ 11.5 Adjustment and Settlement of Insured Loss**

**§ 11.5.1** A loss insured under the property insurance required by the Agreement shall be adjusted by the Owner as fiduciary and made payable to the Owner as fiduciary for the insureds, as their interests may appear, subject to requirements of any applicable mortgagee clause and of Section 11.5.2. The Owner shall pay the Construction Manager, Architect and Contractor their just shares of insurance proceeds received by the Owner, and by appropriate agreements the Construction Manager, Architect and Contractor shall make payments to their consultants and Subcontractors in similar manner.

**§ 11.5.2** Prior to settlement of an insured loss, the Owner shall notify the Contractor of the terms of the proposed settlement as well as the proposed allocation of the insurance proceeds. The Contractor shall have 14 days from receipt of notice to object to the proposed settlement or allocation of the proceeds. If the Contractor does not object, the Owner shall settle the loss and the Contractor shall be bound by the settlement and allocation. Upon receipt, the Owner shall make the appropriate distributions. Thereafter, if no other agreement is made or the Owner does not terminate the Contract for convenience, the Owner and Contractor shall execute a Change Order for reconstruction of the damaged or destroyed Work in the amount allocated for that purpose. If the Contractor timely objects to either the terms of the proposed settlement or the allocation of the proceeds, the Owner may proceed to settle the insured loss, and any dispute between the Owner and Contractor arising out of the settlement or allocation of the proceeds shall be resolved pursuant to Article 15. Pending resolution of any dispute, the Owner may issue a Construction Change Directive for the reconstruction of the damaged or destroyed Work.

**§ 11.6 Bonds**

**§ 11.6.1** Contractor shall furnish a Performance Bond and a Payment Bond to the Owner in the amount of one hundred percent (100%) of the Contract Sum and issued by a Surety Company authorized to do business in the State of Minnesota, rated "A" or better, and approved by the Owner. The Performance Bond shall be in accordance with Minnesota Statutory requirements, and shall be in the form included in the Project Manual. The Bonds shall allow for any additions or deductions to the Contract Sum.

**§ 11.6.2** In order to be acceptable as a surety, Contractor's bonding company bust hold a "Certificate of Authority acceptable to the U.S. Treasury Department and be listed in the Department's current publication of "Bond Qualifiers" with underwriting limitations not less than ten percent (10%) above the Contract Sum.

**§ 11.6.3** The surety of the Bonds shall be by a corporate surety company authorized to do business in the state in which Work is being performed under this Contract and acceptable to the Owner. The conditions of the bonds shall meet requirements of the statutes of the state where Work is being performed and all other applicable provisions of state law.

**§ 11.6.4** The Contractor shall furnish two (2) originals of the Bonds to the Owner, with copies to the Architect and Construction Manager, within ten (10) days after notification of award and before execution of the Contract. Failure to do so shall constitute a violation of terms of the proposal and provide grounds for forfeiture of bid security.

## ARTICLE 12 UNCOVERING AND CORRECTION OF WORK

### § 12.1 Uncovering of Work

**§ 12.1.1** If a portion of the Work is covered contrary to the Construction Manager's or Architect's request or to requirements specifically expressed in the Contract Documents, it must, if requested in writing by either, be uncovered for their examination and be replaced at the Contractor's expense without change in the Contract Time.

**§ 12.1.2** If a portion of the Work has been covered that the Construction Manager or Architect has not specifically requested to examine prior to its being covered, the Construction Manager or Architect may request to see such Work and it shall be uncovered by the Contractor. If such Work is in accordance with the Contract Documents, the Contractor shall be entitled to an equitable adjustment to the Contract Sum and Contract Time as may be appropriate. If such Work is not in accordance with the Contract Documents, the costs of uncovering the Work, and the cost of correction, shall be at the Contractor's expense.

### § 12.2 Correction of Work

#### § 12.2.1 Before Substantial Completion

The Contractor shall promptly correct Work rejected by the Construction Manager or Architect or failing to conform to the requirements of the Contract Documents, discovered before Substantial Completion, and whether or not fabricated, installed or completed. The Contractor shall bear costs of correcting such rejected Work, including additional testing and inspections, the cost of uncovering and replacement, and compensation for the Construction Manager's and Architect's services and expenses made necessary thereby.

#### § 12.2.2 After Substantial Completion

*(Paragraphs deleted)*

**§ 12.2.2.1**If within one year after the date of Substantial Completion of the Work or designated portion thereof, or after the date for commencement of warranties established under Section 9.9.1, or by terms of any applicable special warranty required by the Contract Documents, any of the Work is found to be not in accordance with the requirements of the Contract Documents, the Contractor shall correct it promptly (and any other property damaged or removed in effecting the correction) after receipt of notice from the Owner, Construction Manager or Architect to do so, unless the Owner has previously given the Contractor a written acceptance of such condition. The Owner, Construction Manager or Architect shall give such notice promptly after discovery of the condition. This period of one year shall be extended with respect to portions of Work first performed after Substantial completion by the period of time between Substantial completion and the actual performance of the Work. This obligation under this Subparagraph 12.2.2.1 shall survive acceptance of the Work under the contract and termination of the Contract. The Owner, Construction Manager or Architect shall give such notice promptly after discovery of the condition. The expiration of the above one year or any other specified time period, or any other period prescribed by the law, shall not relieve the Contractor of the obligation form the expense to correct any latent defect in the work or deficiencies which are not readily ascertained, including but not limited to, defective materials and quality of work performed, defects attributable to material substitutions for special materials, substandard performance or otherwise not in compliance with the Contract Documents. Such latent defects or deficiencies shall be corrected as provided in this Paragraph 12.2. Following the correction or replacement of any of the Work, as above specified, the Contractor shall correct any defects or deficiencies in the corrected or replaced materials and workmanship which is found within one year after the date of correction or replacement.

**§ 12.2.3** The Contractor shall remove from the site portions of the Work that are not in accordance with the requirements of the Contract Documents and are neither corrected by the Contractor nor accepted by the Owner.

**§ 12.2.4** If the Contractor fails to correct nonconforming Work within a reasonable time, the Owner may correct it in accordance with Paragraph 2.4. If the Contractor does not proceed with correction of such nonconforming Work within a reasonable time fixed by written notice from the Architect or Construction Manager, the Owner may correct or remove it and store the salvageable materials or equipment all at the Contractor's expense. If the Contractor does not pay costs of such removal and storage within ten (10) days after written notice, the Owner may upon ten (10) additional days' written notice sell such materials and equipment at auction or at private sale and shall account for the proceeds thereof, after deducting costs and damages that should have been borne by the Contractor, the Contract Sum shall be reduced by the deficiency. If payments then or thereafter due the Contractor are not sufficient to cover such amount, the Contractor shall pay the difference to the Owner.

**§ 12.2.5** The Contractor shall bear the cost of correcting destroyed or damaged construction whether completed or partially completed, of the Owner or separate contractors caused by the Contractor's correction or removal of Work which is not in accordance with the requirements of the Contract Documents.

**§ 12.2.6** Nothing contained in this Section 12.2 shall be construed to establish a period of limitation with respect to other obligations the Contractor has under the Contract Documents. Establishment of the one-year period for correction of Work as described in Section 12.2.2 relates only to the specific obligation of the Contractor to correct the Work, and has no relationship to the time within which the obligation to comply with the Contract Documents may be sought to be enforced, nor to the time within which proceedings may be commenced to establish the Contractor's liability with respect to the Contractor's obligations other than specifically to correct the Work.

### § 12.3 Acceptance of Nonconforming Work

If the Owner prefers to accept Work that is not in accordance with the requirements of the Contract Documents, the Owner may do so instead of requiring its removal and correction, in which case the Contract Sum will be reduced as appropriate and equitable. Such adjustment shall be effected whether or not final payment has been made.

## ARTICLE 13 MISCELLANEOUS PROVISIONS

### § 13.1 Governing Law

The Contract shall be governed by the law of the place where the Project is located excluding that jurisdiction's choice of law rules. If the parties have selected arbitration as the method of binding dispute resolution, the Federal Arbitration Act shall govern Section 15.4.

### § 13.2 Successors and Assigns

**§ 13.2.1** The Owner and Contractor respectively bind themselves, their partners, successors, assigns, and legal representatives to covenants, agreements, and obligations contained in the Contract Documents. Except as provided in Section 13.2.2, neither party to the Contract shall assign the Contract as a whole without written consent of the other. If either party attempts to make an assignment without such consent, that party shall nevertheless remain legally responsible for all obligations under the Contract.

**§ 13.2.2** The Owner may, without consent of the Contractor, assign the Contract to a lender providing construction financing for the Project, if the lender assumes the Owner's rights and obligations under the Contract Documents. **§ 13.3.2** No action or failure to act by the Owner, Construction Manager, Architect, or Contractor shall constitute a waiver of a right or duty afforded them under the Contract, nor shall such action or failure to act constitute approval of or acquiescence in a breach thereunder, except as may be specifically agreed upon in writing.

### § 13.4 Tests and Inspections

**§ 13.4.1** Tests, inspections, and approvals of portions of the Work shall be made as required by the Contract Documents and by applicable laws, statutes, ordinances, codes, rules, and regulations or lawful orders of public authorities. The Owner, Construction Manager or Architect shall make arrangements for such tests, inspections, and approvals with an independent testing laboratory or entity acceptable to the Owner, or with the appropriate public authority. Timely notice shall be given to the Construction Manager and Architect of when and where tests and inspections are to be made so that the Construction Manager and Architect may observe such procedures. The Owner shall bear costs of tests, inspections, or approvals that do not become requirements until after bids are received or negotiations concluded. The Owner shall directly arrange and pay for tests, inspections, or approvals where building codes or applicable laws or regulations so require.

**§ 13.4.2** If the Construction Manager, Architect, Owner, or public authorities having jurisdiction determine that portions of the Work require additional testing, inspection, or approval not included under Section 13.4.1, the Construction Manager and Architect will, upon written authorization from the Owner, instruct the Contractor to make arrangements for such additional testing, inspection, or approval, by an entity acceptable to the Owner, and the

Contractor shall give a minimum of two (2) working days' notice to the Construction Manager and Architect of when and where tests and inspections are to be made so that the Construction Manager and Architect may observe procedures. The Owner shall bear such costs, except as provided in Section 13.4.3.

**§ 13.4.3** If procedures for testing, inspection, or approval under Sections 13.4.1 and 13.4.2 reveal failure of the portions of the Work to comply with requirements established by the Contract Documents, all costs made necessary by such failure, including those of repeated procedures and compensation for the Construction Manager's and Architect's services and expenses, shall be at the Contractor's expense.

**§ 13.4.4** Required certificates of testing, inspection, or approval shall, unless otherwise required by the Contract Documents, be secured by the Contractor and promptly delivered to the Construction Manager for transmittal to the Architect.

**§ 13.4.5** If the Construction Manager or Architect is to observe tests, inspections, or approvals required by the Contract Documents, the Construction Manager or Architect will do so promptly and, where practicable, at the normal place of testing.

**§ 13.4.6** Tests or inspections conducted pursuant to the Contract Documents shall be made promptly to avoid unreasonable delay in the Work.

**§ 13.5 Interest**

All payments to the Contractor shall be governed by the Prompt Payment of Local Government Bills, Minnesota Statutes, Section 471.125 ("Prompt Payment Act") and Article 5 of the A132–2019 Agreement on this Project.

**§ 13.6 Non-Discrimination**

**§ 13.6.1** All contracts between the Owner and companies providing goods and services under the Contract Documents shall contain the following equal opportunity and civil right clause:

Upon request, the Contractor shall furnish all information and reports required by the Owner, or by the rules and regulations of investigation to ascertain compliance with all applicable rules and regulations. The Contractor shall also comply with any applicable licensing requirements of the Minnesota Department of Human Services in employment of personnel.

The Contractor acknowledges that the violation of the above-stated paragraph is a misdemeanor pursuant to Minnesota Statutes, Section 181.59.

This Agreement may be cancelled or terminated by the Owner or any other person authorized to grant the contracts for employment under this Agreement, and all money due, or to become due under this Agreement may be forfeited for a second or any subsequent violation of the non-discriminatory terms stated above.

**§ 13.6.2** During the completion of the work and all other services required by the Contract Documents, the Contractor agrees that no contractor, material supplier, vendor, or other person shall, on the basis of sex, race, creed, color, religion, national origin, age, marital status, sexual orientation, or disability be excluded from full employment rights in participation in, be denied the benefits of, or be otherwise subjected to discrimination under the provisions of any and all applicable Federal and State laws against discrimination, including the Minnesota Human Rights Act and the Civil Rights Act of 1964. Contractor acknowledges that the violation of the above-states paragraph is a misdemeanor pursuant to Minnesota Statutes Section 181.59.

The Contract Documents may be cancelled or terminated by the Owner or any other person authorized to grant the contracts for employment under this Agreement, and all money due, or to become due under the Agreement may be forfeited for a second or any subsequent violation of the non-discriminatory terms stated above.

**§ 13.7** No action or failure to act by the Owner shall constitute a waiver of a right or duty afforded the Owner under the Contract Documents, nor shall such action or failure to act constitute approval of or acquiescence of the Owner in a breach of the Contract Documents, except as may be specifically agreed in writing. None of the approval of any Application for Payment, the making of any payment, the giving of any approval or consent, the use or occupancy of the Work, or any part thereof, the making of final payment, or any other action or inaction on the part of the Owner, Construction Manager or Architect shall constitute a waiver of claims by or rights of the Owner or an acceptance of any Work that is not in accordance with the Contract Documents. The Contractor shall not be relieved from its obligations to perform the Work in accordance with the Contract Documents either by the activities or duties of the representations of the Owner, Construction Manager or Architect, or by inspections, tests, or approvals required or performed by the Owner, Construction Manager or Architect or anyone else.

## ARTICLE 14 TERMINATION OR SUSPENSION OF THE CONTRACT

### § 14.1 Termination by the Contractor

**§ 14.1.1** The Contractor may terminate the Contract if the Work is stopped for a period of 30 consecutive days through no act or fault of the Contractor, a Subcontractor, a Sub-subcontractor, their agents or employees, or any other persons or entities performing portions of the Work, for any of the following reasons:

- **.1** Issuance of an order of a court or other public authority having jurisdiction that requires all Work to be stopped;
- **.2** An act of government, such as a declaration of national emergency, that requires all Work to be stopped;
- **.3** Because the Construction Manager has not certified or the Architect has not issued a Certificate for Payment and has not notified the Contractor of the reason for withholding certification as provided in Section 9.4, or because the Owner has not made payment on a Certificate for Payment within the time stated in the Contract Documents; or
- **.4** The Owner has failed to furnish to the Contractor reasonable evidence as required by Section 2.2.

**§ 14.1.2** The Contractor may terminate the Contract if, through no act or fault of the Contractor, a Subcontractor, a Sub-subcontractor, their agents or employees, or any other persons or entities performing portions of the Work, repeated suspensions, delays, or interruptions of the entire Work by the Owner as described in Section 14.3, constitute in the aggregate more than 100 percent of the total number of days scheduled for completion, or 120 days in any 365-day period, whichever is less.

**§ 14.1.3** If one of the reasons described in Section 14.1.1 or 14.1.2 exists, the Contractor may, upon seven days' notice to the Owner, Construction Manager and Architect, terminate the Contract and recover from the Owner payment for Work executed, as well as reasonable overhead and profit on Work not executed, and costs incurred by reason of such termination.

**§ 14.1.4** If the Work is stopped for a period of 60 consecutive days through no act or fault of the Contractor, a Subcontractor, a Sub-subcontractor, or their agents or employees, or any other persons performing portions of the Work because the Owner has repeatedly failed to fulfill the Owner's obligations under the Contract Documents with respect to matters important to the progress of the Work, the Contractor may, upon seven additional days' notice to the Owner, Construction Manager and Architect, terminate the Contract and recover from the Owner as provided in Section 14.1.3.

### § 14.1.5 No Right to Stop Work for Non-Payment

The Contractor has no right to stop Work as a consequence of non-payment. In the event of any disagreement between the Contractor and Owner involving the Contractor's entitlement to payment, the Contractor's only remedy is to file a Claim in accordance with Article 15. The Contractor must diligently proceed with the Work pending resolution of the Claim. If, however, an Application for Payment has been approved for payment by the Owner, and the Owner fails to make payment within sixty (60) days of the approval for payment by the Owner, the Contractor may upon ten (10)

days written notice to the Owner, stop work if payment is not made by the Owner within ten (10) days following the notice.

**§ 14.2 Termination by the Owner for Cause**

**§ 14.2.1** The Owner may terminate the Contract if the Contractor

.1 repeatedly refuses or fails to supply enough properly skilled workers or proper materials;

.2 fails to make payment to Subcontractors or suppliers in accordance with the respective agreements between the Contractor and the Subcontractors or suppliers;

.1 Exclude the Contractor from the site and take possession of all materials, equipment, tools, and construction equipment and machinery thereon owned by the Contractor;

.2 Accept assignment of subcontracts pursuant to Section 5.4; and

.3 Finish the Work by whatever reasonable method the Owner may deem expedient. Upon written request of the Contractor, the Owner shall furnish to the Contractor a detailed accounting of the costs incurred by the Owner in finishing the Work.

**§ 14.2.3** When the Owner terminates the Contract for one of the reasons stated in Section 14.2.1, the Contractor shall not be entitled to receive further payment until the Work is finished.

**§ 14.2.4** If the unpaid balance of the Contract Sum exceeds costs of finishing the Work, including compensation for the Construction Manager's and Architect's services and expenses made necessary thereby, and other damages incurred by the Owner and not expressly waived, such excess shall be paid to the Contractor. If such costs and damages exceed the unpaid balance, the Contractor shall pay the difference to the Owner. The amount to be paid to the Contractor or Owner, as the case may be, shall, upon application, be certified by the Initial Decision Maker after consultation with the Construction Manager, and this obligation for payment shall survive termination of the Contract.

**§ 14.3 Suspension by the Owner for Convenience**

**§ 14.3.1** The Owner may, without cause, order the Contractor in writing to suspend, delay or interrupt the Work, in whole or in part for such period of time as the Owner may determine.

## ARTICLE 15 CLAIMS AND DISPUTES

### § 15.1 Claims

**§ 15.1.1 Definition.** A Claim is a demand or assertion by the Contractor seeking, as a matter of right, payment of money, a change in the Contract Time, or other relief with respect to the terms of the Contract. The responsibility to substantiate Claims shall rest with the Contractor. Nothing in this paragraph 15.1.1 is intended to apply to or in any way limit the Owner's right to make Claims related to or arising out of the Contract. This Section 15.1.1 does not require the Owner to file a Claim in order to impose liquidated damages in accordance with the Contract Documents.

**§ 15.1.2 Time Limits on Claims**

The Owner and Contractor shall commence all Claims and causes of action against the other and arising out of or related to the Contract, whether in contract, tort, breach of warranty or otherwise, in accordance with the requirements of the binding dispute resolution method selected in the Agreement and within the period specified by applicable law, but in any case not more than 10 years after the date of Substantial Completion of the Work. The Owner and Contractor waive all Claims and causes of action not commenced in accordance with this Section 15.1.2.

**§ 15.1.3 Notice of Claims**

**§ 15.1.3.1** Claims by Contractor, where the condition giving rise to the Claim is first discovered prior to expiration of the period for correction of the Work set forth in Section 12.2.2, shall be initiated by written notice to the Owner and to the Initial Decision Maker with a copy sent to the Construction Manager and Architect, if the Architect is not serving as the Initial Decision Maker. Claims by the Contractor under this Section 15.1.3.1 shall be initiated within ten (10) days after occurrence of the event giving rise to such Claim or within ten (10) days after the Contractor first recognizes the condition giving rise to the Claim, whichever is later. Any additional Claim made after and relating to the initial Claim has been implemented by Change Order will not be considered unless submitted in a timely manner. As a condition to making a claim for additional costs, the Contractor shall maintain and produce accurate records to substantiate all additional costs actually incurred. If a Claim for actual costs is approved, the Owner shall pay the Contractor actual costs incurred, plus either (a) ten percent (10%) for overhead and profit for work performed by the Contractor, or (b) five percent (5%) overhead and profit for work performed by a Subcontractor, as applicable.

**§ 15.1.3.2** Claims by either the Owner or Contractor, where the condition giving rise to the Claim is first discovered after expiration of the period for correction of the Work set forth in Section 12.2.2, shall be initiated by written notice to the other party. In such event, no decision by the Initial Decision Maker is required.

**§ 15.1.4 Continuing Contract Performance**

**§ 15.1.4.1** Pending final resolution of a Claim, except as otherwise agreed in writing or as provided in Section 9.7 and Article 14, the Contractor shall proceed diligently with performance of the Contract and the Owner shall continue to make payments in accordance with the Contract Documents. Subject to Paragraph 15.1.5, no such continuing performance by the Contractor, nor payment by the Owner shall be deemed a waiver of, or to otherwise impair any such Claim.

**§ 15.1.4.2** The Contract Sum and Contract Time shall be adjusted in accordance with the Initial Decision Maker's decision, subject to the right of either party to proceed in accordance with this Article 15. The Architect will issue Certificates for Payment in accordance with the decision of the Initial Decision Maker.

**§ 15.1.5 Claims for Additional Cost.** If the Contractor wishes to make a Claim for an increase in the Contract Sum, notice as provided in Section 15.1.3 shall be given before proceeding to execute the portion of the Work that is the subject of the Claim. Prior notice is not required for Claims relating to an emergency endangering life or property arising under Section 10.4.

**§ 15.1.6 Claims for Additional Time**

**§ 15.1.6.1** If the Contractor wishes to make a Claim for any increase in the Contract Time, notice as provided in Section 15.1.3 shall be given. The Contractor's Claim shall include an estimate of cost and of probable effect of delay on progress of the Work. In the case of a continuing delay only one Claim is necessary.

**§ 15.1.6.2** If adverse weather conditions are the basis for a Claim for additional time, such Claim shall be documented by data substantiating that weather conditions were abnormal for the period of time, could not have been reasonably anticipated and had an adverse effect on the scheduled construction.

**§ 15.2 Initial Decision**

**§ 15.2.1** Claims, excluding those where the condition giving rise to the Claim is first discovered after expiration of the period for correction of the Work set forth in Section 12.2.2 or arising under Sections 10.3, 10.4, and 11.5, shall be referred to the Initial Decision Maker for initial decision. The Architect will serve as the Initial Decision Maker, unless otherwise indicated in the Agreement. Except for those Claims excluded by this Section 15.2.1, an initial decision shall be required as a condition precedent to mediation of any Claim. If an initial decision has not been rendered within 30 days after the Claim has been referred to the Initial Decision Maker, the party asserting the Claim may demand mediation and binding dispute resolution without a decision having been rendered. Unless the Initial Decision Maker and all affected parties agree, the Initial Decision Maker will not decide disputes between the Contractor and persons or entities other than the Owner.

**§ 15.2.2** The Initial Decision Maker will review Claims and within ten days of the receipt of a Claim take one or more of the following actions: (1) request additional supporting data from the claimant or a response with supporting data from the other party, (2) reject the Claim in whole or in part, (3) approve the Claim, (4) suggest a compromise, or (5) advise the parties that the Initial Decision Maker is unable to resolve the Claim if the Initial Decision Maker lacks sufficient information to evaluate the merits of the Claim or if the Initial Decision Maker concludes that, in the Initial Decision Maker's sole discretion, it would be inappropriate for the Initial Decision Maker to resolve the Claim.

**§ 15.2.3** In evaluating Claims, the Initial Decision Maker may, but shall not be obligated to, consult with or seek information from either party or from persons with special knowledge or expertise who may assist the Initial Decision Maker in rendering a decision. The Initial Decision Maker may request the Owner to authorize retention of such persons at the Owner's expense.

**§ 15.2.4** If the Initial Decision Maker requests a party to provide a response to a Claim or to furnish additional supporting data, such party shall respond, within ten days after receipt of the request, and shall either (1) provide a response on the requested supporting data, (2) advise the Initial Decision Maker when the response or supporting data will be furnished, or (3) advise the Initial Decision Maker that no supporting data will be furnished. Upon receipt of the response or supporting data, if any, the Initial Decision Maker will either reject or approve the Claim in whole or in part.

**§ 15.2.5** The Initial Decision Maker will render an initial decision approving or rejecting the Claim, or indicating that the Initial Decision Maker is unable to resolve the Claim. This initial decision shall (1) be in writing; (2) state the reasons therefor; and (3) notify the parties, the Construction Manager, and the Architect, if the Architect is not serving as the Initial Decision Maker, of any change in the Contract Sum or Contract Time or both. The initial decision shall be final and binding on the parties but subject to mediation and, if the parties fail to resolve their dispute through mediation, to binding dispute resolution.

**§ 15.2.6** In the event of a Claim against the Contractor, the Owner may, but is not obligated to notify the surety, if any, of the nature and amount of the Claim. If the Claim relates to a possibility of a Contractor's default, the Owner may, but is not obligated to notify the surety and initiate a Claim on the performance bond.

*(Paragraphs deleted)*

**§ 15.3 Mediation**

**§ 15.3.1** Any claim, dispute or other matter in question or arising out of or related to the Contract shall be subject to mediation. Mediation is not a condition precedent to commencing litigation, but if litigation is commenced before mediation is held, the Parties agree to mediate before any dispositive motions or trial.

**§ 15.3.2** The parties shall share the mediator's fee and any filing fees equally. The mediation shall be held in the place where the Project is located unless another location is mutually agreed upon. Agreements reached in mediation and ratified by the Owner's Council shall be enforceable as settlement agreements in any court having jurisdiction thereof.

§ 3.4.1 Unless otherwise provided in the Contract Documents, the Contractor shall provide and pay for labor, materials, equipment, tools, construction equipment and machinery, water, heat, utilities, transportation, and other facilities and services necessary for proper execution and completion of the Work, whether temporary or permanent and whether or not incorporated or to be incorporated in the Work. **§ 8.3.1** If the Contractor is delayed at any time in the ~~commencement or~~ progress of the Work by (1) an act or neglect of the Owner, Architect, Construction Manager, or an employee of any of them, or of the Owner's own forces, Separate Contractors, or other Contractors; (2) by changes ordered in the Work; (3) by labor disputes, fire, unusual delay in deliveries, unavoidable casualties, adverse weather conditions documented in accordance with Section 15.1.6.2, or other causes beyond the Contractor's control; ~~(4) by delay authorized by the Owner pending mediation and binding dispute resolution; or (5)~~ or (4) by other causes that the Contractor asserts and the Architect, based on the recommendation of the Construction Manager, determines justify delay, then subject to the conditions hereinafter set forth, the Contract Time shall be extended by Change Order for such reasonable time as the Architect may determine. Requests for extensions of time for causes enumerated above will be considered by the Architect subject to the following:

.1 Only those conditions enumerated above over which the Contractor has no control will be considered. The burden of proof to substantiate the claim for an extension shall rest with the Contractor, including evidence that the cause was beyond their control. It shall be deemed the Contractor has control over the supply of labor, materials, equipment, methods, techniques, and over their Subcontractors and suppliers;

.2 In the event of Changes in the Work, any consideration for a time extension will be made only at the time of authorizing the changes, and no later than when the Change Order is prepared, and only if the Change Order significantly affects the time and progress of the entire Work. For changes which do not affect the entire Work, time extension may be granted only for the area, phase, unit, or element affected by the change, if due to a valid reason for a time extension;

.3 Any unusual delay in deliveries will not be considered unless it is solely due to transportation issues wholly outside of Contractor's, Subcontractor's, Sub-subcontractor's or Supplier's control. An extension of time will not be granted for delays in deliveries where said delivery was not properly scheduled or when orders were not promptly and properly placed;

.4 With respect to a claim for an extension of time as a result of climatic conditions, the Contractor shall recognize the location of the site and the existence, as normal, or variations from "average" conditions. Foul weather in itself will not be a valid reason for a time extension. Requests for time extensions because of delay resulting from weather extremes will not be considered unless a substantial variation from usual weather conditions occurs for a significant period of time, during phases of the Work when operation necessarily were suspended to a significant degree when they would otherwise have been in progress. In considering the time extension, the weather conditions both before and after the period in which the delay is claimed will be evaluated with credit given to Owner for unseasonably favorable weather;

.5 Delays resulting from a labor dispute will not result in a time extension of a longer period than the dispute, plus a reasonable time for mobilization if justified and necessary as approved by the Architect, and may be less depending on the impact of the dispute, including what operations were suspended or curtailed;

.6 No time extension will be granted as a result of improper scheduling or for failure to have shop drawings or samples submitted in ample time for review under a reasonable and agreed upon schedule; or

.7 Delays by Subcontractors or suppliers will not be considered justification for a time extension, except for the same valid reasons and conditions enumerated under Section 8.3.1.

**§ 9.8.2** When the Contractor considers that the Work, or a portion thereof which the Owner agrees to accept separately, is substantially complete, the Contractor shall notify the Construction Manager, and the Contractor and Construction Manager shall jointly prepare and submit to the Architect a comprehensive list of items to be completed or ~~corrected prior to final payment.~~ corrected. The Contractor shall proceed promptly to complete and correct items on the list. Failure to include an item on such list does not alter the responsibility of the Contractor to complete all Work in accordance with the Contract Documents. Upon receipt of the Contractor's list, the Architect, assisted by the Construction Manager, will make an inspection to determine whether the Work or designated portion thereof is substantially complete. If additional inspections are required due to the Contractor's failure to complete previously listed corrective or uncompleted work, the Architect's expense for conducting such re-inspections and related time in processing, reviewing, and revision of requirements shall be charged to the Contractor and such payment shall be accomplished by a deductive Change Order to the Contractor.

**§ 9.10.1** Upon completion of the Work, the Contractor shall forward to the Construction Manager a notice that the Work is ready for final inspection and acceptance, and shall also forward to the Construction Manager a final Contractor's Application for Payment. Upon receipt, the Construction Manager shall perform an inspection to confirm the completion of Work of the Contractor. The Construction Manager shall make recommendations to the Architect when the Work of all of the Contractors is ready for final inspection, and shall then forward the Contractors' notices and Application for Payment or Project Application for Payment, to the Architect, who will promptly make such inspection. When the Architect finds the Work acceptable under the Contract Documents and the Contract fully performed, the Construction Manager and Architect will promptly issue a final Certificate for Payment or Project Certificate for Payment stating that to the best of their knowledge, information and belief, and on the basis of their observations, on-site visits and inspections, the Work has been completed in accordance with the Contract Documents and that the entire balance found to be due the Contractor and noted in the final Certificate is due and payable. The Construction Manager's and Architect's final Certificate for Payment or Project Certificate for Payment will constitute a further representation that conditions listed in Section 9.10.2 as precedent to the Contractor's being entitled to final payment have been fulfilled.

Contractor shall have a continuing obligation, after said Contract period, to comply with any provision of this Contract intended for District's protection or benefit, or that that by its sense and context, is intended to survive the completion, expiration or termination of this Contract.

1.2 Contractor understands that NO WORK SHOULD BEGIN UNDER THIS CONTRACT until all required signatures on this Contract have been obtained and the Contract has been authorized and/or approved by the District's Board. Any work performed by Contractor prior to such time shall be considered as having been performed at Contractor's OWN RISK and as a volunteer.

## 2 SCOPE OF WORK

2.1 Contractor shall perform all of the services set forth herein and any exhibits attached hereto as **Exhibit A** ("Scope of Work"). Contractor understands that time is of the essence in this Contract and agrees to meet all milestones indicated in this section, in the Contract herein and any exhibits attached hereto.

District's total obligation to Contractor under this Contract, including compensation for goods, services, and reimbursable expenses shall not exceed $346,100.00. Contractor shall not receive any additional reimbursement for materials or subsistence expenses incurred in the performance of this Contract.

3.2 ***Frequency of Invoicing and Terms of Payment***

Subject to the conditions herein, payment shall be made by District within thirty (30) days upon receipt of Contractor's invoice for goods delivered or services rendered pursuant to this Contract. The Contractor's standard invoice shall be submitted after satisfactory completion of services monthly. District has no obligation to pay for services that are not satisfactorily performed or performed in violation of federal, state or local law, ordinance, rule or regulation. In the case of a dispute about satisfactory performance of services, the parties agree to work in good faith to resolve any disputes. If either party does not dispute an invoice in writing within 180 days of receipt of the invoice, no action challenging the invoice may be taken.

As applicable, for all agreed upon work performed by Contractor or Contractor's personnel in the provision of goods and/or services stipulated herein, District shall pay Contractor at the hourly or per diem rates as set forth in the applicable **Exhibit B**. Payment shall be made to Contractor based on the hours recorded provided such hours are in accordance with the terms of this Contract. District has no obligation to pay for overtime or holiday work, nor will it pay premiums for overtime and holidays.

## The Foundation Platform

Intellis will implement the Foundation software Platform and related services to provide the MPS Facilities Organization with a way of administering and managing the process of executing and tracking **Condition Assessment** of their facilities and **Planning** their related actions.

MPS has an annual cycle where the plan is updated. The approval of those updates is in the beginning of June with activities leading up to that date that likely include:

Data gathering, analysis, policy setting and creating reports culminating in an approved plan and constrained by the following milestones:

1. a presentation and review with the financial department in the beginning of April
2. a plan reading in beginning of May.

The annual contract with Intellis will start (and have anniversaries) at the January or February.

### The next Plan approval – June 2024 (the 2024 Plan)

Since the preparation of the 2024 plan (which will be presented to Finance in the beginning of April 2024) will be well underway at the time the Foundation implementation will begin, preparing the 2024 plan for MPS will use pre-existing methods and data (available prior to starting the implementation for the Foundation Platform). For the most part the Foundation implementation team will work in parallel to the 2024 plan preparation effort, observing and gathering information about the process for the purpose of incorporating those lessons into the Foundation Platform so it can be used in the preparation of the 2025 capital plan (which will be presented to Finance in the beginning of April 2025).

### Plan Approval June 2025 (the 2025 Plan)

#### *Begin Condition Assessment*

The Foundation Implementation team will establish and configure the Foundation platform to support an ongoing Facility Condition Assessment effort. MPS will be responsible for performing the Assessment effort using staff from MPS or contracting with appropriate experts (e.g., Architecture, Engineering firms).

It is assumed that Condition Assessment information generated using the Foundation platform will not be available for the preparation of the 2024 plan.

*Incorporate condition assessment data*

Data available from the condition assessment gathered using the Foundation Platform will be utilized to the extent feasible based on schedule, in the preparation for the 2025 plan.

*Incorporate Lessons learned from 2024 plan preparation.*

The Foundation platform will be configured to support preparation of the 2025 based in part on lessons learned from observing the preparation of the 2024 plan.

*Reconcile 2025 Plan*

To the extent needed, a comparison between the 2024 plan and the 2025 plan will be a one-time effort due to the 2024 plan and the 2025 plans being different in nature and format. (the 2025 plan will be the first prepared in the Foundation platform). Moving forward, year-to-year comparisons would be generated as reports from the Foundation platform.

## Activities

The Activities and Implementation of the Foundation Platform is separated into two main portions. Those related to the **Condition Assessment** and those related to **Planning** (creating the Plan). The following describes the activities related to each portion:

## Planning

### Pre-Planning

*Setup methodology and costing*

Intellis will review existing codes and categories, and establish the equivalent in Foundation (e.g., budget codes, project types, phase types, cost distribution rules).

*Management setup*

Intellis will set up User and Role administration for MPS users to access the Foundation portal.

*Software as a Service*

The Foundation software will be available.

*Existing plans and Pipeline*

Intellis will review current MPS plans and current project pipelines to inform the process of creating policies in the Foundation Platform, for use by future MPS plans.

### Planning

*Establish Policies*

Intellis will help establish the grouping, costing, scheduling, and priority policy types. A “project creation policy” enables users to create projects by executing the designated policy.

*Planning activities*

Intellis and MPS will review the result of the established policies. The review may require policy adjustments and overrides to achieve a recommended plan. This might involve multiple iterations and review with stakeholders.

#### *Reconciliation*

N/A for the 2024 plan. A comparison between the 2024 plan (created without Foundation) and the 2025 plan which is generated using Foundation.

### Reporting and Analysis

#### *Analysis and recommendation*

N/A for the 2024 plan. For the 2025 plan Intellis will support with analysis for findings and insights.

#### *Create and support Reports*

Intellis will configure MPS reports for reporting milestones (e.g., board meeting). This will begin around the preparation for the 2024 plan (even though those reports will not be used until the following year). This effort will continue culminating in a series of reports that will be used to support the 2025 plan.

#### *Management*

Intellis will facilitate meetings, collaborations, and managing the project schedule in conjunction with MPS and their resources.

### Integrations

Information from Integrations will likely be needed in preparation of the 2025 plan. Activities to prepare for those integration will likely begin during the preparation of the 2025 plan. Potential integrations include Finance, Project management (PM), Maintenance management (CMMS). The assumption is that for the 2025 plan only financial integration will be needed.

## Condition Assessment

### Pre-inspection

#### *Setup methodology and costing*

Intellis will provide necessary refinement to methodology and costing. The Foundation Platform will be delivered configured with an initial "methodology"

#### *Management setup (including inspector training)*

Intellis will provide the necessary support required to set up users for performing inspections and accessing information in the Foundation portal. Intellis will facilitate training users on the inspection software and condition assessment process.

#### *Software as a Service*

The Foundation software will be available.

### Inspection

MPS will be responsible for the work and deliverables that comprise this phase with support from Intellis.

#### *Update unit costs*

MPS will be responsible for updating unit costs with support from Intellis using the Foundation software.

#### *Inspection Labor*

MPS will be responsible for managing inspection and inspection support and management labor.

Intellis will provide support through the Intellis support desk facility.

## Reporting and Analysis

### *Analysis and recommendation*

N/A for the 2024 plan. For the 2025 plan Intellis will support with analysis for findings and insights.

### *Create and support Reports*

Intellis will configure MPS reports for reporting milestones (e.g., board meeting). This will begin around the preparation for the 2024 plan (even though those reports will not be used until the following year). This effort will continue culminating in a series of reports that will be used to support the 2025 plan.

### *Management*

Intellis will facilitate meetings, collaborations, and managing the project schedule in conjunction with MPS and their resources.

## Other

### *Thermography Integration*

Intellis will provide the necessary support required to integrate the Thermography of Roofs results performed by a 3rd party. The results include but are not limited to high-resolution Photometry and Thermography registered to geography. Photometry will be analyzed to indicate areas of issue on the roof and likely cause for moisture related issues. Issues will be integrated into the Conditions and Needs modules where they can be assigned unit costs and included in reporting. Intellis will provide a file format for MPS (or the 3rd party Thermography Provider) to provide the line item deficiencies (including, component affected, location, size, deficiency, action, quantity, and unit of Measure, Priority and urgency. This effort is limited to incorporating Thermography acquired in 2023.

### *Solar Panel planning*

## SERVICE LEVEL AGREEMENT

This Service Level Agreement ("**SLA**") is incorporated into and a part of the Foundation Subscription Software as a Service Agreement (the "**Agreement**"). Unless otherwise defined herein, all capitalized terms shall have the meaning ascribed to them in the Agreement. Any conflict between the terms of the Agreement and this SLA shall be resolved by giving precedence to this SLA.

### SERVICE COMMITMENT

Company will use commercially reasonable efforts to make the Services available 99.5% of the time and shall provide support coverage as further described in this SLA, excepting times of scheduled maintenance and/or emergency maintenance (as described herein).

### SUPPORT COVERAGE

Company shall provide access to Support Engineers via *email* and/or *support portal* and/or *phone.* Company business hours are 9AM EST – 5PM EST, Monday – Friday, excluding holidays. After hours support is provided but is limited to email and/or support portal.

The range of time that it will take to respond to and resolve Client tickets will depend on the severity of the underlying tickets that are submitted. Below is the description for each severity level. Client shall indicate urgency in its help ticket submitted through the helpdesk as set forth below.

- **Urgent** – A problem or issue impacting a significant group of Users or any mission critical issue affecting a single User. No workaround exists.

- **High** –Non-critical but significant issue affecting a single or multiple users; or an issue that is degrading the performance and reliability of supported services; however, the services are still operational. There is a workaround.

- **Medium** – Routine support requests that impact a single user or non-critical software or hardware error. There is a workaround.

- **Low** – A minor service issue or general inquiry. There is a workaround.

| PRIORITY | RESPOND WITHIN | RESOLVE WITHIN |
|---|---|---|
| Urgent | 1 Hour | 4 Hours |
| High | 4 Hours | 12 Hours |
| Medium | 8 Hours | 1 Day |
| Low | 1 Day | 3 Days |

**SUPPORT REQUESTS**

A Support request is a single, reproducible problem, issue, symptom, or question relating to the Foundation application that requires assistance to resolve. We will work with the customer contact (end user) to resolve the Support ticket. A Support request will ensure the consistency of intake, eliminate items from being lost or forgotten, and bring more clarity to the Client, allowing the Client to track and report through the helpdesk system.

**EXCLUSIONS**

Notwithstanding anything to the contrary, no failure to meet the service levels set forth herein shall be deemed to have occurred with respect to any unavailability, suspension or termination of the Services, or any other services performance issues, that (i) are caused by factors outside of Company's reasonable control, including, without limitation, any force majeure event, carrier related problems or issues, or Internet access or related problems beyond the demarcation point of Company or its hosting services provider (i.e., beyond the point in the network where Company maintains access and control over the Services); (ii) result from any actions or inactions of Client or any third party (other than Company's hosting services provider); (iii) result from applications, equipment, software or other technology and/or third party equipment, software or other technology (other than third party equipment within Company's direct control); or (iv) arise from Company's suspension and termination of Client's right to use the Services in accordance with the terms of the Agreement, (v) scheduled maintenance; or (vi) problems or issues related to alpha, beta or not otherwise generally available features or products of the Services (collectively, the "***SLA Exclusions***").

**SCHEDULED MAINTENANCE**

In order to ensure the highest levels of availability for Services, it will be necessary to schedule maintenance of the servers and Services ("**Scheduled Maintenance**"). In this case, Company will notify Client of all Scheduled Maintenance. If the Scheduled Maintenance takes longer than anticipated, an update email will be sent with a revised projection of the completion time. Company will notify Client by email or through the Services once the Scheduled Maintenance is complete that service has been resumed. Company will allow itself sufficient downtime for Scheduled Maintenance.

**EMERGENCY MAINTENANCE**

Downtime of the Services outside of the Scheduled Maintenance times may be necessary to complete the application of urgent patches or fixes, or to undertake other urgent maintenance activities ("**Emergency Maintenance**"). If Emergency Maintenance is required, Company will immediately contact Client by email

or through the Services and provide the expected start time of the Emergency Maintenance, its planned duration, and whether Company expects the Services to be unavailable during Emergency Maintenance.

Other than Client's right to terminate the Agreement for a persistent failure to maintain the service levels herein, this SLA sets forth Company's entire liability to Customer, and Customer's sole remedy, for failure or non-performance of the Services.

e. "*Education Records*"

i. What constitutes "education records." Education records means those records that are: (1) directly related to a student; and (2) maintained by the school district or by a party acting for the school district.

(B) made, maintained, or used only in connection with the provision of treatment to the student; and

(C) disclosed only to individuals providing the treatment; provided that the records can be personally reviewed by a physician or other appropriate professional of the student's choice. For the purpose of this definition, "treatment" does not include remedial educational activities or activities that are a part of the

program of instruction within the school district.

(4) Records created or received by the school district after an individual is no longer a student at the school district and that are not directly related to the individual's attendance as a student.

i. "*Parent*" means a parent of a student and includes a natural parent, a guardian, or an individual acting as a parent of the student in the absence of a parent or guardian. The school district may presume the parent has the authority to exercise the rights provided herein, unless it has been provided with evidence that there is a state law or court order governing such matters as marriage dissolution, separation or child custody, or a legally binding instrument which provides to the contrary.

j. "*Personally identifiable*" means that the data or information includes, but is not limited to: (a) a student's name; (b) the name of the student's parent or other family member; (c) the address of the student or student's family; (d) a personal identifier such as the student's social security number or student number or biometric record; (e) other indirect identifiers, such as the student's date of birth, place of birth, and mother's maiden name; (f) other information that, alone or in combination, is linked or linkable to a specific student that would allow a reasonable person in the school community, who does not have personal knowledge of the relevant circumstances, to identify the student with reasonable certainty; or (g) information requested by a person who the school district reasonably believes knows the identity of the student to whom the education record relates.

o. "*Summary data*" means statistical records and reports derived from data on individuals but in which individuals are not identified and from which neither their identities nor any other characteristic that could uniquely identify the individual is ascertainable.
p. All other terms and phrases shall be defined in accordance with applicable state and federal law or ordinary customary usage.

4. **GENERAL CLASSIFICATION**
   a. State law provides that all data collected, created, received, or maintained by a school district are public unless classified by state or federal law as not public or private or confidential. State law classifies all data on individuals maintained by a school district which relates to a student as private data on individuals. This data may not be disclosed to parties other than the parent or eligible student without consent, except pursuant to a valid court order, certain state statutes authorizing access, and the provisions of FERPA and the regulations promulgated thereunder.
5. **STATEMENT OF RIGHTS**
   a. *Rights of Parents and Eligible Students*
      Parents and eligible students have the following rights under this policy:
      i. The right to inspect and review the student's education records;

      iii. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that such consent is not required for disclosure pursuant to this policy, state or federal law, or the regulations promulgated thereunder;
      iv. The right to refuse release of names, addresses, and home telephone numbers of students in grades 11 and 12 to military recruiting officers and post-secondary educational institutions;

vii. The right to obtain a copy of this policy at the location set forth in Section 21 of this policy.

b. *Eligible Students*
All rights and protections given to parents under this policy transfer to the student when he or she reaches eighteen (18) years of age or enrolls in an institution of post-secondary education. The student then becomes an "eligible student." However, the parents of an eligible student who is also a "dependent student" are entitled to gain access to the education records of such student without first obtaining the consent of the student. In addition, parents of an eligible student may be given access to education records in connection with a health or safety emergency if the disclosure meets the conditions of any provision set forth in 34 C.F.R. § 99.31(a).

c. *Students with a Disability*
The school district shall also follow 34 C.F.R. §§ 300.610-300.617 with regard to the privacy, notice, access, record keeping and accuracy of information related to students with a disability.

6. **DISCLOSURE OF EDUCATION RECORDS**

a. *Consent Required for Disclosure*
i. The school district shall obtain a signed and dated written informed consent of the parent of a student or the eligible student before disclosing personally identifiable information from the education records of the student, except as provided herein.
ii. The written consent required by this subdivision must be signed and dated by the parent of the student or the eligible student giving the consent and shall include:
(1) a specification of the records to be disclosed;
(2) the purpose or purposes of the disclosure;
(3) the party or class of parties to whom the disclosure may be made;
(4) the consequences of giving informed consent; and
(5) if appropriate, a termination date for the consent.
iii. When a disclosure is made under this subdivision:
(1) if the parent or eligible student so requests, the school district shall provide him or her with a copy of the records disclosed; and
(2) if the parent of a student who is not an eligible student so requests, the school district shall provide the student with a copy of the records disclosed.
iv. A signed and dated written consent may include a record and signature in electronic form that:
(1) identifies and authenticates a particular person as the source

of the electronic consent; and

(2) indicates such person's approval of the information contained in the electronic consent.

v. If the responsible authority seeks an individual's informed consent to the release of private data to an insurer or the authorized representative of an insurer, informed consent shall not be deemed to have been given unless the statement is:

(1) in plain language;
(2) dated;
(3) specific in designating the particular persons or agencies the data subject is authorizing to disclose information about the data subject;
(4) specific as to the nature of the information the subject is authorizing to be disclosed;
(5) specific as to the persons or agencies to whom the subject is authorizing information to be disclosed;
(6) specific as to the purpose or purposes for which the information may be used by any of the parties named in Clause e. above, both at the time of the disclosure and at any time in the future; and
(7) specific as to its expiration date which should be within a reasonable time, not to exceed one year except in the case of authorizations given in connection with applications for: (i) life insurance or noncancellable or guaranteed renewable health insurance and identified as such, two years after the date of the policy, or (ii) medical assistance under Minnesota Statutes Chapter 256B or Minnesota Care under Minnesota Statute Chapter 256L, which shall be ongoing during all terms of eligibility, for individualized education program health-related services provided by a school district that are subject to third party reimbursement.

vi. *Eligible Student Consent*

Whenever a student has attained eighteen (18) years of age or is attending an institution of post-secondary education, the rights accorded to and the consent required of the parent of the student shall thereafter only be accorded to and required of the eligible student, except as provided in section 5 of this policy.

b. *Prior Consent for Disclosure Not Required*

The school district may disclose personally identifiable information from the education records of a student without the written consent of the parent of the student or the eligible student unless otherwise provided herein, if the disclosure is:

i. To other school officials, including teachers, within the school district whom the school district determines have a legitimate educational

interest in such records;

ii. To a contractor, consultant, volunteer, or other party to whom the school district has outsourced institutional services or functions provided that the outside party:
    (1) performs an institutional service or function for which the school district would otherwise use employees;
    (2) is under the direct control of the school district with respect to the use and maintenance of education records; and
    (3) will not disclose the information to any other party without the prior consent of the parent or eligible student and uses the information only for the purposes for which the disclosure was made.

iii. To officials of other schools, school districts, or post-secondary educational institutions in which the student seeks or intends to enroll, or is already enrolled, as long as the disclosure is for purposes related to the student's enrollment or transfer. The records shall include information about disciplinary action taken as a result of any incident in which the student possessed or used a dangerous weapon, and with proper annual notice (see Section 19), suspension and expulsion information pursuant to section 7917 of the federal Every Student Succeeds Act, 20 U.S.C. § 7917, and, if applicable, data regarding a student's history of violent behavior. The records also shall include a copy of any probable cause notice or any disposition or court order under Minnesota Statutes 260B.171, unless the data are required to be destroyed under Minnesota Statutes 120A.22, Subdivision 7(c) or section 121A.75. On request, the school district will provide the parent or eligible student with a copy of the education records that have been transferred and provide an opportunity for a hearing to challenge the content of those records in accordance with Section 15 of this policy;

iv. To authorized representatives of the Comptroller General of the United States, the Attorney General of the United States, the Secretary of the U.S. Department of Education, or the Commissioner of the State Department of Education or his or her representative, subject to the conditions relative to such disclosure provided under federal law;

v. In connection with financial aid for which a student has applied or has received, if the information is necessary for such purposes as to:
    (1) To state and local officials or authorities to whom such information is specifically allowed to be reported or disclosed pursuant to state statute adopted:
        (A) determine eligibility for the aid;
        (B) determine the amount of the aid;
        (C) determine conditions for the aid; or

(D) enforce the terms and conditions of the aid.

"Financial aid" for purposes of this provision means a payment of funds provided to an individual or a payment in kind of tangible or intangible property to the individual that is conditioned on the individual's attendance at an educational agency or institution;

vi. To state and local officials or authorities to whom such information is specifically allowed to be reported or disclosed pursuant to state statute adopted:
   (1) before November 19, 1974, if the allowed reporting or disclosure concerns the juvenile justice system and such system's ability to effectively serve the student whose records are released; or
   (2) after November 19, 1974, if the reporting or disclosure allowed by state statute concerns the juvenile justice system and the system's ability to effectively serve, prior to adjudication, the student whose records are released, provided the officials and authorities to whom the records are disclosed certify in writing to the school district that the data will not be disclosed to any other party, except as provided by state law, without the prior written consent of the parent of the student. At a minimum, the school district shall disclose the following information to the juvenile justice system under this paragraph: a student's full name, home address, telephone number, and date of birth; a student's school schedule, attendance record, and photographs, if any; and parents' names, home addresses, and telephone numbers;

vii. To organizations conducting studies for or on behalf of educational agencies or institutions for the purpose of developing, validating, or administering predictive tests, administering student aid programs, or improving instruction; provided that the studies are conducted in a manner which does not permit the personal identification of parents or students by individuals other than representatives of the organization who have a legitimate interest in the information, the information is destroyed when no longer needed for the purposes for which the study was conducted, and the school district enters into a written agreement with the organization that: (a) specifies the purpose, scope, and duration of the study or studies and the information to be disclosed; (b) requires the organization to use personally identifiable information from education records only to meet the purpose or purposes of the study as stated in the written agreement; (c) requires the organization to conduct the study in a manner that does not permit personal identification of parents and students by anyone other than

representatives of the organization with legitimate interests; and (d) requires the organization to destroy all personally identifiable information when information is no longer needed for the purposes for which the study was conducted and specifies the time period in which the information must be destroyed. For purposes of this provision, the term, "organizations," includes, but is not limited to, federal, state, and local agencies and independent organizations. In the event the Department of Education determines that a third party outside of the school district to whom information is disclosed violates this provision, the school district may not allow that third party access to personally identifiable information from education records for at least five (5) years;

viii. To accrediting organizations in order to carry out their accrediting functions;

ix. To parents of a student eighteen (18) years of age or older if the student is a dependent of the parents for income tax purposes;

x. To comply with a judicial order or lawfully issued subpoena, provided, however, that the school district makes a reasonable effort to notify the parent or eligible student of the order or subpoena in advance of compliance therewith so that the parent or eligible student may seek protective action, unless the disclosure is in compliance with a federal grand jury subpoena, or any other subpoena issued for law enforcement purposes, and the court or other issuing agency has ordered that the existence or the contents of the subpoena or the information furnished in response to the subpoena not be disclosed, or the disclosure is in compliance with an ex parte court order obtained by the United States Attorney General (or designee not lower than an Assistant Attorney General) concerning investigations or prosecutions of an offense listed in 18 U.S.C. § 2332b(g)(5)(B), an act of domestic or international terrorism as defined in 18 U.S.C. § 2331, or a parent is a party to a court proceeding involving child abuse and neglect or dependency matters, and the order is issued in the context of the proceeding. If the school district initiates legal action against a parent or student, it may disclose to the court, without a court order or subpoena, the education records of the student that are relevant for the school district to proceed with the legal action as a plaintiff. Also, if a parent or eligible student initiates a legal action against the school district, the school district may disclose to the court, without a court order or subpoena, the student's education records that are relevant for the school district to defend itself;

xi. To appropriate parties, including parents of an eligible student, in connection with an emergency if knowledge of the information is necessary to protect the health, including the mental health, or safety of the student or other individuals. The decision is to be based upon information available at the time the threat occurs that indicates that

there is an articulable and significant threat to the health or safety of a student or other individuals. In making a determination whether to disclose information under this section, the school district may take into account the totality of the circumstances pertaining to a threat and may disclose information from education records to any person whose knowledge of the information is necessary to protect the health or safety of the student or other students. A record of this disclosure must be maintained pursuant to Section 13.E. of this policy. In addition, an educational agency or institution may include in the education records of a student appropriate information concerning disciplinary action taken against the student for conduct that posed a significant risk to the safety or well-being of that student, other students, or other members of the school community. This information may be disclosed to teachers and school officials within the school district and/or teachers and school officials in other schools who have legitimate educational interests in the behavior of the student;

xii. To the juvenile justice system if information about the behavior of a student who poses a risk of harm is reasonably necessary to protect the health or safety of the student or other individuals;
xiii. Information the school district has designated as "directory information" pursuant to Section 7 of this policy;
xiv. To military recruiting officers and post-secondary educational institutions pursuant to Section 11 of this policy;
xv. To the parent of a student who is not an eligible student or to the student himself or herself;
xvi. To appropriate health authorities to the extent necessary to administer immunization programs and for bona fide epidemiologic investigations which the commissioner of health determines are necessary to prevent disease or disability to individuals in the public educational agency or institution in which the investigation is being conducted;
xvii. To volunteers who are determined to have a legitimate educational interest in the data and who are conducting activities and events sponsored by or endorsed by the educational agency or institution for students or former students;
xviii. To the juvenile justice system, on written request that certifies that the information will not be disclosed to any other person except as authorized by law without the written consent of the parent of the student:
    (1) the following information about a student must be disclosed: a student's full name, home address, telephone number, date of birth; a student's school schedule, daily attendance record, and photographs, if any; and any parents' names, home addresses, and telephone numbers;
    (2) the existence of the following information about a student, not

the actual data or other information contained in the student's education record, may be disclosed provided that a request for access must be submitted on the statutory form and it must contain an explanation of why access to the information is necessary to serve the student: (1) use of a controlled substance, alcohol, or tobacco; (2) assaultive or threatening conduct that could result in dismissal from school under the Pupil Fair Dismissal Act; (3) possession or use of weapons or look-alike weapons; (4) theft; or (5) vandalism or other damage to property. Prior to releasing this information, the principal or chief administrative officer of a school who receives such a request must, to the extent permitted by federal law, notify the student's parent or guardian by certified mail of the request to disclose information. If the student's parent or guardian notifies the school official of an objection to the disclosure within ten (10) days of receiving certified notice, the school official must not disclose the information and instead must inform the requesting member of the juvenile justice system of the objection. If no objection from the parent or guardian is received within fourteen (14) days, the school official must respond to the request for information.

The written requests of the juvenile justice system member(s), as well as a record of any release, must be maintained in the student's file.

xix. To the principal where the student attends and to any counselor directly supervising or reporting on the behavior or progress of the student if it is information from a disposition order received by a superintendent under Minnesota Statutes section 260B.171, Subdivision 3. The principal must notify the counselor immediately and must place the disposition order in the student's permanent education record. The principal also must notify immediately any teacher or administrator who directly supervises or reports on the behavior or progress of the student whom the principal believes needs the information to work with the student in an appropriate manner, to avoid being needlessly vulnerable, or to protect other persons from needless vulnerability. The principal may also notify other school district employees, substitutes, and volunteers who are in direct contact with the student if the principal determines that these individual need the information to work with the student in an appropriate manner, to avoid being needlessly vulnerable, or to protect other persons from needless vulnerability. Such notices from the principal must identify the student, outline the offense, and describe any conditions of probation about which the school must provide

information if this information is provided in the disposition order. Disposition order information received is private educational data received for the limited purpose of serving the educational needs of the student and protecting students and staff. The information may not be further disseminated by the counselor, teacher, administrator, staff member, substitute, or volunteer except as necessary to serve the student, to protect students and staff, or as otherwise required by law, and only to the student or the student's parent or guardian;

xx. To the principal where the student attends if it is information from a peace officer's record of children received by a superintendent under Minnesota Statutes section 260B.171, Subdivision 5. The principal must place the information in the student's education record. The principal also must notify immediately any teacher, counselor, or administrator directly supervising the student whom the principal believes needs the information to work with the student in an appropriate manner, to avoid being needlessly vulnerable, or to protect other persons from needless vulnerability. The principal may also notify other district employees, substitutes, and volunteers who are in direct contact with the student if the principal determines that these individuals need the information to work with the student in an appropriate manner, to avoid being needlessly vulnerable, or to protect other persons from needless vulnerability. Such notices from the principal must identify the student and describe the alleged offense if this information is provided in the peace officer's notice. Peace officer's record information received is private educational data received for the limited purpose of serving the educational needs of the student and protecting students and staff. The information must not be further disseminated by the counselor, teacher administrator, staff member, substitute, or volunteer except to communicate with the student or the student's parent or guardian as necessary to serve the student, to protect students and staff, or as otherwise required by law.

    The principal must delete the peace officer's record from the student's education record, destroy the data, and make reasonable efforts to notify any teacher, counselor, staff member, administrator, substitute, or volunteer who received information from the peace officer's record if the county attorney determines not to proceed with a petition or directs the student into a diversion or mediation program or if a juvenile court makes a decision on a petition and the county attorney or juvenile court notifies the superintendent of such action;

xxi. To the Secretary of Agriculture, or authorized representative from the Food and Nutrition Service or contractors acting on behalf of the Food and Nutrition Service, for the purposes of conducting program monitoring, evaluations, and performance measurements of state and

local educational and other agencies and institutions receiving funding or providing benefits of one or more programs authorized under the National School Lunch Act or the Child Nutrition Act of 1966 for which the results will be reported in an aggregate form that does not identify any individual, on the conditions that: (a) any data collected shall be protected in a manner that will not permit the personal identification of students and their parents by other than the authorized representatives of the Secretary; and (b) any personally identifiable data shall be destroyed when the data are no longer needed for program monitoring, evaluations, and performance measurements; or

To an agency caseworker or other representative of a State or local child welfare agency, or tribal organization (as defined in 25 U.S.C. § 5304), who has the right to access a student's case plan, as defined and determined by the State or tribal organization, when such agency or organization is legally responsible, in accordance with State or tribal law, for the care and protection of the student, provided that the education records, or the personally identifiable information contained in such records, of the student will not be disclosed by such agency or organization, except to an individual or entity engaged in addressing the student's education needs and authorized by such agency or organization to receive such disclosure and such disclosure is consistent with the State or tribal laws applicable to protecting the confidentiality of a student's education records.

xxiii. To a public library of a student's name, home address, telephone number, email address, or other personal contact information for the purpose of issuing a library card to the student; or

xxiv. To a federally recognized tribal nation about a tribally enrolled or descendant student to the extent necessary to support the educational attainment of the student.

c. *Nonpublic School Students*

The school district may disclose personally identifiable information from the education records of a nonpublic school student, other than a student who receives shared time educational services, without the written consent of the parent of the student or the eligible student unless otherwise provided herein, if the disclosure is:

i. Pursuant to a valid court order;

ii. Pursuant to a statute specifically authorizing access to the private data; or

iii. To appropriate health authorities to the extent necessary to administer immunization programs and for bona fide epidemiological investigations which the commissioner of health determines are necessary to prevent disease or disability to individuals in the public educational agency or institution in which the investigation is being conducted.

7. **RELEASE OF DIRECTORY INFORMATION**

a. *Educational Data*

i. Educational data designated as directory information is public data on individuals to the extent required under federal law. Directory information must be designated pursuant to the provisions of:

(1) Minnesota Statutes, section 13.32, subdivision 5; and

(2) United States Code, title 20, section 1232g, and Code of Federal Regulations, title 34, section 99.37, which were in effect on January 3, 2012.

ii. The school district may not designate a student's home address, telephone number, email address, or other personal contact information as directory information under this section.

iii. When requested, the school district must share personal contact information and directory information, whether public or private, with the Minnesota Department of Education, as required for federal reporting purposes.

b. *Former Students*

Unless a former student validly opted out of the release of directory information while the student was in attendance and has not rescinded the opt out request at any time, the school district may disclose directory information from the education records generated by it regarding the former student without meeting the requirements of Paragraph C. of this section. In addition, under an explicit exclusion from the definition of an "education record," the school district may release records that only contain information about an individual obtained after he or she is no longer a student at the school district and that are not directly related to the individual's attendance as a student (e.g., a student's activities as an alumnus of the school district).

c. *Present Students and Parents*

The school district may disclose directory information from the education records of a student and information regarding parents without prior written consent of the parent of the student or eligible student, except as provided herein.

i. When conducting the directory information designation and notice process required by federal law, the school district shall give parents and students notice of the right to refuse to let the district designate specified data about the student as directory information.

ii. The school district shall give annual notice by any means that are reasonably likely to inform the parents and eligible students of:

(1) the types of personally identifiable information regarding students and/or parents that the school district has designated as directory information;

(2) the parent's or eligible student's right to refuse to let the school district designate any or all of those types of information about the student and/or the parent as directory information; and

(3) the period of time in which a parent or eligible student has to notify the school district in writing that he or she does not want any or all of those types of information about the student and/or the parent designated as directory information.

iii. Allow a reasonable period of time after such notice has been given for a parent or eligible student to inform the school district in writing that any or all of the information so designated should not be disclosed without the parent's or eligible student's prior written consent, except as provided in Section 6 of this policy.

iv. A parent or eligible student may not opt out of the directory information disclosures to:

(1) prevent the school district from disclosing or requiring the student to disclose the student's name, ID, or school district e-mail address in a class in which the student is enrolled; or

(2) prevent the school district from requiring a student to wear, to display publicly, or to disclose a student ID card or badge that exhibits information that may be designated as directory information and that has been properly designated by the school district as directory information.

v. The school district shall not disclose or confirm directory information without meeting the written consent requirements contained in Section 6.A. of this policy if a student's social security number or other non-directory information is used alone or in combination with other data elements to identify or help identify the student or the student's records.

d. *Procedure for Obtaining Nondisclosure of Directory Information*

The parent's or eligible student's written notice shall be directed to the responsible authority and shall include the following:

i. Name of the student and/or parent, as appropriate;
ii. Home address;
iii. School presently attended by student;
iv. Parent's legal relationship to student, if applicable; and
v. Specific categories of directory information to be made not public without the parent's or eligible student's prior written consent, which shall only be applicable for that school year.

e. *Duration*

The designation of any information as directory information about a student or parents will remain in effect for the remainder of the school year unless the parent or eligible student provides the written notifications provided herein.

8. **DISCLOSURE OF PRIVATE RECORDS**

a. *Private Records*

For the purposes herein, education records are records which are classified as private data on individuals by state law and which are accessible only to the student who is the subject of the data and the student's parent if the student is not an eligible student. The school district may not disclose private records or

their contents except as summary data, or except as provided in Section 6 of this policy, without the prior written consent of the parent or the eligible student. The school district will use reasonable methods to identify and authenticate the identity of parents, students, school officials, and any other party to whom personally identifiable information from education records is disclosed.

b. *Private Records Not Accessible to Parent*
In certain cases, state law intends, and clearly provides, that certain information contained in the education records of the school district pertaining to a student be accessible to the student alone, and to the parent only under special circumstances, if at all.
    i. The responsible authority may deny access to private data by a parent when a minor student who is the subject of that data requests that the responsible authority deny such access. The minor student's request must be submitted in writing setting forth the reasons for denying access to the parent and must be signed by the minor. Upon receipt of such request the responsible authority shall determine if honoring the request to deny the parent access would be in the best interest of the minor data subject. In making this determination the responsible authority shall consider the following factors:
        (1) whether the minor is of sufficient age and maturity to be able to explain the reasons for and understand the consequences of the request to deny access;
        (2) whether the personal situation of the minor is such that denying parental access may protect the minor data subject from physical or emotional harm;
        (3) whether there are grounds for believing that the minor data subject's reasons for precluding parental access are reasonably accurate;
        (4) whether the data in question is of such a nature that disclosure of it to the parent may lead to physical or emotional harm to the minor data subject; and
        (5) whether the data concerns medical, dental or other health services provided pursuant to Minnesota Statutes sections 144.341-144.347, in which case the data may be released only if the failure to inform the parent would seriously jeopardize the health of the minor.

c. *Private Records Not Accessible to Student*
Students shall not be entitled to access to private data concerning financial records and statements of the student's parent or any information contained therein.

d. *Military-Connected Youth Identifier*
When a school district updates its enrollment forms in the ordinary course of business, the school district must include a box on the enrollment form to

allow students to self-identify as a military-connected youth. For purposes of this section, a "military-connected youth" means having an immediate family member, including a parent or sibling, who is currently in the armed forces either as a reservist or on active duty or has recently retired from the armed forces. Data collected under this provision is private data on individuals, but summary data may be published by the Department of Education.

9. **DISCLOSURE OF CONFIDENTIAL RECORDS**

a. *Confidential Records*

Confidential records are those records and data contained therein which are made not public by state or federal law, and which are inaccessible to the student and the student's parents or to an eligible student.

b. *Reports Under the Maltreatment of Minors Reporting Act*

Pursuant to Minnesota Statutes Chapter 260E, written copies of reports pertaining to a neglected and/or physically and/or sexually abused child shall be accessible only to the appropriate welfare and law enforcement agencies. In respect to other parties, such data shall be confidential and will not be made available to the parent or the subject individual by the school district. The subject individual, however, may obtain a copy of the report from either the local welfare agency, county sheriff, or the local police department subject to the provisions of Minnesota Statutes Chapter 260E.

Regardless of whether a written report is made under Minnesota Statutes Chapter 260E, as soon as practicable after a school receives information regarding an incident that may constitute maltreatment of a child in a school facility, the school shall inform the parent, legal guardian, or custodian of the child that an incident occurred that may constitute maltreatment of the child, when the incident occurred, and the nature of the conduct that may constitute maltreatment.

c. *Investigative Data*

Data collected by the school district as part of an active investigation undertaken for the purpose of the commencement or defense of pending civil legal action, or that are retained in anticipation of a pending civil legal action are classified as protected nonpublic data in the case of data not on individuals, and confidential data in the case of data on individuals.

i. The school district may make any data classified as protected non-public or confidential pursuant to this subdivision accessible to any person, agency, or the public if the school district determines that such access will aid the law enforcement process, promote public health or safety, or dispel widespread rumor or unrest.

ii. A complainant has access to a statement he or she provided to the school district.

iii. Parents or eligible students may have access to investigative data of which the student is the subject, but only to the extent the data is not inextricably intertwined with data about other school district students, school district employees, and/or attorney data as defined in Minnesota Statutes section 13.393.

iv. Once a civil investigation becomes inactive, civil investigative data becomes public unless the release of the data would jeopardize another pending civil legal action, except for those portions of such data that are classified as not public data under state or federal law. Any civil investigative data presented as evidence in court or made part of a court record shall be public. For purposes of this provision, a civil investigation becomes inactive upon the occurrence of any of the following events:

(1) a decision by the school district, or by the chief attorney for the school district, not to pursue the civil legal action. However, such investigation may subsequently become active if the school district or its attorney decides to renew the civil legal action;

(2) the expiration of the time to file a complaint under the statute of limitations or agreement applicable to the civil legal action; or

(3) the exhaustion or expiration of rights of appeal by either party to the civil legal action.

v. A "pending civil legal action" for purposes of this subdivision is defined as including, but not limited to, judicial, administrative, or arbitration proceedings.

d. *Chemical Abuse Records*

To the extent the school district maintains records of the identity, diagnosis, prognosis, or treatment of any student which are maintained in connection with the performance of any drug abuse prevention function conducted, regulated, or directly or indirectly assisted by any department or agency of the United States, such records are classified as confidential and shall be disclosed only for the purposes and under the circumstances expressly authorized by law.

10. **DISCLOSURE OF SCHOOL RECORDS PRIOR TO EXCLUSION OR EXPULSION HEARING**

At a reasonable time prior to any exclusion or expulsion hearing, the student and the student's parent or guardian or representative shall be given access to all school district records pertaining to the student, including any tests or reports upon which the action proposed by the school district may be based, pursuant to the Minnesota Pupil Fair Dismissal Act, Minnesota Statutes section 121A.40, et seq.

11. **DISCLOSURE OF DATA TO MILITARY RECRUITING OFFICERS AND POST-SECONDARY EDUCATIONAL INSTITUTIONS**

a. The school district will release the names, addresses, ~~electronic mail address (which shall be the electronic mail address provided by the school district if available, that may be released to military recruiting officers only),~~ and home telephone numbers of students in grades 11 and 12 to military recruiting officers and post-secondary educational institutions within sixty (60) days after the date of the request unless a parent or eligible student has refused in writing

to release this data pursuant to Paragraph C. below.

b. Data released to military recruiting officers under this provision:
    i. may be used only for the purpose of providing information to students about military service, state and federal veterans' education benefits, and other career and educational opportunities provided by the military;
    ii. cannot be further disseminated to any other person except personnel of the recruiting services of the armed forces; and
    iii. copying fees shall not be imposed.
c. A parent or eligible student has the right to refuse the release of the name, address, ~~electronic mail address (which shall be the electronic mail address provided by the school district, if available, that may be released to military recruiting officers only),~~ or home telephone number to military recruiting officers and post-secondary educational institutions. To refuse the release of the above information to military recruiting officers and post-secondary educational institutions, a parent or eligible student must notify the responsible authority in writing by October 1 each year. The written request must include the following information:
    i. Name of student and parent, as appropriate;
    ii. Home address;
    iii. Student's grade level;
    iv. School presently attended by student;
    v. Parent's legal relationship to student, if applicable;
    vi. Specific category or categories of information which are not to be released to military recruiting officers and post-secondary educational institutions; and
    vii. Specific category or categories of information which are not to be released to the public, including military recruiting officers and post-secondary educational institutions.
d. Annually, the school district will provide public notice by any means that are reasonably likely to inform the parents and eligible students of their rights to refuse to release the names, addresses, and home phone numbers of students in grades 11 and 12 without prior consent.
e. A parent or eligible student's refusal to release the above information to military recruiting officers and post-secondary educational institutions does not affect the school district's release of directory information to the rest of the public, which includes military recruiting officers and post-secondary educational institutions. In order to make any directory information about a student private, the procedures contained in Section 7 of this policy also must be followed. Accordingly, to the extent the school district has designated the name, address, home phone number, and grade level of students as directory information, absent a request from a parent or eligible student not to release such data, this information will be public data and accessible to members of the public, including military recruiting officers and post-secondary educational institutions.

12. **LIMITS ON REDISCLOSURE**

a. *Redisclosure*

Consistent with the requirements herein, the school district may only disclose personally identifiable information from the education records of a student on the condition that the party to whom the information is to be disclosed will not disclose the information to any other party without the prior written consent of the parent of the student or the eligible student, except that the officers, employees, and agents of any party receiving personally identifiable information under this section may use the information, but only for the purposes for which the disclosure was made.

b. *Redisclosure Not Prohibited*

i. Subdivision A. of this section does not prevent the school district from disclosing personally identifiable information under Section 6 of this policy with the understanding that the party receiving the information may make further disclosures of the information on behalf of the school district provided:

(1) The disclosures meet the requirements of Section 6 of this policy; and

(2) The school district has complied with the record-keeping requirements of Section 13 of this policy.

ii. Subdivision A. of this section does not apply to disclosures made pursuant to court orders or lawfully issued subpoenas or litigation, to disclosures of directory information, to disclosures to a parent or student or to parents of dependent students, or to disclosures concerning sex offenders and other individuals required to register under 42 U.S.C. § 14071. However, the school district must provide the notification required in Section 12.D. of this policy if a redisclosure is made based upon a court order or lawfully issued subpoena.

c. *Classification of Disclosed Data*

The information disclosed shall retain the same classification in the hands of the party receiving it as it had in the hands of the school district.

d. *Notification*

The school district shall inform the party to whom a disclosure is made of the requirements set forth in this section, except for disclosures made pursuant to court orders or lawfully issued subpoenas, disclosure of directory information under Section 7 of this policy, disclosures to a parent or student, or disclosures to parents of a dependent student. In the event that the Family Policy Compliance Office determines that a state or local educational authority, a federal agency headed by an official listed in 34 C.F.R. § 99.31(a)(3), or an authorized representative of a state or local educational authority or a federal agency headed by an official listed in § 99.31(a)(3), or a third party outside of the school district improperly rediscloses personally identifiable information from education records or fails to provide notification required under this section of this policy, the school district may not allow that third party access

to personally identifiable information from education records for at least five (5) years.

13. **RESPONSIBLE AUTHORITY; RECORD SECURITY; AND RECORD KEEPING**
    a. *Responsible Authority*
    The responsible authority shall be responsible for the maintenance and security of student records.
    b. *Record Security*
    The principal of each school subject to the supervision and control of the responsible authority shall be the records manager of the school, and shall have the duty of maintaining and securing the privacy and/or confidentiality of student records.
    c. *Plan for Securing Student Records*
    The building principal shall submit to the responsible authority a written plan for securing students records by September 1 of each school year. The written plan shall contain the following information:
        i. A description of records maintained;
        ii. Titles and addresses of person(s) responsible for the security of student records;
        iii. Location of student records, by category, in the buildings;
        iv. Means of securing student records; and
        v. Procedures for access and disclosure.
    d. *Review of Written Plan for Securing Student Records*
    The responsible authority shall review the plans submitted pursuant to Paragraph C. of this section for compliance with the law, this policy and the various administrative policies of the school district. The responsible authority shall then promulgate a chart incorporating the provisions of Paragraph C. which shall be attached to and become a part of this policy.
    e. *Record Keeping*
        i. The principal shall, for each request for and each disclosure of personally identifiable information from the education records of a student, maintain a record, with the education records of the student, that indicates:
            (1) the parties who have requested or received personally identifiable information from the education records of the student;
            (2) the legitimate interests these parties had in requesting or obtaining the information; and
            (3) the names of the state and local educational authorities and federal officials and agencies listed in Section 6.B.iv. of this policy that may make further disclosures of personally identifiable information from the student's education records without consent.
        ii. In the event the school district discloses personally identifiable

information from an education record of a student pursuant to Section 12.B. of this policy, the record of disclosure required under this section shall also include:

(1) the names of the additional parties to which the receiving party may disclose the information on behalf of the school district;
(2) the legitimate interests under Section 6 of this policy which each of the additional parties has in requesting or obtaining the information; and
(3) a copy of the record of further disclosures maintained by a state or local educational authority or federal official or agency listed in Section 6.B.iv. of this policy in accordance with 34 C.F.R. § 99.32 and to whom the school district disclosed information from an education record. The school district shall request a copy of the record of further disclosures from a state or local educational authority or federal official or agency to whom education records were disclosed upon a request from a parent or eligible student to review the record of requests for disclosure.

iii. Section 13.E.i. does not apply to requests by or disclosure to a parent of a student or an eligible student, disclosures pursuant to the written consent of a parent of a student or an eligible student, requests by or disclosures to other school officials under Section 6.B.i. of this policy, to requests for disclosures of directory information under Section 7 of this policy, or to a party seeking or receiving the records as directed by a federal grand jury or other law enforcement subpoena and the issuing court or agency has ordered that the existence or the contents of the subpoena or the information provided in response to the subpoena not be disclosed or as directed by an ex parte court order obtained by the United States Attorney General (or designee not lower than an Assistant Attorney General) concerning investigations or prosecutions of an offense listed in 18. U.S.C. § 2332b(g)(5)(B) or an act of domestic or international terrorism.

iv. The record of requests of disclosures may be inspected by:

(1) the parent of the student or the eligible student;
(2) the school official or his or her assistants who are responsible for the custody of the records; and
(3) the parties authorized by law to audit the record-keeping procedures of the school district.

v. The school district shall record the following information when it discloses personally identifiable information from education records under the health or safety emergency exception:

(1) the articulable and significant threat to the health or safety of a student or other individual that formed the basis for the

disclosure; and

(2) the parties to whom the school district disclosed the information.

vi. The record of requests and disclosures shall be maintained with the education records of the student as long as the school district maintains the student's education records.

14. **RIGHT TO INSPECT AND REVIEW EDUCATION RECORDS**

a. *Parent of a Student, an Eligible Student or the Parent of an Eligible Student Who is Also a Dependent Student*

The school district shall permit the parent of a student, an eligible student, or the parent of an eligible student who is also a dependent student who is or has been in attendance in the school district to inspect or review the education records of the student, except those records which are made confidential by state or federal law or as otherwise provided in Section 8 of this policy.

b. *Response to Request for Access*

The school district shall respond to any request pursuant to Subdivision A. of this section immediately, if possible, or within ten (10) days of the date of the request, excluding Saturdays, Sundays, and legal holidays.

c. *Right to Inspect and Review*

The right to inspect and review education records under Subdivision A. of this section includes:

i. The right to a response from the school district to reasonable requests for explanations and interpretations of records; and

ii. If circumstances effectively prevent the parent or eligible student from exercising the right to inspect and review the education records, the school district shall provide the parent or eligible student with a copy of the records requested or make other arrangements for the parent or eligible student to inspect and review the requested records.

iii. Nothing in this policy shall be construed as limiting the frequency of inspection of the education records of a student with a disability by the student's parent or guardian or by the student upon the student reaching the age of majority.

d. *Form of Request*

Parents or eligible students shall submit to the school district a written request to inspect education records which identify as precisely as possible the record or records he or she wishes to inspect.

e. *Collection of Student Records*

If a student's education records are maintained in more than one location, the responsible authority may collect copies of the records or the records themselves from the various locations so they may be inspected at one site. However, if the parent or eligible student wishes to inspect these records where they are maintained, the school district shall attempt to accommodate those wishes. The parent or eligible student shall be notified of the time and place where the records may be inspected.

f. *Records Containing Information on More Than One Student*
If the education records of a student contain information on more than one student, the parent or eligible student may inspect and review or be informed of only the specific information which pertains to that student.

g. *Authority to Inspect or Review*
The school district may presume that either parent of the student has authority to inspect or review the education records of a student unless the school district has been provided with evidence that there is a legally binding instrument or a state law or court order governing such matters as marriage dissolution, separation, or custody which provides to the contrary.

h. *Fees for Copies of Records*
    i. The school district shall charge a reasonable fee for providing photocopies or printed copies of records unless printing a copy is the only method to provide for the inspection of data. In determining the amount of the reasonable fee, the school district shall consider the following:
        (1) the cost of materials, including paper, used to provide the copies;
        (2) the cost of the labor required to prepare the copies;
        (3) any schedule of standard copying charges established by the school district in its normal course of operations;
        (4) any special costs necessary to produce such copies from machine based record-keeping systems, including but not limited to computers and microfilm systems; and
        (5) mailing costs.
    ii. If 100 or fewer pages of black and white, letter or legal size paper copies are requested, actual costs shall not be used, and, instead, the charge shall be no more than 25 cents for each page copied.
    iii. The cost of providing copies shall be borne by the parent or eligible student.
    iv. The responsible authority, however, may not impose a fee for a copy of an education record made for a parent or eligible student if doing so would effectively prevent or, in the case of a student with a disability, impair the parent or eligible student from exercising their right to inspect or review the student's education records.

15. **REQUEST TO AMEND RECORDS; PROCEDURES TO CHALLENGE DATA**

a. *Request to Amend Education Records*
The parent of a student or an eligible student who believes that information contained in the education records of the student is inaccurate, misleading, or violates the privacy rights of the student may request that the school district amend those records.
    i. The request shall be in writing, shall identify the item the requestor believes to be inaccurate, misleading, or in violation of the privacy or

other rights of the student, shall state the reason for this belief, and shall specify the correction the requestor wishes the school district to make. The request shall be signed and dated by the requestor.

ii. The school district shall decide whether to amend the education records of the student in accordance with the request within thirty (30) days after receiving the request.

iii. If the school district decides to refuse to amend the education records of the student in accordance with the request, it shall inform the parent of the student or the eligible student of the refusal and advise the parent or eligible student of the right to a hearing under Subdivision B. of this section.

b. *Right to a Hearing*

If the school district refuses to amend the education records of a student, the school district, on request, shall provide an opportunity for a hearing in order to challenge the content of the student's education records to ensure that information in the education records of the student is not inaccurate, misleading, or otherwise in violation of the privacy or other rights of the student. A hearing shall be conducted in accordance with Subdivision C. of this section.

i. If, as a result of the hearing, the school district decides that the information is inaccurate, misleading, or otherwise in violation of the privacy or other rights of the student, it shall amend the education records of the student accordingly and so inform the parent of the student or the eligible student in writing.

ii. If, as a result of the hearing, the school district decides that the information is not inaccurate, misleading, or otherwise in violation of the privacy or other rights of the student, it shall inform the parent or eligible student of the right to place a statement in the record commenting on the contested information in the record or stating why he or she disagrees with the decision of the school district, or both.

iii. Any statement placed in the education records of the student under Subdivision B. of this section shall:

(1) be maintained by the school district as part of the education records of the student so long as the record or contested portion thereof is maintained by the school district; and

(2) if the education records of the student or the contested portion thereof is disclosed by the school district to any party, the explanation shall also be disclosed to that party.

c. *Conduct of Hearing*

i. The hearing shall be held within a reasonable period of time after the school district has received the request, and the parent of the student or the eligible student shall be given notice of the date, place, and time reasonably in advance of the hearing.

ii. The hearing may be conducted by any individual, including an

official of the school district who does not have a direct interest in the outcome of the hearing. The school board attorney shall be in attendance to present the school board's position and advise the designated hearing officer on legal and evidentiary matters.

iii. The parent of the student or eligible student shall be afforded a full and fair opportunity for hearing to present evidence relative to the issues raised under Subdivisions A. and B. of this section and may be assisted or represented by individuals of his or her choice at his or her own expense, including an attorney.

iv. The school district shall make a decision in writing within a reasonable period of time after the conclusion of the hearing. The decision shall be based solely on evidence presented at the hearing and shall include a summary of evidence and reasons for the decision.

d. *Appeal*

The final decision of the designated hearing officer may be appealed in accordance with the applicable provisions of Minnesota Statutes Chapter 14 relating to contested cases.

16. **PROBLEMS ACCESSING DATA**

a. The data practices compliance official is the designated employee to whom persons may direct questions or concerns regarding problems in obtaining access to data or other data practices problems.

b. Data practices compliance official means the individual designated by the responsible authority.

c. Any request by an individual with a disability for reasonable modifications of the school district's policies or procedures for purposes of accessing records shall be made to the data practices compliance official.

17. **COMPLAINTS FOR NONCOMPLIANCE WITH FERPA**

a. *Where to File Complaints*

Complaints regarding alleged violations of rights accorded parents and eligible students by FERPA, and the rules promulgated thereunder, shall be submitted in writing to the, U.S. Department of Education, Student Privacy Office, 400 Maryland Avenue S.W., Washington, D.C. 20202.

b. *Content of Complaint*

A complaint filed pursuant to this section must contain specific allegations of fact giving reasonable cause to believe that a violation of FERPA and the rules promulgated thereunder has occurred.

18. **WAIVER**

A parent or eligible student may waive any of his or her rights provided herein pursuant to FERPA. A waiver shall not be valid unless in writing and signed by the parent or eligible student. The school district may not require such a waiver.

19. **ANNUAL NOTIFICATION OF RIGHTS**

a. *Contents of Notice*

The school district shall give parents of students currently in attendance and eligible students currently in attendance annual notice by such means as are

reasonably likely to inform the parents and eligible students of the following:

i. That the parent or eligible student has a right to inspect and review the student's education records and the procedure for inspecting and reviewing education records;
ii. That the parent or eligible student has a right to seek amendment of the student's education records to ensure that those records are not inaccurate, misleading, or otherwise in violation of the student's privacy or other rights and the procedure for requesting amendment of records;
iii. That the parent or eligible student has a right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that federal and state law and the regulations promulgated thereunder authorize disclosure without consent;
iv. That the parent or eligible student has a right to file a complaint with the U.S. Department of Education regarding an alleged failure by the school district to comply with the requirements of FERPA and the rules promulgated thereunder;
v. The criteria for determining who constitutes a school official and what constitutes a legitimate educational interest for purposes of disclosing education records to other school officials whom the school district has determined to have legitimate educational interests; and
vi. That the school district forwards education records on request to a school in which a student seeks or intends to enroll or is already enrolled as long as the disclosure is for purposes related to the student's enrollment or transfer and that such records may include suspension and expulsion records pursuant to the federal Every Student Succeeds Act and, if applicable, a student's history of violent behavior.

b. *Notification to Parents of Students Having a Primary Home Language Other Than English*
The school district shall provide for the need to effectively notify parents of students identified as having a primary or home language other than English.

c. *Notification to Parents or Eligible Students Who are Disabled*
The school district shall provide for the need to effectively notify parents or eligible students identified as disabled.

20. **DESTRUCTION AND RETENTION OF RECORDS**
Destruction and retention of records by the school district shall be controlled by state and federal law.

21. **COPIES OF POLICY**
Copies of this policy may be obtained by parents and eligible students at the superintendent's office.

Resolution No. 2024-0018
March 12, 2024

**Resolution amending the 2024-2025 school calendar**

**WHEREAS**, General Election Day in 2024 will be held on Tuesday, November 5; and
