Los Angeles County Children and Families First Proposition 10 Commission

SUBJECT:	Policy Number:
Records Retention and Destruction Policy	E-1002
	Effective Date: 11/12/15
	Supersedes: 01/12/12, 11/06/01
Initiating Authority: Executive	Page 1 Of 5

I. PURPOSE

This policy provides guidance for the orderly retention of records in compliance with state law, and the purging of records that do not have to be retained. To reduce costs associated with the storage and retention of obsolete records, this policy allows First 5 LA to reduce records inventories that are obsolete and no longer have a public use.

II. APPLICATION

This policy applies to all First 5 LA employees and officials.

III. POLICY

First 5 LA chooses to comply with the provisions of Government Code Sections 34090-34090.7, inclusive, pertaining to the retention and destruction of local government records, to facilitate the proper retention and destruction of agency records. This policy provides guidelines and procedures for the retention of active records, destruction of obsolete records, and purging of documents that do not have to be retained.

All First 5 LA records shall be retained in full compliance with this policy and applicable law. Destruction of First 5 LA records, and purging of non-records, shall be permitted only in compliance with the requirements of Government Code Sections 34090-34090.7 and this policy.

DEFINITIONS
The terms used in this policy shall have the following meanings:

"First 5 LA record": A writing (as defined below) regarding the conduct of First 5 LA business, which is in the custody of a First 5 LA employee or officer, and is kept either (1) because a law requires it to be kept or (2) because it is necessary or convenient to the discharge of the employee's or officer's duties and was made or retained for the purpose of preserving its informational content for future reference. If no law requires a writing to be kept, then the custodian shall consider the following in determining whether the writing is a First 5 LA record that must be retained: the writing's informational content; the purpose for which it was prepared or retained; and the manner of its use.

"Non-record": A writing that does not constitute a First 5 LA Record, including: (1) magazines or publications not produced by First 5 LA; (2) library or museum material intended solely for reference or exhibition; (3) transitory writings, including working papers, appointment logs, notes, calculations or preliminary internal drafts, or internal correspondence (including intra-agency memoranda), that are not retained by First 5 LA in the ordinary course of business even if they contain information relating to the conduct of the First 5 LA's business; (4) unofficial duplicate of documents kept only for convenience or reference; and (5) documents that do not contain information relating to the conduct of First 5 LA's business.

"Writing": Any handwriting, typewriting, printing, photostating, photographing, photocopying, transmitting by electronic mail (e-mail) or facsimile, and every other means of recording upon any tangible thing any form of communication or representation, including letters, words, pictures, sounds, or symbols, or combinations thereof, and any record thereby created, regardless of the manner in which the record has been stored.

IV. PROCEDURES

A. RECORDS RETENTION

A First 5 LA record series identifies the type of record to be retained. The content of each record series has been evaluated based upon its administrative, operational, fiscal, contractual, legal, and historical value to determine an appropriate retention period. This evaluation has resulted in the attached Records Retention Schedule (Attachment A), which is included as a component of this policy.

For each type of record the schedule identifies the following:

- **Record Series: identifies the type of First 5 LA record to be retained.**
- **Description of Records: describes the record by content and may include examples of records that are covered by the Record Series.**
- **Retention Period: establishes the period of time the document must be retained.**
- **Legal Authority: identifies relevant laws used in determining the retention period.**

The retention period is a threshold guide to assist staff in determining when a record series becomes obsolete. Obsolete records are eligible for inclusion in a destruction resolution in accordance with Section IV.E of this policy, unless longer retention is required by a legal hold (see Section IV.C) or a contractual obligation, or it is determined in accordance with this policy that a particular record within a records series should be retained longer.

a. Contractual obligations may impose longer retention periods

First 5 LA has contracted with various grantors to receive funding in addition to its Proposition 10 funding. Those various grant agreements are referred to in the Records Retention Schedule as "funding source agreements" to distinguish them from grant agreements in which First 5 LA is the grantor.

As a condition of receiving monies through funding source agreements, First 5 LA has agreed to retain certain records specified in the grant agreements for a set length of time. First 5 LA records specified in each funding source agreement must be retained for the period of time set forth in the funding source agreement, even if it

is a longer retention period than the retention stated on the Records Retention Schedule.

b. Electronic Document Management System
First 5 LA uses an Electronic Document Management System to store certain electronic records. All records stored in the Electronic Document Management System are subject to this Records Retention and Destruction Policy. Additionally, First 5 LA has adopted an administrative policy for converting and storing paper records in the Electronic Document Management System in compliance with California state law.

B. NO DESTRUCTION OF FIRST 5 LA RECORDS WITHOUT BOARD APPROVAL

The Records Retention Schedule sets the minimum retention period before a First 5 LA record becomes obsolete. It does not authorize destruction of obsolete records. To destroy those records, additional Board action is required.

First 5 LA records may not be destroyed until approved for destruction in accordance with Section IV.E of this policy. First 5 LA records include writings listed on the Records Retention Schedule, as well as writings that meet the definition of a First 5 LA record even if not listed on the Records Retention Schedule.

For those First 5 LA records that are not listed on the Records Retention Schedule, staff shall provide the agency's legal counsel with a description of the writings, their administrative, operational, contractual, fiscal and historical value, and why staff believes they are obsolete and should be destroyed. Agency legal counsel will review and provide advice regarding any legal requirements for the retention of the writings.

C. LEGAL HOLD

A Legal Hold places a freeze on any destruction authorization for a particular record or type of record. A Legal Hold refers to the duty of First 5 LA to preserve and not destroy any records potentially relevant to any of the following actions which First 5 LA may be involved in: a reasonably anticipated claim or litigation; an ongoing claim or litigation; a pending employee grievance; a pending regulatory or governmental investigation; a pending subpoena; a pending Public Records Act request; a pending audit or similar legal matter. Any records subject to a legal hold must be preserved in all forms in which the record exists, including both paper and electronic formats.

Any part of this policy that permits purging or destruction of records is superseded when a legal hold is placed on the records, and such records may not be destroyed.

Destruction in accordance with this policy may resume after notice is provided by the attorney responsible for the matter that the legal hold has been lifted and is no longer in effect.

D. PURGE OF NON-RECORDS

Non-records need not be retained and should be purged pursuant to this policy when no longer needed, provided a legal hold does not prohibit their destruction.

Duplicate copies of records are non-records. Pursuant to Government Code Section 34090.7, duplicate copies of records less than two (2) years old may be destroyed if the duplicate copies are no longer required, unless the duplicate copies are subject to a legal hold (see section IV.C above).

E. DESTRUCTION OF FIRST 5 LA RECORDS

Prior to destroying any records, the following steps shall be completed.

Step 1.: Staff shall consider the following factors for records that have reached the expiration of their retention period:

- Is the record subject to a legal hold (see Section IV.C above)?
- Does the record have a specific administrative or fiscal function that justifies longer retention? A department may retain a record past its minimum retention period for operational purposes where it can demonstrate the record meets an extraordinary administrative or fiscal need.
- Does the record have a specific historical/archival value that justifies longer retention? Records with archival value are to be preserved because they contain information of continuing and enduring value to First 5 LA, provide valuable research data, or document the history of First 5 LA and its departments.

If the answer to any of the questions is yes, the record will not be proposed for destruction.

Step 2: A list will be made of all records to be destroyed and submitted to the Chief Operating Officer (COO) or designee or applicable Department head for written approval. The list of records shall not include any First 5 LA records subject to a legal hold, and the COO or designee or Department Head shall sign a destruction form so attesting.

Step 3: This list, and the signed destruction form, will be presented to First 5 LA legal counsel who will be asked to review and approve the destruction of the records identified.

Step 4: Once the written approval of legal counsel has been obtained, a resolution will be brought before the Board at an open meeting requesting approval of the request to destroy those records.

Step 5: The Board shall authorize records destruction by resolution.

The COO or designee will coordinate with any department requiring destruction of records to ensure protocol is followed and requisite review and approvals are obtained from Legal Counsel and the Board.

In the event a department desires to retain a record series beyond its retention period, the appropriate staff person shall complete a form stating the Step 1 basis for retaining the records for a longer period than set in the Records Retention Schedule.

<u>Exception: First 5 LA Records Pre-Approved for Destruction</u>
In the event the Records Retention Schedule expressly states that a First 5 LA record may be destroyed without further Board approval, such record is not subject to the destruction resolution requirement above and may be destroyed without further approval.

F. DESTRUCTION

The secure destruction of any record shall be by burning, shredding, or other mechanism which shall render its content forever unreconstructable.

G. TRAINING

Staff and officials will be trained annually on what First 5 LA records to keep, and what non-records may be purged.

V. RESPONSIBILITIES

The Chief Operating Officer or designee will monitor the procedures for this policy and coordinate with Directors as required. Each department will have a single point of contact, responsible for records applicable to the specific department. Each Department's point on contact will forward all award documentation and non-funded applications, review tools and declination letters to Contract Compliance. The Contract Compliance Department will enter the information into the official Electronic Document Management System folder.

VI. REFERENCES/LEGAL AUTHORITY

California state law makes it a crime to destroy a record of a public agency without authorization. State law authorizes First 5 LA to dispose of personal property (Health and Safety Code Section 130140.1(b)(2)(C)), which includes First 5 LA Records.

VII. APPROVALS

John Wagner, Chief Operating Officer, Initiating Authority — Date 11/12/15

John Wagner, Chief Operating Officer — Date 11/12/15

Kim Belshé, Executive Director — Date 11/12/15

Approved by Board of Commissioners November 12, 2015

Los Angeles County Children and Families First Proposition 10 Commission

SUBJECT:	Policy Number: E-1003
Electronic Storage of Official Records	Effective Date: 11/8/18
	Supersedes: 11/12/15
Initiating Authority: Executive	Page 1 Of 8

I. PURPOSE

First 5 LA uses an Electronic Document Management System (EDMS) to electronically store official records of First 5 LA. Defined in the "Records Retention and Destruction" policy, these official records may have originally existed as either a paper record or an electronic record.

The purpose of this policy is to ensure that First 5 LA is in compliance with regulations developed by the Secretary of State (SOS) regarding recording, storing, and reproducing permanent and nonpermanent documents or records electronically in a trusted system as set forth in California Government Code Sections 12168.7 and 34090.5, so that every reproduction of a record from the EDMS will be deemed to be a copy of an original record. This policy sets forth the business practices that will be implemented to ensure that the process for converting and storing paper records in the EDMS complies with California state law.

An additional purpose of this policy is to permit First 5 LA, pursuant to California Government Code Section 34090.5, to destroy original paper records, documents, instruments, books, and papers ("paper records") once those paper records have been stored into the EDMS in compliance with the procedures set forth in this policy. **Documents destroyed pursuant to this policy described below are, by definition, copies of documents appropriately transferred into the EDMS. For destruction of other sorts of documents not transferred into the EDMS, please see the "Records Retention" policy.**

II. APPLICATION

This policy applies to the storage of all electronic records by First 5 LA employees and officials.

III. POLICY

RECORDS RETENTION POLICY COMPLIANCE

A. The Electronic Document Management System (EDMS) shall comply with the Records Retention and Destruction Policy for First 5 LA Records as approved by First 5 LA Board of Commissioners.

Records stored in the EDMS that have reached their destruction date in accordance with First 5 LA's retention policy will be archived and flagged for destruction by the system. These documents will then be deleted from the archives by the Information Technology

EDMS (IT EDMS) administrator after the Executive Vice President (EVP) or designee obtains the necessary approval from the Commission and legal counsel, and notifies the administrator. Only the IT EDMS administrator and the Records Manager have security access to delete records from the system.

B. Record Holds: When notified by a First 5 LA attorney and/or the EVP that a "records hold" or "legal hold" is in place, or when First 5 LA staff reasonably anticipates that a claim or litigation may ensue, the system administrator(s) shall tag the potentially relevant records in the EDMS, using a unique tag, so that these records are retained beyond their destruction date and not destroyed.

DEFINITIONS
The terms used in this policy shall have the following meanings:

"AIIM" the Association for Information and Image Management.

"AIIM Guidelines" the recommended practice report produced by AIIM and known as "AIIM ARP1-2009 Analysis, Selection, and Implementation of Electronic Document Management Systems (EDMS)," approved June 5, 2009.

"DPI" and "PPI" dots per inch and pixels per inch, respectively. The terms may be used interchangeably.

"Electronically originated records" any record created without first having originated in hard copy format. It includes all documents or records generated through electronic submissions.

"Lossless compression method" a compression method by which data are compressed by efficient coding of the information in the image and where the reconstructed image contains the same amount of information as the original data.

"OCR" or "Optical Character Recognition" the mechanical or electronic translation of scanned images of handwritten, typewritten or printed text into machine-encoded text by means of an optical scanner and specialized software.

"PDF" or "Portable Document Format" is an open standard for document exchange. This file format is used to represent documents in a manner independent of application software, hardware, and operating systems. Each PDF file encapsulates a complete description of a fixed-layout flat document, including the text, fonts, graphics, and other information needed to display it.

"PDF/A" or "Portable Document Format/Archival" is an electronic file format whereby documents are self-contained allowing them to be reproduced with all the document coding embedded within the file. It is a file format for the long-term archiving of electronic documents. It is based on the PDF Reference Version 1.4 from Adobe Systems Inc. (implemented in Adobe Acrobat 5 and latest versions).

"RAID Data Storage" (**redundant array of independent disks**) is a data storage virtualization technology that combines multiple disk drive components into a logical unit for the purposes of data redundancy or performance improvement. Data is distributed across the drives in one of several ways, referred to as RAID levels, depending on the specific level of redundancy and performance required. The different schemes or architectures are named by the word RAID

followed by a number (e.g. RAID 0, RAID 1). Each scheme provides a different balance between the key goals: reliability, availability, performance, and capacity. RAID levels greater than RAID 0 provide protection against unrecoverable (sector) read errors, as well as whole disk failure. First 5 LA storage uses RAID 5.

"Records hold" or "legal hold" refers to the duty to preserve and not delete any records, electronic or otherwise, that are potentially relevant to any of the following in which First 5 LA may be involved: a reasonably anticipated claim or litigation, an ongoing claim or litigation, a pending employee grievance, a pending regulatory or governmental investigation, a pending subpoena, a pending Public Records Act (PRA) request, a pending audit, or other similar legal matter.

"Trusted system" is defined in California Government Code § 12168.7 and means "a combination of techniques, policies, and procedures for which there is no plausible scenario in which a document retrieved from or reproduced by the system could differ substantially from the document that is originally stored."

IV. PROCEDURES

PROCEDURE FOR CONVERTING AND STORING PAPER RECORDS IN THE EDMS

A. In consultation with legal counsel and the EVP or designee, the IT EDMS Administrator is the First 5 LA official responsible for oversight of the EDMS. The EVP or designee shall provide assistance and guidance to First 5 LA departments. Division Vice Presidents (VP) are responsible for ensuring the intent of this administrative policy is carried out. The Information Technology Department is responsible for ensuring the EDMS serves as a trusted system for storage and reproduction of First 5 LA records that originated in paper format.

B. Identifying Paper Records to be converted and stored
   1. All records governed by the Records Retention and Destruction policy may be converted and stored in the EDMS. Each Division VP shall determine which records for their department will be stored in the EDMS.

   2. The EVP (or designee) shall work with each First 5 LA department to prioritize their records for conversion and storage in the EDMS.

   3. Unless a draft is being retained as a First 5 LA record, preliminary drafts should not be stored into the EDMS.

   4. Each First 5 LA department is responsible for converting and storing that department's records into the EDMS.

C. Scanning of Paper Original Records
   1. Original paper records governed by this policy are required to be scanned, using First 5 LA's scanning stations. The resulting electronic record in PDF format is then tagged according to the retention period defined in the Records Retention and Destruction Policy and stored in EDMS. In the event the original record is in color, the original paper document may not be destroyed unless it is scanned in color.

2. The scanning technician (staff or vendor) shall check the scans for legibility (readability), completeness (page counts) and confirm document pages were scanned in the proper sequence, and re-scan poor quality images and missing pages, and correct page sequencing if necessary.

3. Scanned images shall be a true and accurate copy. First 5 LA EDMS ensures that all scanned documents are reproducible in their original form matching both size and color.

4. Notes and annotations deemed significant by the responsible department and/or that must be retained pursuant to federal law, state law, or First 5 LA's current Records Retention and Destruction Policy, shall be scanned and managed as a part of the electronic record.
    a. Loose notes to be included in the scanned document will be placed in order at the back of the document behind a slip sheet before scanning.
    b. Any page containing sticky or otherwise attached note(s) will be copied with the notes in place. Before scanning, a photocopy of the page with the note(s) in place will be made and placed in page order at the back of the document behind a slip sheet, and the notes removed from the original document. In this way, First 5 LA will retain both a clean copy of the document, and a copy of the page with note(s) in place.

5. Staff may employ a digitized record enhancement technique which is commonly used in scanning software, including but not limited to deskew, despeckle, crop, and rotate; provided, however, that staff shall not use an enhancement technique if it alters the content that exists in an original record.

D. Indexing
    1. Each document will be tagged in the EDMS with the minimum information as stated below. The relevant tagging data is used by the EDMS search capability to facilitate retrieval. First 5 LA's EDMS also has content search capability. The minimum tagging information includes the record's name, date, and retention period. The department responsible for the record will input the tagging information required for that record.

E. Optical Character Recognition
    1. Optical Character Recognition (OCR) should be performed on paper documents that are not legible after scanning.

F. Quality Control and Assurance
    1. Scans of records will be verified as accurate and complete by appropriate staff before finalizing their placement in the EDMS. Assigned staff shall review and verify each image of each page of the record is a true and accurate copy of the original record that can be reproduced from the electronic record with full legibility, and the indexing is accurate.

    2. Poor quality images shall be rescanned. If an accurate and fully legible electronic record cannot be made from the original paper record, then the electronic record may be imported into the EDMS, but the original paper record shall be retained and appropriately filed to preserve it. The electronic record shall be appropriately noted in the EDMS to indicate the file location of the paper

original.

G. Paper Record Destruction
   1. All scanned documents shall be retained until the digitized image and indexing is verified as accurate and complete. (See Quality Control and Assurance.)

   2. Once the digitized image and indexing are verified as accurate and complete, and the document can be reproduced with full legibility, the paper record may be destroyed with the consent of the Division VP and the EVP or designee, which consent shall be in writing; provided, however:
      a. No paper record designated as a vital historical record shall be destroyed. The EVP, in consultation with First 5 LA Attorney's office, shall identify those classes of records that are vital historical records. Vital historical records, at a minimum, shall include:
         1) Minutes of the meeting of any legislative body of First 5 LA
         2) Resolutions of any legislative body of First 5 LA
         3) Records affecting the title to real property or liens, including any record recorded with the L.A. County Recorder's office
         4) Employee personnel files and other related Human Resources Department records.

      b. No page of a paper record scanned and stored in the EDMS shall be destroyed if any page cannot be reproduced with full legibility. Every unreproducible page shall be permanently preserved in a manner that will afford easy reference (see above, "Quality Control and Assurance").

PROCEDURE FOR STORING ELECTRONICALLY ORIGINATED RECORDS IN EDMS

A. First 5 LA electronic records that are governed by the Records Retention and Destruction Policy must be saved as PDF and then stored in the EDMS.
   1. Conversion should be performed with a minimum 300 DPI and adjusted higher on an individual record basis to provide accurate and complete reproduction. For image files in other formats, such as JPEG, BMP, or GIF, the resolution should be adjusted to closely match the DPI of the original image file.
   2. For maps, design plans, or other architectural drawings will be accepted from a contractor, consultant or vendor with the intent of storing the record in the EDMS, such submissions shall be of the highest possible resolution and quality in Adobe Acrobat PDF format, with a minimum 400 DPI.

B. Unless a draft is being retained as a First 5 LA record, preliminary drafts should not be stored into the EDMS.

C. Each First 5 LA department is responsible for converting, storing and indexing that department's electronic records into the EDMS following the required minimum tagging used for paper records (above), as defined by the content type. All electronically originated records that are converted to PDF format must be text-searchable to the extent feasible.

D. Quality Control and Assurance. Once an electronic record is converted and stored in the EDMS, a department staff person shall review and verify that each image of each page of the record is a true and accurate copy of the original electronic record that can be reproduced from the EDMS record with full legibility, and that the indexing is accurate.

E. Duplicates Stored on First 5 LA Server. Once an electronic record is converted and stored in the EDMS, the electronic record on First 5 LA's server may be deleted as a duplicate.

SYSTEM CONFIGURATION AND BACKUP TECHNOLOGY

A. User Access
   1. The EDMS resides on a dedicated server within First 5 LA's secure network. The EVP or designee, in conjunction with the IT Department, is responsible for granting user rights to access the EDMS. Access will be assigned using granular permissions based on a user's role within the organization. User roles include:
      a. System Administrator: broad access to the entire system.
      b. Records Manager: permission to view, search, add, edit, delete and print information.
      c. Department Representative: view, search, add, and print information.
      d. Scanning Technician: view, search, add, and print information.
      e. User: view, search and print only.

   2. Employees shall access the system using their assigned login and password. Access rights, permissions, and security shall be linked to an individual user's login and password.

B. Image Format and File Compression
   1. File Format. All scanned documents will be stored in EDMS in PDF file format. Electronically originated records shall be stored in PDF file format. Images exported from the EDMS will be non-modifiable.

   2. Document Image Compression. To the extent document image compression is required, the EDMS will use compression technology in compliance with AIIM Guidelines Section 5.4.2.4.

   3. The minimum resolution level for standard business documents shall be 300 DPI/PPI. Where image files in other formats, such as JPEG, BMP, or GIF, are converted to PDF, the resolution shall be adjusted to closely match the DPI of the original image file.

C. Technology and Backup Procedures
   1. Storage and Backup
      The Information Technology Department's data backup process covers all databases, servers and their contents residing on premise at 750 North Alameda Street, Los Angeles, CA 90012. Storage for ECM (OpenTEXT) and SharePoint platforms are on premise. IT performs daily incremental backup and weekly full backup (over the weekend). Backups are stored on tapes and disk storage on site. Every Tuesday a copy of the full backup tapes are sent off site to a secure and accessible off-site storage location that meets or exceeds industry standards for off-site storage of backup data." The full backup tapes are rotated back into the backup pool of tapes for reuse every 30 days so at any given time, there are four sets of full backups, one set is on site and three sets are off site. First 5 LA does not have an alternate site to recover any of its systems or electronic content in case of a site failure, where the server room is unavailable for recovery.

The File Server, with the stored PDF images, is on a RAID5 storage device. Please refer to RAID5 Definition in section III.

2. In compliance with AIIM Guidelines Section 5.3.3(a), the EDMS utilizes both hardware and media storage methodologies to prevent unauthorized additions, modifications or deletions during the approved record retention period of the stored information.

   The security software includes password protection to prevent unauthorized deletion of data and creates an audit trail.

3. Audit Trail. In compliance with AIIM Guidelines Section 5.3.3(b), the EDMS uses an independent audit process to ensure electronically stored information is not modified, altered, or deleted during the approved record retention period of the stored information.
   a. The audit trail security system and encryption software prevents modifications; user access permitting modifications is limited and managed by audit trail security.
      1) A limited number of users are authorized to delete or modify files. Explicit rights are assigned by the IT EDMS Administrator before a user is authorized to delete or modify files.
      2) A record is made of modifications made to the audit trail and other electronic files.
      3) The audit trail cannot be modified or tampered with by the Systems Administrator.
      4) Records placed in the Archive Bin may be reinstated or purged from the system. Only the Systems Administrator and the Record Manager has system authorization to perform these actions.

   b. The audit trail shall be configured to track basic events in the repository that involve accessing, modifying or exporting data. Basic events include:
      1) Login and logout
      2) Creating, editing, printing or deleting documents
      3) Creating, editing or deleting templates, fields and annotations
      4) Adding security tags
      5) Exporting documents, volumes or briefcases
      6) Sending documents to the Recycling Bin.

V. RESPONSIBILITIES

The Executive Vice President is responsible for appointing a Records Manager. In coordination with the EVP, the Records Manager will monitor the procedures for this policy and coordinate with Division VPs as required. Each department will have a single point of contact, responsible for records applicable to the specific department.

The Information Technology Department is responsible for appointing the IT EDMS Administrator. This individual is responsible for overseeing the hardware and software of the EDMS application.

VI. REFERENCES/LEGAL AUTHORITY

First 5 LA
Records Retention Schedule – Approved November 8, 2018

ALL DEPARTMENTS			
Records Series Category	**Description of Records See Footnote 4 for Definitions**	**Recommended Retention Period[FN1]**	**Legal Citation**
Agendas and Minutes – Internal Department Meetings	Includes agenda, minutes, meeting summaries and attendance record, if any, for meetings within a single department, or between two or more departments. Department initiating meeting is custodian of record.	2 years	Gov't Code § 34090
Agendas and Minutes – External Meeting with Grantees, Consultants, Contractors, or Vendors	Includes agenda, minutes, meeting summaries and attendance record, if any, for meetings with grantees, consultants, contractors, or vendors. NOTE: Transfer records to Contract Compliance Department if related to compliance or performance issues.	Contract termination plus 7 years or project completion plus 7 years, whichever is later (unless funding source agreement requires longer retention, see FN 2)	Gov't Code § 34090; Civ Code Proc. § 337; First 5 LA Agreements
Agendas and Minutes – External Meetings Convened by First 5 LA (Not Involving Grantees, Contractors, Consultants, or Vendors)	Includes agenda, minutes, meeting summaries and attendance record, if any, for all other meetings convened by First 5 LA that are held with persons or entities external to First 5 LA, who are not grantees, contractors, consultants, or vendors.	2 years	Gov't Code § 34090
Budget Tracker	Spreadsheet or chart tracking grantee, contractor, consultant, or vendor expenditures. Applies to those departments that use a budget tracker.	Contract termination plus 7 years or project completion plus 7 years, whichever is later (unless funding source agreement requires longer retention, see FN 2)	Gov't Code § 34090; Civ Code Proc. § 337; First 5 LA Agreements
Calendars	Appointment books and scheduling calendars	4 years	Gov't Code § 34090

ALL DEPARTMENTS			
Records Series Category	**Description of Records See Footnote 4 for Definitions**	**Recommended Retention Period[FN1]**	**Legal Citation**
Contract Working Documents	Miscellaneous records related to grantee, contractor, consultant, or vendor that are not retained by Contracts Compliance and not covered by another records series category. May include negotiating history retained by department, and post-contract records not transferred to Contracts Compliance. NOTE: Department is not required to retain working documents except to the extent required by First 5 LA policy. To the extent working documents are retained, this retention period applies.	Contract termination plus 7 years or project completion plus 7 years, whichever is later (unless funding source agreement requires longer retention, see FN 2)	Gov't Code § 34090; Civ Code Proc. § 337; First 5 LA Agreements
Correspondence – Internal/External – Exchanged with or regarding Grantees, Contractors, Consultants or Vendors	Internal: Substantive correspondence exchanged internally regarding grantees, contractors, consultants or vendors not listed under "Contract Documents". External: Routine correspondence, including emails, memos and letters, exchanged with grantees, contractors, consultants, or vendors NOTE: Transfer to Contract Compliance Department internal and external correspondence related to compliance or performance issues.	Contract termination plus 7 years (unless funding source agreement requires longer retention, see FN 2)	Gov't Code § 34090; Civ Code Proc. § 337; First 5 LA Agreements 2899
Correspondence - Other	All other general substantive correspondence, external and internal. Includes emails, memos and letters involving substantive issues not related to a grant, contract, lobbying, employment, or public records request, and that does not fall under any other retention category. If subject matter requires longer retention, use the longer retention period. Does not include advertisements, newsletters, invitations, and mailings of general interest. Correspondence that is transitory and does not document substantive issues does not have to be retained. See First 5 LA Records Retention and Destruction Policy for details.	3 years	Gov't Code § 34090

ALL DEPARTMENTS			
Records Series Category	**Description of Records See Footnote 4 for Definitions**	**Recommended Retention Period[FN1]**	**Legal Citation**
Evaluations Prepared by Staff	Program evaluations prepared by staff.	Program termination plus 7 years (unless funding source agreement requires longer retention, see FN 2)	Gov't Code § 34090; Civ Code Proc. § 337; First 5 LA Agreements
Procedures – Department (re: Grantees, Contractors, Consultants or Vendors)	Internal procedures developed by the certain departments generally involving interactions with contractors or grantees. Examples: Site visit procedures, progress report, invoice review/approval, and budget modification procedures. NOTE: If a procedure may be used as basis for terminating a contract, save superseded procedure for same length of time as any contract covered by the procedure.	Until superseded, but retain minimum 2 years (see FN 1) unless used as a basis for contract termination If used as basis for terminating a contract, see NOTE under Description of Records.	Gov't Code § 34090
Documents for Transactions Less than $5,000	If an agreement is executed, transfer agreement documents to Contract Compliance for retention. Transfer Purchase Request and Invoice to Finance. All other documents related to transaction, department retains.	Completion of transaction plus 7 years (unless funding source agreement requires longer retention, see FN 2)	Gov't Code § 34090; Civ Code Proc. 2000 § 337; First 5 LA Agreements
Draft Documents (Internal) - Retained	Internal drafts of correspondence, memos, presentations, reports and other documents retained in the ordinary course of business. NOTE: First 5 LA is not required to retain internal drafts. To the extent internal drafts are retained, a minimum 2 year retention period applies. See First 5 LA Records Retention and Destruction Policy for details.	2 years	Gov't Code § 34090

ALL DEPARTMENTS			
Records Series Category	**Description of Records See Footnote 4 for Definitions**	**Recommended Retention Period[FN1]**	**Legal Citation**
External Resources / Research Literature	External resources not produced for or by First 5 LA, but used in support of a decision by First 5 LA (for example, when summarized or quoted in a staff report). Includes newspaper, magazine or journal articles, briefs, and reports. NOTE: If not used to support a decision, External Resources may be destroyed when no longer needed.	2 years	Gov't Code § 34090
Legal Opinions	Legal opinions received from counsel regardless of format (includes letters, memos, emails, etc.)	Until superseded, but retain minimum of 4 years (See FN 1)	Gov't Code § 34090; Civ Code Proc. § 340.6
Lists/Rosters	Mailing lists, and other lists and rosters created for internal use, such as lists of potential conferences staff may be interested in attending, lists of department projects, grantee/contractor lists, vendor lists, and lists of Commissioners and Committee appointments.	Until superseded, but retain minimum 2 years (See FN 1)	Gov't Code § 34090
Planning - Department	Planning documents regarding internal Department planning.	2 years	Gov't Code § 34090
Planning - Projects	Internal projects such as LCFF, OTT, staff development, etc.	Project termination plus 2 years	Gov't Code § 34090
Presentations – External and Internal	Public presentations (external) not tied to a particular grant or contract. (Does not include presentations given to the Board or a Committee. See Executive Department Records Retention Schedule.) Presentations given to other departments or intra-department.	2 years	Gov't Code § 34090
Reports – Internal	Internal reports unrelated to a specific grantee, contractor, consultant or vendor. Includes Program Officer Monthly Progress Reports; requests from another department to provide data or information, if retained; and records of work groups internal to First 5 LA regarding various topics.	2 years	Gov't Code § 34090
Training and Outreach	Department records related to conference and seminar attendance.	2 years	Gov't Code §34090

ALL DEPARTMENTS			
Records Series Category	**Description of Records See Footnote 4 for Definitions**	**Recommended Retention Period[FN1]**	**Legal Citation**
Training Presentations	Training presentations given to First 5 LA staff.	Until superseded, but retain for no less than 2 years (See FN 1)	Gov't Code § 34090
Video Recordings	Video recordings of events.	10 years	Gov't Code § 34090
Correspondence - Support Letters	Correspondence in support of a project or initiative. For example, CHOICE, Promise Neighborhoods, Promise Zone 2013, etc.	3 years	Gov't Code § 34090
Membership Information	Records related to First 5 LA's membership in various external organizations.	2 years	Gov't Code § 34090

COMMUNITIES DEPARTMENT			
Records Series Category	**Description of Records**	**Recommended Retention Period[FN1]**	**Legal Citation**
Community Documents	Documents related to the Communities including partnership sign-in sheets, governance guidelines, community plans and assessment reports.	TBD	Gov't Code § 34090

COMMUNICATIONS DEPARTMENT			
Records Series Category	**Description of Records**	**Recommended Retention Period[FN1]**	**Legal Citation**
Event summaries	Summaries of staff's attendance at an outreach event, such as a street fair booth, to the extent such summaries are drafted and retained.	2 years	Gov't Code §34090
Inventory of Promotional Items	List tracking quantities of promotional items in stock.	2 years	Gov't Code § 34090

COMMUNICATIONS DEPARTMENT			
Records Series Category	**Description of Records**	**Recommended Retention Period[FN1]**	**Legal Citation**
Marketing and advertising materials	Design file and final product for brochures, ads, holiday cards, etc.	permanent	Gov't Code § 34090
Newsletters or Reports - External	Newsletters sent to individuals or entities outside of First 5 LA. Example: Monday Morning Report	2 years	Gov't Code § 34090
Photos	Images	Permanent	Gov't Code §34090
Photos	Executed Photo Releases	Permanent	Gov't Code § 34090
Press Releases,	Press releases are posted to website.	Permanent	Gov't Code § 34090
Media Communications	Letters to the editors, Opinion pieces	Permanent	
Promotional Items	Samples of and digital production files for promotional items	2 years	Gov't Code § 34090
Public Records Act	Public records request correspondence exchanged with person making the request, including records identified as responsive and withheld from disclosure.	4 years	Gov't Code § 34090; Civ Code Proc. § 343
Talking Points	Talking points prepared by Public Affairs Department.	2 years	Gov't Code § 34090
Videos	Videos pieces, both short (ads) and longer (informational). Some may be housed on the website, some may not.		
Website	Pages published on First 5 LA's website.	2 years	Gov't Code § 34090

COMMUNITY RELATIONS DEPARTMENT			
Records Series Category	**Description of Records**	**Recommended Retention Period[FN1]**	**Legal Citation**
TBD	TBD	TBD	

CONTRACT ADMINISTRATION & PURCHASING DEPARTMENT			
Records Series Category	**Description of Records**	**Recommended Retention Period[FN1]**	**Legal Citation**
Appeals	Appeals related to contract solicitations.	Conclusion of appeal plus 2 years	Gov't Code § 34090; Civ Code Proc. § 337
Agendas and Minutes – External Meeting with Grantees, Consultants, Contractors, or Vendors	Includes agenda, minutes, meeting summaries and attendance record, if any, related to compliance or performance issues.	Contract termination plus 7 years or project completion plus 7 years, whichever is later (unless funding source agreement requires longer retention, see FN 2)	Gov't Code § 34090; Civ Code Proc. § 337; First 5 LA Agreements
Contracts, Amendments and MOUs. Insurance Documentation	Executed agreements with all exhibits; amendments; and related proof of insurance	Contract termination plus 7 years or project completion plus 7 years, whichever is later (unless funding source agreement requires longer retention, see FN 2)	Gov't Code § 34090; Civ Code Proc. § 337; First 5 LA Agreements
Contract related Documents and related Procurement Documents, for Grantees, Consultants, Contractors, and Vendors (Except MAA, See "Contract Documents - MAA" below)	First 5 LA forms, corporate/agency documents, compliance documents, correspondence related to contract compliance, site visit reports, and procurement documents. NOTE: Exception. If funding source agreement requires longer retention period, retain those related records for the longer retention period stated in the agreement. See FN 2.	Contract termination plus 7 years or project completion plus 7 years, whichever is later (unless funding source agreement requires longer retention, see FN 2)	Gov't Code § 34090; Civ Code Proc. § 337; First 5 LA Agreements 2904
Contract Working Documents	Records including contractual term negotiating history.	Contract termination plus 7 years or project completion plus 7 years, whichever is later (unless funding source agreement requires longer retention, see FN 2)	Gov't Code § 34090; Civ Code Proc. § 337; First 5 LA Agreements
Contract related Documents, and related Procurement Documents, for MAA-funded Contracts	First 5 LA forms, corporate/agency documents, compliance documents, correspondence, and procurement documents. Finance Department is custodian for all other records related to MAA. See FN 2.	Termination of LA County MAA Agreement plus 7 years (unless LA County approves in writing a shorter term, see FN 2)	Gov't Code § 34090; Civ Code Proc. § 337; First 5 LA Agreements

COMMUNITY RELATIONS DEPARTMENT			
Records Series Category	**Description of Records**	**Recommended Retention Period[FN1]**	**Legal Citation**
Contract Procurement Documents - Cancelled Solicitations	After an RFQ or RFP was issued, it was cancelled and no agreement was finalized, executed or acted upon. Records covered by this record series include the RFQ or RFP and any proposals or statement of qualifications received by First 5 LA.	Cancellation plus 3 years	Gov't Code § 34090; Civ Code Proc. § 337
Contract Procurement Documents - Unsuccessful Proposer	Proposals and statements of qualification, application, correspondence, and review tool related to unsuccessful applications.	Date of declination plus 2 years	Gov't Code § 34090; Civ Code Proc. § 337
Deliverables, Reports and Evaluations Produced by Grantees, Contractors, Consultants or Vendors	Deliverables, reports, or evaluations that are produced by a grantee, contractor, consultant or vendor, except lobbying (see Policy Dept Schedule for Deliverables related to lobbying, 7 year minimum).	Contract termination plus 7 years or project completion plus 7 years, whichever is later (unless funding source agreement requires longer retention, see FN 2)	Gov't Code § 34090; Civ Code Proc. § 337; First 5 LA Agreements
Correspondence - Internal (re: Grantees, Contractors, Consultants or Vendors)	Substantive correspondence exchanged internally regarding grantees, contractors, consultants or vendors that implicates non-compliance or non-performance issues, including email and other memoranda.	Contract termination plus 7 years or project completion plus 7 years, whichever is later (unless funding source agreement requires longer retention, see FN 2)	Gov't Code § 34090; Civ Code Proc.2905 § 337; First 5 LA Agreements
Correspondence - External (Grantee, Contractor, Consultant or Vendor)	External correspondence, including emails, memos and letters, exchanged with grantee, contractor, consultant or vendor related to compliance and performance issues.	Contract termination plus 7 years or project completion plus 7 years, whichever is later (unless funding source agreement requires longer retention, see FN 2)	Gov't Code §34090; Civ Code Proc. § 337; First 5 LA Agreements
Memoranda of Understanding (MOUs)	Agreements entered into that do not commit First 5 LA to expend money.	MOU termination plus 7 years	Gov't Code § 34090; Civ Code Proc. § 337
Pool Documents - Successful Proposers	Proposers who are pre-screened to be part of a pool from among which staff may choose to solicit for future projects. Includes solicitation documents, proposal/application, completed First 5 LA forms and documents, and related correspondence.	Termination of pool membership plus 2 years (unless funding source agreement requires longer retention, see FN 2)	Gov't Code § 34090; Civ Code Proc. § 337; First 5 LA Agreements

COMMUNITY RELATIONS DEPARTMENT			
Records Series Category	**Description of Records**	**Recommended Retention Period[FN1]**	**Legal Citation**
Pool Documents - Unsuccessful Proposers	Records related to proposers who are not chosen to be part of a pool. Includes declination Letter and proposal/application.	Date of declination plus 2 years (unless funding source agreement requires longer retention, see FN 2)	Gov't Code § 34090; Civ Code Proc. § 337; First 5 LA Agreements

EARLY CARE AND EDUCATION DEPARTMENT			
Records Series Category	**Description of Records**	**Recommended Retention Period[FN1]**	**Legal Citation**
TBD	TBD	TBD	

EXECUTIVE DEPARTMENT INCLUDING COMMISSION AND COMMITTEES			
Records Series Category	**Description of Records**	**Recommended Retention Period[FN1]**	**Legal Citation**
	Part 1: Department Records		
Agendas and Minutes – External (Quarterly L.A. County Meetings)	Quarterly meetings with Board of Supervisor Deputies. Includes agenda, minutes, meeting summaries and attendance record, if any.	2 years	Gov't Code § 34090
Correspondence - External – Real Property/Metro Union Station	Correspondence regarding real property issues exchange with or about Metro Union Station.	Permanent	Gov't Code § 34090
Correspondence – External – State and County	Substantive correspondence exchanged with Los Angeles County or First 5 California or any other state agency. Includes emails, memos and letters involving substantive issues.	3 years	Gov't Code § 34090
Executive Department Initiatives	Projects initiated by the Executive Department that are not covered by another department's retention schedule and are not related to a contract or agreement. Example: L3 (listening, learning & leading) Initiative.	2 years	Gov't Code § 34090

EXECUTIVE DEPARTMENT INCLUDING COMMISSION AND COMMITTEES			
Records Series Category	**Description of Records**	**Recommended Retention Period[FN1]**	**Legal Citation**
FPPC Statement of Economic Interest (Form 700) for Code Filers	Copies of FPPC forms for Board of Commissioners, Alternate Commissioners, Ex-Officio Representatives, and Chief Executive Officer. Original forms are forwarded by First 5 LA to Los Angeles County and First 5 LA retains a copy.	4 years	Gov't Code § 81009(f)
FPPC Statement of Economic Interest (Form 700) for Filers Designated in First 5 LA's Conflict of Interest Code	Original FPPC Statement of Economic Interest (SEI) for the designated positions on First 5 LA's Conflict of Interest Code. The originals of these SEIs (also known as Form 700s) are retained by First 5 LA.	7 years	Gov't Code § 81009(e)
Policies and Procedures for First 5 LA - Agency-wide	Policies and procedures applicable to all employees and departments.	Permanent	Gov't Code § 34090
Real estate - Ownership	Records related to First 5 LA's ownership of real estate and any building construction or capital improvements.	Permanent	Gov't Code § 34090; Civ Code Proc. § 337.15 2907
Real estate - Lease	Record related to tenant's lease of First 5 LA's property.	Lease expiration plus 4 years	Gov't Code § 34090; Civ Code Proc. § 337.2
Part 2: Commission and Committee Records			
Audio Recordings	Audio recordings of Commission and Committee meetings. Recordings may be destroyed 30 days after the recording is made, without further action of the Board, unless a recording is subject to a legal hold.	Permanent	Gov't Code § 54953.5(b)
Budgets – Final Adopted	The final budget as adopted.	15 years	Gov't Code § 34090

EXECUTIVE DEPARTMENT INCLUDING COMMISSION AND COMMITTEES			
Records Series Category	**Description of Records**	**Recommended Retention Period[FN1]**	**Legal Citation**
Bylaws	First 5 LA adopted bylaws.	Permanent	Gov't Code §34090
Correspondence –Commission or Committee	Substantive correspondence received by or sent on behalf of the Board of Commissioners or a Committee, related to First 5 LA business. Includes emails, memos and letters involving substantive issues not related to a grant, contract, lobbying, employment, or public records request, and that does not fall under any other retention category. If subject matter requires longer retention, use the longer retention period. Does not include advertisements, newsletters, invitations, and mailings of general interest. Correspondence that is transitory and does not document substantive issues does not have to be retained. See First 5 LA Records Retention and Destruction Policy for details.	3 years	Gov't Code §34090
Meeting Agendas	Meeting agendas for Commission and Committees	Permanent	Gov't Code §34090
Meeting Minutes, Transcripts or Action Summaries	Meeting minutes, transcriptions, or action summaries for Commission meetings and Committee meetings.	Permanent	Gov't Code §34090
Meeting Packets including Late Correspondence	Includes staff reports, presentations, late correspondence, and other meeting materials distributed in advance of, or at, Commission meetings and Committee meetings.	15 years	Gov't Code §34090
Resolutions	Resolutions of the Commission or Committees.	Permanent	Gov't Code §34090

FAMILY SUPPORTS DEPARTMENT			
Records Series Category	**Description of Records**	**Recommended Retention Period[FN1]**	**Legal Citation**
TBD	TBD	TBD	

FACILITIES DEPARTMENT			
Records Series Category	**Description of Records**	**Recommended Retention Period[FN1]**	**Legal Citation**
Plans and Blueprints	Records of the building including renovations and additions. May include, but is not limited to, floor plans, blueprints, materials specifications, maps, layout and grade, plumbing and electrical diagrams, inventories, and schedules of interior finishes.	Permanent	Gov't Code § 34090
Construction and Improvement Records	Records of construction, renovations, building projects and capital improvements and repairs. May include inspections, proposals, specifications, drafts, notes of meetings with architects/contractors, architects' reports, invitations to bid, contracts, reports and correspondence. First 5 LA Annual Report to First 5 California	Final annual report made to First 5 California.	Permanent	Health & Safety Code § 130150; Gov't Code § 34090
First 5 LA Annual Report to First 5 California – Working Documents	Working documents related to annual report made to First 5 California.	Date report is filed with California plus 7 years	Health & Safety Code § 130150

STRATEGIC PARTNERS DEPARTMENT			
Records Series Category	**Description of Records**	**Recommended Retention Period[FN1]**	**Legal Citation**
TBD	TBD	TBD	

Footnote 1: Explanation of Retention Periods.

- The retention period begins to run from the date of the event, the conclusion of the matter, or the date of the document referenced, whichever is later.
- Until superseded, but retain for a minimum of 2 years: Minimum retention period is 2 years. If superseded prior to 2 years, must retain for full 2 years.

Footnote 2: First 5 LA has entered into agreements in order to receive certain special funds, and each agreement requires specific records retention periods for records related to the use of those funds. Notwithstanding this records retention schedule, records specified in those agreements must be retained for the longer period specified in the agreement. Please refer to the agreement for complete retention requirements; below is a short summary.

Examples include:

Medi-Cal Administrative Activities (MAA) funding agreement: records listed in the MAA agreement between First 5 LA and LA County must be retained until the MAA agreement is terminated plus 5 years, unless LA County approves a shorter term in writing. The five year count is triggered when First 5 LA's MAA agreement with Los Angeles County is terminated. 2021

CSP funding agreement: records listed in CSP agreement between First 5 LA and First 5 California must be retained for a period of five (5) years after final payment of program expenditures.

CARES Plus funding agreement: records listed in CARES Plus agreement between First 5 LA and First 5 California must be retained for a period of five (5) years, or local policy retention period (whichever is greater), after final payment of expenditures.

State-Funded School Readiness Initiative (SRI) (terminated FY 2010-2011): records listed in the SRI agreement must be retained for a period of three years after the final payment of program expenditures.

Footnote 3: "Do not destroy" instruction applies to all personnel files of similarly situated employees, and not just files of the complaining party.

Footnote 4: In addition to the definitions set forth in the Records Retention and Destruction Policy, the terms used in this Records Retention Schedule have the following meanings:
"External Correspondence" or "External Drafts": Correspondence or drafts received from or sent to a person, agency or entity outside of First 5 LA.
"Internal correspondence": Correspondence exchanged within First 5 LA, and not shared with a person, agency or entity outside of First 5 LA. Intra-agency memoranda are a type of Internal Correspondence. In the event First 5 LA employees correspond with attorneys or consultants who are agents of First 5 LA, such correspondence shall be deemed internal to First 5 LA.

“Internal Drafts”: Drafts prepared by First 5 LA, and not shared with a person, agency or entity outside of First 5 LA. In the event First 5 LA employees received drafts from attorneys or consultants who are agents of First 5 LA, such drafts shall be deemed internal to First 5 LA.
“Substantive correspondence”: Correspondence that relates to the conduct of First 5 LA’s business, is required for future reference by the agency, and documents actions, decisions, or other matters of importance to First 5 LA, including any writing that (1) records the formulation and implementation of policies and decisions (e.g., staff changes, policy setting, strategic planning); or (2) initiates, authorizes, furthers, or completes a transaction of official agency business. Items of correspondence that are not necessary for future reference, such as personal communications, minor transmittals, information provided or received for inclusion in a larger document, preliminary discussions of ideas, and basic scheduling correspondence, for example, are not considered “substantive correspondence.”

Memo

To: Board of Commissioners

From: Kim Belshé, Executive Director

Date: May 13, 2021

Subject: **EXECUTIVE DIRECTOR'S REPORT**

I. EXECUTIVE DIRECTOR'S HIGHLIGHTS

Throughout the pandemic and our remote work realities, I've regularly communicated with the First 5 LA team via emails, informal "coffee talks", and direct conversations. Across the team, I've been impressed by my colleagues' deep commitment to First 5 LA's mission and goals, their empathy for and support of one and other, their focus on centering children and families in all that we do, and their efforts to lean into new, more integrated ways of approaching our systems change strategies and advancing sustainable results for children and families.

As I shared in a recent All-Team email, at its core, when we say systems change at First 5 LA, we are acknowledging that we are not alone in our work. We are not the early childhood system for L.A. County; and as I've said since my first day on this job, we are not the agent of scale or sustainability for investments within the County that promote child and family well-being.

At the same time, as the Board and team will discuss at today's meeting, First 5 LA is a public agency with significant resources available – our money, yes, but more importantly our team's time – to contribute to broader systemic change. We are partners, collaborators, and conveners. Through our work, we contribute to changes in how others allocate resources, make decisions, and set priorities that impact child outcomes.

The importance of systemic change in the First 5 LA context was put on national display recently as the country marked 100 days of President Biden's administration. Since he took office, the President has put forward a bold vision for America directly aligned with First 5 LA's goals:

- Congress passed, and President Biden signed into law, the American Rescue Plan (ARP) focused on COVID-19 response. Through the ARP alone, California will receive nearly $4 billion to fund child care, Head Start, and home visiting services. This could translate to nearly $1 billion for First 5 LA priorities in Los Angeles County.

- In addition to enacting the ARP, the President has proposed the ambitious American Jobs and American Family Plans which together would, if enacted, significantly expand public support for

critical early childhood services and community investments, including $445 billion to fund universal preschool and expand access to higher quality and more affordable child care.

These new policies and proposals represent a powerful strategy to both address urgent, immediate needs faced by families and take steps towards longer-term, more sustainable and enduring systems change. They also recognize that investments in human capital are critical to a just and equitable America.

It's important that we recognize that President Biden's actions in his first 100 days were not the result of 100 days of work. Decades of intentional work by hundreds of partners brought us to this moment, where the vision of universal access to quality, critical early childhood services nationwide is one step closer to reality.

And, we have a lot of work to do.

When federal ARP funding comes to California and L.A. County, how will our public agencies allocate those resources? When policymakers representing our communities make decisions, what will they prioritize? Are decisions being informed by parents and community leaders? Does L.A. County have the infrastructure – the partnerships, perspectives, priorities, and resources – necessary to make the vision proposed by the President a reality? Do First 5 LA's operational policies and practices enable all of us to be the best partners we can be?

The answers to these questions represent some of the challenges and opportunities for First 5 LA. We look to our Strategic Plan as the roadmap to guide our work as a systems change leader and funder. And, we look to the budget to provide the resources required to advance the results for children and families and strategic priorities articulated in our Strategic Plan.

At today's Board meeting, the Finance Team will present the proposed budget for fiscal year 2021-22. The proposed FY 2021-22 budget represents staff's best estimate of the financial and staff resources needed to help inform, shape and drive change across child- and family-serving systems.

This draft budget is presented to the Board at a time of ongoing change and challenge in the context of the COVID-19 pandemic. Throughout the proposed budget, Commissioners will see investments and strategies that reflect First 5 LA's continued efforts to support staff, contractors and grantees, and young children and their families to navigate immediate and longer term implications of the pandemic. And, throughout the proposed budget the Board will see the team's commitment to the three critical drivers of Strategic Plan implementation: focus and priority-setting, integration and alignment, and diversity, equity and inclusion.

The team looks forward to engaging with the full Board, building off of our budget discussion with the Budget & Finance and Executive Committees on May 6.

II. OPTIMIZING OUR ORGANIZATIONAL EFFECTIVENESS

As First 5 LA continues to work remotely while implementing the Strategic Plan, I remain focused on proactively engaging the organization through multiple communications platforms – virtual all team meetings, regular email updates, and informal "Coffees with Kim" check-ins. With support from the **Office of Communications, Office of Equity Strategy and Learning,** and staff within the **Executive Director's Office**, we are seeking new ways to connect internal, organization-wide conversations with current events and external issues. In the context of the Derek Chauvin trial, for example, First 5 LA engaged in rich discussions about connections to our work, which culminated in a statement from me shared on our website and via social media, "Justice Finds a Starting Point."

A PUBLIC ENTITY
750 N. Alameda Street, Suite 300 Los Angeles, CA 90012 Phone: 213.482.5902 Fax: 213.482.5903 First5LA.org

As an organization committed to contributing to systemic change in service of better opportunities and outcomes for L.A. County's youngest residents, I am committed to creating more opportunities for organizational engagement, learning, and the application of our values to enhance our work.

II. ADVANCING PROGRESS TOWARD OUR RESULTS FOR CHILDREN AND FAMILIES

In addition to the following activities advancing progress toward our Strategic Plan results, First 5 LA through the leadership of the **Office of Government Affairs and Public Policy** participated in the First 5 Association's virtual Advocacy "Day" during the week of April 26. During the week, First 5 LA representatives – including Commissioners Astrid Heger, Jaqcueline McCroskey, and Romalis Taylor – met with nearly all of L.A. County's 38 state Assemblymembers and Senators. Coverage of the event from the **Office of Communications** was highlighted through social media and will be featured in this month's edition of Early Childhood Matters. For a complete list of local, state, and federal policy proposals First 5 LA is actively monitoring or supporting, please see Attachment A (2021 Advocacy Agenda).

Result 1: Families have the resources, opportunities, and relationships to optimize their child's development

Advocating for First 5 LA Priorities in CalAIM
On April 23, 2021, staff from the **Office of Government Affairs and Public Policy** provided public comment to the California Advancing and Innovating Medi-Cal (Cal AIM) Foster Care Model of Care Workgroup. Specifically, First 5 LA called for a focus on prevention, especially through the statewide adoption of evidence-based prevention models for pregnant women and families with young children, including language- and culturally- appropriate care and home visitation. This contributed to organizational and Policy Agenda priorities related to a universal system of voluntary family strengthening services, with home visitation at its center, being the optimal avenue for promoting prevention and early intervention, as well as quickly connecting at-risk children and families to supports.

Home Visiting Apprenticeship Project
In May 2020 First 5 LA established a Strategic Partnership with the Foundation for California Community Colleges to partner with higher education to expand the preparation of the home visitation workforce and support a Home Visitors Apprenticeship project that furthers First 5 LA's strategic plan and policy agenda. The Home Visitors Apprenticeship project includes Antelope Valley College, Child Care Resource Center (CCRC), Antelope Valley Partners for Health (AVPH), and Early Care and Education Pathways to Success (ECEPTS) as the Project Lead. In the past several years ECEPTS projects have resulted in the creation of three apprenticeships for Early Care and Education workers that are registered with the California Division of Apprenticeship Standards.

The Home Visitors Apprenticeship project represents significant policy and practice implications, given the national interest in expanding the availability and effectiveness of home visiting as a prevention and early intervention strategy and creation of a career pathway through which community-based workers can attain the necessary academic and professional training. The apprenticeship programs include college coursework and 2,000 hours of on-the-job training. However, program implementation was delayed not only due to the COVID pandemic, but the substantial hurdle of obtaining funding for the on-the-job training portion of the apprenticeship. ECEPTS and CCRC leadership were key in identifying champions and opportunities in an effort that took a year of exploration and partnership development. Together, they were ultimately able to leverage support from the Workforce Investment Board to submit a Los Angeles Innovation Grant in partnership with Jewish Vocational Services and successfully secure sufficient funding to launch the project.

First 5 LA through the **Family Supports Team** will support evaluation of the Home Visitor Apprenticeship to assess if apprenticeship models hold similar promise for expanding the local

A PUBLIC ENTITY

workforce, making it high quality, culturally responsive and more reflective of the community it serves. Program graduates will be qualified to assume full-time positions as home visitors, ECE Associate Teachers, or community outreach workers, with the first cohort scheduled to begin in Fall 2021.

Community Family Resource Center in the Antelope Valley
On April 15, the Ralph M. Parsons Foundation hosted a launch event for the opening of a Community Family Resource Center (CFRC) coming to the Antelope Valley in July 2021. The CFRC will be a community-based hub of supports and services for families and residents – a one-stop-shop located in a warm, welcoming, accessible, community and family-friendly setting. Beyond access to critical services and supports, families can also come together to share and strengthen their community experience. The launch event included the L.A. County Departments of Mental Health, Children and Family Services, Public Health, Health Services, Public Social Services, the Children's Bureau, and First 5 LA - each elevating current investments in the Antelope Valley and opportunities to integrate with the CFRC. First 5 LA highlighted the work underway with Best Start, specifically the Antelope Valley Resource Infusion and how the work emerging is helping inform the planning and implementation approach for the CFRC, stressing the importance of community design and community driven decision-making as well as regional alignment among the network of support. The center will be funded through public and private investments and is currently in the design process.

Best Start Region 1 Community Bill of Human Rights Townhall
Through the leadership of the **Communities Team**, on Saturday, April 24, 2021, more than 1,650 community members in Best Start Region 1 gathered virtually for the Driving Equity and Justice Community Bill of Human Rights Town Hall. The participants included parents, caregivers, residents, staff at community-based organizations, city and county agencies, and elected and public officials. The Best Start members presented the Bill of Human Rights (Attachment B) which reflect measurable and actionable recommendations that highlight shifts in power, authentic partnerships and alignment with justice. Among the ten recommendations include a desire for free, quality local care and instruction from birth to graduation; full, equitable digital inclusion; and connected, inviting, healthy neighborhoods. In addition to the Bill of Human Rights, the Best Start Network highlighted the participatory process as one that could serve as a proposed model for what partnership with residents could look like across sectors. The Region 1 Network fostered a culture of data through processes that empowered community members to co-design data collection tools, ensured sustainability by building data literacy, and facilitated reflective sessions that supported the community to examine and interpret data. A panel of elected and public officials underscored the shifts that are needed from the government to respond equitably to communities. Supervisor Holly Mitchell emphasized that community relationships are critical for shifts in systems. Dr. Barbara Ferrer spoke of the need to honor the data that comes from the people and utilize data to dismantle false narratives about communities of color. The Town Hall is the beginning of deeper engagement with allies and supporters in the field who will partner with the Best Start Network to implement the community's recommendations.

Result 2: Children receive early and timely developmental supports and services

Help Me Grow LA Pathways RFP Second Release
On April 5, 2021 First 5 LA through the **Health Systems Team** released a second Request for Proposals (RFP) for Help Me Grow LA Pathways (HMG LA Pathways). This RFP solicits proposals from organizations interested in serving as a Unifying Agency that will form and be an equal partner in a collaborative of agencies and systems that provide early identification and intervention services and supports within the San Gabriel/Pomona and/or Harbor geographic regions to plan, test and refine approaches related to referral pathways. First 5 LA is seeking to contract with up to two Unifying Agencies to focus on strengthening and expanding referral pathways within a place-based community setting to ensure all children identified with, or at risk of, a developmental or behavioral delay can effectively access appropriate timely services. Proposals are due June 4, 2021 with anticipated contract start date of October 1, 2021. In 2019 we released a Wave 1 RFP which resulted in the selection of Unifying Agencies for five of the seven communities that started October 1, 2020. This RFP is for the

A PUBLIC ENTITY
750 N. Alameda Street, Suite 300 Los Angeles, CA 90012 Phone: 213.482.5902 Fax: 213.482.5903 First5LA.org

two remaining communities to ensure countywide reach. Lessons learned from Wave 1 communities will inform Wave 2 communities.

First 5 LA ACEs Aware Provider Engagement Activities
First 5 LA's Health Systems team hosted a two-part Network of Care (NoC) series in April 2021 as part of a cross-sector provider engagement activity funded by the state's ACEs Aware Initiative. The NoC sessions come at a point in time where across the county, several efforts are underway to bring together health care, social service providers, and community-based organizations to create a seamless screening, referral, and response process to support families in mitigating toxic stress and promoting optimal growth and development. The ACEs Aware NoC sessions provided space for clinicians, community-based service providers, and families to come together to explore the features and design principles of an impactful NoC.

The first session, "Designing Networks of Care with Families at the Center," was held on April 7, facilitated by Health Management Associates. 79 participants were in attendance representing 32 organizations across different sectors, including primary health, mental health, regional centers, and child welfare. Participants heard directly from those with lived experience and applied concepts of human centered design during interactive and dynamic breakout sessions.

On April 28, the second session, "Designing a Network of Care that works for CBOs," built upon the first session and layered in the perspectives and needs of community-based organizations. The convening featured a panel of leaders from CBOs; Public Health Foundation Enterprises WIC Program, Child Development Institute, Upward Bound House, and Children's Bureau.

In addition to the NoC, the First 5 LA **Health Systems Team** continued to work closely with the American Academy of Pediatrics – California Chapter 2 (AAP-CA2) ACEs Committee to co-develop and implement Peer-to-Peer Learning Sessions (https://aapca2.org/aces-aware). The fourth and last session took place on April 22nd and featured a presentation on "Impact of Secondary Trauma and Burnout, with a Blueprint for Wellness" by Nirupama Madduri, MD, FAAP, and Adwoa Osei, MD, FAAP. There were nearly 30 participants in attendance that included a variety of providers (pediatricians, family practitioners and nurse practitioners) across different clinical settings. Participants engaged in breakouts addressing challenges faced during clinical encounters and the impact of burnout on their practice. Discussions also covered solutions to addressing clinical stress and burnout and prioritization of wellness of clinicians. All First 5 LA hosted ACEs Aware provider engagement activities will inform a practice paper to be completed and distributed in Fall 2021.

Black Maternal Health Week
The **Office of Communications** partnered with the **Health Systems Team** to co-create a milestone event to support the L.A. County African American Infant and Maternal Mortality Initiative (AAIMM), partnering with the L.A. County Department of Public Health to host a virtual briefing on Monday, April 12, 2021, to kick off Los Angeles County's Black Maternal Health Week (April 11 – 17). The goal of the virtual event was to raise awareness of the issue, and the efforts of public health and community leaders across the county to support healthy births for Black women. Kicking off the event was CEO of Growth Mindset Communications and former First 5 LA Pritzker fellow, Dr. Melissa Franklin, followed by remarks from Los Angeles County Department of Public Health Deputy Director, Dr. Deborah Allen. The event then featured a panel discussion with representatives from the various efforts throughout the county to address Black infant and Maternal mortality, including the AAIMM Doula Program, Dept. of Public Health's Black Infant Health Program, Cherished Futures for Black Moms and Babies Public Health Alliance program, First 5 LA and more. You can view the full panel event here: www.blackinfantsandfamilies.org/black_maternal_health_week_panel_watch_online

The virtual event was attended by more than 50 participants, including national and local media outlets KPCC/LAist, NBC News, and Fox News. Leading up to the virtual event, the Office of Communications secured story placements in The Long Beach Press Telegram (reaching 428,000 readers), LAist.com

A PUBLIC ENTITY

(reaching 1.6 million readers online), and NBC National (reaching 81.6 million readers online); L.A. Parent also promoted Black Maternal Health Week events through their social media channels. The Office of Communications is continuing to secure additional media coverage with The Center for Health Reporting at the USC Schaeffer Center for Health Policy and Economics, Spectrum 1 News: "Inside the Issues with Alex Cohen," and The Imprint. First 5 LA also published an article on its website about the AAIMM efforts.

First 5 CA Releases IMPACT 2020 Regional Training & Technical Assistance and Coordination Hub Lead Agency Funding RFA
First 5 CA released its IMPACT 2020 Regional Training & Technical Assistance and Coordination Hub Lead Agency funds (Hub funds) in March 2021, with applications due on May 5, 2021. This is a continuation of the previous Hub funding established under First 5 CA's original IMPACT initiative which ended in June 2020. The purpose of T&TA Hubs is to "support local consortia by providing specialized support and technical assistance to consortia, collectively or individually as needed, to create economies of scale. Hubs are intended to be a support mechanism, not monitors, for consortia in the region, and to serve their needs supporting all early learning and care settings regardless of funding source." While Los Angeles is a single-county region, these Hub funds support the work of Quality Start Los Angeles partner agencies by providing resources to fund activities such as facilitation support, a common QSLA data system, and reliability training for coaches and assessors to meet requirements of Quality Counts California (QCC)-funded activities. The funding opportunity in this RFA is for a total of $11 million over a two-year funding cycle, of which Region 8 (Los Angeles County) is eligible for $1,483,220.

State Advocacy for Early Care and Education

Ahead of Governor Newsom's release of his May budget revision, the Los Angeles delegation of the Early Care and Education (ECE) Coalition actively engaged several Los Angeles state legislative offices to continue advocating for the Coalition's early learning legislative and budget priorities in hopes of influencing the final budget discussions as the June 15 budget deadline approaches. To read the ECE Coalition's budget priorities, see Attachment C (ECE Coalition Letter).

III. CONTRACTS AND SPONSORSHIPS EXECUTED LEVERAGING EXECUTIVE DIRECTOR DELEGATION AUTHORITY

Contracts Executed Between $25,000 to $75,000
CONTRACTS EXECUTED BETWEEN $25K-$75K Procurement Update Pursuant to the Procurement Policy adopted on February 13, 2014, "The Executive Director (or designee) may approve any contract less than $75,000 in the aggregate in a fiscal year, and will establish appropriate internal policies and

A PUBLIC ENTITY
750 N. Alameda Street, Suite 300 Los Angeles, CA 90012 Phone: 213.482.5902 Fax: 213.482.5903 First5LA.org

controls for those awards. Copies of contracts executed in the amount of $25,000 or more and up to $75,000 within a fiscal year will be provided to the Commission during the course of its normal business and be provided as informational items."

The following contracts were executed between March 18, 2021 and April 15, 2021. Copies of the executed contracts can be found here: https://www.first5la.org/wp-content/uploads/2021/04/May-21-ED-Report-Agreements.pdf

#10287 JULIA ANN JUSTUS DBA JUSTUS MCGINITY EXECUTIVE SEARCH –
Contract Amount: $65,335
Contract Period: 3/1/2021 – 6/30/2022
The project is to conduct Executive Recruitment services on behalf of First 5 LA on an as-needed basis throughout the 2020-2028 Strategic Plan. The consultant will complete the following for each recruitment: develop the position description, develop a marketing strategy, conduct research and create a prospect and source contact list, develop prospective candidates, administer written or oral assessments if needed, recommend finalist candidates, manage candidate selection process, and provide recommendations on negotiations and onboarding.

#00838 ALTAMED HEALTH SERVICES CORPORATION – Contract Amount: $60,000
Contract Period: 4/1/2021 – 6/30/2021
Since January 2014, AltaMed Health Services Corporation, as part of the First Connections initiative, has implemented innovative approaches to embed developmental screening and strengthen referral processes within their practices. The goal of First Connections is to better identify children with or at risk for developmental delays and connect them and their families to culturally and linguistically appropriate early intervention services and supports as early as possible.

#10285 CENTER FOR COLLECTIVE WISDOM – Contract Amount: $69,000
Contract Period: 4/8/2021 – 7/31/2021
The primary objective of this project is to provide thought partnership and make available the tools and practices from Living Collective Wisdom to First 5 LA more broadly in support of ongoing organizational learning and collective impact in alignment with the 2020-2028 Strategic Plan and Impact Framework. At the conclusion of this project, First 5 LA will have: 1) structures and processes that support staff reflection on their work and progress towards results for ongoing strategy refinement; 2) an organizational learning agenda that includes key performance indicators on organizational culture and learning; 3) internal, crossfunctional, regional teams working to integrate strategies within Best Start geographies to achieve population-level results; and 4) internal staff capacity to sustain the structures, practices and tools of this project beyond engagement with the Center for Collective Wisdom.

#10286 CHILDREN'S HOSPITAL LOS ANGELES – Contract Amount: $38,745
Contract Period: 4/12/2021 – 10/31/2021
Dr. Marian Williams of Children's Hospital Los Angeles (CHLA) will provide technical assistance to support the centralized access point (CAP) and child health provider outreach (CHPO) components of Help Me Grow LA. Dr. Williams will develop resources and workflows, provide trainings and make recommendations to inform implementation of the CAP, as well draft and disseminate provider resources.

A PUBLIC ENTITY
750 N. Alameda Street, Suite 300 Los Angeles, CA 90012 Phone: 213.482.5902 Fax: 213.482.5903 First5LA.org

Event Sponsorships up to $25,000
Below are the events for organization-wide sponsorships to support events through May 13, 2021:

Title: Black Maternal Health Virtual Conference
Date: April 16-17, 2021
Sponsorship Amount: $5,200
Description: Black Mamas Matter Alliance (BMMA) hosted their Black Maternal Health Virtual Conference. The conference is a premier assembly for clinicians, professionals, advocates, and other stakeholders working to improve maternal health using birth justice, reproductive justice, and human rights frameworks.

Title: 50th Celebration 2021 Annual Conference Harambee
Date: April 21-23, 2021
Sponsorship Amount: $5,000
Description: The Association of Black Foundation Executives hosted their Annual Conference Harambee celebrating 50th years. The conference is the nation's largest gathering of Black professionals in philanthropy. The 2021 conference tackled racial inequity and systemic injustices (both pre and post-pandemic) and identified call-to-action and national issue areas for grantmaking

Title: Connections for Children
Date: April 21, 2021
Sponsorship Amount: $5,000
Description: Connections for Children hosted the 2021 Betsy Awards to honor community leaders in the field of early care education and support that families in Los Angeles County have access to the highest quality early education and childcare to achieve their full potential. The award is named after Betsy Hiteshew who helped found Connections for Children in 1975. Betsy is a nationally renowned early childhood pioneer whose work has impacted thousands of children, parents, and educators.

Title: Liberty Hill
Date: April 22, 2021
Sponsorship Amount: $5,000
Description: Liberty Hill hosted their 2021 Annual Upton Sinclair Dinner. The event celebrated the dynamic visionaries who are paving the way for social justice progress in Los Angeles. 2021 honorees included Fred Ali (Philanthropic Leader & CEO Emeritus of the Weingart Foundation), LaTosha Brown (Black Voters Matter), Ai-jen Poo (National Domestic Workers Alliance) and Angélica Salas (Coalition for Humane Immigrant Rights).

Title: Drew Child Development Corporation
Date: April 25, 2021
Sponsorship Amount: $2,000
Description: Drew Child Development Corporation hosted the 8th Annual "It Takes A Village" Community Awards. The Community Awards recognizes leaders and organizations that are transforming the lives of children and making a difference in child advocacy, education, and welfare community through their philanthropic efforts and leadership.

Title: Beat the Odds Gala
Date: April 21, 2021
Sponsorship Amount: $2,500
Description: The Children's Defense Fund CA hosted their 2021 Annual Gala "Beat the Odds". The annual gala supports CDF-CA efforts locally to champion policies and programs that lift California children out of poverty, ensure their access to health care and equitable education, and transform our juvenile justice system to focus on youth development and healing.

Title: 501(c)onference
Date: May 11-12, 2021
Sponsorship Amount: $3,500
Description: Center for Nonprofit Management hosted their annual 501(c)onference virtually for 2021. The two-day conference seeks to reach the most influential audience of nonprofit and civic leaders in Los Angeles. The conference theme "Renewal" reflects on the idea of renewal while looking at what we've learned from the pandemic, what's ahead, and how, together, we can find renewed purpose as change-makers and collaborators in Southern California to address housing, food, education, and justice reform.

Title: Southern California Grantmakers Policy Conference
Date: April 13th and April 15th
Sponsorship Amount: $10,000
Description: First 5 LA recently sponsored the Southern California Grantmakers annual Policy Conference. The theme for this year's conference was "Build Anew" and focused on how philanthropy can contribute to the systems needed for an equitable future. Key speakers included Health and Human Services Secretary Mark Ghaly, LA County Supervisor Holly Mitchell and the Secretary of Business, Consumer Services and Housing, Lourdes Castro Ramirez. Conferences sessions explored the importance of equity through vaccine distribution, the digital divide, Measure J and democratic representation through the Census and redistricting process. Staff gained valuable lessons and ideas that will contribute to First 5 LA's equity journey.

First 5 LA - Advocacy Agenda 2021

Updated: 3/30/21

Policy Item	Author/Budget Amount	Co-Authors	Title & Description	Notes/Sponsor/Status	Community Identified Priority	Analysis Complete	Position Taken	Support Letter
Early Care & Education								
AB 92	Reyes (AD-47) - Grand Terrace	Bonta, McCarty	Preschool and Child Care and Development Services: Family Fees: Current law requires the Superintendent of Public Instruction to establish a fee schedule for families using preschool and childcare and development services. Current law exempts certain families from those fees. This bill would declare the intent of the Legislature to enact legislation that would alleviate the burden on low-income families of fees for preschool and childcare and development services.	Sponsors: Parent Voices, Child Care Law Center, CCRC Assembly Human Services Committee Assembly Education Committee		Yes	Support	
SB 246	Leyva (SD-20) - Pomona		Early Childhood Education: Reimbursement Rates: Would make a number of changes to the reimbursement rate system, including implementing plan that establishes reasonable standards and assigns rates that vary with additional factors, increase rates for license-exempt providers, and would require the CDE and CDSS to create the Quality Counts California Pilot Reimbursement Program intended to allow childcare providers to receive higher reimbursement rates.	Sponsors: EveryChild CA		Yes	Support

Early Care & Education								
AB 22	McCarty (AD-7) - Sacramento		Universal Transitional Kindergarten: Would require, by no later than the 2030–31 school year and in each school year thereafter, a school district or charter school, as a condition of receipt of apportionments for pupils in a transitional kindergarten program, to admit to a transitional kindergarten program maintained by the school district or charter school children who will have their 5th birthday between September 2 of the calendar year in which the school year begins and September 1 of the following calendar year.	Sponsors: CA School Employees Association, Early Edge CA, Kidango, San Diego Unified School District		Yes		

Policy Item	Author/Budget Amount	Co-Authors	Title & Description	Notes/Sponsor/Status	Community Identified Priority	Analysis Complete	Position Taken	Support Letter
AB 99	Irwin (AD-44) - Thousand Oaks		Statewide Longitudinal Data System: California Cradle-to-Career Data Systems: CThis bill would express the intent of the Legislature to enact subsequent legislation that would codify recommendations in the California Cradle-to-Career Data System Legislative Report published in December 2020.					
AB 321	Valladares (AD-38) - Santa Clarita		Childcare Services: Eligibility: Would amend the CA Education Code to include in the list of eligibility requirement that the family is one in which the primary language is other than English.					
AB 393	Reyes (AD-47) - Grand Terrace		Child Care and Development Act of 2020: Would require the CDSS to report on various topics related to early childhood supports in light of the COVID-19 pandemic by 10/1/21.	Sponsors: CCRC, EveryChild CA, Kidango				
AB 568	Rivas (AD-39)- East San Fernando Valley		Expresses legislative intent to address the suspension and expulsion of African American and Hispanic children in early learning and care settings at disproportionate rates and inequitable access to high quality early learning and care through data transparency and accountability. Would add to documentation child care resource and referral agencies maintain to include data on requests for child care by race and ethnicity of the child. Among other items, would also include the CDSS in coordination with the CDE to develop and maintain the Early Learning and Care Dashboard for public reporting data regarding CSPP and other early learning and care programs.					
AB 761	Aguiar-Curry (AD-4) - Winters		Would encourage licensed child care programs and their employees to complete trauma-informed training. Would require, upon appropriation by the Legislature, the SPI to administer the Trauma- Informed Childcare Training Grants Program to expand access to the training across the state. Would require a local consortium to submit an addendum to its QRIS block grant action plan to be eligible for the grant funds.					
AB 1361	Rubio (SD-22) - Baldwin Park		Childcare and Developmental Services: Preschool: Expulsion and Suspension: mental health services: reimbursement rates: This bill would update the definition of mental health consultation service, revise the requirements relating to the nature and frequency of the consultation service provided, and expand the types of mental health care professionals who can provide the consultation service. The bill would require, among other things relating to the consultants, the contracting agency to ensure, within the first 30 days upon hire or start of consultation service, that a consultant have specified training.					
AB 1363	Rivas (AD-39)- East San Fernando Valley		Would require an adjustment factor of 1.1 be applied to the reimbursement rate if an agency serves dual language learners (DLLs) from 2 years through kindergarten. Would also require the SPI to develop procedures for identifying and reporting data on DLLs in a preschool program to include a child's home language and the language composition of the staff.					
SB 50	Limon (SD-19) - Santa Barbara		Early Learning & Care: CA Early Learning and Care Program: This bill would express the intent of the Legislature to establish the California Early Learning and Care Program to create a seamless, integrated, mixed-delivery, whole-child, 2-generation early learning and care system from birth to school age to advance the state's Master Plan for Early Learning and Care. The bill would additionally require the department to allow and arrange for interagency adjustments between those contracts for the same agency or different agencies and the same funding allocation, and to establish timelines for those interagency contract fund transfers.	Sponsors: EveryChild CA				
SB 70	Rubio (SD-22) - Baldwin Park		Elementary Education: Kindergarten: Under current law, a person between the ages of 6 and 18 years who is not exempted by law is subject to compulsory full-time education. Current law excludes a child under 6 years of age from the public schools, subject to specified exceptions. This bill, beginning with the 2022–23 school year, would require a child to have completed one year of kindergarten before that child may be admitted to the first grade, thereby imposing a state-mandated local program.

LA City Council File: 20-0652	Krekorian (CD-2)	Martinez (CD-6)	Conditional Use Permits: The proposed motion would streamline the Conditional Use Permitting (CUP) process for childcare centers in the City of Los Angeles.					
LA City Council File: 20-1428	Martinez (CD-6)	Rodriguez (CD-7); Raman (CD-4)	Universal Child Care: The proposed motion would direct the Housing and Community Investment Department to report on the City of LA can access state funding to support a universal child care plan in the city.					
LAUSD- Res-XXX-XXXX	Gonez (BD-6)		Universal Transitional Kindergarten	language forthcoming				
Health								
AB 4	Arambula (AD-31) - Fresno		Medi-Cal: Eligibility: Would, effective January 1, 2022, extend eligibility for full scope Medi-Cal benefits to anyone regardless of age, and who is otherwise eligible for those benefits but for their immigration status, pursuant to an eligibility and enrollment plan.					
AB 32	Aguiar-Curry (AD-4) - Winters		Telehealth: Current law requires a health care service plan contract or health insurance policy issued, amended, or renewed on or after January 1, 2021, to specify that coverage is provided for health care services appropriately delivered through telehealth on the same basis and to the same extent as in person diagnosis, consultation, or treatment. Current law exempts Medi-Cal managed care plans that contract with the State Department of Health Care Services under the Medi-Cal program from these provisions, and generally exempts county organized health systems that provide services under the Medi-Cal program from Knox-Keene. This bill would delete the above-described references to contracts issued, amended, or renewed on or after January 1, 2021, would require these provisions to apply to the plan or insurer's contracted entity, as specified, and would delete the exemption for Medi-Cal managed care plans. The bill would subject county organized health systems, and their subcontractors, that provide services under the Medi-Cal program to the above-described Knox-Keene requirements relative to telehealth. The bill would authorize a provider to enroll or recertify an individual in Medi-Cal programs through telehealth and other forms of virtual communication, as specified.					
AB 265	Norris (AD-74) - Laguna Beach		Medi-Cal: Reimbursement Rates: Current law requires the State Department of Health Care Services to develop, subject to federal approval, reimbursement rates for clinical or laboratory services according to specified standards, such as requiring that reimbursement to providers for those services not exceed the lowest of enumerated criteria, including 80% of the lowest maximum allowance established by the federal Medicare Program for the same or similar services. This bill would delete provisions relating to the above-specified 80% standard and would make conforming changes.					
SB 17	Pan (SD-6) - Sacramento		Public Health Crisis: Racism: This bill would state the intent of the Legislature to enact legislation to require the department, in collaboration with the Health in All Policies Program, the Office of Health Equity, and other relevant departments, agencies, and stakeholders, to address racism as a public health crisis.					
SB 250	Pan (SD-6) - Sacramento		Health Care Coverage: Would authorize the Department of Managed Health Care and the Insurance Commissioner, as appropriate, to review a plan's or insurer's clinical criteria, guidelines, and utilization management policies to ensure compliance with existing law. If the criteria and guidelines are not in compliance with existing law, the bill would require the Director of the Department of Managed Health Care or the commissioner to issue a corrective action and send the matter to enforcement, if necessary. The bill would require each department, on or before July 1, 2022, to develop a methodology for a plan or insurer to report the number of prospective utilization review requests it denied in the preceding 12 months.

AB 19	Santiago (AD-53) - Los Angeles		Unemployment Insurance Compensation: COVID-19 Pandemic: Temporary Benefits: The federal Coronavirus Aid, Relief, and Economic Security Act (CARES Act) temporarily provides for expanded unemployment benefits through the federal Pandemic Unemployment Assistance (PUA) and Pandemic Emergency Unemployment Compensation (PEUC) provisions of the CARES Act. This bill would require the Employment Development Department to provide, until July 1, 2022, following the termination of assistance pursuant to PUA and PEUC or any other federal or state supplemental unemployment compensation payments for unemployment due to the COVID-19 pandemic, in addition to an individual's weekly benefit amount as otherwise provided for by existing unemployment compensation law, unemployment compensation benefits equivalent to the terminated federal or state supplemental unemployment compensation payments for the remainder of the duration of time the individual is unemployed due to the COVID-19 pandemic, notwithstanding the weekly benefit cap.					
AB 31	Lackey (AD-36) - Palmdale		Child Abuse: Would state the intent of the Legislature to enact legislation relating to child abuse and neglect.					
AB 65	Low (AD-28) - Campbell		California Universal Basic Income Program: Would declare the intent of the Legislature to enact legislation to create a California Universal Basic Income Program, with the intention of ensuring economic security for all Californians.					
AB 126	Garcia (AD-56) - Coachella		Special Education Programs: Family Empowerment Centers on Disability: This bill would revise and recast the provisions related to Family Empowerment Centers on Disability, including requiring the department to give priority to grant applicants in those of the 32 regions in the state that do not have a center, increasing the minimum base rate for each center awarded a grant from $150,000 to $237,000 commencing with the start of the fiscal year after a center has been established in each of the 32 regions, and, commencing with the 2024–25 fiscal year, providing for an annual cost-of-living adjustment of the grant amount, as specified.					
AB 248	Choi (AD-68) - Irvine		Income Taxes: Credits: Cleaning and Sanitizing Supplies: COVID-19: Would allow a credit against the Personal Income Tax Law and the Corporation Tax Law for each taxable year beginning on or after January 1, 2021, and before January 1, 2022, to a taxpayer that is a business with a physical location in the state in an amount equal to the costs paid or incurred by the qualified taxpayer during the taxable year for the purchase of cleaning and sanitizing supplies used at business locations in the state to prevent the transmission of the novel coronavirus (COVID-19).					
SB 24	Caballero (SD-12) - Salinas		Domestic Violence: Protective Orders: Information Pertaining to A Child: Current law authorizes a court to issue an order enjoining a party from engaging in specified acts against another party, including threatening or harassing that party, and, in the discretion of the court, against other named family or household members. An intentional or knowing violation of this order is punishable as a misdemeanor. This bill would authorize a court to issue an exported order restraining a party from accessing records and information pertaining to the health care, education, daycare, or employment of a minor child of the parties, and would require the Judicial Council to develop or update any other forms or rules of court that are necessary to implement this provision. The bill would require the third party to develop protocols relating to the enforcement of the order, as specified.					
SB 61	Hurtado (SD-14) Sagner		Workforce Training Programs: Supportive Services: This bill would require the California Workforce Development Board to establish and administer the Lifting Families Out of Poverty Supportive Services Program. The bill would require the board, upon appropriation by the Legislature for that purpose, to make $50,000,000 in grants available to consortia, composed of combinations of local workforce development boards, community colleges, or other stakeholders, that apply for funding to provide supportive services, as defined, and are approved in accordance with the bill. Among other requirements					
SB 276	Ochoa (SD-23) - Yucaipa		Earned Income Tax Credit: 2020 Credit Calculation: This bill, for each taxable year beginning on or after January 1, 2020, and before January 1, 2021, would authorize a taxpayer to elect to have the amount of the credit calculated based on the taxpayer's earned income for the prior taxable year beginning on or after January 1, 2019, and before January 1, 2020					
Communities								

Policy Item	Author/Budget Amount	Co-Authors	Title & Description	Notes/Sponsor/Status	Community Identified Priority	Analysis Complete	Position Taken	Support Letter
AB 41	Wood (SD-2) - Santa Rosa		Broadband infrastructure: Current law provides that the Department of Transportation has full possession and control of state highways and associated property. Current law requires the department to develop guidelines to facilitate the installation of a broadband conduit on state highway rights-of-way. This bill would state the intent of the Legislature to enact future legislation that will improve California's "Dig Once" policy and expedite the deployment of broadband infrastructure in communities that are currently unserved and underserved.					
AB 47	Reyes (AD-47) - Grand Terrace		Human Services: Coordinated Immigration Support Services: Would require the State Department of Social Services to establish a grant program in coordination with one or more qualified nonprofit social service agencies, as defined, to provide multitiered and coordinated immigration support services in California to undocumented and mixed-status families who reside in the state and were separated by the federal government. The bill would require those support services to meet specified criteria.					
AB 221	Santiago (AD-53) - Los Angeles		Emergency Food Assistance: Would require the State Department of Social Services to provide a food assistance benefit statewide to low-income California residents, regardless of their immigration status, upon the appropriation of funds by the Legislature for this purpose or a determination by the Governor that specified funds available to the Governor may be used for this purpose. The bill would provide that a person is eligible for this benefit if they are an adult who self-attests to eligibility for at least one of 3 prescribed benefits, including the Federal Emergency Food Assistance Program, and that this benefit is a disaster benefit rather than a public social service.					
AB 339	Lee (AD-25) - San Jose		State and Local Government: Open Meetings: Current law requires all meetings, as defined, of a house of the Legislature or a committee thereof to be open and public, and requires all persons to be permitted to attend the meetings, except as specified. This bill would require all meetings, including gatherings using teleconference technology, to include an opportunity for all persons to attend via a call-in option or an internet-based service option that provides closed captioning services and requires both a call-in and an internet-based service option to be provided to the public.					
AB 1024	Santiago (AD-53) - Los Angeles		Hazardous Substances: Correction and Remedial Actions: Milestones and Contracting. This bill would require the department to at least partially incorporate fixed-price contracting for the performance of the response or corrective actions. The bill would require the department to establish performance milestones for those actions to ensure that the actions are performed at the appropriate pace. The bill would require the department to post on its internet website the status and pace of all response or corrective actions undertaken by the department and would require the department to provide updates at least once every 6 months.					
SB 4	Gonzalez (SD-33) - Long Beach		Communications: California Advanced Services Fund: Current law establishes the Governor's Office of Business and Economic Development, known as "GO-Biz," within the Governor's office to serve the Governor as the lead entity for economic strategy and the marketing of California on issues relating to business development, private sector investment, and economic growth. This bill would require the office to coordinate with other relevant state and local agencies and national organizations to explore ways to facilitate streamlining of local land use approvals and construction permit processes for projects related to broadband infrastructure deployment and connectivity.					
SB 108	Hurtado (SD-14) - Sagner		State Healthy Food Access Policy: Would declare that it is the established policy of the state that every human being has the right to access sufficient healthy food. The bill would require all relevant state agencies, including the State Department of Social Services, the Department of Food and Agriculture, and the State Department of Public Health, to consider this state policy when revising, adopting, or establishing policies, regulations, and grant criteria when those policies, regulations, and grant criteria are pertinent to the distribution of food and nutrition assistance.					

Policy Item	Author/Budget Amount	Co-Authors	Title & Description	Notes/Sponsor/Status	Community Identified Priority	Analysis Complete	Position Taken	Support Letter
SB 274	Wieckowski (SD-10) - Fremont		Local Government Meetings: Agenda and Documents: The Ralph M. Brown Act, requires meetings of the legislative body of a local agency to be open and public and also requires regular and special meetings of the legislative body to be held within the boundaries of the territory over which the local agency exercises jurisdiction, with specified exceptions. Current law authorizes a person to request that a copy of an agenda, or a copy of all the documents constituting the agenda packet, of any meeting of a legislative body be mailed to that person. This bill would require a local agency with an internet website, or its designee, to email a copy of, or website link to, the agenda or a copy of all the documents constituting the agenda packet if the person requests that the items be delivered by email. If a local agency determines it to be technologically infeasible to send a copy of the documents or a link to a website that contains the documents by mail or by other electronic means, the bill would require the legislative body or its designee to send by mail a copy of the agenda or a website link to the agenda and to mail a copy of all other documents constituting the agenda packet, as specified.					
Sustainability								
AB 79	Ting (SD-19) - San Francisco		Budget Act of 2020: The Budget Act of 2020 made appropriations for the support of state government for the 2020-21 fiscal year. This bill would amend the Budget Act of 2020 by adding items of appropriation and making other changes. This bill would declare that it is to take effect immediately as a Budget Bill.					
SB 395	Caballero (SD-12) - Salinas		Healthy Outcomes and Prevention Education Act: Excise Tax: electronic cigarettes: Health Careers Opportunity Grant Program. This bill would impose an additional tax for the privilege of selling electronic cigarettes, as defined, at retail of an unspecified percentage of the gross receipts from the sale of electronic cigarettes in this state. The bill would require all revenues, interest, and penalties, less refunds, collected from the tax described above to be deposited into the Health Careers Opportunity Grant Program Fund, the Cigarette and Tobacco Products Surtax Fund, the California Children and Families Trust Fund, and the California Healthcare, Research and Prevention Tobacco Tax Act of 2016 Fund, as specified. By allocating additional moneys to continuously appropriated funds, this bill would make an appropriation.

Introduction

Best Start Region 1, in partnership with hundreds of residents and organizational partners, presents the *Driving Equity and Justice Community Bill of Rights* to chart a new path for accountability, healing, growth, and justice for our communities.

In 2009, Para Los Niños established the Best Start Metro LA (BSMLA) Partnership, in partnership with First 5 LA. The initial goal of the Partnership was to strategically address community priorities by building and cultivating transformational partnerships between residents, community-based organizations, philanthropy and governmental agencies that share power. Since 2018, BSMLA, under the new banner of Best Start Region 1, has been scaled to include East Los Angeles, South El Monte/El Monte, Southeast LA and has redoubled its efforts to address the systemic conditions that each community has prioritized.

In response to the impacts of the COVID-19 pandemic and the failure of a systemic response by local governmental institutions, Best Start Region 1 established a network of distribution hubs across the four communities to respond to the most urgent needs **(Appendix 1)** and to create this Bill of Rights to guide a cohesive and comprehensive systems change approach.

While not Best Start's primary function, the systemic collapse of L.A.'s health and human services in response to the pandemic, particularly for the most historically neglected communities, compelled Best Start Region 1 community partner organizations to establish a network of local-access distribution hubs, to coordinate and connect residents to concrete services and health-related resources. Specifically, the Best Start Region 1 Network of Distribution Hub Partners **(Appendix 2)**:

2968

- Recognized the severe technology gap that exists amongst its residents/constituents and reached out, 1-on-1 to learn about their situation, the challenges they were facing, and to explore opportunities where we may be able to support them.
- Engaged families individually to conduct a region-wide vote on the reallocation of funds from local projects, to instead provide concrete support to families of the entire region, Best Start participation notwithstanding (the vote was overwhelmingly "yes").
- Conducted a Best Start Region 1 Community Impact Survey that assessed the resident experience with systems before and during the pandemic. The survey, made up of over 100 questions, and over 20 pages long, was distributed to 1420 families. Of those, 342 were returned and disaggregated to surface the following priorities that were most impacting their daily lives due to COVID-19:
  - *Full, Equitable Digital Inclusion*
  - *Quality, Affordable, and Stable Housing*
  - *Free, Quality Local Care & Instruction from Birth to Graduation*
  - *Equitable Employment and Wealth Building Opportunities*
  - *Free, Safe, Clean, and Rapid Public Transportation*
  - *Nurturing Connected, Inviting, Healthy Neighborhoods*
  - *Culturally-appropriate, Affordable, and Healthy Local Foodways*
  - *Equitable, Timely and Responsive Holistic Health Care*
  - *Creating Inclusive, Safe, and Supportive Communities*
  - *Decriminalization of Human Migration*
- Coordinated with like-minded, private and public partners to begin the distribution of food items, personal protective equipment, diapers, formula, clothing, etc. at local hubs, accessible by foot or vehicle, that engage all recommended safety protocols to ensure the elimination of risk of spread of COVID-19.
- Identified a vendor open to partnering in the development and implementation of a door-to-door, home, food delivery program that minimized exposure to all parties, who was responsive to community and partner needs, was able to secure food items during a time of severe food insecurity, could provide culturally appropriate and quality food items, and who had the capability and will to eventually scale delivery of items door-to-door for all residents.
- Leveraged an existing partnership between First 5 LA and LA Metro (Los Angeles Metropolitan Transportation) to repurpose an existing point-to-point ridership program (Via), into an essential item, door-to-door delivery program
- Recognized that while immediate needs were being addressed to the best of the network's efforts and capacity, the larger issue of systemic failures and rampant inequity needed to be addressed (Appendix 3). Thus, the Best Start Region 1 Network Distribution Committee, composed of community residents and partners took on the work of developing a Bill of Rights to address historical inequities and injustices, of which the COVID-19 response (or lack thereof) is only the latest example of.

2969

This document is a call to action and a roadmap for real change that will:

- *Fully address the breadth, severity, and sustained impacts of COVID-19 on our communities.*
- *Recommit to an inclusive movement that champions resident self-determination to rectify the historical impacts of racism and its resulting inequities on our communities.*
- *Enable individual and collective healing in our communities.*
- *Demand just and equitable outcomes for all communities.*

Preamble

All people are deserving of dignity and have the right to thrive. Yet the sudden and systemic collapse of Los Angeles County's health and human services in response to the Covid pandemic, particularly in the most historically neglected communities, is a reminder that such universal rights—even the pursuit of them—are often compromised in times of crisis.

This system-wide failure and resulting service vacuum compelled the Best Start Region 1 community partner organizations to move beyond their usual function. This meant directly coordinating and connecting residents to direct services and health-related resources via distribution hubs—in short, assuming the roles and responsibilities that government departments and programs are supposed to fill.

While the Best Start Region 1 crisis response was necessary and helpful, it is not a sustainable model in the long run. Ultimately, even effective triage actions fail to dismantle the longstanding, systemic inequities burdening our residents. In fact, no amount of "mutual aid" or emergency services can upend the overwhelming burdens of structural racism, inequity and injustice.

Experience has shown that local and national disasters, from Hurricane Katrina to the Great Recession and beyond, only exacerbate the everyday inequities experienced by Black, indigenous, immigrant (particularly the undocumented), LGBTQIA, and other communities of color—leaving them only more vulnerable to disease, deprivation, and death. Those accumulating inequities grow from the structural racism, white supremacy, nativism, and disinvestment deeply-rooted in our public systems (such as government, schools, and health care) and budgeting choices—even in the ways the general public talks and thinks about these choices.

Recognizing these challenges and that lasting change must be driven by those most impacted, Best Start Region 1 partnered with residents to envision the best path forward. Together, we then prioritized wholesale solutions addressing root causes and transformative recovery extending beyond stopgap pandemic relief. While Covid-19 circumstances made such engagement more challenging, it affirmed Best Start Region 1's decade-long commitment to a sustained, consistent, and meaningful partnership with the residents.

Our Model for Partnership - DRIVING EQUITY & JUSTICE

To effectively implement the *Driving Equity and Justice Community Bill of Human Rights*, **we propose our model for partnership with Best Start Region 1. In order to move towards equity and justice, all institutions, private and public, must operationalize community-informed values in their work, policies/protocols and daily practices as detailed below:**

- Public systems and institutions must operate from the premise that all people have the right to the resources necessary for them to thrive.
- "Access" to essential public resources alone does not ensure equitable utilization or benefit - for reasons unrelated to residents' need for or eagerness to use those services and resources. Making access to basic resources (food, shelter, water, healthcare, transportation, civic representation) contingent on other inequitably-allocated resources (such as computing technology, high speed internet connections, banking, "good" credit, etc.) only compounds residents' struggle to thrive. Equity demands systems actively creating conditions for success, not settling for passive access and bureaucratic hope. Those modern resources must become universal rights to ensure real access to the more traditional rights and resources. 2971

- The experiences, data, and priorities uplifted by the residents through an authentic exploration must serve as the “north star” - guiding each step of the Bill of Human Rights’ development and driving the systems changes to come.
- All such information must be used to challenge wrongheaded presumptions by those in power that unjustly put responsibility on marginalized individuals and communities for the problems in their midst, to uplift the responsibility of institutions and systems to acknowledge their role in perpetuating and remediating for inequity and injustice, and resisting the paradigm and narrative that places responsibility and blame on individual residents and communities for society’s most pressing challenges.
- To begin moving toward equity, public systems must acknowledge their role in prior historical harm done to communities of color - and make the required commitment in time, power-sharing, accessibility reforms, and dedicated investments in those communities to fully remediate those harms via restorative justice, healing, and inclusive decision-making.
- Local and state budgeting processes must adopt an equity-based approach, work in partnership and toward empowerment of local youth and adults, and with full transparency and accountability to those residents.
- Anti-Blackness - both explicit in society and implicitly embedded in our systems - has historically and continues to particularly hamper Black residents’ ability to thrive. It does so by compounding the focused harm done to them across criminal justice, health, employment, housing, education, and other public systems. This unique burden must be officially recognized and rectified through collaborative and equitable means that are tailored specifically to repair this harm.

Driving Equity and Justice
A COMMUNITY BILL OF HUMAN RIGHTS

The right to human dignity and empowerment cannot be delayed any longer. Equity demands justice, funding, community decision-making power, along with critical self-appraisal from systems and those who have traditionally held power. That is why we declare the following rights must be provided to Black, indigenous, immigrant (particularly the undocumented), and other communities of color.

FULL, EQUITABLE DIGITAL INCLUSION

All individuals and communities have the technological infrastructure, training, and decision-making authority necessary to equitably participate in and propel our ever-more digitized, internet-based society.

In the long-term

public investments informed by robust community input on any infrastructure vision-setting, planning, and budgeting for high-speed broadband networks in communities with lagging technological infrastructure; locally-tailored training programs for residents to advance in the telecommunications, computing, and web-based professions.

In the short-term

ensuring that access to public resources is not reliant upon one's access to the latest technological hardware and software; supplying communities with computing and wifi hardware necessary to enable high-speed connectivity for all in homes, educational, parks, and community settings; training in K-12 and adult educational settings on digital skills, coding, etc.

> *"El acceso a Internet en una escala que pueda adaptarse a la educación desde el hogar, el acceso a recursos de beneficios y la capacitación en alfabetización en Internet son esenciales. No es solo acceso, es acceso que se puede utilizar. El gobierno / estado debe proporcionar tanto el acceso como la capacitación."*

> *Internet access on a scale that can accommodate homeschooling, access to benefit resources, and Internet literacy training are essential. It's not just access, it's access that can be used. The government/state must provide both access and training."*

2973

QUALITY, AFFORDABLE, AND STABLE HOUSING

All individuals and families have secure housing in the neighborhood of their choice. Those who are unsheltered are given the resources and support needed to gain stable housing.

In the long-term

dedicated housing dividend that supports residents who are housing insecure or unsheltered, resident-centered building incentive programs to improve and expand local affordable housing options, and community-owned housing to ensure families can age in place.

In the short-term

rapid provision of safe housing and supportive resources for unsheltered people, immediate rent cancellation, and mortgage assistance for low-income property owners until the pandemic subsides.

> *"The tenant must not be coerced or threatened in a coercive manner by a landlord... and the tenant must be free from retaliation or threats such as eviction."*

2974

FREE, QUALITY LOCAL CARE & INSTRUCTION FROM BIRTH TO GRADUATION

All children are guaranteed free, quality, local care and education options from early childhood through university/college graduation that promote holistic well-being and prepare them to seize post-graduate opportunities. This twinned education/care approach embraces flexible practices tailored to students' individual needs and strengths. At each stage, decision-making should be shared among students, their caregivers, and educators.

In the long-term

instruction and care in educational settings is based on empathy, addresses historical trauma that communities have experienced, fosters true partnership with students and caregivers—all while promoting students' inquiry, understanding, career possibilities, and overall well-being rather than mechanical or habitual repetition-style learning. Aggressive training and hiring reforms are put in place to deliver this educational transformation via educators of color. Educational inequities are reversed by adopting and implementing existing #StudentsDeserve Detailed Demands **(https://docs.google.com/document/d/12ANwJlB_Fznd61CAdcss90vDcnclAYqw5NIolnMbCMw/edit)** that acknowledges the compounding impacts on Black students and shifts power to parents and caregivers through meaningful engagement and partnership.

In the short-term

every student's family has the basic educational resources needed for quality remote learning—including free, quality internet and relevant technology hardware along with digital literacy training. Clear goals, expectations and opportunities are routinely communicated to caregivers and students. Students are provided support to adequately meet their total personalized needs - including language needs, special needs, and mental health needs. Health and safety protection is provided to all teachers and school staff.

> *"Our government systems have failed to respond to and serve young people of color without their best interests at heart, and instead, as the data shows, use a punitive approach rather than well-being and care."*

> *"The School District recognizes that it is failing, the bad thing is that mothers and fathers are always singled out as not caring about their daughters/son's education. We have to demand better conditions for our communities, just as the district provides for other communities."*

2975

EQUITABLE EMPLOYMENT AND WEALTH BUILDING OPPORTUNITIES

All willing individuals participate in the labor force—one built of safe, health-promoting workplaces with wages in step with local cost-of-living and flexible employment models that align with employees' life and family circumstances. Residents are given training opportunities for financial empowerment and professional advancement in a future-oriented economy, provided access to capital for starting a business, and are supplied the means to accumulate generational wealth for their loved ones.

In the long-term

eradicate long-term student debt and discriminatory credit requirements for accessing basic services; eradicate discriminatory hiring practices relying on barriers related to educational attainment, language fluency, justice system involvement, etc.; ensure wages are tied to annual cost of living adjustments; guarantee labor protections and fair wages for all employees as well as informal entrepreneurs such as street vendors, gardeners, etc.; and establish a guaranteed income for all.

In the short-term

a steady guaranteed income for residents who lost their jobs and/or experienced significant income loss amid the pandemic and supplemental income support for all essential workers regardless of immigration status.

2976

> *"There are many barriers from the System (government policies), because they benefit from the cheap labor of the community and the government system creates laws, including federal, state and local immigration laws, that do not benefit our working communities."*

FREE, SAFE, CLEAN, AND RAPID PUBLIC TRANSPORTATION

A recognition that transportation is a vital public good that is subsidized by residents, decisions must center those whose primary mode of transportation is public transit. Their dependence does not mean forfeiting one's dignity, security, or punctuality.

In the long-term

ensure no communities are left behind by providing free, safe, and ongoing sanitation and upkeep of public transportation for all by dedicating sustainable funding for public transportation that protects workers and meets the equitable needs of each community, particularly in transportation deserts and riders who use public transportation as their primary mode of transportation.

In the short-term

public transportation must provide and connect community members to urgent resources such as food, medical support, etc. Free public transportation – including bus, metro and ride share services – is available FOR ALL along with increased service and additional routes and stops to avoid long waiting times and overcrowding. In addition, all forms of transit protect the health and safety of both workers and riders.

> *"More clean public transportation services, more transportation safety, free public transportation."*

NURTURING CONNECTED, INVITING, HEALTHY NEIGHBORHOODS

Building health and well-being of current community members through robust, equitable local investments in green space/park/community infrastructure & maintenance, low-stress walkways and bikeways with ample sidewalks and lighting, community greeters and helpful staff, recreational opportunities for all ages, and associated community-oriented programs.

In the long-term

shift the local and state annual budgeting process toward an equity-based formula, community stewardship of neighborhood spaces, and an accountability system that requires partnership with and empowerment of children, youth and adults.

In the short-term

immediately address and mitigate air pollution, toxic environmental sources, enhance water and soil quality, and ensure every family has easy and safe access to high-quality green spaces to play, exercise, connect, retreat and relax.

> *"I think that the police, instead of giving us security many times, we feel frightened because just by looking at us they discriminate against us because of our skin color or our language."*

CULTURALLY-APPROPRIATE, AFFORDABLE, AND HEALTHY LOCAL FOODWAYS

Quality, health-promoting, fresh, and locally-sourced food is available to individuals at home, in care settings, and in schools regardless of income or neighborhood.

In the long-term

create local, sustainable and replicable partnerships by working with existing local farmers of color to source produce, dairy, etc. In addition, expand and sustain food and essential item transportation by public and private public transportation to residents and community organizations.

In the short-term

humanize food access by addressing the disconnect between hunger and the food supply chain which includes public and private transportation, local farms, restaurants, food banks, and local businesses. In addition, end the criminalization of poverty by eliminating the eligibility criteria and establishing a "no wrong door" sign-up process for food banks, pantries and any food recovery efforts.

2979

> *Many food banks require registration on the internet and many people do not have access to the internet or do not know how to use it, there are many barriers, there is a technology challenge to access food.*

EQUITABLE, TIMELY AND RESPONSIVE HOLISTIC HEALTH CARE

Private and public health systems guarantee all individuals receive the quality, local primary and specialty health care that integrates all aspects of well-being (physical, oral, optical, and behavioral health) necessary to eradicate inequitable health outcomes due to race, income, neighborhood, and immigration status.

In the long-term

implement strategies that address the barriers families face to accessing quality health and mental health care (e.g., transportation, language and technology) in order to achieve equity including integrating and aligning county/city health and human services and policies, making it easier for families to enroll by streamlining enrollment processes across and between public benefits, and bringing care to where communities are by supporting and resourcing community health clinics, health navigators, and community health workers/promotoras/es de salud.

In the short-term

ensure that ALL communities of color, including justice system-impacted and undocumented people, receive (in-person and online) COVID-related relief, including COVID-19 information, testing, personal protective equipment, vaccinations, treatments, as well as other related supports – such as mental health—at no cost and at no risk of Public Charge.

> *The government systems put many barriers, many requirements for health services, especially if your income is a little high, sometimes they humiliate us in these places and we will not ask for help. The treatment that one receives in these places impacts the person.*

CREATING INCLUSIVE, SAFE, AND SUPPORTIVE COMMUNITIES

Foster healing not harm, lasting well-being, and general safety in vulnerable communities through significant investments in violence prevention, gang intervention, rehabilitative, reconciliation, survivor, and supportive services designed to give all residents viable alternatives to violence, retaliation, and an overreliance on the criminal justice system. Balance this with a sharp divestment from punitive law enforcement practices that systemically perpetuate local trauma by criminalizing misfortune (poverty, behavioral health challenges, homelessness) and immutable identities (Black, indigenous, immigrant - particularly the undocumented, LGBTQIA, and other communities of color).

In the long-term

use the care-first vision of community safety and well-being to actively divert residents from the criminal justice system (beginning with arrests, bail, courts, and detention of any kind) and toward community-based care alternatives - using public money to fund an expanded care and support network to meet the needs of all who have suffered from this unjust system's legacy.

In the short-term

an end to law enforcement and public policies that criminalize poverty, behavioral health issues, homelessness, blackness and immigration status through a reallocation and repurposing of existing funds, e.g., excess law enforcement, prison industry, detention centers, school resource officers, etc. These reallocated funds would equitably build robust capacity for healing, restorative, preventative, supportive, rehabilitative, and economic advancement practices, services and spaces that build/strengthen entire communities – including those that have been directly harmed by crime and the criminal justice system.

> *"We deserve respect, we deserve equity, dignity as people and society."*

DECRIMINALIZATION OF HUMAN MIGRATION

Individuals and families have the right to travel freely across international and domestic borders and utilize government resources without the fear of being harassed, detained, and/or separated. They are able to participate and engage in public discourse and advocacy without fear of retribution – and have viable pathways for obtaining full citizenship.

In the long-term

better understand and address the root causes and current drivers of migration in order to end the criminalization of immigrants; abolish Immigration Customs Enforcement (ICE); enforce/guarantee humane and comprehensive immigration reform that uplifts humanity and creates a path to full citizenship for those who are undocumented, and encourages the human need to move freely across borders.

In the short-term

the end of Public Charge with a concurrent education campaign that informs undocumented immigrants that they won't be penalized for accessing public supports, the immediate release of all people held in detention/deportation centers by ICE, the reunification of families, reparations to those families, the inclusion of undocumented people in all COVID-19 recovery/relief efforts, the disentanglement of federal immigration enforcement entities and local law enforcement, and reallocation of immigration designated funds to respond to COVID-19 recovery efforts.

> *The requirements for financial aid and other assistance have many barriers, especially limited for undocumented people.*

> *Undocumented people simply don't have many options for good health care. We all deserve good health care. We all deserve respect.*

Acknowledgements

We honor those that we have lost or have become ill due to COVID-19 or to other tragedies and we were unable to be at their side to lay them to rest. They are our loved ones and community who will live in our hearts and in our restorative work ahead.

We thank the community residents across the Best Start East LA, Metro LA, South El Monte/El Monte and Southeast LA , that continued the labor intensive work, commitment, and ability to pivot dramatically when hit by the COVID-19 Pandemic. Despite their lives and livelihoods being at stake, the loss of jobs, the inability to access food, diapers, formula and sanitation items to feed and protect their children and family members, eligibility requirements and lack of access to technology and internet to obtain city, county, state or federal family supports, risk of and actual evictions by landlords who do not respect the Los Angeles County Rent Moratorium, and in most extreme cases, testing positive without the ability to self-isolate due to density of households, difficulty in accessing basic medical care, the tragic loss of loved ones and difficulties taking on the financial burden of laying those loved ones to rest, community residents partnered with us to put these Bill of Human Rights together to be heard.

We also thank a committed group of organizations, private and public entities and foundations that rolled up their sleeves when their stability was uncertain. They were concerned about the lives of the families that they serve and felt the urgency to adapt, respond, and help form the Best Start Region 1 Distribution Hub Network to serve as local community hubs across the Region to connect families that were experiencing extreme hardships, with urgent essential items, COVID-19 information and mental and spiritual support.

Together, we were charting new territories. Yet, the authentic relationships, trust and the tested and perfected infrastructures and processes that we developed over the years, came into play as we pivoted to serve as direct service providers, while simultaneously strategizing with community residents and other stakeholders to move our systems change efforts forward with more clarity, with the goal of finally achieving true equity and justice for the most marginalized communities in Los Angeles County.

Lastly, we thank our funders, California Community Foundation, First 5 LA, Momentum Fund, and Robert Wood Johnson Foundation and our Para Los Niños Family for your commitment, collaboration and trust to serve the communities that we have the privilege to serve and partner with.

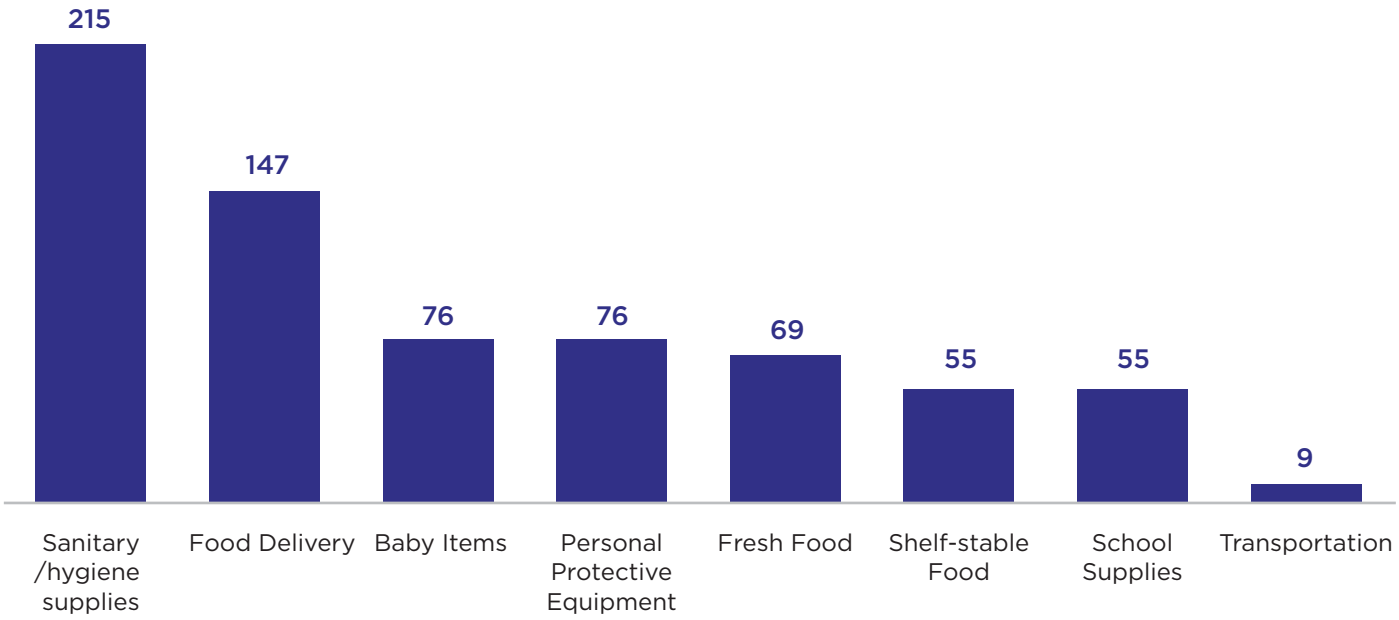
BEST START REGION 1 URGENT NEEDS SUPPORT EFFORTS

The initial Best Start Region 1 needs assessment conducted on 260 households through individual phone calls at the outbreak of the pandemic surfaced residents' heightened need to safely access food, sanitary and hygiene supplies, personal protective equipment, baby items, school supplies and transportation.

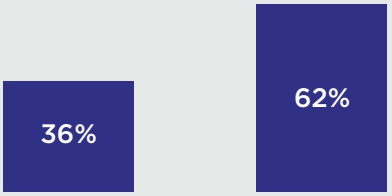


Recent research shows that food insecurity **in Los Angeles County during COVID-19** is unprecedented and higher than pre-COVID-19: 39.5% of low-income families experienced food insecurity between April and May 2020, and 50% of adults in Los Angeles County who experienced food insecurity during the pandemic had children in their households (Haye et al., 2020).

Best Start Region 1 Community Impact Survey found that food insecurity for Region 1 families was even more severe: the families who experienced food insecurity almost doubled from pre-pandemic 36% to 62% during the pandemic. Income loss and having children increased the risk of food insecurity for families. Among those who experienced food insecurity during the pandemic, 84% lost at least half of their income and 82% had children ages 0 to 18 years old.

2985

Food insecurity almost **doubled** for families in Region 1



Among those who experienced food insecurity...

82% had children

84% lost at least half of their income during the pandemic

Based on those data, Region 1 Best Start Region 1 Distribution Hub Network has mobilized resources to support the most vulnerable families who face insecurity with food and other essential items during the pandemic. Through the Network, 4,050 families have been supported between April to December 2020, with 15,726 food boxes and 6,606 sanitary boxes. Families with children at home face unique challenges with accessing resources. Our support was focused on this group: within the region, 72% of families who received support had children ages 0-18, among them, 18% were families headed by a single adult.* As the home delivery pilot project expanded, it provided a more secure option to this group, as well as to those who faced the transportation barrier, two groups which often overlap. Among those who switched to home deliveries, 75% were families who had children ages 0-18* and 72% had initially accessed distribution hubs by walking or asking friends for help.**

** Those who were missing family demographic were excluded from this count*

*** Those who were missing data on the form of pick-up were excluded from this count*

This map shows how wide the support reached through the Best Start Region 1 Distribution Hub Network between April and December 2020 (by zip code). These are the areas severely hit by COVID-19.

The Early Care and Education (ECE) Coalition envisions child care and early childhood education systems that serve and meet the diverse needs of all children, families and ECE professionals, especially Black, Latinx, Indigenous people and others harmed by systemic racism and additional injustices; integrate culturally, developmentally, and linguistically relevant and responsive high-quality care and education for children, inclusive of children with disabilities; and value and justly compensate all who serve children and families.

To achieve this vision, the Coalition advocates for state budget investments and policies that promote equity by serving the highest-need children first, are informed by current research and promising practices, and are led by the expertise of families and ECE professionals.

The investments outlined in this letter will help mitigate the disparate impact that communities of color face on a daily basis when it comes to child care in California**. These funds will strengthen and expand a comprehensive child care system that is equitable, affordable, accessible, meets families' needs, and pays providers a fair wage.**

Direct Services:

- $435 million in on-going general fund and federal fund dollars for a rate increase to bring all child care providers to the 2018 regional market rate level;
- $1.75 billion for child care spaces with family fees waived (including Title 5 programs, contracted centers, family child care homes, AP providers & family friend neighbor providers)
    - $750 million in on-going general fund and federal fund dollars
    - $1 billion in one-time federal fund dollars over three years;
- $325 million in one-time federal fund dollars to cover all family fees through September 2024;
- Ensuring providers are paid on an enrollment basis through September 2024.

Infrastructure Supports:

- $825 million in one-time general fund and federal fund dollars for facilities including comprehensive services for families ex: wellness hubs; re-opening and new child care provider grants;
- $275 million in general fund and federal fund dollars to support professional development;
- $1.875 billion in one-time federal fund dollars for child care provider stipends and incentive grants to reach our neediest communities;
- $105 million in various funding to support and stabilize our child care infrastructure.

Women are leaving the workforce
The COVID-19 pandemic has sharply illuminated what every working family already knew, Child Care IS Essential**.** According to the National Women's Law Center, more than 2.3 million women have left the labor market entirely since the beginning of the pandemic in the United States. Lean In and the McKinsey & Co estimate that 1 in 4 women are considering leaving the workforce or downshifting their careers due to the impact of COVID-19.

Black and Latinx women are bearing the brunt of this crisis
The pandemic has exposed the reality that women, particularly Black and Latinx women, have lost the most during this economic downturn. According to Child Trends, Twenty-nine percent of Latinx and thirty-one percent of Black families with children are facing three or more economic and health-related

hardships during the pandemic. This means that Latinx and Black families with children are experiencing three or more hardships at nearly twice the rate of their White and Asian counterparts (13% and 16%, respectively).

Child care infrastructure is on the brink of collapse
According to the Resource and Referral Network in California 33% of licensed child care centers and 14% of licensed family child care homes have closed their doors since the start of the pandemic. This represents a significant loss of an already precarious private and state supported child care capacity. The UC Berkeley Center for the Study of Child Care Employment, determined that nationwide, the child care workforce shrank by 20%, nearly 200,000 child care workers, within the first six months of the pandemic. **California's child care system, which is overwhelmingly served by Black, Latinx, and immigrant women, has for decades persistently functioned in low-wage survival mode barely able to make it from year-to-year.**

From our collective experiences, during the pandemic, we know that child care is not only vital for children and families to thrive, but is an essential element in the future of the California economy. The ECE Coalition developed this budget request with working parents in both the private and state-support system, a broad array of child care providers, and child advocacy groups. Based on our shared experience, we believe the Coalition's budget recommendation will stabilize our child care system, to get families back to work, and ensure California's sustained economic growth.

Sincerely,
ECE Coalition

Agenda Item: 5
Date: May 13, 2021

First 5 LA

SUBJECT:
Approve Resolution No. 2021-03 ratifying specified acts taken by the Executive Director during the declared state and local COVID-19 public health emergency.

RECOMMENDATION:
Approve Resolution No. 2021-03 by a roll call vote at the May 13, 2021 Board meeting.

BACKGROUND:
After consulting with First 5 LA's Chair, Vice Chair, and legal counsel, on March 17, 2020 Executive Director Kim Belshé communicated to the Board of Commissioners her need to take emergency actions in order to protect the health and well-being of First 5 LA employees and our external contractor and grantee partners. In this communication, Executive Director Belshé outlined eight areas of actions needed to maintain critical functions, including authority to:

1. Waive the Governance Guidelines related to Board sequencing and approval of items
2. Exercise emergency provisions provided in our existing procurement policy
3. Extend contracts scheduled to expire by 6/30/20 for up to 90 additional days, with expected Board action by 9/30/20 on those contracts recommended for renewal
4. Continue to pay invoices and contracted amounts as they come due, even if work associated with those invoices is different than originally anticipated
5. Purchase necessary goods and services needed in response to COVID-19…including entering into strategic partnerships with partners focused on a COVID-19 response, in some cases in excess of the Board-delegated authority of $75,000 but no greater than $150,000
6. Assure conference organizers with whom F5LA has a paid sponsorship agreement that F5LA will not seek return of funds if the event has been or will be cancelled
7. Affirm the mid-year FY19/20 budget adjustment recommendations brought to the March meetings of the Finance Committee and the Board as approved for the remainder of the current budget year and for purposes of the FY20/21 budget development, and
8. Adjust F5LA's employee personnel policies and implementation of these policies, including paid time off, as deemed necessary.

In exercising these authorities, the Executive Director also communicated her intent to disclose these actions to the Board and to seek ratification by the Board at the next regular Board meeting. This action occurred at May Board meeting in compliance with the requirements set forth in that communication. Since that date, this memo, Resolution No. 2021-03, and the accompanying exhibit continue to keep the Board apprised of emergency actions taken since the last meeting of the Board.

RESOLUTION NO. 2021-03

A RESOLUTION OF THE LOS ANGELES COUNTY CHILDREN AND FAMILIES FIRST PROPOSITION 10 COMMISSION RATIFYING SPECIFIED ACTS TAKEN BY THE EXECUTIVE DIRECTOR DURING THE DECLARED STATE AND LOCAL COVID-19 PUBLIC HEALTH EMERGENCY

The Board of Commissioners of the Los Angeles County Children and Families First Proposition 10 Commission ("the Commission") hereby finds as follows:

Whereas, on March 4, 2020 the Governor of California declared a state of emergency to enable the State to prepare for the broad spread of the Covid-19 virus in California; and

Whereas, on March 13, 2020 the Los Angeles County Health Officer issued a Public Health Order, updated on April 10, 2020, that requires many residents to stay at home or their place of residence, with certain exceptions, and ordered many "non-essential" businesses to be closed; and

Whereas, on March 13, 2020 First 5 LA Executive Director Kim Belshé, to protect the health and safety of staff and to assist with the efforts of public health officials, directed First 5 LA staff to begin working from home as of March 17, 2020; and

Whereas, on March 17, 2020 Executive Director Belshé notified the Board of Commissioners in writing that, with the concurrence of the Board Chair and Vice Chair, she intended to assert certain emergency authorities for the continuity of operations of First 5 LA subject to disclosure to, and ratification by, the Board of Commissioners; and

Whereas, on March 19, 2020 Los Angeles Mayor Eric Garcetti issued a "Safer at Home" Public Order, also ordering Angelenos to remain at home or at their place of residence in order to slow the spread of the COVID-19 virus, except for essential workers; and

Whereas, the Board of Commissioners has received and reviewed the list of Executive Director actions taken under her emergency authority.

NOW, THEREFORE, BE IT RESOLVED THAT:

1. Each of the Executive Director actions set forth on Exhibit A attached to this Resolution, incorporated herein by this reference, is ratified by the Board of Commissioners.

2. The executed copy of this Resolution shall be retained on file as evidence of the Commission's action herein.

PASSED, APPROVED AND ADOPTED THIS 13TH DAY OF MAY, 2021 BY THE FOLLOWING VOTE:

AYES: Commissioners

NOES: Commissioners

ABSTAIN: Commissioners

Exhibit A

List of F5LA Actions Related to Management of Covid-19

Per the 3/17/20 Communication with the Board and earlier communication with the Chair and Vice Chair, the Executive Director was given emergency authority in 8 areas to ensure the protection and safety of our staff and external partners. These 8 areas are:

1. Ability to waive the Governance Guidelines related to Board sequencing and approval of items coming to the Board
2. Exercising emergency provisions and provided in our existing procurement policy
3. Ability to extend contracts scheduled to expire by 6/30/20 for up to 90 additional days, with expected Board action by 9/30/20 on those contracts recommended for renewal
4. Ability to continue to pay invoices and contracted amounts as they come due, even if work associated with those invoices is different than originally anticipated
5. Purchase necessary goods and services needed in response to COVID-19…including entering into strategic partnerships (SPs) with partners focused on a COVID-19 response, in some cases in excess of the Board-delegated authority of $75,000 but no greater than $150,000
6. Ability to assure conference organizers with whom F5LA has a paid sponsorship agreement that F5LA will not seek return of funds if the event has been or will be cancelled
7. Affirm the mid-year FY19/20 budget adjustment recommendations brought to the March meetings of the Finance Committee and the Board as approved for the remainder of the current budget year and for purposes of the FY20/21 budget development, and
8. Ability to adjust F5LA's employee personnel policies and implementation of these policies, including paid time off, as deemed necessary

The table below provides an inventory of authorities exercised to date and will be brought forward for ratification by the Board, per the attached resolution 2021-03:

Emergency Authorities (EAs) Executed Typically Requiring Board Action				
Item No.	Dept. Functional Area	Description of EA Executed	Area(s) of EA (from above list)	Description/List of Items
1	Contract Administration and Purchasing	Purchase necessary goods and services needed to respond to the COVID-19 virus pandemic and associated issues affecting young children and families	#5	On July 9, 2020 the board approved a strategic partnership in the amount of $777,000 with the California Community Foundation to manage a pooled fund to address COVID-19 impacts on the early learning sector and maintain access to quality early learning services for the most vulnerable children birth to age five for the period of 11 months. Goals of this project are to: 1) Increase supply distribution to child care sites to ensure healthy and

				nurturing care in the context of the COVID-19 health and educational environment; 2) Develop and disseminate training and materials in response to new and evolving COVID-19 health and safety guidelines; 3) Provide financial support to providers to ensure facilities could accommodate social distancing and other public health guidelines; 4) Provide stop gap funding for voucher stipends for low-income workers who need subsidized care while awaiting state funding. An additional $75,000 was approved by the Executive Director to support communications for the LA County ECE COVID-19 Response Team around vaccination. These funds will augment the subcontract with VIVA communications, who manages existing county response communications work. The funds will support the following outputs: 1. Continued maintenance of the County's COVID-19 response website for providers. Continued use of this platform is an essential component of vaccination-related communication work. 2. Targeted advertising to providers to address vaccination hesitancy, promote vaccine confidence, and provide support accessing vaccines. 3. Collateral including video and fact sheets to be used on the county website and in targeted advertising. This collateral will also be shared with partners statewide.

FY 2021-22 Draft Budget

Meeting of the Board of Commissioners

May 13, 2021

3000

1st LA
first 5 la
Giving kids the best start

Objectives

1. Budget Overview: Themes, Highlights, Components, Summary
2. Programmatic Costs
3. Operating Costs
4. Administrative Cost Limit
5. LTFP Revisions
6. Next Steps

3001

Key Budget Themes

Strategic Implementation & Budget Related Themes

- Greater integration and collaboration
- Continued implementation of the SP imperatives
- Continued emphasis on sustainability
- Investments are filtered through the lens of Diversity, Equity and Inclusion
- Policy, advocacy and systems change
- Partnership-building
- Strategically maximizing First 5 LA's human resources

3002

Highlights

1) Continued eye toward long-term sustainability
   - Restricted Board approved non-Proposition 10 funding will offset expenditures ($5.1 M)
2) Continuing to work through a global pandemic (as the infections begin to wane)

3003

3) Changes to the Budget Framework
   - Organized to align with the Adapted Organizational Structure, compared to FY 20-21
   - Greater alignment with the 2020-2028 SP

Highlights

4) Activities sunsetting consistent with terms

5) FTE cap has been reduced in alignment with November 2020's Adapted Organizational Structure

   - From 148 FTEs to 120 FTEs

3004

6) Process & Touchpoint Integration

   - Work planning development

Budget Components

Components of the FY 2021-22 Budget

1. Strategic Plan
   a) Center for Child & Family Impact
   b) Offices
2. Legacy Investments
3. Emerging Opportunities
4. Internal Operations (Operating Budget)

3005

FY 2021-22 Budget Summary

Budget Component	FY 2020-21 Budget Original	FY 2020-21 Budget Revised	Proposed FY 2021-22 Budget	Variance	
Program					
Center for Child & Family Impact Total	84,377,000	87,757,000	77,525,000	(10,232,000)	
Offices Total	10,101,000	9,471,000	10,060,000	589,000	
*Other**	828,000	828,000	-	(828,000)	
Total 2020-2028 Strategic Plan	**$ 95,306,000**	**$ 98,056,000**	**$ 87,585,000**	**$ (10,471,000)**	-10.7%
Legacy Investments	3,153,000	3,233,200	3,219,000	(14,200)	
Emerging Opportunities	3,000,000	215,000	1,500,000	1,285,000[3006]	
Total Program	$ 101,459,000	$ 101,504,200	$ 92,304,000	(9,200,200)	-9.1%
Operating (includes COE, OESL and Pgm Ops)	22,797,493	22,308,248	21,892,171	(416,077)	-1.9%
TOTAL BUDGET	**$ 124,256,493**	**$ 123,812,448**	**$ 114,196,171**	**$ (9,616,277)**	**-7.8%**

** Represents projects that expired in FY 20-21 or whose certain activities (not entire projects) were included in a different budget for FY 21-22*

*** Reflect new structure and work compared to FY 20-21 Departments; as such, year to year comparison will not be exact*

Internal Operations (Operating Budget)

OPERATING COST CATEGORY	FY 2020-21 Budget				Proposed	
	Original		Revised		FY 2021-22 Budget	
Personnel Services	$ 17,804,695	78%	$ 17,804,695	80%	$ 17,304,109	79.0%
Operating Services	2,004,260	9%	1,853,610	8%	1,840,224	8.4%
Consultant Services	1,789,225	8%	1,772,225	8%	1,801,100	8.2%
Professional Services	484,718	2%	477,818	2%	468,623	2.1%
Travel Expenses	326,745	1%	40,550	0%	113,600	0.5%
Professional Development	387,850	2%	359,350	2%	364,515	1.7%
Total Operating Costs	**$ 22,797,493**	**100%**	**$ 22,308,248**	**100%**	**$ 21,892,171**	**100%**

Please note: Percentages reflected have been rounded to the nearest whole

3007

- Total overall cost is below the FY 2020-21 budget
- 120 FTE budgeted for a full-year
- Includes a 3.2% merit increase, consistent with prior year

Administrative Cost Limit

$14.1 million or 12.34% of the total proposed FY 2021-22 budget

- Broad (Inclusive) Approach:
  - All costs for administrative departments, including EVP and COO budgets, as well as 100% of salary/benefit costs for Executive Director's Office, Directors and Administrative Assistants

3008

- Increase due to a decline in program costs in proportion to operating costs
- Estimates also adhere to Strategic Plan Refinement and adopted LTFP recommendations proposing a 15% total annual cost cap to Administrative costs

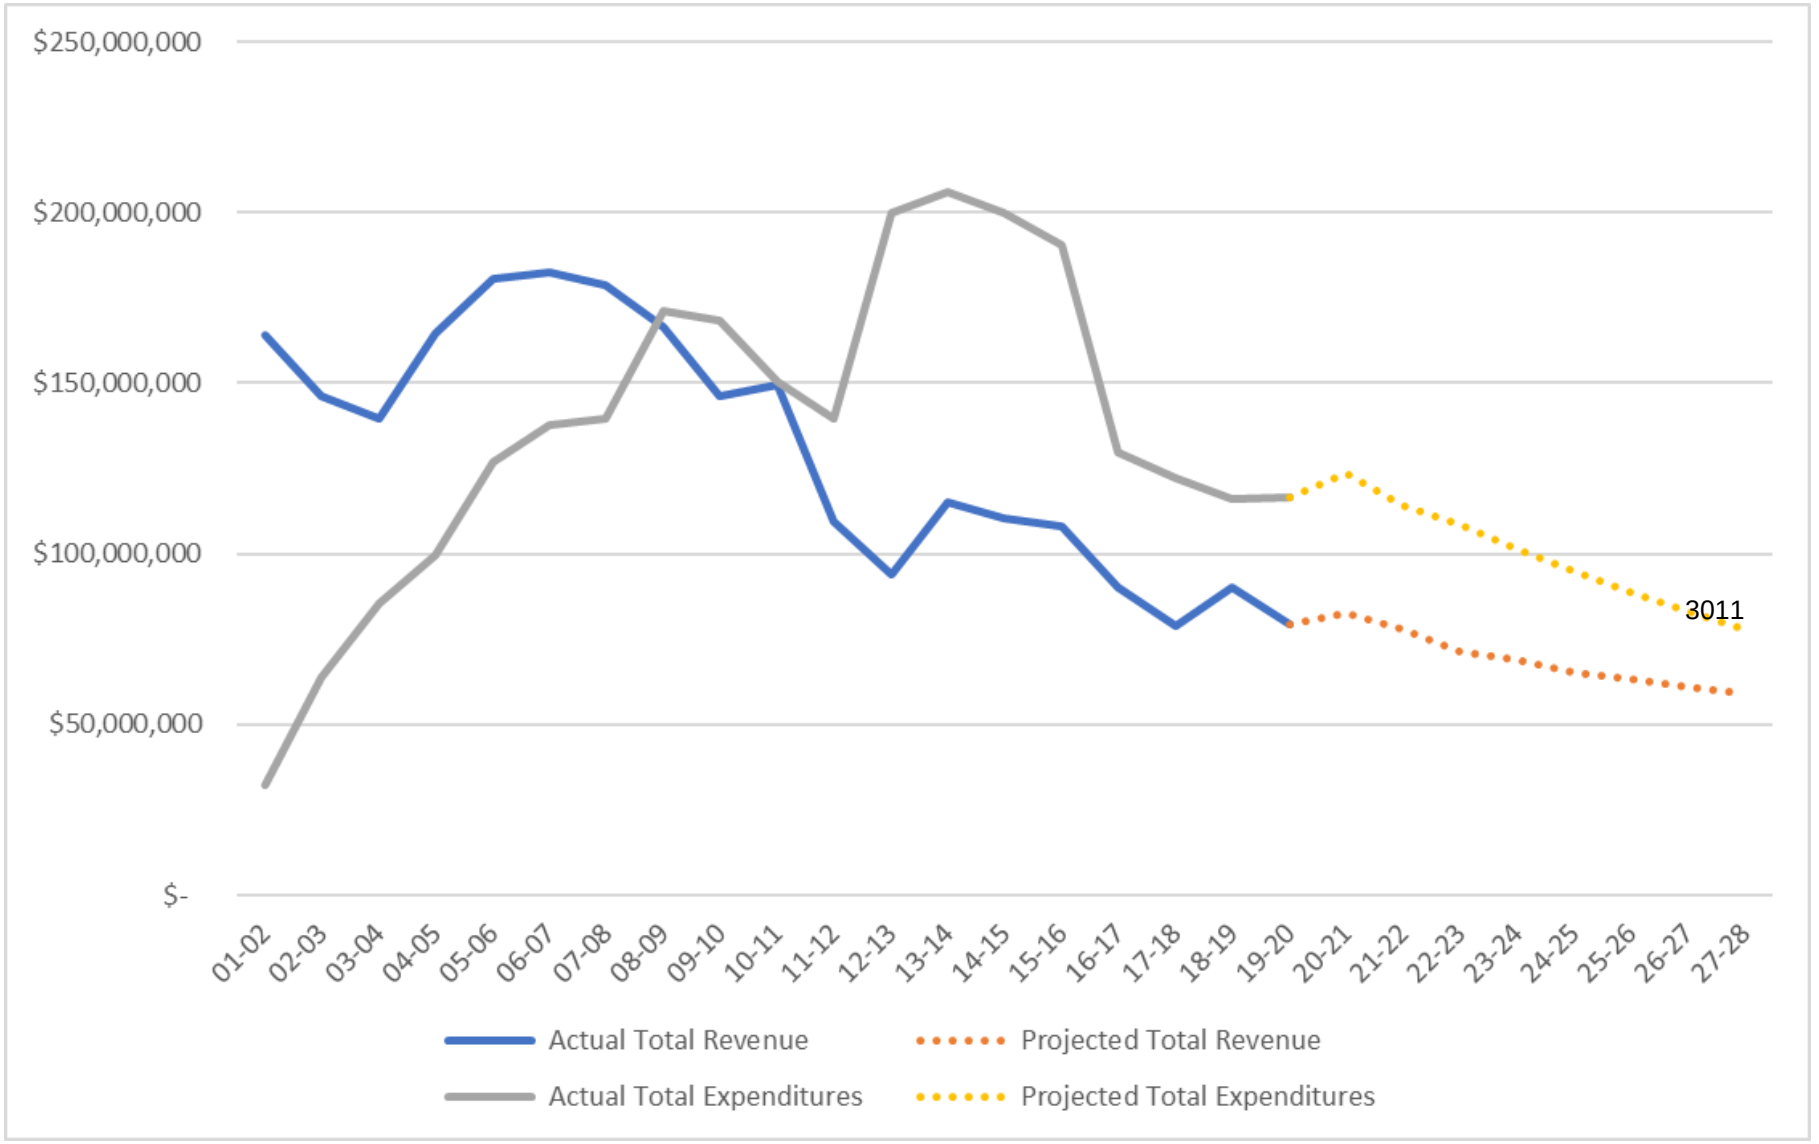
LONG-TERM
FINANCIAL
PLAN
3009

LTFP: Overview

- Purpose of the LTFP: To aid in the Commission's financial stewardship role by providing a framework that shows the long-term implications of funding decisions.
- Our LTFP (plan period FY 2020-2028) is a spending plan which includes: revenue, program commitments and operating expenditures that establish our spending ceilings. The plan also displays our fund balance through FY 27-28.
- The FY 21-22 Proposed Budget is adhering to the ceiling established by the Long-Term Financial Plan and approved by the Board in FY 20-21
- Expenditures and revenues were adjusted based on new information for FY's 19-20 through 21-22 (see Appendix A)

3010

Revenue & Expenditure Projections



FY 2021-22 Revenue

May 2020 CA Department of Tax and Fee Administration (CDTFA) Projected Proposition 10 Revenue for FY 21-22: $69.5 million

- This represents an increase of $231,000, compared to the projected revenue included in the Long-Term Financial Plan presented to the Board for approval in July 2020.

Other revenues for FY 21-22 include:

3012

- $5.1 million from First 5 California to fund work related to the Home Visiting Coordination Project, Dual Language Learner project, IMPACT and QSLA Expansion.
- Interest earnings

Total Projected Revenue for FY 21-22: $77,968,208

LTFP Assumptions

1. Annual spending limits were approved by the Board in July 2020
   - Program costs represent 85% of total costs on an annual basis
   - Administrative costs represent no more than 15% of total costs on an annual basis
   - ❖ Changes to revenue, proposed spending, and/or fund balance must be presented to the Board for review and approval

3013

2. Proposition 10 revenue estimates align with the latest projections provided by F5CA and the CDTFA.

LTFP Assumptions

3. Other revenue reflects confirmed and projected revenues.
4. The annual rate of decline, beginning with FY 2023-24 through FY 2027-28, is approximately 6.47%
   - This results in a glide path through FY 2027-28
   - Ending Fund Balance is approximately $55.9M
5. Reserve (Operations) assumes 25% of the total FY 2019-20 budget and 50% of the total budget beginning in FY 2020-21 in accordance with Resolution #2020-05 reviewed and approved by the Board in July 2020

3014

Adjustment Results

- Increase in Revenue
- Decrease in expenditures from FY 2020-FY 2022
- Increase in Projected Available Ending FY 27-28 Fund Balance from $4.2M to $55.9M

3015

Memo

To: Board of Commissioners

From: Kim Belshé, Executive Director

Date: May 13, 2021

Subject: **FIRST 5 LA PROPOSED FISCAL YEAR 2021-22 BUDGET**

Members of the Commission,

We are pleased to present the budget for fiscal year (FY) 2021-2022. The proposed budget reflects First 5 LA's continued work – in partnership with others - to strengthen families, communities and systems of services and supports to ensure that by 2028, all children in LA County enter kindergarten ready to succeed in school and life.

This budget is presented and approved by the Board at a time of ongoing change and challenge in the context of the COVID-19 pandemic. Throughout the proposed budget, Commissioners will see investments and strategies that reflect First 5 LA's continued efforts to support staff, contractors and grantees, and young children and their families to navigate immediate and longer term implications of the pandemic. And, throughout the proposed budget the Board will see the team's commitment to the three critical drivers of Strategic Plan implementation: focus and priority-setting, integration and alignment, and diversity, equity and inclusion.

The detail of the proposed budget is captured in Attachment A. Here, I want to lift up a number of critical aspects of the proposed budget that reflect First 5 LA's evolution, our context and our enduring commitment - across all of our work - to our strategic direction, to our staff as "impact multipliers", to sustainability, and to our values of collaboration, learning, integrity and diversity, equity and inclusion.

Working in new, more integrated and high impact ways. To meet this moment, First 5 LA is embracing new approaches to our work. An important example is our work planning and resource forecasting process, which has helped us identify and clarify each team's work, assess the work against our strategic plan goals, identify opportunities for integration and prioritization, and connect internal operational processes, like contract renewals and budget development, to strategic plan implementation. The proposed budget for fiscal year 2021-22 is the product of the First 5 LA team leaning into new approaches to achieve greater impact. In this proposed budget I hope Commissioners will see:

COMMISSIONERS

Los Angeles County Supervisor Sheila Kuehl
Chair

Judy Abdo
Vice Chair

Bobby Cagle
Barbara Ferrer, Ph.D., M.P.H., M.Ed.
Astrid Heger, M.D.

- Tighter alignment of requested resources to the refined strategic plan and strategic priorities.
- More intentional alignment of work across the organization, such as the focus of communications to strategic goals.
- Recognition of the long-term and evolving nature of trust- and partnership- building, systems change and policy and advocacy; and, a corresponding multi-year outlook beyond the budget year.
- Explicit focus on the critical asset the First 5 LA team represents, with Center/Team/Office overviews providing richer information of Center/Team/Office functional responsibilities, staffing and priorities for the year ahead.
- More intentional incorporation of sustainability as a responsibility shared across the organization and as a strategy aligned to diverse contexts and opportunities.
- Discipline and adherence to our investment guidelines; such as, for example, honoring the expiration of contracts.
- Inclusion of diversity, equity and inclusion as both an organizational value and investment guideline that is embedded in where we focus, what we hope to achieve, and how we undertake our work together and alongside partners.
- Alignment of resources with the functions of First 5 LA's new organizational structure.

Advancing our clear strategic direction. The Strategic Plan provides the roadmap to guide our work as a systems change leader and funder, grounded in our values and investment guidelines. Consistent with the Strategic Plan's direction, staff recommend resources to support work aligned to the four strategic priority areas:

1. Strengthen public and community systems
2. Advance and build on community experience
3. Expand influence and impact with data
4. Optimize First 5 LA's operational effectiveness

The proposed budget for FY 2021-22 represents staff's best estimate of the financial and staff resources needed to advance the results for children and families and strategic priorities articulated in our Strategic Plan. As you'll see in the accompanying material, First 5 LA's work is evolving, informed by experience, learning and the dynamic context in which we work. Commissioners will note recommended continued funding of such anchor investments as family-strengthening home visiting and Best Start. And, you'll see newer work that is gaining traction and momentum, such as early identification and intervention/Help Me Grow-LA and African American Infant and Maternal Mortality (AAIMM) initiative, and work that is more developmental, such as strategies to strengthen the delivery of Family Child Care and Family, Friends and Neighbor Care. Requested resources reflected the developmental stage and strategic opportunities associated with each initiative.

Commissioners will also note recommended resources that reflect closer integration of First 5 LA's activities. Examples include tightening the focus of our kindergarten readiness assessment strategy on the Best Start geographic regions and our strategic communications efforts on clear systems change priorities. Importantly, Commissioners will continue to see a closer integration of our programmatic and policy work to support First 5 LA's efforts to leverage learning from our programmatic efforts to inform and drive state policy change. Examples here include family-strengthening home visiting and early identification and intervention.

A PUBLIC ENTITY
750 N. Alameda Street, Suite 300 Los Angeles, CA 90012 Phone: 213.482.5902 Fax: 213.482.5903 First5LA.org

Implementing our Strategic Plan, adapting to our context. For First 5 LA, the proposed budget is coming to the Board in the context of an enduring global pandemic with far-reaching implications for our staff, contracted partners and the children and families of LA County. And, it's occurring against the backdrop of continued senseless killings of people of color, police brutality and structural racism.

As a systems change leader and funder, First 5 LA has been attentive to the evolving and unprecedented context in which this budget has been developed. We have discussed with the Board this past year our recognition that addressing the COVID-19 pandemic and contributing to efforts to eradicate racial disparities and systemic inequities are not new, additive pieces to our work; rather, they represent the context in which we are doing work, and our strategic plan will guide our response. The recommended resources for FY 2021-22 speak directly to the opportunities we see for First 5 LA to adapt to our context and contribute to an LA County that is just, inclusive and equitable.

Aligning to First 5 LA's new organizational structure, focusing on key budget year priorities. The proposed budget is organized around the new structured announced in the fall of 2020. Appendix E provides an overview of each Center, Team and Office, along with the critical budget year priorities for each function that are foundational to our longer-term systems change goals. These two-page summaries provide a crisp presentation of the critical work ahead across the organization, the deployment of First 5 LA's human assets in furtherance of our goals, and points of integration across functional responsibilities.

Advancing sustainability of early childhood development priorities, of First 5s. Consistent with First 5 LA's investment guidelines, sustainability strategies are embedded within all of our work – a recognition by the board of the predicted and real decline in Proposition 10 revenue. First 5 LA's fiscal imperative requires that we bring a comprehensive approach to sustainability, including operating within our fiscal reality, pursuing new revenue and fund leveraging strategies, and maximizing opportunities to co-invest with partners.

Throughout the budget, you'll see evidence of First 5 LA's sustainability efforts. Examples include: deploying non-First 5 LA funding to support our early care and education quality and dual language learners initiatives; securing grant funding for ACES Aware; leveraging philanthropic funding to extend the reach of our built environment initiative, LINK; structuring contracts to incentivize sustainability efforts, such as an incremental yearly decrease of First 5 LA's support of Regional Network Grantees; entering into agreements with Medi-Cal managed care organizations to support funding of essential family-centered services, such as home visiting, and securing, analyzing and leveraging data to help inform and drive policy changes, such as public CalWORKS support for home visiting.

Living our values of diversity, equity and inclusion. First 5 LA's refined strategic plan provides a solid roadmap to guide our work as a systems change leader, grounded in our values and investment guidelines, including diversity, equity and inclusion (DEI). Consistent with Board direction, we're challenging ourselves in our Strategic Plan implementation to recognize racial disparities and inequities in the systems we seek to change, to dig into the root causes that contribute, and work to change the underlying policies, practices and public attitudes that we know hold these inequities in place.

Throughout the proposed budget, Commissioners will see how DEI is informing and focusing our work, such as seen in efforts to close racial disparities in home visiting, our evolving early care and education strategic focus on family child care and the centrality of DEI in First 5 LA's

A PUBLIC ENTITY

750 N. Alameda Street, Suite 300 Los Angeles, CA 90012 Phone: 213.482.5902 Fax: 213.482.5903 First5LA.org

more focused policy agenda. In addition, the proposed budget includes resources to support the organizational work underway to ensure we are living our DEI values in the workplace, both programmatic and operational.

Energizing advocacy across our work, diverse partners, the Network of First 5s. First 5 LA plays an increasingly important and visible role as a connector, convener and partner in local, county and state advocacy to priority young children and their families in policy and practice. The proposed budget recommends continued support of such critical advocacy investments as the Early Care and Education Coalition, the Association of First 5s, and our Sacramento and Washington, D.C.-based advocates. The budget also includes an additional year of support for the Early Care and Education Policy and Advocacy Fund, at a reduced level, and the Built Environment Policy and Advocacy Fund. As noted in the budget, resources are requested to undertake the initial work to establish an integrated Policy and Advocacy Fund aligned to the more holistic child and family goals outlined in the Strategic Plan.

First 5 LA staff as impact multipliers. We are careful stewards of First 5 LA's resources and attentive to our evolving fiscal context. And, we recognize we are a resource rich organization – our programmatic funding, to be sure; and, importantly, each member of the First 5 LA team, the smart, strategic, energetic, mission-driven people I am proud to call my colleagues. The proposed budget recognizes our staff team as one of First 5 LA's most significant investments in systems change and aligns operational expenditures with our new organizational structure and functionality required to successfully execute against our strategic plan.

The budget for FY 2021-22 includes a total budget request of approximately $114.2 million as presented in the table below.

Budget Component	FY 2020-21 Budget		Proposed FY 2021-22 Budget	Variance
	Original	Revised		
Program				
Center for Child & Family Impact	84,377,000	87,757,000	77,525,000	(10,232,000)
Offices	10,101,000	9,471,000	10,060,000	589,000

Operating	22,797,493	22,308,248	21,892,171	(416,077)
TOTAL BUDGET	**$ 124,256,493**	**$ 123,812,448**	**$ 114,196,171**	**$ (9,616,277)**

** Projects expired in FY 20-21 or included in a different budget*

Finally, I'd like to close with my appreciation to Finance Department Director Raoul Ortega, Daisy Lopez and the Finance team for their collaborative budget development efforts with the Office of Equity, Strategy and Learning (OESL) team, Antoinette Andrews Bush and Kaya Tith. Informed by the OESL-facilitated work planning and resource forecasting process, the budget development process has reflected new approaches to advance a more focused, integrated and DEI-centered budget plan. In so doing, the First 5 LA team has been broadly engaged in work planning and budget development, which has elevated staff input and insights and yielded a

ATTACHMENT A:

FY 2021-22 BUDGET - HIGHLIGHTS

3026

ATTACHMENT A:
FY 2021-22 BUDGET – HIGHLIGHTS

The FY 2021-22 Budget represents resources that will support Year 2 implementation of the 2020-2028 Strategic Plan, which was approved by the Commission in November 2019. This budget is the culmination of internal collaboration across teams, alignment of program costs to our strategic direction and fiscal realities of declining tobacco tax revenues, and the continued evolution of First 5 LA as it fulfills its multiple roles as advocate, convener, funder, catalyst, communicator, and partner. The reduced level of spending, compared to prior year, reflects the progress undertaken to apply the drivers of strategic plan implementation – focus and prioritization, alignment and integration, and diversity, equity and inclusion – to our work. This has led to greater clarity around how to deploy and maximize First 5 LA's human and fiscal resources strategically and in alignment with the evolution of First 5 LA, our fiscal reality, and the results we seek for children and families in Los Angeles County.

Proposed program and operating budget resources will be drawn from the Assigned category of the fund balance. At the time of budget approval, requested program resources will shift from the Assigned resource category to the Committed category and operating resources will shift from the Assigned resource category to the Unassigned.

This FY 2021-22 Budget Highlights document provides a general overview of budget requests at the Team/Office/Center level, specifically calling out investments that are new, large, high-profile, or Commission priorities. The document is organized into four sections as detailed in the outline below:

I. Budget Overview
   - A. Budget Development Context
     - o Format and Approach to the FY 2021-22 Budget
   - B. Overall Budget Summary
   - C. Program Costs Summary
     - 1) 2020-2028 Strategic Plan
       - 1A. Center for Child & Family Impact
       - a. Family Supports Team
       - b. Communities Team
       - c. Early Care & Education Team
       - d. Health Systems Team
       - e. Center Support Team
       - 1B. Offices
       - f. Office of Government Affairs & Public Policy
       - g. Office of Communications
       - h. Office of Data for Action
     - 2) Legacy Investments
   - D. Internal Operations (Operating Budget)

II. Revenue Assumptions

III. Impact on Fund Balance

IV. Administrative Cost Limit

It is important to note the distinction and inter-relationship between our Program Costs Summary, which represent our external work, and Internal Operations (Operating Budget), which represent our work to improve our workplace and operational effectiveness. Aligned with First 5 LA's adapted structure, the teams listed under Program Costs Summary above lead First 5 LA's external, systems change work. Teams such as those within the Center for Operational Excellence (e.g. Finance, Information Technology, Workplace Management, Contract Administration and Purchasing, and Human Resources and Talent Management) as well as the Executive Director's Office, and Office of Equity, Strategy, and Learning focus on First 5 LA's internal policies, processes, culture, and physical assets – all of which enable our external work. Proposed resources supporting the work of these teams are reflected in the Operating Budget.

Further detail on Program and Operating Budget requests by each team is provided in Attachments C and E. While the budget document is intended to provide broad parameters around programmatic spending, it is important to note that much of the information included is subject to change, as funding requests were generated using the latest information available at the time the budget was developed. In addition, activities or funding estimates for contracts that have yet to be negotiated may be revised as appropriate. Formal budget adjustments will be included as part of the mid-year adjustment process about halfway through the fiscal year, as needed.

Key budget and supporting documents are organized as follows:

Attachment A: FY 2021-22 Budget – Highlights

Attachment B: Budget Summary - Programs

Attachment C: Program Budget Detail

Program Budget – Detail by Program

Attachment D: Operating

- Operating Costs Summary
- Administrative Limit Calculation
- Schedule of Authorized Positions

Attachment E: Operating Budget Detail

- Center/Office/Team Cover Page
- Operating Budget – Summaries & Detail by Center/Office/Team

For Attachment C, program detail is organized in order of the FY 2021-22 Program Summary. For Attachment E, operating detail is organized within the Center by Team/Office.

I. BUDGET OVERVIEW

The FY 21-22 Budget framework is revised to align with the 2020-2028 Strategic Plan and First 5 LA's adapted organizational structure. The strategic plan pivots away from priority outcome areas toward a focus on four strategic priorities. Included in the attached materials is a Program Budget Summary that connects each FY 2021-22 project to a primary 2020-2028 Strategic Priority. The four Strategic Priorities are defined below:

Strengthen Public and Community Systems: Improve, integrate and expand family-centered systems of early prevention, intervention.

Advance and Build on Community Experience: Connect, maximize and coordinate public resources, local assets and relationships.

Expand Influence and Impact with Data: Expand the availability, use and power of data.

Optimize our Effectiveness: Heighten organizational performance to enhance our impact.

Specific program and operating costs are included in Attachments C and E.

A. BUDGET DEVELOPMENT CONTEXT

Format and Approach to the FY 2021-22 Budget

As we journey into year two of the strategic plan, the budget structure is evolving to further align with the 2020-2028 Strategic Plan structure. We do anticipate that this budget structure will continue to take shape next year and better represent resources that will support strategic plan implementation moving forward through FY 2027-28.

The purpose of the FY 2021-22 Budget is to set the context and provide a proposal for spending on Commission priorities. To maintain fiscal control, we define Budget Authority as a spending cap, and thus have developed the budget based on spending estimates—rather than negotiated contract amounts—so staff has the flexibility to manage contracts within a budget unit without having to return to the Commission. We have generated program-level budget requests that include the program purpose, expected use of funding, and the methodology used to determine the funding level. Additionally, in response to our fiscal imperative and need to make progress in the alignment of revenues and expenditures, the guardrails set for FY 2021-22 include: a work planning assessment of activities earmarked to end at the end in FY 2021-22 to ensure that activities that have completed their objectives are appropriately phased out and a continued emphasis in long-term sustainability.

Changes to the FY 2021-22 Budget:

1. Structural alignment of Program and Operating budgets to the FY 2020-2028 Strategic Plan and the Adapted Organizational Structure.
2. Adjustment to total number of authorized personnel, from 148 to 120.
3. Alignment and adherence to the $116.2 million FY 21-22 spending limit outlined in the long-term plan approved by the Board last year.
4. Resources in support of work-related travel are included for the second-half of the fiscal year, based on the latest COVID-19 data, CDC and LAC DPH's guidance and Senior Leadership's guidance.
5. Twelve months of additional resources included in the operating budget to support the immediate telework needs of staff (mobile/internet stipend)

As an organization, we will continue to filter our investments through a diversity, equity and inclusion lens to ensure we are engaging and operating in a manner that is reflective and responsive to the needs of our communities. Additional funding changes are noted in the pages that follow.

B. OVERALL BUDGET SUMMARY

The total FY 2021-22 Budget is presented in a summary schedule in Attachment B. As shown in the following high-level table, the Budget totals $114.2 million, a decrease of approximately $9.6 million,

or 7.8% compared to the FY 2020-21 revised budget of $123.8 million. Costs are estimated to decrease by 9.1% for programs and decrease by 1.9% for internal operations.

Budget Component	FY 2020-21 Budget		Proposed	Variance
	Original	Revised	FY 2021-22 Budget	
Program				
1A. Center for Child & Family Impact Total	84,377,000	87,757,000	77,525,000	(10,232,000)
1B. Offices Total	10,101,000	9,471,000	10,060,000	589,000
*Other**	828,000	828,000	-	(828,000)
Total 2020-2028 Strategic Plan	**$ 95,306,000**	**$ 98,056,000**	**$ 87,585,000**	**$ (10,471,000)**
Legacy Investments	3,153,000	3,233,200	3,219,000	(14,200)
Emerging Opportunities	3,000,000	215,000	1,500,000	1,285,000
Total Program	$ 101,459,000	$ 101,504,200	$ 92,304,000	(9,200,200)
Operating	22,797,493	22,308,248	21,892,171	(416,077)
TOTAL BUDGET	**$ 124,256,493**	**$ 123,812,448**	**$ 114,196,171**	**$ (9,616,277)**

** Represents projects that expired in FY 20-21 or whose certain activities (not entire projects) were included in a different budget for FY 21-22*

The FY 2021-22 Budget reflects a decline in spending across all areas, consistent with the decline of revenues and long-term strategic direction.

In addition, as noted in section A, the operating budget has been reorganized to align with the Adapted Organizational Structure implemented in November 2020 but not reflected in the budget resources or structure until FY 2021-22.

Funds to support evolving COVID-19 related needs have been built into both the program and operating cost areas.

C. PROGRAM COSTS SUMMARY

1. 2020-2028 STRATEGIC PLAN

The FY 2021-22 Budget reflects the structural alignment of the program budgets to the FY 2020-2028 Strategic Plan and the Adapted Organizational Structure. This has resulted in a lot of movement within the budget at a detailed-level with the movement of project budgets from one area to another, the consolidation and centralization of similar resources across the organization into single projects, and the organization of projects by overseeing Team/Office instead of initiative. As the budget is adaptive to the environment, we will continue to assess and further refine the structure, costs and activities in this fiscal year and future years to best align with the 2020-2028 Strategic Plan. A long-term emphasis on sustainability continues to undergird the investment decisions to advance results for children and families in our communities.

Costs reflected below are approximate, reflecting the best thinking to date regarding the potential needs as we move into the second year of the revised and refined Strategic Plan and find ourselves over one year into a global pandemic.

The 2020-2028 Strategic Plan programmatic costs are captured within two of the three organizational components, based on the Adapted Organizational Structure: The Center for Child & Family Impact and the Offices.

Budget Component	Revised FY 2020-21 Budget	Proposed FY 2021-22 Budget	Variance
Program			
Center for Child & Family Impact			
Family Supports	$ 39,137,000	$ 40,261,000	$ 1,124,000
Communities	20,945,000	17,759,000	(3,186,000)
Early Care & Education Systems	21,288,000	12,964,000	(8,324,000)
Health Systems	5,725,000	5,846,000	121,000
Center Support**	662,000	695,000	33,000
CCFI Total	87,757,000	77,525,000	(10,232,000)
Offices			
Office of Government Affairs & Public Policy**	1,625,000	3,069,000	1,444,000
Office of Communications	5,363,000	4,614,000	(749,000)
Office of Data for Action**	2,483,000	2,377,000	(106,000)
Offices Total	9,471,000	10,060,000	589,000
*Other**	828,000	-	(828,000)
Total 2020-2028 Strategic Plan	**$ 98,056,000**	**$ 87,585,000**	**$ (10,471,000)**

1A. Center for Child & Family Impact

The functions previously organized in what was referred to as the Programs Division is now the Center for Child and Family Impact (CCFI), including: Family Supports, Communities, Early Care & Education Systems and Health Systems. CCFI also introduces a Center Support Team, a team whose work includes multi-sector and cross-cutting partnership-focused endeavors. More information is included below and in Attachment C.

Family Supports ($40,161,000)

The Family Supports FY 2021-22 budget is largely comprised First 5 LA's continued investments in Welcome Baby and Select Home Visiting, which combined comprise a total of $34.0 million of 84.7% of the total Family Supports budget.

Welcome Baby and Select Home Visiting (SHV) represent ongoing programs ("anchor investments") that the Commission confirmed as aligned to the values, guidelines and desired results outlined as part of the 2020-2028 revised Strategic Plan. These activities begin with engaging families through Welcome Baby, a voluntary hospital and home visitation program designed to serve as an outreach to families at strategic points in time during pregnancy, birth, and postnatally. Welcome Baby provides parenting education and health promotion information and invites families into an array of services and supports in their community. In addition, families receive information and support during each visit on topics such as breastfeeding, health, safety, postpartum depression and other issues.

All families delivering at one of the 14 Welcome Baby participating hospitals, regardless of income status or place of residence, are offered a Welcome Baby hospital visit at the time of their baby's birth.

Families residing within a Best Start Community and identified as having a great risk for poor child outcomes will be eligible for referral to one of 18 participating providers' intensive Select Home Visitation Program (Healthy Families America and Parents as Teachers). The goal is to develop a network of high quality, evidence-based models to serve as the primary resource for high risk pregnant women and new parents and to ensure families are matched to the program type that will best meet their needs.

As one of the largest investments, it is helpful to note that the First 5 LA funded home visiting programs continue to meet and exceed established objectives.

Additional project costs proposed for FY 2021-22 include resources to ensure the adherence to program fidelity by Welcome Baby and Select Home Visitation providers. It also includes funds to support the ongoing development, hosting and maintenance of the Welcome Baby and Select Home Visiting client tracking database, funds to support consultation and guidance in family strengthening strategies and, evaluation studies. This budget also includes $100,000 in funding from First 5 California for a two-year cross-sector collaboration project intended to strengthen early childhood development and family support systems by embedding home visiting as a critical component.

The above represents some examples of the budgets and costs included within the FY 2021-22 Family Supports Team budget.

For further information and detail on the FY 2021-22 Family Supports Team program budget amounts and activities please refer to Attachment C.

Communities ($17,759,000)

Of the proposed FY 2021-22 costs within the Communities Team budget, 83.9% or $14.9 million is driven by the fourth-year implementation of the revised Best Start Regional and Local Networks structure (regional with local customization), endorsed by the First 5 LA Board of Commissioners in May 2017.

The five Regional Network grantees (RNGs) represent a network of partners that work together to fulfill achieve outcomes aligned with community priorities at regional and local levels. Examples of this work across the five RNG's includes capacity building and leadership development, community change work, systems change activities, network building as well as organizational capacity building support.

This team budget also includes funds to help establish a cross-sector learning structure and processes with partners engaged in capacity building work within the Best Start geographies, strengthen the capacity of nonprofit organizations actively participating within the local and regional Best Start networks, and resources support community-based organizations in developing and implementing effective, culturally competent built environment policy- and systems-change advocacy initiatives in the Best Start geographies.

In addition, over the next year staff will be exploring options to more intentionally connect our work to build up the RNGs and regional capacity of partners from our Best Start communities to other First 5 LA resources, including within the Center for Child and Family Impact and across the entire organization.

The above represents some examples of the budgets and costs included within the FY 2021-22 Communities Team budget.

For further information and detail on the FY 2021-22 Communities Team program budget amounts and activities please refer to Attachment C.

Early Care and Education (ECE) Systems ($12,964,000)

FY 2021-22 resources will support several activities including Kindergarten Readiness Assessment (KRA), Quality Start Los Angeles (QSLA) and the final year of the ECE Policy Advocacy Fund (ECE PAF).

The largest single investment in this team's budget for FY 2021-22 is the continued work with existing school districts across LA County to promote the collection of Kindergarten Readiness Assessment (KRA) data using the Early Development Instrument (EDI) that can help inform and drive ECE policy, fiscal and systems change. In addition, a major goal in FY 21-22 will be strategy refinement – to determine if and how the KRA data supports the needs of the Best Start Communities. The outcome of this evaluation may impact future KRA funding needs.

The QSLA model, system infrastructure and proposed expansion is using funding from First 5 CA to support quality improvement services in local counties. This expansion will fund a more inclusive structure which will extend the quality improvement services to family, friend, and neighbor (FFN) care, family child care (FCC) and more home-based licensed child care providers without state funding. The work to improve the system also includes funding from First 5 California to design and pilot a Dual Language Learners Program in partnership with others, to meet the needs of dual language learners, through training and professional development opportunities for child are providers.

The ECE Policy Advocacy Fund is in its final year of funding. This project has supported the expansion of publicly funded quality early learning by partnering with key ECE advocacy organizations and funding convenings, learning and evaluation. Although funding for ECE PAF is ending June 30, 2022, an integrated Public Advocacy Fund is expected to launch by next fiscal year.

For further information and detail on the FY 2021-22 Early Care & Education Team program budget amounts and activities please refer to Attachment C.

Health Systems ($5,846,000)

The Health Systems work in FY 2021-22 continues to promote and fund systems change activities across child and family serving systems related to maternal and child health, as well as early screening and intervention to mitigate impacts of trauma exposure and developmental, behavioral delays. In partnership with LA County Department of Public Health (LACDPH), this includes the implementation of the Help Me Grow model in LA County (HMG LA), costs include activities to implement and maintain the four core components of the model:

1. Child Health Provider Outreach: Efforts to strategically engage, outreach and train child healthcare providers to support early detection of developmental delays and the receipt of early intervention/care coordination;
2. Community and Family Outreach: Efforts to strategically outreach to educational providers, social service agencies and community-based agencies to promote use of HMG and to provide networking opportunities among families and service providers;
3. Data Collection and Analysis: Efforts to undertake data collection and research to understand all aspects of the HMG system including the identification of gaps and barriers; and

4. Centralized Access Point: Established access platform(s) and county infrastructure (e.g., web-based, telephone, in-person, smartphone apps, chat/text, etc.) for identifying resource and referral and facilitating linkage to appropriate services and supports.

Key partnerships and pilots in support of HMG LA implementation is underway.

Another activity funded in FY 2021-22 includes discreet early identification and intervention First Connections activities such as care coordination as well as an evaluation of the care coordination activities to assess and share their impact on child health outcomes with interested external funders such as the Medi-Cal Managed Care Plans.

Additionally, First 5 LA will continue to invest in Trauma Informed Approaches through continued funding of a partnership with LA County Department of Health Services (DHS) to support their Strong, Healthy and Resilient Kids (SHARK) clinic to test multi-screen efforts (Adverse Childhood Experiences- ACEs as well as general development) and linkage to community services. First 5 LA will also continue to support key partners' expertise and leadership in trauma to ensure early childhood is prioritized. To reflect this supportive role, pooled funding is focused on working with partners to build their capacity and transform their system, practices, policies and culture to be more trauma-informed.

First 5 LA and LACDPH have also joined efforts to lead and invest in the African-American Infant and Maternal Mortality (AAIMM) project whose objective is to improve pregnancy, birth and infant outcomes, improve family wellbeing, and decrease health disparities among Black women of reproductive age countywide. This initiative is following a five-year action plan to reduce disparities by 30% at the end of that term.

For further information and detail on the FY 2021-22 Health Systems Team program budget amounts and activities please refer to Attachment C.

Center Support ($695,000)

The Center Support Team is a new team whose work, responsibilities and resource needs are related to representing First 5 LA at multi-sector, cross-cutting tables where multiple early childhood issues are discussed, working with philanthropic and county partners, and supporting complex cross-cutting sustainability efforts and opportunities. The activities for FY 2021-22 include County Partnerships to address: prevention and early intervention, and economic & food security. Proposed resources and activities will also address: infrastructure support for sustainability and health planning, partnerships to improve care coordination for pregnant women, young children, and their families, the creation of sustainable financing and reimbursement mechanisms for healthcare-related investments, and cross-sector partnerships to network and collaborate on policy and systems change efforts.

For further information and detail on the FY 2021-22 Center Support Team program budget amounts and activities please refer to Attachment C.

1B. Offices

Offices under the new Adapted Organizational Structure centralize and support key functions reporting directly to the Executive Director, including: The Office of Communications, Office of Data for Action,

and Office of Government Affairs & Public Policy, which largely replace the former Integration and Learning and Policy and Strategy Divisions and certain departments within those divisions. In addition, a new office, Office of Equity, Strategy, and Learning (OESL), is introduced to support one of our core values: Diversity, Equity and Inclusion. As OESL has not identified any programmatic resource needs for FY 2021-22, costs to support OESL's functions are included within the Internal Operations Budget (see section C for more information).

Office of Government Affairs & Public Policy ($3,269,000)

Policy Change is one of the three key approaches to influencing broad systems change repeatedly highlighted throughout the 2020-2028 Strategic Plan. The leadership and strategic investments employed by the Office of Government Affairs & Public Policy (OGAPP) will have long-term effects for the organization and broader ECE systems.

FY 2021-22 investments in the OGAPP will focus on core government affairs, advocacy and public policy functions including: lobbying, lobbying compliance, articulating organization-wide public policy change priorities, First 5 Association activities and developing strong relationships with elected officials. Focused investments in advocacy and policy change priorities advances system sustainability goals through influencing state and federal budgets, administrative guidance and policy development. OGAPP centers equity as a central principle in assessing policy priorities and will also lead the policy development and prioritization process in consultation with staff across the organization.

Resources will also be used to develop and catalyze relationships and partnerships with cross-cutting external advocacy partners who collaborate with First 5 LA to advance public policy goals and Strategic Plan imperatives and strategically fund event sponsorships.

For further information and detail on the FY 2021-22 Office of Government Affairs & Public Policy program budget amounts and activities please refer to Attachment C.

Office of Communications ($4,614,000)

To build public will and catalyze lasting and equitable change within systems that exist to serve young children and families, in FY 2021-22 the Office of Communications will develop marketing and communications strategies to elevate awareness and create urgency around issues and conditions that impact early childhood development. Changing norms, attitudes, behaviors and beliefs calls for engaging, educating, and influencing stakeholders. Communications strategies built in partnership with Center Teams and Offices, will engage decision-makers, including parents and caregivers, communities, and elected officials on early care and education, health care delivery systems; and with the Office of Government Affairs and Public Policy to help drive policy and systems change. To help advance the organization's strategic goals and priority focus areas, with emphasis on "hard-to-reach" communities, the Office will provide branding expertise and communications technical assistance, to manage, advance and achieve organization-wide communications needs. Deployed tactics will include traditional advertising, utilizing First 5 LA digital platforms and outlets (website, social media), internal communications, and building a more robust capacity through direct investments to fund organizations and news outlets to report on early childhood development issues.

For further information and detail on the FY 2021-22 Office of Communications program budget amounts and activities please refer to Attachment C.

Office of Data for Action ($2,377,000)

Resources in the Office of Data for Action will support the organization with measurement, evaluation and data-related endeavors. This budget includes costs and activities that focus on strategizing First 5 LA's prioritized data needs; establishing a data infrastructure to facilitate access to high quality data; supporting HIPAA compliance; developing an infrastructure for the effective delivery of technical assistance to staff across the organization; and leading data partnerships with partners such as the Children's Data Network, the Public Health Foundation Enterprise (PHFE) WIC, and the County of Los Angeles Chief Information Office to support First 5 LA's systems change efforts and provide data for the Impact Framework.

In addition, resources in FY 2021-22 will support the continued development and refinement of the Impact Framework as it seeks to short- and long-term system outcomes and identify indicators to measure and track organizational performance and culture. Funds will also be used to develop and submit First 5 LA's Annual Report of investments and accomplishments to First 5 CA, as well as funding a consultant to collect, analyze, report data and develop an LA County Data Brief to promote First 5 LA's accountability, future strategic refinements and future strategic investments.

For further information and detail on the FY 2021-22 Office of Data for Action program budget amounts and activities please refer to Attachment C.

1. LEGACY INVESTMENTS

These investments are existing multi-year programs ("Legacy Investments") representing ongoing work of the Commission that is expected to end according to the terms of the project approval. Any continued funding beyond the previously approved timeframe and amount will be subject to criteria approved by the Commission, such as alignment with the Strategic Plan through the expiring initiative assessment process, consistent with the First 5 LA Governance Guidelines.

Of the 2 (two) legacy investments in FY 2020-21, both will continue into FY 2021-22

Baby Friendly Hospitals ($40,000)

The Baby Friendly Hospitals initiative was approved by the Commission in March 2009 for a total of $10.5 million with the goal of achieving International Baby Friendly designation which indicates that the hospital has met key criteria related to the support of breastfeeding. Although this initiative was projected to end in FY 2019-20, due to COVID-19 the in-person designation visit from Baby Friendly was delayed. The hospital requested a no-cost extension to FY 2020-21, however, due to the ongoing pandemic the in-person onsite visit could not be completed in FY 2020-21. As such, a no-cost extension is being requested for FY 2021-22 to complete this work. The additional time will allow for the hospital to complete the assessment process to be designated as a Baby Friendly Hospital.

Little by Little/One Step Ahead ($3,179,000)

The Little by Little/One Step Ahead initiative is a continuing investment intended to improve health, developmental and safety outcomes for newborns in low-income communities for families receiving

services through the Women, Infants and Children (WIC) in LA County. The initiative seeks to provide resources that the target population may not otherwise be able to afford, including early literacy and safety awareness education or counseling, along with vouchers for age appropriate books, toys and safety items. In FY 2021-22, the initiative expects to provide services to over 60,000 unique WIC participants throughout the County.

This investment with an original allocation of $30 million is anticipated to fully expend the allocation through September 30, 2023.

D. INTERNAL OPERATIONS (OPERATING BUDGET)

Based on an analysis of historical spending and projected expenditures through June 2021, as well as anticipated needs for FY 2021-22, the budget includes approximately $21.9 million for First 5 LA operating costs.

The $21.9 million represents a decrease of approximately $416,000 or 1.9% from the revised FY 2020-21 Budget, influenced primarily by decreases in Personnel Services, Operating Services and Professional Services.

OPERATING COST CATEGORY	FY 2020-21 Budget				Proposed	
	Original		Revised		FY 2021-22 Budget	
Personnel Services	$ 17,804,695	78%	$ 17,804,695	80%	$ 17,304,109	79.0%
Operating Services	2,004,260	9%	1,853,610	8%	1,840,224	8.4%
Consultant Services	1,789,225	8%	1,772,225	8%	1,801,100	8.2%
Professional Services	484,718	2%	477,818	2%	468,623	2.1%
Travel Expenses	326,745	1%	40,550	0%	113,600	0.5%
Professional Development	387,850	2%	359,350	2%	364,515	1.7%
Total Operating Costs	**$ 22,797,493**	**100%**	**$ 22,308,248**	**100%**	**$ 21,892,171**	**100%**

Please note: Percentages reflected have been rounded to the nearest whole

Attachments D and E provide additional detail on the operating budget requests, based on the November 2020 Adapted Organizational Structure.

Highlights and Assumptions:

The FY 2021-22 Budget reflects the revised level of authorized positions for the organization, from 148 to 120, in alignment to the Adapted Organizational Structure implemented in November 2020. One additional “floater” position is included in the Executive Director’s Office. This position is intended to fill an identified “gap” in the organization, to be determined. Although there is no change to the chart of accounts structure, the individual operating budgets are presented in the related materials by Team/Office/Center in lieu of Department and in alignment with the Adapted Organizational Structure.

The following are highlights of the major spending categories:

Personnel Services

Approximately $17.3 million, or 79.0%, of the total $21.9 million in operating costs is for Personnel Services, which includes salaries and employee benefits. This represents a decrease of about $501,000 or 2.8% compared to the revised FY 2020-21 personnel budget. As mentioned above, this overall decrease in personnel costs is primarily driven by the recent changes to staffing in alignment with the Adapted Organizational Structure and in response to the organization-wide effort to more closely align the budget with our fiscal realities. Additionally, although we have historically adjusted the total personnel costs to account for short and long-term vacancies throughout the year by way of an attrition and vacancy rate adjustment, due to the reduced staffing, all positions are budgeted full-time for a complete year. A complete schedule of authorized positions can be found in Attachment D.

Operating Expenses

General operating expenses comprise $1.8 million, or 8.4% of the total operating costs of $21.9 million. This is a net decrease of approximately $13,000 influenced primarily by the reduction to staffing and corresponding costs, as well as the continued telework arrangement. The nearly $34,000 reduction to Cell Phone & Mobile Devices is due to the changes in staffing in alignment with the Adapted Organizational Structure. This reduction, as well as others, are offset by increases to other line items but most notably a $149,000 increase to Miscellaneous/Contingency which was increased to support any unanticipated onsite costs related to the ongoing COVID-19 pandemic, such as increased janitorial expenses, increased security, safety services and equipment and the like.

Consultant Services

The budget includes approximately $1.8 million for Consultant Services, representing 8.3% of total operating costs and an increase of approximately $29,000, or 1.6% compared to FY 2020-21. These services will be used for temporary, specialized IT staffing support, Morlin building management fees, building security, and talent leadership recruitment. Resources included in this cost category also support our ongoing diversity, equity and inclusion work as well as efforts to develop a learning infrastructure that facilitates ongoing reflection, adaptation, and refinement of the 2020-2028 Strategic Plan – both efforts being led by the Office of Equity, Strategy and Learning.

Professional Services

The budget includes approximately $468,000 to support Professional Services, representing 2.1% of total operating costs and a $9,000 or approximately 1.9% decrease in funding level compared to the revised FY 2020-21 budget. Resources will fund staff recruitment, legal fees, HIPAA-specific legal services, audit fees and miscellaneous bank charges.

Travel Expenses

Travel Expenses comprise 0.5% of the total operating costs at approximately $114,000, representing an increase of $73,000 or 180.1% compared to the revised funding for FY 2020-21 but a $213,000 decrease compared to the original FY 20-21 budget. The original FY 20-21 budget only restricted travel for the first quarter of the fiscal year. Due to the ongoing pandemic, work-related travel was completely restricted in FY 20-21, and resources were adjusted accordingly at mid-year. For FY 2021-22, staff can budget and plan for the travel in the second half of the fiscal year.

Professional Development

Professional Development expenditures represent 1.7% of the total operating budget, at nearly $365,000. This budget includes a roughly $5,000 increase in spending, or 1.4%, compared to the revised resources proposed in FY 2020-21. Professional Development costs were assessed across the organization to adhere to an industry standard of 3.0% of salaries and were adjusted accordingly. The budgeted professional development funds included support equal-access staff training and Leadership Development opportunities through our Human Resources and Talent Management Team, as well as Team/Office-specific Professional Development needs. As First 5 LA continues to transition in response to new priorities and a gradual decline in revenue, these resources will be critical to ensure that staff is well equipped to perform the key job functions needed to advance the desired short and long-term outcomes.

II. REVENUE ASSUMPTIONS

As Proposition 10 revenue continues on a downward trend, First 5 LA will continue to maintain its efforts to explore alternative revenue generating sustainability strategies for the future as well as pursue opportunities to leverage funding from other organizations to support the work of the Commission. Examples of this progress includes: pass-through IMPACT dollars from First 5 California (F5CA), pass-through resources from F5CA to advance and support strategies related to the Dual Language Learners initiative, funding from F5CA to implement the Home Visiting Coordination (HVC) project, and partnerships with the Los Angeles County Office of Education to continue to support Early Care and Education efforts for a total of $5,144,000 in FY 2021-22.

First 5 LA is primarily funded through the Proposition 10 Tobacco Tax, 80% of which is distributed to the County Commissions based on their proportion of statewide births. Los Angeles County receives the greatest share, representing approximately 24-25% of the total County allocations. The California Department of Tax and Fee Administration (CDTFA) distributes the Commission revenue forecasts, which incorporates assumptions related to the State Board of Equalization's (BOE) administrative costs. As reflected in the First 5 LA Long-Term Financial Plans (LTFP), Proposition 10 tobacco tax revenue has been steadily decreasing since FY 2004-05 and is projected to continue to decline in future years as laws are amended to discourage smoking and overall fewer people take up smoking. Although the actual rate may vary, First 5 LA continues to adopt a cautious approach in the projection of future Proposition 10 tax and Proposition 56 backfill revenue for FY 2021-22, projected to be approximately $67.1 million. Due to the insufficient information shared by the State related to Proposition 56 backfill calculations, First 5 LA has adjusted the State tax revenue downward by 2% over the past three years, for the purposes of our planning. As payments have been disbursed more consistently, and we have seen a 2-4% uptick in projected Proposition 10 revenues, First 5 LA is revising the internal downward adjustment to 1% effective FY 2021-22. Staff will continue to work with and engage other county Commissions and the State First 5 Association to closely monitor, evaluate and discuss adjustments or significant deviations from CDTFA projections that may directly impact revenue.

Other revenues include interest earnings, programmatic support grants and pass-through funds. Interest earnings, projected to yield approximately $4.0 million in revenue for FY 2021-22, are projected using an estimated 1.2% return on anticipated cash balances.

First 5 LA will continue to explore and identify new public and private revenues that could support and advance our strategic goals, in alignment with our 2020-2028 Strategic Plan strategic priorities, which includes *optimiz(ing) our effectiveness* and addressing fiscal challenges by maximizing available revenue sources. Additional funding received throughout the year, both restricted and unrestricted, will be included and shared with the Board of Commissioner's when the FY 21-22 Mid-Year Revised Budget is presented for review and approval or in the next Long-Term Financial Plan update, as applicable.

III. IMPACT ON FUND BALANCE

It is important to note how the annual budget impacts First 5 LA's fund balance. As tobacco tax revenues that have supported the work to date continue to decline, spending is anticipated to continue to exceed the incoming revenue resulting in a commensurate decline in fund balance. Nevertheless, a portion of the budget is set aside for the fund balance reserve, which is calculated at 50% of the projected annual fiscal year budget per Board approval in July 2020. Based on the approved policy limit, the FY 2021-22 Reserve is calculated at $57.0 million, an amount that is also classified as unassigned for fund balance purposes.

Additionally, First 5 LA's continued emphasis on sustainability and alternative revenues will also have an impact on the fund balance. In FY 2021-22, the total budget of $114.1 million is offset by just over $5.1 million in external funds to support the work in the fiscal year. As such, the net demand on the First 5 LA fund balance is $108.9 million.

The annual budget, also per board policy, is approved by the Commission via Resolution, which formally commits the resources for purposes of the initiatives as outlined in the budget document. However, the Commission has in many instances already taken formal action via Resolution to commit funds to discrete multi-year allocations for specific initiatives. Funds for these multi-year allocations are set aside in the First 5 LA committed fund balance as designated for specific purposes. The balances of these funding allocations remain in committed fund balance until the Commission takes action via Resolution to redirect the funds for other purposes.

To the extent that any amounts approved for the FY 2021-22 Budget do not exceed the remaining balance for these funding allocations, approval of the FY 2021-22 budget amounts for these initiatives will not commit additional dollars. The projected remaining allocation balances as of June 30, 2021 will be brought to the Commission for reaffirmation on June 10, 2021 in conjunction with the approval of the FY 2021-22 Budget.

In contrast to the multi-year allocation balances for specific initiatives, only the annual appropriation approved for a fiscal year is shown as committed for fund balance purposes for programmatic investments without an approved multi-year allocation. Any unspent funds from the previous fiscal year for these investments return to the assigned fund balance, which represents funds available for use within the parameters set by the Strategic Plan.

Balances for all fund balance categories will not be finalized until the completion of the FY 2020-21 year-end audit and Comprehensive Annual Financial Report (Annual Report). Fund balance updates will be provided in the updated Long-Term Financial Plan.

IV. ADMINISTRATIVE COST LIMIT

Based on current policy and in compliance with the California Health and Safety Code governing the operations of First 5 LA, the Commission approves an annual administrative cost limit which is a percentage of the total budget. Though it does not set or mandate a limit, Proposition 10 does require all First 5 commissions to establish an administrative cost cap. As part of the approval of the annual fiscal year budget, First 5 LA approves an annual limit on the organization's administrative spending. While this administrative cost limit represents a percentage of the overall fiscal year budget, the Commission approves the limit at the dollar amount level. This is because administrative costs are generally not as fluid as other types of costs and cannot adapt quickly to respond to changes in actual spending levels.

The definition of administrative cost accounts for 100% of the following departments' costs: Executive Director's Office, Center for Operational Excellence, Board of Commissioners, Work Place Management Team, Office of Communications, Contract Administration & Purchasing Team, Facilities Management, Finance Team, Human Resources and Talent Management Team, Information Technology Team and the Center for Child and Family Impact Support.

In addition to these costs, the existing definition includes salary and employee benefit (S&EB) costs for Directors and Administrative Assistants in the following programmatic Teams/Offices: Communities Team, Early Care & Education Team, Family Supports Team, Health Systems Team, Office of Data for Action, Office of Government Affairs and Public Policy.

This methodology, as reflected in the current Board-approved Administrative Cost Policy, represents a broad approach to the administrative limit calculation. For example, although the organization's Executive Director and Senior Leadership do not spend 100% of their time strictly on administrative activities, the entirety of their costs (salaries and benefits) are captured in the calculation of the administrative limit for the fiscal year.

Using the methodology noted above (further detail is provided as part of Attachment D), the administrative cost for supporting First 5 LA programs is projected to be $13.5 million, or 11.82% of the total budget. The increase from the previous year's revised 11.18% is due to the greater disparity between operational costs and programmatic expenditures proposed for FY 2021-22.

FY 2021-22 BUDGET

PROGRAM DETAIL

3046

CENTER FOR CHILD & FAMILY IMPACT

Family Supports Team

Initiative	Investment Category
Home Visiting	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Welcome Baby Hospitals	$21,730,000	$22,406,000	3.11%

Program Summary

Welcome Baby (WB) programs are an integral component of the 2020-2028 Strategic Plan, with support for Priority #1 (Strengthening Public and Community Systems) and Objective 1.1 of providing program and policy leadership to support development and expansion of a universal system of home visiting that builds upon the existing infrastructure.

The Welcome Baby program is a voluntary, universally provided hospital and home-based intervention for pregnant and postpartum women. The primary objective of Welcome Baby is to work with families to maximize the health, safety and security of the baby and parent-child relationship and to facilitate access to support and services when needed. The program is intended to be offered universally to all families regardless of income status, potential challenges or risk. The Welcome Baby program includes prenatal and postpartum home-based visits, as well as a hospital visit at the time of the child's birth.
The Welcome Baby program focuses on the following outcomes:
* Increased breastfeeding
- Increased initiation, duration and exclusivity of breastfeeding
- Improved parent knowledge of nutrition
* Families receive appropriate health and developmental care
- Higher immunization rates
- Higher rates of health insurance coverage
- Increased number of mothers screened for post-partum depression
- Increased numbers of parents administering high quality developmental screens

* Families experience improved connections to supports, resources, and services in their community, resulting in more referrals and increased utilization of existing resources for families with unmet basic needs: drug, alcohol, or domestic violence exposure; social isolation; post-partum depression; or risk factors for developmental delays.

Spending Plan and Funding Methodology

In FY 21-22, program costs for 14 Welcome Baby providers are $22,406,000. WB providers entered into a multi-year contract from FY 20-21 to FY 22-23 and projected expenditures for each of the three fiscal years.

The program budget of $22,406,000 reflects an analysis based on budget amounts from previous fiscal years relative to actual expenditures. It was calculated that historically up to 85% of the programmatic funds are expended. The Program Budget for FY 21-22 takes this historical trend into account to provide a more accurate budget. As such, FY 21-22 program budget is anticipated to be less than the actual total contract amount but reflects the trend of anticipated expenditures.
The majority of contract expenses will be spent on personnel costs, with increases in expenses for supplies, mileage, and client materials.
The following were considered when developing the FY 21-22 estimate:
• Hospital birth rate county information from 2018 to inform personnel needs and estimated enrollment per site
• Increases in related program costs (mileage, supplies) in anticipation of increased enrollment
• Analysis of expenditure trends from prior fiscal years to align the programmatic budget with anticipated expenditures rather than contract amount.

*FY 21-22 program budget is anticipated to be less than the actual total contract amount, but reflects the trend of anticipated expenditures, based on previous year actuals. Contract amounts may be higher than budget amounts, due to unpredictable spending on a grantee level. Typical cost categories whose funding was not maximized include: personnel, materials and travel. Unexpected staff vacancies impact personnel costs and number of families enrolled, which causes subsequent lower spending in materials and travel. Though this can be projected at an initiative level, it is less predictable at a grantee-level.

Select Home Visiting Programs	$10,800,000	$11,596,000	7.37%

Program Summary

Select Home Visiting (SHV) programs are an integral component of the 2020-2028 Strategic Plan, with support for Priority #1 (Strengthening Public and Community Systems) and Objective 1.1 of providing program and policy leadership to support development and expansion of a universal system of home visiting that builds upon the existing infrastructure.

SHV programs are evidence-based, voluntary, home-based intervention programs for families identified as high risk and residing within a Best Start Community. The programs include home visits delivered weekly, every two weeks, or monthly, depending on the program model and family's needs. Clients receive client-centered, strength-based information and support during visits with a focus on positive parenting behaviors and child development; information on key developmental topics such as attachment, discipline, health, safety, sleep, transition/routines; and family well-being.

The programs aim to:
• Increase parent knowledge of early childhood development and improve parenting practices;
• Cultivate and strengthen nurturing parent-child relationships;
• Provide early detection of developmental delays and health issues;
• Prevent child abuse and neglect; and
• Increase children's school readiness and school success

Sample Performance Measures:
• Achieve an enrollment rate (based on receipt of first home visit) of 70% of clients referred by Welcome Baby;
• Ensure enrolled clients receive at least 75% of the appropriate number of home visits based upon the individual level of service to which they are assigned;
• Track breastfeeding initiation, exclusivity and duration rates;
• Implement Patient Health Questionnaire (PHQ) for Depression Screening at intake and once a month for 90% of actively enrolled clients; and
• Ensure at least 95% of target children are linked to a medical/healthcare home.

Spending Plan and Funding Methodology

FY 21-22 is the eighth year of implementation for a total of 18 SHV providers. SHV grantees entered into a multi-year contract from FY 20-21 to FY 22-23 and projected expenditures for each of the three fiscal years.

Budgets were negotiated with grantees using data from the Stronger Families database to identify the number of active clients and the enrollment rate per provider. These data helped to estimate each provider's program needs, including costs for personnel, supplies, and mileage; this does not preclude enrollment improvements. The Program Budget for FY 21-22 takes this historical trend into account to provide a more accurate budget. As such, FY 21-22 program budget is anticipated to be less than the actual total contract amount but reflects the trend of anticipated expenditures.

Most contract expenses will be spent on personnel, ongoing operating expenses and on costs such as supplies and mileage associated with client enrollment. The contract amount in FY 21-22 is estimated to be $11,596,000. The following factors were considered when developing the FY 21-22 estimate:
a) historical spending patterns
b) year-to-date expenditures in FY 20-21
c) grantee spending projections for FY 21-22.

The estimated contracted amount of $11,596,00 takes into account the historical expenditure rate of spending 90% of the SHV contracted budget amounts.

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Deb Daro Consultation	$35,000	$35,000	0.00%

Program Summary

A Procurement Exception Request was approved for Dr. Deb Daro in June 2015 to provide consultation about First 5 LA's home visiting activities. Dr. Daro's involvement and knowledge of the implementation of First 5 LA's family strengthening strategies and extensive home visiting expertise has provided a unique combination and added value that is not available elsewhere. Dr. Daro's contributions to date have been fundamental in informing evaluation study designs and measurement tools and techniques for First 5 LA's family strengthening investments. Staff have also benefitted from her guidance in ensuring quality assurance strategies through the Family Strengthening Oversight Entity and policy consultation.

Spending Plan and Funding Methodology

Dr. Deb Daro will provide consultation and support in the following areas:
A) Assistance and guidance regarding ongoing quality assurance and improvement efforts (50 hours at $128/hour);
B) Guidance to policy development staff on strategic opportunities at the State and Federal level (50 hours at $128/hour);
C) Assistance to Family Supports Team on available system linkages for extending Welcome Baby reach and impact (25 hours at $128/hour);
C) Guidance to inform the development, implementation, and oversight of the Welcome Baby Virtual Study and other home visiting evaluation efforts (80 hours at $128/hour); and
D) Maintain regular contact with F5LA leadership and conduct onsite or virtual visits with staff and partners (25 hours at $128/hour and travel costs for up to two in-person visits in Quarters 3 and 4).

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
F5CA Home Visiting Coordination Project	$100,000	$100,000	0.00%

Program Summary

First 5 California Home Visiting Coordination funds are a two-year grant specifically intended to catalyze coordination and collaboration to yield significant systems change, with a focus on shared learning and capacity-building, resource sharing. The funding is intended to help F5's across California create sustainable, unified systems that support families with home visiting services, and maximizes available funding to serve more families

Spending Plan and Funding Methodology

The First 5 California Home Visiting Coordination Project funds awarded by First 5 California are being utilized to strengthen early childhood development and family support systems by embedding home visiting as a critical component. The funds will support consultation efforts to strengthen cross-sector collaboration between key funders and technical assistance providers at the implementation level and improve integration efforts between the emerging Help Me Grow (HMG) system in LA County and home visiting agencies by building and strengthening referral pathways.

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Family Strengthening Oversight Entity	$3,600,000	$3,810,000	5.83%

Program Summary

The Family Strengthening Oversight Entity (FSOE) aligns with the 2020-2028 Strategic Plan given its support for Strategic Priority # 1, Strengthening Public and Community Systems and?Objective 1.1 of providing program and policy leadership to support development and expansion of a universal system of home visiting that builds upon the existing infrastructure.

The FSOE aims to ensure coordinated, high-quality services are offered across the system of participating providers. The FSOE oversees and supports the standardization of the Welcome Baby program to ensure adherence to program fidelity by the Welcome Baby providers across the county. The FSOE also provides programmatic technical assistance and support to the Select Home Visitation providers to support implementation and model fidelity. Additional responsibilities include the provision of technical assistance to providers utilizing First 5 LA's Stronger Families Database System; participation and coordination in the development of the Stronger Families Database System; facilitation of cross-site peer learning exchanges; and coordination and support of communication and messaging efforts. The FSOE also coordinates the Los Angeles County Perinatal and Early Childhood Home Visitation Consortium and participates in county-wide efforts to coordinate, enhance, expand, and advocate for high quality home visiting programs.

Spending Plan and Funding Methodology

In FY 21-22 the Family Strengthening Oversight Entity (FSOE) will continue to provide support to fourteen (14) Welcome Baby and eighteen (18) Select Home Visitation providers. The program budget estimate was based on historical expenditures and implementation of similar activities, including coordination of two Family Strengthening Cohort Trainings, up to six regional peer-to-peer workshops and an Annual Summit as well as ongoing resources to support the LAC Perinatal and Early Childhood Home Visiting Consortium. Additionally, the FSOE participates and supports in the coordination of the Department of Public Health Home Visiting Expansion efforts via planning, database development, and training.

Spending Plan & Methodology
In FY 21-22 the Family Strengthening Oversight Entity (FSOE) will:
• Coordinate and provide input to evaluation activities and study designs with First 5 LA Office for Data in Action, evaluation contractors, and Welcome Baby sites
• Coordinate and implement 2 Family Strengthening Cohort Trainings for Welcome Baby/Select Home Visiting providers (over 150 hours of training)
• Coordinate monthly technical assistance calls with Welcome Baby and Select Home Visiting providers
• Coordinate training workshops for the Select Home Visiting providers
• Organize and conduct 2 peer to peer learning opportunities
• Provide program materials to providers across 14 Welcome Baby sites (including home safety items, boppy nursing pillows, infant books and developmental toys)
• Provide on-going programmatic and database technical assistance to Welcome Baby and Select Home Visiting providers
• Coordinate the Los Angeles County Perinatal and Early Childhood Home Visitation Consortium and participate in county efforts to coordinate across home visiting programs in LA County.
• Coordination and development of reports to support First 5 LA's pilot efforts with Managed Care Organizations

Requested resources are consistent with historical expenditures and anticipated need. The following were taken into account when developing the FY 21-22 estimate:
• Anticipated merit increase for personnel
• Inclusion of virtual trainings and meeting costs for Quarters 1 and 2
• Funding to provide technical assistance to grantees to support high performance and enhanced service delivery

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Home Visiting Staff Diversity/Retention Consultant		$20,000	0.00%

Program Summary

Consulting support to address home visiting staff diversity and retention will help identify and share best practices for recruiting and maintaining diverse staff, as well as support/promote strategies that lead to modification of existing policies and procedures. This includes efforts to increase African-American staff and client enrollment to more effectively address existing disparities.

Spending Plan and Funding Methodology

The consultant will conduct the following activities:
A) Conduct research and identify best practices, strategies and data within home visiting to promote an increase in staff diversity and client retention within different target populations and maintain regular contact with staff (65 hours at $150/hour)
B) Conduct up to two convenings with home visiting site leadership to educate and promote new strategies. These efforts support increased staff retention, which decrease high programmatic costs associated with new recruitment and training and promote equity strategies. ($5,000 per convening, anticipated to be in-person for Quarters 3 and 4).

MAMA's Visits Home Visiting Program Training and T.A. Support	$265,000	$265,000	0.00%

Program Summary

The LA County Department of Health Services (DHS) expanded their MAMA's Neighborhood program to include home visitation, and provides home visitation staff with training and technical assistance coordinated by First 5 LA's Family Strengthening Oversight Entity. This includes up to two training cohorts to train over 70 MAMA's staff, technical assistance for program implementation and provision of client materials. This approach will help embed crucial best practices within their model to more effectively engage parents and support and retain home visitation staff as DHS continues to build their program infrastructure. This time-limited investment has provided DHS with the opportunity to build their program infrastructure to enhance program implementation in anticipation of a ramp-down of First 5 LA support by FY 21-22.

Spending Plan and Funding Methodology

The Family Strengthening Oversight Entity (FSOE) will coordinate up to two training cohorts for over 70 of the Department of Health Services MAMA's Neighborhood home visitation staff, provide technical assistance, lead training on reflective supervision for staff, and provide client materials. The program budget estimate is based on assessing expenditures that support the FSOE's Family Strengthening Training for home visitation staff, provision of reflective practice and client materials. The estimates are consistent with historical expenditures and experience in funding similar activities.

Spending Plan & Methodology
In FY 21-22 the Family Strengthening Oversight Entity (FSOE) will support the MAMA's Program by:
• Coordination and implementation of up to 2 Family Strengthening Trainings
• Coordination of monthly reflective practice training and coaching sessions for MAMA's supervisors
• Provision of peer to peer engagement for MAMA's staff
• Provision of client materials (including home safety items, boppy nursing pillows, infant books and developmental toys)

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Stronger Families Database	$667,000	$667,000	0.00%

Program Summary

Welcome Baby and Select Home Visiting are critical components of the 2020-2028 Strategic Plan, and the Stronger Families Database is the administrative structure to track the clients served by these programs. This budget item will support and continue the build-out of the Stronger Families Database. These data will include client-level information on services, screening, and assessments.

Spending Plan and Funding Methodology

Aside from the ongoing database hosting and maintenance, in FY 21-22 the system will incorporate database changes, such as changes resulting from the Department of Public Health and Department of Social Services home visiting efforts, continued support of Tableau reporting and additional features requested by users. Ongoing efforts to support evaluation efforts that utilize the database will continue.

FY 21-22 funds will support the following areas:

DATABASE DEVELOPMENT ($255,000)
The database will work to support transition of clients and staff between funding sources, as well as incorporate home visiting program model changes. Additionally, potential strategies may require additional development time to create or enhance existing functions or new modules. At $200/hour and 1,440 hours, this is $288,000.

PROGRAM DEVELOPMENT AND PROJECT MANAGEMENT ($208,000)
For consultants and staff for development/management consultant and staff time, tester time, and data-sharing consultant time.

HOSTING ($180,000)
The web hosting with NetChemistry to make the database available to program staff costs $17,000/month.

LICENSES ($24,000)
Tableau - annual license maintenance fee to run and maintain the Tableau server which allows grantees access to reports

Welcome Baby Impact Study	$1,154,170	$1,362,000	18.00%

Program Summary

Expansion of home visiting is a key component of strengthening public and community systems outlined in First 5 LA's 2020-2028 Strategic Plan. The Board of Commissioners approved the Welcome Baby Impact Study (WBIS) to demonstrate impact in the local Best Start geographies as "proof of concept" to inform countywide system improvement efforts and build an evidence-base for the Welcome Baby Program. The COVID pandemic required a shift in the study to virtual vists; the Welcome Baby Virtual study will provide information to stakeholders, locally and nationally, about virtual visits within the Welcome Baby Program. The information will inform the program design in the long term as well as sustainability efforts. The goal for FY 21-22 is to complete enrollment of participants into the study and conduct the first and second wave of primary data collection to capture maternal and child experiences and outcomes.

Spending Plan and Funding Methodology

Welcome Baby Impact Evaluation:
The costs for the Welcome Baby Impact Study were determined by reviewing the Scope of Work (SOW), study activity to date, and the budget submitted by American Institutes for Research (AIR) as part of the contracting process. The following activities are anticipated for FY 20-21: obtainment of final Institutional Review Board (IRB) approvals, recruiting and enrolling participants for primary data collection, collecting and analyzing primary data for 5-7 week phone surveys, and project management. A breakdown of the tasks and anticipated dollar amounts are listed below. The majority of effort will be devoted to recruiting and enrolling study subjects and collecting and analyzing data.

Cost estimates are based on previous years' experience implementing the Welcome Baby Impact study and previous outcome studies.
- IRB approvals: $26,000
- Recruit and Enroll Participants for Primary Data Collection: $194,000
- Collect and Analyze Primary Data Collection: $581,000
- Project Management: $79,000
-WIC Collaboration and comparison group data: $392,000
Total: $1,362,000

Change from Prior Year (if >+-20%)

Budget Fiscal Year: 2021 - 2022 Status: Proposed

Initiative	Investment Category
Baby Friendly Hospitals	Legacy Investments

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Baby Friendly Hospital Project - Cycle 4	$128,200	$40,000	-68.79%

Program Summary

$10.5 million was approved by the Commission in March 2009 to support the Baby Friendly Hospital Initiative. The initiative aims to achieve International Baby Friendly designation, which indicates that the hospital has met key criteria related to the support of breastfeeding. Birthing hospitals aim to enhance and support a continuum of care to improve initiation and duration of breastfeeding by improving breastfeeding policies and procedures.

Note that the Cycle 4 grants do not reflect the allocation of new resources, but will be drawing down from the remaining amount approved by the Commission for this initiative. Cycle 4 hospitals align with the Welcome Baby program and support the goals outlined in the Strategic Plan.

Spending Plan and Funding Methodology

Martin Luther King Jr. hospital is the last remaining hospital funded as part of Cycle 4 of the Baby Friendly Hospital Project in FY 21-22. The end date for this project was June 310, 2020, however, due to COVID the in-person designation visit from Baby Friendly was delayed. The hospital may need an additional no-cost extension in the amount of $40,000. The additional time will allow more time for the hospital to complete the assessment process to be designated as a Baby Friendly Hospital.

Change from Prior Year (if >+-20%)

The estimated $40,000 for FY 21-22 represents funding required to complete the final step of the Baby Friendly designation process, which is the on-site visit by Baby Friendly USA, which has been delayed due to COVID restrictions.

Budget Fiscal Year: 2021 - 2022 Status: Proposed

Initiative	Investment Category
Little by Little/One Step Ahead	Legacy Investments

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Little by Little/One Step Ahead Program	$3,105,000	$3,179,000	2.38%

Program Summary

In January 2011, the Commission approved an allocation of $30 million for the One Step Ahead/Little by Little (OSA/LBL) program, a modification of the Little by Little (LBL) program previously implemented by the Public Health Foundation Enterprises-Women, Infants and Children Program (PHFE-WIC) and funded by First 5 LA. During the same year the program also underwent a name change to only “Little by Little” due to existing trademarking of the One Step Ahead name.

The core program components include:
1. Providing individual counseling and handouts regarding child development, early literacy, and child safety at each WIC client visit.
2. Distributing developmentally appropriate books during WIC clients’ visits.

Spending Plan and Funding Methodology

HOW FUNDS WILL BE SPENT IN FY 21-22:
• Partnering with the six LA County WIC agencies and overseeing the implementation of the LBL program at the selected 10 WIC site locations;
• Providing LBL program services to a total of 60,446 unique WIC participants across 10 WIC site locations;
• Providing technical assistance to help WIC sites improve services and strengthen program quality;
• Ensuring client data is being collected and entered in the LBL client database system;
• Implementing fund development and sustainability plan activities in order to support the effectiveness and sustainability of the program; and
• Analyzing school readiness outcome evaluation data.

MAJOR COST AREAS
The funding level for FY 21-22 was determined based on contractor spending patterns in past years and the negotiated 39-month life of project contract estimates. In FY 21-22, the LBL program will provide services to an estimated total of 60,446 unique WIC participants for a total budget estimate of about $3,179,000. The following are the major programmatic and administrative cost categories and estimated annual amounts for FY 21-22:

1. Personnel- 24 staff positions will manage the various initiative components including training and technical assistance, fiscal and contract management and direct services at two WIC sites. Total estimated expenses for personnel: $982,052
2. Contracted Services- an estimated 7 subcontractors including 6 subcontractors delivering direct services at eight WIC sites and an implementation consultant are needed to complete the various components of the LBL direct service, marketing and intervention implementation. Total estimated expenses for subcontracts: $1,253,011.
3. Program Supplies- Program expenses are related to program materials and brochures. Total estimated expenses for supplies: $625,799.
4. Operating and Administrative Costs- A total of $121,361 is estimated for space, postage, travel, mileage, other related expenses.
5. Evaluation: A budget of $24,025 is needed to continue evaluation efforts, including fees and significant data collection and analysis activities.
6. Indirect Costs: 10% of total contract amount excluding subcontractors (contractor services), equipment and depreciation: $173,164.

In November 2018 the board took action to extend the strategic partnership with PHFE-WIC (now Heluna Health) through June 30, 2023. This extension and additional funding will allow the grantee to continue implementing its comprehensive, multi-pronged sustainability plan which includes policy and advocacy, social enterprise, and general fundraising efforts. Moreover, this will allow the infrastructure built by Heluna Health to remain intact as they employ various strategies to sustain the Little by Little Initiative in the future.

Region 1: Central-East Regional Network	$4,392,000	$3,953,000	-9.99%

Program Summary

With approval of the 2020-2028 Strategic Plan, the First 5 LA Board of Commissioners reaffirmed a commitment to the Best Start Networks as foundational infrastructure to cultivate parent/caregiver and community actions aligned with First 5 LA's priority results within the 14 Best Start geographies. FY 21-22 represents the fourth year of implementing the new structure for Best Start. The first two years focused on transitioning into the new structure, strengthening relationships, identifying community priorities, and developing a change agenda to guide actions that advance community priorities. Year 3 focused on continued refinement of the change agenda and to begin implementation of community efforts resulting in stronger networks, a better understanding of the social ecosystem and an ability adapt to changes in community conditions as presented with the challenges put forth by the COVID-19 pandemic.

The Best Start Region 1 (Central-East) Network includes Metro LA, Southeast LA, East LA and South El Monte/El Monte. In FY 22-23, the Region 1 Central-East Regional Network will strengthen the likelihood that movements focused on our long-term results and conditions of wellbeing will emerge.

Para los Ninos (PLN) serves as the Regional Network Grantee for Region 1. With First 5 LA's support, PLN and its partners will work with parents/caregivers, community leaders, organizations and other allies to develop broader networks that attract and engage new partners from communities not currently or meaningfully engaged in the Best Start networks, influence stakeholders in the ecosystem to coalesce around prenatal to 5 work, implement actions within the communities' change agendas that address root causes of the systemic issues impacting children and families, and build a structure within the Best Start geographies committed to cohering movements focused on population level results aligned with one or more of the First 5 LA's long term results for children and families and additional conditions of wellbeing.

All engagement, including convenings, conducted by grantees and their subcontractors may be adapted to virtual platforms to align with public health guidelines.

Spending Plan and Funding Methodology

HOW FUNDS WILL BE SPENT IN FY 21-22

- Regional functions: contract administration, coordination and/or provision of organizational capacity building, regional learning, multi-level coordination, collective advocacy, resource mobilization, communications outreach, resident/stakeholder engagement and advocacy, and an external independent audit specific to the First 5 LA contract funds.

- Local level functions: capacity building and leadership development, community change work and coordination and support costs.

MAJOR COST AREAS

The Region 1 Central-East Regional Network funding level estimate of $3,952,800 for FY 21-22 was determined based on spending patterns anticipated in FY 21-22 and negotiated contract estimates. The total grant amount to support regional and local level roles and functions reflects 12 months of implementation supporting Metro LA, East LA, SELA, and El Monte-South El Monte. The following are the major programmatic and administrative cost categories and estimated annual amounts for FY 21-22:

1) Personnel- 5 staff positions will manage the various network components including organizational capacity building, regional learning, multi-level coordination, collective advocacy, resource mobilization, and fiscal and contract management. Total estimated expenses for personnel: $185,720.

2) Contracted Services- an estimated 7 subcontractors to support and develop Region 1 capacity building around

Year 3 focused on continued refinement of the change agenda and to begin implementation of community efforts resulting in stronger networks, a better understanding of the social ecosystem and an ability adapt to changes in community conditions as presented with the challenges put forth by the COVID-19 pandemic.

The Best Start Region 3 (San Fernando Valley) Network includes Northeast Valley and Panorama City & Neighbors. In FY 21-22, the Region 3 San Fernando Valley Regional Network will continue to strengthen their ability to build and operate as a network, develop the ability to understand the social ecosystem, and to become more adaptive to changes in community conditions. The Regional Network will continue to strengthen the likelihood that movements focused on our long-term results and conditions of well-being will emerge.

El Nido Family Centers (El Nido) serves as the Regional Network Grantee for Region 3. With First 5 LA's support, El Nido and its partners will work with parents/caregivers, community leaders, organizations and other allies to develop broader networks that attract and engage new partners from communities not currently or meaningfully engaged in the Best Start networks, influence stakeholders in the ecosystem to coalesce around prenatal to 5 work, implement actions within the communities' change agendas that address root causes of the systemic issues impacting children and families, and build a structure within the Best Start geographies committed to cohering movements focused on population level results aligned with one or more of First 5 LA's long-term results for children and families and additional conditions of well-being.

All engagement, including convenings, conducted by grantees and their subcontractors may be adapted to virtual platforms to align with public health guidelines.

Spending Plan and Funding Methodology

HOW FUNDS WILL BE SPENT IN FY 21-22

- Regional functions: contract administration, coordination and/or provision of organizational capacity building, regional learning, multi-level coordination, collective advocacy, resource mobilization, communications outreach, resident/stakeholder engagement and advocacy, and an external independent audit specific to the First 5 LA contract funds.

- Local level functions: capacity building and leadership development, community change work, and coordination and support costs.

MAJOR COST AREAS

The Region 3 Northeast San Fernando Valley Regional Network funding level estimate of $2,083,500 was determined based on spending patterns anticipated in FY 21-22 and negotiated contract estimates. The total grant amount to support regional and local level roles and functions reflects 12 months of implementation supporting Northeast Valley and Panorama City & Neighbors. The following are the major programmatic and administrative cost categories and estimated annual amounts for FY 21-22:

1) Personnel- 6 staff positions will manage the various network components including capacity building, regional learning, multi-level coordination, project management, strategic direction, research &evaluation, collective advocacy and resource mobilization. Total estimated expenses for personnel: $224,747.

Initiative	Investment Category
Supporting the Emergence of Movements	2020-2028 Strategic Plan

2) Operating and Administrative Costs- Operating and administrative costs include printing/copying, space, telephone, postage, supplies, and mileage and travel for employees. Total estimated expenses for operating and administrative costs: $29,214.

3) Contracted Costs- Includes the cost for the financial audit. The total for this cost category is $2,250.

4) Regional Network Expenses- These include General Liability Insurance, Office Equipment, Payroll Services, additional audit costs, translation, childcare, venue rentals, and food for meetings, and regional community change work. Total costs for this category: $372,078.

5) Training Expenses- Training expenses include capacity building and training for Regional Network Grantee to help build skills and capabilities of the team supporting the work. Total training expenses: $20,098.

6) Evaluation – Evaluation expenses are: $13,500.

7) Indirect Costs- 10% of total contract amount excluding subcontractors (contractor services), equipment and depreciation: $32,400.

8) Local Network Costs- A total of $1,389,713 is estimated for capacity building and leadership development, community change work, coordination and support costs for Panorama City & Neighbors and Northeast Valley.

Change from Prior Year (if >+-20%)

Initiative	Investment Category
Supporting the Emergence of Movements	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Region 4: Port Cities Regional Network	$2,644,000	$2,380,000	-9.98%

Program Summary

With approval of the 2020-2028 Strategic Plan, the First 5 LA Board of Commissioners reaffirmed a commitment to the Best Start Networks as foundational infrastructure to cultivate parent/caregiver and community actions aligned with First 5 LA's priority results within the 14 Best Start geographies. FY 21-22 represents the fourth year of implementing the new structure for Best Start. The first two years focused on transitioning into the new structure, strengthening relationships, identifying community priorities, and developing a change agenda to guide actions that advance community priorities. Year 3 focused on continued refinement of the change agenda and to begin implementation of community efforts resulting in stronger networks, a better understanding of the social ecosystem and an ability adapt to changes in community conditions as presented with the challenges put forth by the COVID-19 pandemic.

The Best Start Region 4 (Port Cities) Network includes Central Long Beach and Wilmington. In FY 21-22, the Region 4 Port Cities Regional Network will continue to strengthen their ability to build and operate as a network, develop the ability to understand the social ecosystem, and to become more adaptive to changes in community conditions. The Regional Network will continue to strengthen the likelihood that movements focused on our long-term results and conditions of well-being will emerge.

The Nonprofit Partnership (TNP) serves as the Regional Network Grantee for Region 4. With First 5 LA's support, TNP and its partners will work with parents/caregivers, community leaders, organizations and other allies to develop broader networks that attract and engage new partners from communities not currently or meaningfully engaged in the Best Start networks , influence stakeholders in the ecosystem to coalesce around prenatal to 5 work, implement actions within the communities' change agendas that address root causes of the systemic issues impacting children and families , and build a structure within the Best Start geographies committed to cohering movements focused on population level results aligned with one or more of the First 5 LA's long term results for children and families and additional conditions of wellbeing.

Due to TNP's role as a management support organization serving the South Bay, additional First 5 LA resources will support TNP's ability to provide capacity building support to the organizations within the Best Start partnerships. TNP's work in this area will leverage First 5 LA's Optimizing Organizational Capacity project.

All engagement, including convenings, conducted by grantees and their subcontractors may be adapted to virtual platforms to align with public health guidelines.

Spending Plan and Funding Methodology

HOW FUNDS WILL BE SPENT IN FY 21-22

- Regional functions: contract administration, coordination and/or provision of organizational capacity building, regional learning, multi-level coordination, collective advocacy, resource mobilization, communications outreach, resident/stakeholder engagement and advocacy, and an external independent audit specific to the First 5 LA contract funds.

- Local level functions: capacity building and leadership development, community change work, and coordination and support costs.

MAJOR COST AREAS

The Region 4 Port Cities Network funding level estimate of $2,379,600 for FY 21-22 was determined based on spending patterns anticipated in FY 21-22 and negotiated contract estimates. The total grant amount to support regional and local level roles and functions reflects 12 months of implementation supporting Wilmington and Central Long Beach. The following are the major programmatic and administrative cost categories and estimated annual amounts for FY 21-22.

Initiative	Investment Category
Supporting the Emergence of Movements	2020-2028 Strategic Plan

1) Personnel – 7 staff positions will manage the various network components including capacity building, regional learning, multi-level coordination, project management, strategic direction, research & evaluation, collective advocacy and resource mobilization. Total estimated expenses for personnel: $382,605.40.

2) Contracted Services – an estimated 4 subcontractors to support and develop Region 2 capacity building, communications multi-level coordination, resource mobilization, collective advocacy, and financial auditing. Total estimated expenses for subcontracts: $22,500.

3) Operating and Administrative Costs – A total of $98,817.30 is estimated for equipment, space, printing & copying, telephone, postage, project supplies, travel, mileage, training expenses supplies, other related expenses.

4) Evaluation – A budget of $34,200 is needed to expand the role of evaluation efforts at the local and regional level, including fees and data collection and analysis activities.

5) Indirect Costs: 10% of total contract amount excluding subcontractors (contractor services), equipment and depreciation: $26,820.

6) Local Network Costs- A total of $1,427,200 is estimated for capacity building and leadership development, community change work, coordination and support costs for Central Long Beach and Wilmington.

7) Regional Network Expenses- A budget of $387,857.30 is needed for regional level network building, systems change activities as well as organizational capacity building support.

Supporting the Emergence of Movements	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Region 5: Antelope Valley Regional Network	$2,180,000	$1,962,000	-10.00%

Program Summary

With approval of the 2020-2028 Strategic Plan, the First 5 LA Board of Commissioners reaffirmed a commitment to the Best Start Networks as foundational infrastructure to cultivate parent/caregiver and community actions aligned with First 5 LA's priority results within the 14 Best Start geographies. FY 21-22 represents the fourth year of implementing the new structure for Best Start. The first two years focused on transitioning into the new structure, strengthening relationships, identifying community priorities, and developing a change agenda to guide actions that advance community priorities. Year 3 focused on continued refinement of the change agenda and to begin implementation of community efforts resulting in stronger networks, a better understanding of the social ecosystem and an ability adapt to changes in community conditions as presented with the challenges put forth by the COVID-19 pandemic.

The Best Start Region 5 (Antelope Valley) Network includes Lancaster and Palmdale. In FY 21-22, the Region 5 Antelope Valley Regional Network will continue to strengthen their ability to build and operate as a network, develop the ability to understand the social ecosystem, and to become more adaptive to changes in community conditions. The Regional Network will continue to strengthen the likelihood that movements focused on our long-term results and conditions of well-being will emerge. Region 5 will also work to build greater alignment around vision and strategy among partners, mobilize resources, leverage networks, and shift policies and systems (e.g. Antelope Valley Resource Infusion project) to meet the needs of children and families in the region.

Children's Bureau of Southern California (Children's Bureau) serves as the Regional Network grantee for Region 5. With First 5 LA's support, Children's Bureau and its partners will work with parents/caregivers, community leaders, organizations and other allies to develop broader networks that attract and engage new partners from communities not currently or meaningfully engaged in the Best Start networks, influence stakeholders in the ecosystem to coalesce around prenatal to 5 work, implement actions within the communities' change agendas that address root causes of the systemic issues impacting children and families, and build a structure within the Best Start geographies committed to cohering movements focused on population level results aligned with one or more of the First 5 LA's long term results for children and families and additional conditions of wellbeing,

All engagement, including convenings, conducted by grantees and their subcontractors may be adapted to virtual platforms to align with public health guidelines.

- Local level functions: capacity building and leadership development, community change work, and coordination and support costs.

MAJOR COST AREAS

The total grant amount to support regional and local level roles and functions in Region 5 reflects 12 months of implementation supporting Lancaster and Palmdale. The FY 21-22 budget is $1,962,000.

1) Personnel- 7 staff positions including a Program Manager, System Learning Coordinator, Community/Network facilitator, Program Specialist Coordinator, Logistics Specialist, Community Director, Sr Program Administrator. The total for this cost category is: $377,590.

Initiative	Investment Category
Supporting the Emergence of Movements	2020-2028 Strategic Plan

2) Contracted services- This budget line item covers the costs of providing trainings/consultation/ related to ensuring compliance to the work and ongoing staff development for Children's Bureau staff and partner. It is anticipated that Children's Bureau will bring on board several consultants that will work closely with agencies, community, and Children's Bureau. The total for this cost category is $165,230.

3) Administrative and Operating Expenses- This cost category includes general and janitorial supplies, program supplies and materials, trainings, facility costs, equipment rentals, service contracts, equipment purchases, printing, postage, travel and staff mileage, communications, financial audit, and miscellaneous costs. The total cost for this cost category is $70,000.

4) Indirect Costs- 10% of total contract amount excluding subcontractors (contractor services), equipment and depreciation. The total for this cost category is $42,732.

5) Local Network Costs - A total of $1,210,148 is estimated for capacity building and leadership development, community change work, coordination and support costs for Lancaster and Palmdale.

6) Delayed Regional and Local Efforts: $96,300 to support activities in the FY 20-21 RNG contract that are projected to be moved into FY 21-22 due to unanticipated delays resulting from the COVID-19 pandemic.

Initiative	Investment Category
Supporting the Emergence of Movements	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Network Capacity Strengthening	$725,000	$542,000	-25.24%

Program Summary

In 2018, First 5 LA contracted with five organizations (referred to as Regional Network grantees or RNGs) to help expand and evolve the 14 Best Start community partnerships into local and regional networks of parents, residents, organizations and other stakeholders working together to address issues that affect children prenatal to age 5 in their community and to fully realize their contribution as important players in advancing and sustaining systems change. However, many of the nonprofits participating in the partnerships have shared the challenges they face in advancing policy and systems-level change due to limited resources and the complexity of the issues impacting children and families. Through Network Capacity Strengthening, First 5 LA seeks to strengthen the capacity of nonprofit organizations actively participating within the local and regional Best Start Networks. These projects seek to strengthen participating nonprofit organizations systems, structures, resources, relationships, and skills needed to fully realize their contribution as important players in advancing policy and systems change within the local and regional Best Start networks and the larger social ecosystem. The convenings, trainings, technical assistance, and coaching may be conducted virtually based on public health guidance.

This program includes two projects: Optimizing Organizational Capacity (OOC) and Communities of Practice (CoP). The purpose of the OOC is to strengthen the capacity of nonprofit organizations actively participating within each of the 14 Best Start community geographies to more effectively influence policy and systems level change within the local and regional Best Start networks. To this end, this project seeks to strengthen participating nonprofit organizations systems, structures, resources, relationships, and skills needed to fully realize their contribution as important players in advancing systems change within the local and regional Best Start networks and the larger social ecosystem.

The CoP is to create a space for RNGs to deepen partnerships, provide updates, share practices, and create a sense of community that inspires ongoing reflection, adaptation, and practice improvements.

Spending Plan and Funding Methodology

Network Capacity Strengthening has two projects included for FY21-22, which total $542,300. Estimated expenditures include:

1. Optimizing Organizational Capacity Strengthening: $367,300 (rounded to the 367,000 for budget system)

Estimated expenditures of $367,300 represents 12 months of implementation based on contract with the Center for Nonprofit Management. It is anticipated that 5 - 10 nonprofit organizations from each of the 14 Best Start partnerships will participate, for a total of up to 140 participants. Total project is based on current contract funding. Projected expenditures support the following functions:

a) Co-designing a capacity strengthening approach and plan – in coordination with First 5 LA and the RNGs – based on an assessment of the capacity strengthening needs of nonprofit organizations in the Best Start partnerships.

b) Coordinating and convening of project participants and implement peer-to-peer learning exchanges and increase collaboration.

c) Providing training, technical assistance, and coachingto nonprofit organizations actively participating within the local and regional Best Start networks.

d) Serving as the project's evaluation and learning coordinator by collecting data and learning sessions on an as needed basis with First 5 LA, RNGs, and other identified partners, and compiling lessons learned from working with project participants.

e) Share learnings and insights with First 5 LA staff, leadership and board as appropriate and strengthen relationships with other capacity builders and funders to explore leveraging opportunities to support the nonprofit sector within our Best Start regions.

Initiative	Investment Category
Supporting the Emergence of Movements	2020-2028 Strategic Plan

2. Communities of Practice: $175,000

Estimated expenditures represent 12 months of implementation based on contractor selected in FY19-20 to plan, facilitate, and continuously improve Communities of Practice (CoP) between the Best Start Regional Network Grantees (RNGs) and First 5 LA (approximately 45 participants). Projected expenditures support planning for and facilitating up to 10 meetings (approximately 4 hours each), two 2-day retreats, and up to 6 web-based sessions per year. Expenditures also cover logistics for all CoP sessions, participant interviews, learning documentation and report writing. Total estimated expenditures for Communities of Practice: $175,000.

Change from Prior Year (if >+-20%)

$150,000 decrease for FY 21-22 realized from the FY 20-21 COVID response grant to support the Center for Nonprofit Management and The Nonprofit Partnership (subcontractor) to address the immediate capacity building needs of nonprofits within the Best Start geographies that are being exacerbated by the COVID-19 pandemic.

Initiative	Investment Category
Supporting the Emergence of Movements	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Network Knowledge Development and Dissemination		$305,000	0.00%

Program Summary

This program area provides resources to support data, learning and dissemination activities to support work as it unfolds in the Best Start geographies. This program area supports the new and continued engagement and convening of diverse stakeholders at the local and regional levels to integrate and leverage efforts within Best Start geographies. All engagement, including convenings, may be adapted to virtual platforms to align with public health guidelines.

This program includes two projects for FY 21-22: Advancement Project California (APCA) and Learning Dialogues.

The APCA project is to guide staff and community reflection and discussion about the state of Best Start communities and the focus of our collective policy and systems change efforts. This information builds from First 5 LA's Impact Framework, particularly as it relates to the Communities Outcome.

The Learning Dialogues are a space for convening and organizing stakeholders within each Best Start region to generate collective understanding of: a) the stories behind baseline data from First 5 LA's Impact Framework, Early Development Index (EDI), Advancement Project's Best Start data, and other public systems' data relevant to First 5 LA and community priorities; and b) the experiences of families, communities, public agencies and others where baseline data does not exist.

Spending Plan and Funding Methodology

Network Knowledge Development and Dissemination has two projects included for FY21-22, which total $385,000. Estimated expenditures include:

1. Advancement Project California (APCA): $225,000

Total estimated cost for FY 21-22 is $225,000. Estimated expenditures include:

Advancement Project: $225,000 covers current Strategic Partnership with the Advancement Project, approved by the Board in April 2019 including co-designing with First 5 LA staff, providing data and analysis of indicators and the data infrastructure, collecting and analyzing data pertinent to First 5 LA COVID-10 rapid response.

2. Learning Dialogues: ($80,000): Based on historical expenditures, and experience with similar activities, costs include resources to support local and regional level convenings with decision-makers, other funders, and cross-sector leaders = $80,000. (Approximately 2-3 per region and up to 5 cross-regionally). The Learning Dialogues may be conducted virtually based on public health guidance.

Change from Prior Year (if >+-20%)

Initiative	Investment Category
Field Building	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Link Advocates Governments Families and Parks (LINK)	$300,000	$150,000	-50.00%

Program Summary

In 2016, Los Angeles County voters passed Measure A, a permanent parcel tax that will raise over $80 million a year for parks and open space in LA County. In response to this large amount of funding, the Los Angeles Funders' Collaborative, comprised of 12 funders including First 5 LA, commissioned the "Measures Matter" report written by the University of Southern California Program for Environmental and Regional Equity (USC PERE). The purpose of the report is to articulate strategies for how newly approved measures can be equitably implemented across Los Angeles County. The report identified a key barrier to expanding open space in low- income neighborhoods as a lack of capacity amongst government agencies and CBO's as well as a lack of inclusion of residents in the decision-making process. This results in resource distribution to wealthier areas rather than the places that most need it. The Los Angeles Funders' Collaborative sought ways to mobilize around this issue to ensure that historically underinvested communities would receive their fair share of resources from Measures A.

First 5 LA has been working in collaboration with other partners from the LA Funders Collaborative to design and implement Link, a two-year pilot project which focuses on creating partnerships between parents, residents, municipal governments, and experts in park development to develop and then mobilize around a comprehensive park/open space plan that would be the basis for applying for Measure A funding. The program has three main goals: Build capacity in under-invested communities to leverage funding, ensure that parents and residents have a voice in decision-making and that the funding meets the needs of children and families, and to partner with the Los Angeles County Regional Parks and Open Space District (RPOSD) to integrate Link into the Technical Assistance Program (TAP) program for Measure A.

$150,000 for FY 21-22 will represent a one-year extension of this project to leverage philanthropic contributions to pilot up to two more Best Start regions.

In September 2019, the First 5 LA Board of Commissioners approved a strategic partnership with Resources Legacy Fund to manage a pooled fund that includes resources from First 5 LA, Resources Legacy Fund, The Rosalinde and Arthur Gilbert Foundation, and leverages resources from Enterprise Community Partners. Resources from the pooled fund were originally designed to support two municipal districts within Best Start geographies. Currently, Link supports 3 Best Start communities: Panorama City, El Monte, and Southeast LA (Cities of Cudahy and Maywood). UCLA Luskin Center has also been contracted to provide evaluation and learning support for Link.

All engagement, including convenings, conducted by Link grantees may be adapted to virtual platforms to align with public health guidelines.

Spending Plan and Funding Methodology

The First 5 LA Board of Commissioners approved a total contribution of $600,000 over two years (FY 19-20 and FY 20-21) to the Link pooled fund. The first $300,000 was disbursed to the pooled fund in FY 19-20. In FY 20-21, the second disbursement of $300,000 was added to the pooled fund. First 5 LA's funds have leveraged an additional $200,000 from the Resources Legacy Fund and $100,000 from the Rosalinde and Arthur Gilbert Foundation. The $150,000 for FY 21-22 will represent a one-year extension of this project to leverage philanthropic contributions to pilot up to two more Best Start regions. While the second disbursement of $300,000 was issued in FY 20-21, the current contract with Resources Legacy Fund goes through October 2021; and the $150,000 for FY 21-22 will represent a one-year extension of this project to leverage philanthropic contributions to pilot up to two more Best Start regions.

Change from Prior Year (if >+-20%)

The first $300,000 was disbursed to the pooled fund in FY 19-20. In FY 20-21, the second disbursement of $300,000 was added to the pooled fund. While the second disbursement of $300,000 was issued in FY 20-21, the current contract with Resources Legacy Fund goes through October 2021 and therefore there is zero budget implications for FY 21-22.

Initiative	Investment Category
Field Building	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Best Start Learning Agenda	$540,000	$540,000	0.00%

Program Summary

Since 2010, First 5 LA has worked to strengthen community leadership and infrastructure in 14 communities in Los Angeles County through Best Start, an approach that emphasizes the critical role of "place" and its impact on a child's development. The purpose of the Best Start initiative is to cultivate strong collaborative efforts among parents, residents, organizations, and key leaders (i.e. Best Start networks) so that, together, they are a powerful catalyst for systems changes that achieve and sustain positive outcomes for children and families in their communities.

Through the Best Start Learning Agenda (BSLA), First 5 LA sees an opportunity to learn together with our grantees, contractors, and communities, and establish proof of concept to inform county-wide systems improvement strategies. The BSLA learning efforts will deepen First 5 LA's and its partners' understanding of how community-led systems change emerges through stronger networks, and how community-led efforts support movement building that shifts mental models, policies, and practices that create better "places"—structures, systems, and environments—for young children and families.

To support the refinement and implementation of the BSLA, First 5 LA is hiring a contractor to serve as a strategic thought partner, primary architect and implementor of the Best Start Learning Agenda. The approach is expected to leverage existing research and learning efforts and strengthen First LA's learning alongside our partners, grantees, contractors, and community members. The Office of Data for Action, and the Office for Equity, Strategy and Learning collaborated with the Communities Team to develop the solicitation of the Best Start Learning Agenda Research Team (hereafter BSLA Research Team).

Resources support data gathering and analysis of multiple primary and secondary data sources including interviews and grantee reports across investments in order to inform learning for ongoing improvement, communicate progress and increase accountability. Resources also support data dissemination and reports on emergent learnings to strengthen the evidence base and support for community-driven investments and strategies that improve results for children and families.

Spending Plan and Funding Methodology

HOW FUNDS WILL BE SPENT IN FY 21-22:

1) Planning, Design and Project Management ($190K): This includes initial onboarding activities, including document review, planning and design. This amount assumes approximately 1300 hours at a rate of $150 per hour to perform activities related to managing the BSLA design and implementation.

2) BSLA Research Activities ($330K): This includes the creation of engagement structures, refining learning questions, and creating research plan, including the development of instruments and summary documents. This amount is based on F5LA's prior experience with similar activities.

3) As a reference, the amount budgeted reflects roughly 65% of annual costs associated with the Best Start Developmental Evaluation (DE) conducted from December 2013 through June 2015. The 65% represents activities in the DE project that are similar to those projected for the BSLA. Activities include but are not limited to network analysis, primary data collection (e.g. focus groups, surveys, interviews), sensemaking and learning briefs, technical assistance to grantees as needed; region and/or community-specific case studies, publications and presentations.

4) BSLA Convenings ($20K): The amount budgeted is for costs associated with executing convenings associated with the BSLA. We anticipate hosting convenings for multiple audiences including (a) CD grantees and contractors, (b) members of the Best Start Networks and Regions and (c) others in the field doing place- based, systems change work.

Change from Prior Year (if >+-20%)

This program was previously with the Department of Measurement, Learning and Evaluation and with the recent organization-wide changes it has been transitioned to the Communities Team.

Initiative	Investment Category
Field Building	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Built Environment Policy Advocacy Fund (BEPAF)	$1,000,000	$875,000	-12.50%

Program Summary

The Built Environment Policy Advocacy Fund (BEPAF) is a multi-cycle grant program implemented through an Intermediary model, building on lessons learned from First 5 LA's Early Care and Education Policy Advocacy Fund. The goal of BEPAF is to maximize policy- and systems-change advocacy strategies to improve children and families' access to: 1) high-quality parks, open space, and recreation facilities; 2) safe and reliable transportation/opportunities for mobility; and 3) food security. BEPAF advances this goal supporting community-based organizations to develop and implement effective, culturally competent built environment policy- and systems-change advocacy initiatives in the Best Start geographies.

Currently, First 5 LA invests in three separate Policy Advocacy Funds across three different teams – Built Environment in Communities, Early Learning in ECE, and Child Health in the Office of Government Affairs and Public Policy. These projects have been aligned to all conclude at the end of FY 21-22.

Moving forward, to support more integrated policy development and advocacy work aligned with the more holistic child and family public policy goals outlined in the Strategic Plan, First 5 LA will develop a plan to establish an integrated Policy Advocacy Fund housed within the Office of Government Affairs and Public Policy. The integrated fund will be co-developed and implemented in partnership with teams across First 5 LA, and support policy change activities aligned with First 5 LA's Board-approved Policy Agenda and rules governing public agency advocacy activities.

Prevention Institute, a national non-profit with experience in the built environment and policy advocacy, serves as the intermediary for BEPAF. Prevention Institute is responsible for planning, administering, and managing, and evaluating all components of the grant program. In FY 21-22, BEPAF will support the following:

1) Policy Advocacy Implementation Grants: Up to 5 grants of $75,000 – $100,000 each (up to $550,000 total) to support built environment advocacy organizations that are uniquely positioned to accelerate countywide or regional efforts that advance the BEPAF focus areas. These grants are intended to support responsive and highly impactful policy advocacy and systems change efforts including coalition-building, community organizing, policy advocacy, and other activities that will improve the lives of young children and their families in LA County, and particularly in Best Start communities.

2) Policy Advocacy Incubation Grants: Up to 2 grants of $40,000-$50,000 each (up to $90,000 total) to strengthen the built environment policy advocacy capacity of organizations that are working directly with parents and community residents in Best Start communities.

3) Strategic Response Grants: Funding designed to fulfill two purposes: 1)address unexpected built environment advocacy opportunities and/or quickly shifting contexts (e.g.COVID-19) through existing BEPAF grantees; and 2) technical assistance, and potentially smaller levels of financial support., to organizations in geographies (e.g. Antelope Valley) that need specialized support to be eligible for Incubation and Implementation grants.

All engagement, including convenings, conducted by the Prevention Institute and BEPAF grantees may be adapted to virtual platforms to align with public health guidelines.

Spending Plan and Funding Methodology

Prevention Institute's total projected contract amount is $875,000 for FY 20-21 which reflects 12 months of BEPAF implementation. It includes additional resources for the BEPAF Strategic Response Fund based on lessons learned during first round of the BEPAF grantee selection process and the COVID-19 pandemic.

MAJOR COST CATEGORIES

1) Policy Advocacy Grants- Up to $550,000 of the total budget is allocated for two BEPAF grant categories: Policy

Initiative	Investment Category
Field Building	2020-2028 Strategic Plan

Advocacy Incubation Grants (between $25,000 - $50,000 each);Policy Advocacy Implementation Grants (between $75,000 - $100,000 each);

2) Administrative and Operating Expenses- Grant administration costs, coordinating and convening of grantees, and technical assistance to Incubation and Implementation grantee cohorts. Total estimated cost is $249,758. Administrative expenses also include additional technical assistance to community-based organizations for built environment policy- and systems-change advocacy in underinvested Best Start areas, like Antelope Valley.

3) Evaluation and Learning Expenses- estimated at $75,000.

Change from Prior Year (if >+-20%)

Initiative	Investment Category
Field Building	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Capacity Strengthening Learning Consortium	$400,000	$380,000	-5.00%

Program Summary

FY 21-22 represents year two of this three year project to help establish a cross-sector learning structure and processes partners engaged in capacity building work. Current partners represent a diverse cross-section of community-based organizations, services providers, public agencies, policy advocates, funders, and individual community leaders. The intent of the project is to cultivate relationships, share knowledge, and apply learning among partners and grantees to bolster their respective capacity building efforts. Resources for this program area are committed through a contract with Community Partners to accomplish three main objectives:

1) Design and continuously improve a peer learning structure and processes that facilitate learning, relationship building, and ongoing capacity building and technical assistance among partners engaged in capacity building efforts.

2) Capture, document and share learning that will inform First 5 LA's and partner's respective and collective work.

3) Inform and strengthen First 5 LA's efforts to build relationships with other funders and partners to increase resources and systems changes that improve communities for families with young children.

The Capacity Building Learning Consortium will bolster First 5 LA's understanding and measurement of the interconnections and impact of the work within Best Start geographies. The project will generate important data and learning in support of the Best Start Learning Agenda and Impact Framework.

All engagement, including convenings, may be adapted to virtual platforms to align with public health guidelines.

Spending Plan and Funding Methodology

The total estimated cost for Capacity Building Learning Consortium is $380,000. How funds will be Spent in FY 21-22:

- 10 Capacity Building Learning Consortium sessions at?approximately 7 hours each

- Contract with guest speakers/panelists for Consortium

- Support participants' ongoing learning including coaching between convenings and an online resource hub

MAJOR COST AREAS:

1) Personnel-Total allocated staff equates to 2.5 FTE staff positions for the purpose of serving as a co-designer, facilitator, evaluator, and thought partner of the Capacity Building Learning Consortium. Total estimated expenses for personnel: $237,374.

2) Convening Expenses ($45,250): Convening expenses include costs for an estimated 10 convenings. Proposed budget based on historical expenditures for logistics (venue, childcare, catering, translation/interpretation) averaging approximately $4525/event. Total Estimated: Convening Expense: $45,250. These convenings may be conducted virtually based on Public Health guidance.

3) Contracted Services- Projected contracted services include a data trainer, as well as additional consultants/contractors to be determined based on program needs. Total Contracted Services: $10,500.

4) Evaluation – Projected evaluation costs: $20,000

5) Operating and Administrative Costs- Estimated for space, employee mileage and travel, supplies, telephone. Total expenses: $33,740.

Initiative	Investment Category
Field Building	2020-2028 Strategic Plan

6) Indirect Costs-10% of total contract amount less subcontracting to cover costs including personnel administration, risk management and general liability insurance, tax and regulatory compliance and general operating expenses. Total Indirect Costs: $33,136.

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Long Beach Mayor's Fund for Education: Business Partner Cultivation		$75,000	0.00%

Program Summary

This two year project (through September 2022) established a strategic partnership with Community Partners, fiscal sponsor for the Long Beach Mayor's Fund for Education, for the purpose of activating and recruiting a network of business leaders and early childhood development (ECD) advocates in Long Beach to amplify the business voice for ECD policies and advocate for access to ECE as a central strategy in the post-COVID economic and community recovery efforts in the City of Long Beach. In FY 21-22, the Mayor's Fund for Education will accomplish the following:

1) Identify targeted business leaders and small businesses well positioned to move up the Ladder of Engagement and create individualized methodologies for each targeted business.

2) Measure current local business engagement in early childhood issues and family-friendly workplace policies to serve as a baseline metric to measure strategy implementation.

3) Facilitate coordinated outreach to the Long Beach business community amongst various early childhood advocates, including the City of Long Beach, First 5 LA, Child360, Long Beach Best Start Network, and ReadyNation California, utilizing Mayor's Fund and City contacts.

4) Activation of select business leader recruits to advocate for ECD policies within the City of Long Beach and Long Beach Unified School District.

5) Develop a local business ECD engagement case study to capture scalable solutions and model.

This partnership leverages other First 5 LA funds in support of the Business Sector Engagement Strategy, including strategic partnerships with ReadyNation California and UNITE-LA, and investments in the Long Beach Best Start Community. The Mayor's Fund for Education's relationship with philanthropic and business partners, such as the Long Beach Chamber of Commerce, California State University of Long Beach, the City of Long Beach Health Department, Boeing, A&T, the Munzer Foundation, and others further leverages this project with additional expertise, relationships, and resources.

Spending Plan and Funding Methodology

HOW FUNDS WILL BE SPENT IN FY 21-22

The total estimated cost for FY 21-22 for Long Beach Business Partner Cultivation is $75,000. Funds spent in FY 21-22 will be spent pursuing the following tactics:

1) Create a communications strategy to message early childhood issues to business leaders, including important issues and trends highlighted in Best Start Central Long Beach's report The Status of Young Children, and informed by community context, issues, and priorities.

2) Engage with Long Beach BSC Network to elevate community-based narratives to provide context of EC issues to business leaders.

3) Host introductory meetings between local business leaders primed to be engaged and activated as early childhood champions and First 5 LA, Mayor's Fund, and ReadyNation.

4) Convene Mayor's ECE Economic Engagement Roundtable.

5) Create a communications strategy for newly cultivated business ECD Champions to effectively relay messages about early childhood issues to other business and policy leaders.

Initiative	Investment Category
Field Building	2020-2028 Strategic Plan

6) Establish a company baseline for the economic baseline of business ECD engagement (baseline data).

7) Develop a tailored ECD-friendly business implementation plan capitalizing on the economic benefits of ECE engagement (progression plan).

Track changes in recruitment results, retention, productivity, workplace satisfaction, etc. (post-implementation report)
.

Track changes in family-friendly workplace practices as measured by employee recruitment results, retention, productivity, work-place satisfaction, etc.

ECE Team

Budget Fiscal Year: 2021 - 2022 Status: Proposed

Initiative	Investment Category
County Systems Building	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
County Liaison Consultant/CFA Data	$75,000	$45,000	-40.00%

Program Summary

There is a continued need for a County Liaison consultant to support implementation for First 5 LA's refined strategic plan. This would support work with the Office for the Advancement of Early Care and Education.

In FY 2019-2020, the Office of Child Protection in partnership with the Office for the Advancement of Early Care and Education and First 5 LA produced a County Fiscal Analysis of Early Care and Education dollars in the county. This report and recommendations helped inform the strategic plan of Office for the Advancement of Early Care and Education. The County Liaison consultant will facilitate and support implementation of these recommendations through support of Office for the Advancement of Early Care and Education.

Spending Plan and Funding Methodology

FY 2021-2022 estimates 50 hours per month at a cost of $135 per hour to fund the consultant's time supporting the Office for the Advancement of Early Care and Education (OAECE). Activities include agenda preparation and meeting facilitation for the County Fiscal Assessment (CFA) Implementation Workgroup and the Workforce Pathways Joint Committee, coordination of training and housing of the CFA revenue and expense models, survey development and data analyses to support implementation of OAECE's strategic plan, and coordinating alignment of these activities with Quality Start Los Angeles, First 5 LA, and other County ECE efforts. The rate is the same as was determined at the project's inception in 2018 and the number of hours is estimated on current spend rate with an anticipated increase in work to pre-pandemic levels as restrictions decrease. Some of the project's activities are operating at decreased pace because of OAECE's and other County offices' pandemic response.

Change from Prior Year (if >+-20%)

Expecting a decrease in support and not for the entire duration of the fiscal year.

Initiative	Investment Category
County Systems Building	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
ECE Policy Advocacy Fund	$3,350,000	$2,450,000	-26.86%

Program Summary

First 5 LA currently invests in three separate Policy Advocacy Funds across three different teams – Built Environment in Communities, Early Learning in Early Care and Education, and Child Health in the Office of Government Affairs and Public Policy. These projects have been aligned to all conclude at the end of FY 21-22.

Moving forward, to support more integrated policy development and advocacy work aligned with the more holistic child and family public policy goals outlined in the Strategic Plan, First 5 LA will develop a plan to establish an integrated Policy Advocacy Fund housed within the Office of Government Affairs and Public Policy. The integrated fund will be co-developed and implemented in partnership with teams across First 5 LA, and support policy change activities aligned with First 5 LA's Board-approved Policy Agenda and rules governing public agency advocacy activities.

The Early Care and Education Policy and Advocacy Fund supports organizations engaging in advocacy activities to support the expansion of publicly funded quality early learning. Though the project originally was to go only through December 2021, ECE is working with Contract, Administration, and Purchasing team to get board approval for an additional six months of the project to ensure a smooth transition to the integrated Policy Advocacy Fund set to launch in July 2022.

Spending Plan and Funding Methodology

Costs for FY 2021-2022 include $450,000 for administration of the fund. Activities for the last year of the fund include grant administration, convening, and a final learning and evaluation report. The amount is based on the standard 18-20% of grantmaking plus additional funds for the wrap-up activities. Additionally, planning for an integrated policy and advocacy fund is underway and is anticipated to launch at some point during FY 2021-2022, so $2 million is included for regranting to support organizations in the transition before the next round of Policy, Advocacy Funding is launched. This includes $1,325,000 for 8 reduced Partnership Grants ranging from $100,000-$200,000 and $675,000 for 9 Field-Building Grants of $75,000.

Change from Prior Year (if >+-20%)

Reduction due to the final year of funding. Funding for the integrated policy and advocacy fund is captured in the Office of Government Affairs and Public Policy's budget under Policy Advocacy Fund Technical Assistance Provider.

Budget Fiscal Year: 2021 - 2022 Status: Proposed

Initiative	Investment Category
County Systems Building	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Kindergarten Readiness Assessment	$6,141,000	$3,400,000	-44.63%

Program Summary

The refined Strategic Plan reaffirms First 5 LA's commitment to the Kindergarten Readiness Assessment initiative while refining the goal of the project. The objectives of KRA projects are to expand the use of a population-level measurement of school readiness to inform systems-level change and to support, inform, and advance community-action, with an intentional focus on the fourteen Best Start geographies.

The FY 21-22 Kindergarten Readiness Assessment budget includes funding for data collection for Los Angeles Unified School District, El Monte Central School District, Rosemead School District, Mountain View School District, and Long Beach Unified School District. These districts are all in Best Start geographies. This budget also reflects funding for Pomona Unified School District, Santa Monica, and the City of Pasadena. These partnerships will sunset as part of the Kindergarten Readiness Assessment strategy. These funds are extended to recognize the challenges COVID-19 presented for school districts and the KRA strategy and will allow partners to accomplish goals that could not be completed in FY21 due to the pandemic.

In addition to funding these partnerships, a major goal of the KRA project in FY 21-22 will be strategy refinement. We will be evaluating how/if KRA data supports the work of the Communities team and the needs of the Best Start geographies. This strategy refinement work will likely impact future funding needs.

Spending Plan and Funding Methodology

Assumes First 5 LA will continue to fund district coordination and teacher engagement and community engagement and action planning with existing Kindergarten Readiness Assessment districts/communities.

The Kindergarten Readiness Assessment's funding model includes a low, medium, and high costs district correlated with district size. The Los Angeles Unified School District is an outlier and has its own funding model and is the largest cost driver of Kindergarten Readiness Assessment.

For districts collecting Early Development Instrument data, the assessment supported by this project, funding is based on the following main costs: teacher incentives and release time for both training and data collection time, costs for supplies, postage, and materials needed for school and community level engagement opportunities, and personnel time for district/agency staff supporting the Kindergarten Readiness Assessment strategy implementation.

For non-collecting districts, funding is based on the following main costs: costs for creating collateral to distribute to communities, other costs for supplies, postage, and materials needed for school and community level engagement opportunities, and personnel time for district/agency staff supporting the Kindergarten Readiness Assessment strategy implementation.

The budget amount is based off previous years' costs. Every year, these include the standard rates per district for teacher release and training time, standard costs for supplies, materials, and other needs for sharing Kindergarten Readiness Assessment data with various stakeholder groups (printing, custodial services, educational materials for parents). This year's amounts were determined first by determing the number of collecting or non-collecting district partners. For non-collecting districts, the budget amount was set assuming costs similar to previous non-collection year costs and the standard data sharing activities in non-collection years. For collecting districts, the funding amount was determined by the data collection goal (meaning number of students) and the corresponding number of teachers who will need training and paid release time in order to participate in the strategy as well as assuming similar engagement, training and personnel costs as previous collection years.

Change from Prior Year (if >+-20%)

Budget Fiscal Year: 2021 - 2022 Status: Proposed

Initiative	Investment Category
County Systems Building	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Provider Advisory Group	$200,000	$175,000	-12.50%

Program Summary

The Early Care and Education team plans on launching an Advisory Group to co-design strategies to support home based child care programs.

The group will be comprised of providers based on specific dimensions of diversity ensuring representation from a cross-section of LA County providers. These providers will support the Early Care and Education team in understanding how to best support providers and better understand their lived experience.

Additionally, the Early Care and Education team is launching a survey panel to further receive input directly from parents.

Spending Plan and Funding Methodology

$100,000 is to launch a survey panel to begin to immediately solicit input directly from providers & parents. This cost is determined by looking at the survey panel used in San Francisco for a similar purpose - supporting parent input for the Office of Early Care and Education.

$75,000 is for a consultant to help plan for a Community Advisory Group. This is calculated at 500 hours at the cost of $150/hour.

Change from Prior Year (if >+-20%)

Budget Fiscal Year: 2021 - 2022 Status: Proposed

Initiative	Investment Category
Quality Improvement System	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Dual Language Learner	$1,888,000	$1,000,000	-47.03%

Program Summary

Dual Language Learner program is funded by First 5 CA. This funding is distributed amongst our partners to support providers in meeting the needs of Dual Language Learners. Funding will cover developing training modules, training Quality Start Los Angeles coaches, and opening professional development opportunities for child care providers.

This program has a two year anticipated life cycle, with contracts being executed in FY 2020-2021.

Spending Plan and Funding Methodology

Total funding from First 5 CA is $1.8 million. Contracts to partners are being executed in February 2021 with $800,000 budgeted for FY 20-21 to offset start-up costs and the remaining $1,000,000 included for FY 21-22.

Original contract term was through December 2021. However, as per First 5 CA direction, the First 5 LA & First 5 CA contract will be amended and extended in July 2021 for an additional 6 months and will end on June 30, 2022. Therefore First 5 LA partner contracts will also be extended until June 30, 2022.

Change from Prior Year (if >+-20%)

Funding adjusted to reflect timing of contract execution. There was a delay in receiving contract and funding from First 5 CA.

Budget Fiscal Year: 2021 - 2022 Status: Proposed

Initiative	Investment Category
Quality Improvement System	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
ECE Workforce Registry	$650,000	$550,000	-15.38%

Program Summary

The Early Care and Education Workforce Registry (Registry) is a mechanism for generating, maintaining and disseminating data and information on the professional development, educational accomplishments, and employment of the Early Care and Education workforce in California. As a centralized data system, the Registry has increased the accessibility and uniformity of data while reducing burden related to data collection, entry and processing, minimizing administrative duplication and facilitating reporting across the state.

Spending Plan and Funding Methodology

First 5 LA's financial support of the California Early Care and Education Workforce Registry (the Registry) will solely support LA County operations, which includes new enrollment and maintenance of the data system for the LA County Early Care and Education workforce.

We arrived at this budget based on spending patterns in recent years specific to LA County operations, which has a heavy emphasis on Personnel and Contracted Services costs. The costs continue to run high because the structure of the Registry relies heavily on staffing capacity who hand enter and verify registry data.

First 5 LA’s financial support of the Registry will continue to decline in FY 21-22, as the development and infrastructure of the Registry is solidified and First 5 CA gradually increases its support of the Registry's operations statewide. The reduction also reflects plans to implement a sustainable funding plan for the Registry.

Change from Prior Year (if >+-20%)

Budget Fiscal Year: 2021 - 2022 Status: Proposed

Initiative	Investment Category
Quality Improvement System	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Home Based Child Care Strategy	$200,000	$300,000	50.00%

Program Summary

In the refined Strategic Plan, First 5 LA has prioritized 1) a broader notion of quality improvement which seeks to place less emphasis on a rating and more on the process of quality improvement and 2) an explicit focus on equity. Home based care is a primary source of care in Los Angeles County, in particular for infants and toddlers and families for whom traditional settings may not be a feasible option (i.e., erratic schedules, weekend work schedules, language barriers, etc.). In short, family child care and family, friend, and neighbor care serves the families and children we would prioritize under an equity framework. Improving access to quality supports is also a strategy identified by Quality Counts California as a priority of Improve and Maximize Programs so All Children Thrive 2020 (IMPACT 2020) funding.

However, in order to develop responsive programming to meet the needs of home-based care providers not previously reached through LA County quality support efforts, we must learn more about the population, their needs, and what is needed to support their ability to provide quality early learning experiences to children in their care. To that end, First 5 LA has identified two primary activities in FY 21-22. The first is a landscape analysis of Family, Friend, and Neighbor providers. Partnering with the Child Care Alliance of Los Angeles, they will use their existing relationships with unlicensed providers to conduct a landscape of Family, Friend, and Neighbor providers. In addition, First 5 LA staff will work with Duane Dennis, an expert on Family, Friend, and Neighbor care in Los Angeles County who will build the team's understanding of the home-based care sector in Los Angeles County and serve as a thought partner as staff work to develop responsive programming to meet the needs of this diverse and underserved population that has historically been excluded from broader quality improvement efforts.

Spending Plan and Funding Methodology

The amount of $200,00 includes a landscape analysis of the circumstances and conditions facing home based care providers and the families who chose that care. The amount was determined by looking at previous landscape analyses.

An additional $100,000 is to develop criteria for and pilot strategies to support home based child care based off of learnings from the landscape analysis. We anticipate that these funds will support the Child Care Alliance of Los Angeles (the local association of Resource and Referral Agencies) as our implementing partner. These agencies already provide the backbone and infrastructure of our local early care system, and we will use that infrastructure to pilot strategies developed. The strategies developed will be informed from the landscape analysis and input from the Advisory Group. The $100,000 will support consultant services: $25,000, Parent & Provider Focus Groups: $25,000, Stipends & Incentives: $30,000, Materials & Shipping: $15,000, Subscriptions: $5,000.

Change from Prior Year (if >+-20%)

Increase represents funding for pilots in addition to the landscape analysis.

Budget Fiscal Year: 2021 - 2022 Status: Proposed

Initiative	Investment Category
Quality Improvement System	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
IMPACT 2020	$2,760,000	$1,944,000	-29.56%

Program Summary

Improve and Maximize Programs so All Children Thrive (IMPACT) 2020 is the second round of funding from FIRST 5 CA to support quality improvement services in local counties. First 5 agencies have right of first refusal for these funds, and First 5 LA draws down the funding. This funding supports expansion and stabilization of Quality Start Los Angeles allowing us to serve a greater diversity of child care providers.

Spending Plan and Funding Methodology

This project will be funded through a drawdown from First 5 CA through the previous Improve and Maximize Programs so All Children Thrive (IMPACT) initiative and the current Improve and Maximize Programs so All Children Thrive 2020 initiative, funded through June 2023. This funding will be used to support Quality Start Los Angeles as part of a single application submitted to Quality Counts California - in particular the plans to expand Quality Start Los Angeles into a more inclusive quality improvement structure for all provider settings by expanding quality improvement services to family, friend, and neighbor care and more home-based licensed child care providers without state funding.

$2.1M of these funds come from money originally drawn down from First 5 CA's Improve and Maximize Programs so All Children Thrive initiative. The Los Angeles County Office of Education was awarded these funds via competitive solicitation, with grants of $2.1M in each 2020-2021 and 2021-2022. Following that, those funds will be expended and remaining funds will be through the Improve and Maximize Programs so All Children Thrive 2020 initiative. In FY 2020-2021, Los Angeles County Office of Education expenditures of Improve and Maximize Programs so All Children Thrive 2020 funds were $1.3M. The estimated expenditures in subsequent years are $1.94M in FY 21-22 and $3.1M in FY 22-23, for a total Improve and Maximize Programs so All Children Thrive 2020 expenditure of $6.349M through FY 22-23.

In FY 21-22, these funds will be spent on Los Angeles County Office of Education staff to administer Quality Start Los Angeles ($170K), contracted services to Child Care Alliance of Los Angeles and Child360 ($1.73M) to conduct quality improvement activities (i.e., coaching, technical assistance, stipends for Quality Start Los Angeles participating sites, etc.) per the application submitted to Quality Counts California (a joint effort of the California Department of Education and First 5 CA).

Total budget is rounded down from $1,944,214 to the nearest thousand, per internal practice.

Change from Prior Year (if >+-20%)

Budget Fiscal Year: 2021 - 2022 Status: Proposed

Initiative	Investment Category
Quality Improvement System	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
QSLA Database	$600,000	$600,000	0.00%

Program Summary

The QSLA Data System supports First 5 LA's broad approach to quality by providing a central data system for housing all data related to QSLA. By combining resources, LACOE and First 5 LA are able to ensure long-term continuity of a data system (iPinwheel) to be used for quality improvement efforts in Los Angeles County and increase administrative efficiency.

Spending Plan and Funding Methodology

System updates and improvements are an ongoing aspect of the QSLA data system, and there is a flat rate established between LACOE and the data system vendor for this work. As such, staff do not anticipate any increase in costs related to data system changes (or trainings associated). The QSLA data system vendor has a fee for administering the Teachstone proprietary assessment, CLASS. Additionally, funding also covers staffing to support the administration of the database.

Change from Prior Year (if >+-20%)

Budget Fiscal Year: 2021 - 2022 Status: Proposed

Initiative	Investment Category
Quality Improvement System	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
QSLA Expansion: IMPACT 1	$2,100,000	$2,100,000	0.00%

Program Summary

Following First 5 LA's release of the Quality Rating and Improvement System (QRIS) Expansion funding opportunity in late 2019, a new contract to provide QSLA services (coaching, training and technical assistance, stipends to participating sites, etc.) to licensed early care and education providers, including family child care home providers, began on July 1, 2019. This strategy is utilizing funding previously drawn down from First 5 CA's Improve and Maximize Programs so All Children Thrive (IMPACT) initiative.

Spending Plan and Funding Methodology

The funding level was determined based upon the award amount available as described in the QRIS Expansion RFQ released by First 5 LA staff. First 5 LA has allocated the total funding from First 5 CA across three fiscal years (FY 19 -20, FY 20-21, FY 21-22) with stable funding each year.

Change from Prior Year (if >+-20%)

Budget Fiscal Year: 2021 - 2022 Status: Proposed

Initiative	Investment Category
Quality Improvement System	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
VIVA Social Impact Partners	$400,000	$400,000	0.00%

Program Summary

All QSLA work funded by First 5 LA is closely coordinated, in particular with the Los Angeles County Office of Education (LACOE). For several years, VIVA has facilitated meetings of the QSLA collaborative which includes partners such as First 5 LA, LACOE, the Child Care Alliance of Los Angeles (CCALA), Child360, Partnerships for Education, Articulation, and Coordination through Higher Education (PEACH), and the Office for the Advancement of Early Education, and the Child Care Planning Committee (CCPC).

This collaborative is the governing body for QSLA.

Spending Plan and Funding Methodology

The FY 2021-2022 budget covers both the facilitation of the governing body of QSLA in additional to providing the external communications strategy and infrastructure for QSLA. Budget was derived based on a similar level of support needed to advance QSLA's work as in the previous FY. Funds will be used for meeting preparation/facilitation, data visualization, parent/provider survey panel work, and other priorities as identified by F5LA and LACOE to advance QSLA's work.

LACOE contributes 50% of this total cost, so First 5 LA and LACOE are equal partners in supporting the facilitation of QSLA.

Change from Prior Year (if >+-20%)

Health Systems Team

Initiative	Investment Category
Early Identification and Intervention	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Help Me Grow	$3,078,000	$4,172,000	35.54%

Program Summary

First 5 LA will continue to plan and implement Help Me Grow (HMG), a national model that promotes local cross-sector collaboration to bolster early identification of developmental and behavioral delays and linkage to intervention. Help Me Grow LA (HMG LA) will better coordinate systems that serve children to strengthen early identification and link children and their families to appropriate intervention services and supports. The Los Angeles County Department of Public Health (LACDPH) has partnered with First 5 LA to launch, test and refine the model's 4 core components (centralized access point, child health provider outreach, community and family engagement, and data collection and analysis) to meet LA county's needs and address our fragmented early identification and intervention (EII) system. Key areas of work underway include a pilot with L.A. Care Health Plan and 7 community collaboratives, HMG LA Pathways, focused on strengthening and expanding referral pathways via technology, infrastructure within a set geographic region. In addition, our evolving work supporting trauma informed approaches will continue via our partnership with LA County Department of Health Services, specifically around data collection and analysis of their multi-screen work(developmental and Adverse Childhood Experiences (ACEs)) and linkage to services.

Spending Plan and Funding Methodology

Budget categories align with key areas of work that emerged from the First 5 LA Strategic Plan implementation planning process as well as ongoing planning with the Los Angeles County Department of Public Health (LACDPH), who are co-implementing HMG LA with First 5 LA.

The categories include: 1) Help Me Grow LA (HMG LA) Implementation and 2) Trauma Informed Approaches

The FY 21-22 budget to support HMG LA related activities is based on current trend and anticipated implementation costs, resulting from staffing and or infrastructure investment to procure.

The HMG LA Implementation category includes costs associated with activities to implement and maintain the four core components of the model: Centralized Access Point; Data Collection and Analysis; Child Health Provider Outreach; and Community and Family Engagement.

1. HMG LA IMPLEMENTATION ($4,061,000)

A. Centralized Access Point and Data Collection and Analysis Components (LACDPH Lead) $1,731,000 –LAC DPH will continue to serve as the HMG Organizing Entity for a fourth year starting July 1, 2021 (Initial Board approval for a 5-year Strategic Partnership with LAC DPH to serve as the HMG organizing entity occurred in May 2018, total amount $10.1M). As the HMG Organizing Entity, LACDPH is responsible for planning and carrying out the implementation of the HMG Centralized Access Point and Data Collection and Analysis components. Major costs include personnel, consultant support, space, program supplies and equipment. LACDPH's FY 21-22 deliverables are informed by the HMG LA Implementation Plan which was completion in Spring 2019. Based on current planning, it is anticipated key activities for FY 21-22 will include implementation of the Centralized Access Point component and Data & Collection Analysis component, which may include procurement and entering into contractual agreements with vendors. In addition, it is expected LACDPH will continue to maintain Advisory Committee(s) (e.g.: consulting support, food, space for 4 meetings/year). The remainder is allocated for system mapping activities to support partner engagement, data collection and analysis.

B. Child Health Provider Outreach Component (First 5 LA lead) $550,000- Costs include funding for Year 1 of a 4-year investment with LA Care Plan to support a developmental screening and linkage to services pilot. Additional project(s) include dyadic care/family therapy guidance implementation pilot targeting high volume pediatric clinics addressing early screening and linkage to services for children's mental health.

C. Community and Family Engagement Component (First 5 LA lead) $1,780,000—Costs include continued implementation of five HMG LA Pathways Collaboratives across LA County and technical assistance support, this funding is for year 2 of a 3-year investment (Board approved October 2020). In addition, First 5 LA has released an

Initiative	Investment Category
Early Identification and Intervention	2020-2028 Strategic Plan

RFP (Spring 2021) for 2 additional communities, total of 7, to ensure countywide coverage. The HMG LA Pathways community collaboratives seek to strengthen referral pathways among cross-sector agencies that are a part of the early identification and intervention continuum. Costs also include managing the HMG Community and Family Engagement Council (CFEC) and funding activities identified by the council as well as networking events with key stakeholders. Lastly, Communications including consultant(s) support, content development for HMG LA such as graphic design support of outreach materials, translation and interpretation, copy editing and proofing, and printing for HMG LA.

2) TRAUMA INFORMED APPROACHES ($111,000)

A. Costs include continued funding of a partnership with LA County Department of Health Services to support their Strong, Healthy and Resilient Kids (SHARK) clinic. First 5 LA covers the costs of a data analyst position to support collection, tracking and evaluation. Additional funds ($5,000) included to support internal efforts, capacity building related to Mental Health Awareness.

Change from Prior Year (if >+-20%)

Increased budget represents full implementation costs of key projects/HMG LA components: Centralized Access Point, HMG LA Pathways, LA Care Health Plan pilot.

Budget Fiscal Year: 2021 - 2022 Status: Proposed

Initiative	Investment Category
Early Identification and Intervention	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
First Connections	$583,000	$545,000	-6.51%

Program Summary

The First Connections program, delivered by six diverse grantees, aims to increase screenings for developmental and behavioral delays and linkage to supportive early intervention services for children and families from culturally and linguistically diverse, underserved communities. This project continues to also generate learnings and promising practices to inform the implementation of Help Me Grow - LA (HMG LA) with a focus on community engagement and service delivery.

With new legislative state policy and administrative guidance at the California Department of Health Care Services to advance developmental screenings and care coordination for young children, there is increased interest to leverage the existing infrastructure and capacity built out by First Connections to further examine, in partnership with Managed Care Plans and County Departments, the effectiveness of the First Connections care coordination model for young children with or at risk for developmental delays on child health outcomes, utilization rates and Healthcare Effectiveness Data and Information Set (HEDIS) measure compliance.

Spending Plan and Funding Methodology

First Connections Care Coordination activities ($420,000); costs are based on historical data and anticipated need for discrete activities for 12 months (7/1/21-06/30/22).

Board approval in October 2020 supported a funding extension to continue First Connections' care coordination activities for an additional two years through September 2022. This extension aims to transition some First Connection grantees to non-First 5 LA funding sources. This funding, which accounts for less than 40% of the original annual budget for First Connections, will be used primarily to fund discrete care coordination activities, including personnel costs. This extension provides additional time for First 5 LA staff to further examine the effectiveness of First Connections' care coordination and potentially garner commitment from external partners including Medi-Cal Managed Care and select County Departments to examine, adopt and sustain First Connections' care coordination activities post First 5 LA funding.

Care Coordination Analysis ($125,000) Estimate based off similar data review projects and evaluations. Funding meant to support First Connection care coordination analysis to demonstrate impact on child health outcomes of interest to external funding sources (e.g. Medi-Cal Managed Care Plans) .

Change from Prior Year (if >+-20%)

Budget Fiscal Year: 2021 - 2022 Status: Proposed

Initiative	Investment Category
Early Identification and Intervention	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Early Identification and Intervention Evaluation	$150,000	$79,000	-47.33%

Program Summary

A key component of strengthening public and community systems outlined in the 2020-2028 Strategic Plan is to advocate for policies and transformative practices to ensure public systems provide maternal health services and child early identification and intervention (EII). As part of this work, First 5 LA will implement the Help Me Grow model in partnership with the Los Angeles County Department of Public Health as well as partnering with other agencies such as LA Care to identify more streamlined and cost effective ways to integrate high-quality early screening, referrals, and services into various practice settings (such as pediatrician offices and other primary care settings). In order to maximize learning and insights from this strategy, funds from this budget item will be used to launch two evaluations in FY 21-22 to inform implementation and assess outcomes: (1) LA Care pilot and (2) Help Me Grow Pathways. The goal for FY 21-22 is to release RFQ(s), identify evaluation contractor(s), develop in-depth evaluation plans in partnership with L.A. Care, the Department of Public Health, and Help Me Grow Pathway communities, and collaborate with these partners in data collection and analyses.

Spending Plan and Funding Methodology

The following funds are needed to support the evaluation of the LA Care Pilot.

(1) Evaluation of the LA Care Pilot:
Evaluation Plan (50 hrs x $200/hr) = $10,000
Data Analysis (292 hrs x $200/hr) = $58,400
Project oversight (40 hrs x $200/hr) = $8,000
Software ($2600)
Please note that we anticipate LA Care will collect and provide administrative data such that no additional data collection would be needed by external consultant.

Hour estimates are based on previous experience conducting evaluation projects.
These resources will supplement resources being contributed by other funders such as LA Care.

Change from Prior Year (if >+-20%)

Budget for FY 21-22 was reduced based on the anticipated timeline for RFP release, contracting, etc. We anticipate releasing an RFP in July 2021 and brining the contractor on board in January 2022. The budget then only reflects resources for the January-June 2022 period.

Budget Fiscal Year: 2021 - 2022 Status: Proposed

Initiative	Investment Category
AAIM Birth Outcomes and Disparities	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
AAIM Birth Outcomes and Disparities – Policy and Systems Change	$1,400,000	$1,050,000	-25.00%

Program Summary

First 5 LA (F5LA) and the Los Angeles County Department of Public Health's (LACDPH) have joined efforts to lead the African-American Infant and Maternal Mortality (AAIMM) initiative. The Initiative designs, supports and implements novel and evidence-based strategies and activities to improve pregnancy, birth and infant outcomes, improve family wellbeing, and decrease health disparities among Black women of reproductive age countywide.

AAIMM strategies are centered around the Center for Health Equity's 5-year action plan to reduce disparities by 30% . AAIMM acknowledges the root cause of disparities as racism related toxic stress, and strategies are designed to achieve the following outcomes in response: A) Reduce the sources of stress in women's lives; B) Help women block the pathway from social stress to physiological stress; and C) Intervene early to reduce the impact of stress on health.

AAIMM's primary, evidence-based direct service interventions are implemented and funded by LACDPH and other partners. As LACDPH's co-lead on the AAIMM Initiative, First 5 LA's unique contribution and investment strategy is grounded in policy and systems change in support of AAIMM interventions through three strategies: 1) system optimization and innovation; 2) sustainability; and 3) stakeholder engagement/will building.

Spending Plan and Funding Methodology

Budget is in alignment with county and/or statewide efforts to address birth disparities for African-American women. FY 21-22 expenditures were calculated based on analysis of expended and projected FY 20-21 costs.

Pritzker Fellow ($100,000): grant opportunity to be submitted in Summer 2021, matching/implementation costs for Pritzker Fellow.
Stakeholder Engagement, Policy and Advocacy ($45,000): includes cost related to community engagement (Steering Committee, Community Actions Teams) as well as convenings/forums to elevate the work.
Communications ($280,000): includes consultant(s), website, sponsorship, public education ads, and collateral materials.
Philanthropic Partnerships/Pooled Funds ($175,000) includes AAIMM Innovation Fund representing matching contribution and other philanthropic partnership efforts (e.g. Black Equity Collective).
Cherished Futures ($250,000): includes match for Year 2; hospital quality improvement initiative.
Emerging Opportunities ($100,000): potential projects, co-funded with LACDPH, include Community Action Teams fiscal sponsorship, Charles R. Drew Center of Excellence in Maternal Care.
First 5 LA integration ($100,000): potential projects include Best Start for Black Babies, Maternal Early Identification and Intervention, Home Visitation and Doula services

Total: $1,050,000

Change from Prior Year (if >+-20%)

Reduction in funding resulting from First 5 LA contribution to multi-year efforts limited to 1-year (FY20-21). For example, AAIMM evaluation co-funded with LA County DPH, First 5 LA contributed $400,000 for FY20-21, DPH will continue to fund subsequent year(s).

Center Support Team

Budget Fiscal Year: 2021 - 2022 Status: Proposed

Initiative	Investment Category
Cross-Cutting Funder Partnerships	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Bold Vision	$150,000	$150,000	0.00%

Program Summary

Bold Vision 2028 is a philanthropic-led effort of philanthropy and civic leaders which seeks to leverage the opportunity of the upcoming 2028 Olympics being hosted by Los Angeles, by creating a cross-sector collaboration to significantly expand economic vitality and shared prosperity for all Angelenos by 2028.

Spending Plan and Funding Methodology

In order to achieve the goal of significantly expanding economic vitality and shared prosperity for all Angelenos by 2028, this initiative will address the root causes of persistent social problems, such as juvenile justice, homelessness, poor educational opportunities and outcomes for children, and large disparities in health outcomes. Across these four key systems, Bold Vision 2028 will focus on improving outcomes for youth of color living in Los Angeles County utilizing subject matter experts and significant community input. In addition, the project will address systems change through an equity lens, inclusiveness in economic growth, systems' effectiveness, civic engagement and community organizing with an overall cradle to career orientation.

Resources to support this initiative are consistent with contributions made by other similar-sized philanthropic partners. The budgeted amount of $150,000 remains the same as in FY 20-21.

Change from Prior Year (if >+-20%)

Budget Fiscal Year: 2021 - 2022 Status: Proposed

Initiative	Investment Category
Cross-Cutting Funder Partnerships	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Center for Strategic Partnerships		$25,000	0.00%

Program Summary

An initiative of Southern California Grantmakers (SCG), the Center for Strategic Partnerships (CSP or Center) is a collaboration between government and philanthropy that is located within the Los Angeles County Chief Executive Office. SCG is the fiscal agent for CSP, although it is a permanent office under CEO within Los Angeles County government. CSP unites government, nonprofits, business, and philanthropy around common systems change goals.

Spending Plan and Funding Methodology

Funding has been determined as follows:
$25,000 per year (total of $75,000 over three years, FY 19-20, FY 20-21 and FY 21-22) for core operating support; 55 % of CSP's total operating budget will come from County Departments and the remaining 45% will come from philanthropic organizations (including First 5 LA). Our contribution is in accordance with other core funders of the Center.

Change from Prior Year (if >+-20%)

Budget Fiscal Year: 2021 - 2022 Status: Proposed

Initiative	Investment Category
County Partnerships	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
County Partnership Fund	$165,000	$225,000	36.36%

Program Summary

The County Partnership Fund will help support emerging opportunities with County Government that are aligned with First 5 LA's 2020-2028 Strategic Plan. These County partnership efforts are often supported by philanthropic partners and provide First 5 LA access to influence County systems and leverage public and private resources to advance outcomes for children and families. These resources will be used to hire outside consultants or contractors to help identify opportunities that might be aligned to the First 5 LA Strategic Plan (e.g., facilitating meetings or focus groups, conducting landscape analyses), as well as to support the work itself (e.g., providing support to write reports, convene meetings or conferences, etc.).

This year's budget has identified project categories with the details still in development. Given recent conversations, we expect these projects to materialize with significant alignment to First 5 LA's 2020-2028 Strategic Plan. The costs identified for these activities are subject to change based on actual need as more information is made available.

Spending Plan and Funding Methodology

$75,000 - PREVENTION/SUPPORTING OCP/THRIVING FAMILIES/FAMILY RESOURCE CENTERS
• Continue partnering closely with the Office of Child Protection to advance primary prevention initiatives and shared data initiatives (advancing SP1) – OCP's emphasis on primary prevention and ability to work across Departments and align efforts makes it a unique partner to First 5 LA. OCP is a key stakeholder on FFPSA, Thriving Families. Estimating $25,000 to support OCP.
• Leverage Thriving Families Safer Children Initiative to elevate Best Start community priorities and advance primary prevention (Advancing SP2) – This initiative represents a unique opportunity to transform the child welfare system into a child well-being system. TFSC is a national technical assistance grant with close partnership from the Administration of Children and Families, Casey Family Programs, Prevent Child Abuse America and the Annie E. Casey Foundation. The initial phase of work will focus on deep community engagement with prioritized communities like the Antelope Valley and South LA. Estimating $25,000 to support TFSC.
• Co-design family resource centers in partnership with Best Start Communities (Advances SP1 and SP2) – the Family Resource Center concept has significant backing from DMH, DCFS and DPH and appears to have the right personnel in place to move the project forward. Because the Antelope Valley is targeted first, we can build upon the AV Resource Infusion effort elevate community voice in the design of the family resource center. The remaining supervisorial districts/Best Star Communities will be considered later. Estimating $25,000 to connect the FRCs with our Best Start community engagement efforts.
- Based on the above estimates, we recommend a budget of $75,000 to support Prevention initiatives.

$75,000 ECONOMIC/FOOD SECURITY INITIATIVE
• Serve as Strategic Liaison for the Center for Strategic Partnerships aligning CSP's economic security focus area with First 5 LA's strategic priorities – The Center increases the influence, partnership network and sustainability of First 5 LA. We do not plan to lead the economic security strategy development for the Center but can align opportunities that intersect with our core priorities. For example, economic security may be layered on the AAIMM initiative or our work in prevention and we will seek to target investments/pilots within the Best Start Communities
• Food Security and CalFresh report amplification – We expect this stream of work to dwindle in time commitments, but there is still ample opportunity to guide the creation and priorities of the County's new Food Equity Roundtable (built on the Food Security Task Force that emerged out of the pandemic response and which F5LA is a member)
- We believe a budget of $75,000 will help launch an initiative, demonstrate leadership and commitment among partners and leverage public and private funding.

$75,000- SUPPORTING PREVENTION AND EARLY INTERVENTION IN MENTAL HEALTH SYSTEMS
This line item was previously in the Home Visiting sustainability budget. We have moved it over to the County Partnership Fund due to the shifting work of this contract. Because DMH is poised to eliminate funding in home visiting, this funding will support broad prevention and early intervention in DMH and prioritize MHA/PEI funding for early childhood. Part of this budget will also support the development of the family resource center initiative (described above) to ensure it is aligned with our Antelope Valley Resource Infusion project.
- We are estimating a budget of $75,000 in line with previous annual budgets.

Initiative	Investment Category
County Partnerships	2020-2028 Strategic Plan

Change from Prior Year (if >+-20%)

Part of this increase reflect new budget items being added to the County Partnership fund ("Supporting Prevention and Early Intervention in Mental Health Systems"). This budget item remains the same as FY 20-21 but was added to the CPF because the scope of this project is more aligned to county partnerships. We have also increased support for prevention from $40,000 to $75,000. We are continuing to see stronger alignment here and the Thriving Families initiative presents opportunities to align more closely with Best Start Communities and truly advance primary prevention initiatives. We have also decreased the economic security budget from $100,000 to $75,000. So far, this item remains unspent in FY 20-21 as there is still significant work needed to build the field and align county and philanthropic partners around this concept

Budget Fiscal Year: 2021 - 2022 Status: Proposed

Initiative	Investment Category
Home Visiting	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Infrastructure Support for Sustainability and Health Planning	$25,000	$180,000	620.00%

Program Summary

First 5 LA is partnering with managed care health plans that serve Los Angeles County to improve care coordination for pregnant women, young children, and their families. This funding will support the work to create sustainable financing mechanisms for First 5 LA's investment areas in the healthcare field. This proposed budget includes funding for a continuing relationship with health consultants Healthcare Management Associates, funding to create a reimbursement infrastructure for First 5 LA to secure payment, and funding for additional consultation from health care experts.

Spending Plan and Funding Methodology

The estimated costs are based on research conducted on different types of reimbursement structures permitted by the health plans and the associated costs for building this piece of infrastructure to move forward this work with health plans, as well as historical data on expenditures for health care expert consultation support. More specifically, this includes funding for the following three activities: 1. HMA: $120,000 based on historical data and utilization/expenditure of current agreement at same level. 2. Infrastructure support: $25,000 based on research into possible mechanisms for billing/claiming/invoicing health plans for services rendered. 3. Consultant support: $35,000 based on historical information and anticipated need for services as health plan partnerships move forward.

Change from Prior Year (if >+-20%)

The increase is explained by the fact that this is a new budget line item that brings together three budget lines that were previously separate: Health Plan Consultants, HV Sustainability in Health Systems (HMA Support), and Infrastructure Support for Health Plan Reimbursement.

Budget Fiscal Year: 2021 - 2022 Status: Proposed

Initiative	Investment Category
Home Visiting	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Medi-Cal Administrative Activities Implementation Support	$210,000	$65,000	-69.04%

Program Summary

First 5 LA has decided to eliminate its County-Based Medi-Cal Administrative Activities (CMAA) program starting July 1, 2021. While the program will no longer be billing for CMAA activities starting July 1, because Medicaid is a reimbursement program there will be activities in FY21-22 associated with securing the reimbursement for the activities billed up until July 1. In FY21-22, this budget line contains funding for two items: funding for an agreement with Optimas, Inc. to conduct invoicing for County-Based Medi-Cal Administrative Activities (CMAA) being billed by the Welcome Baby pilot site Maternal Child Health Access prior to July 1, 2021, and funding to pay the required administrative fees for CMAA to the Los Angeles County Auditor Controller (A/C) and Local Governmental Agency (LGA).

Spending Plan and Funding Methodology

Optimas Services, Inc. will continue to provide support to First 5 LA in order to invoice for CMAA activities billed by Welcome Baby site MCHA. First 5 LA will also pay administrative fees for CMAA to the County LGA and A/C. The program budget estimate is based on historical expenditures.

Change from Prior Year (if >+-20%)

The reduction is explained by the fact that First 5 LA has decided to discontinue the CMAA program at MCHA beginning in the next fiscal year, meaning that Optimas, Inc. will be performing significantly fewer activities to support the program and therefore the budget is lower. There are activities associated with the billing for CMAA being done in FY20-21 that will require administration in FY21-22, so this budget line accounts for those activities as well as estimated administrative fees to be paid to the County LGA and A/C.

Budget Fiscal Year: 2021 - 2022 Status: Proposed

Initiative	Investment Category
Cross-Cutting Funder Partnerships	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Southern California Grantmakers	$112,000	$50,000	-55.35%

Program Summary

First 5 LA will continue to support and participate in Southern California Grantmakers (SCG), which is the regional association for philanthropy and other grantmakers. SCG provides First 5 LA staff opportunities to network, inform their grantmaking, participate in professional development and funder affinity groups, and collaborate on policy and systems change efforts. Southern California Grantmakers members include family foundations, private independent foundations, community and public foundations, corporate foundations and giving programs, individuals, and government agencies.

Furthermore, Southern California Grantmakers will support First 5 LA by serving as the fiscal agent for partnership funding. First 5 LA has been engaged in supporting the work of the Office Child Protection (OCP) and the County/philanthropic efforts of the Center for Strategic Partnerships (CSP, formerly the Center for Strategic Public Private Partnerships or CSPPP). To date, the support has included active participation in County meetings and workgroups, and coordination and facilitation of meetings between County officials and providers, particularly those involving community leaders and parent groups. In-kind support has also been provided via staff resources as subject matter experts and writers, as well as through staff leaders moving forward significant projects like the drafting of the County's prevention plan for OCP.

Spending Plan and Funding Methodology

First 5 LA's annual membership fee to Southern California Grantmakers is calculated based on a formula established by SCG that takes into account First 5 LA's prior year total competitive Grantmaking and the location of the organization. First 5 LA member rate has increased to $16,500 (previously $15,000).

General Operating Support of $50,000 is consistent with contribution made by other peer funding organizations. Because this general operating support has a scope of work attached to it, we will keep this component of SCG funding in the Center Support Team. Membership dues, sponsorships and Advocacy Day support (all of which do not have a contract/SOW) will move to OGAPP's budget.

Change from Prior Year (if >+-20%)

We are eliminating support for the SCG Learning consortium ($45,000) as we do not see strong alignment with the F5LA Strategic Plan. Please note that membership dues, sponsorships and Advocacy Day support for SCG will be moved to OGAPP's budget.

Office of Government Affairs & Public Policy

Budget Fiscal Year: 2021 - 2022 Status: Proposed

Initiative	Investment Category
Integrated Policy and Advocacy Fund	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Policy Advocacy Fund Technical Assistance Provider		$400,000	0.00%

Program Summary

First 5 LA will support consultants and a intermediary funder to provide technical assistance, advice, support and guidance to develop integrated funding guidelines to support policy grantees in a number of key areas including: evaluation support, strategic planning, navigating complex policy systems and decisions, and reviewing data to develop recommendations. In addition, the consultant will provide new First 5 LA staff with technical assistance, coaching, and support as the initiative closes, and will produce status reports, presentations, and articles to capture learning from the initiative which can be disseminated internally and externally.

First 5 LA currently invests in three separate Policy Advocacy Funds across three different teams – Built Environment in Communities, Early Learning in ECE, and Child Health in the Office of Government Affairs and Public Policy. Each of these existing funds are scheduled to end over the course of FY 21-22.

Moving forward, to support more integrated policy development and advocacy work aligned with the more holistic child and family public policy goals outlined in the Strategic Plan, First 5 LA will develop a plan to establish an integrated Policy Advocacy Fund housed within the Office of Government Affairs and Public Policy. The integrated fund will be co-developed and implemented in partnership with teams across First 5 LA, and support policy change activities aligned with First 5 LA's Board-approved Policy Agenda and rules governing public agency advocacy activities.

Spending Plan and Funding Methodology

Cost for intermediary support ($400,000) to develop the integrated Policy and Advocacy Fund to support 6 months of design and planning to lead to grantmaking starting FY 22-23.

ECE PAF grantmaking ends June 2021, included in the ECE team budget is gap funding to get to June 2022 ($2,500,000) including final evaluation to provide input for design of the new integrated PAF. The current BEPAF was already planning a second round of grants to continue to June 2022 included in the Communities budget ($875,000). The ECE PAF expansion grants related to ECD Health are planned as one-time grants rather than ongoing funding for this pilot, no additional funds are being added.

Change from Prior Year (if >+-20%)

Budget Fiscal Year: 2021 - 2022 Status: Proposed

Initiative	Investment Category
Organization-wide Sponsorships & Engagements	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Conference Funding to Advance the Field of Early Childhood Development		$150,000	0.00%

Program Summary

First 5 LA's goal for funding conferences and events is to advance the field of early childhood development as part of efforts to further the goals of the 2020-28 Strategic Plan's results areas. The submission and review of applications, and the awarding of grants, will continue with the same review process and funding parameters under the Office of Government Affairs and Public Policy as established in FY 20-21.

Funds will not be used to support annual meetings, fundraising events, or conferences or events that promote religious doctrine or political campaigns. All proposed conferences and events must be held in Los Angeles County and serve a countywide population or be in a geographic jurisdiction (e.g., Sacramento) that could impact policies and resources affecting L.A. County children under the age of 5.

Spending Plan and Funding Methodology

The submission and review of conference sponsorships under the Office of Government Affairs and Public Policy, will continue with the same process and funding parameters established in FY 20-21. Based on the last two fiscal years conference funding utilized per fiscal quarter in Q1, Q2, Q3 and Q4 averages $37,500. Recognizing that First 5 LA has continued to fund virtual conference in FY 20-21 due to the effects of the COVID-19 pandemic, this portion of the budget reflects no reduction in funding from FY 20-21.

Change from Prior Year (if >+-20%)

The Strategic Partnerships Department Sponsorships outlined in Communication Department from FY20-21 has been moved to OGAPP. The total budget includes $25,000 in sponsorship events for Southern California Grantmakers annually, ($10,000 for the annual SCG conference, SCG Foundations on the Hill at $5,000 and $10,000 for the annual SCG Policy conference) that have been moved to the OGAPP from the Communications Department budget sponsorships. SCG conference sponsorship support is based on prior year's investment level of $10,000 per conference event x 2 events.

Budget Fiscal Year: 2021 - 2022 Status: Proposed

Initiative	Investment Category
Organization-wide Sponsorships & Engagements	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Organization-wide Sponsorships to Build Partnerships and Public Will for First 5 LA's Results Areas		$200,000	0.00%

Program Summary

The Office of Government Affairs and Public Policy (OGAPP) will develop a strategy for organization-wide sponsorships and partnership-building efforts that will build First 5 LA's reputation as an advocate and trusted source, engage and influence decision makers and stakeholders; and elevate awareness and create urgency on issues affecting young children and their families to help create lasting, equitable change.

These efforts are intended to help advance the 2020-28 Strategic Plan's results areas and support First 5 LA's policy and systems change efforts. The proposed budget request includes funds for First 5 LA's organization-wide sponsorships and events in alignment with First 5 LA's mission, vision, and work.

Spending Plan and Funding Methodology

The FY 21-22 budget reflects the role of sponsorships as an organizational strategy critical to First 5 LA's brand, building new relationships, and increasing the number of organizations, businesses and philanthropic partners engaged in early childhood advocacy and policies affecting children 0 to 5 and their families. The methodology used to develop this budget is based upon an analysis of the last three years of successful sponsorship engagement work associated with First 5 LA. First 5 LA has historically supported events and activities hosted by key partners to advance its policy and system change goals. These events are opportunities to engage partners and other stakeholder audiences.

Based on event sponsorships in FY 20-21 during the COVID-19 pandemic, which range from $5,000 to $25,000 for table or gala sponsorships this request of $200,000 would allow First 5 LA to support up to 20 events in FY 21-22. This assumes an average contribution of $10,000 per event. Recognizing that First 5 LA has continued to fund virtual sponsorship events in FY 20-21 due to the effects of the COVID-19 pandemic, this portion of the budget reflects a 50 % reduction in funding from FY20-21. OGAPP is developing an updated sponsorship strategy to align advocacy and sector engagement with sponsorships as a critical outreach and relationship cultivation strategy to advance our Policy Agenda. OGAPP anticipates that the developed strategy will level set funding projections based on the developed forecasting calendar in the 22-23 budget which may revise the budget to previous levels after COVID-19.

Change from Prior Year (if >+-20%)

The organization-wide sponsorships outlined Communication Department in FY20-21 moved to OGAPP in FY21-22 with a 50% change in the requested amount from the prior year. The projected reduction recognizes that First 5 LA has continued to fund virtual conference in FY 20-21 due to the effects of the COVID-19 pandemic.

Initiative	Investment Category
Organization-wide Sponsorships & Engagements	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Organizational Memberships and Stakeholder Engagement Efforts		$508,000	0.00%

Program Summary

The 2020-2028 Strategic Plan and refined policy agenda will employ a variety of stakeholder engagement strategies and activities to support First 5 LA's advocacy priorities: policy education and advocacy events, engagement efforts with sector groups (e.g., business and grantmaking), key stakeholder meetings and coalitions, caucus policy retreats, and policy speaker series which elevate First 5 LA priorities.

In addition, grantmaking projects and organizational membership offer a place for to learn and engage with potential partners in an effort to build partnerships that support First 5 LA's strategic plan as well as our programmatic and policy goals. As a result, the following key strategic engagement projects, sector groups and grantmaking and organization membership have been identified as critical to support First 5 LA's 2020-2028 Strategic Plan and policy refinement work across the organization.

Spending Plan and Funding Methodology

In FY 21-22, First 5 LA will continue to build relationships with stakeholder, sector groups and advocacy partners to elevate the importance of early childhood development. In addition, OGAPP will work to engaged untapped sectors that have agendas and/or impact families and children but do not prioritize the special populations of children 0 to 5 (e.g., immigration, justice, and business groups).

1) Center for Strategic Partnerships ($25,000)
An initiative of Southern California Grantmakers, the Center for Strategic Partnerships (CSP or Center) is a collaboration between government and philanthropy that is located within the Los Angeles County Chief Executive Office. (SCG is the fiscal agent for CSP, although it is a permanent office under CEO within Los Angeles County government) CSP unites government, nonprofits, business, and philanthropy around common systems change goals. The County Partnership Fund will help support emerging opportunities with County Government that are aligned with First 5 LA's 2020-2028 Strategic Plan. These County partnership efforts are often supported by philanthropic partners and provide First 5 LA access to influence County systems and leverage public and private resources to advance outcomes for children and families. These resources will be used to hire outside consultants or contractors to help identify opportunities that might be aligned to the First 5 LA Strategic Plan (e.g., facilitating meetings or focus groups, conducting landscape analyses), as well as to support the work itself (e.g., providing support to write reports, convene meetings or conferences, etc.).
Funding is $25,000 per year (total of $75,000 over three years, FY 19-20, FY 20-21, and FY 21-22) for core operating support. 55 % of CSP's total operating budget will come from County Departments and the remaining 45% will come from philanthropic organizations (including First 5 LA).

2) Grantmaking and Organizational Memberships ($215,000)
First 5 LA has historically engagement in a number of grantmaking and organizational memberships and supported a number of events and activities which highlight important early childhood policy issues, educate decision-makers on early childhood priorities, and influence policy and systems change. Grantmaking Memberships and annual organizational membership rates are determined by the membership organization rate structure, depending on an organizations asset and/or total budget. Grantmaking and organizational memberships included as part of the total budget are as follows:
• American Public Health Association (APHA)— The annual membership rate is $2,000.
• Civic Alliance — All Civic Alliance contribution fees are managed by the California Community Foundation (CCF) for $75,000.
• California Chamber of Commerce — The annual membership rate is $800; previously under the Human Resources & Talent Management (Professional Dues).
• Central City Association — The annual membership rate is $350.00
• Council for Strong America — The annual membership rate is $TBD.
• Emerging Practitioners in Philanthropy (EPIP) - EPIP is a national network of foundation professionals and social entrepreneurs who strive for excellence in the practice of philanthropy. EPIP exists to ensure that emerging

Initiative	Investment Category
Organization-wide Sponsorships & Engagements	2020-2028 Strategic Plan

foundation professionals are effective stewards of philanthropic resources and all social entrepreneurs reach their potential as leaders. The annual membership rate is $7,500.
• First 5 California Association— The annual membership rate is $75,000.
• Grantmakers for Education (GFE) — GFE is a network of education grantmakers dedicated to improving educational outcomes and increasing opportunities for all learners. The annual membership fee is $8,000.
• Grantmakers for Effective Organizations (GEO) — GEO is a diverse community of grantmakers working to reshape the way philanthropy operates, promoting strategies and practices that contribute to grantee success. The annual membership fee for a government grantmaker is $1,000.
• Grantmakers in Health (GIH) — GIH is an educational organization dedicated to helping foundations and corporate giving programs improve the health of all people. The annual membership fee is $11,500.
• Los Angeles Business Federation (BizFed) — The annual membership rate is $635.
• PEAK Grantmaking (formerly Grant Managers Network) – PEAK is an association of philanthropy professionals working to advance the knowledge, skills, and abilities of grants management professionals and lead grantmakers to adopt and incorporate effective practices that benefit the philanthropic community. The annual membership fee is $7,000.
• Southern California Grantmakers (SCG)— First 5 LA's annual membership fee to Southern California Grantmakers is calculated based on a formula established by SCG that takes into account First 5 LA's prior year total competitive Grantmaking and the location of the organization. First 5 LA member rate has increased to $16,500 (previously $15,000).
• UNITE-LA — The annual membership rate is $TBD.
• Valley Industry & Commerce Association — The annual membership rate is $1,760.00.

3) LA Chamber Area of Commerce Membership Dues and Engagement Efforts ($38,000)
First 5 LA will also maintain its level of financial support in LA Area Chamber of Commerce and Chamber activities that are aligned with the goals of the 2020- 2028 Strategic Plan. A partnership with the Chamber provides First 5 LA staff opportunities to engage with business, higher education, and civic leaders, and to collaborate on policy and systems change efforts. In FY 20-21, First 5 LA will continue to expand our leadership role in the Chamber and continue to elevate our early childhood agenda among Chamber Board and policy committee members. As an active member of the Chamber, First 5 LA participates in and champions 0-5 issues at Chamber Board and policy committee meetings, advocacy events, and other member events. First 5 LA staff also engage individually with Chamber members who are interested in early education, health, and workforce issues.
The annual membership fee is $11,000 for annual membership and board dues for the First 5 LA Executive Director, $2,000. First 5 LA will also maintain its level of financial support for the following LA Area Chamber of Commerce and Chamber activities and special events which present opportunities for First 5 LA to elevate and advance our Strategic Plan goals to include ACCESS DC $15,000; ACCESS Sacramento $10,000; ACCESS LA $5,000; LA Chamber Annual Inaugural Dinner $5,000.

4) LA Partnership for Early Childhood Investment— LA PECI ($30,000)
First 5 LA will continue to support and be an active leader and participant in the LA Partnership for Early Childhood Investment funder collaborative, as goals of the Partnership are closely aligned with First 5 LA's 2020-2028 Strategic Plan. This year, the Partnership is supporting Family Supports efforts, the African American Infant and Maternal Mortality initiative, and increasing Earned Income Tax Credit benefits for families with young children, although collaborative efforts cut across the First 5 LA Strategic Plan. The Partnership, representing public, private, and individual funders, as well as businesses, works to maximize members' resources by investing in the promotion of innovations that advance policy and systems change to benefit LA County children age 0-5 and their families.

5) LA-N-Sync ($25,000)
First 5 LA will continue to support and participate in the LA-N-Sync collaborative, as goals of LA-N-Sync are broadly aligned with First 5 LA's 2020-2028 Strategic Plan Priority Outcome Areas and Investment Strategies. Specifically, LA-N-Sync will support efforts under the Communities food security objective area to increase access to CalFresh benefits in partnership with DPSS. LA-N-Sync is a cross-sector initiative to strengthen the Los Angeles region as a compelling destination for investment. LA-N-Sync works with public and private agencies to identify funding priorities and opportunities, and to position applicants to be as competitive as possible. Funds are also included in FY 21-22 to ensure staff have the ability to take advantage of immediate strategic partnership opportunities, such as participation in LA-N-Sync. The $25,000 level of funding for FY 21-22 will remain the rate of membership and is equal to the support provided by other members such as the California Community Foundation, The California Endowment, and the Weingart Foundation.

Initiative	Investment Category
Organization-wide Sponsorships & Engagements	2020-2028 Strategic Plan

6) LA Funders Collaborative ($25,000)
First 5 LA will continue to support and participate in the LA Funders Collaborative, as goals of the Collaborative are aligned with First 5 LA's 2020-2028 Strategic Plan Communities Outcome Area and Built Environment Investment Strategies. The LA Funders Collaborative is a multi-sector collaborative which aims to leverage opportunities being catalyzed by recent landmark transportation and environmental policies to create equitable, healthy, and sustainable communities in LA County. The Collaborative is committed to ensuring that these public investments benefit all Angelenos, particularly historically underserved people and communities through collaboration, investments, grantmaking, and convening. In addition, in FY 21-22 the First 5 LA Built Environment investment strategy will receive direct support from the LA Funders Collaborative through informative sessions with grantmakers, assistance in establishing new relationships, and technical expertise support. In FY 21-22, the First 5 LA budget includes $11,000 for annual membership and board dues for the First 5 LA Executive Director, $2,000 annual organizational membership dues.

Funds are included in FY 21-22 to ensure First 5 LA will have the ability to take advantage of immediate strategic partnership opportunities, such as the LA Funders Collaborative. In FY 20-21, members increased the contribution rate to $2,500 to support the increase in collaboration activities. These activities include transitioning to a more active systems and policy role in LA county through the 2019 LA Funders Collaborative strategic planning process. In addition, this increase is reflective of additional anticipated activities due to the advocacy efforts around Measure M and Measure A through the Collaboratives' report in FY 18-19 Measures Matter. Funding level of $25,000 is consistent with the other 11 grant making members of the collaborative: the California Community Foundation, The California Endowment, Enterprise Foundation, Resources Legacy Fund, and the Liberty Hill Foundation.

7) Policy and Advocacy Stakeholder Engagement Events ($150,000)
First 5 LA has historically supported a number of events and activities which highlight important early childhood policy issues, educate decision-makers on early childhood priorities, and influence policy and systems change. These include Advocacy Day, California State Legislative caucus, policy retreats, and policy conferences and speaker series which elevate First 5 LA priorities.
Funding will support virtual engagements with advocacy partners to elevate the importance of early childhood development and family friendly policies. This will include in Q1, Q2 and Q3 of FY21-22 Advocacy Day, California State Legislative caucus policy retreats, and policy conferences and speaker series which elevate First 5 LA priorities. In FY21-22, the total budget for this will also include activities to engage caucus and sectors groups (philanthropy, business, and justice groups). Due to the current pandemic, COVID-19 and recent conversations regarding state and LA County guidelines for events, we expect these stakeholder engagement activities to materialize in FY21-22 as events taking place within a virtual context. The costs identified for these activities are subject to change based on actual need as more information is made available.

Change from Prior Year (if >+-20%)

The proposed FY 21-22 budget for Organizational Memberships and Stakeholder Engagement Efforts (previously referred to the Policymaker Education Efforts and Policy Events under the Communication Sponsorships Department Budget) reflects an approximately 37.5% increase in funding. As explained in the spending plan and methodology and program summary, this is a function of the shift from the Communications Department Budget to First 5 LA's newly created Office of Government Affairs and Public Policy (OGAPP), which allows First 5 LA's stakeholder resources to include policy events, grantmaking and membership organizations to be more integrated and aligned with First 5 LA's 2020-2028 Strategic Plan.
Organization membership dues were also moved from the Humna Resources & Talent Management and the Executive Directors Office to newly created Office of Government Affairs and Public Policy (OGAPP). These funds include the First 5 Association membership fee, California Chamber of Commerce and Civic Alliance.

Initiative	Investment Category
Policy Agenda/Advocacy	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Federal Policy and Sustainability Advocate	$175,000	$100,000	-42.85%

Program Summary

First 5 LA first conducted a competitive procurement process to select a federal advocate in FY 12-13 and re-procured a federal advocate in FY 16-17. The current agreement with First 5 LA's federal advocate, The Raben Group, ends on May 30, 2021.

The federal advocate supports First 5 LA priority policy and sustainability issues aligned with First 5 LA's strategic plan, and provides support to the First 5 Association and First 5 California in advancing a coordinated First 5 federal policy agenda. The advocate employs a variety of strategies and activities to support First 5 LA's advocacy priorities: administrative advocacy and implementation support; policy issue identification and development; policy education and advocacy; meetings with key stakeholders and officials; and participating in coalitions on First 5 LA and the First 5 network's behalf.

Since FY 12-13, First 5 LA has been the sole funder of the First 5 network's federal policy development and advocacy capacity. Until COVID-19, First 5 CA was in the process of competitively procuring a federal advocate to begin July 1, 2020, and First 5 LA was preparing to execute a strategic partnership with First 5 CA to contribute to the network's federal advocate and ensure a portion of the advocate's time can be used to focus on First 5 LA's priorities.

As a result of the COVID-19 pandemic, however, all new contracts at First 5 CA have been delayed and the federal advocacy procurement is unlikely to move forward until summer 2021. At the same time, federal advocacy needs have increased with COVID-19 to ensure that federal funding supports California, and LA County's, efforts to provide subsidized child development services like child care for essential workers and virtual home visits to families welcoming children into their lives. As a result of these issues, First 5 LA worked to extend the contract with The Raben Group to ensure federal advocacy support is available for First 5 Network policy priorities. First 5 LA is also continuing to plan to support a statewide federal advocacy contract with First 5 CA as the opportunity to procure a statewide contractor becomes available. The budgeted amount will contribute to federal policy strategic advisors or policy development support as engagement transitions over 21-22.

Spending Plan and Funding Methodology

First 5 LA will continue to support federal advocacy in FY 21-22 to contribute to a statewide First 5 network federal advocacy to be executed by First 5 CA.

First 5 LA has historically been the sole funder of a federal advocate to work on behalf of not only First 5 LA, but also the First 5 Association and First 5 CA. Since FY 2012-13, First 5 LA has contributed $130,000 annually to a federal advocate.

Acknowledging the important role a federal advocate has for advancing California's early childhood development policy priorities, not just First 5 LA's, First 5 CA is in the process of competitively procuring a federal advocate to continue the work of federal advocacy on behalf of First 5 CA, the First 5 Association, and First 5 LA beginning May 1, 2020. Due to state restrictions on procuring new contracts resulting from the COVID-19 pandemic, First 5 CA was delayed in procuring a federal advocate until at Spring 2020, though First 5 CA remains committed to executing an agreement. First 5 CA still plans to enter into a $450,000 contract with a federal advocate in FY 20-21 to cover a three year term, expanding capacity to conduct federal advocacy on behalf of the First 5 network. Additionally First 5 CA will be pursuing a federal policy development and coalition membership RFP. First 5 LA plans to contribute $75,000 to the coordinated advocacy efforts and First 5 CA executed contract, allocated in this budget item. This would allow First 5 LA to direct up to 30% of total contract toward LA County specific priorities.

The main cost component to support federal advocacy is personnel; travel and materials are also a key cost for federal advocates who frequently need to meet in person and print materials for meetings in Washington DC. Though widespread travel is not expected in the short-term, the federal government continues to complete its work via in person meetings and hearings, and travel by contractors may be necessary.

Initiative	Investment Category
Policy Agenda/Advocacy	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
State Policy and Sustainability Advocate	$440,000	$448,000	1.81%

Program Summary

The state advocate supports First 5 LA priority policy and sustainability issues and the policy agenda in the state policy arena. The advocate will employ a variety of strategies and activities to support First 5 LA's advocacy priorities: administrative advocacy and implementation support; policy issue identification and development; policy education and advocacy; meetings with key stakeholders and officials; and participating in coalitions on the agency's behalf.

Spending Plan and Funding Methodology

First 5 LA's current state sustainability advocate is California Strategies (CalStrat), a Sacramento-based strategy and advocacy firm with offices throughout the state, including Los Angeles. The main cost component is personnel. Travel is also a key cost for contractors that often have to travel to meetings and hearings in Sacramento and to LA to attend and present at First 5 LA Commission meetings and other key meetings.

The monthly retainer for FY 21-22 is based on $26,000 per month, which is the same rate utilized in FY 20-21. Staff recommends budgeting the same amount for travel - $8,000 per year, which covers travel from Sacramento, to Los Angeles for in-person staff and Board meetings, as well as mileage costs for regional travel within Los Angeles and from Sacramento to the San Francisco Bay Area. Staff negotiates the contractor's monthly rate based on the amount of time the consultant team has spent working on average per month. The contractors continue to track hours spent, in case First 5 LA needs to renegotiate the rate or add funds for additional work requested beyond the reasonably expected fluctuation in hours between months.

California Strategies leads mission-critical initiatives related to the strategic plan: developing and implementing First 5 LA's legislative agenda; monitoring the state's policy and political landscape; representing First 5 LA at key meetings including legislative hearings, meetings with key government officials, and priority coalitions; planning advocacy events like the First 5 Association Advocacy Day and ACCESS Sacramento events; monitoring tobacco tax revenues and exploring alternative revenues for First 5 LA and its priorities strategies; and providing strategy advice and technical assistance to policy and program staff.

In addition, through the contract with CalStrat, First 5 LA supports the engagement of a Title 19 (Medi-Cal) expert for work on sustainability issues for several major health investments, including developmental screening and home visiting; this subcontract is currently with Health Management Associates (HMA). Policy and program staff work with this team to identify potential funding opportunities with the state and federal government to leverage potential grant and funding related to the issue areas identified previously. Staff recommends maintaining this contract amount at $120,000 for the fiscal year. Funding for this item was included in the FY 20-21 budget, and is envisioned to continue to support the implementation of the new strategic plan, as needed, to inform and advise strategies to leverage Medi-Cal funding for health and family strengthening investments.

CalStrat's contract was renewed via competitive procurement in November 2017, and will be renewable through 2022. The Office of Government Affairs and Public Policy will be working with CAP to solicit a competitive procurement in Fall of 2022 for a revised scope of work and reduced budget to reflect the expanded capacity and strategic advantage First 5 LA has developed. The new procurement will be aimed for contract start in November 2022.

Change from Prior Year (if >+-20%)

Initiative	Investment Category
Policy Agenda/Advocacy	2020-2028 Strategic Plan

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Strategic Plan Advocacy Strategies	$1,010,000	$1,263,000	25.04%

Program Summary

First 5 LA invests in key activities to support its policy goals related to family support, health systems, early care and education, and community engagement. Among other activities, work in this area includes policy technical assistance, advocacy initiatives, coalition support, statewide First 5 Association activities, research and briefings, and advocacy partnership development.

Spending Plan and Funding Methodology

The proposed FY 21-22 budget includes costs related to the following activities:

(1) California Strategies ($192,500) to coordinate and strengthen the State Early Care and Education Coalition. This reflects a one-time increase of $42,500 from FY 20-21 to reflect Coalition coordination under a new governance structure, three sub-committees, possible alignment to federal opportunities and California Strategies' on-going strategic political guidance. In FY 21-22, California Strategies will continue to grow and build up capacity of the coalition and further expand the state and federal investment in our ECE system. First 5 CA also provides funding support to the ECE Coalition, focused primary on communications strategies and Coalition coordination. Forty-four percent of the total FY 21-22 funding for the ECE Coalition will come from First 5 LA. The total First 5 LA cost for facilitating and supporting the ECE Coalition is $192,500.

(2) Community Partners ($65,000) to continue supporting the implementation of the expanded Early Childhood Development Policy Advocacy Fund (ECD PAF) Funds. These funds will continue support expanded PAF administration, oversight, and learning activities conducted by Community Partners and its consultants.

(3) Masters Policy Consulting($150,000) to continue supporting staff training and technical assistance related to policy and systems change. The contract with Masters Policy Consulting, an advisory firm working to build staff knowledge and capacity of systems and policy change strategies, is focused on training staff and partners in systems and policy change best practices, and providing technical assistance for specific systems and policy change projects aligned with the strategic plan.

(4) First 5 Association ($700,000) to ensure the development and execution of a coordinated, proactive statewide policy and legislative agenda informed by the network of First 5 organizations throughout California. First 5 LA recommends maintaining the same level of support for the Association and the First 5 Center for Child Policy as provided in FY 19-20. Previously we have budgeted in the Communications, Health Systems and Policy teams but are centralizing the budget in 21-22 to better reflect and coordinate the funding. Activities supported from contributions to the Association include funding for dedicated Association policy staff, development of First 5 advocacy materials, execution of reports and polls related to First 5 policy priorities, support of consultants to advance critical policy initiatives, and support for the development of the First 5 network in California and partnerships with consultants and advisors to enhance the Association's policy work. OGAPP anticipates a midyear budget adjustment to support one-time investments the Association is developing to support network sustainability, learning hubs and strategic communications.

Association-led policy work is expected to continue to increase in FY 20-21 with a particular focus on a few critical initiatives: 1) the coordination of a statewide First 5 approach to addressing new tobacco-related product policies, regulations, and taxes which impact Proposition 10 revenues; 2) coordination with First 5 California and support for the further development and engagement with the network of 58 county First 5 commissions; 3) support for First 5 network engagement with Governor Newsom and his early childhood development leadership team, including the development of the Early Childhood Master Plan, Early Childhood Policy Council, and Medicaid Healthier California for All intiative (CalAIM); and 4) the integration and development of an early childhood development policy agenda inclusive of family strengthening, early intervention, and early learning priorities.

In addition to core Association activities, First 5 LA's funding will support the ongoing development of the First 5 Center for Child Policy, the 501(c)3 arm of the Association previously known as the California Children and Families

Initiative	Investment Category
Policy Agenda/Advocacy	2020-2028 Strategic Plan

Foundation. In FY 18-19, the Center received a planning grant from the Pritzker Children's Initiative to support the development of a coordinated statewide policy agenda focused on child health and development. In FY 19-20, the Center received implementation grant funding from the Pritzker Children's Initiative, Heising Simons Foundation, and Packard Foundation among others to promote statewide early childhood work on census, communications and messaging, and support for a stronger early childhood health advocacy field. First 5 LA collaborates with the Center on statewide child health policy, and relies on the Center's relationships with key child health advocacy organizations like The Children's Partnership, Children's Trust, and California Children's Hospital Association, among others.

5) Advocacy and Sector Engagement ($155,000) to support sector advocacy strategies including business and stakeholder partnership. First 5 LA has previously collaborated and driven sector engagement strategies and will be transitioning to supporting roundtables and convenings that align shared priorities. First 5 LA will continue to collaborate and rely on relationships with key sector audience advocacy organizations like Public Private Partnerships, Council for Strong America, UniteLA and LA PECI, among others.

Change from Prior Year (if >+-20%)

Office of Communications

Initiative	Investment Category
Communications & Marketing	2015-2020 Strategic Plan: Focusing for the Future

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Strategic Communications	$2,700,000	$2,500,000	-7.40%

Program Summary

Communications is recognized as critical for driving change in family-serving systems and is essential to further advance and execute First 5 LA's strategic priorities. As part of First 5 LA's 2020-28 Strategic Plan, communications and marketing will continue to be used to build public will to support changes to systems of services and policies so they work better for children and their families, and to influence the change of norms, attitudes, behaviors and beliefs.

During FY 21-22, the Office of Communications will continue developing and implementing strategic communications and marketing efforts that build First 5 LA's reputation as an advocate and trusted source, engage and influence decision makers, and elevate awareness and create urgency on issues affecting young children and their families to help create lasting, equitable change. Efforts also include support of Internal Communications to create alignment, engagement and ambassadorship among First 5 LA staff.

These efforts are intended to help advance the 2020-28 Strategic Plan's results areas and support First 5 LA's policy and systems change efforts. In the context of the COVID-19 pandemic, these communications and marketing efforts will focus on how prioritizing the needs of young children and families in local, state and federal budget and policy decisions is essential to the state's economic recovery and lasting stability.

The proposed budget request for Strategic Communications includes funds for communications expertise to support the development and execution of First 5 LA's programs, efforts and initiatives. This includes line items for three communications contracts to support several strategies including public relations, content creation and storytelling, as well as social media and digital marketing to amplify with urgency the stories of young children and their families. This line item also includes audience research and analysis on the attitudes and beliefs of the general public and parents on early childhood development that will be used to shape public will-building efforts, as well as targeted audience research to support specific issue-based campaigns.

Efforts outlined in the Office of Communications' Strategic Marketing budget are intended to support and complement outreach to targeted audiences to inform and influence decisions that prioritize young children in budget and policy decisions. In collaboration and consultation with Center Teams and Offices, the Office of Communications' marketing outreach strategy will now focus narrowly and more intensely on normalization and behavior change to support specific programs and efforts, with an emphasis on reaching "hard-to-reach" communities using in-language communications and making the most of trusted messengers.

These strategies are further supported and complemented by efforts outlined under the Office of Communications' Strategic Partnerships budget to build the capacity of newsrooms to cover health and early learning issues affecting young children under the age of 5 and their families to help build public awareness and public will. By elevating these issues through thoughtful reporting in outlets trusted and respected by decision makers, First 5 LA will continue to help catalyze decisions by key stakeholders to help drive policy and systems change.

Spending Plan and Funding Methodology

The methodology used to develop this budget is based on unique scope of work estimates for activities planned in FY 21-22, including support for Internal Communications; support for public will-building efforts, development of issue-based campaigns in partnership with the Office of Government Affairs & Public Policy and Center Teams, as well as analysis and refinements to First 5 LA's websites and digital properties; and qualitative and quantitative research on the public's perceptions of early childhood development and connecting audiences to First 5 LA's mission, vision, and work.

The Office of Communications is currently developing specific strategies to advance organization-wide goals and achieve Short-Term Markers of Progress (STMPs). This strategic communications planning process is slated to conclude by the end of Q1 of FY 21-22. The estimates used in this budget are based upon preliminary conversations with Center Teams and Offices to identify strategies and recommended tactics the Office of Communications could deploy to reach specific organization-wide goals, objectives and STMPs. The Office of Communications will adjust the budget at midyear of FY 21-22 to better reflect estimated spending on projects once the strategy is developed,

Initiative	Investment Category
Communications & Marketing	2015-2020 Strategic Plan: Focusing for the Future

narrowed and aligned.

The methodology also includes defined costs associated with the utilization of agency partners with an expertise in strategic communications and marketing, social media and digital marketing, as well as multimedia creative services.

Program Detail
1) $2,500,000 General Communications and Marketing Support for First 5 LA Programs, Efforts, and Initiatives:

During FY 21-22, the Office of Communications will partner with Center Teams and Offices to provide strategic communications and marketing counsel to reach target STMPs and achieve the goals of the 2020-28 Strategic Plan. The proposed budget request includes $2,200,000 for strategic communications and marketing services to engage decision makers; build upon First 5 LA's reputation and brand; elevate awareness and urgency among key stakeholders; support Internal Communications efforts; and provide general communications support and coordination for County agency and coalition-led efforts aligned with First 5 LA's goals.

In FY 20-21, three agencies with specific scopes of work were procured through the Request for Qualifications (RFQ) process and will continue to lead several streams of work critical to First 5 LA's policy and systems change efforts, as well as provide strategic counsel to advance organization-wide goals. The goal of employing diverse agency expertise is to design insightful integrated communications and marketing campaigns that inform, educate and influence the change of norms, attitudes, behaviors and beliefs of early childhood development.

Rescue Agency, LLC (Rescue) was awarded the Integrated Communications and Marketing contract to lead development of data-driven, research-based creative concepts to maximize reach and engagement of target audiences and build upon current and future public will building and behavior change campaigns and initiatives.
BARÚ Advertising, Inc. (BARÚ) was awarded the Social Media and Digital Marketing contract to provide strategic, data-driven creative concepts to maximize reach and engagement of target audiences and build upon current and future social media and traditional marketing campaigns utilizing First 5 LA's social media channels (Facebook, Twitter, Instagram) and digital platforms and distribution channels (websites, e-newsletters).
Bumpercar, Inc. was awarded the Multimedia Creative Services contract to provide a full range of multimedia production services (video, collateral, webpage design, graphic design for print collateral, advertising creative, etc.) to complement and enhance integrated communications and marketing, and social media and digital marketing projects.

In FY 21-22, the Office of Communications' Strategic Communications work will continue to focus on developing integrated communications and marketing strategies to further advance First 5 LA's strategic priorities, specifically to help build engagement and trust with target audiences and advance our advocacy efforts.

In FY 21-22, with the support of Rescue Agency, the continued work will include development of data-driven, research-based creative concepts to maximize reach and engagement of target audiences and builds upon current and future public will building and behavior change campaigns and initiatives. Support also includes earned media relations (local, regional, statewide and national press) and public relations strategic insight and message development to reach target audiences. For example, in consultation and collaboration with the Office of Government Affairs & Public Policy, the Office of Communications will develop "issue-specific" campaigns and engagement efforts to target key stakeholders and general public in an effort to build understanding of the critical need and opportunity to support the healthy development of young children with a "whole family, whole child" framing in funding, policy and practice decisions.

In FY 18-19, the Office of Communications initiated a research project to engage decision-makers, influencers and families by learning about the attitudes the general public holds toward prioritizing young children in policy and budget decisions. In FY 21-22, Rescue will support the Office of Communications to continue this research to help refine the portfolio of themes, words, talking points and calls-to-action developed previously. This ongoing work will help explain to the general public the importance and urgency of early childhood development issues as part of a broader public will-building effort for equitable policy and systems change for young children and their families, and directly contributes to STMP #14 to gain insight into messaging that will resonate with target audiences as foundational to the development and adoption of common language between home visiting, Early Identification and Intervention, Help Me Grow, and Early Care and Education system partners that reflects the services and goals of early identification and intervention priorities. The Office of Communications will also continue to share relevant research externally to engage decision-makers and stakeholders, and to propel First 5 LA's policy agenda and

Initiative	Investment Category
Communications & Marketing	2015-2020 Strategic Plan: Focusing for the Future

advocacy efforts.

In FY 21-22, Rescue also will continue to support Internal Communications to meet content development needs and production of organization and brand style tools for organization-wide use, including but not limited to the First 5 LA Writing Style Guide.

The blended retainer and task order contract with Rescue Agency is not to exceed $1.2 million in FY 21-22.

The Office of Communications also will continue to deploy social media and digital marketing strategies to maximize reach and engagement of target audiences and amplify storytelling that lifts-up the urgency of early childhood development issues. In FY 21-22, the Office of Communications will continue to work with BARÚ to develop strategic, data-driven creative concepts and build upon current social media and traditional marketing campaigns. This will include creative asset production (graphics, animation used across social media platforms and F5LA websites), paid media strategy (see Strategic Marketing budget for further details on paid advertising budget), content/storytelling strategy and planning, online community management, as well as measurement and reporting on the impact of executed strategies and tactics. Examples of past campaigns include a “Issue Explainer” video series developed to educate and engage target audiences via digital and social media platforms on the areas of early learning, home visiting and Early Identification and Intervention/developmental screenings. In FY 21-22, campaign development utilizing social media and digital platforms will be done in partnership with Center Teams and Offices to further advance and elevate priorities.

Additionally, BARÚ will serve on the Internal Communications digital community production team to provide expertise in web-based user experience and content structure in development of a SharePoint content dissemination and repository hub for all employees.

This blended retainer and task order contract with BARÚ is not to exceed $650,000 in FY 21-22.

In support of the integrated communications and marketing, as well as the social media and digital marketing strategies, a full range of multimedia production services will be provided by Bumpercar, Inc. In FY 21-22, project-based work includes, but is not limited to, message development, copywriting, graphic design for print, digital, social media and presentations, photography, photo cataloging and organization, videography, film editing, audio production, post-production and related services, and coordination with other entities and agency partners as projects require. Such projects include a new “About First 5 LA” video that visually explains the refined 2020-2028 Strategic Plan, our role as policy and systems change agents and our North Star, as well as ongoing support for Office and Center Team programs (i.e., production of collateral materials, promotional items, and video content).

In FY 21-22, Bumpercar, Inc. also will serve on the Internal Communications digital community production team and provide expertise in First 5 LA brand and design in development of a SharePoint content dissemination and repository hub for all employees.

This fee for service contract with Bumpercar, Inc. is not to exceed $350,000 in FY 21-22.

In addition, $300,000 has been allotted for editorial, translation, video production, and other content creation support services that are outside of the scope of work of vendors previously contracted through the RFQ process. This includes reporting, writing, and copyediting/proofing services provided by contracted vendors, HyperTexted, LLC, and Christina Hoag.

Change from Prior Year (if >+-20%)

Initiative	Investment Category
Communications & Marketing	2015-2020 Strategic Plan: Focusing for the Future

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Strategic Communications Partnerships	$600,000	$539,000	-10.16%

Program Summary

Program Summary:
Communications is critical for catalyzing decisions by key stakeholders to drive change among systems, communities and families. As part of First 5 LA's 2020-28 Strategic Plan, communications will be used to continue the agency's policy and systems change, practice change, and public will-building work.

During FY21-22, the Office of Communications will build upon learnings from previous investments in strategic communications partnerships to engage decision makers on early childhood development issues. Past fiscal years have included direct investments to fund organizations and news outlets to build their capacity to cover issues affecting young children and their families, with a focus on early education and health care delivery systems. This complements the efforts of First 5 LA's Office of Government Affairs & Public Policy to elevate awareness and engage decision makers. By elevating these issues through thoughtful reporting in outlets trusted and respected by decision makers, First 5 LA has been able to help catalyze decisions by key stakeholders to help drive policy and systems change.

The Office of Communications values the goal of building the capacity of newsrooms to cover health and early learning issues affecting young children under the age of 5 and their families. It is essential to helping build public awareness and public will to create lasting change and aides in the effort to change behaviors and beliefs. The COVID -19 pandemic adds an increased urgency to the credible coverage of these issues. However, one learning from First 5 LA's previous investments was the management of multiple grantees inhibits the Office of Communications from fulfilling its core competencies. For FY21-22, the Office of Communications will develop a single strategic partnership with one organization to manage a portfolio of grants that seeks to accomplish this same goal.

Funding includes:
1) $539,000 Strategic Partnerships to Engage Decision Makers on Early Child Development

Spending Plan and Funding Methodology

The FY 21-22 budget reflects the role of communications in advancing the 2020-2028 Strategic Plan's policy and systems change goals.

The Office of Communications is currently developing specific strategies to advance organization-wide goals. This strategic communications planning process is slated to conclude by the end of Q1 of FY 21-22.

The estimates used in this budget are based upon preliminary conversations with Center Teams and Offices to identify a menu of tactics the Office of Communications could employ to reach specific organization-wide goals, objectives and Short-Term Markers of Progress (STMPs). The Office of Communications will adjust the budget at midyear of FY 21-22 to better reflect estimated spending on projects once the strategy is developed, narrowed and aligned.

The methodology used to develop this budget is based upon analysis of several years of experience with managing grants similar in scope, learning best practices from other funders, and analyses of the costs associated with the development, implementation and evaluation of these strategic partnerships.

Program Detail
1) $539,000 Strategic Partnerships to Engage Decision-Makers on Early Childhood Development

As part of public will-building efforts, it is essential to support the capacity of news outlets to cover early childhood issues to help elevate and explain their importance and urgency. This helps inform, captivate, and catalyze decisions by leading stakeholders to prioritize young children, complementing the advocacy efforts of the Office of Government Affairs & Public Policy, and the priorities of the Center for Child & Family Impact.

First 5 LA will continue strategic partnerships with the Center for Health Reporting and Pacific Oaks College to

Initiative	Investment Category
Communications & Marketing	2015-2020 Strategic Plan: Focusing for the Future

produce impactful reporting on early childhood development for local and statewide audiences. Both of these agreements are in their final year.

This funding also will be utilized to create a strategic partnership with the Los Angeles Partnership for Early Childhood Investment (LAPECI) to begin a shift in strategy from direct management of these grants to building a pooled fund with other potential funders.

First 5 LA's purpose in joining a pool of potential funders for this effort, and existing LAPECI efforts, including the Atlas Family Foundation, the Tikun Olam Foundation and The Carl & Roberta Deutsch Foundation, is to support efforts to build public will as part of the 2020-28 Strategic Plan.

The strategic partnerships are funded as follows:
The Center for Health Reporting at the USC Schaeffer Center for Health Policy and Economics: $125,000 (Year 2 of a 2-year partnership)
The Pacific Oaks College Early Childhood Journalism Fellowship: $164,000 (Year 2 of a 2-year partnership)

The budget reflects anticipated cost of a two-year strategic partnership in FY 21-22 for the amount of $250,000 to be part of a pooled fund with The Los Angeles Partnership for Early Childhood Investment.

Change from Prior Year (if >+-20%)

Three strategic partnerships from FY 20-21 were in the last year of their contract agreements. This includes the USC Annenberg Center for Health Journalism National Health Journalism Fellowship at $36,000, Fostering Media Connections at $75,000 and CalMatters at $75,000. Based on a shift in strategy, these agreements will not be renewed in FY 21-22.

Initiative	Investment Category
Communications & Marketing	2015-2020 Strategic Plan: Focusing for the Future

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Strategic Marketing	$2,063,000	$1,575,000	-23.65%

Program Summary

During FY 21-22, the Office of Communications, in partnership, collaboration and consultation with the Center for Child & Family Impact teams and Office teams, will use marketing strategies to reach, educate, engage and influence the public, parents, caregivers and the community. Anchored in research and First 5 LA's strategic direction, strategic marketing efforts will help catalyze changes in behavior – such as reaching new and expectant parents to normalize the use of Home Visiting, defining "quality" for parents seeking childcare, and explaining to key stakeholders and the public how children under the age of the 5 are a "special population" that should be prioritized in budget and policy decisions.

The Office of Communications' previous marketing strategy included using broad-based parent education efforts on evergreen parenting topics such as nutrition, school readiness and the protective factors. In partnership, collaboration and consultation with the Center for Child & Family Impact teams and Office teams, the Office of Communication's FY 21-22 marketing outreach strategy will focus narrowly and more intensely on normalization and behavior change to support specific programs and efforts, emphasizing "hard-to-reach" communities, using in-language communications, and making the most of trusted messengers to help advance the 2020-28 Strategic Plan's results areas and support First 5 LA's policy and systems change efforts.

For example, in the context of the COVID-19 pandemic, communications and marketing efforts will focus on how prioritizing young children in budget and policy decisions is essential to the state's economy and its recovery.

The proposed budget request includes funds for paid advertising to be used in strategic alignment with First 5 LA's public education campaigns and strategic marketing efforts, and toward the development of content and production of materials and collateral items to connect with audiences and help advance First 5 LA's organization-wide goals.

Spending Plan and Funding Methodology

Investments
$500,000 Marketing Strategies to Educate and Engage Parents and Caregivers on Early Childhood Development Programs and Services
$400,000 Marketing Strategies to Educate and Engage Policy and Decision-makers, Stakeholders, and Non-parents to Build Public Will on Policy and Systems Change for Early Childhood Development
$250,000 Strategic Marketing Partnerships for Public Service Announcements (PSAs) and Content Integration
$425,000 Printing material, collateral items, and direct-to-home mailing to Reach "Hard-to-Reach" Audiences

The FY 21-22 budget reflects the role of marketing strategies to reach, educate, engage and influence target audiences and drive them to action. These audiences include policy and decision-makers, parents, the public, community members and partners.

The Office of Communications is currently developing specific strategies to advance organization-wide goals. This strategic communications planning process is slated to conclude by the end of Q1 of FY 21-22. The estimates used in this budget are based upon preliminary conversations with Center, Teams and Offices to identify a menu of tactics the Office of Communications could deploy to reach specific organization-wide strategic goals, objectives and Short-Term Markers of Progress (STMPs). The Office of Communications will adjust the budget at mid-year of FY 21-22 to better reflect estimated spending on projects once the strategy is developed, narrowed and aligned.

To help build this budget, analysis and historical measurements of success (analytics, impressions, surveys) over several years of marketing has helped hone-in on strategy that helps align results toward First 5 LA's North Star. Included are costs associated with creating, developing and distributing targeted content, paid media advertising placements and production of associated campaign materials.

Program Detail
1) $500,000 Marketing Strategies to Engage Parents and Caregivers on Early Childhood Development Programs and Services

Initiative	Investment Category
Communications & Marketing	2015-2020 Strategic Plan: Focusing for the Future

Marketing strategy engagement efforts will be focused on issues-based campaigns reflective of the four results for families to help audiences understand the benefits, modes of access, and reasons to prioritize Early Care and Education, Early Identification and Intervention services, and family supports such as Home Visiting. Ultimately contributing to First 5 LA reaching its strategic goals.

These efforts will complement First 5 LA's advocacy efforts by incorporating calls-to-action and will help catalyze changes in behavior. For example, reaching new and expectant parents to normalize and destigmatize the use of Home Visiting, and helping to build an understanding of "quality" in Family, Friend and Neighbor childcare settings. The efforts will explain to key stakeholders and the public how children under the age of 5 are a "special population" that should be prioritized in budget and policy decisions. Ultimately, helping First 5 LA reach its organization-wide goals.

This request for funding supports advertising placements targeting a parenting and caregiver audience and other logistical support services like content development and materials production.

Cost estimates are based on previous spending on work conducted in FY19-20 for the US Census campaign in collaboration with the First 5 Association. $449,000 was invested for ad placements in English, Chinese and Spanish on tv program integration segments, radio (both on-air and digital), newspapers and outdoor (convenience stores, transit, digital billboards). The ads delivered close to 50,000,000 impressions and helped drive behavior change among parents, encouraging them to participate in the census to help prevent the undercount of children 5 and under.

In FY 18-19, $300,000 was spent on the "Asking is Advocacy" campaign, for out-of-home, radio and print advertising, to encourage parents to be advocates for their children during daily life activities like going to the pediatrician or engaging with schoolteachers.

Consistent with First 5 LA's Diversity, Equity and Inclusion value, the Office of Communications will continue to use a variety of tactics to reach and be inclusive of "hard-to-reach" audiences. This will extend the impact of First 5 LA's marketing efforts to reach audiences that may not have access to the internet and consume more traditional media, such as mainstream broadcast TV and terrestrial radio. Alternate languages, such as Spanish and Chinese, and ethnic media outlets will be used to reach audiences equitably. The Office of Communications also will continue to leverage its relationships with media partners to secure value added opportunities extending the reach of the budget allocation. Historically, providing up to 30% over invested budgets.

2) $400,000 Marketing Strategies to Build Public Will on Policy and Systems Change for Early Childhood Development

As part of its broader communications and marketing efforts to advance the 2020-28 Strategic Plan, First 5 LA also will use paid media advertising and marketing efforts targeting policy and decision-makers, stakeholders, and non-parents, focused on the importance of child development and the programs and services needed to reach this "special population" of young children and their families. These efforts will be executed in collaboration with the Strategic Initiatives stream of work.

This request for funding will provide marketing support, such as targeted paid media advertising placements and other logistical support services as a key component to complement and help amplify and promote advocacy efforts. This work will be for "issue-specific" public education and engagement efforts and will incorporate calls-to-action to help build public understanding of the critical need for prioritizing young children in budget funding, policy and practice decisions.

Diverse outlets are typically used to reach this audience, for example: Local newspapers and public radio.

3) $250,000 Strategic Marketing Partnerships for Public Service Announcements and Content Integration

Funds for Public Service Announcements (PSAs) and content integration will be used to complement public education efforts by creating strategic marketing sponsorships with local broadcast television and radio outlets for Public Service Announcements, and digital and print advertising, and through programming or editorial content integration. Content integration differs from advertising in that it allows First 5 LA to sponsor "in-show" segments or

Initiative	Investment Category
Communications & Marketing	2015-2020 Strategic Plan: Focusing for the Future

"sponsored" editorial focused on early childhood development and parent advocacy, making the most of an outlet's trust with its audiences. This creates opportunities to normalize and destigmatize early child development programs and services, in support of specific Center for Child & Family Impact teams and organization-wide goals. Estimates are based on previous strategic partnerships that have ranged in cost from $250,000 to $350,000. Examples of this work are the morning show segments that ran on Telemundo for the Census participation campaign. Some of these outlets integrate targeted community event sponsorships.

4) $425,000 Printing and Mailing to Reach "Hard-To-Reach" Communities

First 5 LA previously published the "Parenting Guide," a quarterly publication for parents and caregivers in L.A. County, as well as a variety of collateral materials and mission-aligned promotional items distributed at events to reach traditionally "hard to reach" communities, build relationships of trust with the public and targeted audiences, and connect them with our mission, our vision and our work.

As part of issue-based campaign strategies being developed by the Office of Communications in Q1 of FY 21-22, preliminary research has found that a shift from an event-based strategy to a more focused and specific direct-mail marketing strategy can be effective in engaging parents in "hard-to-reach" communities. The Office of Communications will develop issue-based campaigns to target, in part, audiences who do not consume digital media and are more comfortable being communicated with in a language other than English. This approach may include using consumer-level marketing data to specifically target and reach audiences in the language with which they are most comfortable. As well as parents and community members with specific characteristics – such as women within an ethnic group under-enrolled in Home Visiting services within a geographic service area – identified by Center for Child & Family Impact teams and Office teams to help advance their goals.

For example, available consumer marketing data has identified approximately 40,000 mailable households with children under age 5 in Best Start Communities. A direct mail marketing program would cost approximately $80,000 for four quarterly mailings. Similarly, there are nearly 200,000 mailable households with young children across L.A. County. A countywide mailing program of four quarterly mailings would cost approximately $320,000.

The frequency and scope of such direct mailing programs is still under consideration and will be determined in consultation with Center for Child & Family Impact teams and Office teams. This effort will also complement other marketing efforts such as Public Service Announcements (PSAs) and content development.

This funding also includes $25,000 to support First 5 LA's agency-wide printing (such as business cards, letterhead, flyers, booklets, brochures and other printed materials, including signage needed inside the First 5 LA offices).

The frequency and scope of such direct mailing programs is still under consideration and will be determined in consultation with Offices and Teams. This effort also will complement other marketing efforts such as PSAs, content development and community event sponsorships.

Change from Prior Year (if >+-20%)

Office of Data for Action

Initiative	Investment Category
Data Development	Research & Evaluation

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Annual Reporting	$0	$74,000	0.00%

Program Summary

This budget item will fund a consultant to collect, analyze and report data and develop an LA County brief using data collected in support of our Annual Report submission to First 5 California. The brief will describe and summarize First 5 LA investments, grantees and contractors, children and family members reached, our system change efforts and success stories. Additionally, the brief will support efforts to report on strategic plan progress.

The following provides a more comprehensive overview of the work envisioned.

PROJECT DESCRIPTION: The Annual Reporting project includes a report created by First 5 LA and submitted to First 5 California in alignment with Proposition 10 requirements. The report developed for First 5 California summarizes First 5 LA's past fiscal year's accomplishments and investments. Additionally, the proposed work will include an LA County Data brief and data mining to faciliate local use of data.

The proposed work enables First 5 LA to hold itself accountable to our mission and vision for LA County children and families by examining and reflecting on what we invest in and who our investments are reaching. This understanding and accountability can inform future investments. The data mining component of the proposed work will also enable First 5 LA to elevate policy and systems change work and highlight accomplishments and success stories.

The Annual Reporting project aims to create the following conditions:

1) First 5 LA will maintain compliance with First 5 California reporting requirements
2) First 5 LA staff and key local stakeholders will understand what First 5 LA is investing in and who its investments are reaching and impacting

WORKSTREAMS:
1. Annual Reporting
2. LA County Data Brief
3. LA County Data Mining Preparation

STRATEGIC PRIORITY ADVANCEMENT: Strategic Priority 3 Expand Influence and Impact with Data. The Annual Report work will provide First 5 LA with an overview of its impact in LA County. Specifically, data disaggregated by geography and race/ethnicity and the success stories will facilitate access, use and sharing to internal and external stakeholders including First 5 LA staff and partners in the Best Start geographies. Understanding the possible disparities elevated in First 5 LA's investments can also serve to inform First 5 LA's investment policies and practices.

DEI Value: The Annual Report work will provide insight to who is reached and impacted by First 5 LA's investments and in what ways investments have been successful. The data reported through Annual Reporting process will serve First 5 LA by allowing it to take a closer look at the demographics of the people served by its investments and make informed decisions to respond to any disparities in its investments.

Spending Plan and Funding Methodology

(1)The funds requested for this year will be used to hire a consultant team to achieve the following objectives associated with three workstreams.

WORKSTREAM 1: ANNUAL REPORTING a) Identify and implement the necessary updates to Annual Reporting training materials, provide training, and offer technical assistance b) Collect and analyze grantee data in alignment with First 5 CA Guidelines c) Develop a codebook based on implementation experience d) Complete of Annual Reporting requirements to First 5 CA and prepare all necessary presentation materials

WORKSTREAM 2: LA COUNTY DATA BRIEF a) Develop LA County Data Brief to support data use b)

Initiative	Investment Category
Data Development	Research & Evaluation

Collaborate with First 5 LA for input and design

WORKSTREAM 3: LA COUNTY DATA MINING PREPARATION a) Prepare a finalized data set to support data use

(2) Cost estimates are based on 490 hours of work at $150 per hour which rounds to $74,0000. The hourly rate is consistent with the rate used for comparable services.

Change from Prior Year (if >+-20%)

This work will have an increase of over 20% from FY 20-21 because includes program costs for a consultant to collect Annual Reporting data, develop a codebook to document assumptions and coding decisions, work collaboratively with the Office of Communications on the LA County Data Brief and the preparation of a data mining file. The increased costs reflect a greater need for consultant support in the Annual Reporting process.

Budget Fiscal Year: 2021 - 2022 Status: Proposed

Initiative	Investment Category
Data Development	Research & Evaluation

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Data Policies & Practices	$25,000	$150,000	500.00%

Program Summary

The purpose of the Data Policies and Practices Project is to establish and adopt organization-wide data policies and practices to facilitate access to data that is aligned with the First 5 LA Data Strategy. This work will support First 5 LA with revising and developing universal policies and practices related to issues of data requirements, ownership, sharing and protecting confidentiality. The proposed work includes (a) conducting a needs assessment to identify and prioritize the need for new or refined policies and practices, (b) engaging teams in developing and refining data policies and practices, and (c) supporting and monitoring the adoption of new and refined data policies and practices.

The Data Policies and Practices Project will advance Strategic Priority #3 and #4. The goals of are to optimize our effectiveness by (a) aligning and adapting our business processes to bring consistency to the way we obtain data and how we ensure confidentiality when collecting and sharing data, (b) developing universal data policies and practices that increase our efficiency to obtain data and adopt data sharing agreements with contractors and grantees, which can reduce staff and financial resources, and (c) providing access to data needed to measure the progress of our Strategic Plan.

Spending Plan and Funding Methodology

(1) The funds requested for this year will be used to hire one or more consultants to achieve the following objectives associated with three workstreams.

WORKSTREAM 1: Needs Assessment. This workstream will consist of a needs assessment to 1) assessing the current and desired state of First 5 LA data policies and practices, as they relate to data requirements, ownership, sharing and confidentiality; 2) identifying and prioritizing revisions to existing policies and practices and development of new ones; 3) determining the approach to development of prioritized policies and practices.

WORKSTREAM 2: Policy Development. This workstream will involve 1) revising existing policies and practices; 2) developing new policies and practices;

WORKSTREAM 3: Policy Adoption. This workstream will involve 1) socializing new policies including training, communicating expectations and other activities; 2) supporting staff and teams with adopting and implementing new policies and practices

(2) Cost estimates are based on 1,000 hours of work at $150/hour which totals $150,000. The hourly rate is consistent with the rate used for comparable services. The hours were estimated based on the time needed to accomplish the objectives.

Change from Prior Year (if >+-20%)

A total of $25,000 for this project was included in the FY 20-21 budget as minimal work was anticipated beyond procurement. With the expansion of the scope of work for this project and the assumption that we will have a consultant on board by Q2, the total anticipated spending for FY 21-22 is $77,000.

Budget Fiscal Year: 2021 - 2022 Status: Proposed

Initiative	Investment Category
Data Development	Research & Evaluation

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Data Requests	$5,000	$5,000	0.00%

Program Summary

The purpose of this budget item is provide funds to First 5 LA to acquire various data sets on an as needed basis to support First 5 LA's information needs including purchasing data from state agencies such as the California Department of Education or Geographic Information System shape files in support of Impact Framework indicator tracking or other efforts.

Spending Plan and Funding Methodology

In FY 21-22 funds will be spent on data sets, as they are identified. Geographic Information System boundary files typically cost $1,000+, while public records like birth files are $500+. Anticipated costs are based on previous experience purchasing these types of data sets.

Change from Prior Year (if >+-20%)

Initiative	Investment Category
Data Partnership	Research & Evaluation

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Children's Data Network (CDN)	$850,000	$850,000	0.00%

Program Summary

The purpose of the Children's Data Network (CDN) is to inform effective system delivery and policies through (1) improved system-specific and cross-system data infrastructure and (2) early childhood research focused on improving access and alignment of family-serving systems and assessing the effectiveness of preventative services. The purpose of CDN's linked administrative data is to leverage existing records to provide a holistic view of services received by families with young children, informing policies and practices to break down service siloes.

Spending Plan and Funding Methodology

The funds requested for FY21-22 will be used to fund the Children's Data Network to achieve the following objectives associated with four workstreams.

WORKSTREAM 1: SYSTEM-SPECIFIC DATA INFRASTRUCTURE: (a) Improve and expand the Home Visiting system in LA County by leveraging the Children's Data Networkearly childhood and home visiting system expertise, and (b) Improve the Child Welfare System by leveraging the Children's Data Network's research and expertise to draw federal funding and integrate prevention services. In FY21-22, the focus will be on providing guidance and support to these systems to meet data and evaluation needs related to Families First Act funding.

WORKSTREAM 2: LINKED DATA INFRASTRUCTURE ACROSS SYSTEMS: (a) In collaboration with First 5 LA, inform the LA County Office of Child Protection efforts to build a countywide prevention metrics data system as part of the efforts to implement the LA County Prevention Plan, (b) Provide expertise on population-based data linkage and data system development and provide access to linked data related to early childhood to support statewide population-based data integration efforts at the state and local level, (c) Develop new and renew existing data sharing agreements with state and local agencies, including revisions based on data ownership changes brought in by the Governor's Early Care and Education Master Plan, and (d) Maintain up-to-date linked state administrative data in secure data systems.

WORKSTREAM 3: FIRST 5 LA'S DATA STRATEGY: (a) Inform First 5 LA's Data Strategy and Impact Framework by leveraging the Children's Data Network's expertise on measurement and data access approaches, and (b) the Children's Data Network will generate research products aligned with First 5 LA's Data Strategy that First 5 LA staff can use to inform and execute their strategies.

WORKSTREAM 4: DATA AND RESEARCH USE: (a) Complete the infrastructure of the Research Data Hub to facilitate secure access to deidentified linked administrative data by other researchers and county representatives, (b) Engage local leaders and county departments to facilitate use of findings, and (c) Share findings with State leaders to inform policy. In FY21-22, the focus will be to support access and use of LA County-specific data and research.

(2) Costs are based on historical trends since the beginning of the data partnership in 2012. These include:
STAFF (includes Project Team, USC IT staff, and a Research Scientist):
Staff Salary + Fringe = $410,000

OTHER DIRECT COSTS (includes software, facilities, server, mileage, communications, dissemination, community meetings, publication costs, project supplies, etc.):
Other Direct Costs = $300,000

SUBCONTRACTS/CONSULTANTS (includes website, data support at University of California Berkeley, ongoing Connecting the Dots Reports support, special Ad-Hoc analysis, and communication support, etc.):
Other Costs = $140,000

Change from Prior Year (if >+-20%)

Budget Fiscal Year: 2021 - 2022 Status: Proposed

Initiative	Investment Category
Data Partnership	Research & Evaluation

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
County Data Partnership		$115,000	0.00%

Program Summary

The purpose of this partnership is to consolidate efforts to measure and track key indicators for children, families, and communities in Los Angeles. This partnership allows First 5 LA to access data related to our Data Strategy, which otherwise might be challenging to access. The proposed work includes (a) supporting CIOs efforts to finalize the remaining list of actionable indicators, and data sources, for the countywide prevention metrics, (b) obtaining data extracts to data that informs First 5 LA's Impact Framework and additional prioritized data that supports First 5 LA's Data Strategy. The goals of this partnership are to (a) obtain access to data needed to measure the progress of our Strategic Plan, (b) establish data policies and practices to expedite the obtainment of data needed for First 5 LA's Data strategy, including the Impact Framework and (c) streamline data acquisition efforts by utilizing CIO's Analytic Center of Excellence to analyze and publish data that informs First 5 LA's Data Strategy.

Spending Plan and Funding Methodology

(1) The funds requested for this year will be used to achieve the following objectives associated with three workstreams.

WORKSTREAM 1: Countywide Prevention Metrics. This workstream involves supporting the LA County Office of the Chief Information Officer with the development of a Prevention Metrics Indicator product that informs stakeholders on the progress of the County's Prevention Plan. First 5 LA will continue to support the development of the Prevention Metrics indicators and product on an annual basis.

WORKSTREAM 2: First 5 LA's Impact Framework. This workstream involves analyzing and extracting data in support of First 5 LA's Impact Framework. We anticipate the LA County Office of the Chief Information Officer will provide yearly (or real-time) data extracts. For FY 20-21, we allocated ~$15,000 for this work, but anticipate in FY21 -22 the number of indicators (i.e. Result, Contextual, Long Term System Outcome, and Short Term Marker of Progress) the data provided will significantly increase, therefore cost estimates for FY 21-22 are higher.

WORKSTREAM 3: First 5 LA's Data Strategy. Through this workstream, the LA County Office of the Chief Information Officerwill provide First 5 LA with data that reflects our prioritized data needs. In FY 21-22, we anticipate OCIO will participate in discussions around our data strategy and assist with convening other county departments to have conversations around the data strategy.

(2) Cost estimates are based on 830 hours of work at $138/hour which totals $114,540. The hourly rate is consistent with the rate we currently are paying the LA County Office of the Chief Information Officer for this work. The hours were estimated based on the time needed to accomplish the objectives.

Change from Prior Year (if >+-20%)

The anticipated spending for FY21-22 is $115,000. The increase is justifiable, because during this year, the scope of the work will significantly increase. The LA County Office of the Chief Information Officerwill be obtaining, analyzing and providing First 5 LA with data to measure an unknown increased number of Impact Framework indicators. We will also engage the LA County Office of the Chief Information Officer in conversations about First 5 LA's data strategy and continue supporting the development of the Prevention Metrics work.

Budget Fiscal Year: 2021 - 2022 Status: Proposed

Initiative	Investment Category
Data Partnership	Research & Evaluation

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
WIC Data Mining Research Partnership	$547,000	$384,000	-29.79%

Program Summary

The purpose of the WIC Data Mining Partnership is to leverage WIC's extensive administrative data and infrastructure to elevate parent voice about families' early childhood experiences and to better understand the health and well-being of WIC families in L.A. County, who make up almost half of First 5 LA's target population. The findings from the WIC Data Mining Partnership are intended to provide comprehensive information to health planners, policy makers, and community leaders about local families in need – a crucial first step to better serving this vulnerable population.

Spending Plan and Funding Methodology

(1) The funds requested for this year will be used to fund the Strategic Partnership with Public Health Foundation Enterprises, Inc. WIC to achieve the following objectives associated with four workstreams.

WORKSTREAM 1: MAINTAIN WIC ADMINISTRATIVE DATA SYSTEMS: Maintain up-to-date linked WIC administrative records in secure data systems.

WORKSTREAM 2: WELCOME BABY STUDY COMPARISON SAMPLE DATA COLLECTION: (a) Complete data collection for 3-month and 10-month timepoints, and (b) In collaboration with American Institutes for Research, complete planning and preparation for final data collection timepoint.

WORKSTREAM 3: FIRST 5 LA DATA STRATEGY: (a) Complete analyses for prioritized data needs in alignment with First 5 LA's Data Strategy, including data and analyses for the Impact Framework as well as initiative-specific and emergent data needs, and (b) generate research products that First 5 LA staff can use to inform and execute their strategies.

WORKSTREAM 4: DATA ACCESS AND USE: (a) The LA County WIC Website will be an up-to-date and easy to use tool for accessing key statistics on the conditions of L.A. County WIC families, including disaggregation by race/ethnicity and geography, and (b) First 5 LA's key partners, especially partners in Best Start Communities, will have an awareness of the data available to them through the WIC Data Mining Partnership and have access to key findings generated through the partnership.

(2) Funding estimates were based on previous years' cost expenditure data implementing administrative data maintenance and analysis, as well as estimates for data collection for the Welcome Baby Study. This includes:
-WIC Administrative Data Servers: $9,000
-Incentives and Mailing Costs: $32,000
-An estimated 2286 hours x $150: $342,900

Change from Prior Year (if >+-20%)

Decreased costs are associated with the completion of 2020 LA County WIC Survey administration, which was completed in December 2020.

Budget Fiscal Year: 2021 - 2022 Status: Proposed

Initiative	Investment Category
Learning and Integration	Research & Evaluation

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Assisting and Supporting Staff with Information for Specialized Tasks		$119,000	0.00%

Program Summary

This budget item will fund the consultant necessary to support the infrastructure development of the Assisting and Supporting Staff with Information for Specialized Tasks (ASSIST) work. The ASSIST consultant will conceptualize, design, and execute an approach to developing First 5 LA's technical assistance and support infrastructure in alignment with First 5 LA's reorganization process. The following is a description of the overview, purpose, goals, objectives, and connection to First 5 LA's priorities and values.

PROJECT DESCRIPTION: The ASSIST work will develop the infrastructure required to support the effective delivery of technical assistance and support related to data, measurement, and evaluation at First 5 LA. The proposed work will include procurement of a consultant to support the development of the infrastructure, in addition to the development of the infrastructure.

First 5 LA’s previous organizational structure produced unfruitful outcomes. In response, First 5 LA implemented a new structure to produce better outcomes by delivering the Office of Data for Action’s expertise in a manner that benefits every individual and team. The new structure redistributes ownership of data projects to initiative leaders and establishes the role of the Office of Data for Action as technical assistant. In doing so, First 5 LA will benefit by ensuring that the people closest to the work are able to articulate their data-related needs and incorporate data into their work.

The ASSIST work aims to achieve the following conditions:

1. First 5 LA’s staff have the capability to articulate their data-related priorities and integrate the data into their approach at every level of the organization,
2. First 5 LA’s staff contribute to the advancement of First 5 LA’s Data Strategy

Workstream 1: Infrastructure Development

STRATEGIC PRIORITY ADVANCEMENT: The ASSIST work will primarily advance Strategic Priority 4 by building the infrastructure necessary to promote a data-driven approach to First 5 LA’s work at every level of the organization, inclusive of planning, funding, investing, and learning. By equipping First 5 LA with the capability to articulate data-related needs and integrate data into its work, First 5 LA’s effectiveness will be optimized and advance Strategic Priority 4.

DEI VALUE: By implementing an organizational structure that promotes data-driven approaches to work, the ASSIST work repositions First 5 LA’s staff to be better equipped to advocate for fair and just systems that serve young children and families. Specifically, if staff have the capability to call for better data quality and advocate for disaggregated data sets, then the projects they plan and implement will be better informed to serve the groups experiencing the most disparate outcomes.

Spending Plan and Funding Methodology

(1) The funds requested for this year will be used to hire a consultant to achieve the following objectives associated with one workstream.

WORKSTREAM 1: INFRASTRUCTURE DEVELOPMENT a) Develop the processes, tools, roles and responsibilities for submitting, assessing, and providing support for technical assistance (ASSIST) requests which will include the convening of a new advisory group b) Develop a system for recording and tracking ASSIST requests

(2) Cost estimates are based on 795 hours of work at $150 per hour which rounds to $119,000. The hourly rate is consistent with the rate used for comparable services.

Change from Prior Year (if >+-20%)

Initiative	Investment Category
Learning and Integration	Research & Evaluation

There was no spending for this in the FY 20-21. The increase is greater than 20% because it launches the development of the infrastructure, which is work that has not been done before.

Initiative	Investment Category
Learning and Integration	Research & Evaluation

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
First 5 LA Data Strategy	$100,000	$250,000	150.00%

Program Summary

The Data Strategy will articulate First 5 LA's prioritized data needs grounded in the strategic plan and the approaches we will use to address them. The proposed work includes (a) identifying and prioritizing data needs across the organization, (b) identifying the approaches to meeting prioritized data needs, and (c) facilitating the application and integration of data for intended purposes. The purpose of the proposed work is to ensure First 5 LA has the data needed to (a) optimize our effectiveness, (b) drive system change efforts and (c) measure the progress of our system change efforts. Goals of the Data Strategy include inspiring shared commitment to prioritized data needs and positioning First 5 LA to use data to inform resource allocation, strategy development, planning and decision-making. In FY 21-22, the funds in this line item will be used to engage a consultant to support with (i) data strategy development, (ii) data strategy implementation, and (iii) data strategy application. Once the Data Strategy has been developed we will expand our efforts to include disseminating and using the data that is generated. One tool we anticipate developing in support of this is a dashboard. Goals of the Data Dashboard include ensuring staff, commissioners and stakeholders have access to real-time aggregate and trend data that communicates progress of our systems change efforts and positions First 5 LA as a trusted data source among policy makers, community leaders and community members.

Spending Plan and Funding Methodology

(1) The funds requested for this year will be used to hire a consultant team to achieve the following objectives associated with three workstreams.

WORKSTREAM 1: DATA STRATEGY DEVELOPMENT (a) identify First 5 LA's prioritized data needs through th current implementation period (and if applicable the 2028 strategic plan) and (b) identify initial approaches to address prioritized data needs (assuming there may be subsequent steps that aren't determined at this stage). In FY 21-22 the focus will be on new word and work already underway.

WORKSTREAM 2: DATA STRATEGY IMPLEMENTATION (a) facilitate the alignment of ongoing data efforts with Data Strategy Priorities, (b) develop an approach and process to monitor and track data efforts and (c) develop an approach to quality assurance and adherence to the goals of the Data Strategy for ongoing data efforts. In FY 21-22 the focus will be on new work and work already underway.

WORKSTREAM 3: DATA STRATEGY APPLICATION (a) facilitate the application of findings, knowledge and learnings from the Data Strategy and (b) facilitate the sharing and dissemination of knowledge from the Data Strategy. In FY 21-22, the focus will be on work already underway.

(2) Cost estimates are based on 1600 hours of work at $150/hour which totals $240,000 and $10,000 in direct costs such meeting expenses, travel and supplies. The hourly rate is consistent with the rate used for comparable services. The hours were estimated based on the time needed to accomplish the objectives.

Change from Prior Year (if >+-20%)

The increased funding level is a due to the expanded scope of this work to include data needs and strategies associated with our internal operational performance in addition to programmatic and system focused efforts.

Budget Fiscal Year: 2021 - 2022 Status: Proposed

Initiative	Investment Category
Learning and Integration	Research & Evaluation

Program Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Impact Framework	$125,000	$430,000	244.00%

Program Summary

The purpose of the Impact Framework is to help navigate the complexity of First 5 LA's systems change work and hold ourselves accountable for progress towards the North Star. The Impact Framework compiles existing data related to First 5 LA's prioritized work to inform organization-wide planning and decision-making.

Spending Plan and Funding Methodology

(1) The funds requested for this year will be used to hire two consultants to achieve the following objectives associated with two workstreams:

WORKSTREAM 1: IMPACT FRAMEWORK MEASUREMENT: (a) First 5 LA will have revised Impact Framework Indicators that are aligned with the Strategic Goals and prioritized work of the organization, (b) First 5 LA will have identified accessible and quality data sources for Impact Framework Indicators, (c) First 5 LA will have obtained accessible Impact Framework Indicator data, and (d) Staff will have access to current Impact Framework data and findings.

WORKSTREAM 2: IMPACT FRAMEWORK USE: (a) First 5 LA staff will have clarity as to the priority ways to use the Impact Framework, and (b) First 5 LA will have achieved the FY21-22 Impact Framework use goals.

(2) Cost estimates for the Key Performance Inidcator Consultant is based on 1,312 hours of work at $150/hour, which totals $196,800.
Cost estimates for the System Outcomes Consultant is based on 1,554 hours of work at $150/hour, which totals $233,100.

The hourly rate is consistent with the rate used for comparable services. The hours were estimated based on the time needed to accomplish the objectives.

Change from Prior Year (if >+-20%)

Increase in costs is associated with the launch of the development of the Key Performance Indicators (KPIs) as well as with the need to collect data associated with the Short-term Markers of Progress (STMPs). Both of these aspects represent new phases of work for the Impact Framework.

Office/Center/Team Name: Family Supports Team

Authorized Positions:

Position	#
Director	1
Senior Program Officers	2
Program Officers	5
Program Associate	1
Total:	**9**

Overview:

The Family Supports team works with others to lead and fund systems change activities related to family strengthening services, primarily home visiting, with the goal of ensuring families have the resources necessary to optimize their child's development and that children are safe from abuse, neglect, and other trauma. The team serves as subject matter experts for family support services at First 5 LA and collaborates with functional leads within First 5 LA to inform the prioritization of organization-wide efforts related to home visiting including communications, research and data, learning, and public policy. In collaboration with the teams from the Center for Child and Family Impact, the Family Supports team also focuses on strengthening integration and alignment efforts, both internally and externally.

Priorities for FY 21-22:

The Family Supports team will engage in the following work in support of the 2020-2028 Strategic Plan:

Grantee Oversight

The team administers and oversees thirty-two home visiting Welcome Baby and Select Home Visitation grants. Through the three home visiting program models' clients receive client-centered, strength-based information and support during visits with a focus on positive parenting behaviors and child development and information on key developmental topics. This effort includes overseeing a complex, standardized portfolio that requires cross-team collaboration and a continual focus on program implementation and improvements. This workstream also includes Little by Little/One Step Ahead and the last remaining Baby Friendly Hospital Project, which was included due to a potential no-cost extension.

Home Visiting System Building

The Home Visitation System Building (HVSB) workstream aims to build upon existing infrastructure to develop and sustain the home visiting system while continuing momentum towards the long-term vision of expanding reach and increasing diversity of LA County home visiting programs. Efforts include collaboration to support the Foundation for California Community Colleges' Home Visitation Apprenticeship Project. The First 5

California Home Visitation Coordination funds, which are intended to catalyze coordination and collaboration to yield significant systems change, will support consultation efforts to strengthen cross-sector collaboration between key funders and technical assistance providers at the implementation level and improve integration efforts between the emerging Help Me Grow (HMG) system in LA County and home visiting agencies by building and strengthening referral pathways.

The Family Strengthening Oversight Entity (FSOE) also serves as a critical component of the home visiting system, and aims to ensure coordinated, high-quality services are offered across the system of participating providers. The FSOE also coordinates the Los Angeles County Perinatal and Early Childhood Home Visitation Consortium and participates in county-wide efforts to coordinate, enhance, expand, and advocate for high quality home visiting programs. Additionally, the FSOE partners with LA County Department of Health Services (DHS) MAMA's Visits Home Visiting Program Training and T.A. Support program by providing training and technical assistance.

Optimization

Optimization efforts aim to improve home visiting coordination services and connections to other family-serving systems. Funding is included for engagement of a consultant to support home visiting staff retention and diversity efforts, including equitable African-American enrollment in home visiting.

Evaluation and Data

The evaluation and data workstream serve as a foundational support for the development and expansion of a universal home visiting system. Efforts include the Welcome Baby Virtual Implementation and Outcomes Study, an 18-month longitudinal study to track child/parent outcomes, understand best practices for virtual home visiting, and improve implementation, with consulting evaluation support and guidance from Dr. Deb Daro. The Stronger Families Database represents another critical piece and is utilized by home visiting providers to capture client level data, screenings and program participation information.

Budget Fiscal Year: 2021 - 2022	Status: Proposed

Department	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Family Supports Team	$57,375.00	$1,181,102.00	1958.57%
Benefits	$0.00	$0.00	

GL Code Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Salaries & Wages	$0.00	$774,624.00	0.00%

Description

Social Security Tax	$0.00	$333,178.00	0.00%

Description

Mileage, Parking and Other Transportation	$3,000.00	$1,500.00	0.00%

Description

Provides for cost related to travel for local meetings with partners, contractors and grantees, as well as local trainings and site visits. The cost is based on an estimate of $28/month for 9 staff for 6 months. Monthly allowance to include public transportation, mileage and parking expenses.

Cell Phone & Mobile Devices	$19,800.00	$11,250.00	0.00%

Description

Agency providing cell phone reimbursement to staff, including 9 months of Internet and Cellphone Reimbursement for offsite work due to Covid-19. Given 9 FTEs at $100/per staff member for a total of $900/month for 12 months = $10800. The remaining 3 months includes cell phone reimbursement for 3 FTEs, at $50/month for $900 total. A for July-December 2021, and $50/per staff member Cellphone Reimbursement for 3 staff ($450). Total is rounded off to $11250.

Office Supplies	$4,000.00	$2,000.00	0.00%

Description

Staff receiving supplies delivered to home

Subscriptions & Publications	$50.00	$250.00	0.00%

Description

Funding in the amount of $250 to cover the purchase of resource books as well as journal articles related to the Family Supports portfolio, including early childhood books to expand team's knowledge and access to online periodicals, such as the New York Times.

Internal Meetings	$2,000.00	$2,000.00	0.00%

Description

Provides for expenses related to Family Supports projects. These may include meetings with Commissioners, legal counsel, staff grantees, contractors and other partners.

Consultant Fees	$1,725.00	$5,000.00	0.00%

Description

Fees to cover potential consulting, at $150/hour for up to 33 hours.

Professional Dues	$2,000.00	$1,000.00	0.00%

Description

Provides for staff to be members of professional organizations such as the American Public Health Association.

Airfare	$0.00	$7,000.00	0.00%

Description

Budget of $7K in anticipation of airfare and travel between January-June 2022, including one national and in-state trip per staff member.

Lodging	$0.00	$15,000.00	0.00%

Description

Budget of $15K in anticipation of lodging between January-June 2022, including one national and in-state trip per staff member

Per Diem	$0.00	$5,000.00	0.00%

Description

Budget of $5K in anticipation of travel costs between January-June 2022.

Other Travel Expenses	$0.00	$2,000.00	0.00%

Description

Budget of $2K in anticipation of travel costs between January-June 2022.

Training Materials and Supplies	$800.00	$300.00	0.00%

Description

Funding to training materials/supplies to support project design and implementation for 9 FTE at $30/person, for an approximate total of $300.

Conference/Training Registrations	$13,000.00	$11,000.00	0.00%

Description

Costs include National Home Visiting Summit, registration $350/person for 9 FTEs = $3,150; and training/registration opportunities for 9 FTEs at approximately $300 per registration and three events per FTE, for $7,850. Total is $11,000.

External Education/Training	$11,000.00	$10,000.00	0.00%

Description

Provides for content specific training to increases content knowledge utilized to design and implement projects. Training can be provided on a group or individual basis. Trainings anticipated for 9 FTE at $1,100 per individual, rounded off to a total of $11,000.

Office/Center/Team Name: Communities Team

Authorized Positions:

Position	#
Director	1
Deputy Director	1
Senior Program Officer	5
Program Officer	10
Department (Team) Coordinator	1
Program Associate	1
Total:	**19**

Overview:

The Communities Team focuses on partnering with others to lead and fund systems change activities which promote parent and community engagement to advance efforts that result in families having access to the resources, opportunities, and relationships necessary to optimize their child's development within the 14 Best Start geographies/5 regions. The team:

- connects parent and community voice to advance First 5 LA's systems change goals;
- supports regional alignment and community connections for First 5 LA's work related to early care and education, maternal and child health and early intervention, and home visiting;
- serves as subject matter experts on additional issues which impact family well-being, including food security, the built environment, and economic security.

Consistent with our Strategic Plan, this team leads efforts to leverage our Best Start Networks as platforms for county system change effort, and collaborate with functional leads within First 5 LA to inform the prioritization of organization-wide efforts related to regional work within LA County including communications, research and data, learning, and public policy. The Communities Team is part of the Center for Child and Family Impact.

Priorities for FY 21-22:

Priority areas of work of the Communities Team for FY 21-22 include:

1. Supporting the Regional Network Grantees (RNGs) and their partners to work with parents/caregivers, community leaders, organizations and other allies to develop broader networks that attract and engage new partners from communities not currently or meaningfully engaged in the Best Start networks, influence stakeholders in the ecosystem to coalesce around prenatal to 5 work, implement actions within the communities' change agendas that address root causes of the systemic issues impacting children and families, and build a structure within the Best Start geographies committed to cohering movements

focused on population level results aligned with one or more of the First 5 LA's long term results for children and families and additional conditions of wellbeing.

2. The Community of Practice (COP) creating a space for RNGs to deepen partnerships, provide updates, share practices, and create a sense of community that inspires ongoing reflection, adaptation, and practice improvements.
3. The coordination of the internal cross-teams, cross-functional Regional Impact Teams to strengthen work in the regions to align with internal efforts, leverage opportunities, effect population results, co-design projects, and advance First 5 LA's Strategic Plan.
4. Influencing public and other local systems by staff developing and strengthening intentional relationships of support and collaboration among public systems; community-based organizations; built environment advocates; funders; and other partners committed to improving results for children P-5 and their families within Best Start geographies.
5. Implementing the Best Start Learning Agenda (BSLA), by hiring a contractor to serve as a strategic thought partner, primary architect and implementor of the Best Start Learning Agenda. The approach is expected to leverage existing research and learning efforts and strengthen First LA's learning alongside our partners, grantees, contractors, and community members. The BSLA learning efforts will deepen First 5 LA's and its partners' understanding of how community-led systems change emerges through stronger networks, and how community-led efforts support movement building that shifts mental models, policies, and practices that create better "places"—structures, systems, and environments—for young children and families.

Budget Fiscal Year: 2021 - 2022	Status: Proposed

Department	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Communities Team	$82,600.00	$2,411,538.00	2819.54%
Benefits	$0.00	$0.00	

GL Code Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Salaries & Wages	$0.00	$1,715,218.00	0.00%

Description

Social Security Tax	$0.00	$604,920.00	0.00%

Description

Mileage, Parking and Other Transportation	$3,000.00	$4,000.00	0.00%

Description

Provides for expense reimbursement for up to 19 staff that use their private vehicles and ride-share services in the course of conducting commission business. While the FY 2021 mid-year projection was $3,000, the original budget allocated for FY 2021 was $8000. Staff is projecting a $1,000 increase to the mid-year adjustment of $3,000 as we anticipate staff returning to the office in 2022. During FY 2021-2022, Communities Team will participate in external meetings and events beginning in 2022. Communities Teams staff have increased responsibilities around stakeholder engagement and networking to leverage resources within the 14 Best Start geographies (e.g. county departments, local foundations, etc.) Monthly mileage and parking reimbursements can range from $10-$400 depending on the distance driven. For example, staff that work in the Antelope Valley generally have higher mileage reimbursements due to the distance from the First 5 LA office. All expenses will adhere to First 5 LA's Policy for Travel Approval and Reimbursement. Following public health guidance, this line item has been reduced from FY 20-21 to account for less travel and participation in virtual meetings for the first six months of the fiscal year.

Cell Phone & Mobile Devices	$29,400.00	$22,800.00	0.00%

Description

Per First 5 LA's Mobile Device Policy, eligible staff who are required to be accessible while working outside of the office or during after-hours, are provided a monthly reimbursement of $50 for use of his/her/their personal mobile device. Cell phone reimbursements will be paid up to 19 full-time staff. Due to the cell phone and internet reimbursements provided agency wide, this reflects 12 months of both cell phone and internet reimbursement at $100 a month for 19 full-time staff reimbursements.

Educational Supplies	$1,000.00	$1,000.00	0.00%

Description

Provides for expenses such as books, videos, and other educational resources related to enhancing staff core capabilities to conduct place-based work and individual professional development. Books will be purchased for the Communities Team Resource Library and individual staff use.

Office Supplies	$5,000.00	$6,000.00	0.00%

Description

Provides for consumable office supplies for the team. As the full team continues to work remotely, the individual expenses per employee may include ink, toner, paper, etc. and will vary in frequency, use, and cost. The $1000 increase from FY20-21 is due to the Teams current burn rate and supplies needs.

Subscriptions & Publications	$3,500.00	$1,900.00	0.00%

Description

Provides resource for subscriptions to publications, such as the Stanford Social Institutional Review ($39.95/year), Slido ($800/year), to support the Team programmatic work.

Equipment Repairs & Maintenance	$1,000.00	$1,000.00	0.00%

Description

Provides for expenses primarily related to the ongoing maintenance required for the Team's interpretation equipment (i.e., head sets and receivers).

Internal Meetings	$7,500.00	$14,000.00	0.00%

Description

Provides for expenses related to internal meetings for Team planning, contractor/partner meetings, and internal reflection and learning sessions. These meetings may include external partners such as Commissioners, consultants, and contractors. Meeting expenses may include facility rentals, catering, meeting materials, etc. Due to the physical distancing and other public health guidance, in-person gatherings are anticipated to be on hold for the first six months of the fiscal year. The calculations for this line item considered the potential increase in rates for larger spaces to allow for social distancing and additional insurance costs that are normally affiliated with rentals. Starting in 2022, the Communities Team intends to host internal and external meetings outside of First 5 LA dependent on First 5 LA's policy and public health recommendations. Under the assumption that staff will be able to work fully without restrictions for the last 6 months of FY21-22, the Communities Team will hold approximately 9 meetings/trainings/convenings/workshops/etc. outside of the office.

Estimated breakdown of costs: Venue average of $1,200 (ranges from $100-1,500 a day some not including cleaning fees, venue staff time, set-up fees, security deposits, parking) and lunch cost at an average of $18/person for 19 staff members= $342. $342 + $1,200= $1,542 on average per event for an approximate cost of $14,000 for 9 meetings/trainings/convenings/workshops/etc. (FY19-20 expenses were a total of $14,000. This estimation is based on total costs, not mid-year adjustments).

Consultant Fees	$20,000.00	$20,000.00	0.00%

Description

Provides for consultant support for the Communities Team for facilitation support, content and/or core capability-specific trainings and workshops not covered through anticipated programmatic consultant support. Examples include virtual and in-person facilitation training to increase participant engagement in virtual meetings and guest speakers for brown bags (e.g. digital access in communities). Estimated 130 hours at $150/hour= approximately $20,000.

Professional Dues	$2,000.00	$1,000.00	0.00%

Description

Provides for memberships to content-specific professional associations and learning communities such as American Planning Association. Memberships generally range from $500-$1,000 per year.

Airfare	$0.00	$2,000.00	0.00%

Description

Provides for airfare to and from professional conferences, meetings or business-related trainings outside of Los Angeles area. Examples of anticipated conferences include: Grantmakers for Effective Organizations, First 5 CA and First 5 Association Summits, Southern California Grantmakers, Collective Impact Forum Convenings, the National Family and Community Engagement Conference, Alliance for Strong Families and Communities, National Forum on Place-Based Initiatives, Advancement Project Water Coolers, and Grants Managers Network. Following public health guidance, this line item has been reduced from FY 20-21 to account for no travel and participation in in-person meetings for the first six months of the fiscal year. Approval from the Communities Team Interim Director will be obtained prior to incurring any airfare expenses. All expenses will adhere to First 5 LA's Policy for Travel Approval and Reimbursement.

Lodging	$0.00	$4,000.00	0.00%

Description

Provides for lodging at professional conferences, meetings, or other business-related travel held outside Los Angeles County and greater than 100 miles round trip from the employees' current commute to First 5 LA. Staff attending conferences, meetings, or other business-related activities, support the implementation of the Team's workplans and the FY 2020-2028 Strategic Plan. Examples of anticipated conferences include Grant Makers for Effective Organizations, First 5 CA and First 5 Association Summits, Southern California Grantmakers, Collective Impact Forum Convenings, the National Family and Community Engagement Conference, Alliance for Strong Families and Communities, National Forum on Place-Based Initiatives, and Grants Managers Network. Following public health guidance, this line item has been reduced from FY 20-21 to account for less travel and participation in in-person meetings for the first six months of the fiscal year. Approval from the Communities Interim Director will be obtained prior to incurring lodging expenses and all expenses will adhere to First 5 LA's policy for Travel Approval and Reimbursement.

Per Diem	$0.00	$2,500.00	0.00%

Description

Provides for various daily expenses incurred while attending professional conferences, trainings or meetings outside of Los Angeles County greater than 100 miles round trip from employees' current commute to First 5 LA. Following public health guidance, this line item has been reduced from FY 20-21 to account for less travel and participation in in-person meetings for the first six months of the fiscal year. Per diem expenses will adhere to First 5 LA's policy for Travel Approval and Reimbursement.

Other Travel Expenses	$0.00	$1,000.00	0.00%

Description

Provides for various travel expenses (i.e., ride share, airport parking, taxi cabs, etc.) incurred while attending professional conferences, trainings or meetings outside of Los Angeles County greater than 100 miles round trip from employees' current commute to First 5 LA. Following public health guidance, this line item has been reduced from FY 20-21 to account for less travel and participation in in-person meetings for the first six months of the fiscal year. Other travel expenses will adhere to First 5 LA's policy for Travel Approval and Reimbursement.

Conference/Training Registrations	$10,200.00	$10,200.00	0.00%

Description

Provides for registration expenses for professional conferences that will be held virtually during the first six months of the fiscal year and for those that may resume in-person convenings during the last six months of the fiscal year. Examples include Grantmakers for Effective Organizations, First 5 CA and First 5 Association Summits, Southern California Grantmakers, Collective Impact Forum Convenings, the National Family and Community Engagement Conference, Alliance for Strong Families and Communities, National Forum on Place-Based Initiatives, Advancement Project Water Coolers, and Grants Managers Network. Approval from the Communities Interim Director will be obtained prior to incurring any expenses.

Office/Center/Team Name: Early Care and Education Team

Authorized Positions:

Position	#
Director	1
Senior Program Officer	2
Program Officer	4
Administrative Assistant	1
Total:	**8**

Overview:

The ECE team will work with others to lead and fund systems change activities related to increasing access to high quality early learning experiences for children in LA County with the goal of ensuring all children have high quality early learning experiences before kindergarten. The team will serve as subject matter experts for early learning and care at First 5 LA, and collaborate with functional leads within First 5 LA to inform the prioritization of organization-wide efforts related to early learning including communications, research and data, learning, and public policy.

Priorities for FY 21-22:

The ECE team will engage in the following work in support of the 2020-2028 Strategic Plan:

Quality Support System

The ECE team has several projects that support Quality Start Los Angeles (QSLA). First 5 LA is a member of the governance structure and has authority along with LACOE over system-level model changes that have budget implications and engagement with our statewide partners. The ECE team also directly oversees three non-First 5 LA Proposition 10 funding streams to support the implementation of the QSLA model and the infrastructure of the system. QSLA has recently made refinements to their model to better respond to the needs of family child care.

In addition to QSLA, the ECE team has recently engaged in new work to further support and expand Los Angeles County's quality support system. Through funding from First 5 CA, the ECE team along with our partners are designing the implementation of a Dual Language Learners (DLL) pilot program. This funding will provide training to coaches and providers on working with DLLs, redesign our current professional development to include information on DLLs, and run a communications campaign on the importance of bilingualism. The second stream of work in development is strategies to support home based child care inclusive of family child care (FCC) and family, friend, and neighbor care (FFN). The team is focusing on home based care as First 5 LA fully implements our value of diversity, equity, and inclusion.

[Note: Refer to FY21-22 Programmatic Budget section for more information]

A majority of children are in home based child care settings, and an equitable early learning system must prioritize these settings. The team will launch a landscape analysis of home based child care in Los Angeles. Working alongside our partners, this landscape analysis in addition to an advisory group will inform strategies we will pilot to support home based child care. This pilot will inform further changes and adaptations to the QSLA model.

County Systems Building

The ECE team oversees a number of projects to support the county wide system of early care and education. One of these projects provides resources to the Office for Advancement of Early Care and Education within our county Department of Public Health. This work is also aligned and integrated when possible with QSLA. The ECE team will continue to support the work of the LA County ECE COVID-19 Response Team as we coordinate the support and recovery for our child care system. The ECE team will also support the last year of funding for ECE PAF while working closely with Office of Government Affairs and Public Policy on the design and implementation of a newly integrated Policy Advocacy Fund.

Finally, the ECE team's largest investment is our Kindergarten Readiness Assessment (KRA). The team will support our existing school districts collecting KRA data and the last year of data collection for districts outside our Best Start geographies. Additionally, the team will work closely with the Communities team to determine how and if KRA can support and advance strategies led by the Communities team. This determination will inform future funding for KRA.

[Note: Refer to FY21-22 Programmatic Budget section for more information]

Description

Registration for various professional conferences throughout the year. With more conferences being virtual, they are more accessible and cost effective for staff. $750/FTE

Office/Center/Team Name: Health Systems

Authorized Positions:

Position	#
Director	1
Senior Program Officers	2
Program Officers	4
Administrative Assistant	1
Total:	**8**

Overview:

The Health Systems team will work with others to lead and fund systems change activities related to maternal and child health and access to early intervention services with the goal of ensuring children receive early developmental supports and services. The team will serve as subject matter experts for maternal and child health, early identification and intervention (EII), and health and developmental services systems. Given the team's focus on maternal and child health, First 5 LA's contributions to the LA County African American Infant and Maternal Mortality Prevention (AAIMM) project will be led by the Health Systems Team. The Health Systems team will collaborate with functional leads within First 5 LA to inform prioritization of organization-wide efforts related to Health Systems including communications, research and data, learning, and public policy.

Priorities for FY21-22:
Following is a brief summary of the critical work Health Systems will be leading in FY21-22 in support of Strategic Plan implementation.

- Health Systems will continue to co-lead the implementation of Help Me Grow LA (HMG LA) in partnership with LA County Department of Public Health. HMG LA coordinates existing systems (health, early care and education, mental health, developmental disabilities, child welfare, school districts and community-based organizations) that serve children with or at risk for delays and their families to ensure they receive appropriate intervention services and supports. Key areas of work underway include a pilot with L.A. Care Health Plan to support health care service delivery transformation to strengthen developmental screening and linkage to services. Additionally, HMG LA Pathways, community collaboratives focused on strengthening and expanding early intervention referral pathways within a set geographic region. Lastly, FY21-22 represents our final year of funding for our First Connections initiative, effort will be focused on imbedding key learning in larger HMG LA work and sustaining the care coordination services via partnerships with County departments and Health Plans.

[Note: Refer to FY21-22 Programmatic Budget section for more information]

- Health Systems will continue to co-lead the African-American Infant and Maternal Mortality Prevention (AAIMM) project, in partnership with LA County Department of Public Health. AAIMM designs, supports and implements novel and evidence-based strategies and activities to improve pregnancy, birth and infant outcomes, improve family wellbeing, and decrease health disparities among Black women of reproductive age countywide. Key projects include Cherished Futures, multi-sector collaboratives focused on hospital quality improvement to reduce black infant deaths and improve birthing experience and safety; the AAIMM Innovation Pooled Fund, supporting community-driven/based interventions to reduce toxic stress and improve birth outcomes; and continued strategic communications via a public awareness campaign to improve stakeholder responsiveness and increase resource mobilization.

- As FY21-22 represents full implementation of HMG LA, Health Systems will lead data and evaluation projects to capture key areas of learning and measure our success. Examples include an evaluation of our partnership with L.A. Care Health Plan and our community-based work HMG LA Pathways. Additionally, we will continue to support data collection and analysis via our partnership with LA County DHS' SHARK (Strong, Healthy and Resilient Kids) clinic. This work is focused on demonstrating the effectiveness of a multi-screen approach, general developmental and ACEs (adverse childhood experiences), as well as referral processes.

- In response to ACEs Aware, an initiative of the Office of the California Surgeon General, Health Systems will continue to partner with LA County DHS to guide the planning of their state-funded trauma-informed network of care implementation grant (ACEs LA). This effort is focused on bringing together a group of cross-sector partners including community members that support children and families by providing access to resources and supports that help prevent, treat and heal toxic stress. ACEs LA and HMG LA have many aligned activities including similar partners and will utilize a common IT platform. Strong coordination and engagement between DHS, DPH and Health Systems will continue through FY21-22 to leverage resources and County leadership, minimize programmatic duplication while boosting key community partnerships to better support children's optimal development.

- New work focused on children's mental health is anticipated in FY 21-22 through a pilot project directed at strengthening clinical practice by embedding family-based screening and intervention in the context of the well-child visit. This work includes partnership with high volume pediatric clinics as well as Medi-Cal Managed Care Health Plans to increase billing/reimbursement of Department of Health Care Services (DHCS) recent revision of the family therapy benefit.

[Note: Refer to FY21-22 Programmatic Budget section for more information]

Budget Fiscal Year: 2021 - 2022	Status: Proposed

Department	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Health Systems Team	$34,090.00	$1,132,964.00	3223.45%
Benefits	$0.00	$0.00	

GL Code Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Salaries & Wages	$0.00	$828,831.00	0.00%

Description

Social Security Tax	$0.00	$264,433.00	0.00%

Description

Mileage, Parking and Other Transportation	$1,440.00	$1,000.00	0.00%

Description

Provides for cost related to travel (including parking) for local meetings with partners as well as regional or local trainings and conferences. Also covers the cost of the monthly allowance for public transportation. The amount is based on FY20-21 anticipated expenditures

Cell Phone & Mobile Devices	$14,400.00	$9,600.00	0.00%

Description

Provides for 9-months, $100/month reimbursement to 8 FTEs for use of personal cell phone/wi-fi/internet to conduct First 5 LA business. 8FTE x $100 x 12 = $9600.

Office Supplies	$1,500.00	$1,500.00	0.00%

Description

Provides for general office supplies for 8 FTE for 12 months. This equates to approximately $15/month/FTE.

Subscriptions & Publications	$500.00	$500.00	0.00%

Description

Provides for the purchase of interactive presentations/polling apps and software including Mentimeter ($9.99/month) and Kahoot ($14.99/month). Potential other costs include online productivity services (e.g SmartSheets), journal subscriptions and articles.

Internal Meetings	$3,000.00	$3,000.00	0.00%

Description

Provides for meetings that may include Commissioners, staff, grantees/contractors and stakeholders (e.g Quarterly Medi-Cal Managed Care and County Health Department meetings). Off-site department retreats are also included in this budget category. Anticipated costs include space rental and food.

Consultant Fees	$5,000.00	$5,000.00	0.00%

Description

Provides funding for departmental capacity building and content-specific workshops/trainings not covered through anticipated programmatic consultant support. Consultant hourly rate is $150 x 33 hours = $4,950. Rounded up to 5,000.

Professional Dues	$1,000.00	$1,600.00	0.00%

Description

Provides for staff to be members of professional organizations such as American Public Health Association ($225/person) Collaborative Family Healthcare Association ($230/person), and Infant Development Association of California ($250/person; includes up to 4 staff). 7 FTE (programmatic staff) x $225 =$1,575, rounded up to $1,600.

Airfare	$0.00	$2,500.00	0.00%

Description

Provides for airfare to and from professional conferences or meetings outside of the Los Angeles area. Travel is expected across the state and nationwide for national summits/forums/conferences.

Lodging	$0.00	$5,000.00	0.00%

Description

Provides for lodging at multi-day conferences or meetings outside of the Los Angeles area. Travel is expected across the state and nationwide for national summits/forums/conferences.

Per Diem	$0.00	$2,000.00	0.00%

Description

Provides for various daily expenses incurred while attending professional conferences or meetings outside of the Los Angeles area.

Other Travel Expenses	$0.00	$1,000.00	0.00%

Description

Provides for travel related expenses outside LA County such as airport parking, cab/ride share, train/public transportation.

Conference/Training Registrations	$7,250.00	$7,000.00	0.00%

Description

Provides for registration expenses for professional conferences and specialized in house training and workshops for the Health Systems staff to support the 2020-2028 Strategic Plan activities. Also provides for online and in-person professional development training specific to the Administrative Assistant role on a variety of department support topics. Activities may complement organization-wide training, including focus on development of specific and general content knowledge, as needed. The amount is based on FY20-21 anticipated expenditures. For 8 FTE, that equals $875/staff.

Office/Center/Team Name: Center for Child & Family Impact / Center Support Team

Authorized Positions:

Position	#
Executive Vice President	1
Senior County Strategist	1
Senior Program Officer	1
Executive Assistant to the EVP and Center Coordinator	1
Total:	**4**

Overview:

This overview only covers the 3 staff on the Center Support Team (CST) and the Executive Vice President. It is not meant to capture the overview of the individual teams which is provided in their sections of the budget.

The functions currently organized in what was referred to as the Programs Division will now be called the Center for Child and Family Impact to reflect First 5 LA's continued pivot from an organization primarily focused on developing, funding, and implementing programs to an organization leveraging its expertise and resources to create impact through policy and systems change. The Center will be led by an Executive Vice President responsible for leading this change through the work of our four primary functional area teams:

- Communities Team (Communities)
- Early Care and Education Team (ECE)
- Health Systems (Health) Team
- Family Supports (Families) Team
- Center Support Team (CST)

While these four existing functions will continue to operate as dedicated teams reporting to the Executive Vice President, intentional efforts led by the EVP will continue to focus on the three overarching areas of focus for implementation of the work grounded in the 2020-28 Strategic Plan: (1) further integration and collaboration in our work (both internally and externally), (2) further focus and prioritization of work over the next year, and (3) embracing our value in Diversity, Equity and Inclusion (DEI), imbedding that value in our work. Additionally, the CCFI will focus on the following priorities for FY 21-22

- Building upon our investment in community regional networks to identify community priorities and connection to partners both internal and external;
- Continued development of our relationship with health plans and finding ways to sustain our investments in Welcome Baby and Select Home Visitation;

[Note: Refer to FY21-22 Programmatic Budget section for more information]

- Learning from our partnership with county systems, especially in identifying information and referral pathways for families, and finding ways to align those pathways;
- Examining early care and education settings relied on by diverse families and ensuring our focus is better aligned to the systems (formal and informal) upon which families rely.

While each of the individual teams within the CCFI will lead the implementation of their team priorities, the EVP and 3 direct reports outside of those individual functional teams will compose the Center Support Team. The CST seeks to identify and cultivate partnerships that advance the strategic priorities of the Center for Child and Family Impact. These partnerships will catalyze additional funding for early childhood development and focus on diversifying and sustaining First 5 LA investments. CST will also work across the four functional teams to support internal integration.

Priorities for FY 21-22:

Sustainable Financing – The Center Support Team will continue to build relationships and develop and disseminate content knowledge across CCFI in order to create sustainable financing mechanisms that will support First 5 LA investments and priority areas, focusing primarily on home visiting in FY21-22.

1. *Home Visiting:* CST partners closely with the Family Supports Team to identify and cultivate opportunities to maintain programmatic operations in home visiting as First 5 LA revenue declines, including through Medi-Cal managed care plans, philanthropic opportunities, and legislation such as the Family First Prevention Services Act. In FY21-22, CST will also provide support in finalizing the Medi-Cal County-Based Administrative Activities (CMAA) pilot as resources are re-focused on alternate sustainability strategies.
2. *Medi-Cal Managed Care Plans:* One of the most promising sustainable financing strategies for First 5 LA investments, including home visiting, is through Medi-Cal managed care plans. CST partners with the Family Supports and Health Systems teams to develop strategic partnerships with managed care plans in order to improve care coordination and health-related outcomes for pregnant and parenting people, young children, and their families. Support for these efforts in the FY21-22 budget include funding to create a reimbursement infrastructure for First 5 LA to secure payment and consultation support from health care experts to ensure First 5 LA is maximizing potential revenue.

County and Philanthropic Partnerships -The Center Support Team will build and maintain relationships across County government and philanthropy to catalyze additional investments in early childhood.

[Note: Refer to FY21-22 Programmatic Budget section for more information]

1. *Child Maltreatment Prevention*: CST will continue to build upon the LA County Prevention Plan strengthening our partnership with the Office of Child Protection. CST is supporting the County's implementation of the Families First Prevention Services Act which moves funding upstream to more prevention services. New initiatives like the Thriving Families Safer Children Initiative and the emerging Community Family Resource Center project in the Antelope Valley offer concrete opportunities to build primary prevention supports in Best Start Communities.
2. *Economic/Food Security:* CST serves as a Strategic Liaison for the Center for Strategic Partnerships focusing their economic security strategy towards young children and families.
3. *Supporting Prevention and Early Intervention in Mental Health Systems:* CST manages consultant support to understand the landscape of mental health system financing and drive investments in early childhood supports
4. *Staffing and supporting county and philanthropic collaboratives*: CST provides representation for First 5 LA memberships in Southern California Grantmakers, the Center for Strategic Partnerships, the LA Partnership for Early Childhood Investment, LA N Sync, and other child wellbeing collaboratives.

[Note: Refer to FY21-22 Programmatic Budget section for more information]

Budget Fiscal Year: 2021 - 2022	Status: Proposed

Department	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Center for Child and Family Impact Support	$163,150.00	$832,402.00	410.21%
Benefits	$0.00	$0.00	

GL Code Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Salaries & Wages	$0.00	$591,202.00	0.00%

Description

Social Security Tax	$0.00	$155,350.00	0.00%

Description

Mileage, Parking and Other Transportation	$500.00	$500.00	0.00%

Description
Provides mileage reimbursement and both street and structure parking for 4 staff members when private vehicle is used, as well as covering rideshare fees when traveling for business in the 3rd or 4th quarter of FY 21-22. For budget estimates, the FY 20-21 budget was maintained as an estimate, as we are unsure of the anticipated driving needs once we return to the office.

Cell Phone & Mobile Devices	$5,100.00	$4,800.00	0.00%

Description
Given 4 FTEs, we have 4 x $100 => $400 x 12 months = $4800

Office Supplies	$1,000.00	$1,500.00	0.00%

Description
Provides for general office supply needs and services such as notebooks, pens and printing, for 4 staff members. This line item also includes any supplies or materials for Center wide meetings and retreats.

Subscriptions & Publications	$250.00	$250.00	0.00%

Description
Provides for anticipated purchase of subscriptions and publications such as the Health Affairs Journal ($147/annually), Stanford Social Innovation Review ($39.95/annually) and an additional $60 for miscellaneous subscriptions or publications that are needed and relevant to the work.

Internal Meetings	$1,200.00	$5,300.00	0.00%

Description

Provides for expenses for internal and external Center community and leadership meetings attended and hosted by Center staff in the 3rd or 4th quarter of FY 21-22. Expenses include catering, venue fees and other meeting related expenses. Examples of meetings include the quarterly Medi-Cal Managed care meetings, Home Visiting Leaders meetings, and other meetings with county partners like DCFS, DPSS or OCP. For budget estimates, we reduced the FY 20-21 budget by 50%, for a total of $2,750 and added an additional $500 for anticipated meetings from the Center Support team.

Also provides for expenses for 1 Center off-site meeting/retreat in the 3rd or 4th quarter of FY 21-22, which includes catering for 50 staff at the County reimbursement rate ($17x50=850), and funds for a venue with a $1,200 budget for a total estimated cost of $2,050.

Division Capacity Building	$4,600.00	$35,000.00	0.00%

Description

Provides for center-wide learning sessions and staff development, such as the Center sponsored learning series. Anticipated costs include transportation, materials and honorariums for speakers.

The funds that were previously housed under external education/training are being moved to this line item as they both relate to Center capacity building. These funds will also be utilized for Center staff professional development and training. Previous examples include the Qualitative Data Camp and Facilitation tranining. A potential training for FY 21-22 is Human Centered Design.

Consultant Fees	$139,000.00	$25,000.00	0.00%

Description

Provides funds for anticipated needs for technical assistance from consultant work for the Center. In past fiscal years, this fund has been used to support the work of consultant fees for Gina Airey, who assisted in developing and implemented the Programs Division Business Plan. Gina Airery's contract composite rate was $150 per hour. While the procurement guidelines may be changing, using the current guidelines, this anticipated contract would use a composite rate of $150 per hour, for a total of 166 hours, with some potential flexibility for the funds to be distributed for travel, business supplies etc.

Airfare	$0.00	$3,000.00	0.00%

Description

Provides for airfare for staff members to attend external meetings or events in the 3rd or 4th quarter of FY21-22. As the previous budget was primarily used by the SVP, for budget estimates, the FY 20-21 budget was reduced by 50% to $1,500. For the remaining 2 staff, we estimated $750 x 2 = $1500, to provide airfare for at least one non-local conference at $500, and an additional $250 for potential travel to external meetings.

Lodging	$0.00	$3,000.00	0.00%

Description

Provides for lodging expenses for three staff to attend external meetings or events in the 3rd or 4th quarter of FY21-22. For budget estimates, the FY 20-21 budget was reduced by 50% = $1,500. As the previous budget was primarily used by the SVP, we estimated $1,500 x 3 staff = $3,000.

Per Diem	$0.00	$1,500.00	0.00%

Description

Provides for per diem for the 3 staff members to attend external meetings or events in the 3rd or 4th quarter of FY21-22. As per diem varies and is not always associated with a conference, and therefore is not tied to the conference funding balance, the budget estimate is $500 per person.

Other Travel Expenses	$0.00	$1,500.00	0.00%

Description

Provides for other travel expenses for the 3 staff members to attend external meetings or events in the 3rd or 4th quarter of FY21-22. Expenses may include rideshare/taxi fees, parking structure fees, internet fee or other expenses that do not fit into other travel categories. For budget estimates, the FY 19-20 budget was reduced by 50% = $500. As the previous budget was primarily used by the SVP, we estimated $500 x 3 staff = $1,500.

Conference/Training Registrations	$1,500.00	$4,500.00	0.00%

Description

Provides registration expenses for business conferences, events and/or professional development for the Senior Vice President, this includes virtual events while teleworking. These funds are being increased from FY 20-21, as $1,000 from leadership programs are being allocated into this line item for potential professional development fees for the Senior Vice President. Additionally, some funds will be allocated for local events, conferences, or professional development for the Executive Assistant.

An additional $3,000 provides for conference registration fees for 2 staff members to attend 1 non-local conference in the 3rd or 4th quarter of FY 21-22, and at least 1 local and/or virtual conference or series of events. Each staff member has an allocation of $1,500.

Office/Center/Team Name: Executive Director's Office

Authorized Positions:

Position	#
Executive Director	1
Chief of Staff	1
Manager, Organization Engagement	1
Manager, Board Relations	1
Executive Assistant to the Executive Director	1
Executive Administrative Assistant	1
Total:	**6**

Overview:

The organization's senior executive, the Executive Director, leads the entire organization with the support of members of the Executive Director's Office, including an Executive Assistant. Led by a Chief of Staff, the Executive Director's Office responsibilities include:

- Board relations and administration, led by a Board Relations Manager and an Executive Administrative Assistant. Key Board relations responsibilities include managing all aspects of Board meetings, supporting the needs of Board members, coordinating compliance with First 5 LA bylaws and governance guidelines, and managing First 5 LA's contract for legal services.

- Organization engagement and communication, led by an Organization Engagement Manager. Key organization engagement responsibilities include developing and coordinating staff meetings, collaborating with others to improve staff access to critical information, promoting effective organization-wide information sharing, and supporting more effective organization-wide communication, integration and alignment.

- Leadership team coordination, led by the Chief of Staff. In addition to the Executive Director, First 5 LA is led by a Leadership Team comprised of the heads of each Center, Office, and Team, and the Executive Director's Office is responsible for coordinating Leadership Team engagement.

While the Executive Director's Office is responsible for coordinating and managing these core organization-wide activities, all work related to Board relations, organization, and Leadership Team engagement is done through organization-wide collaboration and a focus on diversity, equity, and inclusion.

[Note: Refer to FY21-22 Programmatic Budget section for more information]

Priorities for FY 21-22:
In addition to engaging with all Centers, Teams, and Offices to advance implementation of the Strategic Plan organization-wide, the Executive Director's Office will lead the following work in FY 21-22:

- Managing, executing, and seeking opportunities to improve Board of Commissioner meetings and strengthen Board governance.

- Ensuring First 5 LA compliance with the organization's bylaws and applicable rules and regulations. Specifically, in FY 21-22 First 5 LA will re-procure legal services for the Commission and continue to execute processes to support Commissioner compliance with state and county ethics rules and Board-approved governance guidelines.

- Developing an organization-wide engagement strategy focused on improving internal communication and information sharing, increasing the effectiveness of staff and Leadership Team meetings, and creating opportunities for staff to inform, shape, and develop greater ownership over First 5 LA's work

- Coordinating continued efforts to implement changes and refinements to First 5 LA's structure to best support implementation of the Strategic Plan, including the development of cross-functional teams and clarification of staff roles and responsibilities

- Coordinating First 5 LA's continued response to COVID-19, including efforts to prepare for the organization's ability to return to onsite work and the adaptation of policies and practices building upon lessons learned during the pandemic

- Identifying and facilitating opportunities for cross-functional collaboration and the development of organization-wide strategies and processes to advance First 5 LA's work

[Note: Refer to FY21-22 Programmatic Budget section for more information]

Budget Fiscal Year: 2021 - 2022	Status: Proposed

Department	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Executive Directors Office	$481,200.00	$1,521,446.00	216.18%
Benefits	$0.00	$0.00	

GL Code Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Salaries & Wages	$0.00	$919,663.00	0.00%

Description

Social Security Tax	$0.00	$302,833.00	0.00%

Description

Mileage, Parking and Other Transportation	$2,000.00	$1,000.00	0.00%

Description

Provides for mileage reimbursement and parking expenses when private vehicles are used in the course of conducting Commission business.

Cell Phone & Mobile Devices	$10,200.00	$7,200.00	0.00%

Description

Provides for reimbursement of cell phone charges and internet costs for 6 staff for 12 months. $600 X 12 months = $7200.00.

Office Supplies	$4,000.00	$3,000.00	0.00%

Description

Provides general office supplies for the office's staff.

Miscellaneous/Contingency	$50,000.00	$50,000.00	0.00%

Description

Funding for unforeseen organizational expenses.

Internal Meetings	$12,000.00	$6,000.00	0.00%

Description

Provides for expenses related to meetings attended by Commissioners, legal counsel, staff and guests.

Legal Fees	$150,000.00	$225,000.00	0.00%

Description

The Executive Director's Office holds the organization-wide contract for legal counsel. The proposed increase in legal services budgets reflect two primary changes from Fiscal Year 2020-21:

1) Shifting the existing budget ($65,000) for lobbying compliance legal services from the Office of Government Affairs and Public Policy to the Executive Director's Office to align all legal services funding in one budget.

2) Increasing funding ($10,000) for legal services to support priority work related to federal Health Information Privacy laws (HIPAA) anticipated in priority Health Systems and Family Supports sustainability and partnership work. The total anticipated scope and cost of the HIPAA-related legal work is unclear at this point, and further adjustments may be necessary during the mid-year budget process to account for these costs.

Airfare	$0.00	$2,000.00	0.00%

Description

Provides funding for airfare to and from professional conferences outside of the Los Angeles area.

Lodging	$0.00	$1,500.00	0.00%

Description

Provides for lodging at multi-day professional conferences outside of the Los Angeles area.

Per Diem	$0.00	$1,000.00	0.00%

Description

Provides for various daily expenses incurred while attending professional conferences outside of the Los Angeles area.

Other Travel Expenses	$0.00	$250.00	0.00%

Description

Provides for miscellaneous expenses when staff is traveling outside of Los Angeles County on First 5 LA business. Expenses may include tax, UBer, Lyft and other travel expenses that do not fit into other travel cost categories.

Conference/Training Registrations	$3,000.00	$2,000.00	0.00%

Description

Provides for registration expenses for professional conferences and/or seminars.

Office/Center/Team Name: Office of Data for Action

Authorized Positions:

Position	#
Chief Data Officer	1
Data Strategy Manager	3
Data Strategy Specialists	3
Total:	**7**

Overview:

The Office of Data for Action (ODFA) provides organization-wide expertise in measurement, evaluation and data-related endeavors. ODFA is responsible for:

- Advancing an organization-wide data strategy across all teams, including the Center for Operational Excellence, functional Offices, and the Center for Child and Family Impact. The Data Strategy will be inclusive approaches to addressing prioritized data needs as well as strategies to promote dissemination and use including a dashboard.

- Providing leadership for the ongoing alignment, refinement and implementation of the Impact Framework to support the implementation of the Strategic Plan. Additionally, the office will regularly produce and disseminate indicator reports and other products related to the Impact Framework to engage our staff and partners in understanding our impact.

- Providing technical assistance for First 5 LA's research, evaluation and data needs, such as advising on methodology, assessing the quality of research and data proposals and plans, and supporting adherence with regulations, standards, and policies related to data ownership, privacy, accessibility and quality.

- Managing data and research investments that support the entire organization.

Priorities for FY 21-22:
Following is a brief summary of the critical work the Office of Data for Action will be leading in FY 21-22 in support of Strategic Plan implementation.

- ODFA will lead the development of a Data Strategy that articulates First 5 LA's prioritized data needs, grounded in the Strategic Plan, and the approaches we will use to address them. Since the Data Strategy will be informed by internal and external stakeholders, engagement to solicit input and feedback will be integral to the process.

- In response to emergent needs from the Data Strategy as well as needs that have already been identified (e.g., HIPAA compliance), ODFA will begin to establish a data governance infrastructure inclusive of data-related policies and practices that will facilitate access to high quality data.

[Note: Refer to FY 21-22 Programmatic Budget section for more information]

- ODFA will lead the continued development and refinement of the Impact Framework. The emphasis in FY 21-22 will be refining and measuring short-term markers of progress (STMPs), updating result and contextual indicator data where possible based on the availability of new data, and identifying indicators to measure and track organizational performance and culture.

- Through the ASSIST project, ODFA will lead the development on an infrastructure for the effective delivery of technical assistance to staff across the organization. The infrastructure will address things such as requesting support, determining what's needed to fulfill request, assessing the capacity to provide support, and mechanisms to deliver and track support.

- ODFA will lead the Annual Reporting process to First 5 California. Additionally, we enable local use of the data by developing a brief that highlights how Proposition 10 funds have been used in L.A. County and the children, family, communities and providers served by the agencies and systems we support. Success stories will facilitate organizational learning and reflection and will be available to spur communication efforts.

- ODFA will lead data partnerships with the Children's Data Network, Public Health Foundation Enterprise (PHFE) WIC and the L.A. County Office of the Chief Information Office. These data partnerships support our systems change efforts, provide data for the Impact Framework and will ultimately be aligned with the Data Strategy. Additionally, depending on the needs of the Data Strategy we may also initiate new data partnerships.

[Note: Refer to FY 21-22 Programmatic Budget section for more information]

Benefits	$0.00	$0.00	

GL Code Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Salaries & Wages	$0.00	$808,503.00	0.00%

Description

Social Security Tax	$0.00	$204,265.00	0.00%

Description

Mileage, Parking and Other Transportation	$1,000.00	$700.00	0.00%

Description

Provides for expense reimbursement for up to seven staff that use their private vehicles and ride-share services in the course of conducting commission business during the last two quarters of the fiscal year. Monthly mileage and parking reimbursements fluctuate based on the distance driven. All expenses will adhere to First 5 LA's Policy for Travel Approval and Reimbursement. Following public health guidance, this line item accounts for less travel and participation in virtual meetings for the first two quarters of the fiscal year.

Cell Phone & Mobile Devices	$5,400.00	$8,400.00	0.00%

Description

Per First 5 LA's Mobile Device Policy, eligible staff who are required to be accessible while working outside of the office or during after-hours, are provided a monthly reimbursement for use of his/her personal mobile device. Cell phone reimbursements will be paid at $100 per month for up to seven full-time staff for twelve months.

Office Supplies	$1,000.00	$700.00	0.00%

Description

Provides for consumable office supplies for the department at an estimate of $100 per year per employee.

Subscriptions & Publications	$1,000.00	$500.00	0.00%

Description

Provides resource for subscriptions to publications, such as the American Journal of Evaluation, Evaluation Review, Qualitative Research and Qualitative Inquiry.

Internal Meetings	$6,000.00	$6,000.00	0.00%

Description

Provides for expenses related to quarterly ODFA retreats as well as internal meetings with other teams in the organization for collaborative planning, sensemaking and data utilization. Additional resources are included for up to four external speakers at $500 each. The honorarium amount is based on historical expenditures for similar staff engagement opportunities. Meeting expenses may include facility rentals, catering, meeting materials, etc. Following public health guidance, this line item accounts for virtual meetings for the first two quarters of the fiscal year.

Consultant Fees	$15,000.00	$20,000.00	0.00%

Description

Provides for a consultant to design, plan, facilitate, document and support action items related to quarterly ODFA retreats. The goal of these retreats is reflection, recalibration and short- and long-term planning in support of organizational and ODFA-specific goals and priorities. Funds are projected for approximately 130 hours or just over 30 hours for each of the four meetings at an hourly rate of $150.

Professional Dues	$1,500.00	$945.00	0.00%

Description

Provides for membership to the American Evaluation Association. Membership is $135 per person per year for up to seven staff.

Airfare	$0.00	$4,000.00	0.00%

Description

Provides for airfare to and from professional conferences, meetings or business-related trainings outside of Los Angeles area. Examples of anticipated conferences include: American Evaluation Association, The Evaluator’s Institute, Grantmakers for Effective Organizations, First 5 CA and First 5 Association Summits. Approval from the Chief Data Officer will be obtained prior to incurring any airfare expenses. All expenses will adhere to First 5 LA's Policy for Travel Approval and Reimbursement. Following public health guidance, this line item accounts for less travel and participation in virtual meetings for the first six months of the fiscal year.

Lodging	$0.00	$4,200.00	0.00%

Description

Provides for lodging at professional conferences, meetings, or other business-related travel held outside Los Angeles County and greater than 100 miles round trip from the employees’ current commute to First 5 LA. Examples of anticipated conferences include American Evaluation Association, Grantmakers for Effective Organizations, First 5 CA and First 5 Association Summits. Approval from the Chief Data Officer will be obtained prior to incurring lodging expenses and all expenses will adhere to First 5 LA's policy for Travel Approval and Reimbursement. Following public health guidance, this line item accounts for less travel and participation in virtual meetings for the first six months of the fiscal year.

Per Diem	$0.00	$1,400.00	0.00%

Description

Provides for various daily expenses incurred while attending professional conferences, trainings or meetings outside of Los Angeles County greater than 100 miles round trip from employees’ current commute to First 5 LA. Following public health guidance, this line item accounts for less travel and participation in virtual meetings for the first six months of the fiscal year. Per diem expenses will adhere to First 5 LA's policy for Travel Approval and Reimbursement.

Other Travel Expenses	$0.00	$1,000.00	0.00%

Description

Provides for various travel expenses (i.e., ride share, airport parking, taxi cabs, etc.) incurred while attending professional conferences, trainings or meetings outside of Los Angeles County greater than 100 miles round trip from employees' current commute to First 5 LA. Following public health guidance, this line item accounts for less travel and participation in virtual meetings for the first six months of the fiscal year. Other travel expenses will adhere to First 5 LA's policy for Travel Approval and Reimbursement.

Training Materials and Supplies	$0.00	$500.00	0.00%

Description

Provides for expenses such as books, videos, and other educational resources related to enhancing staff core capabilities in measurement, evaluation, data visualization, data-driven decision-making, adult learning, organizational performance, and/or individual professional development.

Internal Training	$3,000.00	$10,000.00	0.00%

Description

Provides for resources for two virtual or onsite trainings at $5,000 per training. The amount is based on historical expenditures for similar staff learning opportunities on highly technical subject matter. Following public health guidance, internal trainings are anticipated to be fully virtual in the first two quarters of the fiscal year.

Conference/Training Registrations	$6,000.00	$7,000.00	0.00%

Description

Provides for registration expenses for professional conferences. Examples include American Evaluation Association, Grantmakers for Effective Organizations, First 5 CA and First 5 Association Summits. Conference fees range from $200-$875 per registration. Webinars and peer learning circles can range from $25-$75 per participant. Approval from the Chief Data Officer will be obtained prior to incurring any expenses. Following public health guidance, this line item accounts for less travel and participation in virtual learning opportunities for the first six months of the fiscal year.

External Education/Training	$6,000.00	$7,000.00	0.00%

Description

Provides for registration expenses for Technical skills training for 7 FTEs at $1,000 each. Examples include Claremont Graduate University Professional Development Series and The Evaluator's Institute. Approval from the Chief Data Officer will be obtained prior to incurring any expenses. Following public health guidance, this line item accounts for less travel and participation in virtual learning

Office/Center/Team Name: Office of Communications

Authorized Positions:

Position	#
Chief Communications Officer	1
Communications Manager, Strategic Initiatives	1
Communications Manager, Marketing Strategies	1
Communications Manager, Stakeholder Strategies	1
Graphic Designer	1
Digital Content Specialist	1
Communications Specialist	1
Writer & Editor	2
Administrative Assistant	1
Total:	**10**

Overview:

The Office of Communications provides organization-wide communications and marketing strategies with expertise in changing norms, attitudes, behaviors and beliefs to positively impact the futures of young children and families in Los Angeles County by advancing First 5 LA's 2020-28 Strategic Plan. The Office of Communications is responsible for:

- Building public will essential to lasting and equitable change within systems of services, such as early education and health care systems. The Office of Communications' strategy is executed by its teams responsible for Strategic Communications, Strategic Partnerships, Marketing Strategies, respectively focused on impact through story sharing; to build capacity within newsrooms; audience reach, engagement and influence through traditional and digital media platforms; and coordination of internal and external stakeholder communications.

- Creating urgency to address issues and improve conditions impacting early childhood development by engaging, educating, and influencing decision makers including parents and caregivers; state policymakers, local elected offices, and community and county agencies; and leaders across business, community and higher education institutions.

- Providing branding expertise and building program-focused communications strategies in partnership with knowledge experts within our Centers, Offices and Teams to execute interlocking tactics that deliver effective and consistent external-facing documents, key messages, issue-driven campaigns, and related efforts aligned to the 2020-28 Strategic Plan.

[Note: Refer to FY21-22 Programmatic Budget section for more information]

Priorities for FY 21-22:

- Contribute communications expertise to further advance priorities of the Center for Child & Family Impact teams and Office teams by deploying targeted communications tactics, including reaching and engaging target audiences, with an emphasis on “hard-to-reach” communities. This emphasis is in consideration of digital divide factors, public relations, content creation and storytelling, as well as social media and digital marketing to amplify with urgency the stories of young children and their families.

- Build on past strategic partnerships by directing investments to fund organizations and news outlets that will create more robust capacity to report on early childhood development issues. For example, intensify coverage of the importance and urgency for young children to receive access to developmental screenings and lift-up systems change efforts with the launch of Help Me Grow LA in FY21-22, aligning with Health Systems Team and partners at the Department of Public Health.

- Conduct audience research and analysis on the attitudes and beliefs of the general public and parents on early childhood development that will be used to shape public will-building efforts. Targeted audience research will also support specific issue-based campaigns in partnership with Center for Child & Family Impact teams and Office teams to align priorities and combine research efforts.

- Contribute communications expertise to further advance the priorities of the Office of Government Affairs & Public Policy. Development of “issue-specific” campaigns and engagement efforts will target key stakeholders and general public in an effort to build understanding of the critical need and opportunity to support the healthy development of young children with a “whole family, whole child” framing in funding, policy and practice decisions.

- Apply strategic marketing expertise to reach, engage and influence the public, parents and community, and catalyze changes in behavior – such as reaching new and expectant parents to normalize the use of Home Visiting, defining “quality” for parents seeking childcare, and explaining to key stakeholders and the public how children under the age of the 5 are a “special population” that should be prioritized in budget and policy decisions. Examples of this work deployed in partnership, collaboration and consultation with Center for Child & Family Impact teams and Office teams include campaigns to support countywide African American Infant and Maternal Mortality initiatives and the launch of Help Me Grow LA in partnership with the Health Systems team.

[Note: Refer to FY21-22 Programmatic Budget section for more information]

Budget Fiscal Year: 2021 - 2022	Status: Proposed

Department	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Office of Communications	$85,708.00	$1,400,105.00	1533.58%
Benefits	$0.00	$0.00	

GL Code Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Salaries & Wages	$0.00	$993,548.00	0.00%

Description

Social Security Tax	$0.00	$316,652.00	0.00%

Description

Mileage, Parking and Other Transportation	$2,000.00	$3,000.00	0.00%

Description
The Mileage & Parking Expense budget is based on an average annual per-person reimbursement of $300 for a 10 person department, for a total of $3,000.

Cell Phone & Mobile Devices	$11,200.00	$12,000.00	0.00%

Description
Cell Phones and Mobile Devices is estimated at $9,000 (i.e., Given 10 FTE's, we have 10 x $100 = $1000 x 12mo = $12,000).

Office Supplies	$6,000.00	$6,000.00	0.00%

Description
The general office supplies budget is estimated at $3,000 for a team of 10 - averaging about $250 a month for the entire team based on historical average monthly spending. An additional $3,000 is being factored in to cover costs of specialty items for the design team to cover the cost of design work for the entire organization - including sprays/adhesives, foam boards, mounting materials, cutting supplies and mats, special inks, specialty papers of various sizes, batteries, such as headphones, phone headsets, podium, microphones, lighting equipment, electronic storage devices, miscellaneous electronic accessories, and other supplies as needed for photo shoots.

Subscriptions & Publications	$7,200.00	$9,597.00	0.00%

Description

Anticipated costs for Subscriptions and Publications are estimated at $9,597 for FY 21-22 to cover subscriptions to the following print and electronic publications:
1. LA Times ($136/ 8-weeks) - $952
2. New York Times ($17/month) - $204
3. SJ Mercury News ($9.95/month) - $120
4. Washington Post ($10/month) - $120
5. Education Week ($19/month) - $228
6. Grammarly ($140/yr/user) - $450
7. Wall St. Journal ($111/6 months) - $222
8. Associated Press Stylebook Online (7 users) - $200
9. Full Contact - $60/yr - $60
10. The Imprint ($7.95/month) - $96
11. Harvard Business Review ($10/month) - $120
12. Sacramento Bee ($160/year) - $160
13. The Atlantic ($50/year)
14. The New Yorker ($50/year) - $50
15. PRWeek ($380/year) - $380
16. Quartz ($74.99/year) - $75
17. Adobe Creative Cloud Software Suite ($52.99/month) (2 users) - $1272
18. MailChimp ($280/month) - $3360
19. IStockPhoto ($350/year) - $350
20. Amazon Prime ($130/year) - $130
21. Trello ($719/year) - $719
22. GTranslate ($279/year) - $279

Offsite Storage	$9,000.00	$9,000.00	0.00%

Description

Offsite storage unit rent has increased to $657 per month x 12 = $7,884. Currently, we have 3 storage spaces at First 5 LA fully stocked with collateral items that will likely require two additional units if moved offsite. $7,884 x 3 = $23,652. We anticipate these costs will be reduced in FY 21-22 as storage space is consolidated and a RFV for the fulfillment of promotional items is enacted.

Hardware & Software Maintenance	$3,480.00	$3,480.00	0.00%

Description

In FY 21-22 we anticipate spending $3,480 for hardware and software maintenance which includes:
Adobe Creative Cloud software suite ($49.99/user/mth) - $1200 for 2 person design team
AirTable ($10/user/mth) - $600 for 5 person content development team
Cloudflare ($20/mth) - $240
In addition to software subscriptions, $ for parts and maintenance for photography and videography equipment

Internal Meetings	$11,500.00	$11,500.00	0.00%

Description

The proposed amount $11,500 for Internal Meetings is based upon past needs and expenditures which includes room rentals, food and other side-related costs necessary for Communications Department staff training, planning and strategy sessions including $7,500 for 10 half-day strategic planning retreats (10 x $750), $2,000 for 4 quarterly event staff trainings (4 x $500) and $2,000 for 4 convenings of communications workgroups composed of internal First 5 LA staff (4 x $500).

Professional Dues	$3,328.00	$3,328.00	0.00%

Description

The FY 21-22 estimated Dues and Subscriptions budget of $3,328 will cover the costs associated with the monthly online dues for the department's e-newsletter and e-blast needs such as:
MailChimp ($100/mth) - $1200
Dropbox - $100/yr (storage site for videos, photos, etc.)

Training Materials and Supplies	$1,000.00	$1,000.00	0.00%

Description

The proposed amount of $1,000.00 for Training Materials and Supplies is based upon past needs and expenditures for Communications Department staff training, planning and strategy sessions including monthly strategic planning retreats, quarterly event staff trainings and convenings of various communications workgroups, and for books and other publications intended for professional development purposes.

Internal Training	$6,000.00	$6,000.00	0.00%

Description

Funds will be used for training of department staff on the foundational skills required in communications work: marketing, writing, relationship building, branding and reputation, content creation, messaging, and social media engagement. Estimated training cost $2,000-3,500 per session/topic. 6,000 has been budgeted for Internal Training.

Conference/Training Registrations	$20,000.00	$20,000.00	0.00%

Description

In FY 21-22 the Communications Department anticipates spending $20,000 to have staff members attend the conferences such as the ones listed below. The proposed amount is based on average costs for each conference registration, taking advantage of "early bird," and/or nonprofit rates, based on historical information and current research.
1. AMA Nonprofit Marketing Conference - Washington, D.C. (1 staff)
2. Strategic Communications Summit - Washington. D.C. (2 staff)
3. Excellence in Journalism Conference - In State (1 staff)
4. ComNet 2019 - In State (4 Staff)
5. Digital Summit - Philadelphia (2 staff)
6. Content Marketing World - Cleveland, Ohio (2 staff)
7. Internal Communications Best Practices - Chicago, IL (1 staff)
8. PR and Media Relations Summit - New York, NY (1 staff)
9. Strategic Internal Communications Summit - West Coast - In State (2 staff)
10. Speech Writers Conference – Washington, D.C (1 staff)
11. Internal Communications Webinars and Conferences - West Coast - In State
12. Management Conferences (local LA)
13. Society of Professional Journalists conference (1 person)
14. PRSA Public Affairs and Government Summit – Detroit, MI (2 staff)

External Education/Training	$5,000.00	$5,000.00	0.00%

Description

The Communications Department has responsibility for engaging staff across the organization. Funds will be used for training of department staff to establish baseline levels of knowledge around topics relevant to department functions, such as strategic thinking, the ability to source and use relevant data on the best way to communicate with First 5 LA's target audiences, and foundational skills required in communications work: marketing, writing, relationship building, branding and reputation, content creation, messaging, and social media engagement. All professional development within the Communications Department is to support the successful identification, creation, and execution of organization-wide communications strategies. Estimated training cost $2,000-3,500 per session/topic, with particular focus on department leadership. 5,000 has been budgeted for professional development.

Office/Center/Team Name: Office of Equity, Strategy, and Learning

Authorized Positions:

Position	#
Chief Learning Officer	1
Portfolio Manager	4
Executive Assistant/Office Coordinator	1
Total:	**6**

Overview:

The Office of Equity, Strategy and Learning provides organization-wide leadership in strengthening First 5 LA's capacity as a learning organization and aligning strategy, internal operations, and organizational culture to effectively implement the 2020-2028 Strategic Plan. The Office is responsible for:

- Coordinating an organization-wide process for continuing to implement and refine the Strategic Plan, including the process to set organization-wide priorities. This responsibility will support the integration of multiple organization-wide processes into a cohesive approach to planning, prioritization, and implementation.

- Facilitating an organization-wide approach to improving culture and embedding First 5 LA's values within work across the organization, including the development of an equity framework that deepens and sustains First 5 LA's commitment to diversity, equity, and inclusion.

- Developing, articulating, and implementing an organization-wide learning agenda, focused on organizational strategy, culture, and business objectives. This responsibility includes knowledge curation that enables organization-wide knowledge sharing and application for ongoing improvement in the work internally and externally.

Priorities for FY 21-22:
The following is a brief summary of the critical work the Office is leading in FY 21-22 to support of Strategic Plan implementation. The Office of Equity, Strategy, and Learning will:

- Lead efforts to adapt First 5 LA's work planning and resource forecasting approach and processes for FY 22-23 based on learning from FY 21-22. Work planning and resource forecasting will include processes to further focus and prioritize First 5 LA's work to achieve strategic plan goals, identify opportunities for greater alignment and integration across teams, and connect internal operational processes (e.g. contract monitoring and renewals, budget development) to strategic plan implementation.

[Note: Refer to FY 21-22 Programmatic Budget section for more information]

- Support the Office of Data for Action's efforts to refine the Impact Framework to more tightly align with the Strategic Plan. This includes a particular focus on clarifying the long-term systems outcomes, refining the short-term markers of progress towards those outcomes, and prioritizing the work across teams grounded in the Impact Framework.

- Work in collaboration with the Executive Director's Office and Human Resources and Talent Management team to develop an organization-wide learning agenda for strengthening staff leadership capabilities and other competencies critical for achieving operational effectiveness and advancing First 5 LA's systems change work.

- Coordinate efforts across the organization to embed First 5 LA's diversity, equity and inclusion value more explicitly into our internal and external work. This includes working in collaboration with the Executive Director's Office and Human Resources and Talent Management team to support an organizational assessment of strengths and areas of improvement conducted by the Seed Collaborative, the consultant approved by the First 5 LA Board of Commissioners in October 2020.

- Work in collaboration with the Office for Data for Action to develop an infrastructure for the effective delivery of technical assistance. For the Office of Equity, Strategy, and Learning, technical assistance will focus on supporting teams across the organization with team-specific learning efforts, business process improvements, systems change strategy refinements, and integration of First 5 LA's diversity, equity and inclusion value into internal policies and processes as well as external work.

Budget Fiscal Year: 2021 - 2022	Status: Proposed

Department	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Office of Equity, Strategy, & Learning	$0.00	$1,232,647.00	
Benefits	$0.00	$0.00	

GL Code Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Salaries & Wages	$0.00	$471,186.00	0.00%

Description

Social Security Tax	$0.00	$159,361.00	0.00%

Description

Mileage, Parking and Other Transportation	$0.00	$2,000.00	0.00%

Description
Provides for expense reimbursement for up to six staff that use their private vehicles and ride-share services in the course of conducting commission business. Monthly mileage and parking reimbursements fluctuate based on the distance driven. Following public health guidance, this line item accounts for less travel and participation in virtual meetings for the first six months of the fiscal year. All expenses will adhere to First 5 LA's Policy for Travel Approval and Reimbursement.

Cell Phone & Mobile Devices	$0.00	$7,200.00	0.00%

Description
Per First 5 LA's Mobile Device Policy, eligible staff who are required to be accessible while working outside of the office or during after-hours, are provided a monthly reimbursement of $50 for use of his/her personal mobile device. Cell phone reimbursements will be paid up to six full-time staff (6 FTE x $100 = $600 x 12 months = $7200)

Educational Supplies	$0.00	$600.00	0.00%

Description
Provides for expenses such as books, videos, and other educational resources related to enhancing staff core capabilities in change management, adult learning, organizational development, and/or individual professional development. Costs assume $100 per staff for the fiscal year (6 FTE x $100 = $600)

Office Supplies	$0.00	$3,600.00	0.00%

Description
Provides for consumable office supplies for the six staff at an estimate of $600 per year per employee. Anticipated expenditures support staff working from home during the first six months of the fiscal year.

Subscriptions & Publications	$0.00	$250.00	0.00%

Description

Provides resource for subscriptions to publications, such as the Stanford Social Innovation Review ($40 per year) and Harvard Business Review ($180 per year) to learn about research and practice-based approaches and experiences on a range of topics relevant to the Office's work. Costs assume that six staff will share one account per subscription. An additional $30 is included for additional subscriptions to publications that may have relevance for the Office's work over the course of the fiscal year.

Stipend/Honorarium	$0.00	$2,100.00	0.00%

Description

Provides for resources for up to six external speakers at $350 each for organization-wide learning opportunities that deepen staff understanding of the external context in which First 5 LA does its work. The honorarium amount is based on historical expenditures for similar staff learning opportunities. Following public health guidance, this line item accounts for virtual meetings for the first six months of the fiscal year.

Internal Meetings	$0.00	$3,000.00	0.00%

Description

Provides for expenses related to internal meetings for team planning and ongoing reflection as well as organization-wide opportunities such as the Learning Series, which focuses on deepening staff understanding of the external context in which First 5 LA does its work. These meetings may include external partners such as Commissioners, consultants, contractors and community members. Examples of meetings include virtual, on-site, and off-site staff planning sessions, contractor/partner meetings, Learning Series sessions. Meeting expenses may include facility rentals, catering, meeting materials, etc. Following public health guidance, this line item accounts for virtual meetings for the first six months of the fiscal year.

Consultant Fees	$0.00	$567,500.00	0.00%

Description

Costs anticipated to be incurred during the fiscal year associated with two consultant contracts:

1) $168,500 for the Seed Collaborative to design and implement a comprehensive workplan to inform how First 5 LA can best approach diversity, equity and inclusion (including implicit bias) in First 5 LA’s internal policies and practices. This contract crosses fiscal years. Expenditures anticipated in FY 21-22 do not reflect total contract amount.

2) $399,000 for the Center for Collective Wisdom (C4CW) to serve as a thought partner to First 5 LA in its application of tools and practices from C4CW’s Living Collective Wisdom framework in support of ongoing organizational transformation aligned with the 2020-2028 Strategic Plan and Impact Framework.

Professional Dues	$0.00	$1,350.00	0.00%

Description

Provides for membership to the Organizational Development Network, which is professional learning community of organizational development practitioners from around the world who exchange best practices, interact with thought leaders, and share access to leading edge tools and technologies. Membership is $225 per person per year for up to six staff.

Airfare	$0.00	$1,500.00	0.00%

Description

Provides for airfare to and from professional conferences, meetings or business-related trainings outside of Los Angeles area. Examples of anticipated conferences include: Grantmakers for Effective Organizations, First 5 CA and First 5 Association Summits, Southern California Grantmakers, Collective Impact Forum Convenings, Organizational Development Network, and the Othering and Belonging Institute. Approval from the Chief Learning Officer will be obtained prior to incurring any airfare expenses. All expenses will adhere to First 5 LA's Policy for Travel Approval and Reimbursement. Following public health guidance, this line item accounts for less travel and participation in virtual meetings for the first six months of the fiscal year.

Lodging	$0.00	$2,000.00	0.00%

Description

Provides for lodging at professional conferences, meetings, or other business-related travel held outside Los Angeles County and greater than 100 miles round trip from the employees' current commute to First 5 LA. Examples of anticipated conferences include Grantmakers for Effective Organizations, First 5 CA and First 5 Association Summits, Southern California Grantmakers, Collective Impact Forum Convenings, Organizational Development Network, and the Othering and Belonging Institute. Following public health guidance, this line item accounts for less travel and participation in virtual meetings for the first six months of the fiscal year. Approval from the Chief Learning Officer will be obtained prior to incurring lodging expenses and all expenses will adhere to First 5 LA's policy for Travel Approval and Reimbursement.

Per Diem	$0.00	$1,500.00	0.00%

Description

Provides for various daily expenses incurred while attending professional conferences, trainings or meetings outside of Los Angeles County greater than 100 miles round trip from employees' current commute to First 5 LA. Following public health guidance, this line item accounts for less travel and participation in virtual meetings for the first six months of the fiscal year. Per diem expenses will adhere to First 5 LA's policy for Travel Approval and Reimbursement.

Other Travel Expenses	$0.00	$500.00	0.00%

Description

Provides for various travel expenses (i.e., ride share, airport parking, taxi cabs, etc.) incurred while attending professional conferences, trainings or meetings outside of Los Angeles County greater than 100 miles round trip from employees' current commute to First 5 LA. Following public health guidance, this line item accounts for less travel and participation in virtual meetings for the first six months of the fiscal year. Other travel expenses will adhere to First 5 LA's policy for Travel Approval and Reimbursement.

Conference/Training Registrations	$0.00	$9,000.00	0.00%

Description

Provides for registration expenses for professional conferences, webinars, and peer learning circles to support staff in building their knowledge as they develop internal processes, tools, and structures to facilitate ongoing organizational learning and priority setting. Examples of conferences include Grantmakers for Effective Organizations, First 5 CA and First 5 Association Summits, Southern California Grantmakers, Organizational Development Network, and the Othering and Belonging Institute. Conference fees range from $200-$875 per registration. Webinars and peer learning circles – on topics such as organizational culture, using data and analytics to drive decision-making, diversity, equity and inclusion, adult learning, etc. – can range from $25-$75 per participant. Following public health guidance, this line item accounts for less travel and participation in virtual learning opportunities for the first six months of the fiscal year. Approval from the Chief Learning Officer will be obtained prior to incurring any expenses.

Office/Center/Team Name: Office of Government Affairs and Public Policy

Authorized Positions:

Position	#
Chief	1
Senior Policy Strategist	2
Manager, Special Projects	1
Senior Government Affairs Strategist	1
Local Policy Specialist	1
Policy Analyst	2
Government Affairs Strategist	1
Department Coordinator	1
Total:	**10**

Overview:

The functions currently organized in what is referred to as the department of Public Policy and Government Affairs, and functions related to government affairs and advocacy currently organized within the Community Relations and Strategic Partnerships departments, will now be centralized and referred to as the Office of Government Affairs and Public Policy, led by a Chief Government Affairs Officer (Charna Widby). The Office will report to the Executive Director and will focus on core government affairs and public policy functions that must be executed through a centralized team, including lobbying, lobbying compliance, articulating organization-wide public policy change priorities, and developing strong relationships with elected officials. The Office will also lead the policy development and prioritization process in consultation with staff across the organization.

In practice, the Office will:

- Lead direct lobbying efforts at the local, state, and federal levels, including managing any lobbying contract support resources
- Manage any contracts or investments that support organization-wide advocacy efforts, for example First 5 LA's Master Agreement with the First 5 Association and any future integrated Policy Advocacy Funds
- Curate and articulate an annual public policy agenda for First 5 LA reflecting local, state, and federal public policy change goals, informed by organization-wide engagement
- Serve as the primary liaison to the First 5 Association policy committee and the First 5 Association, and First 5 California government relations and policy work
- Cultivate and strengthen any partnerships with cross-cutting external advocacy partners who collaborate with First 5 LA to advance public policy goals, for example business sector advocacy efforts
- Manage First 5 LA's event sponsorships budget, process, and engagement, and develop strategic approaches to increase First 5 LA's impact through its approach to sponsorship o To support this work, the Manager for Special

[Note: Refer to FY21-22 Programmatic Budget section for more information]

Projects (Amelia Cobb), previously reporting to the Vice President of Policy and Strategy and currently reporting on an interim basis to the Directors of Strategic Partnerships and Health Systems, will now report to the Chief Government Affairs Officer

Additional Expectations: While the Office will provide technical assistance and support to staff and execute projects that require subject matter expertise, the expectation is that every team at First 5 LA, as necessary, will have:

- Knowledge of public systems, how public policy impacts First 5 LA results, how to most effectively influence public policy, and how to assess public policy opportunities and set policy priorities
- Knowledge of advocacy in all its forms beyond lobbying that can be used to support policy change as part of a broader systems change strategy
- A clear understanding of where changes to public policy will most contribute to First 5 LA's results and the feasibility of proposed change strategies and priorities
- Knowledge of government ethics rules and First 5 LA's advocacy constraints as a public agency

Priorities for FY 21-22:

Following is a brief summary of the critical work the Office of Government Affairs and Public Policy is leading for FY21-22 in support of Strategic Plan implementation.

- OGAPP will lead development of a plan to establish an integrated Policy Advocacy Fund in partnership with teams across First 5 LA to support policy change activities aligned with First 5 LA's Board-approved Policy Agenda and rules governing public agency advocacy activities.
- OGAPP will develop a strategy for organization-wide sponsorships and partnership-building efforts that will build First 5 LA's reputation as an advocate and trusted source, engage and influence decision makers and stakeholders; and elevate awareness and create urgency on issues affecting young children and their families to help create lasting, equitable change. In support of the 2020-2028 Strategic Plan and refined policy agenda OGAPP will employ a variety of stakeholder engagement strategies and activities to support First 5 LA's advocacy priorities: policy education and advocacy events, engagement efforts with sector groups (e.g., business and grantmaking). In addition, OGAPP will support grantmaking projects and organizational membership with potential partners in an effort to build partnerships that support First 5 LA's strategic plan as well as our programmatic and policy goals. Within this strategy OGAPP will also coordinate and lead First 5 LA's goal for funding conferences and events is to advance the field of early childhood development as part of efforts to further the goals of the 2020-28 Strategic Plan's results areas.
- OGAPP will lead annual refinement of the First 5 LA Policy Agenda and coordination of aligned advocacy tactics to advance priority policy and sustainability issues. First 5 LA invests in key activities to support its policy goals related to family support, health systems, early care and education, and community engagement.

[Note: Refer to FY21-22 Programmatic Budget section for more information]

Budget Fiscal Year: 2021 - 2022	Status: Proposed

Department	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Office of Government Affairs & Public Policy	$66,150.00	$1,416,597.00	2041.49%
Benefits	$0.00	$0.00	

GL Code Name	2020 - 2021 Revised Budget	2021 - 2022 Budget	% Variance
Salaries & Wages	$0.00	$1,049,007.00	0.00%

Description

Social Security Tax	$0.00	$305,290.00	0.00%

Description

Mileage, Parking and Other Transportation	$7,500.00	$500.00	0.00%

Description

This represents a significant reduction from the proposed 2020-21 budget because of telework status. $500 represents a placeholder in case a return to office option is presented in 2021-22. Pre-COVID, the OGAPP would staff frequently travel locally to meetings with state and federal elected officials, including district office meetings, community events, site visits with elected officials, and policy coordination and planning meetings. While staff travel varies by role, on average the department's 8 policy and government relations staff would travel to local meetings at least once per week. Assuming 50 weeks of work in a given year, the Department previously estimated that staff would complete at least 400 trips per year.

Cell Phone & Mobile Devices	$14,400.00	$12,000.00	0.00%

Description

This budget assumes $100/month for 12 months per position. OGAPP will continue to have 10 FTE approved staff position = 12,000

Outside Printing & Publishing	$600.00	$1,000.00	0.00%

Description

Decreases funding by $400 from the approved FY 20-21 budget due to a projected increase of printing costs as not all staff own personal printers and have limited access through fed ex printing. OGAPP has historically needed to use outside printing on a limited-term basis, ranging from $163 to $637 per year. This budget would allow the Department to produce up to five large scale posters ($200 each) or about 558 two-sided color copies at ($1.79 each). Prices based on recent quotes from FedEx.

Educational Supplies	$900.00	$1,000.00	0.00%

Description

Holds FY 20-21 constant with the addition of one staff. OGAPP occasionally purchases supplies to advance the team's knowledge of leading policy research, child development, and various professional development topics. This budget assumes $100 per person for educational supplies (10 staff total), 50% of which will be allocated for professional development and 50% to advance policy work. This maintains the reduction of $300 per person made in FY 19-20 to reflect historic underspending.

Office Supplies	$2,250.00	$2,500.00	0.00%

Description

Holds FY 20-21 funding constant. This budget provides up to $250 per person for office supplies based on spending trends.

Subscriptions & Publications	$10,500.00	$13,600.00	0.00%

Description

We will need this Subscriptions & Publications budget amount for the memberships listed below. Please see below the total sum amount for all of these subscriptions which total $13,527.90.

The Capitol Morning Report: $1,650.00
Govbuddy: $89.95
Harvard Business Review (HBR):$99.00
Stanford Social Innovation Review (SSIR): $49.95
Capitol Track: $2,024.00
Politco Pro: $9,615.00
TOTAL GAPP OPERATING COST: $13,527.90

Internal Meetings	$10,000.00	$7,500.00	0.00%

Description

Decreases by $2,500 or 25% the Office of Government Affairs and Public Policy's budget for internal meetings due to the continued COVID-19 pandemic.
Though the OGAPP has historically spent its full internal meeting budget, due to remote work OGAPP anticipates limited spending for internal meetings during the first half of FY 21-22.

Training Materials and Supplies	$0.00	$1,700.00	0.00%

Description

OGAPP has been developing and providing training workshops to other Offices and Teams around the Policy Agenda priorities, Early Childhood Development, Early Interventions, Brain Development, and Whole Child Whole Family frameworks. Each training costs average $200-$320 for training materials and supplies.

Internal Training	$5,000.00	$7,500.00	0.00%

Description

In lieu of external consultants, the Office of Government Affairs and Public Policy has primarily relied on internal staff to develop team learning and training sessions. OGAPP
occasionally uses external consultants and other resources to support staff learning, and this budget will allow OGAPP to use approximately 50 hours of a consultant's time at First 5 LA's $150 hourly rate cap to support team and professional development.

Conference/Training Registrations	$7,500.00	$7,500.00	0.00%

Description

Reduces spending from 19-20 and continues 20-21 spending levels due to reduced participation in conferences as a result of the COVID-19 pandemic. This budget assumes an average conference registration of $750/person, an increased estimate of $250/person from FY 19-20 due to historic conference cost data, allowing for up to 10 conference
registrations for the full team. Past conferences attended by Policy Department staff include the Social Innovation Summit, Center for Budget Policy and Priorities conference, the First 5 Staff Summit, and the Congressional Latino Caucus Policy Institute.

External Education/Training	$7,500.00	$7,500.00	0.00%

Description

Holds FY 20-21 funding constant for FY 21-22. The Office of Government Affairs and Public Policy plans to help staff develop certain skills associated with individual development goals, such as policy analysis and professional skills for the workplace.
Training costs vary by program. This budget assumes that up to five members of the Policy Department will participate in an external training program at $1,500 per program or the whole department will share a training series around early relational health provider systems.

Office/Center/Team Name: Center for Operational Excellence

Authorized Positions:

Position	#
Chief Operating Officer (COO)	1
Executive Assistant to the Chief Operating Officer	1
Total:	**2**

Overview:

The functions formerly organized in what was referred to as the Administration Division will now be called the Center for Operational Excellence to reflect the critical role these functions contribute to the aspirations embedded throughout the Strategic Plan. This change underscores the focus on First 5 LA's continued commitment to review, refine and improve operational practices foundational to organizational effectiveness and Strategic Plan success. The Center will be led by the Chief Operating Officer (interim COO, Jasmine Frost). In addition to leading the Center for Operational Excellence, the COO will continue to serve as a member of the organization's Senior Leadership Team (SLT). In addition to managing the Center for Operational Excellence, the COO will oversee the operations of the following teams:

- Information Technology Team (IT)*
- Human Resources and Talent Management Team (HRTM) **
- Contract Administration and Purchasing Team (CAP)
- Finance Team (Finance)
- Workplace Management Team

*[Note: during the interim assignment, the interim COO also serves as the director of the IT Team.]

**[Note: during the interim assignment, the HRTM will report directly to the Executive Director.]

Additional Expectations: As outlined above, the Center for Operational Excellence will serve as the functional lead for critical business process improvements, implementation, and oversight necessary to support First 5 LA successfully accomplishing the work in the strategic plan. First 5 LA's Strategic Plan, however, recognizes that improving organizational effectiveness is not owned by any one team, and instead will require:

- Staff across the organization partnering with the Center for Operational Excellence to identify priority business processes, support process and policy

redesign, and consistently implement processes and policies, aligned with First 5 LA's requirements as a public agency
- The Center for Operational Excellence engaging with staff organization-wide to inform further refinements to business process improvements and anticipate necessary changes to policies and processes consistent with the vision of the future work as articulated in the Strategic Plan

Priorities for FY 21-22:

The priorities of the COE are outlined in each of the sections for the individual teams comprising the COE.

In addition, the COO acts as the "executive sponsor" of those projects and priorities for each team. The executive sponsor is charged with communicating project milestones and deliverables with the broader Senior Leadership Team, as well as identifying and resolving any barriers to the COE-led projects or progress towards meeting organizational priorities. This includes effective prioritization of the COE resources to meet the organization's highest priorities.

The role of the Executive Assistant is to assist the COO in the coordination of scheduling, work, and general management of workflow across the COE.

Description

Provides for registration expenses for professional conferences.

Office/Center/Team Name: Contract Administration & Purchasing Team

Authorized Positions:

Position	#
Director	1
Contract Compliance Manager	1
Contract Operations and Purchasing Manager	1
Contract Compliance Officer	4
Contract Operations and Compliance Officer	2
Department Coordinator	1
Total:	

Overview:

The Contract Administration and Purchasing Team (CAP) is supports procurement, contracting, and oversight of the contract management functions necessary for First 5 LA to fulfill its role as a public grantmaker. In addition, the team executes agreements with contractors and grantees to support the organization's operations and implementation of the Strategic Plan. A core objective of the strategic plan is adapting and refining First 5 LA's business processes, and the CAP team will play a critical role in not only managing compliance with existing contract policies and procedures, but leading essential contract-related business process improvement efforts to support First 5 LA's organizational effectiveness. This includes procurement policy and process reforms, standardization of contract monitoring activities, and developing a process for early identification and mitigation of project risks.

Priorities for FY 21-22:
Below is a brief summary of the critical work the Contract Administration and Purchasing Team will be leading in FY 21-22 in support of Strategic Plan implementation.

The CAP department will continue to support the organization's procurement and contracting needs. This includes support needed for the building renovation project. In addition, CAP will also work closely with CCFI and OFDA to support the organization's data sharing needs, data security and privacy, development of monitoring measures and continued partnerships to support sustainability of our investments. The CAP department will continue to lead three critical projects: 1) Procurement Reform Project, 2) Contract Monitoring, and 3) Enterprise Risk Management.

- Under the Procurement Reform Project, we will revise the Procurement policy and associated processes to streamline our processes and support greater efficiency, align to the current structure, orient to policy and systems change work, and promote diversity of our contracted partners.

[Note: Refer to FY 21-22 Programmatic Budget section for more information]

- The goal of the contract monitoring project is to ensure the consistent and standardized monitoring of First 5 LA's contracts across the organization, with the objective of ensuring our vendors, contractors and grantees performance advances the objectives outlined in the agreement. A contract monitoring framework was developed for staff and staff were introduced to a centralized tracking system to track the management of their agreements. In FY 21-22, the project team will continue to support the roll-out of the framework, capture learnings, and develop a sustainment plan.
- The Enterprise Risk Management ("ERM") project will develop a process to help identify and mitigate project risks. The project will also support a standardize way of reviewing project risks prior to initiation of work to aid in decision making using the risks principles tool that was developed in the previous fiscal year. The team will develop a process for wider adoption by the organization, in partnership with the Executive Director's office, and will explore the use of an electronic tool to support implementation.

[Note: Refer to FY 21-22 Programmatic Budget section for more information]

Description

Social Security Tax	$0.00	$365,737.00	0.00%

Description

Educational Supplies	$1,000.00	$500.00	0.00%

Description

For educational supplies like textbooks for courses for staff professional development.

Office Supplies	$3,000.00	$2,500.00	0.00%

Description

Funds will go towards office supplies for up to 9 staff.

Internal Meetings	$1,700.00	$3,400.00	0.00%

Description

Funds will be used for prepackaged snacks to support internal staff trainings provided by the Department throughout the year. In addition, $3,000 has been allocated for a department teambuilding and planning retreat. The funds for the retreat will cover the cost of they facility and meals for the CAP Dept. staff.

Consultant Fees	$208,000.00	$133,600.00	0.00%

Description

Approximately $4,600 will go towards services to support the department with insurance compliance reviews, storage, and tracking. $7,000 is allocated for consultant support for a department teambuilding and planning retreat for the department and any post retreat follow up, if needed. Consultant services include $75,000 for continued support on the Procurement Project and $47,000 for the Enterprise Risk Management Project.

Professional Dues	$3,500.00	$4,000.00	0.00%

Description

Funds are allocated for staff professional dues: 8 NCMA memberships ($160/member) $1,280, NIGP Organization membership at $640, 3 CAPPO memberships ($130/member) $390, and 7 Grammerly memberships ($139.95/member) $979.65. The remaining funds will cover any fluctuations in membership fees in the event that these fees increase.

Training Materials and Supplies	$1,000.00	$200.00	0.00%

Description

Funds will go towards any materials needed for trainings led by the Department throughout the year.

Leadership Programs	$3,500.00	$3,500.00	0.00%

Description

Set aside $3,500 for one staff to enroll in a leadership program to support his/her professional development.

Conference/Training Registrations	$0.00	$1,015.00	0.00%

Description

Virtual conference registration for staff: NIGP Annual Conference for 3 staff for $390, CAPPO Annual Conference for 2 staff for $500 and 1 PEAK Grantmaking conference for $125.

External Education/Training	$5,000.00	$7,100.00	0.00%

Description

Funds are allocated for staff professional development to support their development in procurement and contracting. These include courses through NIGP. Funds include 17 NIGP courses (15 NIGP courses at $310 each, one for $250 and one for $595). This also includes relevant procurement and contracting webinars for staff to attend throughout the year for a total of $1,600

Office/Center/Team Name: Finance Team

Authorized Positions:

Position	#
Director	1
Manager, Finance Planning & Analysis	1
Manager, Accounting	1
Financial Planning & Analysis Analyst	1
Compliance & Audit Analyst	1
Staff Accountant	2
Payroll & Accounts Payable Coordinator	1
Payroll & Accounts Payable Assistant	1
Total:	**9***

***** *The Finance Team shares a Team Coordinator with the Contract Administration & Purchasing (CAP) Team. As First 5 LA does not maintain a practice of allocating staff time, all personnel costs related to the Team Coordinator are included within the CAP Team budget.*

~Authorized positions are not necessarily guaranteed to be filled during the fiscal year.

Overview:

The Finance Team (Finance) is led by the Director (Raoul Ortega). The Finance team supports and oversees financial management and budget development for the organization, as well as the auditing process, accounting, financial analysis, and payroll. As First 5 LA continues to adapt to promote efficiencies, foster integration, and recognize the organization's evolving fiscal environment, the Finance team will provide essential leadership for re-envisioning the organization's business processes to support organizational effectiveness, including the development of responsive and nimble financial management systems.

Priorities for FY 21-22:

- Payroll – responsible for all related payroll activities including bi-weekly payroll processing, retirement and quarterly earnings reporting and annual W-2 preparation, filing and mailing.
- Accounts Payable – responsible for reviewing, verifying, and processing invoices for payment and uploading issued checks and Automated Clearing House (ACH) deposits to the Bank of the West portal.
- General Accounting – Day-to-day recordkeeping and preparation of the monthly financial statements submitted to the Board for their review and approval.

[Note: Refer to FY21-22 Programmatic Budget section for more information]

- Annual Financial Audit – The Finance Team is the lead in our required annual audit and collaborates with the whole organization and our auditors to complete and produce a Comprehensive Annual Financial Report due to the State Controller's Office and First 5 California by November 1st.
- Annual Budget and Mid-Year Budget Adjustment – The Finance Team is responsible for developing First 5 LA's annual budget in collaboration with the whole organization. The budget is presented to the Board for approval each June and a mid-year budget adjustment is prepared each spring for Board approval.
- Long Term Financial Plan (LTFP) – The Finance Team is responsible for developing and creating a five-year forecast to aid in the Commission's financial stewardship role by showing the long-term implications of funding decisions. The forecast includes revenue, Fund Balance, program commitments and estimated expenditure and estimated operating expenses.

[Note: Refer to FY21-22 Programmatic Budget section for more information]

Description

Provides for registration expenses for professional conferences including GFOA annual conference and other professional conferences that staff may attend.

Office/Center/Team Name: Human Resources and Talent Management Team

Authorized Positions:

Position	#
Director, Human Resources and Talent Management	1
Manager, Human Resources and Talent Management	1
HR Generalist	2
Total:	**4**

Overview:

The Human Resources and Talent Management Team provides organization-wide expertise in enhancing employee capabilities, the overall employee experience, and is a strategic thought partner to the Senior Leadership Team. The Human Resources and Talent Management Team is the link between the Organization and its employees and is responsible for the entire employee life cycle, which includes:

- Workforce Planning (Work with executive leadership in identifying and defining roles and compensation)
- Recruitment and Selection (Hire the best qualified applicants)
- Onboarding (Provide overview of First 5 LA, new hire paperwork)
- Performance Management (Employee evaluations and Reward for Performance)
- Talent Management (Attract, develop and retain employees)
- Training (Human Resources and Talent Management specific training and leadership programs)
- Total Rewards (Comprehensive compensation and benefits strategies)
- Employee Engagement (Employee advocate, employee recognition, and guidance)
- Health and Safety (Implement protocols and guidelines to provide a healthy and safe workplace)
- Legal Compliance (Local, state and federal laws, regulations and ordnances, Workers' Compensation)
- Offboarding (Employee separations)

Priorities for FY 21-22:
The following is a brief summary of the critical work the Human Resources and Talent Management team will be leading in FY 21-22 in support of Strategic Plan implementation.

- **Employee Handbook**: In order to work effectively as a cohesive team, it is imperative to have clear, thorough and up-to-date employee policies and procedures, so that every employee understands the expectations of the Organization. A critical priority is updating the Employee Handbook to reflect not only current changes in the laws, regulations, and ordinances but to incorporate lessons learned from mandatory telework into our policies. The Human Resources and Talent Management Team will also be creating a training

workshop for managers and staff to explain key policies and to give staff an opportunity to ask questions.

- **Protocols for Returning to the First 5 LA Building**: In order to provide a safe and healthy workplace when we return to the First 5 LA building, the Human Resources and Talent Management Team will develop and implement COVID-19 protocols and guidelines for employees and visitors. This will also include creating a mandatory training workshop for employees to explain our new COVID-19 protocols and guidelines as well as what measures have been taken to ensure our workplace meets all necessary COVID-19 Orders as established by public health organizations.

- **Injury and Illness Prevention Program**: Another integral component of providing a safe and healthy workplace is an Injury and Illness Prevention Program which helps to identify and fix workplace hazards before an injury or illness occurs. We will be updating our Injury and Illness Prevention Program to reflect the most current rules and regulations. The Human Resources and Talent Management Team will also be creating a mandatory training workshop on the updated program.

bias training.

Office/Center/Team Name: Information Technology (IT) Team

Authorized Positions:

Position	#
IT Director	1
IT Project Manager	1
IT Business Application Support	1
Network Administrator and Service Desk Support	1
Enterprise Content Management Specialist (ECM)	1
IT Helpdesk Specialist	1
Total:	**6**

Overview:

The Information Technology (IT) Team is led by a Director (Jasmine Frost). Technology powers First 5 LA to be an accessible, high-impact and innovative public entity achieving positive outcomes for young kids and their families. The purpose of the Information Technology Department (Team) is to implement a focus-forward vision for First5LA's technology. This vision is built by partnering with all Centers and Teams to reflect the unique role of First5LA as a leader in achieving positive outcomes for young children and families. To do so, the Information Technology Department (Team) provides a broad range of high-quality innovative solutions to our internal customers, commission members, and the community we serve. Through this process, Information Technology Department (Team) fosters an exciting workplace for its team, that inspires high-performance and provides career growth opportunities.

The IT Team provides support for the organization's network infrastructure, cyber security monitoring; helpdesk/ticketing system; project management; phone and mobile systems; internet and wi-fi; hardware and software support; technology replacement, customer support, records retention and data management, technical assistance for audio/visual to support Broadcast of Commission and other public meetings, etc.

In alignment with the Strategic Plan implementation, the IT team will increasingly focus on implementation and the establishment of work to help support prioritization of IT resources, and contribution to organization-wide strategies, including data management and internal communications.

Priorities for FY 21-22:
In addition to providing innovative solutions and support to the organization, the Information Technology Team will lead the following work in FY 21-22.

- **IT Governance Program:** The goal of this program is to develop an IT Governance framework and the establishment of the IT Governance Board (ITGB) to support prioritization of IT resources, and contribution to

[Note: Refer to FY21-22 Programmatic Budget section for more information]

organization-wide strategies, including data management and internal communications.

- **IT Disaster Recovery and Business Continuity (DR/BC)**: This work will include assessing First 5 LA's readiness for IT outages during a disaster that would dramatically affect our ability to operate normally. IT will develop a formal disaster recovery plan, detailing processes to undertake in the event of IT outages. This project will advance Strategic Priority #4: Optimize Our Effectiveness and Short-Term Marker of Progress.

- **Annual Org-wide Records Disposition:** Conduct an annual review of records eligible for destruction based on First 5 LA's Records Retention Schedule, meeting legal and regulatory obligations.

- **The IT related CIP Work:** The IT Team continues to support and partner with the Work Place Management Team towards the completion of the Capital Improvement Plan (CIP) Phase 1 project. The IT team will assist in the technology and audio-video (AV) enhancements to improve the physical space, bringing greater team and organizational-wide collaboration. The CIP project will advance Strategic Priority #4: Optimize Our Effectiveness and Short-Term Marker of Progress.

Internal Meetings	$500.00	$500.00	0.00%

Description

These funds will cover light snacks for department and /or division sponsored training for staff as well as retreat sites and food, and other meeting costs as needed.

Consultant Fees	$500,000.00	$390,000.00	0.00%

Description

Strategic Partnerships (MODIS) - $300,000.
Funding under this item will cover IT staffing and resources needed to cover IT vacancies and or any consulting costs associated with any initiatives identified and approved through the IT Governance process.

Assessment and Analysis - $90,000.
Any initiative related to the SPR4, that may require specialized resources to assist IT with assessment, analysis or implementation. Some of these initiatives may be identified in the Work Planning process, which may be beyond the IT Governance initiatives. These are contingent upon review and approval from the WPRF (Work Planning and Resource Forecasting) SPOT team & the IT Governance Board. Examples include, Disaster Recovery/Business Continuity, Data Development, etc.

Professional Dues	$1,150.00	$2,000.00	0.00%

Description

MISAC Membership - $450
MER conf $1000
TAG Membership - $700

Airfare	$0.00	$600.00	0.00%

Description

Reduced, due to COVID related travel ban

Lodging	$0.00	$1,200.00	0.00%

Description

Reduced, due to COVID related travel ban

Per Diem	$0.00	$500.00	0.00%

Description

Reduced, due to COVID related travel ban

Conference/Training Registrations	$16,500.00	$8,500.00	0.00%

Description

These funds will cover offsite conferences/trainings for IT staff to advance professional development. Examples include Project Management, Local IT conferences, MISAC, ESRI, etc.). There has been a reduction from FY 20-21 due to COVID related travel ban.

Office/Center/Team Name: Workplace Management Team

Authorized Positions:

Position	#
Senior Director of Workplace Management	1
Manager of Operational Excellence	1
Administrative Assistant	1
Total:	**3**

Overview:

The Workplace Management Team is led by a Senior Director (Carl Gayden). Given the emerging criticality of facility management, this position will oversee First 5 LA's facilities operations and planning, including the Capital Improvement Project (CIP). Facility or workplace management has been a critical area impacting organization-wide organizational success, especially in the context of a global pandemic, security threats, a changing climate, and shifting staff and operational needs. First 5 LA has historically contracted for facility management, and while the organization may continue relying on contract support, the Board's commitment to protecting this important asset and recognition of the impact First 5 LA's physical workspace has on organizational effectiveness require intentional leadership.

The work of the Senior Director will continue to be supported by the Manager for Operational Excellence (TaMesha Williamson), whose responsibilities will include supporting cross-cutting initiatives within the Center, like the business process improvement project, and facilitating integration and partnership with teams organization-wide as necessary to advance First 5 LA's strategic plan. Throughout implementation of the new structure and strategic plan, First 5 LA will continue to examine ways to maximize operational excellence for the benefit of the organization.

Priorities for FY 21-22:

The Workplace Management Team, recently established, oversees the Facilities operations/planning and supports operational excellence initiatives. The Workplace Management Team's primary project for FY21-22 is the Capital Improvement Plan (CIP) Phase 1 project. The CIP project will advance Strategic Priority #4: Optimize Our Effectiveness and Short-Term Marker of Progress #42 which is to improve the physical space that reflects updated space planning and building maintenance best practices that promotes greater team and organization-wide collaboration. This work will address the safety and health concerns associated with returning to onsite work after the COVID-19

[Note: Refer to FY21-22 Programmatic Budget section for more information]

pandemic, building foundational needs to maintain our critical asset and building enhancements to improve collaboration, and reflect our newly aligned organizational structure. In addition, the Workplace Management team will be the lead on efforts to ensure our significant asset—our facility—enhances our work both internally and with external partners committed to advancing our mission.

The Manager of Operational Excellence will continue to oversee the project management functions focused on business process improvements for the Center of Operational Excellence. This will include reviewing, refining and improving the operational practices foundational to organizational effectiveness and Strategic Plan success.

[Note: Refer to FY21-22 Programmatic Budget section for more information]

Salaries & Wages	$0.00	$438,512.00	0.00%

Description

Social Security Tax	$0.00	$119,215.00	0.00%

Description

Mileage, Parking and Other Transportation	$750.00	$750.00	0.00%

Description

Provides for mileage reimbursement and parking expenses when private vehicles are used in the course of conducting First 5 LA's business.

Cell Phone & Mobile Devices	$3,000.00	$3,600.00	0.00%

Description

Provides for up to $50 per month for personnel working in the field to cover expenses related to data and messages. An additional 9 months of Internet and Cellphone Reimbursement of $1200 has been added for offsite work due to Covid-19. $100 x 3 staff members = $300 x 12mo = $3600

Office Supplies	$2,500.00	$2,500.00	0.00%

Description

Provides for general supplies for division staff and also scanner cleaning supplies, tape and rubber bands. We anticipate paying for printer ink for the SDA’s home printer and expect to have to replace our general supplies in the office for COVID-19 safety.

Subscriptions & Publications	$1,000.00	$1,133.00	0.00%

Description

The subscriptions are the DBIA template, Grammarly, and RS Means. There are 3 DBIA Templates purchased for the CIP Project to help write our RFQ and RFP for our Design Builder. This will be utilized for Phase 1 and Phase 2 of the CIP. There is a single purchase that is shared between CAP and our contractors for the CIP project. It is a $300 annual subscription. We intend to maintain the purchase and not renew after the subscription date is over.

The Grammarly account is $140 annually for Senior Director of Workplace Management only.

There is a RS Means subscription for $693 annually which is a software that compares how to price different actions for the CIP Project. There is a single purchase that is shared between CAP and our contractors for the CIP project.

Miscellaneous/Contingency	$154,000.00	$154,000.00	0.00%

Description

Funding for anticipated cost due to the current pandemic, COVID-19:
1) $40,000 - for potential additional janitorial expenses related to the rental of our vacant space for the CIP general contractor.
2) $34,000-for potential additional security services and equipment
3) $80,000- for potential additional janitorial services including daily day porter cleaning services, additional nightly deep cleanings of high traffic areas and additional full facility deep cleanings as well as any other additional considerations to be used to address COVID related operational expenses.

Internal Meetings	$2,000.00	$1,000.00	0.00%

Description

These funds will cover light snacks for team and/or center sponsored trainings for staff as well as retreat sites and food, and other meetings as needed.

Consultant Fees	$100,000.00	$25,000.00	0.00%

Description

Placeholder for any related Workplace Management/Facilities/CIP Contractors that may be needed to address reentry and COVID-19 related issues. Also includes reestablishment of our Red Cross relationship for our First Aid and AED training ($1415 annually)

Professional Dues	$2,000.00	$8,000.00	0.00%

Description

Six Sigma Green Certificate for SDA (cost $3000), Project Management Certificate (cost $3000)
Based on the new work for the SDA assigned to Workplace Management and managing the Operational Excellence Manager. The Operational Excellence Manager will include a PMI Membership (cost $129) and the PMP prep exam course (cost $800).

Airfare	$0.00	$1,000.00	0.00%

Description

Provides for airfare to attend professional conferences outside of the Los Angeles area.

Lodging	$0.00	$1,000.00	0.00%

Description

Provides for lodging at multi-day professional conferences outside of the Los Angeles area

Per Diem	$0.00	$750.00	0.00%

Description

Provides for various daily expenses incurred while attending professional conferences outside of the Los Angeles area.

Other Travel Expenses	$0.00	$500.00	0.00%

Description

Provides funds for other travel expenses not covered in other travel categories including transportation to and from airport.

Conference/Training Registrations	$1,000.00	$1,000.00	0.00%

Description
Placeholder for SDA and Operational Excellence Manager for Workplace Management, Facilities and Security conferences and trainings that may come up during the establishment of the Workplace Management Team. Staff is still researching potential conferences and trainings for our new assigned work.

First 5 LA

FY 2019 – 2028 Long Term Financial Plan

(July 1, 2018 – June 30, 2028)

Agenda Item: 06
Date: May 13, 2021

FIRST 5 LA

SUBJECT:
The revised Long-Term Financial Plan is presented to the Board of Commissioners as an information update to the Plan approved in July 2020, which will be presented for future action in June 2021.

LONG TERM FINANCIAL PLAN

On July 9, 2020, the Commission voted to adopt a ten-year long-term financial plan (Plan). This Plan established spending limits for future years through FY 2027-28. The Plan moves the organization away from a five-year annual projection snapshot to a plan with specific spending limits. The Plan is intended to strengthen the organization's fiscal discipline by changing how the organization plans for the long-term, adjusts to the organization's fiscal reality, aligns to the 2020-2028 Strategic Plan goals, and promotes sustainability. The future spending limits, grounded in an 85%-15% maximum split of total expenditures between programmatic and administrative costs, respectively, demand that we bring an organization-wide perspective to and be disciplined in the allocation of resources to their most strategic use and impact.

The long-term financial plan represents a powerful tool for focusing resources on Strategic Plan priorities, deepening our sustainability work, and leveraging non-First 5 LA resources. For FY 2021-22, not only is the total proposed budget of $114.2 million below the established $116.2 million spending limit for the fiscal year, but approximately $5.1 million in anticipated expenses will be offset by external non-First 5 LA funds. Additionally, recent revenue and expenditure changes to the Plan, in alignment with actual costs and revised estimated spending, has resulted in an increase to the FY 2027-28 projected available ending fund balance, from $4.2 million to $55.9 million. More information about these adjustments are included in this memo. As was communicated and established last year, deviations from the approved annual limits require Board review and approval.

I. Introduction: Purpose of the Long-Term Financial Plan

This update to the FY 2020-2028 Long-Term Financial Plan (Plan) is the first update to the Plan since its approval in July 2020. The intent of the process continues to be the support the financial stewardship role of the Los Angeles County Children and Families First Proposition 10 Commission ("Commission"), i.e. First 5 LA, by projecting the long-term implications of fiscal actions taken by the Board of Commissioners ("Board"). This 10-year plan includes a multi-year outlook of current anticipated revenues, as well as established annual administrative and programmatic limits against forecasted revenue and fund balance.

Each year the Plan is presented to the Board in advance of the annual budget process in order to provide context in which budget funding decisions will be made. The July 1, 2018 through June 30, 2028 plan period includes two years of historical actual expenditure data with more details provided for the mid-year revised FY 2020-21 budget year as well as the upcoming proposed FY 2021-22 budget year. Resources for years 5 through 10 are reflected at a higher annual level reflecting the future funding direction of an 85%-15% distribution of spending between programmatic and

administrative work. The long-term financial plan will be used to strategically plan and manage future year's expenses and Fund Balance drawdowns.

Specifically, the Long-Term Financial Plan utilizes the following overarching approach:

- Uses the most recent audited fund balance as a starting point (July 1, 2019 - June 30, 2020);
- Includes updated revenue forecasts based on the most current available data from the California Department of Tax and Fee Administration (CDTFA);
- Includes spending in support of Strategic Plan goals;
- Includes project expenditures for all initiatives approved by the Board, including those that have received a multi-year allocation and legacy investments that have received a multi-year award; and
- Forecasts ending fund balance for each fiscal year through June 30, 2028.

The LTFP has formally assigned future funds through the end of the term (June 30, 2028). Outside of the LTFP process, funds must be reviewed, amended and formally committed as part of the annual budget process approved by the Board or through a Resolution that specifically commits funds for an initiative or program in a manner consistent with First 5 LA's Governance Guidelines.

II. Methodology/Approach

Staff used the FY 2018-19 actuals, FY 2019-20 actuals, FY 2020-21 mid-year revised budget, FY 2021-22 draft budget and six years of estimated spending ceilings through FY 2027-28, as approved in July 2020 by the Board.

The LTFP was developed using the following more specific approach and methods:

- The baseline year for this Long-Term Financial Plan is the FY 2019-20 audited actual expenditures, as reflected in section A of this memo.
- FY 2020-21 estimates expenditures using the mid-year revised budget estimates of $123,812,448 million, a decrease of $444,045 to the anticipated spending for FY 2020-21.
- FY 2021-22 estimates expenditures are based on the proposed draft budget which was developed based on an analysis of historical spending, projected expenditures, multi-year contracted funding and anticipated need. The proposed budget of $114.2 million is below the $116.2 million spending limit established for FY 2021-22.
- As part of the action taken to approve the FY 2020-21 Budget in July 2020, multi-year commitments and allocations were reauthorized. This schedule of commitments and allocations, known as the GASB 54 schedule, was approved by formal Resolution and designates funds for those specific purposes as directed by the Board. Final year-end balances for these commitments are available in First 5 LA's annual official audit, the Comprehensive Annual Financial Report (Annual Report), for the fiscal year ending June 30, 2020.
- Total future year budget expenditures are split – 85% for programmatic needs and 15% for administrative needs, as was determined through the Strategic Plan Refinement process by an assigned Strategic Refinement Team. The LTFP is presented at a high-level cost distribution which reflects annual totals based on the revised structure.

III. Assumptions

This long-term plan includes the following assumptions:

1. Resources are distributed, captured and categorized in the budget between program costs and administrative costs.
2. The Plan spans a ten-year period of annual estimates.
3. For long-term projection and planning purposes, the Plan assumes that spending for FY 2022-23 through FY 2027-28 will remain on a consistent annual rate of decline of approximately 6.47%; 85% of the total will be designated as program costs and 15% will be designated as administrative.
4. Emerging Opportunity resources are included at $1.5 million per year from FY 2021-22 through FY 2027-28.
5. Reserve: On July 9, 2020, the Board voted to increase to the reserve from 25% of the total annual budget to 50% of the total annual budget, effective FY 2020-21.

Changes to the methodology/assumptions and approach to the LTFP, as noted above, have resulted in an increase to the projected available ending fund balance at fiscal year end 2027-28 from $4.2 million, as reflected in the Plan approved in July 2020, to $55.9 million included in this updated Plan. We anticipate that the FY 2027-28 ending fund balance will continue to fluctuate over the years as we update estimated spending with actual expenditures, mid-year revised Budgets and proposed detailed Budgets. These updates will be brought to the Board for review and approval on an annual basis, as applicable.

A. Beginning Fund Balance

The LTFP's FY 2020-21 beginning fund balance of $338,683,806 reflects the most recent audited ending fund balance per the Comprehensive Annual Financial Report (Annual Report) for the fiscal year ending June 30, 2020. The beginning fund balance in future years, beyond FY 2020-21, is calculated based on projected revenue and expenditures for the prior year.

B. Revenue

The Commission is funded through the Proposition 10 Tobacco Tax, 80% of which is distributed to the County Commissions based on their proportion of statewide births. Los Angeles County receives the greatest share, representing approximately 24-25% of the total County allocations. **Tobacco tax revenue**, projected to be roughly $72.4 million in FY 2020-21 and $69.5 million in FY 2021-22, is anticipated to continue declining in future years based on the most recent estimate from the California Department of Tax and Fee Administration (CDFTA), which forecasts an average annual decline of approximately 3-5% in tobacco tax revenue. In response to insufficient information shared by the State regarding the Proposition 56 backfill calculations and methodologies, the First 5 LA Finance department continues to adopt a cautious approach in the calculation of Proposition 10 and Proposition 56 revenue by adjusting the State's projections downward, for the purposes of this analysis. The previous 2% downward adjustment used from FY 2018-19 through FY 2020-21 has been adjusted to a 1% downward adjustment through FY 2027-28 in response to an increase in projected revenues from the State and the consistent receipt of payments. In accordance with standard practice, staff will continue to monitor and make the appropriate adjustments as information is received. Additionally, staff will continue to monitor actual revenue relative to the projections to analyze the impact these declining resources may have on the organization's fiscal position.

Interest earnings are projected based off the average rate of return on anticipated cash balances. Based on the latest assessment and fluctuations, First 5 LA will continue to calculate a 1.2% interest earnings with assumptions made for consistent market conditions across the years reflected in the LTFP. Interest earnings for FY 2020-21 are projected at approximately $4.5 million. Interest earnings for FY 2021-22 are projected at approximately $4.0 million. In addition, the **Other Revenue** category also includes funding from First 5 California and the Aurrera Health Group LLC (ACE's Aware) for FY 2020-21 (total of $2.99 million) and funding from First 5 California for FY 2021-22 (total of $5.1 million).

C. Program Expenditure Assumptions

The baseline for the current long-term financial plan is grounded on the assumption that the Board will invest in the implementation of the approved 2020-2028 plan to achieve the strategic priorities outlined through FY 2027-28. The current projections also assume a fixed annual rate of revenue decline for the strategic plan term. Programmatic investments will distribute 85% of the total annual spending limit to carry out activities aligned with our strategic plan that continue to move us in a direction of policy and systems change work in alignment with our values, investment guidelines and desired results.

Specific investments will be presented to the Board on an annual basis through a refined spending plan based on updated information. Additional detail related to the investment estimates for FY 2021-22 is included in the FY 2021-22 Budget materials.

D. Program Expenditure Assumptions – Legacy Investments

The expenditure projections contained in the LTFP were developed based on the following overarching assumptions:

- Consistent with the Governance Guidelines, all initiatives and programs are assumed to end according to the Board-directed timeframe. This includes the following Legacy investments that are projected to sunset by June 30, 2022: Baby Friendly Hospitals.
- Fidelity to existing approved allocations and other funding decisions made by the Board. Funding for Little by Little/One Step Ahead is assumed to fully exhaust the original $30 million allocation award by 2023, as approved by the Board in November 2018.

E. Operating Expenditure Assumptions

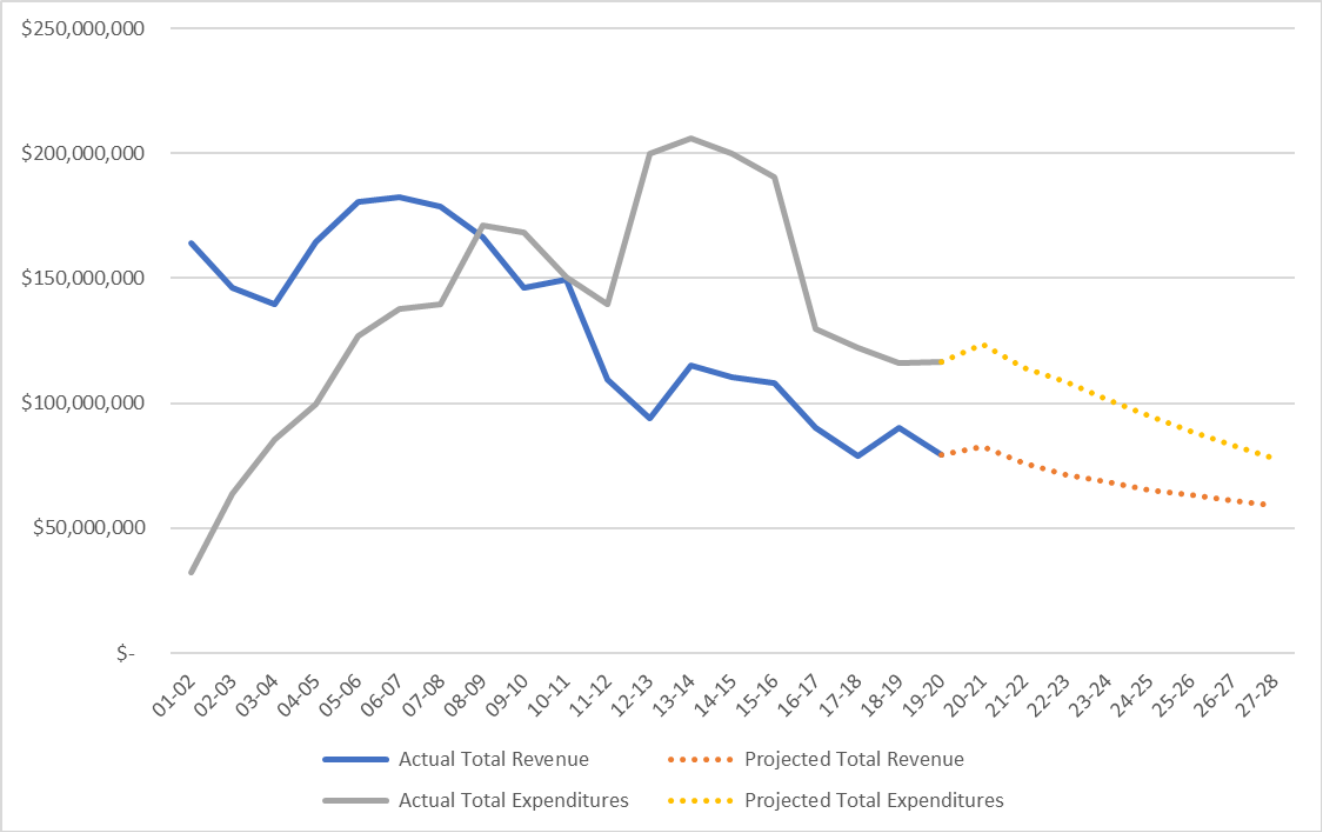
The Revised FY 2020-21 Operating Budget of $22.3 million included assumptions related to staffing, salary and benefit costs, professional development and other operating costs. The FY 2021-22 Draft Budget proposes $21.90 million in operational costs to support the organizational needs. The FY 2021-22 Operating Budget includes an organizational alignment to the November 2020 Adapted Organizational Structure which reduces the total organization's FTE and net cost. This Adapted Organizational Structure will reduce costs starting in FY 2021-22 and will impact future years. Restructuring how operating expenses are captured and categorized in the annual budget will provide the agency with a clearer system to track administrative versus programmatic expenses and help us "live within our means."

Overall, we do anticipate all operational costs will increase slightly from year to year due to standard salary increases (estimated at 3.2%), benefit increases (approximately 4%), as well as inflation of the cost of goods and services (estimated at 1%).

IV. Analysis: The Multi-year Outlook

Consistent with previous years, the LTFP continues to reflect declining resources, including both incoming tobacco tax revenue and existing fund balance. As previous projections have demonstrated, this is primarily driven by the fact that spending has outpaced revenue, requiring the Commission to depend on existing fund balance to cover the difference. The establishment of the annual resource spending limits in this ten-year plan gives us an opportunity to be proactive in deciding how and when we strategically use the diminishing fund balance to offset expenditure needs above and beyond the Proposition 10 tax revenue dollars and any other known revenues.

Chart 1: Revenue vs. Expenditures through FY 2027-28



The Commission's primary source of revenue, Proposition 10 tobacco tax revenue, has been steadily decreasing since FY 2004-05, and is projected to decline an additional 19.5% by FY 2027-28, from the $69.5 million anticipated to be received in FY 2021-22 to an estimated $56.0 million in FY 2027-28, not including the 1% internal downward adjustment to Proposition 10 tax revenue to account for possible Proposition 56 backfill shortfalls or changes. The transition from long-term financial projection to plan has allowed First 5 LA to plan for a gradual path toward expenditure alignment with revenues as we continue to focus resources on Strategic Plan priorities, deepen our sustainability work and leverage non-First 5 LA resources.

Spending is estimated to peak in FY 2020-21 as the organization transitioned from one Strategic Plan to a Revised Strategic Plan. The total impact of the anticipated expenditures in FY 2020-21 is

approximately $123.8 million, or 33.3% above the estimated incoming revenue (including the 2% internal adjustment to Proposition 10 tax revenue in response to the Proposition 56 backfill revenue shortfall), an excess level of spending which results in a commensurate decline in fund balance. The total impact of the proposed costs for FY 2021-22 is $114.1 million, or 33.5% above the estimated incoming revenue, which also adjusts for the 1% internal adjustment to Proposition 10 tax revenue. The ongoing variance between projected revenue and the established spending limits results in an 84.1% decrease in fund balance from the July 1, 2020 beginning fund balance of $338.7 million to $55.9 million by June 30, 2028. This $55.9 million includes the fund balance reserve which increased from 25% of the projected annual fiscal year budget per Board-approved policy to 50% effective FY 20-21, per Board approval in July 2020.

As noted earlier, recent changes to the Plan have resulted in an increase to the FY 2027-28 projected available ending fund balance, from $4.2 million to $55.9 million, an increase of approximately $51.7 million.

Staff will continue to monitor the changing environment and political landscape—both at the State and Federal level—that can have potential implications for anticipated revenue so that we may adjust our longer-term plans, accordingly. The plan will be updated on an annual basis to capture any new information related to additional funding, both restricted and unrestricted, outside of the Proposition 10 and the Proposition 56 backfill dollars. These updates will then be presented to the Board for approval.

V. Summary

The transition from a long-term financial projection to a plan in 2020 has required that First 5 LA bring greater discipline to is current and future spending. In so doing, the Plan helps First 5 LA improve its long-range strategic investment planning, particularly as the organization places a higher emphasis on policy and systems change, and doing more with less, due to our ever-declining Proposition 10 Tobacco Tax revenues. This approach also allows the organization to manage the transition to a more sustainable spending plan in light of an ever-decreasing fund balance.

First 5 LA will continue working to identify the appropriate level of resources for distribution in support of the short and long-term 2020-2028 Strategic Plan efforts. Any changes to the proposed long-term plan costs and revenues will be shared with the Board for discussion, feedback and approval through the next long-term financial plan update.

First 5 LA
Long Term Financial Plan - Multi-Year Detail

Beginning Fund Balance as of July 1	$ 352,109,768	$ 338,683,806	$ 297,461,649	$ 261,233,686	$ 224,035,412	$ 191,122,773	$ 161,395,246	$ 135,631,511	$ 113,536,037

PROJECTED ENDING FUND BALANCE		**$ 338,683,806**	**$ 297,461,649**	**$ 261,233,686**	**$ 224,035,412**	**$ 191,122,773**	**$ 161,395,246**	**$ 135,631,511**	**$ 113,536,037**	**$ 94,833,853**
Reserve - Organizations Approved Budget		**$ 29,132,077**	**$ 61,906,224**	**$ 57,098,086**	**$ 54,348,926**	**$ 50,832,550**	**$ 47,543,684**	**$ 44,467,608**	**$ 41,590,554**	**$ 38,899,645**
PROJECTED AVAILABLE ENDING FUND BALANCE		**$ 309,551,729**	**$ 235,555,425**	**$ 204,135,600**	**$ 169,686,486**	**$ 140,290,223**	**$ 113,851,562**	**$ 91,163,903**	**$ 71,945,483**	**$ 55,934,208**

Assumptions:

a) The annual rate of decline for Total Estimated Spending, beginning with FY 2023-24 through FY 2027-28, is approximately 6.47%.
b) Projected interest earnings starting FY 2020-21 is 1.2%
c) Reserve assumes 25% of the total FY 2019-20 actual budget and 50% of the total budget effective FY 2020-21 through FY 2027-28.
d) Internal Adjustment in Response to Proposition 56 Trend is 2% for FY 2020-21 and 1% for remaining years, based on recent trends.
e) The annual rate of decline for the Prop 10 revenue over the course of the 7 years, beginning with FY 2021-22 through FY 2027-28 is approximately 3.14%.
f) Revenue estimates are based on projections provided in May 2020 by F5CA and CDTFA.
g) Other Revenue includes: F5CA Revenue (Impact, Dual Languange, F5CA Home Visit Coordination Project) and FY 2020-21 includes (Impact, Hubs, SMiF, ACEs, F5CA).
h) Starting FY 2025-26, there is a 3% decline in Prop 10 revenue.
i) Emerging Opportunities resources are included for FY 2021-22 for $1.5M per year through FY 2027-28.

LTFP Adjustments

1. FY 19-20 Total Estimated Spending was revised to align with actual spending, per the audited financial statements
   - Revised from $134.1M in estimated spending to $116.5M in actual expenditures

2. FY 20-21 Total Estimated Spending was revised to align with the FY 20-21 Mid-Year Revised Budget.
   - Revised from $124.3M in estimated spending to $123.8M in estimated spending

3. FY 21-22 Total Estimated Spending was revised to align with the FY 21-22 Proposed Budget.
   - Revised from the $116.2M spending cap established in the FY 20-21 LTFP to $114.2M in estimated spending for FY 21-22

4. Revenue estimates were updated to align with projections provided in May 2020 by F5CA and the California Department of Tax and Fee Administration (CDTFA).
   - Other revenue estimates are updated to align with updated confirmed and projected revenues
   - Other Revenue includes: First 5 CA

5. Internal Adjustment in response to the Proposition 56 revenue trend was revised from a 2% downward adjustment through FY 27-28 to a 2% adjustment for FY 20-21 and a 1% downward adjustment for FY 21-22 through FY 27-28, based on recent trends

Agenda Item: 8
Date: May 13, 2021

FIRST 5 LA

SUBJECT:
Learnings from the Discussions on Best Start Regions

BACKGROUND:
The North Star guiding First 5 LA's work is: *By 2028, all children in Los Angeles County will enter kindergarten ready to succeed in school and life.* First 5 LA supports the strengthening of public and community systems, advancing and building on community experience, and expanding influence and impact with data in 14 geographic areas in Los Angeles County through an initiative called Best Start. This investment was created in 2010 to cultivate community partnerships, and collaborations of community members as catalysts to create and sustain positive outcomes for children and families in their communities.

Through Best Start, our goal is to catalyze, strengthen, elevate and scale empowering and innovative approaches generated by communities that improve the lives of children prenatal to age 5, their families and communities. Best Start advances the goals of the FY 2020-2028 Strategic Plan broadly and, specifically, strategic priority #2 focused on advancing and building on community experience.

In 2018, the First 5 LA Board of Commissioners approved five Regional Network Grantees (RNGs): Para Los Niños (Region 1), Community Health Councils (Region 2), El Nido Family Services (Region 3), The Nonprofit Partnership (Region 4), and Children's Bureau (Region 5). This was the result of a comprehensive community and First 5 LA organizational planning process, transitioning the work into five regions, consisting of the 14 geographic areas, and supporting the emergence of regional and local networks of parents, residents, other community leaders and organizational partners, including but not limited to the Best Start community partnerships. This shift to networks recognizes the critical role networks play in developing, uplifting, and sustaining systems changes. The RNGs manage regional work and the strategic progress of the local networks, along with contracted partners.

DISCUSSION:
From February through April 2021, staff engaged the Board in a series of in-depth learning sessions at the Program and Planning Committee meetings to share learnings and results since the 2018 Board action approving the regional model with the following objectives: providing updates about what is happening in Best Start at the regional level, sharing highlights of each region's systems change work, noting alignment with our Strategic Plan, soliciting board feedback to help inform the FY 21-22 Communities budget, and sharing how the Communities work pivoted to meet the moment due to the global pandemic**.** At the May 2021 board meeting, staff will highlight overall learnings from the series including alignment to the Strategic Plan, themes across the Regions, and key takeaways from each session.

Advancing on Strategic Priorities of First 5 LA's Strategic Plan
Best Start and related investments are guided by the Strategic Priorities in our Strategic Plan. Below are some examples shared during the learning sessions of current efforts and progress to achieve our system change outcomes and targeted results for children and families as well as opportunities moving forward.

Strengthen Public and Community Systems
One example: Increasing coordination and partnership in Best Start regions resulting in more than $7 million of public dollars leveraged in COVID19 response funds across the regions.
Looking forward: Increased internal coordination of First 5 LA investments and activity, such as focusing our kindergarten readiness assessment efforts in the Best Start regions.

Advance and Build on Community Experience
One example: Regions with support from Regional Network Grantees are bringing parents into leadership roles and including families often not meaningfully included in collective action.
Looking forward: Positioning parent/residents to shape and lead networks dedicated to systems change; the Best Start Learning Agenda will help us establish proof of concept.

Expand Influence and Impact with Data
One example: Regions are using data to inform community priorities, as well as highlighting current context (and our partnership with Advancement Project California (APCA)).
Looking forward: Staff is supporting regional Learning Dialogues and a potential cross-regional convening focusing on exploring data from the Impact Framework and APCA Data Narrative with stakeholders

Optimize Our Effectiveness
One example: The Communities Team is learning and adapting quickly as a funding partner during COVID19 Pandemic.
Looking forward: We continue to deepen our understanding as a funder in systems change efforts through the Best Start Learning Agenda.

Overlapping Themes Across the Regions
Across all of the panels presenting from the Best Start regions, we also heard a number of consistent themes worth highlighting connecting to many if not all of these four strategic priorities outlined above. During the May Board meeting, staff will elevate some overlapping themes across the five regions related to Parent Engagement, Cultivating Inclusion and Belonging in Best Start, and Collective Action. These themes are interrelated and necessary for systems change.

Parent & Resident Contributions to Systems Change
The parent and resident engagement efforts taking place across the Best Start geographies provide leadership pathways, diversity in leadership opportunities and a critical systems change orientation that strengthen the collective power of parents and residents to make long lasting change. Parents and residents are actively engaged in designing, directing, and implementing community change efforts that relate to the systems change outcomes that First 5 LA has identified necessary to achieve our North Star.

Cultivating Inclusion and Belonging in Best Start
The engagement of communities is an ongoing effort. This effort offers the opportunity for our partners to find creative ways to continuously include parents and residents in Best Start geographies by making the connection between direct services and policy systems change by offering an invitation into action when addressing basic needs as we saw with the COVID-19 response. This leads to creating new practices for inclusion as our partners are asking what issues families face and the choices they have to make in order to participate in systems change efforts. We heard about critical conversations that have arisen around understanding multiple forms of oppression that impact early childhood outcomes and how we need to address these issues head on, if we are truly serious about our North Star and building the collective will needed to get us there. These conversations lead us to broaden our base by increasing our capacity for coalition & network building with other committed partners in the Best Start geographies.

Collective Action and Leveraging
Best Start is supporting communities to foster the conditions for collective action that can be seen through small wins that build momentum for broader systems change. We are seeing increased effectiveness in fostering the conditions at the community and county level necessary for collective

action to occur. In the Program and Planning Committee updates, examples of collective efforts resulting in small wins across Best Start geographies that will continue to build momentum for broader systems change were shared. The current work is built on years of relationship and trust building and making room for the deep experiences of community residents and partners to inform our path forward. Some "small" wins include:

- Increasing flexibility of First 5 LA and Best Start to adapt to changing circumstances;
- Increasing coordination and partnership in Best Start regions, leveraging more than $7 million of public dollars in COVID-19 response funds;
- Increasing interest and practice on behalf of public and community systems to be more parent/resident centered;
- Collaboration across public and community systems to find solutions together; and
- Increasing commitment across Best Start geographies to achieve population level results for children and families

FY 21-22 Budget Implications

One goal of the Best Start Learning Sessions was to solicit feedback from the Board as the Communities Team develops its proposed FY 21-22 budget. Some examples of budget implications and areas of discussion include:

- Recognizing the flexibility in the FY 20-21 contract budget allowed for an expansive response to community needs due to the COVID-19 pandemic, (realizing more than $7 million leveraged across all the regions), ensure the Regional Network Grantees have flexibility within their FY 21-22 contract budget to respond to emerging needs;
- Implementing a 10% reduction for the Regional Network Grantees (RNGs), reflecting First 5 LA's fiscal realities and as a part of a broader effort in partnership with the RNGs and communities to develop and advance a sustainability strategy for their work; and
- Recognizing that this community systems change effort is a long-term partnership with community which requires a long-term commitment and investment.

Key Highlights from Each Presentation

Each session highlighted the unique context, challenges, approach, and opportunities for each region to advance the common commitment to the vision that "all children enter kindergarten ready to succeed in school and life." Below are a few of the key takeaways from each session.

Region 1, Para Los Niños (PLN)—The Complexities of Power Building

- Deepening relationships with parent/resident is instrumental to ground the work in authentic partnerships;
- Utilizing data that reflects the lived experience of parents and residents is critical;
- Challenging mental models is part of the systems change effort;
- The region was able to leverage more than $1 million in CARES Act funds that provided support to more than 3,800 families; and
- PLN received support from Robert Wood Johnson Foundation to develop a Community Bill of Human Rights.

Region 2, Community Health Councils (CHC)--The Year of Si Se Puede/Yes We Can

- Through the support of CHC, the four Best Start geographies are moving towards a regional network structure with the formation of the Regional Task Force;
- The region developed SMARTI goals and a commitment to Justice, Equity, Diversity and Inclusion (JEDI);
- More than 500 residents were engaged to vote on community issues to prioritize in 2021 in "South LA Decides," the participatory grant making process; and
- The "Onward," the digital solution platform is in development.

Region 3, El Nido Family Centers— "Practice at the small scales sets the patterns for the whole system."

- El Nido is cultivating a pipeline of parent leaders and amplifying community power;
- El Nido's approach includes finding the connection of working with the whole family within the larger community;
- El Nido has leveraged $2.5 million in COVID-19 relief funds; and
- More than 400 parents have been engaged in catalyzing systems change trainings.

Region 4, The Nonprofit Partnership—Thriving Communities, Thriving Families, Thriving Children

- The Participatory Budgeting model is being used as an instrumental systems change tool.
- Creating the spaces for parents/residents to network and strengthen leadership skills to address regional issues has been critical.
- Responding to COVID-19 has resulted in leveraging $3.6 million, serving more than 1,500 families through Best Start Farmers Market Efforts and more than 900 families supported with baby supplies and PPE.

Region 5, Children's Bureau (CB)—"Nothing Happens to the AV without the AV"

- The approach in Region 5 includes strengthening networks, focusing on child abuse prevention and resource mobilization, and better understanding how racist systems impact families and young children;
- The partnership with the Antelope Valley Resource Infusion (AVRI)--philanthropy and systems prioritizing—has helped focus the Best Start effort to ensure that AVRI is orienting to community driven decision making.
- In responding to COVID-19, parents led an expansion of Preschool Without Walls and CB is collaborating with regional partners to leverage resources to more than 500 families per week.

Next Steps:

First 5 LA will incorporate Board feedback and discussion areas in the development of the FY 21-22 Communities budget. Also, First 5 LA and the Regional Network Grantees will work together to invite other funders and public systems partners to join us in achieving population level results through collaborative, parent centered systems change efforts.

Agenda Overview / *Resumen de la agenda*

- Context Setting / Explicación del contexto
- Highlights / Puntos destacados
- Themes / Temas
- Next stages of our work / Etapas siguientes de nuestro trabajo
- Q & A / P y R

Key Takeaways and Themes / *Aprendizajes y temas claves*

Region 1 – The Complexities of Power Building
Región 1 - Las complejidades de construcción de poder

- Deepening relationships with parent/resident to ground the work in authentic partnerships.
  Profundizar las relaciones con padres/residentes para fundamentar el trabajo en asociaciones auténticas.
- Grounding in data that reflects the lived experience of parents and residents.
  Fundamentar con datos que reflejen la experiencia de vida de los padres y residentes.
- Challenging mental models
  Desafiar los modelos mentales
- Leveraging CARES Act funds that provided support to over 3,800 families; Over $1 million in funding.
  Aprovechar los fondos de la Ley CARES que proporcionaron apoyo a más de 3800 familias; más de $1 millón en financiamiento.
- Support from Robert Wood Johnson Foundation to develop a Community Bill of Human Rights.
  Apoyo de la Fundación Robert Wood Johnson para desarrollar un proyecto de Ley Comunitaria de Derechos Humanos.

Region 2 – The Year of Si Se Puede / Yes We Can
Región 2 - El año de Sí Se Puede

- Moving towards a regional network structure.
  Desplazarse hacia una estructura de red regional.
- Developing SMARTI goals and a commitment to JEDI.
  Desarrollar metas SMARTI y un compromiso con JEDI.
- Engaging over 500 residents to vote on community issues to prioritize in 2021 in "South LA Decides."
  Obtener la participación de más de 500 residentes para votar en problemas comunitarios que se priorizarán en 2021 en "El sur de LA decide".
- Developing digital solutions "Onward."
  Desarrollar soluciones digitales "Hacia adelante".

Region 3 – "Practice at the small scale sets the patterns for the whole system.*"
Región 3 - "Practicar en los conjuntos pequeños establece los patrones para todo el sistema."

- Cultivating a pipeline of parent leaders and amplifying community power.
  Cultivar un conducto de padres líderes y amplificar el poder de la comunidad.
- Finding the connection of working with the whole family within the larger community.
  Encontrar la conexión de trabajar con toda la familia dentro de la comunidad más grande.
- Leveraging $2.5 million in COVID-19 relief funds.
  Aprovechar $2.5 millones en fondos de asistencia para COVID-19.
- Engaging more than 400 parents trained in catalyzing systems change.
  Hacer participar a más de 400 padres capacitados en catalizar el cambio de sistemas.

**adrienne maree brown*

- The Participatory Budgeting model as an instrumental systems change tool.
  El modelo de Presupuesto Participativo como una herramienta de cambio en sistemas instrumentales.
- Creating spaces for parents/residents to network and strengthen leadership skills to address regional issues.
  Crear espacios para padres/residentes para formar redes y fortalecer las habilidades de liderazgo para enfrentar problemas regionales.
- Responding to COVID-19: Leveraging $3.6, serving more than 1500 families through Best Start Farmers Market Efforts and over 900 supported with baby supplies and Personal Protective Equipment (PPE).
  Responder a COVID-19: Aprovechar $3.6 millones, brindar servicio a más de 1500 familias a través de los Esfuerzos de Mercado de Granjeros Best Start y más de 900 apoyados con suministros para bebés y Equipos de Protección Personal (PPE).

Region 5 – "Nothing Happens to the AV *without* the AV“
Región 5 – "Nada pasa al AV sin el AV"

- Strengthening networks, focus on child abuse prevention and resource mobilization, and better understanding how racist systems impact families and young children.
  Fortalecer redes, enfocarse en la prevención del abuso infantil y movilizar recursos, y una mejor comprensión de cómo impactan los sistemas racistas a las familias y a los niños pequeños.
- Antelope Valley Resource Infusion -- philanthropy and systems prioritizing and orienting to community driven decision making.
  Infusión de recursos a Antelope Valley – filantropía y sistemas priorizando y orientando la toma de decisiones impulsada por la comunidad.
- Responding to COVID-19: Parents leading an expansion of Preschool Without Walls and collaborating with regional partners to leverage resources to more than 500 families per week.
  Responder a COVID-19: Padres dirigiendo una expansión de Preescolar sin muros y colaborando con socios regionales para aprovechar recursos para más de 500 familias por semana.

- Coalition building & network building
  Construcción de coaliciones y construcción de redes

Collective Action / Acción colectiva

We are creating the conditions for collective action that can be seen through small wins that build momentum for broader systems change.
Estamos creando las condiciones para una acción colectiva que pueda ser vista mediante pequeños triunfos que generen el ímpetu para un cambio de sistemas más amplio.

Small wins: / Pequeños triunfos:

- Increasing flexibility of F5LA and Best Start to adapt to changing circumstances
  Aumentar la flexibilidad de F5LA y Best Start para adaptarse a las circunstancias cambiantes
- Increasing interest and practice on behalf of public and community systems to be more parent/resident centered
  Aumentar el interés y práctica en nombre de los sistemas públicos y comunitarios para estar más centrados en los padres/residentes
- Collaboration across public and community systems to find solutions together
  Colaboración entre sistemas público y comunitario para encontrar soluciones juntos
- Increasing commitment across Best Start geographies to achieve population level results for children and families
  Aumentar el compromiso en todas las geografías de Best Start para lograr resultados a nivel población para los niños y las familias

3276

Systems change is about "shifting the conditions that hold a problem in place." It means working in partnership with parents and leaders at the state, county, and local level to change the conditions that affect child development and family well-being.

El cambio de sistemas trata de "cambiar las condiciones que mantienen a un problema en su lugar." Significa trabajar en asociación con los padres y líderes a nivel del estado, del condado y de la localidad para cambiar las condiciones que afectan al desarrollo de los niños y el bienestar de la familia.

Strategic Priority 2

Advance and Build on Community Experience
One example: Strengthening pathways for leadership, practices of inclusion, leading to collective action.
Looking forward: Positioning parent/residents to shape and lead networks dedicated to systems change; Best Start Learning Agenda will help us establish proof of concept.

Avanzar y construir sobre la experiencia comunitaria
Un ejemplo: *fortalecer los caminos de liderazgo, las prácticas de inclusión, dirigirnos hacia una acción colectiva.*
Looking forward: *colocar a los padres/residentes en una posición que les permita configurar y dirigir redes dedicadas al cambio de sistemas; la Agenda de aprendizaje Best Start nos ayudará a establecer la prueba del concepto.*

Contributions to First 5 LA's work
Contribuciones a el trabajo de F5LA

Strategic Priority 3

Expand Influence and Impact with Data
One example: Data informing community priorities, as well as highlighting current context (partnership with APCA).
Looking forward: Learning Dialogues and a future cross-regional convening focus on exploring data from Impact Framework and APCA Data Narrative with stakeholders.

Expandir la influencia y tener impacto con datos
Un ejemplo: *datos que fundamenten las prioridades comunitarias, y que destaquen el contexto actual (asociación con APCA).*
Próximamente: *aprender diálogos y una convocatoria futura entre regiones se enfocan en explorar datos de la Infraestructura de impacto y la Narrativa de datos APCA con las partes interesadas.*

Contributions to First 5 LA's work
Contribuciones a el trabajo de F5LA

Strategic Priority 4

Optimize Our Effectiveness
One example: Learning and adapting quickly as a funding partner during COVID19 Pandemic.
Looking forward: Deepen our understanding as funder in systems change efforts through Best Start Learning Agenda.

Optimizar nuestra efectividad
Un ejemplo: *aprender y adaptarnos rápidamente con un socio de financiamiento durante la pandemia de COVID19.*
Próximamente: *profundizar nuestra comprensión como financiador en los esfuerzos de cambio de sistemas mediante la Agenda de aprendizaje Best Start.*

Next Stage of Work: Establishing Proof of Concept
Siguiente etapa del trabajo: establecer la prueba del concepto

Field Building
Construcción de campo

Deeper engagement with funders, public systems and other partners to join us in achieving population level results through collaborative, parent centered systems change efforts.

Mayor participación con las fundaciones, sistemas públicos y otros socios para que nos acompañen a lograr resultados a nivel de la población a través de esfuerzos de cambio de sistemas colaborativos y centrados en los padres.

Agenda Item: 08
Date: May 13, 2021

FIRST 5 LA

SUBJECT:
Public Hearing: Annual Review to Receive and File First 5 California's Annual Report

BACKGROUND:
To ensure transparency and accountability across the state, Proposition 10 imposes certain annual procedural requirements on each county commission as a condition of receiving Proposition 10 tobacco tax funds. Those procedural conditions include the requirement that the Board hold public hearings at least annually to review First 5 California's Annual Report, First 5 LA's Strategic Plan, and First 5 LA's annual audit. This public hearing is intended to comply with the first item of the annual requirements outlined in the Proposition 10 legislation.

DISCUSSION:
First 5 California's Annual Report

Pursuant to the requirements of Proposition 10, First 5 California has compiled its Annual Report for the 2019-20 year and distributed that report to county commissions for review in a public hearing. This report includes various First 5 LA program highlights presented to and approved by our Board of Commissioners in October 2020 by First 5 LA staff including a summary of revenue and expenditure information, demographics of children & families reached, and county success stories. First 5 California's Annual Report is available on First 5 California's website and is included with board materials today. Staff recommends that the Board receive and file this report.

Despite declining tobacco tax revenues, County Commissions across the state, in coordination with the First 5 Association, continue to advance their work in creating and implementing integrated early childhood systems, building effective community partnerships, and pursuing deeper and more widespread impacts through policy and systems change. Although County Commissions are focused on local needs and opportunities, and First 5 California addresses issues at a statewide level, progress continued to be made during 2019-20 to align policy priorities and share learning. Since the start of the COVID-19 pandemic, First 5 California has approved funding to provide emergency support to local communities around the state.

RECOMMENDATION:
It is recommended that at its May Commission meeting, the Board receive and file the First 5 California 2019-20 Annual Report and provide the opportunity for public comment.

Message from the Executive Director

What a year it has been! Like everywhere else across the country and around the globe, California has faced the ravages and unprecedented challenges brought on by the COVID-19 pandemic. While these dire circumstances have led to devastation for so many people in terms of illness, loss of loved ones, business closures, unemployment, educational logistics, and child care, Californians working together have found ways to face these daunting realities and work through them as best we can. As we continue to forge ahead through the end of the pandemic and through our state's health crisis and economic recovery, these partnerships and collaborations will continue until we are successfully on the other side of this frightening era. Toward that end, in 2020 the First 5 California Commission allocated a total of $5 million to help address the pandemic and provide emergency support to local communities around the state. (See "**COVID-19 Pandemic Assistance**" for additional information.)

In addition to its efforts to address these unforeseen pandemic-related challenges of the past year, in Fiscal Year 2019–20 First 5 California continued to implement its 2019–24 Strategic Plan, which provides the agency's road map for its investments, partnerships, and advocacy efforts to fulfill its mission, vision, and goals. All of the Commission's work emanates from the firm belief that every child deserves a strong and solid start in life. This multi-faceted work is possible because of the dedication and work of our Commission, staff, the First 5 county commissions, and other stakeholders and partners.

First 5 California's 2019–20 Annual Report highlights its accomplishments and collaborations at both state and local levels, which include:

- Local consortia participating in First 5 IMPACT reported that over two-thirds (5,111 of 7,723) sites participating in Quality Counts California were supported in full or in part with First 5 IMPACT funding, reaching 310,378 children in 58 counties
- Home visiting services for California's high-need families supported by launch of the home visiting workforce study and engaging counties in home visiting coordination efforts
- The Family Engagement Toolkit launched as a free resource for early learning and care providers to build upon skills in family engagement strategies and provide techniques that can be implemented in everyday situations
- Celebrating a hard-fought and long-awaited policy win in the form of Paid Family Leave, SB 1383 (Jackson)

With another challenging and successful year behind us, there is still much work to do. With each year comes a renewal of our commitment to the principals that have always been at the core of our work in serving our youngest Californians and their families. We will continue to partner with our Governor, the Legislature, First 5 county commissions, and other groups and organizations that advocate for what is best for our kids and their future. As always, I consider it an honor to be part of this outstanding early learning and care community and its noble work dedicated to improving the lives of young children.

CAMILLE MABEN
EXECUTIVE DIRECTOR, FIRST 5 CALIFORNIA

"First 5 California's Children's State Policy Agenda guides the agency's efforts to advocate for the strong start all children deserve ..."

3294

Ensuring California's Children Receive the Best Start in Life and Thrive

PROPOSITION 10 AND THE LEGACY OF FIRST 5 CALIFORNIA

In 1998, California voters passed Proposition 10—the California Children and Families Act (the Act)—and declared the importance of investing in a better future for California's youngest children. For over two decades, the California Children and Families Commission (First 5 California) has promoted standards of quality child care and invested in the development of programs and services emphasizing improvement in early education, child care, child health and development, research, and community awareness.

BUILDING PUBLIC WILL AND INVESTMENT

First 5 California's Children's State Policy Agenda guides the agency's efforts to advocate for the strong start all children deserve, with an emphasis on optimizing early childhood development and reducing childhood poverty for children prenatal through age 5 and their families. The Commission's Policy Agenda reflects First 5 California's commitment in its Strategic Plan to participate and lead in the area of civic engagement, and the recognition of the Commission's responsibility to the people of California to ensure the wise and effective use of public funds.

In its Strategic Plan, 2019–2024, First 5 California continues its commitment to engage and lead in building public will and investment to support the optimal wellbeing and development of children prenatal through age 5, their families, and communities. The Strategic Plan also recognizes First 5 California must engage in partnerships with First 5 county commissions, stakeholders, and other allies from local to federal levels in order to be successful in institutionalizing efforts to advance child-centered policies and increase these crucial investments.

First 5 California serves as a convener and partner in state policy conversations, collaborating with First 5 county commissions, state agencies, stakeholders, and other advocates to convene, align, support, and strengthen statewide advocacy efforts to realize shared goals. Despite a unique year, First 5 California continued to expand its policy and advocacy engagement in fiscal year 2019–20, guided by its Policy Agenda. The Policy Agenda is focused on the following four areas the Commission identified as its top state policy priorities, including targeted goals within each priority area to achieve a seamless statewide system of integrated and comprehensive programs for children and families:

Resilient Families and Communities

- Support effective parent education and engagement, including parent engagement on child brain development and *Talk. Read. Sing.*®
- Support sustainability of Family Resource Centers and other comprehensive community hubs for integrated services for children and families
- Increase supports for breastfeeding, paid family leave, and baby-friendly policies for all families in all settings
- Expand voluntary home visiting programs

Child Health

- Protect children and families' access to health care, and support coordination across the health care system to ensure affordable and comprehensive health insurance coverage and services for every child and mother, prenatal through age 5
- Support and promote universal developmental screenings, assessment, referral, and treatment

Early Learning

- Expand access to quality early care and education programs for children ages 0 to 3
- Support implementation of high-quality universal preschool access for all low-income four-year-old children, and high-quality transitional kindergarten and kindergarten state-wide
- Define, measure, and achieve learning readiness for all California children prior to kindergarten

- Support a high-quality early learning workforce through strengthened qualifications, compensation, stability, diversity, and robust professional development systems
- Promote statewide access to and participation in quality improvement systems

First 5 Revenue

- Promote inclusion of funding for children ages 0 to 5 and their families in existing and new revenue policy discussions
- Promote regulation of tobacco-related products, including electronic cigarettes, and sustainability of licensing and enforcement programs
- Promote inclusion of funding for prenatal and 0 to 3 two-generation prevention strategies in Proposition 64 Memorandum of Understanding for prevention dollars

ACCOUNTABILITY: FUNDING AND AUDIT RESULTS

Under the Act, the California Department of Tax and Fee Administration collects an excise tax levied on all tobacco products and deposits the revenue into the California Children and Families Trust Fund, allocating 20 percent to First 5 California and 80 percent to county commissions. In FY 2019–20, First 5 California received $60.6 million, and county commissions received $242.4 million. The amount of funding allocated annually to each county commission is based on the annual number of births in the county relative to the total number of births in the state. Each county must prepare an independent annual audit subject to guidelines prepared by the State Controller's Office. The counties invest their dollars in locally designed programs, as well as in First 5 California's statewide programs as match funding. First 5 county commissions use their funds to support local programs in four result areas:

- Improved Family Functioning
- Improved Child Development
- Improved Child Health
- Improved Systems of Care

First 5 California's Program Management Division and Administrative Services, Evaluation, Executive, Communications, External and Governmental Affairs, Fiscal Services, Contracts and Procurement, and Information Technology offices provide staff support for the following functions, operations, and systems:

- Fiscal management of the California Children and Families Trust Fund
- Tax revenue disbursements to county commissions
- Audits and annual fiscal reports
- Local agreement and program disbursement management
- Public education and outreach
- Evaluation of First 5 California programs
- Procurement and contract management
- Workforce recruitment and development
- Information technology
- Business services
- Legislative advocacy efforts

The administration of these and other programs is consistent with all applicable State and Federal laws, rules, and regulations. The State Controller's Office conducts an annual review of the 58 county commissions' independent audits. In October 2020, the Controller published its review of the counties' audits for FY 2018–19, summarizing several findings contained in the local audits, but did not deem any of them significant enough to withhold funding. Audits can be viewed on First 5 California's website at http://**www.ccfc.ca.gov/pdf/about/budget_perf/annual_report_pdfs/etc/AR-SCO-Audit-Report-2018-2019.pdf**

FIRST 5 SUMMIT

As part of First 5 California's commitment to convene, align, collaborate, and support statewide efforts and initiatives to improve outcomes for children, First 5 California hosted the 2020 Child Health, Education, and Care Summit in February.

Approximately 700 early care and education professionals attended the 3-day event, which included a variety of breakout sessions, keynote addresses, and two evening receptions featuring recipients of the Champion for Children awards, Johnny Hekker and Nadine Burke Harris.

The Summit theme, "Equity in Action: Elevating Children, Families, and California's Workforce," represented the natural evolution of this statewide event – from building partnerships, to promoting collective impact, to providing leadership around critical programs and investments designed to benefit young children and their families. The Summit provided the perfect forum for the spectrum of early childhood stakeholders to learn from, collaborate with, and empower one another.

According to Summit attendees:

"For a first-time attendee, this was a wonderful experience. The Summit was well-organized, and the keynote speakers were noteworthy. The receptions were a great way to keep people connected and networking once the sessions were over. I look forward to attending the Summit again next year. Even my mother, who is a health care professional, upon hearing about the Summit, wished she would have sent some of her nurses."

"Overall, the Summit was excellent! The keynote speakers were amazing, and the workshop topics were relevant to the work I do."

LEGISLATIVE AND BUDGET ENGAGEMENT

The year 2020 marked an unprecedented year of policymaking as the COVID-19 pandemic impacted all aspects of California Legislative, Budgetary, and Administrative functions. Amid Capitol closures and a shift to mostly virtual operations, advocacy certainly looked different this year and will likely continue to look different for some time. Partnerships and coalition building proved more important than ever to elevate priorities at a time of immense need across the board. Through shared advocacy efforts between First 5 California and its early childhood education and care partners and leaders in the Legislature, the early childhood field was able to thwart deep budget cuts, including a proposed 10 percent reduction to provider reimbursement rates that would have been devastating to the field. First 5 California and the Early Care and Education Coalition were successful in working with various departments and the Governor's Office on COVID-19 guidance, FAQs, emergency orders, and Management Bulletins regarding COVID-19 flexibility and protocols critical to the stabilization of the field, including the use of electronic signatures, reopening policies, personal protective equipment, obtaining essentials such as cleaning supplies, diapers, and formula, the suspension of family fees, and a hold harmless for providers for COVID-19-related absences.

With all focus on supporting children, families, and providers through the COVID-19 pandemic, the state did not see a lot of movement this year on new policies impacting children and families. However, Governor Newsom and the Legislature did set the stage for a restructuring of California's child care system in the 2020–21 Budget Act, transferring all child development programs, with the exception of the California State Preschool Program, to the Department of Social Services, beginning in July 2021, to promote a unified early childhood system that improves program integration and coordination with other major programs serving young children. This change will be implemented in conjunction with the adoption of a Master Plan for Early Learning and Care set to be completed at the end of 2020 that will guide the state's investments in early childhood education and family strengthening supports.

While the year 2020 centered around protecting existing early childhood infrastructure, First 5 California celebrated one hard-fought and long-awaited policy win in the form of Paid Family Leave. In 2019, Governor Newsom convened a Paid Family Leave Task Force, bringing together members of the early childhood, business, and labor communities to develop a set of policy recommendations for how to expand and create a more equitable Paid Family Leave program in California, and ultimately achieve the goal of six months of bonding time with a parent for every California baby. First 5 California sat on the Task Force, providing a key early childhood voice and perspective, and helped to develop the recommendations released in January 2020. SB 1383 (Jackson) was signed by the Governor on September 17, 2020, making progress on the first recommendation made by the Task Force and getting the state closer to universal job protected leave. SB 1383 ensures all workers who work for an employer with five or more employees have access to job protected leave to care for a new baby, an ill family member, their own serious health condition, or to address a military exigency – a huge win for California families. Because of this legislation, more babies will be able to spend their first weeks and months bonding with a loving parent, setting a foundation for life success.

First 5 California is committed to supporting children, families, and providers through the COVID-19 pandemic and beyond, while continuing to build on state and federal advocacy achievements, by working to strengthen its partnerships with stakeholders and its efforts to build policymakers' knowledge base and investment in shared priorities. Capitalizing on the deep commitment to early childhood education and care from the Administration and the Legislature, First 5 California staff and partners pledge to work with the Administration, State Superintendent of Public Instruction, Department of Social Services, Master Plan for Early Learning and Care and Early Childhood Policy Council teams, and the Legislative Women's Caucus. These entities work together to build and implement a road map for building a stronger, more equitable, high-quality early learning system for all California's children,

and determine how best to invest scarce resources in this crucial foundation for lifelong success. In doing so, the Commission will build on this year's successes and continue working toward the underlying Strategic Plan goal to ensure all children prenatal through age 5 have the resources, foundation, and systems of support they need to thrive.

COVID-19 PANDEMIC ASSISTANCE

On March 11, 2020, the World Health Organization (WHO) declared COVID-19 a pandemic with a sustained risk of further global spread. Out of an abundance of caution, the *Governor's Proclamation of a State Emergency and Executive Order, N-25-20*, was issued on March 12, 2020.

COVID-19 is having a devastating effect on the world, touching the lives of every person in some way, shape, or form. Governor Newsom was, and continues to be, on the forefront of addressing this ravaging pandemic. Despite the Governor's admirable and ambitious efforts, Californians still struggle with economic, emotional, and physical impacts of the virus.

In particular, children and families are experiencing a generational health crisis that requires extreme caution to help mitigate the growth of the coronavirus and inhibit infecting large portions of the population. Likewise, childcare programs and providers have been especially hard hit by closures and dwindling childcare services.

To assess COVID-19's impact, First 5 California worked with the Governor's Office, the First 5 Association, and childcare advocates to survey counties regarding what supplies were most needed. Survey results indicated basic necessities such as diapers, baby wipes, and hand soap were most needed.

In April 2020, the First 5 California State Commission took strong action to address the pandemic and approved $4 million to provide emergency support to local communities around the state grappling with COVID-19. This effort has supplemented other supply acquisition efforts around the state and was coordinated to maximize the various funding sources to support the purchase of emergency supplies and not duplicate efforts. The goal was to prioritize childcare providers serving first-line responders and people working in essential services. After those childcare providers had been served, counties could provide supplies to the broader community.

To that end, First 5 California contracted with SupplyBank.Org, a 501(3) (c) non-profit organization. SupplyBank.Org, First 5 California, and the First 5 Association conducted a second assessment to further quantify the needs of childcare providers remaining open for the kids of essential personnel and the broader community.

The Commission subsequently approved an additional $1 million dollars during the May 2020 Commission meeting in order to continue supporting the local efforts to address COVID-19. As requested, SupplyBank.Org worked directly with each First 5 county commission to develop a county-specific distribution, storage, and delivery plan. This plan included distribution to several local partnering agencies.

Local partner types include:

- Family Resource Centers
- Women, Infants, and Children Program
- Homeless and domestic violence shelters
- County First 5 run centers
- Several hundred childcare providers (data being gathered)
- Other nonprofit and agency partners

SupplyBank.Org and the First 5 Association continue to work together to gather statewide data to illustrate the full scope of this distribution network. Through Fiscal Year 2019–20, SupplyBank.Org distributed the following emergency supplies statewide:

- 1.2 million adult masks
- 150,000 child masks
- 4.9 million diapers
- 75,000 baby wipes
- 30,000 units of all-purpose cleaner
- 68,000 units of disinfectant solution
- 30,000 units of disinfectant spray
- 60,000 units of hand sanitizer
- 114,000 units of hand soap
- 3.1 million surgical gloves
- 63,000 children's books

Efforts will be ongoing throughout the first half of Fiscal Year 2020–21 as the contract sunsets on February 28, 2021.

The First 5 California State Commission took strong action to address the pandemic and approved $5 million in total to provide emergency support to local communities around the state grappling with COVID-19.

Serving California's Young Children, Parents, and Teachers

FOUR RESULT AREAS

First 5 California tracks progress in four result areas to inform evidence-based funding decisions, program planning, and policies:

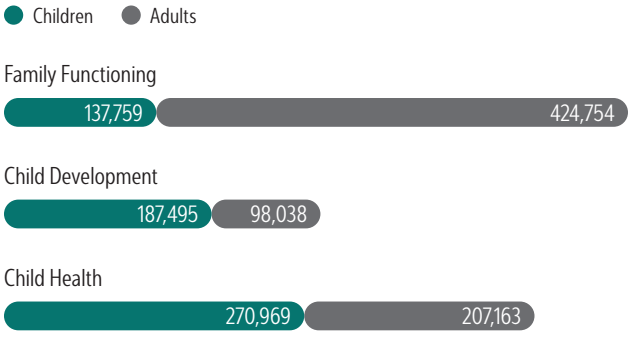
- Improved Family Functioning
- Improved Child Development
- Improved Child Health
- Improved Systems of Care

These result areas comprise a framework for reporting early childhood investments. This reporting framework provides a statewide overview of the number, type, and costs of services provided to children and adults during a fiscal year. Stakeholders can use this information to assess resource allocation and impact for First 5 county commissions statewide.

Exhibit 1 contains the total numbers of services provided to children ages birth to 5 and adults (including primary caregivers and providers) during FY 2019–20 for Improved Family Functioning, Improved Child Development, and Improved Child Health. First 5 county commissions provided a total of 596,223 child services and 729,955 adult services. The distribution of expenditures in these three result areas totals $321 million (Exhibit 2).

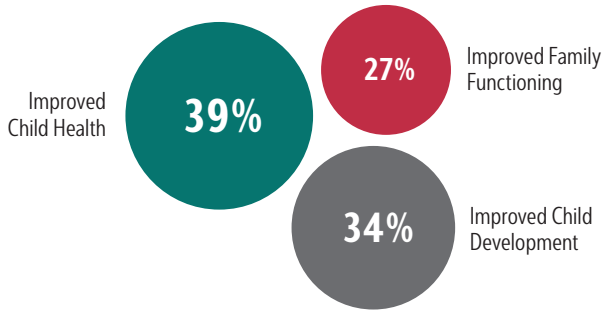
The result area, Improved Systems of Care, with expenditures of $84 million, differs from the others. It consists of programs and initiatives that support program providers in the other three result areas. The four result areas combined have total expenditures of $405 million.

Exhibit 1: Total Number of Services Provided to Children Ages 0 to 5 and Adults* in FY 2019–20 Across Result Areas



*Totals for Adults include both Primary Caregiver and Provider counts

Exhibit 2: Total Expenditures for Children Ages 0 to 5 and Adults* in FY 2019–20 by Result Area



*Adults include both Primary Caregivers and Providers

3301

First 5 County Commission Program Result Areas

First 5 county commissions are required to report to First 5 California expenditure and service data for programs. In collaboration with the First 5 Association, First 5 California developed and adopted guidelines to standardize data collection and reporting under four result areas. For this annual report, data are aggregated to the statewide level. Data reported are from programs funded by both state and county First 5 Commissions (Appendix A) using specific definitions for each result area with service category detail (Appendix B). The four result areas are listed below:

IMPROVED FAMILY FUNCTIONING

Family Functioning includes the categories General Family Support and Targeted Intensive Family Support. Services include instruction on general parenting topics, support for basic family needs and case management, parent education and literacy, referrals to community resources, and assistance for parents and families; and support to schools and educational institutions, nonprofit community-based agencies, government agencies, and private institutions.

In FY 2019–20, First 5 county commissions provided a total of 137,759 services to improve family functioning for children ages birth to 5, with 116,346 child services in General Family Support and 21,413 child services in Targeted Intensive Family Support.

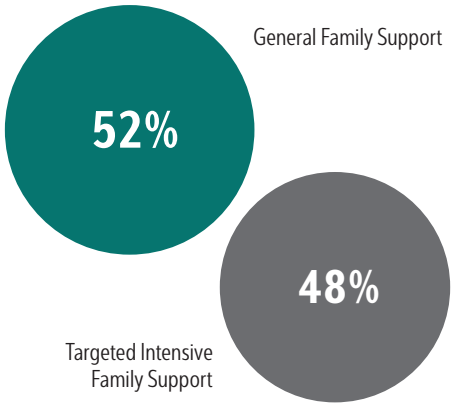
First 5 county commissions provided a total of 424,754 services to adults (parents, guardians, primary caregivers, relatives, and providers), with 399,510 adult services in General Family Support and 25,224 adult services in Targeted Intensive Family Support. Exhibit 3 displays the numbers of services provided.

First 5 county commissions expended $86 million to improve Family Functioning, with 52 percent of expenditures in General Family Support and 48 percent of expenditures in Targeted Intensive Family Support. Exhibit 4 shows the distribution of expenditures by service category.

Exhibit 3: Family Functioning—Total Number of Services Provided to Children Ages 0 to 5 and Adults* in FY 2019–20 by Service

*Totals for Adults include both Primary Caregiver and Provider counts

Exhibit 4: Family Functioning—Distribution of Expenditures for Children Ages 0 to 5 and Adults* in FY 2019–20 by Service



*Adults include both Primary Caregivers and Providers

3303

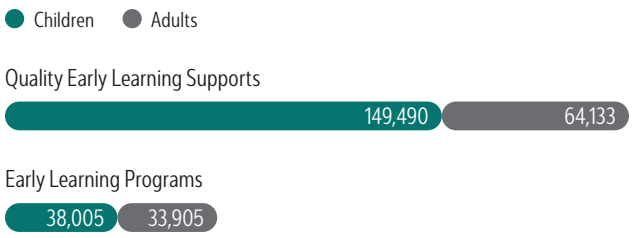
IMPROVED CHILD DEVELOPMENT

Child Development includes the categories Quality Early Learning Supports and Early Learning Programs. Programs include professional development for educators, high-quality preschool, services for diverse populations, and school readiness.

In FY 2019–20, First 5 county commissions delivered 187,495 child development services to children ages birth to 5, with 149,490 child services in Quality Early Learning Supports and 38,005 child services in Early Learning Programs.

First 5 county commissions provided 98,038 services to adults (parents, guardians, primary caregivers, relatives, and providers), with 64,133 adult services in Quality Early Learning Supports and 33,905 adult services in Early Learning Programs. Exhibit 5 displays the numbers of services provided.

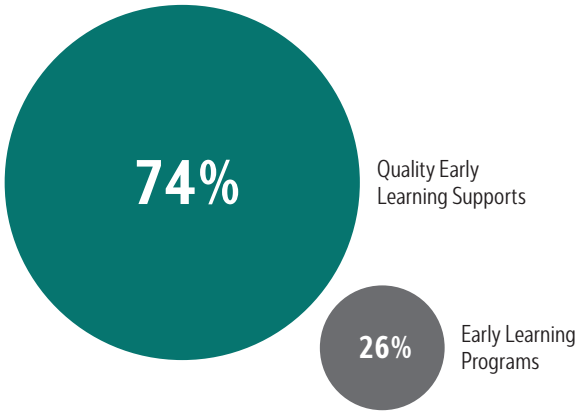
Exhibit 5: Child Development—Total Number of Services Provided to Children Ages 0 to 5 and Adults* in FY 2019–20 by Service



*Totals for Adults include both Primary Caregiver and Provider counts

In FY 2019–20, county commissions expended $110 million to improve Child Development, with 74 percent of expenditures in Quality Early Learning Supports and 26 percent of expenditures in Early Learning Programs. Exhibit 6 shows the distribution of expenditures by service category.

Exhibit 6: Child Development—Distribution of Expenditures for Children Ages 0 to 5 and Adults* in FY 2019–20 by Service



* Adults include both Primary Caregivers and Providers

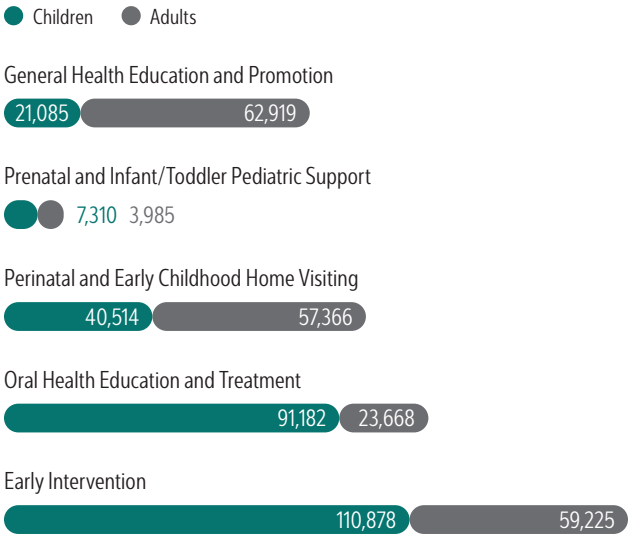
IMPROVED CHILD HEALTH

First 5 county commissions fund a variety of Child Health services that promote identification, treatment, and elimination of risks that threaten health and cause developmental delays and disabilities. First 5 Child Health services are far-ranging and include the categories General Health Education and Promotion, Prenatal and Infant/Toddler Pediatric Support, Perinatal and Early Childhood Home Visiting, Oral Health Education and Treatment, and Early Intervention.

In FY 2019–20, First 5 county commissions provided a total of 270,969 to children ages birth to 5, with 21,085 child services in General Health Education and Promotion, 7,310 in Prenatal and Infant/Toddler Pediatric Support, 40,514 in Perinatal and Early Childhood Home Visiting, 91,182 in Oral Health Education and Treatment, and 110,878 in Early Intervention.

First 5 county commissions provided 207,163 services to adults (parents, guardians, primary caregivers, relatives, and providers), with 62,919 adult services in General Health Education and Promotion, 3,985 in Prenatal and Infant/Toddler Pediatric Support, 57,366 in Perinatal and Early Childhood Home Visiting, 23,668 in Oral Health Education and Treatment, and 59,225 in Early Intervention. Exhibit 7 displays the numbers of services provided.

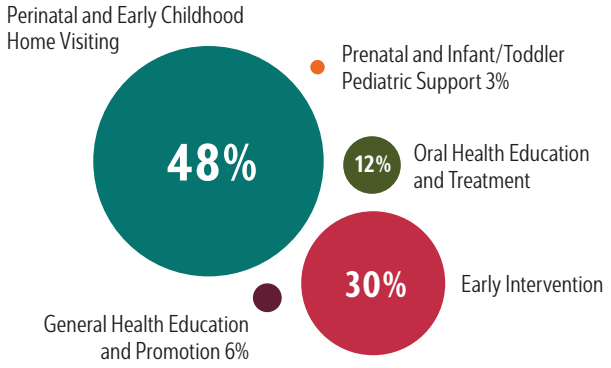
Exhibit 7: Child Health—Total Number of Services Provided to Children Ages 0 to 5 and Adults* in FY 2019–20 by Service



*Totals for Adults include both Primary Caregiver and Provider counts

In FY 2019–20, county commissions expended $125 million to improve Child Health, with 6 percent of expenditures in General Health Education and Promotion, 3 percent in Prenatal and Infant/Toddler Pediatric Support, 48 percent in Perinatal and Early Childhood Home Visiting, 12 percent in Oral Health Education and Treatment, and 30 percent in Early Intervention. Exhibit 8 shows the distribution of expenditures by service category.

Exhibit 8: Child Health—Distribution of Expenditures for Children Ages 0 to 5 and Adults* in FY 2019–20 by Service

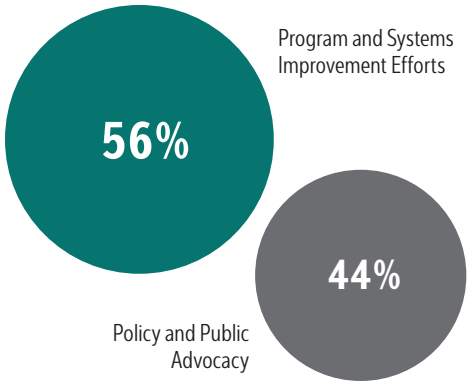


*Adults include both Primary Caregivers and Providers

IMPROVED SYSTEMS OF CARE

Systems of Care addresses system-wide structural supports as county commissions focus efforts within the result areas of Family Functioning, Child Health, and Child Development. For example, interagency collaboration allows coordinated wrap-around efforts from multiple organizations providing targeted services. Since this result area is at a systems level, counties do not report numbers of children and adults served. Expenditure data indicate that for FY 2019–20, county commissions expended $84 million to improve Systems of Care (Exhibit 9), with 44 percent toward Policy and Public Advocacy, and 56 percent of expenditures toward Program and Systems Improvement Efforts.

Exhibit 9: Systems of Care—Distribution of Expenditures in FY 2019–20 by Service



POPULATIONS SERVED

County commissions serve populations representing a diversity of age, racial/ethnic, and language groups. Statewide, by age, 32 percent of children served were under 3 years old, 49 percent were ages 3 through 5 years old, and 19 percent were of unknown age. Adults served included primary caregivers such as parents and other family members (91 percent), and service providers (9 percent).

With respect to primary language of children served, the two largest groups served were English (41 percent) and Spanish (25 percent) speakers, followed by speakers of Asian languages (Vietnamese, Cantonese, Mandarin, Korean, 2 percent) and language unknown (29 percent). By racial/ethnic group, children and adults served included Hispanic or Latino as the largest group (32 percent), followed by White (12 percent), Asian (5 percent), Other (5 percent), Black or African American (4 percent), Two or More Races (2 percent), Alaska Native or American Indian (1 percent), Native Hawaiian or Pacific Islander (less than 1 percent) and unknown race/ethnicity (39 percent).

Priority Area: Child Health

KIT FOR NEW PARENTS

The award-winning *Kit for New Parents* targets hard-to-reach and low-income families, providing key information and resources for first-time parents, grandparents, and caregivers. The *Kit* is a foundational resource to support parents with the most important job anyone can have—parenting. The *Kit* is intended to put crucial materials at a parent or caregiver's fingertips on day one.

Since 2001, First 5 California has distributed the *Kit* free-of-charge to local hospitals, physicians, and community groups to reach new parents. The *Kits* are available in English, Spanish, Chinese, Korean, and Vietnamese. Parents and organizations also can place *Kit* orders directly via First 5 California's ordering portal. **https://apps.ccfc.ca.gov/First5ParentingKits**

The *Kit* is a colorful, reusable bag containing a health handbook; a baby board book; a Women, Infants, and Children mobile website flyer; a poison control brochure and magnet; and other important information on paid family leave, and literacy and learning. It also features the Parent Guide, a resource written in collaboration with UC Berkeley's Health Research for Action. The Guide includes tips for parents on keeping their children healthy and safe, developmental milestones, handling emotional and behavioral challenges, finding quality childcare, and much more. It also is available in online format at **https://parentguide.first5california.com/en-US**.

First 5 county commissions are encouraged to add local references and resources to the *Kit* to help inform parents about services in their own communities.

To date, over 5 million *Kits* have been distributed throughout California since 2001, with 145,000 distributed this fiscal year alone.

SMOKING AND VAPING CESSATION

A major health risk to young children is exposure to nicotine, tobacco smoke, and e-cigarette (vape) liquid and aerosol. Exposure to these substances differ by demographic group, exacerbating existing health disparities for ethnic minorities and low-income families.[1] Prenatal smoking dramatically increases the risk of health problems such as preterm birth, low birth weight, birth defects, and damage to a developing baby's brain and lungs. Exposure to secondhand smoke is also dangerous for babies and young children whose lungs are still developing. Newborns exposed to secondhand smoke are at an elevated risk for Sudden Infant Death Syndrome (SIDS). Additionally, young children exposed to secondhand smoke are more likely to have ear infections, breathing problems, and learning disabilities. Increasing use of e-cigarettes is problematic since vaping while pregnant and secondhand exposure after birth can expose a developing child to nicotine and other toxins. Though smoking prevalence has decreased in California overall, smoking remains high among low income families and poses health risks to the most vulnerable children.

First 5 California has funded the California Smokers' Helpline (Helpline) since 2001 to help parents and caregivers of young children quit smoking, educate the public about the harms of tobacco use, and reduce the likelihood babies and young children will develop tobacco-related health problems. Helpline services have expanded to include vaping because of the rise in e-cigarette use, especially in young adults (up from 10.1% in 2017 to 14.9% in 2018 among 18–25 year-olds[2]). In FY 2019–20, the Helpline provided services to 2,327 callers who were either pregnant smokers or smoking parents or caregivers of children ages 0 to 5.

Helpline Services

The Helpline provides one-on-one telephone counseling through a toll-free Helpline (1-800-NOBUTTS for smokers and at 1-844-8-NO-VAPE for vape users). Helpline services also include text, chat, and mobile apps as low barrier ways to engage people in the process of quitting. Helpline counselors utilize scientifically validated protocols shown to double the odds of callers quitting smoking successfully. Chat counseling support is available through www.nobutts.org. Participants are provided self-help materials, referrals to local resources, and free nicotine patches (if medically

eligible), sent directly to their homes. Services through the Helpline are available in English, Spanish, Mandarin, Cantonese, Korean, and Vietnamese.

In FY 2019–20, 10% of participants who received Helpline services were current vape users. Counseling to quit vaping addresses misunderstanding of health risks, difficulty assessing nicotine consumption, and challenges to identifying triggers when someone vapes all day long as well as motivation, planning, skill building, and accountability found in all Helpline protocols. The Helpline website has information about why "Kids and Vapes Don't Mix" and fact sheets that explain the health consequences of exposing young children to e-liquid and vape aerosol, and the relationship between smoking/vaping and COVID-19.

HOME VISITING

Research shows intervening as early as possible to mitigate the impacts of poverty has the greatest likelihood of improving child outcomes. Early childhood home visiting and out-of-home prenatal/pediatric supports have proven to help vulnerable children and families overcome barriers to health and well-being. Yet, not all families who are eligible and interested have access to voluntary home visiting or prenatal/pediatric support services. Only 10 to 20 percent of at-risk families who would likely benefit from home visiting receive these services. To address this need, the FY 2019–20 Budget Act approved $164.9 million in new state funds across multiple home visiting programs, bringing the total FY 2019–20 state investment in home visiting to more than $230 million. This influx of new state funding highlighted two issues which the Commission sought to address:

1. Effectiveness of home visiting relies upon a well-qualified, culturally competent workforce available to serve populations of need. It became apparent California needed to understand the strengths and gaps in the home visiting workforce and develop an infrastructure to prepare, retain, and expand a well-qualified home visiting workforce. In July 2019, the Commission authorized $2 million through January 2022 to understand the demographics, training, retention, and well-being of the existing California home-visiting workforce (including prenatal/pediatric support), map the current workforce to the demographics of vulnerable families and provide policy recommendations for workforce infrastructure and policy. Child Trends, Inc. was identified as the evaluation contractor through a competitive bid process and began work in March 2020.
2. In order for vulnerable families to access critical services and supports, home-visiting programs must be coordinated and embedded into broader systems of child and family support. In October 2019, the Commission authorized $24 million for five years through FY 2024–25 to support this goal and to strengthen cross-county, cross-agency networks of support. A Request for Application was released in May 2020 and by June 30, 2020, 50 counties applied for the funding and agreed to work with local partners to better coordinate local systems that support families with the home-visiting services they need and maximize available funding to serve more families.

These projects are being implemented in collaboration with leaders from the Department of Social Services, Department of Public Health, First 5 Los Angeles, and the First 5 Association of California.

FUNDED RESEARCH: CALIFORNIA HEALTH INTERVIEW SURVEY

First 5 California continued support of the California Health Interview Survey (CHIS) conducted by the UCLA Center for Health Policy Research. In July 2019, the Commission approved $1.7 million in support of CHIS for Fiscal Years 2019–20 and 2020–21. First 5 California is the primary funder of the CHIS Child Questionnaire that asks parents about topics including child care, preschool participation, positive parenting activities (parents' or caregivers' knowledge of the *Talk. Read. Sing.®* campaign), breastfeeding practices, health status and conditions, child oral health, developmental screening and referrals, languages spoken at home and English proficiency of parent, and receipt and use of First 5 California's *Kit for New Parents*. Funding also supports online public access to data via the AskCHIS query tool, (www.ask.chis.ucla.edu), and various research reports (healthpolicy.ucla.edu/chis). With First 5 California's contribution, UCLA will publish a policy brief and child questionnaire methodology brief during Fiscal Year 2020–21.

"Early childhood home visiting and out-of-home prenatal/pediatric supports have proven to help vulnerable children and families overcome barriers to health and well-being."

3309

MIGHTY CUTE

Priority Area: Child Development

FIRST 5 IMPACT

First 5 California completed the fifth and final year of First 5 IMPACT (Improve and Maximize Programs so All Children Thrive), a $190 million investment that provided funding for the implementation of local quality rating and improvement systems (QRIS). Specifically, First 5 IMPACT supported the improvement of quality early learning and care (ELC) settings across the entire continuum—from alternative settings and family, friend, and neighbor care, to family child care homes, centers, and preschools. Building on the previous success of California's Race To the Top-Early Learning Challenge grant, First 5 IMPACT supported a network of local quality improvement efforts, forged partnerships with all 58 counties via 48 consortia, built on past First 5 California programs, and aligned with and leveraged federal, state, and local investments. For FY 2019–20, local consortia participating in First 5 IMPACT reported that of the 7,723 sites participating in QRIS, over two-thirds (5,111) were supported in full or in part with First 5 IMPACT funding. The match requirement for First 5 IMPACT brought substantial new or leveraged funding sources identified to support local implementation. Those sources include county sales tax ballot measures, city/county funds, higher education partners, private foundations/ philanthropy organizations, and other federal funding sources (Head Start, Early Head Start-Child Care Partnership Grant, and more).

Regional Coordination and Training and Technical Assistance Hubs (Hubs) continued to be a central source of support for consortia. Funded through First 5 IMPACT, Hubs supported efficiencies in data collection and data systems, assessor management for rating and assessment tools, and provided assistance with local and regional training needs. Local consortia identified the regional Training and Technical Assistance Hubs as very effective in facilitating communication, offering high-quality professional development that met local needs, and supporting the use of data to guide continuous quality improvement decisions. First 5 California will continue to fund Hubs throughout IMPACT 2020.

Due to the COVID-19 pandemic, state, local, and regional consortia were forced to abruptly shift efforts in order to provide emergency support to ELC providers and families. The pandemic caused participating site closures, delayed assessment and ratings, created barriers to teachers and providers completing planned professional development work, and brought an overwhelming concern for staff, children, and communities served. The design of the Hubs and First 5 IMPACT both directly contributed to the efficiencies and ability for regional and local implementation to shift in addressing the needs of families and providers in the wake of the COVID-19 pandemic. First 5 IMPACT consortia reported using a variety of strategies to support programs and providers during this time. Throughout the state, consortia quickly pivoted quality improvement supports whenever possible to address emerging health and safety needs, COVID-19 prevention practices and resources, parent engagement and support, child social-emotional needs, and trauma-informed practice. Because of the local flexibility of First 5 IMPACT and Hub supports, consortia were able to develop and implement strategies for providing and delivering critical supplies to those continuing care for the children of essential workforce personnel, as well as support families with early learning supports whose ELC programs were closed, either temporarily or permanently. To address workforce needs, local administrators promoted the use of technology to access virtual professional development and coaching, when feasible, and many worked to share technology resources. Most consortia also made adjustments to eligibility requirements for teachers and program stipends and grants in order to continue support to essential early learning and care service workers despite the participation barriers they faced.

The $12 million Regional Training and Technical Assistance Infrastructure Development WestEd contract funded under First 5 IMPACT supported the development of quality standards, common definitions, and best practices across coaching, training, and family engagement resources for local administrators, technical assistance providers, and early learning and care professionals. Regional coordination has improved significantly as a result of these resources and sharing of best practices within and across regions. Alignment of quality standards will continue with the upcoming roll-out of the Coach Certification program development.

3311

In January 2019, First 5 California released a Request for Application (RFA) for IMPACT 2020 funding, $103 million over three fiscal years (2020–21 through 2022–23), to continue First 5 California's efforts to support the ELC field and expand statewide participation in Quality Counts California. IMPACT 2020 was included in a joint RFA developed in partnership with the California Department of Education (CDE), the Quality Counts California Local Consortia and Partnership Grants. The cross-agency funding opportunity included both CDE Block Grants (California State Preschool Programs Block Grant and Quality Counts California (QCC) Block Grant), as well as IMPACT 2020, in an effort to align the QCC system of funding and strengthen partnerships. In addition to continuing and building upon the efforts of First 5 IMPACT, IMPACT 2020 will increase focus on underserved and high need populations by prioritizing settings that do not receive other state or federal funding such as family child care providers; family, friend, and neighbor care; and other private market settings serving vulnerable populations such as infants and toddlers, and families who receive subsidized care.

QUALITY COUNTS CALIFORNIA

Quality Counts California (QCC) is a statewide system of locally implemented Quality Rating and Improvement Systems (QRIS) that provide resources and support to early learning and care providers so they can create engaging and effective experiences that help children grow and thrive. California's statewide QRIS, QCC, was funded in large part by First 5 IMPACT, and continues through IMPACT 2020, in addition to state and federal funding administered by the California Department of Education (CDE). QCC has created partnerships between state and local entities through the QCC Consortium. The QCC Consortium includes local lead agencies, and representatives of First 5 California and the CDE. Through this partnership, state and local leaders are able to come together to discuss topics and issues related to local and state level QRIS implementation. Local consortia reported QCC has provided a statewide common effort and unified vision for improving the quality of early learning sites in the state, and most identified great success in the areas of provider participation in professional development, maintaining strong collaborative partnerships, and programs and providers valuing participation in quality improvement efforts.

All early learning sites participating in QCC are reported in the statewide common data file, which is inclusive of all of the state's QRIS funding streams. This data provides First 5 California and the CDE an efficient and collaborative method for receiving information about each county participating in QRIS. As of June 30, 2019, there were over 7,700 participating QCC sites across the state, including 2,838 family child care homes, 4,139 centers, 268 family, friend, and neighbor providers, and 478 additional alternative settings. In total, 402,933 children ages 0 to 5 benefitted from the quality improvement support provided by QCC.

The onset of COVID-19 presented QCC local and regional partners with many challenges. QCC state leadership approved adjustments to local rating cycles which alleviated stressors on participating sites when support and rating processes were significantly limited. As the pandemic was realized and local and state guidance began to roll out to providers, consortia provided critical support to programs and the field. This included communication and guidance (frequently coordinated with local Child Care Resource and Referral Agencies) on mandates and information from state and federal agencies and programs, as well as supplies and resources. These linkages included the California Department of Social Services - Community Care Licensing, the California Department of Education - Early Learning and Care Division, the California Department of Public Health, as well as other forms of safety-net support to businesses through the U.S. Small Business Administration Payroll Protection Program and the California Employment Development Department Unemployment Benefits.

Throughout FY 2019–20, the QCC website has continued to expand, adding content to audience-specific webpages, updated county-specific profile pages, and an expanded format for formal messaging around the importance of quality early learning. The QCC website continues to add information regarding local QRIS efforts to support early learning providers, and connections to local resource and referral agencies for parents and families looking for quality child care. In addition to website expansion, the first two of five virtual modules of the Family Engagement Toolkit were released and are now accessible for professional development hours on the QCC website. For more information on QCC, visit the website at **https://qualitycountsca.net/**.

SMALL POPULATION COUNTY FUNDING AUGMENTATION

First 5 county commissions in small population counties play a crucial role in providing programs for prenatal to five-year-old populations; without the local First 5 commissions, children in most of these counties would not have access to necessary services. Because the statutory funding formula in the California Children and Families Act (Proposition 10) is based on the number of births each year, in counties with small populations and a low number of births, funding is

"The design of the Hubs and First 5 IMPACT both directly contributed to the efficiencies and ability for regional and local implementation to shift in addressing the needs of families and providers in the wake of the COVID-19 pandemic."

3313

not enough to fully operate a First 5 county commission and offer programs. Since the beginning of Proposition 10 in fiscal year (FY) 1999–2000, First 5 California has implemented a variety of strategies to support the state's small population counties, including the Small Population County Funding Augmentation (SPCFA).

On January 26, 2017, the State Commission approved a continued investment of up to $8.625 million in SPCFA funding over four years (July 1, 2017–June 30, 2021). The funding augments Proposition 10 revenue for 20 small population county commissions so they can maintain core operations and provide services for children and families in these communities and helps ensure implementation of Proposition 10 is a statewide effort. In FY 2019–20, small population counties received a total of approximately $4.0 million in SPCFA funding.

SPCFA funding is vital to serving the needs of children in these counties. Small population counties serve proportionally high numbers of children with risk factors, including incidents of child maltreatment, adverse childhood experiences, and limited access to supports for health and wellness. With SPCFA funding, directors in First 5 county commissions reported successes in building collaborative relationships across health, education, child welfare, social service, and county government offices to address gaps in services, improve outreach and enrollment in services, overcome geographic barriers and family isolation, increase coordination among programs, and maximize resources. Every SPCFA county funded at least one evidence-based or evidence-informed program in FY 2019–20, such as the Nurturing Parents Home Visiting Program, Parents as Teachers Home Visiting Program, Raising a Reader, the Dolly Parton Imagination Library, and Positive Parenting Program (Triple P). During FY 2019–20, approximately 19,704 children and 21,032 adults in these counties received services from SPCFA-funded child health, family support and strengthening, and early learning and development programs.[3]

DUAL LANGUAGE LEARNER PILOT

Nearly 60 percent of California's children ages birth through five years are dual language learners (DLL). Research shows children who develop their home language and English early in life benefit from enhanced cognitive skills, academic outcomes in school, and long-term economic gains. Recent studies indicate, on average, inadequately supported DLLs enter kindergarten behind their peers, particularly in the areas of language, literacy, and mathematics. Young DLLs need rich early learning experiences and assessment in their home language so early childhood educators can fully understand what DLLs know and are able to do and how to support them.

In 2016, the First 5 California Commission authorized $20 million for a DLL Pilot Study to examine culturally and linguistically responsive and effective intentional teaching, family engagement, and professional development strategies for DLLs. The DLL Pilot Study evaluation is led by a research team from the American Institutes for Research (AIR) and will continue through June 2021.

AIR identified 16 counties in which to conduct the DLL Pilot Study, including Butte, Calaveras, Contra Costa, Fresno, Los Angeles, Monterey, Orange, Riverside, Sacramento, San Diego, San Francisco, Santa Barbara, Santa Clara, Sonoma, Stanislaus, and Yolo.

On February 6, 2020, First 5 California hosted a legislative briefing at the State Capitol to release AIR's report entitled, **The Early Learning and Care Context for Dual Language Leaners in California**. Available at **californiadllstudy.org/reports**, the brief summarizes findings from interviews with leaders in the study's 16 counties about the policy context, workforce development efforts, and instructional supports in these counties to better understand the landscape of policies and supports for DLLs in the state.

The second phase of the study, the in-depth phase, began during summer 2019. The in-depth phase is designed to examine how specific instructional and family engagement strategies support child outcomes, with attention to differences in age (infants and toddlers, preschoolers), setting type (family child care, center-based programs, and unlicensed community settings), and language

groups (home languages beyond Spanish). Because of the COVID-19 pandemic, AIR was required to curtail certain data gathering in March 2020. Modified data collection, in response to COVID-19, will help this phase of the study examine the effects of the pandemic on DLL children's learning and family engagement.

In spring 2020, First 5 California launched the third phase of the study, the expansion phase, designed to provide information about how effective instructional support, family engagement, professional development strategies can be sustained, scaled, and expanded to other contexts during the COVID-19 pandemic. In addition, this phase is examining how a systemwide commitment to DLLs can be integrated into recovery from the devastating effects of COVID-19 on early learning and care programs. This phase of the study will continue through 2021, providing findings and policy recommendations in early 2022.

The three phases of the study build on one another to further the ultimate goal for California's young DLLs—to thrive, develop bilingual ability, be ready for kindergarten, and succeed in school and beyond.

AIR plans to release at least 10 publications in Fiscal Year 2020–21, including topic-specific briefs and research papers for various audiences, policy products, and a final report.

EDUCARE

In 2010, the First 5 California Commission voted to become an inaugural funder in bringing the public-private Educare Quality Early Learning Model to California. The Commission dedicated $6 million to support the launch, operation, and evaluation of the first California Educare centers in Santa Clara and Los Angeles counties. First 5 California's investment in California's two Educare sites funds high-quality classroom elements, which have proven to increase the quality of early learning programs through improved teacher-child interactions.

Through funding from First 5 California and other national, state, and local public and private partners, Educare California at Silicon Valley opened its doors in the 2015–16 school year and serves 168 Santa Clara County-area children and families. The center is co-located with Santee Elementary School, and operates in partnership with First 5 Santa Clara, the Santa Clara County Office of Education Early/Head Start and State Preschool programs, and the East Side Union High School Child Development Program.[4]

Educare of Los Angeles at Long Beach, a public-private partnership lead by Long Beach Unified School District and the Los Angeles Chamber of Commerce, opened its stand-alone facility located on the Barton Elementary School campus in the Long Beach Unified School District in 2018, and serves 182 students and parents.[5]

FUNDED RESEARCH: CALIFORNIA EMERGENCY CHILD CARE BRIDGE EVALUATION

During 2020, First 5 California co-funded an evaluation of the California Emergency Child Care Bridge (Bridge Program). The Heising-Simons Foundation and First 5 San Bernardino also co-funded the project. The purpose of the evaluation, conducted by the Child Care Resource Center (CCRC), is to identify outcomes and guide continuous improvement for this new statewide emergency child care program for foster children.

Enacted by the state legislature in 2017, and administered by the California Department of Social Services through county child welfare agencies, California's Bridge Program aims to facilitate prompt placement of foster children in stable settings by helping relatives or other resource (foster) families obtain supplemental early learning and care for placed children. Key features of the Bridge Program include emergency child care vouchers for resource parents, child care navigators to assist the resource parent, and trauma-informed care training and coaching to staff of participating child care programs. During 2019, 13,347 children ages 0 to 5 years of age newly entered foster care in California.[6]

Children immediately placed with relatives experience less stress than those placed with strangers and gain valuable stability. However, kinship care providers tend to be older and have lower incomes than non-relative resource families. Prior research shows in comparison with non-relative resource parents, kinship care families need more help with:

- Paying for child care
- Navigating systems of child welfare and early learning and care
- Finding a child care provider who meets the needs of their family

The evaluation will provide information on best practices to reach and serve resource parents, focusing on 12 counties at different stages of implementing the Bridge Program. Evaluators will analyze administrative data and conduct interviews and surveys with administrators and resource parents. Results from the evaluation project will be released during 2021 and 2022.

Priority Area: Family Functioning

PARENT WEBSITE

First5California.com has historically served as First 5 California's main resource for parent engagement on child health, education, literacy, child development, and smoking cessation. In recent years, it has expanded to incorporate more information about early brain development, including activities, downloadable resources, and links to organizations that support families. Starting in 2019, First 5 California spent over a year re-envisioning a developing of the parent website in both English and Spanish. The website is slated to go live in fall 2020. Content for the site was informed by educators and researchers in the field of child development. It was redesigned from the bottom up to provide new levels of functionality, ease of use, access to resources, tips, and activities. Parents and caregivers visiting First5California.com will be able to browse by their child's age group—Newborn, Baby, Toddler, or Preschool—and instantly access a wide variety of parenting tips, articles, instructional videos, and activities geared specifically for that age group and be able to check developmental benchmarks.

SOCIAL MEDIA

The parent website also links to multiple social media channels, including Facebook, Instagram, Pinterest, and YouTube. Across most platforms, followers receive regular posts that highlight simple, actionable tips and ideas surrounding early brain development. As of June 30, 2020, First 5 California's Facebook audience included 215,486 followers. Instagram had 9,376 followers, and Pinterest had 1,742 followers. Beginning spring of 2020, engagement increased as families were primarily spending time at home and logging into social media to find activities to engage their children and information about staying healthy and up to date on COVID-19.

TALK. READ. SING.® SUCCESS

First 5 California's *Talk. Read. Sing.®* campaign, prompting parents statewide to take active roles in increasing their children's early brain development, is one of the most successful public health awareness efforts in First 5 California history. A 2019 study and health policy brief from the UCLA Center for Health Policy Research shows 87% of parents of children ages 0 to 5 recognize the messages of this campaign, understand that engaging with their children in these simple, cost-efficient ways will increase their brain capacity and better prepare them for school and life. Parents who have seen the *Talk. Read. Sing.®* messages are nearly three times more likely to read to their children three or more times per week, and twice as likely to sing to their children three or more times per week. In 2020, specialized television and radio spots were produced and aired, reminding parents of the heightened importance of staying engaged with their children through talking, reading, and singing during the COVID-19 pandemic.

FIRST 5 EXPRESS

Since 2006, First 5 California's mobile outreach tour, First 5 Express, has traveled to every corner of the state, reaching out to families and caregivers of children ages 0 to 5 in all 58 counties. This interactive exhibit features "Edutainers" who educate parents and caregivers, and entertain children. The Express teaches families about a wide variety of topics, including nutrition, physical activity, oral health, literacy, and most recently, early brain development. In FY 2019–20, the exhibit traveled to 85 schools, libraries, resource centers, community festivals, county fairs, and other family-oriented events in 41 counties. The Edutainers directly engaged with more than 23,943 people who walked away with over 108,459 helpful First 5 resources, including a branded hand puppet to give parents and caregivers a tool to spark conversation with their young children. Families were given bilingual storybooks to help make reading a regular routine, a healthy portions plate to encourage a balanced diet, and age-appropriate musical instruments to bring out the joy of song. Together with the already established Kit for New Parents; "Fast, Fresh, and Fun Food from First 5" cookbooks; brain development information; and the First 5 California branded bilingual book, *Three Brainy Birds*, families were provided resources to reinforce the healthy behaviors they experienced. Due to COVID-19, the tour of the Express was cut short in mid-March 2020. Even though our edutainers could not physically visit with families throughout the state, we were still able to connect with families on-line. Beginning in May 2020, First 5 California began live-streaming on Facebook engaging bilingual reading times featuring Edutainers from the First 5 Virtual Express as well as celebrities such as Mario Lopez, Univision's Argelia Atilano, Disney Jr.'s Sonal Shah, and California's First Partner, Jennifer Siebel Newsom. Additionally, the First 5 Virtual Express team produced multiple videos featuring singing, puppet making, exercising, and cooking using the First 5 California cookbook for families to enjoy during their time at home together.

FIRST 5
TULARE COUNTY

First 5 County Commission Highlights

Alameda

In response to the COVID-19 pandemic, First 5 Alameda County leveraged its investments and infrastructure to respond quickly to the needs of families, providers, and community. It provided direct support and engaged in systems change to disrupt inequities and improve conditions for families and communities. In recognition of the interplay between equity, poverty, place, and adult and child well-being, it mobilized resources swiftly for emergency food and essential items; supported the early childhood education (ECE) system with grants, supplies, and TA; funded school districts to support kindergarten transitions; engaged the county Board of Supervisors to invest in CBOs; and pivoted programs to provide direct services for families in alignment with health and safety protocols. These strategies represent a whole-family approach to improving outcomes for children, families, and neighborhoods.

- Neighborhoods Ready for School grantees became supply distribution hubs serving 7,800 families and distributing more than 5.2 million individual items (2,500 diaper packs, 4,900 masks, 500 books, and 900 toothbrushes).
- Direct service programs, Help Me Grow, Healthy Teeth Healthy Communities, and Project DULCE, navigated over 4,000 families to concrete supports.
- Provided stipends for basic needs to all 10 family-serving shelters in the county.
- Help Me Grow supported 3,300 families with care coordination.
- Nearly 100 people participated in "Dad-scussions," an online forum for fathers and providers.
- Pivoted to virtual trainings, with a focus on equity topics and over 2,000 attendees.
- Partnered with Resource and Referral agencies to provide 753,000 diapers and wipes, 3,500 gallons of disinfectant solution, 44,300 masks, 1,800 books and backpacks, and laptops to ECE providers.
- Based on findings from its 2019 Kindergarten Readiness Assessment, First 5 Alameda County is funding 14 school districts over $2 million to support successful kindergarten transitions.

Alpine

The First 5 Alpine County Children and Families Commission invests in a variety of services aimed at supporting children prenatal through age 5 and their families. Primary investments include:

- The Alpine Early Learning Center (AELC), which is the only licensed child care center serving Alpine County families. It provides early care and education to children as young as eight weeks old through kindergarten. In Fiscal Year 2019–20, the program served 24 children ages 0 through 5 and 24 primary caregivers and other family members.
- The Busy Bears Playschool is non-licensed early care and education program serving children as young as three months old through kindergarten. The program offers child care to working families as well as preschool education to young children to prepare them for successful kindergarten entry. In Fiscal Year 2019–20, the program served 12 children ages 0 through 5, and 19 primary caregivers and other family members.
- Catalyst Community provides learner-centered education to parents and caregivers. Workshops center on increasing the knowledge amongst parents and caregivers about research-based children rearing and child development practices. In Fiscal Year 2019–20, the program served six children ages 0 through 5, four primary caregivers, and three early care and education providers.
- School readiness programing, such as that offered at the AELC and Busy Bears Playschool, is serving a significant number of the children ages 0 through 5 in Alpine County.

According to the State of California Department of Finance, the population projections for children ages 0 through 5 for Alpine County in 2020 was 32. Combined, AELC and Busy Bears Playschool served a total of 36 children, indicating that most young children in the county are being served by programs funded by First 5 Alpine.

Amador

First 5 Amador County continues to invest in areas that support parents as their children's first teacher. These investments include access to services by supporting two family resource centers in unincorporated areas, Mobile Outreach/Toddler Playgroups in four locations throughout

the county, a collaborative approach to early literacy with 23 Little Free Libraries throughout the county, and more than 60 percent of age-eligible children receiving books monthly through the *Imagination Library*. First 5 Amador collaborated with five community-based organizations to link families to First 5 California's Diaper Distribution Pilot Program by first offering a Baby Welcome Wagon home visit. This strategy resulted in a significant increase in home visits, screening and services for perinatal mood and anxiety disorders, enrollment in food security programs, and overall participation. Amador Quality for Kids (Q4K), a program focused on ensuring early care and education providers have the support needed to increase quality of care, has engaged more than 70 percent of licensed family child care homes and 92 percent of licensed centers in the county. Support for these providers during the pandemic included distribution of First 5 California and Resource and Referral supplies as well as early learning material and incentives for those who cared for essential workers' children. Q4K participants continue to provide feedback regarding the impact of the support offered during this community crisis. In an effort to decrease isolation brought on by the pandemic and continue to provide early learning opportunities, Toddler Playgroups, Family Resource Center School Readiness Programs, and Dad and Me events were reconfigured to accommodate Covid-19 restrictions by delivering services to families utilizing curbside events and home deliveries. Clinical support for children and their caregivers continues to be offered virtually in an effort to reduce stress and anxiety brought on by the pandemic.

Butte

First 5 Butte County Children and Families Commission was delighted to launch Help Me Grow Butte this past year. The multi-agency collaborative engaged Butte County Office of Education, Butte 211, and Northern Valley Catholic Social Services. Fortunately, the program was launched prior to the Covid-19 shelter-in-place orders, and quickly became a critical point of support for families who were contacting Butte 211 in search of resources. Through Facebook outreach, text messaging campaign and virtual trainings with medical providers, the program has grown steadily in its ability to support healthcare providers, early learning and care providers and families, in a collective effort to support the developmental needs of young children. Between March and June, *Help Me Grow* Butte interacted with 43 families, completed 39 screenings, and initiated 13 referrals. Nearly 80 percent of families reported *Help Me Grow* Butte successfully met their needs. First 5 Butte County is incredibly fortunate to have Dr. Lourdes Valdez as a commissioner and pediatrician champion for *Help Me Grow* Butte. Dr. Valdez's leadership, advocacy, and gentle persuasion has proven invaluable to bringing the project to fruition as well as encouraging the pediatric community to engage with this important initiative.

Calaveras

First 5 Calaveras County continues to enhance the lives of the community's youngest children through partnerships and strategic funding that support families in raising healthy children ages 0 to 5. The most significant accomplishment of the year was the coordinated and creative response to the needs of children and families during the COVID-19 pandemic. With generous supply contributions from First 5 California, our local commission collaborated successfully with the Resource and Referral Agency to distribute much needed supplies to 29 early learning sites that remained open to serve essential workers. IMPACT funds were used to provide emergency stipends to the early childhood education providers as well. Partnering with Calaveras Mariposa Community Action Agency, diapers, wipes, and children's books were distributed to community families. In addition, 334 family engagement activity kits and over 1,200 children's books were strategically distributed across the most remote areas of the county through Little Free Libraries. Programs funded by First 5 Calaveras responded without hesitation to create innovative ways to ensure that services were extended to support 0 to 5 families community wide as well as the early learning sites they regularly serve. Thoughtful and intentional programming flexibility consisted of home visiting being conducted virtually, creating children's safety videos for providers to share with families, developing private Facebook pages for families to have access to hands-on activities and resources, delivering home

gardening supplies to 0 to 5 families, and distributing early literacy activity packets to FCCHs and library consumers with no disruption of advocacy and support for foster children through CASA of Calaveras. Four YouTube nutrition lessons were created and received over 7,900 views collectively. Through the long- standing partnership with Behavioral Health, MHSA funding, virtual support to educators, caregivers, and professionals was provided with multiple trainings and Zoom-based Grandparent Groups.

Colusa

Through its investments, the mission of First 5 Colusa County Children and Families Commission is to enhance the lives of all children ages 0 to 5 and their families through a county-wide, comprehensive, integrated system of early childhood development.

During Fiscal Year 2019–20, First 5 Colusa invested nearly $572,000 in programs and services, benefiting children ages 0 to 5 and their families. Family Resource Centers (FRCs), as well as programs and/or services offered through the FRCs, equated to the largest investment of Commission funding. FRCs served as a central hub of services, offering various parent education classes, provisions of basic needs, application assistance, translation, and school readiness services. The FRCs were instrumental in ensuring the basic needs of families and children ages 0 to 5 were met, which was a critical factor in school readiness and child outcomes.

As with most agencies throughout California and the Nation, this fiscal year proved to be the Commission's most challenging yet. With the onset of the COVID-19 pandemic, the Commission shifted its focus to ensure families received services to meet the needs of the ever-changing environment around them. In-person programming that was deemed non-essential halted as the Commission shifted its focus and resources on the overall health and safety of the community. Some of the services provided during the pandemic included the following:

- Mass distribution of personal protective equipment (PPE) provisions for families.
- COVID-19 Essential Services Operation Stipends for programs serving children ages 0 to 5 during the shelter in place mandate.
- Mass distribution of child development kits for families.
- Delivered kits of PPE provisions, as well as essential supplies to child care centers and family child care providers that remained open during the shelter in place.
- Increased basic emergency provision services at the FRCs through county-wide partnerships with the Board of Supervisors, Public Health, Department of Health and Human Services, and local non-profit agencies.

This fiscal year also allowed the Commission the opportunity to evaluate their existing operation of programming to ensure they are utilizing resources effectively. Administrative staff has worked diligently to create a plan for implementation of services that can be accessed through a virtual format, without compromising the integrity of the program and/or service. As the Commission embarks on an uncertain 2020–21 fiscal year, they are confident they will always keep the needs of the families they serve at the forefront of their work.

3321

Contra Costa

First 5 Contra Costa County began planning *Ready Kids East County*. In partnership with the Dean and Margaret Lesher Foundation, this program is a collective action initiative that aims to address the root causes underpinning the opportunity gap for Black and African American children when it comes to being ready for kindergarten. First 5 Contra Costa serves as the backbone agency, defining the short- and long-term outcomes in the initiative. The agency established a Parent Advisory Group and Design Team consisting of parents, First 5 Contra Costa staff, and community partners. The Design Team will facilitate and plan the parent cafes, a component of the initiative that create spaces for Black and African American parents, to connect and discuss school readiness. Following the shelter-in-place order, First 5 Contra Costa conducted a COVID-19 survey to assess the state of mental health and financial standing of the families with young children in the county (**http://www.first5coco.org/wp-content/uploads/2020/09/F5-ContraCosta-Covid19-Brief-PrinterFriendly.pdf**). Over 400 families responded, providing critical information about their children's needs and concerns. First 5 Contra Costa has met these needs with swift efforts to supply aid to over 4,000 families with diapers, wipes, and PPE supplies from First 5 California. In partnership with Healthy and Active Before 5 and Community Financial Resources, First 5 Contra Costa made it possible for Regional Group families suffering from financial hardship to access cash assistance funds from philanthropic partners, and our partners are adapting and connecting with families virtually. First 5 Contra Costa Centers rolled out an evidenced-based online, distance-learning program known as "Ready Rosie," which seeks to increase family engagement via live videos and text messages. *Help Me Grow* hosted the first Virtual Café of its kind, in which guest speaker Jamie Nunez from Common Sense Media gave a presentation on Distance Learning Strategies and Tools for Early Childhood Providers.

Del Norte

It is hard to look back at this year without seeing COVID-19 as the primary event affecting First 5 Del Norte County's work. It may be overused, but "unprecedented" is the right word to describe the last quarter of the Fiscal Year 2019–20. Never before has the entire county experienced a community-wide trauma of this length and magnitude, shutting schools and businesses with only a few hours' notice in mid-March.

Fortunately, First 5 Del Norte's work over the past two years put it in a good position to continue to support families even while unable to be physically with them. Two of First 5 Del Norte's key programs require no face-to-face connection to families: Dolly Parton's *Imagination Library* and *Ready4K* parent support/engagement texts. Over 600 children ages 0 to 5, approximately 40 percent of the county's total under-5 population, is enrolled in the *Imagination Library*. Children receive a free, high-quality book every month mailed to their home. The localized *Ready4K* texting program sends three texts a week to help parents support their child's learning and development, as well as supporting parental mental wellness. A few weeks after schools closed, Del Norte's countywide district enrolled all pre-K through 4th grade students giving parents a much-needed tool to support at-home learning. These two programs reach families where they are; in 2020, that meant First 5 Del Norte reached families at home.

First 5 Del Norte has also worked to support child care providers during the pandemic. It provided crisis care stipends to providers who continued to serve families throughout the spring and early summer. In partnership with First 5 California, First 5 Del Norte also distributed diapers, PPE, and cleaning supplies to home daycare providers and families through drive-through events. It distributed diapers and wipes, books, crayons and coloring pages, COVID resources, and so much more. Families needed First 5 Del Norte this year like never before. It was able to pivot quickly to serve new and ever-changing family needs.

El Dorado

The First 5 El Dorado County Children and Families Commission has always taken a regional approach to planning and service delivery, recognizing that different areas in El Dorado County have unique resources and needs. Within this framework, the Commission has identified Community Hubs as a key strategy within its 2016–21 strategic plan. In partnership with county agencies and community-based partners, First 5 El Dorado has leveraged resources to support a variety of services through five Community Hubs. During Fiscal Year 2019–20, 5,243 (duplicated across programs) individuals were provided with First 5 funded Community Hub services. The COVID-19 pandemic created increased hardships on families everywhere. In mid-March 2020, Hub services ceased to be offered in person. Community Hubs mobilized to meet the needs of the communities they served. Hub service partners shifted to virtual service delivery where possible, hosting Zoom playgroups and Storytime via Facebook live. Service providers reached out to families to connect and respond to meet basic needs requests. Hub providers partnered with other community service providers to host drive-by diaper giveaways, food distributions, and offer activity packet for families. Some of the feedback received by families who were served during the pandemic included statements of gratitude, such as:

- "The Hub staff came by our house and dropped off a bag of art supplies, and my kids just loved it. We did the diaper drive too, just to see familiar faces."
- "Zoom meetings have continued to create regulation for my child. My daughter enjoys the families faces."
- "Hub staff helped me with my unemployment. I applied in March, but it never came through. Hub staff sat with me for 2.5 hours, and we refiled. I got my unemployment the following month, and that was huge for me. If it wasn't for Hub staff, I wouldn't have gotten it. It has been a major help during this time that I don't have a job."

Fresno

At First 5 Fresno County, we believe that families and communities are the ultimate experts on their needs, and so we prioritize sustainable, innovative solutions that leverage local strengths and resources. The following are examples of the investments in community-based initiatives in both rural and urban Fresno County.

- To address barriers families with young children face accessing services in rural communities, First 5 Fresno County partnered with Centro la Familia Advocacy Services and United Way of Fresno and Madera Counties to improve the coordination of existing cross-sector services in the communities of Huron and Mendota. As a result, community partners developed a community resource guide; enhanced the resource database to be more inclusive of rural services; and piloted ongoing collaborative meetings inclusive of families, service providers, and stakeholders to raise awareness of local services and increase community engagement and alignment of similar organizations.
- As part of an ongoing commitment to tackle the high rates of infant mortality among the African American community in Fresno County, First 5 Fresno County joined a collaborative including West Fresno Family Resources Center, the County of Fresno's Department of Public Health, UCSF San Francisco's Preterm Birth Initiative, and March of Dimes to create a local version of the national Best Babies Zone Initiative (BBZ) called Fresno GROWS (Growing Real Opportunities in West Fresno). Fresno GROWS aims to reduce racial inequities in infant mortality and birth outcomes by mobilizing community residents and organizations to address the social, structural, and economic determinants of health and promote racial equity. Since being selected by the National Organization of Urban Maternal and Child Health Leaders to be part of the BBZ Cohort 4, West Fresno Family Resources Center has convened an African American Leadership Team to build a movement of activated citizens, focusing on the 93706 zip code in Southwest Fresno.

Glenn

First 5 Glenn County Children and Families Commission invests in a variety of services under the umbrella of its *Little Learners* program. These services support children prenatal through age five and their families. The *Little Learners* program provides universal access to preventative and supportive services designed to increase the skills of parents and increase healthy social interaction of families. The program has multiple service components, including parenting instruction, supervised visitation, playgroups, case management for families with complex needs, developmental assessments using the Deveraux Early Childhood Assessment (DECA), and referrals to community resources. In Fiscal Year 2019–20, *Little Learners* achieved the following:

- Parenting Instruction: 27 primary caregivers received parenting instruction, which had benefits for the 36 children of those caregivers.
- Parenting Inventories: 44 primary caregivers received an Adult Adolescent Parenting Inventory at program intake, which measures attitudes and beliefs about parenting and assesses parental knowledge of child development and appropriate expectations. Responses to the inventory provide an index of risk of behaviors known to be attributable to child abuse and neglect.
- Playgroups: 37 children attended playgroups with their primary caregivers.
- Developmental Assessments: 17 children received developmental assessments at program intake, most of which were identified as within the typical range of development.

3323

- Referrals to Community Resources: 10 referrals to community services were provided, the majority of which were to early childhood education providers.

First 5 Glenn County's *Little Learners* program is providing critical supports for families most at risk for child maltreatment.

Humboldt

In Fiscal Year 2019–20, First 5 Humboldt County received funds from the Humboldt County's ACEs Collaborative Partnership (ACP) and the Vesper Foundation for projects to address/prevent Adverse Childhood Experiences (ACEs) and build resilience among local young children and their families. Projects included:

- First 5 Humboldt ACEs/Resilience Speakers Bureau: Qualified presenters with endorsements in Infant Family and Early Childhood Mental Health (IFECMH) and/or trained by the international Child Trauma Academy, were matched with service organizations requesting training based on their needs. Eight ACEs/Resilience training presentations were provided to seven different organizations during the fiscal year, with a total of 229 service providers receiving high-quality training in ACEs and community resilience.
- Expansion of Early Childhood Mental Health Support: Two part-time IFECMH Specialists (Specialists) provided support to outlying First 5 Humboldt Playgroups. One also supported bilingual First 5 Humboldt Playgroups. ACP also partially funds two Specialists working under the Humboldt County Office of Education Partnership. At *Playgroup*, specialists answer questions parents have about their child's development/behavior, conduct informal screenings, provide resource and referral help, and conduct temperament assessments at the request of parents. For additional information, see the Evaluation Narrative.
- ACP Grants to Community Organizations: First 5 Humboldt partnered with Humboldt County Department of Health and Human Services to coordinate selection of 11 grantees. Grants included parenting classes, professional development trainings, and provision of supplies to community members involved in trauma-informed activities. First 5 Humboldt coordinated project evaluations.
- Community Resilience Model (CRM) Training: A two-day online CRM training was offered through the Trauma Resource Institute, attended by 23 individuals from 17 agencies. Twelve participants from 10 agencies continued with the three-day online CRM Teacher Training

Imperial

Through strategies and partnerships, First 5 Imperial County funded programs designed to support the development and well-being of children. Services ranged from asthma care/education to early literacy and support for children with special needs. The Commission recognizes the impact that a sound home visitation program can have on families, particularly this year, as the COVID-19 pandemic and social unrest has affected everyone. In partnership with the Regional Occupational Program and Quality Start Imperial, the Commission funded Project NENES, a program designed to engage parents and Family, Friends, and Neighbors (FFN) providers through a 30-week home visitation model, incorporating developmental screening services into the model. Certified Home Visitors utilized the Home Instruction for Parents of Preschool Youngsters (HIPPY) curriculum, on a weekly basis for with enrolled primary caregivers. HIPPY is one of just a handful of evidence-based home visiting models with research demonstrating meaningful outcomes. With paraprofessional support intended to build confidence and help prepare children for success by teaching the primary caregiver to be the child's first teacher, Project NENES targeted 75 children and parents/FFN providers where all completed 30 weeks of home instruction, and participated in screening activities using the Ages and Stages Questionnaire. Subsequent to the COVID-19 pandemic, Project NENES was quick to act, and moved to ensure that parents were engaged through social media, and effectively used video conferencing to complete lessons; and participate in a drive-by graduation ceremony. As a result, parents/caregivers are spending more time reading with children; are engaged in teaching letters, numbers, and words; showed an increase in spending time in the library;

and demonstrated a desire to continue involvement in their children's education. Furthermore, children scoring below their developmental cutoff were reassessed and referred for additional services.

Inyo

First 5 Inyo County continued to focus on strengthening families and ensuring children are healthy.

- *Triple P Positive Parenting* was implemented in Levels 1 through 5. In Level 1, the second annual Positive Parenting Awareness month was held in January, with 8 agencies, 77 caregivers, and 233 children participating in the county proclamation, classes and workshops, and the super-star activity. First 5 Inyo offered Level 2 Seminars, Level 3 Primary, Level 4 Group, and Level 5 Pathways to 81 caregivers in the community and county jail setting. The *Triple P* Inyo Network focused on telling the story of *Triple P* activities countywide and trained 8 practitioners in Level 5 Family Transitions.
- The highlight of the Perinatal Taskforce was the completion of a *Maternal Mental Health* matrix, including a resource packet for mothers and a screening and care pathways for perinatal mood and anxiety disorders. This was an effort to reduce stigma and increase access to mental health services for mothers. Additionally, the Perinatal Taskforce brought the Postpartum Support International two-day training Perinatal Mood Disorders – Components of Care Curriculum to 34 local providers.
- Lastly, First 5 Inyo shifted gears to respond to the COVID pandemic in March. Its Diaper Depot continued to be open, utilizing a contactless pick up system helping the families of 25 children access diapers and wipes during the stay-at-home order. The Commission opened a new community grant to address the impact extraordinary costs of providing services during the pandemic. Funding was awarded to three local preschools to support child development and social-emotional learning. First 5 Inyo trained partners in utilizing online developmental screenings through the ASQ Online database.
- Finally, First 5 Inyo launched a local home visiting program aiming to increase caregivers' knowledge of early child development, decrease incidents of child abuse and neglect, and connect families to supports and resources in the community.

Kern

First 5 Kern County strives to promote and accomplish its vision statement that "all Kern County children will be born into and thrive in supportive, safe, loving homes and neighborhoods and will enter school healthy and ready to learn." In Fiscal Year 2019–20, First 5 Kern funded 43 programs across three focus areas in Health and Wellness, Parent Education and Support Services, and Early Childcare and Education, including the *Improve and Maximize Programs So All Children Thrive (IMPACT)* program. The funded programs provided valuable services to 16,064 children and 16,187 primary caregivers. With a continued commitment of systems change efforts, First 5 Kern continued to support the Kern Behavioral Health and Recovery Services partnership to expand the Help Me Grow – Kern County program by educating partners and the community of early detection benefits. A total of 183 children received either the Ages and Stages Questionnaire-3 and/or the Ages and Stages Questionnaire: Social Emotional-2 developmental screening. The COVID pandemic proved to be an interruption of many activities and trainings. Still, through its Resilient Kern coalition, First 5 Kern was able to mobilize its Trauma-Informed Care efforts to address the stressors that providers had experienced or would continue to experience until quarantine efforts were lifted. The training provided an opportunity for self-care and helped all to understand the stresses and difficulties families and children experienced.

Kings

During this past fiscal year, the following are some of the most significant accomplishments of First 5 Kings County:

- The *UCP Parent & Me and Special Needs* programs served a combined total of 328 children who were at risk for developmental delays, filling a critical gap in early childhood systems of care. *Parent & Me* programs also screened 135 unduplicated children for developmental delays in Fiscal Year 2019–20, and served 21 special needs children in inclusion classrooms where they were able to benefit from interactions with typically developing children.

3325

- Although services were limited due to school closures, school readiness programs were implemented at 15 public elementary schools and provided kindergarten transition services across 55 classrooms, reaching a potential pool of 1,206 enrolled kindergarten children. The project also distributed 1,216 backpacks with school supplies.
- Family Resource Centers (FRC) reached 1,407 children and 1,196 unduplicated parents or caregivers, offering an array of health, education, childcare, and family support services in both virtual and in-person settings. FRCs have successfully maintained collaborative relationships with providers in the community to offer coordinated services.
- The Kings County United Way used First 5 funds to engage in direct outreach to the Spanish-speaking community and to expand Spanish language resources to help close gaps in service access for families most at risk for health or educational disparities.
- Kings County Cares About Quality (KCCAQ) staff enrolled 57 active agencies, including 80 center-based sites, FCCH or FFN childcare programs, or alternative learning sites, and 170 classrooms or ECE sessions. KCCAQ continued to progress toward full implementation of the QRIS rating system to assess program quality and to inform implementation of workforce development activities. Twenty ECE programs to date have participated in at least two or more QRIS ratings, and half of those that did not achieve the highest standard of quality at an initial assessment have now demonstrated measurable improvements in program quality over time.

Lake

Fiscal Year 2019–20 marked the initiation of a new program funded by First 5 Lake County at Sutter Lakeside Hospital, wherein expectant parents who attend a Safe Sleep class can receive support from a Family Resource Navigator (FRN) throughout the first year of their baby's life. This effort is intended to ensure the earliest possible connection to resources for all families who need support. In the first year of the program, 65 families received personalized support from the FRN including referrals to local community resources and a warm hand-off. In addition:

- First 5 Lake leveraged funding in 2019–20 and secured a Title IV-E grant that enabled staff to facilitate and/or organize 98 hours of training for 36 agencies with a total of 209 service providers. Training topics included: "Child Sexual Abuse Prevention," "Nurturing Parenting in Substance Abuse," "Treatment and Recovery," and "Listening to Children's Fears: COVID-19 as an Aid to Empathy," with Dr. Alicia Lieberman.
- First 5 Lake staff created a "State of Our Children" advocacy website (**www.stateofourchildren.org**) and collaborated with multiple community partners to present data on local child outcomes to the Lake County Board of Supervisors, city councils, and superintendents of local school districts. The intent of the collaborative group was to hold town halls in each county district in 2020 to further engage the community in conversation around the data about concerning child outcomes, but those efforts have been put on hold due to the COVID-19 public health restrictions.
- In March, First 5 Lake staff and its grantees pivoted to meet changing community needs caused by COVID-19. First 5 Lake quickly organized a Kids Press Conference with the County Sheriff, Superintendent of Schools, a public health nurse, and a local PreK teacher who answered local children's questions presented by a kid reporter. The First 5 Lake Executive Director also served

as a liaison between the County Public Health Officer and local child care providers to ensure communication flowed efficiently.

Lassen

The First 5 Lassen County Children and Families Commission's primary strategy in realizing its vision and fulfilling its mission is through the Pathways Home Visiting Program. During Fiscal Year 2019–20, First 5 Lassen investments in home visiting resulted in the following accomplishments:

- Families are receiving the services and support they need through home visiting services.
- A total of 52 families, many of which are high-risk, were provided with intensive home visiting services.
- A total of 1,141 home visits were conducted by home visitors in which the bulk of services provided centered on supporting the family's basic needs.
- Due to the precautionary steps taken to prevent the spread of COVID-19, home visits had to transfer quickly to a virtual setting. Various platforms were used such as, Facebook, Messenger, texting, and phone calls. When families were in need of supplies and developmental activity kits, they were delivered and left on their doorsteps to maintain safety protocol during the pandemic.
- To further support Lassen County, First 5 California provided diapers, wipes, masks, books, and disinfectant to First 5 Lassen to help child care providers and community members. This, with some additional supplies provided by First 5 Lassen, enabled First 5 Lassen to increase communication and collaboration with local partners and resulted in helping 9 child care providers who serve 143 children.

In addition to these efforts, First 5 Lassen applied for the Home Visiting Coordination Funding opportunity which was made possible by First 5 California. With the increased communication and collaboration with local partners resulted from COVID-19, this funding opportunity will likely succeed and result in families with children being better served, thus increasing the outcome that children will be ready to learn by the time they start kindergarten.

Los Angeles

First 5 Los Angeles County had more than 100 service accomplishments during Fiscal Year 2019–20. First 5 Los Angeles' funding of *First Connections at Eisner Health*, for example, helped a mother and her two-year-old son; the mother had expressed concern at her previous clinic that her young son was experiencing a delay in his speaking. However, when that provider failed to screen her son, she switched to Eisner Health. During the young patient's first encounter at Eisner's Pediatric Department, he was given an Ages and Stages Questionnaire, and the results confirmed the mother's concerns. Eisner was able to identify the boy's needs and referred him to the *TLC Bridge Program* with the First 5 Los Angeles Grant and to South Central Los Angeles Regional Center. The mother reported that her son would act out and have tantrums because he was unable to express his wants or needs. After treatment, his behavior not only improved with his parents, but also with his siblings. Once the young boy aged-out of the regional center system, the *TLC Bridge Program* assisted the transition of the patient to the Los Angeles Unified School District system to develop an Individualized Education Program and obtain ongoing speech therapy services.

Another success story comes from First 5 Los Angeles' Regional Support Networks, specifically Region 2. Concerned the COVID-19 pandemic would further exacerbate food insecurity in South Los Angeles and Compton, First 5 Los Angeles Region 2 Best Start Communities, Community Health Councils, and Sustainable Economic Enterprises of Los Angeles entered a partnership to establish the *Farm Box Grab & Go* program to distribute over 17,000 farm boxes to residents. The 10-week program was 100 percent community-led. Dozens of volunteers and community-based organizations across the region joined to safely distribute thousands of farm boxes, which provided a week's worth of fresh, locally grown produce and eggs for a family of four. This work is an example of how activating a nurtured network can connect families with critical food and other resources to help them thrive in a time of crisis.

Madera

First 5 Madera County was not immune to the direct impact on service delivery as a result of COVID-19. However, First 5 Madera County remained committed to providing effective and necessary early childhood education support resources.

The Family Resource Centers are at the core of the service delivery system. First 5 Madera County strategized innovative service-delivery methods to assist families and minimize the loss of support services and resources available. Utilizing social media, children's activities and videos modeling implementation of activities were uploaded weekly. In lieu of in-person parenting workshops, virtual parenting classes were made available twice weekly to families. Further, staff developed comprehensive themed activities around four popular children's books. These were distributed as "Take & Make Kits." The kits included all the lesson plans and materials to complete the activities. Families were provided opportunities to participate in

a social media video challenge designed to encourage parents to share videos of their children completing First 5 activities. Gift cards were distributed to participating parents. Additionally, in an effort to meet the needs of struggling families in the community, an Emergency COVID Relief Fund was released. Funds were used to purchase grocery gift cards for families in the community. Specific high-risk populations, such as foster youth, were among the recipients of the grocery gift cards. First 5 Madera County distributed a survey to the community requesting feedback for methods of distribution to minimize barriers for families. A total of eight gift card and "Take & Make Kits" distribution events were held across different geographic locations within the County of Madera.

Finally, First 5 Madera County also redirected its available IMPACT grant funds toward the distribution of over 2,000 infant, toddler, and preschool backpacks filled with educational resources to support learning in the home.

Marin

The Learning Bus – Formerly known as the FLAGship, the Learning Bus is a mobile library, preschool and community resource center all in one. Operated by the Marin County Free Library, the bus travels around the county with a calendar of regular stops, providing school readiness activities to children who aren't in preschool and those in rural and remote areas. Children enjoy bilingual storytimes, educational songs, literacy and numeracy work, as well as art and small motor skill activities. Parents (or grandparents or caregivers) are asked to attend and participate, and in doing so they learn how to continue the learning fun at home.

When COVID-19 closures required the Learning Bus to put travel on hold, staff worked hard to connect with the community in other ways. They called families who had been regular participants, created Zoom meetings, offered virtual storytimes, and provided "Little Learners" Kits (Kits "Pequeños Aprendizes") with bilingual, play-based learning supplies, projects, toys and new books. The Kits also contains a guide to help parents understand and facilitate learning at home.

The Learning Bus serves approximately 600 children and their families annually. First 5 Marin County has provided funding for the Learning Bus since 2001. At an average of approximately $50,000 per year, we are proud to have invested about a million dollars in this project.

North Marin Community Services – In weekly developmental playgroups at North Marin Community Services, young children are improving their school readiness and their families are learning how to support them at home and how to access local resources. In addition to the playgroup, families may also access rental assistance, subsidized child care, the food pantry, *promotores* (health educator) support or counseling. The playgroups teach, serve and support about 150 children and their families.

With challenges during COVID, all eligible families have been successfully connected to rental assistance, P-EBT (pandemic food benefits), DRAI (disaster relief assistance for immigrants), and other resources vital to meeting their basic needs. First 5 Marin is proud to have supported their developmental playgroup since 2005.

Kindergarten Student Entrance Profile (KSEP) – The Marin County Office of Education has been promoting the use of a shared kindergarten entrance screening tool among the County's 19 school districts, and working to increase the number of teachers using it. In 2019–20, about 44 percent of the kindergarten population was screened using the KSEP tool. Four of the 11 participating districts had 100% participation, and 12 additional teachers began using the tool for the first time.

In 2019, KSEP screening happened during the first four weeks of the school year. The program continued with new teacher orientation, an in-person debrief meeting, and a feedback survey.

A key finding among those students screened using the KSEP tool is that students demonstrated more strengths in cognitive items rather than non-cognitive ones (i.e. the "soft skills"); this may have an important influence on approaches to teaching.

First 5 Marin has provided funding for this project since 2017, and future students, teachers and administrators will benefit from what we are learning.

Mariposa

During this past year, one of the most significant accomplishments of First 5 Mariposa County was the *School Readiness Program*, funded for $196,114. The *School Readiness Program* serves two preschools (Catheys Valley and Lake Don Pedro), located in Mariposa County. Both preschools provide an outstanding play-based program that prepares the children for kindergarten. The facilities, curriculum, and activities are creative and educational and focus on developmentally appropriate activities using Science, Engineering, Technology and Math (STEM curriculum). This program is free of charge to the children in Mariposa County.

Another funded program that was highly successful was the instructional aide hired to work in the Mariposa Elementary

School Transitional Kindergarten classroom. The program was funded for $18,481 in 2019–2020. The instructional aide worked with the reading program/assessments, and provided extra assistance to children who were having difficulty. Having the aide in the classroom also provided time for the teacher to work with the children individually. The class had 25 Transitional Kindergarten (TK) students who ranged in age from 4 through 6 years, and having an aide made it possible for the students to work on enrichment projects and technology.

Both the *School Readiness Program* and the *TK* program switched to a virtual-learning model once COVID-19 forced the closure of schools in March 2020. Activity packets were distributed weekly to students. Zoom, Facebook, and virtual classrooms were used to meet one-on-one with children, as well as provide a group setting for the children to interact with each other and the teachers.

Mendocino

Fiscal Year 2019-20 was fraught with challenges and rapid changes as the world shut down due to COVID-19 in March. Despite these challenges, First 5 Mendocino County continued to serve the community and shed light on the needs and disparities of the county. First 5 Mendocino funded contracts to support eight Family Resource Centers (FRC) for capacity building in the areas of *Triple P*, diaper access, information and referrals, and overall community engagement. Additionally, incentives were given to each FRC for trainings that focused on the importance of engagement of parents. In March, FRCs pivoted their work to providing resources to families in need through *Resiliency To-go bags*.

First 5 Mendocino continued to offer *Triple P* groups throughout the county in collaboration with multiple county and partnering agencies. Additionally, the State of California and County of Mendocino unanimously recognized January as Positive Parenting Awareness Month. After the state shut down, the *Triple P* team quickly pivoted to providing virtual groups.

In November, First 5 Mendocino held its second annual "State of the Child," focusing on the "Importance of Early Learning" with First 5 Mendocino celebrating *Imagination Library's* 10-year anniversary in Mendocino County. Keynote speaker Dr. Pat Levitt presented on the impacts of adversity on the development of children's brains, and emphasized how everyone plays a part in a child's early learning. This year's Child Champion Award went to Patricia Thygesen, a staple in early childhood development in Mendocino County for nearly 40 years.

Prior to the state shutting down, First 5 county commissions all over the state were in discussion with local policymakers about the importance of child care. As the state was forced to close, the need to support child care providers became more apparent in order to support the infrastructure of the working world. With the generosity of First 5 California and local partners, First 5 Mendocino was able to provide local child care providers with the necessary supplies to remain open or reopen with the new regulations.

Merced

First 5 Merced County finished the final year of its strategic plan in Fiscal Year 2019–20, and engaged in a strategic planning process to develop a new plan that began in Fiscal Year 2020–21. Over the last Fiscal Year, First 5 Merced County spent approximately $1.9 million to support services for more than 10,000 children, caregivers, and providers to build and enhance the 5 protective factors that promote optimal development, and enhance the system of effective family support/strengthening programs. The funded family-strengthening direct services include parent classes and support, intensive family screening, home visiting, mental health services, cultural connection for families, and in-school services. Further, First 5 Merced County supported innovative, quality systems-level interventions for family support that result in long-term change to an organization's culture, professional norms, policies, or procedures, or increase systems efficiencies that impact young children and their families.

Parents and caregivers who participated in funded programs more frequently used resources in the community, got connected to services, and strengthened their support networks. Parents and caregivers reported improvements in their parenting knowledge and skills.

3329

Most parents reported seeing improvements in their relationships with their children. Parents were better able to manage hardships in their families and personal lives, along with their children's behaviors.

Parents stepped into leadership positions and discovered their voice to express their opinions and thoughts. Parents who previously had not considered themselves as leaders became parent mentors, took on paid and unpaid roles in leading programs, and became more comfortable speaking up and sharing their experiences with others. Both parents and youth consistently volunteered with programs, developing and leading community-centered programming.

Modoc

In Fiscal Year 2019–20, First 5 Modoc County completed its Fiscal Year 20–25 strategic plan focusing on systems change. To enact systems-change efforts, the First 5 Modoc Early Learning & Resource HUB was created. The HUB provides a whole child, family-centered model for resources and services connection for families. The HUB positions First 5 Modoc to work collaboratively across sectors to identify and assist agencies with sustainability and equity. During the year, 279 hours of trauma-informed training were provided to key partners and community leaders. Despite the COVID-19 emergency, First 5 Modoc helped with relief efforts by providing access to essential supplies, leveraging funding and partnerships, and offering enrichment activities. Additionally, eight key program investments helped support the overall well-being and development of children and their families. These programs served 350 children, 259 primary caregivers, and include the following achievements:

- The *Tulelake/Newell FRC* strengthened families by promoting self-sufficiency through service coordination, case management, playgroups, benefit access, and parenting classes.
- The *Early Mental Health Services* provided intensive family support through home-based psychotherapy and increased mental health access to families before school-age entry.
- The *Dollywood Imagination Library* provided monthly age-appropriate books at no cost to participating families; 1,900 books were distributed directly to families.
- The Budding Tree School Readiness Preschool and Surprise Valley Child Development Center provided high-quality early education and care environments to those not eligible for subsidized programs.
- The *Prenatal Incentives* program helped participants achieve prenatal health goals to increase positive child and maternal health, with 84 percent enrolling in home visiting. The vision screening program provided children with comprehensive vision screening through a coordinated referral service delivery model.
- *Healthy Beginnings* provided home visiting service to 37 families that were designed for 15.

Mono

The year began much like previous years for First 5 Mono County; home visiting, playgroups, and child care quality support were the largest and most successful programs. Partnerships continued to strengthen, as illustrated below.

A partnership was formed between the county and a school district to operate two preschools with the following funding sources: Federal Community Development Block Grant funding; the Department of Social Services additional home visiting funds with CalWORKS Home Visiting and Child Abuse Prevention Intervention and Treatment funds; and the Behavioral Health Department funding for playgroups with Proposition 63 funds. Partnerships with the county deepened with a general fund commitment enabling Home Visiting to become evidence-based rather than evidence-informed. Partnerships flourished with child care and education providers who participated in the local Childcare Quality System at a rate of 76 percent of licensed sites. Partnerships strengthened with families who enrolled in home visiting, played at playgroups, and read books from First Book and Raising a Reader.

COVID-19 hit Mono County hard, with the highest rate of infection in the state in the first months due to high numbers of visitors enjoying skiing and outdoor activities in the tourism-based economy. Then came the shutdown. Every child care facility in the county closed. Job loss was severe as service-sector employees had no work with the closure of ski resorts, hotels, and restaurants. New partnerships emerged with the local DeChambeau Creek Foundation and individuals seeking to help families in need. These funds were distributed to families in home visiting for groceries, diapers, utilities, and rent. First 5 California sent Personal Protective Equipment and diapers for child care providers, support that enabled some to begin to reopen. Home Visitors and Playgroup Leaders quickly switched to a virtual format. *Kindergarten Round Up* also pivoted to a drive-by event serving 60 percent of the incoming kindergarten children. First 5 staff served providers, families, and children exceptionally through many challenges.

Monterey

In October 2019, First 5 Monterey County staff had the opportunity to share policies across the nation through presentations and outreach. At the Zero to Three National Conference, early childhood colleagues from all over the nation were able to learn about specific policies at a poster presentation. At the California League of Cities Annual Conference, First 5 Monterey staff conducted a presentation with the City of Gonzales and County of Monterey staff. The presentation was based on a report outlining the incorporation of early childhood policies in local governments' general plans. In Monterey County, the cities of Gonzales, Salinas, and Seaside are among the communities that have incorporated early childhood policy recommendations. First 5 Monterey staff and partners were granted several awards as recognition of their work in Monterey County. First 5 Monterey's Senior Programs Manager, Oscar Flores, received the Safety and Peace Award from the City of Salinas' Community Alliance for Safety and Peace for his work in partnership with the county Department of Social Service. The award recognized the work and role that home visiting plays as part of a violence-reduction strategy for prevention. The Transportation Agency for Monterey County also recognized First 5 Monterey with the Transportation Excellence Award for co-creation and implementation of the *MY Town Pop-up Museum* as part of First 5 Monterey's 20th anniversary with *MY Museum* and the Steinbeck Center. Regarding First 5 Monterey's response to the COVID-19 pandemic, a coalition of early childhood champions is providing coordinated support and solutions for emergency care and education, developing the first-ever countywide emergency response and recovery plan for the early childhood development system. This coalition is coordinated by Bright Beginnings, and First 5 Monterey staff participates in several workgroups, including supporting mental health for early childhood educators and caregivers, and mobilizing emergency supplies.

Napa

In Fiscal Year 2019–20, First 5 Napa County continued investing in systems-level change through expanding the First 5 Napa Network (F5NN), a network of leaders committed to moving the needle on the most intractable problems facing Napa County's children 0 to 5 and their families. The second F5NN cohort – consisting of 18 cross-sector leaders (35 F5NN leaders total) – was convened over an extended 10-month period (due to the COVID-19 pandemic) to build leadership skills, increase collaboration and connectivity, and utilize human-centered design and systems thinking strategies to identify and address challenges that face Napa County children 0 to 5 and their families.

In Fiscal Year 2019–20, one of the outcomes of the F5NN work was the formation of the *Rainbow Action Network (RAN)* – a group of LGBTQ and ally community members committed to making Napa County a welcoming and safe home for all LGBTQ families. RAN continued design work around the following identified needs for LGBTQ families:

- Increased visibility of support in the community and at schools
- Safety
- Opportunities to connect with other LGBTQ families and allies.

One of many *RAN* projects in Fiscal Year 2019–20 was the development and pilot of *Rainbow Kits* to provide guidance and materials to promote LGBTQ and gender inclusivity in early childhood education settings. The kits include LGBTQ inclusive picture books with bookmarks for facilitating discussion, LGBTQ inclusive toys, invitations for using the toys in the classroom, suggestions for inclusive teaching techniques, ideas for LGBTQ and gender-inclusive family nights, and policy recommendations that support and promote diversity and inclusion. The kits were piloted in a California State Preschool Program setting, a Family Child Care Home, and a private center. All three sites indicated they found the kits helpful in preventing and addressing bias, and that the children enjoyed and were engaged with the materials. In Fiscal Year 2020–21, the *Rainbow Kits* will be offered to all *Quality Counts* sites in Napa County.

Nevada

Despite facing challenges related to the COVID-19 pandemic, funded partners of First 5 Nevada joined

programs across the state in finding new and innovative ways to meet the needs of local families. Highlights include the following:

- The four Family Resource Centers (FRCs) served 814 caregivers and 985 children ages 0 to 5 years. The FRCs provided social emotional supports to families in the form of online playgroups and direct, one-on-one contact with families over the phone weekly. FRC staff provided concrete supports via food pantries (accessed over 1,350 times), clothing closets (accessed 1,183 times), and grocery cards (110 distributed). During the shelter-in-place, one advocate from the FRCs implemented a highly successful online parenting workshop using the *Nurturing Parenting* curriculum.
- The evidence-based home visiting program, *Healthy Babies*, continued to meet with families virtually, recognizing the increased need for social, emotional, and concrete support during this trying time. The Avanza program, which supports Latinx Early Education students, was able to transition from in-person meetings to online support.
- The First 5 Nevada Commission allocated emergency funds to sponsor child care slots for essential workers during the height of the pandemic, allowing over 20 families to access child care services in order to return to work.
- The two local Community Collaboratives continued to provide connection opportunities for non-profits who had the resources to serve families.
- Finally, the *School Readiness* program through the Tahoe Truckee Unified School District collaborated with several local agencies, leveraging funds to put together developmentally appropriate book bags for 300 children ages 0 to 5. The bags included two bilingual books, scissors, paper, chalk, and other items to support parents in providing ongoing developmental support to their children. The program was able to distribute books two additional times, providing families with up to six new books for their home libraries.

Orange

In response to the COVID-19 pandemic, First 5 Orange County used its vast network to bolster support for child care facilities, frontline nonprofits, and providers addressing family homelessness. Measures ranged from procuring essential supplies and personal protective equipment for childcare centers, to providing additional funding to keep families safe and housed, to creating a resources webpage to assist families with young children.

First 5 Orange's *Engaged Neighborhoods* work focuses on closing opportunity gaps in communities through advocacy to improve the system of care for early childhood. The engagement effort includes outreach to school districts, city leadership, the business community, local nonprofits, and most importantly, residents in communities identified by our Early Development Index data as having the most opportunity for improved outcomes. The work looks different in each community, but the results are the same: To connect families on their journey, from prenatal through the start of school, to resources and supports that develop children who are ready for school and success. The ultimate goal is that communities work across sectors and prioritize early childhood, working to align resources, learn from parents, and focus on equity.

By encouraging childhood systems of care to work together – and helping build new bridges to make it possible – First 5 Orange is creating a holistic, supportive infrastructure that will let families experience seamless connections to quality services. First 5 Orange is aligning multiple systems of care to create a potent, effective, and united advocate for Orange County's children and their families. For instance, First 5 Orange County's Pritzker Fellow gathered a wide array of community partners — many of whom had never before come together — to develop the *You Are Not Alone* flier for new parents and the *Orange County Perinatal Mental Health Toolkit* for medical providers.

Placer

First 5 Placer County's collaborative action work continued in 2020. A series of documents designed to lay out a plan for collaborative action, guide funded partners in planning their work, and allocating First 5 Placer funds were completed. These documents included a Collaborative Planning Guidance Document, Collaborative Action Plan, and a Funding Plan for the Collaborative Initiative. Staff is currently working with funded partners to develop program logic models, conduct program cost analyses, and draft scopes of work. As the collective action work proceeds, staff is ensuring each funded partner has an engagement strategy to reach First 5 Placer's priority populations; shared indicators are included across similar program areas; and activities match First 5 Placer strategies, priorities, and funding plan.

In response to emerging needs due to the COVID-19 pandemic, First 5 Placer and its funded partners explored opportunities to do their work differently. Early in 2020, the evaluation team implemented a survey to better understand the impact of COVID-19 on agencies, staff, and families. Challenges cited by funded partners included: virtual program facilitation; tracking data virtually; finding and referring families to high-quality, affordable child care; and having to temporarily cancel programs and services. At the same time, funded partners were flexible, responsive, and resilient. They held regular team meetings to ensure they were up to date on emerging issues, started emergency response funds to meet family's basic needs, and developed new and creative ways to provide services virtually.

Plumas

The First 5 Plumas County Children and Families Commission's primary strategy in realizing its vision and fulfilling its mission is through the support of home visiting services. Currently, the Commission funds four programs that provide home visiting services to families who have children ages 0 to 5. All programs utilize the *Strengthening Families™ Protective Factors* framework to support and measure success.

Home visiting programs are reaching the target population and have consistently served families with the youngest children in Plumas County as evidenced by the fact that most children served are under one year old (44 percent of all children ages 0 to 5, served). Additionally, home visiting programs are serving a more racial and ethnically diverse population than the overall county population, with a pronounced reach within the American Indian/Alaskan Native population (which comprises 13 percent of the service population and only 2 percent of the total county population). Lastly, home visiting programs are serving most communities proportionately except for Chester (which makes up 21 percent of the total county population but only 6 percent of the home visiting service population).

Families are being strengthened. A total of 91 families received home visiting services, most of which were highly engaged as demonstrated by both the number of home visits (785) and the total number of services provided (5,114). Additionally, families report increases in each of the five protective factors after receiving home visiting services, with the most significant gains being made in the area that many families struggled with at program entry – concrete support in times of need. The other area of marked growth was in relationship to social connections.

Families are satisfied. Families surveyed indicated high levels of satisfaction with services and staff and agree that they received the assistance they needed. Additionally, a high percentage of families exited the program because goals and needs were met.

Riverside

First 5 Riverside County focused on leveraging resources through strategic partnerships to expand countywide access while also responding to increased levels of need. With the arrival of COVID-19, First 5 Riverside partners, both private and public, worked together to provide direct financial assistance and emergency supply kits to providers, including books and diaper kits for children and families. Supplies purchased locally and provided by First 5 California and the Riverside County Emergency Operations Center were distributed to families and early education providers with the help of staff from the county Emergency Management Department, Family Resource Centers, Community Action Partnership, Public Health, and the Riverside University Health System Foundation. The Commission's strategic plan details the intent to align with state-directed initiatives where possible. First 5 Riverside's use of expansion opportunities through CalWORKs funding

greatly expands access; allows for a more seamless continuum of care for families; and creates a more integrated, coordinated home visiting system leveraging multiple funding streams. Maintaining relationships with families is key to ensuring families receive the economic, physical health, mental health, parenting, and family support services critical to their recovery from the impact of COVID-19. The Home Visiting Continuum of Care approach brings in new home visiting models to expand eligibility options to more effectively meet the diverse and unique needs of CalWORKs families by adding two new models that will serve more families. This provides an opportunity to ensure there is a continuum of care for CalWORKs families to maximize access to home visiting services by ensuring the diverse complexities of families are addressed across a two-year span. It also allows the possibility of families to graduate from one model and transition into another to better meet their needs.

Sacramento

First 5 Sacramento County funded a two-pronged evaluation on developmental screening processes and family engagement activities to gather formative data and make recommendations to First 5 Sacramento's nine partner school districts. The following presents information about key results:

- All nine School Readiness Coordinators participated in interviews that covered both developmental screeners and family engagement activities. School districts differ in when and how they administer developmental screeners. Twenty parents whose child had received a "flagged" developmental screener result participated in interviews about the screening process. Parents want a better explanation of the screening process, help to complete the screener, and to be given the results of their child's screening. As a result of the evaluation, a protocol was developed and distributed to all *School Readiness* coordinators to streamline and structure their developmental screener processes going forward.
- Regarding Family Engagement Activities, 8/9 districts offer 2+ family literacy categories of service. These include take-home reading programs, literacy programs and events, and parent workshops. All districts employ a variety of parenting education opportunities, and five of these districts organize classes in response to specific parent request. Three districts offer home visiting activities funded by First 5. Shared tips included sending the parent multiple reminder texts and holding staff trainings about how to set a positive tone during the visit. The most common transition orientation services were *Kinder Camp* and parent meetings to prepare for student transitions. Common challenges included having limited classroom space, translation needs, and finding a time for parents to attend. All districts hold parent-teacher conferences. Shared tips included providing language support for non-English speaking parents and to follow up individually with parents who were unable to attend the conferences.

San Benito

In Fiscal Year 2019–20, First 5 San Benito County provided services and supports to children, families, and providers that addressed the four First 5 California result areas and responded to the effects that COVID-19 had on the community. While COVID-19 shut down many services in the state, First 5 San Benito quickly pivoted to offering virtual services and concrete support to families. For instance, between March and June 2020, a total of 255,749 meals, diapers, wipes, and activity kits were distributed by First 5 San Benito and its partners to address families' immediate needs and support Family Functioning in the community. In addition, families were referred to virtual home visiting and intensive case management services if they needed additional support. Over the course of the year, 33 families received case management services, and 29 caregivers attended parent education classes to strengthen their families and improve their parenting practices. Parents participating in these services demonstrated improvement in family functioning, knowledge of parenting and child development, feelings of social support, access to concrete supports, and the frequency with which they read with their child. To address Improved Child Development, First 5 San Benito offered professional development to 10 early childhood education providers, and 280 families participated in developmental play groups with their children. Child Health was addressed through the distribution of 20 new car seats, and 36 families received *Parents as Teachers (PAT)* home visiting services, all of whom said the PAT program helped them face parenting challenges. Finally, to contribute to Improved Systems of Care, First 5 San Benito facilitated a multisector collaborative of local leaders to integrate service systems in the county, advocated for policies that benefit young children and their families, collaborated with partners to leverage funding, and promoted the capacity of providers through professional development.

San Bernardino

Help Me Grow Inland Empire (HMGIE) is funded jointly by First 5 Riverside County and First 5 San Bernardino County, with Loma Linda University Children's Hospital serving as a sponsoring partner. Three-fourths of California's counties have a Help Me Grow program, and across the nation the program is active in 31 states and the District of Columbia. *HMGIE* is unique in that it is a dual-county service model, and utilizes technology to ensure the region's 375,000 age-appropriate children have access to developmental

screenings. After two years of planning, *HMGIE* activated its Access Center on April 1, 2020. Early Childhood Educators, medical professionals, and parents are served by bilingual care coordinators through the Access Center's toll-free telephone lines. Presently, the center offers two web-based developmental screens (ASQ-3 and ASQ-SE) and one Social Determinant of Health screen. Children with developmental concerns, and families demonstrating risks associated with social determinant factors, are provided linkage and referral to medical, behavioral, and social services. Care coordinators maintain contact with families to ensure referrals are successful and that the family is linked to the next level of care. In instances where referrals are not acted upon or are unsuccessful, staff works with the family to overcome barriers ensuring they can access important services.

San Diego

The COVID-19 pandemic presented unprecedented challenges for our staff, our community partners, and the families First 5 San Diego County serves. Fiscal Year 2019–20 was different from any previous year in the Commission's history. These last several months have been difficult and yet inspiring and encouraging by the way the community rallied to support one another. When Governor Newsom issued stay-at-home orders in March, First 5 San Diego providers quickly pivoted to supporting families virtually. Maintaining these connections and supporting families through these most difficult times is critical for children's and caregivers' well-being.

Despite the pandemic, during Fiscal Year 2019–20, 42,046 San Diegans received direct services, of which over 29,000 were under the age of 5. These services included quality preschool, parenting classes, and health and dental services. Thousands of young children and their parents benefited from community-wide services, such as the *Kit for New Parents*, a parent warm line, community health screenings, and outreach.

During Fiscal Year 2019–20, First 5 San Diego's Healthy Development Services initiative celebrated its 15th year of identifying and treating children with mild- to-moderate developmental and social-emotional needs. This year also marks the culmination of the First 5 San Diego 2015–20 strategic plan. As it embarks on its new Fiscal Year 2020–25 Strategic Plan, First 5 San Diego is embracing new strategic directions for its work: Resilient Families, Coordinated Systems of Care, Integrated Leadership, and Sustained Funding.

First 5 San Diego also is pleased to announce a new quality early learning initiative, *Learn Well*, which builds upon the success of its 8-year Quality Preschool Initiative, that

concluded this year. *Learn Well* will focus on strengthening existing early care and education system structures, and expand the participation to providers serving infants and toddlers and aim to improve the skills of the adults working directly with children.

San Francisco

For nearly two decades, First 5 San Francisco County has invested in San Francisco's youngest children, their families, and the providers who work on their behalf, with a vision that all children will start school eager to learn and grow with confidence. Investments in the Quality Connections Quality Rating and Improvement System (QRIS) reaches approximately 8,000 children enrolled in participating early care and education sites across the city. Between July 2018 and March 2020, 406 sites engaged in continuous quality improvement. Among those, 131 centers and 175 family child care homes received QRIS validation ratings. Rating data show that a majority are seeing improved quality, with 83 percent of family child care homes and 53 percent of centers increasing ratings over time. While all city-funded centers were required to close due to the COVID-19 pandemic and resulting stay-at-home orders, 100 percent have re-opened with support from First 5 San Francisco, in collaboration with other city departments, and concerted effort of all QRIS coaches and consultants.

San Francisco's network of 26 Family Resource Centers (FRCs) supported just under 10,000 parents and children through an array of services, some of which are focused specifically on child abuse prevention, and all of which are intended to provide parents with the tools and resources

they need to ensure their families are stable and their children can thrive. During the COVID-19 health crisis, FRCs have become a critical lifeline, distributing household supplies, diapers, and food to hundreds of families every week, even delivering directly to doorsteps when necessary. They are a trusted support, and in some cases, the only outside provider to proactively call and check in on isolated families and bring them together through virtual learning and social activities. San Francisco's *Help Me Grow* team worked across all initiatives throughout the year to train over 3,500 providers in developmental screening and inclusive educational practices.

San Joaquin

First 5 San Joaquin County has risen to the overwhelming challenges presented during Fiscal Year 2019–20. Our 2-1-1 Call Center and Home Visitation Programs are shining examples of the resilience, tenacity, and work ethic that are representative of San Joaquin County. The call center has been inundated with calls and requests for assistance due to COVID-19, in addition to the usual calls coming into the center. The call volume of the call center more than doubled from March to June. Staff were reassigned from other duties to help field calls to the center. The call center conducted 2,162 screenings and referrals for services and made 443 transfers to Help Me Grow.

First 5 San Joaquin provides two home visiting programs, the Home Visitation Initiative, and the Family Work Opportunity and Responsibility to Kids (FamilyWORKs) program. In Fiscal Year 2019–20, over 619 families with 778 young children received home visits that focused on areas of child development, family self-sufficiency, job searching, healthy eating, and physical activity.

JourneyWORKS, First 5 San Joaquin's Substance Abuse and Mental Health Home Visitation and Care Coordination program provides home visitation and care coordination services to pregnant or parenting CalWORKs Welfare to Work participants who have challenges related to substance use or mental health issues. Due to COVID-19, in-person home visits stopped in March 2020. Home visitation services were quickly restructured, and virtual visit models were developed. Most Home Visitors began using a system of "no contact" dropping off materials to families with a subsequent follow-up virtual visit and/or phone call to review the materials and conduct activities. Home Visitors reported the follow-up virtual visits and phone calls are unusually lengthy, as parents and caregivers are seeking their assistance in finding COVID-related resources such as the Internet, food, housing, test sites, and doctors.

San Luis Obispo

First 5 San Luis Obispo County convened community stakeholder conversations with families and family-serving agencies to help shape its next strategic plan. The plan was approved in June, and aligns with statewide focus areas of Resilient Families, Early Learning, and Health & Development. San Luis Obispo Help Me Grow officially launched, with a new Centralized Access Point funded by First 5 and the County of San Luis Obispo. In related work, First 5 San Luis Obispo bolstered its MHSA-funded *3 by 3 Project* by engaging pediatric health partners in developmental screenings/referrals. A Pediatric Town Hall is being planned, and work is underway to align efforts with the statewide *ACES Aware*. In response to critical needs arising with COVID-19, First 5 San Luis Obispo invested emergency funds in partnership with the Child Care Resource Connection, and with the Community Foundation's Disaster Response Fund to rapidly activate support for child care and other family-serving programs. Further COVID-related collaboration included facilitating local planning to build financial relief capacity for immigrant families, modeled after similar mobilizations statewide that provide basic needs assistance for vulnerable populations most impacted by the pandemic. First 5 San Luis Obispo continues to lead a collective effort to address the child care crisis through our "We Are the Care" initiative, consisting of parents, ECE professionals, employers, businesses leaders, school administrators, and government officials. The next step is a Collaborative Public Sector Child Care Study to help identify and pursue options to expand child care capacity across the county. Building on advocacy to spotlight child care as essential (during COVID-19 and beyond), First 5 San Luis Obispo redirected its monthly "Hands-on Heroes" public awareness campaign to highlight ECE professionals

and to pledge to stand with them through the recovery process. It folded in a Child Care Awareness Day social media storm to amplify the messaging and close out April: Month of the Young Child.

San Mateo

During Fiscal Year 2019–20, First 5 San Mateo County maintained its multi-faceted investments in programs supporting all aspects of a child's early years, including Early Learning; Child Health & Development; Family Engagement; and Policy, Advocacy, and Communications. Supported by $6.3 million in community investments, its funded partners served over 9,800 children, parents, and providers, and distributed 1,494 Kits for New Parents. Highlights from this year include:

- Convening "A Culture of Care," a one-day forum and training about growing trauma-informed, healing organizations. The day featured Ken Epstein and Laura van Dernoot Lipsky, and was attended by about 180 providers who serve children and families.
- Implementing First 5 San Mateo's 2020–2025 strategic plan, which rolled out over $10 million in total funding for projects including: a collective impact initiative focused on quality early care and education, with an emphasis on inclusion; a collective impact initiative focused on improving the system of care for children with special needs using the *Help Me Grow* framework; and critical services supporting family resilience, including home visiting, mental health services, trauma-informed child care centers, father involvement, parent advocacy, and Friday Cafes.
- Supporting the community during COVID-19. First 5 San Mateo helped secure $2 million in CARES Act funds for child care and preschool programs; surveyed its partners to gauge the impact of COVID-19 and the public health orders on their financial situations and service delivery; and partnered in the distribution of personal protective equipment, cleaning supplies, books, diapers, and other necessities to child care programs and families. By early September, over 300 providers had received more than 4,500 items, enabling them to work safely with the children and families they serve.

Santa Barbara

In Fiscal Year 2019–20, First 5 Santa Barbara County invested $3,311,193 in programs and services for 1,713 children, 1,513 primary caregivers, and 424 providers. Investment strategies included family strengthening, expansion and quality of early childhood spaces, communications and policy development, and systems capacity building. First 5 Santa Barbara achieved several noteworthy results that improved the lives of children and families within the county:

- Investment in Child Development: Programs that participate in the QCC continue to have Tier 4 and 5 scores as evidenced by the QRIS matrix. The child care centers and family child care homes served by Santa Barbara County Quality Counts provided high-quality child care to approximately 4,000 children 0 to 5 years of age.
- Investment in Family Functioning: The Santa Barbara Network of Family Resource Centers includes 17 agencies that provide oversight to over 50 Family Resource Centers. Families who received case-management

3337

services improved in all domains of family functioning assessed, as measured on the Family Development Matrix. Additionally, parents who completed an evidence-based parent education program and those who received child development home visits reported engaging in positive parenting practices more often than before.

- Investment in Child Health: Through the *Welcome Every Baby* program, families of newborns reported that there were gains in reading and singing to their infants, an important indicator in supporting brain development and early language acquisition. Over 300 families of newborns received a nurse visit during this fiscal year.

Santa Clara

The COVID-19 pandemic exacerbated the financial challenges many families in Santa Clara County were already facing. In response, First 5 Santa Clara County secured 12 external grants totaling $8,366,786 and swiftly transformed its service delivery partnerships to provide a safety net for thousands of children and families and the community providers that serve them. To promote linkage to coordinated services, the agency produced a downloadable Resource Guide for families and providers in English, Spanish, and Vietnamese (**www.first5kids.org/resources**). In the Family Strengthening Initiative, a Needs Tracker was put into place across all 27 family resource centers to log the needs of families and connect them to resources.

Santa Cruz

Throughout this coronavirus pandemic, First 5 Santa Cruz County and its partners have continued supporting the health, safety, and development of young children and their families. First 5 Santa Cruz' successes over the past year include:

- The *Baby Gateway Newborn Enrollment Program* continues to meet safely with mothers and enroll eligible newborns in Medi-Cal.
- The *VisionFirst* program is developing safe methods for providing vision screening to young children.
- The Neurodevelopmental Foster Care Clinic shifted to phone or telehealth visits, and was able to respond to all referrals from CPS and provide all follow-up visits.
- *Triple P* practitioners are offering parenting support services by phone, videoconferencing platforms, and Independent Study programs.
- *Families Together* transitioned to a telehealth service model.
- *Quality Counts* Santa Cruz County offered professional development in online formats. A portion of IMPACT and related funding was reallocated to an emergency response fund for providers serving children of essential workers and at-risk populations.
- First 5 partnered with the Santa Cruz County Office of Education's Child Development Resource Center on two supply giveaway events to hundreds of child care providers in the county.
- *Santa Cruz Reading Corps Literacy Tutors* shifted their service work to creating literacy materials, attending virtual preschool and TK classes, and community volunteer work.
- *Raising A Reader* found ways to provide reading materials to families during the pandemic, and will continue the book bag program through local libraries.
- Drawing on supplies from First 5 California and a grant from the Central California Alliance for Health, First 5 and community partners distributed infant supplies to over 1,000 community residents impacted by COVID-19

The COVID-19 pandemic is on-going, but First 5 is working with County leaders and partners to ensure the collective wellbeing of our County's children and families. It is First 5's firm conviction that together we will emerge stronger and more interconnected than ever before.

Shasta

First 5 Shasta County's Fiscal Year 2019–20 successes include:

- *Help Me Grow* Shasta (HMG) completed more than 500 developmental screenings for children ages 0 to 5 and

provided referrals and case coordination services to more than 850 children and families.

- Distributed more than $430,000 to participants of *Quality Counts* North State to improve the quality of Early Childhood Education.
- Issued more than $95,000 in COVID-19 Retention Grants and $100,000 in Continuation Grants to help sustain ECE providers impacted by COVID-19.
- Supported local child care and social service providers with grant funds and supplies in response to COVID-19.
- Partnered with community-based organizations to provide COVID-19-safe activities for families, such as virtual story-times and drive-thru events.
- Granted more than $60,000 in academic scholarships to 80 ECE providers to help them increase their knowledge of child development issues.
- Invested more than $19,000 in community collaborations to strengthen families in Shasta County.
- Continued work with community partners around ACEs education, prevention, and intervention, including quarterly community meetings around the Five Protective Factors.
- Provided NICU and families of newborns with books to read to their infants. Reading aloud provides exposure to language and opportunities for attachment in a stressful environment.
- The *Healthy Babies Program* provides mental health services for pregnant women and mothers of children ages 0 to 2 experiencing depression or anxiety brought on or exacerbated by pregnancy or during the postpartum period. Provided direct support to 87 parents/caregivers.
- First 5 Institute delivered training for 466 children and 776 parents/caregivers via activities including professional development, library story times, and professional training.
- Coordinated 15 Week of the Young Child events.
- Distributed more than 15,000 children's books to children and families in Shasta County.

Sierra

The vision of First 5 Sierra County is to ensure a continuum of appropriate and integrated health, education, and recreational support services from prenatal to old age for a balanced and sustainable Sierra County community. First 5 Sierra's strongest and most successful achievement continues to be its preschool tuition subsidy program. This program supports working families, most of whom would not be able to send their children to preschool without tuition assistance.

In Fiscal Year 2019–20, First 5 Sierra continued to achieve an amazing 90 percent rate of children attending preschool prior to entering kindergarten. Investing in a program where all local children can attend preschool ensures that all Sierra County children will start kindergarten with the most optimal preparation and with the least disparity in readiness possible.

- First 5 Sierra's summer swim and yoga programs supported our preschool-age children in learning critical water safety skills and healthy habits.
- First 5 Sierra continues to seek innovative ways to support the resilience of our families. The COVID-19 crisis and the stay-at-home order presented many challenges to parents of young children in our remote, rural community.
- First 5 Sierra responded by calling all our families to offer support and delivering activity bags with resources to preschools, daycare centers, and individual families in remote communities. Childcare stayed open to support the families of essential workers, and First 5 Sierra

supported them with distributions of much needed sanitation supplies.

- First 5 Sierra staff utilized the stay-at-home time to focus on revenue generating activities, and has successfully expanded its revenue to support the county's children and families in future years.

Siskiyou

Through innovative partnerships, First 5 Siskiyou County more than doubled its community investment to provide high-quality integrated services to all corners of Northern California's largest county.

Working through seven family resource centers (FRCs), First 5 Siskiyou provided 4,766 service encounters to children (duplicated), and 2,858 service encounters to parents (duplicated). A primary draw of FRCs is the parent-child playgroups, which helped 449 children and 261 parents experience enriching child development activities, bond with peers, and receive concrete support during times of need. Many parents (415) also engaged in evidence-based parent education and workshops, such as "Make Parenting a Pleasure," "Raising Emotionally Healthy Children," and "Nurturing Parenting." FRCs promoted literacy by enrolling 1,097 families in Dolly Parton Imagination Library, which mailed age-appropriate books each month to 1,214 children; First 5 also distributed 25,989 children's books across the county. Children's health needs were addressed with *Help Me Grow's* 462 developmental screenings, as well as enrollment in CalFresh at every FRC. Additionally, First 5's *IMPACT* program worked with 73 early education providers to provide quality environments for the 1,201 children in their care.

What is the sum impact of First 5 Siskiyou's whole-child whole-family programs? Teachers assessed the readiness skills of 59 percent of the kindergarten population and collected data from 185 parents about family experiences. The largest predictors of kindergarten readiness were being well-rested and well-fed, not having a special need, being resilient, being older, and having parents who were engaged in kindergarten transition activities with them – all factors that First 5 Siskiyou impacts. The assessment revealed 79 percent of kindergarten students had participated in at least one First 5 service, and that the more First 5 services children had, the more ready they were for kindergarten.

Solano

In Fiscal Year 2019–20, First 5 Solano County continued to implement its high-quality programs in the Priority Areas of Health and Well-Being, Early Childhood Learning and Development, Family Support and Parent Education, and Systems Change.

In early 2018, the Commission made the decision to establish a First 5 Center in the City of Vallejo near the census tracts with the highest risk factors for children. A site was identified that required substantial tenant improvements. Through a capital improvement campaign, 66 percent of the $1.7 million tenant improvement funding was received from public and private donations and grants. The First 5 Center opened on February 13, 2020. It is a one-stop location to provide a full range of dual-generation services to support healthy behavior, social and emotional development, and school readiness of children, as well as provide parents the tools they need to develop positive parent-child relationships and be connected to other families. All services are family-centered and trauma-informed to build resilience and strengthen families.

Other accomplishments of Fiscal Year 2019–20:

- With blended funding from the First 5 Solano and Mental Health Services Act, the evidence-based Triple P Positive Parenting Program continues to be implemented as a parenting education strategy. Thirty new facilitators were trained and accredited by Triple P America, and eight local agency providers served 1,097 families.
- In response to COVID-19, First 5 Solano collaborated with local partners on several key initiatives:
  - » As part of the County's Office of Emergency Services, implemented pop-up child care for essential workers in Vallejo.
  - » Established an Emergency Response Fund to support community agencies and child care providers.

» Provided $64,519 in grants, ranging from $150 to $7,500.

» Distributed masks, gloves, hand sanitizers, cleaning supplies, diapers, and wipes received from First 5 California to child care providers and directly to families.

Sonoma

In Fiscal Year 2019–20, the First 5 Sonoma County Commission's top priorities included the strategic planning process, and disaster responses for the COVID-19 pandemic and the wildfires. In fall of 2019, planned power-outages disrupted the community and First 5 operations briefly. Fall 2019 also brought the Kincade fire, hurting the economy even more. Before the community could recover from the power outages and wildfires, 2019–20 proved to have even greater challenges, as COVID-19 hit the community in early 2020. The shelter-in-place order began March 2020, straining the economic stability and mental health of families across the state. First 5 Sonoma conducted a parent survey in April 2020, one month after the shelter-in-place order, and shared a summary of results that showed significant disparities in loss of income particularly for Spanish-speaking parents, along with parents and caregivers reporting significant need for financial support for basic housing expenses. Parents and caregivers also struggled to provide food and diapers for their children. First 5 California responded with deliveries of basic need items, including diapers and wipes, cleaning supplies for child cares to remain open with increased health and safety standards, and responsive grants for agencies to support the community with mental health, financial literacy, and basic need support. Even with these challenges, the strategic planning process prevailed. Planning elements and processes through 2019–20 for the strategic plan included data in the form of: Early Childhood Landscape Scan; review of all 2019 Grantee Outcome Reports; evaluation of 2016–2019 READY Kindergarten Readiness data. Additionally, stakeholder input was developed through a parent survey on the impacts of COVID-19; Leadership Advisory Roundtable convenings; Strategic Planning Advisory Team; and First 5 Sonoma County Commission review of the plan throughout the process, with formal adoption of the plan on the horizon for Fiscal Year 2020–21.

Stanislaus

Among First 5 Stanislaus County's accomplishments during Fiscal Year 2019-20 are the following:

- Improved Family Functioning: The parents of 7,371 children received family support services through countywide Family Resource Centers or other programs, and 1,031 received more intensive services focused on improving child abuse risk factors. Parents are gaining knowledge and improving parenting skills. The parents of 1,090 children attended parenting classes to increase parenting skills and knowledge. Of the 1,075 children ages 0 to 5 whose caregivers were screened for depression, 117 children ages 0 to 5 had a caregiver referred for mental health services as a result. 99 percent of parents participating in a Healthy Start program reported an increased confidence in their parenting ability.
- Improved Child Development: 93 percent of families of children ages 0 to 5 increased the time spent reading with their children at home after receiving literacy services. 633 children ages 0 to 5, who received literacy services, were given a book to take home and build upon the skills they and their families learned. 718 children ages 0 to 5 were screened for educational developmental issues.
- Improved Health: 122 infants were born full-term after their mothers participated in a healthy birth program, and 92 percent of the mothers initiated breastfeeding. 84 percent of babies born to women participating in a healthy birth program were a healthy weight at birth. 91 percent of participants attending a pregnant and parenting women support group reported making positive changes based on health, nutrition, and safety classes.
- Improved Systems of Care: Families of 5,347 children have increased knowledge and use of community resources.

Sutter

The COVID-19 pandemic placed undue strain on families and providers in Sutter County. To address these needs, Sutter County Children & Families Commission allocated $25,000 in Commission reserves to fund the COVID-19 Emergency Funds Application in response to emerging critical needs and improve the development and support of young children and their families in Sutter County. Funds were spent on items such as rent/utilities/gas and grocery cards, car seats, diapers, and digital devices. Additionally, Sutter County Children and Families Commission applied for a multitude of funding opportunities that afforded the ability to provide gift cards, supplies, and services to the county's children ages 0 to 5 and their families during these recovery efforts. Sutter County Children and Families Commission funded partners also rose to the challenge posed by the pandemic by adapting their service delivery strategies. The Child Care Planning Council staff transitioned to virtual meetings and training to assist stipend program participants in completing required professional development to ensure program completion.

Child Development Behavior Services provided support by creating short videos called "Wednesday Wisdom With Jen" to discuss parenting topics. Family SOUP partnered with other agencies to provide virtual programs and activities to support families who have children with special needs. Sutter County Public Health's *Health Families America* home visiting program did virtual visits, and mailed out information to meet basic needs. The *FLIP* program went virtual through YouTube and Facebook with take-home activity kits, instructional videos, and phone calls. Mindful Youth Adventures created engaging digital content for children that extended not only to their existing client base but to families that could not normally attend in-person meetups. In sum, in this time of unprecedented upheaval, Sutter County Children and Families Commission drew upon its partnerships to swiftly adjust service delivery systems to meet the urgent needs of children.

Tehama

First 5 Tehama County provides visionary leadership for building sustainable 0 to 5 programs. First 5 Tehama supported the *Pregnancy to Preschool Partnership (P2P)*, a collaboration of publicly-funded agencies to streamline referral and data sharing processes and ensure that every child that comes to the attention of partner agency receives service. An online Trackers system was developed and implemented at the end of Fiscal Year 2019–20. All members of *P2P* are able to create a profile about their client and send an electronic referral to another *P2P*; the receiving agency may update the status of that family (enrolled, waitlisted, or not enrolled). Improvements in reporting accuracy have been demonstrated. This lays the foundation for warm handoffs between agencies that will further be supported by *Help Me Grow*.

Nimbly responding to program and community needs altered by COVID-19, First 5 Tehama made strong impacts across the county. First 5 Tehama collaborated with *Expect More Tehama* to host three webinars dealing with trauma-informed care during COVID-19. Two were focused on leaders and direct service providers. The third was featured as a Facebook Live event for families. Participants shared the immense value of these webinars, such as: "This was the best webinar I have been to since COVID-19;" "I am going to remember to take a breath and take time to think about what others are going through when you are interacting with them. Everyone reacts differently to the changes in our lives." Through partnerships with School Districts, Tehama's Resource and Referral as well as Tehama County Department of Education, concrete resources were distributed including 420 bilingual *Care, Cope, Connect* pamphlets and PPE to over 30 programs who continued services during the pandemic. Furthermore, programs pivoted their regular programming to virtual services, offering families playgroups, home visiting, and parenting classes online.

Trinity

The First 5 Trinity County Children and Families Commission invests in a variety of services aimed at supporting children prenatal through age five and their families. Primary investments include:

- *School Readiness Playgroups*: First 5 Trinity partners with the Trinity County Office of Education (TCOE) to provide pre-K programs throughout the county. This program offers structured playgroups aimed at preparing kids for the academic, social, and emotional rigors of kindergarten. In Fiscal Year 2019–20, the program served 50 children ages 0 through 5.
- *Children's Garden: The Children's Garden Project* aims to teach young children the fundamentals of gardening, as well as to provide basic guidance on healthy nutrition. Through hands-on, interactive activities preschool aged children learn about the life cycle of a plant, garden friends and pests, companion planting, and harvesting. In Fiscal Year 2019–20, the program served 59 children ages 0 through 5. After participating in services, a large majority of children served were able to identify foods grown in a garden, as well as the difference between healthy and unhealthy foods.
- *Trinity Smiles: The Trinity Smiles* program provides mobile and dental services at various school sites, with a focus on providing care to underserved children in the county. Services include oral evaluations, extractions, cleanings, oral hygiene instruction, x-rays, and fillings. In Fiscal Year 2019–20, the program served 87 children ages 0 through 5, and 263 other family members.
- *Trinity Infant Passenger Safety (TIPS) Program*: Trinity County Health and Human Services provides car seat safety supports to families of young children throughout Trinity County by offering car seat education, installation instruction, and car seat distribution. In Fiscal Year 2019–20, the program served 35 families.
- In addition to primary investments, First 5 Trinity supports smaller community projects to include a school readiness assessment project, water safety programs, and food distribution.

Tulare

First 5 Tulare County's vision is that all Tulare County children will thrive in supportive, safe, loving homes and neighborhoods and will enter school healthy and ready to learn. In Fiscal Year 2019–20, funded programs served 37,832 parents and children. Each of First 5 Tulare County programs are unique. This year, First 5 Tulare would like to

highlight all programs for their efforts during such a difficult end to the fiscal year due to COVID-19.

All programs focused on supporting families by being creative and innovative in approach. Most programs swiftly began to support families immediately.

- Home visiting programs and Family Resource Centers provided door drops (of necessary items such as food, cleaning supplies, books, diapers, and wipes), case management via Zoom, and telephone follow ups.
- Funded programs that support preschools provided packets that included activities for parents to do with their children utilizing the food distributions. Other programs have been ensuring the well-being of the children they serve and ensuring distribution of essential items.
- Funded programs that provide oral health were able to provide oral health education utilizing Zoom and outreach events via food distribution events.
- Local United Way saw an increase of 300 percent and has prioritized calls to ensure families are linked to resources.

Tulare County's community has come together during this difficult time. Everyone is working together for a common goal of ensuring that the county's youngest population and their families are healthy, strong, and in safe loving environments.

Tuolumne

First 5 Tuolumne County provides leadership and support for programs to achieve the vision that all children are healthy and ready to learn. First 5 Tuolumne invested $726,982 in Fiscal Year 2019–20, providing services to over 1,500 young children, parents, and providers. Of those receiving services, most were served by Adult and Family Literacy and Health Programs (77 percent), such as the *Smile Keepers* dental program and the *Imagination Library*. First 5 Tuolumne's main focus areas are:

- Improved Family Functioning: Primary Caregivers obtained the supports and resources they need to be their child's first and best teacher. 225 parents, caregivers, and providers participated in programs for improving family functioning, such as in-home support and group parenting classes, as well as training to improve their ability to provide for their families, such as GED and ELL classes.
- Improved Child Health: The *Smile Keepers* oral health program provided oral health screening, fluoride varnish, and education to 517 children and 136 parents.

- Improved Child Development: First 5 Tuolumne County invested $237,900 to improve the quality of its early care and education sites. This was done by investing in professional development stipends for providers who participate in continuing education and/or coaching as well as investing in training to provide the ASQ-SE to parents.

This was the second year First 5 Tuolumne County has invested in the *Imagination Library*. Since 90 percent of a child's brain develops before the age of 5, we know it is vital to invest in families and encourage them to talk, read, and sing to their children every day. We are confident the *Imagination Library* helps make this happen. After only two years, there are over 25 percent of children 0 to 5 receiving books every month.

Although First 5 Tuolumne faced significant challenges due to COVID-19, its programs and staff adapted and found creative and innovative ways to stay connected to local families. Many of these innovations will continue to benefit families for years to come.

Ventura

In Fiscal Year 2019–20, the First 5 Ventura County Commission substantially shifted investments toward systems change due to reduced resources resulting from the planned depletion of the Sustainability Fund. A considerable investment in the county's early childhood system continues to be provided. These investments include continuation of *Parent and Child Together* programs *(PACT)* and family support services through a redesigned, place-based *Neighborhoods for Learning (NFL)* Initiative;

preschool services for a two-year transitional period; programs that provide linkage to resources and early intervention; and systems integration, advocacy, and capacity-building efforts. First 5 Ventura is one of nine communities nationwide to receive funding from the Pritzker Family Foundation to house a Fellow who focused on advancing the Commission's Prenatal-to-Three agenda. Building upon an in-depth evaluation of PACT, First 5 Ventura implemented a new standardized PACT model to increase consistency throughout Ventura County. This new model enabled it to partner with the County Libraries and Quality Counts Ventura, further expanding the reach and improving the quality of these services. Several additional accomplishments were realized in the implementation of countywide system initiatives through national, state, and local partnerships with agencies, schools, and community organizations. First 5 Ventura was invited to participate in a national project led by Nemours Children's Health System and a state-level project led by the Center for the Study of Social Policy to better leverage Medi-Cal for promoting child outcomes. Leadership was provided locally and statewide for the 2020 Census to aid in counting families with children ages 0 to 5. First 5 Ventura also partnered with the county's Child Welfare Department on the development of the Prevention Plan, and continued to promote the importance of early literacy through book distribution and collaboration with libraries, and hosting the annual *Take 5 and Read!* event, which was held virtually due to the pandemic.

Yolo

In Fiscal Year 2019–20, the second year of a new strategic plan, First 5 Yolo County achieved an increasingly sharper focus on prevention and deeper investments in systems transformation. Funded program highlights include helping families avoid the need for entry into CWS and supporting positive parenting; increasing access to early mental health screens and supports; engaging families in early learning; and launching a countywide, integrated systems effort built on an earlier pilot maternal/infant program. Together with direct service partners, First 5 Yolo developed a larger initiative, The CHILD Project: R*oad to Resilience (R2R)*, for higher-risk perinatal families. *R2R* is co-funded with California Department of Social Services Office of Child Abuse Prevention and several local agencies. All programs are increasingly coordinated and targeted to integrated systems transformation. The Commission realized significant progress in this direction led by the *R2R* progress. *R2R* is designed to prevent conditions that contribute to child maltreatment and prevent adverse childhood experiences by identifying high-risk mothers and infants, and providing intensive services to substantially mitigate the risk for child maltreatment and future trauma. *R2R* incorporates three models of evidence-based home visiting, establishes central coordination, integrates medical and social services, and addresses early learning and family strengthening with over 10 partner agencies.

In the support of these efforts, First 5 Yolo advocated for the dedication of new revenues to early childhood prevention and intervention. This catalyzed leading-edge policies, resulting in the inclusion of early childhood in a county cannabis tax that enhanced *R2R* in Fiscal Year 2019–20, as well as dedicated funding from cities. In response to the COVID-19 pandemic, First 5 Yolo invested time and dollars in immediate and nimble support, including transition and maintenance of services, emergency supply efforts for families and child care providers, and child care provider stabilization and safety training.

Yuba

In March of 2020, the First 5 Yuba County Commission adopted a resolution and released $20,000 in Responsive Emergency Relief funds to support children 0 to 5, their families, and child care providers directly affected by COVID-19. With these one-time funds, eight community-based organizations and community members were awarded funds to provide children and families with enrichment activities, including: Daily virtual story times, bi-weekly Facebook Live concerts, weekly virtual yoga classes, virtual early learning classes, and a text-based parenting curriculum focused on addressing trauma. A local charter school developed a 10-part short film series called "Children Outdoors," highlighting the importance and connections between child development, play, and the outdoor environment. This short film series provided parents with educational tips, ideas for creative outdoor play in various environments, and explored multiple outdoor treasures in Yuba County. The film series, along with many of the other virtual programs, resulted in tangible digital assets and educational tools that were used by other early child educators, child care providers, and families. In addition, seven local child care providers were awarded emergency relief funds to ensure their business remained open and continued to operate safely, with quality and suitable learning environments. Local child care providers utilized funds to purchase proper equipment to help mitigate the spread of COVID-19, including: screening stations, hands-free soap dispensers and faucets, and sanitizing stations. Children's outdoor equipment, such as shade structures and water tables, were also purchased to encourage outdoor play and social distancing in developmentally appropriate environments. As a result of this funding, First 5 Yuba was able to quickly meet the needs of local child care providers and families with children 0 to 5, and in doing so, created new sustainable relationships.

Appendix A: Number of Services and Expenditures by Result Area and Service Type, FY 2019–20[1]

IMPROVED FAMILY FUNCTIONING

Result Area and Service Type	Children	Primary Caregivers	Providers	Total Primary Caregivers and Providers	Total Number of Services	Percent of Services in Result Area	Percent of Total Number of Services	Total Expenditures for Services	Percent of Service Expenditures in Result Area	Percent of Total Expenditures [2]

Appendix B: Result Area and Service Type Definitions

Result Area: Improved Family Functioning

Providing parents, families, and communities with relevant, timely, and culturally appropriate information, education, services, and support.

General Family Support
Programs providing shorter-term, non-intensive instruction on general parenting topics, and/or support for basic family needs and related case management (e.g., meals, groceries, clothing, emergency funding or household goods acquisition assistance, and temporary or permanent housing acquisition assistance). Supports may include referrals to family services such as Family Resource Centers (FRCs) and other community resources, adult and family literacy, and fatherhood programs. In general, these programs are designed to provide less intense and shorter term support services and classes for families by paraprofessional staff. Program models or initiatives may include Abriendo Puertas, Avance, family resource core support, and the Positive Parenting Program (Triple P).

Targeted Intensive Family Support Services
Programs providing intensive and/or clinical services by a paraprofessional and/or professional, as well as one-to-one services in family support settings. Programs are generally evidence-based and designed to support at-risk parents and families prenatally or with young children to increase knowledge and skills related to parenting and improved family functioning (e.g., counseling, family therapy, parent-child interaction approaches, and long-term classes or groups). This also is the category for reporting comprehensive and/or intensive services to special populations (i.e., homeless, teen parents, foster children, special needs). Program models or initiatives may include Incredible Years, Nurturing Parenting Program, and Triple P.

Result Area: Improved Child Development

Increasing the quality of and access to early learning and education for young children.

Quality Early Learning Supports
Programs designed to enhance early learning programs such as professional development for early educators, or implementation and integration of services. This service category may include quality rating and improvement system investments as part of First 5 Improve and Maximize Programs so All Children Thrive and Quality Counts California. This service category covers Early Childhood Education (ECE) settings efforts, most commonly by licensed care providers, and may include interagency collaboration, facility grants and supply grants to providers, support services to diverse populations, and database management and development. Non-ECE settings work is included under General Family Support. Program models or initiatives include Quality Counts California.

Early Learning Programs
Early learning programs for children 0 to 5 years old may include preschool programs, kindergarten transition services, and early learning programs for all ages. Early learning programs for primary caregivers and their children together may include playgroups primarily focusing on 0 to 3 year-olds. Programs may include child-related early literacy and Science, Technology, Engineering, and Math programs. Programs may include extra supports in early learning settings for homeless children, Federal Migrant or Tribal Child Care programs, and children receiving Alternative Payment vouchers for childcare. Program models or initiatives include facility grants, playgroups, preschool/childcare reimbursement, and summer programs.

Result Area: Improved Child Health

Promoting optimal health through identification, treatment, and elimination of the risks that threaten children's health and lead to developmental delays and disabilities in young children.

General Health Education and Promotion
Programs promoting children's healthy development, including nutrition, fitness, and access to health/dental/vision insurance and health services. Programs also may focus on increased awareness of information about child safety seats, fire, safe sleep, and drug/alcohol/tobacco education. Program models or initiatives include nutrition/breastfeeding, safe sleep, safety education, smoking or tobacco cessation.

Prenatal and Infant/Toddler Pediatric Support
Out-of-home programs that may include prenatal care and follow-up for healthy development-related services during the first three years of a child's life. These programs are designed to improve the health and well-being of

women during and after pregnancy, and the infant or young child by a paraprofessional and/or professional outside of the family home, including, but not limited, to pediatric or clinical environments. Programs may provide comprehensive support, including parenting education, health information, developmental assessments, providing referrals, and promoting early learning.

Program Models or initiatives include Developmental Understanding and Legal Collaboration for Everyone, Healthy Steps, and local models.

Perinatal and Early Childhood Home Visiting
Home visiting is a primary service delivery strategy for inter-generational family-centered supports. Home visiting services are provided by qualified professionals with parents, prenatally and/or with children birth to age three. These voluntary programs are tailored to meet the needs of individual families and offer information, guidance, and support directly in the home environment. While home visiting programs vary in goals and content of services, in general, they combine parenting and health care education, early intervention, and early learning supports for young children and their families. Home visits focus on linking pregnant women with prenatal care, promoting strong parent-child attachment, coaching parents on learning activities that foster their child's development, and supporting families during the pivotal window of pregnancy through early childhood.

Program models or initiatives include Early Head Start, Healthy Families America, Nurse Family Partnership, Parents as Teachers, Home Instruction Program for Preschool Youngsters, Maternal, Infant and Early Childhood Home Visiting, and local models.

Oral Health Education and Treatment
Programs providing an array of services that can include dental screening, assessment, cleaning and preventive care, treatment, fluoride varnish, and parent education on the importance of oral health care. This may include provider training and care coordination of services.

Early Intervention
Programs providing screening, assessment, and diagnostic services, including referrals or follow-up to needed services. Programs including early intervention or intensive services to children with disabilities and other special needs, or at-risk for special needs. May include strategies targeting language and communication skills, social and emotional development, developmental delays, related parent education, and Mental Health Consultations in ECE settings. Program models or initiatives include care coordination and mild-to-moderate supports.

Result Area: Improved Systems of Care

Implementing integrated, comprehensive, inclusive, and culturally and linguistically appropriate services to achieve improvements in one or more of the other Result Areas.

Policy and Public Advocacy
Policy and Public Advocacy includes community awareness, public outreach and education on issues related to children 0 to 5 and their families. This also may include work focused on policy change, work with local and statewide stakeholders, policy development, related efforts, and Town Halls.

Initiatives include resilient families and communities, child health, early learning, and revenue.

Program and Systems Improvement Efforts
Efforts to improve service quality, connections between programs, infrastructure support, and professional development. This also may include activities such as strategic planning, business planning, grant writing workshops, sustainability workshops, and assistance in planning and promoting large community conferences or forums. These improvement efforts should result in improved outcomes for children ages 0 to 5 years of age. Improvements could be geared toward creating a well-trained workforce with shared professional standards and competencies, creating strong and effective linkages across particular system components, or leveraging funding to sustain the system of care. This also may include database management and other cross-agency systems evaluation support. Initiatives include early identification and intervention, health systems, family strengthening, *Talk. Read. Sing.®*, and Trauma Informed Care/Adverse Childhood Experiences.
