MEETING OF FIRST 5 BOARD OF COMMISSIONERS

Thursday, April 8, 2021

750 North Alameda Street, First Floor

Los Angeles, California 90012

STENOGRAPHICALLY REPORTED BY:
HEATHERLYNN GONZALEZ
CSR #13646

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

Thursday, April 8, 2021; Los Angeles, California

1:31 p.m.

-oOo-

SUPERVISOR KUEHL: I believe the hour having arrived, that it is a good time to call this meeting to order. And so let us begin with a roll call.

THE SECRETARY: Thank you.

Judy Abdo?

COMMISSIONER ABDO: Here.

THE SECRETARY: Linda Aragon?

COMMISSIONER ARAGON: Here.

THE SECRETARY: Astrid Heger?

COMMISSIONER HEGER: Here.

THE SECRETARY: Yvette Martinez?

Frank Ramos?

COMMISSIONER RAMOS: Here.

THE SECRETARY: Jonathan Sherin?

Romalis Taylor?

COMMISSIONER TAYLOR: Here.

THE SECRETARY: Marlene Zepeda?

COMMISSIONER ZEPEDA: Here.

THE SECRETARY: Karla Pleitez Howell?

COMMISSIONER PLEITEZ HOWELL: Here.

THE SECRETARY: Jacquelyn McCroskey?

COMMISSIONER McCROSKEY: Here.

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

THE SECRETARY: Deanne Tilton?

COMMISSIONER TILTON: Here.

THE SECRETARY: Keesha Woods?

COMMISSIONER WOODS: Here.

THE SECRETARY: Sheila Kuehl?

SUPERVISOR KUEHL: Here.

THE SECRETARY: Quorum is present.

SUPERVISOR KUEHL: All right. Thank you so much. Please, if you would, Ms. Vo, read the ground rules for the meeting.

THE SECRETARY: Thank you so much. I will start with that.

Pursuant to Governor Newsom's Executive Order N-25-20, members of the First 5 LA board of commissioners or staff may participate in this meeting via teleconference. In the interest of maintaining appropriate social distancing, members of the public may observe this meeting telephonically or otherwise electronically as posted on our website and this agenda.

To provide public comment, you may submit written public comments by e-mail to lvo@first5la.org or call (213) 276-9389. Please do indicate the item number your comment corresponds with. All public comments corresponding to an agenda item must be received before 1:30 p.m. the day of the meeting. Any received after 1:30

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

p.m. will become a part of public reports. All public comments received prior to 1:30 p.m. today will be read aloud at the end of each item it coincides with.

Before we begin today's meeting, please do note the following: Today's meeting will include video and audio allowing all meeting participants and public members to view presentations via shared screen. To minimize background disruptions, all board members and staff should place their lines on mute until called upon to speak. And to minimize multiple people speaking at the same time and to ensure for a coherent dialogue, if board members would like to speak to an item or have a question, please text our board chair your name to express interest in speaking. Alternatively, you can also use the hand raise function on Zoom or message me directly via the chat box on Zoom and I will coordinate with the chair to indicate an interest in speaking.

With the exception of adjournment, which will be called for by our chair, a formal roll call will be done for all action items. A reminder to all board members to take yourself off mute prior roll call.

If technical assistance is required during the meeting, please do contact me at (213) 276-9389, and I will connect you with IT.

With that, I will now hand this back to our

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

honorable chair.

SUPERVISOR KUEHL: Thank you very much. Let us move to the consent agenda. Does any commissioner wish to remove any item consent? All right.

The presentation is in front of you. I don't believe that we generally present consent items if no one has pulled anything.

Ms. Vo, are there any public items on the consent agenda?

THE SECRETARY: There are no public comments on the consent agenda.

SUPERVISOR KUEHL: All right. May I have a motion then for adoption of the consent agenda?

UNKNOWN SPEAKER: So moved.

UNKNOWN SPEAKER: Seconded.

SUPERVISOR KUEHL: All right. It's been moved and seconded. May we have a roll call vote.

THE SECRETARY: Judy Abdo?

COMMISSIONER ABDO: Yes.

THE SECRETARY: Linda Aragon?

COMMISSIONER ARAGON: Yes.

THE SECRETARY: Astrid Heger?

COMMISSIONER HEGER: Yes.

THE SECRETARY: Yvette Martinez?

COMMISSIONER MARTINEZ: Yes.

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

THE SECRETARY: Frank Ramos?
COMMISSIONER RAMOS: Yes.
THE SECRETARY: Jonathan Sherin?
COMMISSIONER SHERIN: Yes.
THE SECRETARY: Romalis Taylor?
COMMISSIONER TAYLOR: Yes.
THE SECRETARY: Marlene Zepeda?
COMMISSIONER ZEPEDA: Yes.
THE SECRETARY: Sheila Kuehl?
SUPERVISOR KUEHL: Yes.
THE SECRETARY: Motion is passed.
SUPERVISOR KUEHL: All right. Thank you. The consent agenda is approved.
Next we normally at this item have a few remarks from the chair. And been thinking about, especially our agenda today, you know, whether we're shedding old documents and making room as it were, although electronically I guess it's kind of endless, for new things, new agreements, new partnerships, innovation. We are also being -- going to look at our new structure. And Kim will talk about her team and the way in which our work is organized. So sorry. Too many phones.
But I think mostly what I want to talk about is the item where we're -- we're going to reflect on lessons that we've learned in First 5 as we responded to the

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

pandemic. This is a conversation that's going on in all of our organizations as we think about moving into kind of a new phase and what that will mean for us after a whole year. There are things that we've learned that we want to leave behind, simply didn't work or did work for the time but not the best optimal way to do things. But interestingly, I think there have been many lessons -- and we'll talk about that as we get to that item -- that we do want to take forward with us. In many ways, people look at more structural questions: What about going back to work? What about teleworking? What about providing services through telephonic communication?

But as Jon Sherin could tell us, there have been sort of more profound changes in the ways in which we've thought about our relationship to our work, to our neighbors, to our families, to the use of our own time, and kind of our own I think place in the world.

In many ways, the county, which I represent, has been called upon as never before to provide solutions, to provide emergency help, to figure out sort of long-term solutions, to make decisions about what's safe and what's not safe. And in many ways our First 5 agency and our colleagues doing this work have been faced with very much of the same thing. And there's been a really good partnership between First 5 and the agencies in the

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

county, the kind of continuing partnership that I think is -- serves us so well. And we don't have opportunity to come in on that too, I think, when we had this item presented.

And I -- also, as my last piece of my remarks, I want to extend my enormously enthusiastic congratulations to John Wagner, our executive vice president, who has agreed to take on a new responsibility by leading the Center For Child and Family Impact. We're so aware that John has played a critical leadership role since he and Kim both joined First 5 together in December of 2012. Can't believe it's been so many years so quickly. And over the course of this more than eight-year period, John's primary role has been to lead much of First 5's operations work. But in his new role, he'll be extending his role beyond operations. And his creativity, once again, called upon to augment the work.

And John, I know you're thrilled to be going home as you put it in your announcement, getting back into an environment where you'll be working more directly with our health and human services systems, touching the kids and families that First 5 exists to serve. I know you'll maintain your title of executive VP, but First 5 is incredibly fortunate to have you in this new capacity. And I ask my colleagues on the board, if you would, either

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

by clicking the clapping hands or actually showing clapping hands or making noise to join me in an enthusiastic virtual round of applause.

Here's mine. Bravi, bravi, bravi.

MR. WAGNER: Thank you so much.

SUPERVISOR KUEHL: Thank you, John.

So I'm quite pleased next to call on First 5's fearless leader. But before I do, Ms. Vo, were there any public comments for my comments?

THE SECRETARY: There are no public comments.

SUPERVISOR KUEHL: All right. Thank you. So let us call upon our fearless leader, Kim Belshe.

MS. BELSHE: Thank you so much, Supervisor Madam Chair. And I'd like to build on your comments. But before I do that, I'm going to first ask Deanne to say a few words about child abuse prevention month, which is the month of May. So, Deanne, let me turn it over to you.

COMMISSIONER TILTON: Thank you, Kim. And thank you, Sheila. Congratulations, John. Love working with you for the past 100 years. It's good to see you back where you belong.

Yes. April is National Child Abuse Prevention Month. And it was so declared by the board of supervisors on April 6th, child abuse prevention month in LA County. As you know, this has been a year of very high risk for

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

children. And so the importance of recognizing child abuse prevention month this year has become even more significant. Usually when the board declares child abuse prevention month, children have participated in the child abuse prevention poster art contest appeared before the board and are recognized for their incredible insights and messages regarding how children can be safe and what it takes for children to be safe and well.

Sheila, I have to tell you, your student won the grand prize. And it will be featured along with a very amazing YouTube 18-minute production that's going to be released on April 29. Lindsay Wagner's social media firm and others have come together to produce what is like nothing we've ever done before that includes celebrities, VIPs, and an original song that was written by Annie Bosko and Billy Sondheim just for this production.

So I want everybody to be alert that on April 29, this will be released. And I can share it with anyone who really wants an advance on it. It's very touching. And every one of the 25 students is recognized in this production.

I also want to say that there will be a news conference on April 23rd with several department heads. At that time, the no-hit campaign will be released. You don't hit your partner, you don't hit your child, children

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

don't hit each other. And the 30-year, retrospective on children who have died from child abuse, which is in a way sad but really hopeful. And I have to say that I credit our commission, First 5 commission, with so much of what has made a difference between we have addressed those children most at risk because they are very young children; not just zero to five, zero to three, and in the first year of life. And so we credit you and we credit volunteers and we also celebrate Children's Memorial Day statewide on that day.

And then, finally, on April 14, next week, everyone's invited to join the ICAN operations committee where our fellow commissioner, Dr. Astrid Heger, will be making a presentation on fetal alcohol syndrome.

So that's my announcement. Thank you so much for the time. I appreciate it.

MS. BELSHE: Thank you so much, Deanne. And thank you and your ICAN team for all of your strong leadership in this critical area.

I do want to clarify one -- not clarify. I want to underscore an important issue relative to John's -- the evolution of John's role is, John as capable and able as he may be, I want to make sure that the board is clear that John is not continuing in his role as chief operating officer, but is going to be deployed full-time as the lead

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

of our Center for Child and Family Impact while he continues to serve as the organization's executive vice president.

You're going to be hearing shortly from Jasmine Frost who is our director of information technology. Jasmine is going to be serving -- has agreed to serve -- thank you, Jasmine -- as our interim chief operating officer. And we have deployed our executive recruiter, Julie Justice McGinnity, who a number of you have spoken with in the context of the CCFI recruitment. We are working with Julie now to do a recruitment for the chief operating officer. So thank you to those commissioners who dedicated some time to help inform that search for CCFI. Very helpful and timely feedback that will help to inform my thinking about how to approach that role and those of who you Julie will be talking to as part of our chief operating officer search. So thank you there.

I think with my comments, I want to use my time to talk a little bit about the theme that the supervisor just raised in context of her remarks. And I want to tie it to an important theme I've been endeavoring to underscore with the team and with the board since the start of this year, which is around what I characterize as the three strategic imperatives that are informing and driving our implementation work in furtherance of our

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

strategic plan. And I've talked with board and staff about focus and priority setting, integration, and alignment, and diversity, equity and inclusion. And I've shared how our efforts to establish clear priorities to ingrate across the different functions that make up First 5 LA and to embed diversity, equity and inclusion both within our internal processes as well as the work we do externally alongside community, really is requiring us to approach our work in some new ways, new ways that I'm confident will strengthen our contribution and impact for our county's youngest children.

And we are endeavoring to lean into new ways of doing work at the very time that we continue to work remotely. And at today's meeting, we want to highlight four commissioners, two examples of our evolving approach to our work and our evolving approach to impact in a remote context.

So first we're going to hear from a cross-section of our colleagues who are going to provide an overview of First 5 LA's response in the context of Covid-19. We want to share with you learning across a number of domains. And, importantly, we want to look ahead and talk about the application and the implications for our work going forward.

Next, Peter Barth, who is now serving as chief of

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

staff to the organization, will walk through our new organizational structure and leadership team. And then Antoinette is going to come in and close that presentation, putting the new structure into this broader context of organizational change efforts that we are undertaking to strengthen our work and contribution to child and family results.

What I want to note here for the board is that, behind these concrete examples are people, first and foremost people in terms of those who First 5 LA exists to serve and support, namely children and families of LA County. It's the children and families who are the center of our work that have been and continue to provide deep motivation for our team, to focus our efforts, and to bring urgency so all that we do. And behind the concrete examples is the First 5 LA team itself. And so the board's going to be hearing examples of our teams' response to Covid-19 to meet the moment, to immediate the needs, the urgent needs in the immediate term and longer term that children and families are facing.

But behind what you hear, I want to lift up what I see in my colleagues over the course of this past year. I have seen a -- a grace, a resiliency, a humility and humanity, an adaptability and nimbleness that has served the organization well. These are qualities that have been

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

incredibly important to enabling our organization to navigate these most turbulent of times, both personally challenging and turbulent, as well as professionally challenging and turbulent. They're qualities that are anchoring our efforts to work, as I say, in new and more powerful ways in terms of how we're approaching our work. And they're qualities that give me a lot of confidence for the future because they're qualities that are serving us well today and I believe are critically important to serving the organization and our mission and impact going forward.

I also see in the team a recognition that in an environment of uncertainty and instability and unknowns, we recognize that we need to hold tight to what we can control, where we can achieve a degree of certainty, and where we have agency. And that is the very real and importance consequential work that we are privileged to be a part of at First 5 LA.

So this year has been challenging in so many different levels, personally and professionally, organizationally, societally. And I'm just super proud of and grateful to the team for holding tight to our north star throughout these rocky and uncertain times and the results we seek for children and families, and holding tight to one another; albeit, holding tight virtually.

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

It's been terrific to see the strength and the solidarity that the team has been bringing, again, qualities that not only have served us and the children and families of LA county well this past year, but give me a lot of confidence and hope for our future and impact going forward.

So I turn it back over to you, madam chair. Thank you.

SUPERVISOR KUEHL: All right. Thank you, madam executive director.

I did forget to say in my remarks for those of you who have worked with or closely with Hilda Solis. Her mother passed away the other day in case anyone wanted to send a note, if you wish to or know her.

So thank you. Ms. Vo, were there any public comments to the executive director's report Item 4?

THE SECRETARY: There are no public comments for this item.

SUPERVISOR KUEHL: All right. Thank you so much.

Let us move then to Item 5. Mr. Wagner, I think you're going to just present quickly or -- since no time was allocated for this, I think it's simply whatever item we need to ratify.

MR. WAGNER: Yes. And it is a written item. This is the -- a resolution is going to be passed that

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

will include any actions that Kim has taken under her authorities -- emergency authorities given by the board. And we bring this item up just to ensure full transparency. And the resolution reflects the fact that three additional holidays have been granted to staff. Our office will be closed an extra day for Memorial Day, 4th of July, and Labor Day.

SUPERVISOR KUEHL: All right.

Ms. Vo, are there any public comments on Item 5?

THE SECRETARY: No public comments on Item 5.

SUPERVISOR KUEHL: I haven't received any request for comment from any commissioner. So may I have a motion to ratify this action?

COMMISSIONER HEGER: I'll move.

UNKNOWN SPEAKER: Second.

SUPERVISOR KUEHL: All right. It's been moved and seconded.

Please call the roll on Item 5.

THE SECRETARY: Judy Abdo?

COMMISSIONER ABDO: Yes.

THE SECRETARY: Linda Aragon?

COMMISSIONER ARAGON: Yes.

THE SECRETARY: Astrid Heger?

COMMISSIONER HEGER: Yes.

THE SECRETARY: Yvette Martinez?

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

Frank Ramos?

COMMISSIONER RAMOS: Yes.

THE SECRETARY: Jonathan Sherin?

COMMISSIONER SHERIN: Yes.

THE SECRETARY: Romalis Taylor?

COMMISSIONER TAYLOR: Yes.

THE SECRETARY: Marlene Zepeda?

COMMISSIONER ZEPEDA: Yes.

THE SECRETARY: Sheila Kuehl?

SUPERVISOR KUEHL: Yes.

THE SECRETARY: Motion has passed.

SUPERVISOR KUEHL: All right. Thank you very much. Let us now move to what is clearly the most exciting item on the calendar today, the -- the request to authorize disposition of records. And I was thinking just to get out frustration, I wonder, Craig, if you can let us know if we can show up in person and rip these things up.

Anyway, over to you Attorney Steele. Item 6.

MR. STEELE: Excuse me. Thank you, chair, and members of the board. I know every year this is a highlight of board members' participation in this organization. And I know that we missed it last year for obvious reasons. So sit back and relax and enjoy a little deep dive into records management at First 5 LA.

Under the provision of the government code as a

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

public agency, First 5 LA is required to have a records management and disposition system before disposing of any official documents. And in 2018, this board adopted a very extensive records schedule, which is attached in your staff report. And then every year the best business practice is to go through a process of identifying obsolete records and managing those records and moving them for disposition, if approved, through a process.

It's a best practice for business. It's a risk management practice for public agencies. And this step in the process is a very important transparency step, all kidding aside, because it gives the public the assurance that these documents have been reviewed extensively by staff as well as by legal counsel and the executive director, and then reviewed by the board before they are destroyed.

And so you have before you six spreadsheets of files that have been determined to be obsolete and determined to be eligible to be disposed of under the records retention policy. Our staff colleague Danna Shackert (phonetic) did the really hard work of gathering all of these files up and determining whether they complied with the records retention schedule. I have reviewed all of those spreadsheets and determined that all of those files are eligible for disposition and have

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

approved the disposition as required by law. And Kim has approved that disposition as required by law. And so they're before the board for -- for review.

And if the board doesn't have any questions or concerns at this step, it's an information item only, we will have the approval of the disposition before you at your next meeting on consent calendar. And then, chair, if or members want to come down and do some shredding, I'm sure we could figure out a way to make that happen.

So if there are any questions, I'll be happy to answer them. Or Danna, who is also with us, may be able to answer more specifics. And with that, that concludes our report.

SUPERVISOR KUEHL: Thank you, Attorney Steele.

I don't see any requests or questions from the commissioners.

Was there any public comment on this item?

THE SECRETARY: There are no public comments on this item.

SUPERVISOR KUEHL: All right. This is an information only item. So if there's no objection, we will move to the next item because this is going to come back to us I think to approve.

MR. STEELE: Yes.

SUPERVISOR KUEHL: So let us move then to Item 7,

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

which is also an information item, and also filled with information. And this is our -- kind of our look back on a year of the pandemic. Sounds -- and I'm sure there will be a number of movies and books with that title. And so I think it's a lessons learned, some real examples, and I'm looking forward to this presentation. Let me turn it over to Mr. Barth, our chief of staff, who will kick it off and I think introduce all of the others who are going to inform us about this experience.

Mr. Barth.

MR. BARTH: Thank you so much.

As Craig just mentioned a year ago this month we didn't meet as a board for what he said were obvious reasons. Just a few weeks prior to when we were supposed to convene in person as a board last April, First 5 LA, like the rest of Los Angeles and the world, focused on a new public health threat, a virus that will -- would have ended up infecting more than 1.2 million residents of our county and have impacted us all in so many different ways. We've lost loved ones, we've lost friends, and we have -- are confronting a different economic and cultural reality than we knew before.

So a year later we are still in the middle of a pandemic. So it's sobering to mark this milestone, but it's also a reminder that we've done a lot as an

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

organization and we've learned a lot as an organization, and we have a lot that we need to be applying as an organization to our work moving forward, both to continue to address the pandemic, but also as we think beyond.

So today, I am excited -- and I apologize for some computer issues here. Nope.

So today our goals, as was shared before, we want to reflect on our experience, we want to share some concrete examples of our work. So I've been joined by some of our colleagues to share some stories, but also to discuss some of those lessons learned. And most importantly, we're eager to hear from all of you as well.

So as commissioners will recall, the onset of the pandemic was at the same time First 5 LA was beginning the plan for the July launch of our newly adopted strategic plan. So as soon as we understood the potential depth and severity of this new virus, we immediately had to ask ourselves, what do we do? How do we respond as an employer, as a funder, as a public agency with a countywide mission?

So we quickly convened an internal task force comprised of key members of our leadership team to launch a response and to plan for our future. And we pulled together this framework grounded in our strategic plan to set some priorities for our work. And the full document

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

that was shared with the board a year ago is attached as materials to this presentation. And the framework was titled, A Path Forward Together. And it established three core principles. And the first was our responsibility to protect the health and safety of our employees.

In the earliest days of the pandemic -- sometimes it's hard for us to remember what it was like then -- but we had to focus on that first. We were stopping all travel. We were shutting down our office. We were rapidly amending policies so we could ensure that those in our direct care as our employees were safe and healthy. And at the same time, we had to address the second priority, which was, we have a fiduciary legal responsibility to those we contract with, our grantees, our vendors, those organizations who are supporting our work. And so at the same time as we're focused on supporting the health and safety of our staff, it was, how do we make sure that our contracted partners are able to protect the health and safety of their teams and to do their work in new and different ways.

And then, finally but perhaps most significantly, was this acknowledgment that we have a responsibility central to our mission to support LA County young children and their families with an emphasis on those most vulnerable during the pandemic. So regardless of our

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

existing work and our existing commitments, we knew we had a more significant role we would need to play.

So as you can imagine, the scope of these priorities grounded in our strategic plan required some quick action across multiple dimensions and multiple aspects of our work. So earlier on in the agenda you heard -- you saw that we were providing some visibility into the actions that we've taken to respond to the pandemic over the past month. We've been doing this, as commissioners will recall, every month in our board meetings. And when we think about the past year, there have not been close to a hundred different actions that have been presented to you all highlighting how we're responding to the pandemic.

So we will, of course, not go into each detail of all the hundred actions, but we wanted to highlight a few just so that we would have a greater line of sight as we're pivoting to some concrete examples.

First, we immediately over a weekend transitioned our entire organization to work remotely. I want to underscore how heavy this lift was. At the start of 2020, we were an organization still heavily reliant on in-person, office-based work. And our newly adopted strategic plan did put in a focus on operational excellence. So we were envisioning with the board support

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

a significant evolution in our operational work. But those operational changes were planned over time, not overnight. So the ability to transition our work quickly required very quick thinking and doing on behalf of all of our colleagues, in particular with a focus on our Center For Operational Excellence staff in thinking about our facilities and thinking about operations like finance and technology.

In addition to the forming our internal task force that I mentioned earlier and also receiving emergency authorities from our executive director, we formed an internal work group to review and direct funding for emergency response activities. So over the past year, nearly $3 million has been directed to support activities, including distribution of supplies to families and providers, contributions to countywide pooled response funds, resources for increased advocacy for early childhood priorities in the context of pandemic response, and flexible funding for our community-based partners who are working to respond to the pandemic in real time.

And another key component of our Covid response efforts externally was listening directly to our community, parents and leaders, organizations working on the front lines of Covid response. You'll hear more from our family supports and early care and education teams

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

about this work in practice with some examples. But also beyond today, you've been hearing and will continue to hear about our work in the context of Covid during our board and various community discussions.

So, for example, you've heard and will continue to hear from communities team, through our deep dives and through our Best Start regional work during monthly program and planning committee meetings. What you're hearing is not only an evolution on -- in how we do our work within community, but concrete examples of how our work with community has shaped and informed our organizationwide priorities.

So before we pivot though and share some of the more concrete examples from my colleagues, I want to share some of our key learnings from the past year. In this first one is essential that we remember that Covid-19 is not the work of First 5 LA, but it is the context for our work. Our goals and our -- for better outcomes for children and families in LA County remain unchanged, but Covid threw a significant curve ball into what that work looked like, the context of what was happening to families and young children in LA County.

While we would hope that there won't be a global pandemic at the size, scale, and impact of Covid-19 again in our lifetimes, we know there will be other contextual

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

changes to our work, and we have to be able to respond, adapt, and be ready for whatever else may come our way. And that insight leads to the second one, which is this key theme of adaptation. We have to be able to adapt operationally and programmatically. The work of systems change requires the ability to adjust and be nimble. And as we know, that's not always the strong suit of public agencies like First 5, but Covid showed us that we can do it. Change is hard. It's especially hard during a crisis. But sometimes extraordinary events and crises can push us to do some challenging things.

Covid-19 has also reinforced the number of principles embedded in our strategic plan. And there are a few that are underscored here -- excuse me -- that are underscored here for our collective attention. One is that our operational work internally and our work externally are connected. They're very connected to each other and we have to continue to focus on both of those aspects of our work to be able to advance our goals.

We also -- and this may sound obvious, but we have to remember that at First 5 LA we will only be able to do our work with if we do it with others. There's no way we can accomplish our aspirations or the goals embedded in our strategic plan if we try to go it alone. We've got to collaborate and partner with others.

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

Another piece of this is, data has to drive so much of our work. In order for our work to be relevant and to be impactful, we have to look to data. But connected to that is that data alone is not the solution. We cannot do our work without insights from direct lived experience, and that means engagement with employees internally, but it also means community and partners externally.

So with that, I'm pleased to turn the time to my colleagues. No longer need to hear from me. Let's hear from those who've been meeting the work in some of this concrete action. And I'm pleased that the board, for those of us who were on the call as we were getting started, to hear from some of our organization's leadership who typically do their work behind the scenes that you don't get to see every day.

So to start with, I'm going to be handing it over to my colleague Gala Collins, who's our human resources and talent management director.

Gala.

MS. COLLINS: Yes. Thank you, Peter.

So one of the first things that the HR team did was to review our existing policies and procedures and see which policies and procedures needed to be modified or if we needed to implement new policies to support our

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

employees in this new environment and a new way of working. We added more flexibility to our already flexible work schedules. We allowed employees to start their day earlier and to end their day later. We also allowed employees to work in blocks of time so that they could take time off during the day to help their kids with online learning or run errands because businesses modified their hours and decreased capacity limits.

Another thing that we did, we modified open enrollment. So this is an event that takes place every year where our employees can change their existing benefits and enroll in new ones. Typically, it involves filling out paper forms and attending an onsite benefit fair that allows employees to meet with our benefit providers. This past year, we created a 100 percent electronic open enrollment. We also held a virtual benefits fair so that employees could interact with our benefit providers virtually and have their questions answered.

We also implemented a new policy. The telework one-time allowance policy was created to help employees set up a home office. We heard that employees were not set up properly to work from home, so we responded by providing a one-time reimbursement for employees to purchase a desk, chair, and other ergonomic support items

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

so that they could work from home more efficiently, effectively, and most important, safely.

This also helped the organization mitigate any workers' comp claims that can arise from an employee not having the proper ergonomic equipment to work from home. And approximately 88 percent of our employees utilized this new benefit.

During this time, we learned how important communication was to our employees. We sent out frequent communications on whether it was county updates on Covid, benefits available to them such as free virtual doctor visits or the mental health services available. We really tried to keep our employees engaged and informed because we knew employees were dealing with so many different issues, that a reminder of the resources available to them was very helpful and actually resulted in better utilization of our benefits.

Moving forward, we're going to take the lessons learned from this remote work environment and apply them to further refine our policies and procedures. One of our top priorities moving forward is going to be developing a long-term telework policy informed by staff input and the lessons learned during this mandatory telework time.

MR. BARTH: Thanks so much, Gala.

In addition to our human resources work, as you

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

can imagine, one thing that's been present for us all as we've been working remotely is technology. So I'm pleased to now hand it over to our director of information technology, and as Kim mentioned earlier, interim chief operating officer, Jasmine Frost.

MS. FROST: Thank you, Peter. Good afternoon, commissioners.

Today I'm going to highlight what IT accomplished, what we learned, and where we will be going in the future in response to our Covid-19 pandemic.

So what did we do. When the decision was made for staff to move from a physical environment into a remote environment that spread throughout the region, IT needed to ensure that we as an organization could operate in this distributive environment. The IT team implemented collaboration tools such as Zoom and Team, allowing First 5 LA to maintain engagement and connectivity with staff. It allowed project teams to continue to work on and collaborate on projects. And it continued First 5 LA's engagement with the community through virtual board meetings.

In addition, a lot of physical processes were also impacted. One in particular was the implementing of digital signature solution that improved work flow processes that previously required wet signatures.

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

And all these challenges required a lot of heavy lifting in a very expedited time frame.

It also had to work on the back end. One critical implementation was enhancement of our Internet bandwidth from 150 megabits per second to one gigabyte fiber connections. Another back-end area that IT worked on was migrating First 5 LA's applications that were located on premise to cloud-based environments. Having our systems available via cloud allowed IT to support First 5 LA's workforce more efficiently.

Even internal IT operations had to be improved during this pandemic. Previously, First 5 LA's data backups were done on tape and stored off sight. This required IT staff to be onsite on weekly basis to swap out these tapes and maintain the on-premise backup system. By building upon the cloud initiative, IT migrated these processes and is now capable of storing First 5 LA data backups in real time without requiring staff to come on site.

Through all this, we learned that IT team is capable of deploying solutions successfully in difficult times and communications being nimble, being empathetic, being collaborative was key to our success. This also showed us that in tough times it's not just technical skills that matter, but also soft skills can play an

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

impactful role in supporting First 5 LA.

Finally, how are we applying this to our future going forward so we can better serve our children and families. We continue to connect what we did with what we learned and to apply the good work moving forward. IT is building upon these technical investments and is now better positioned to support the remote workforce during the upcoming CIP building remodel project.

IT also continues to improve the deployment of cloud-based solutions and putting in more cloud-based security for mobile devices and thereby strengthening areas around cyber security. And finally, by moving our backup data into the cloud-based systems, we're improving First 5 LA's disaster recovery and business continuity procedures.

With that, I end my presentation and passing it back to you, Peter.

MR. BARTH: Thank you so much, Jasmine, to put a little bit of some concrete examples, some of the many around our internal and our operational excellence work. But as I shared before, the center of our work is our children and families in LA County and the work we do there.

So I'm going to hand it over now to our director of family supports Diana Careaga to talk about one aspect

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

of our work in the context of Covid-19, our home visiting. So Diana, I'll hand it over to you.

MS. CAREAGA: Thank you, Peter.

So as many of you know, there were many shifts in home visiting as providers have to turn from in-person to virtual visits. And the shift was required different approaches, not only programmatically and in meeting essential needs, but even in evaluation design.

So programmatically, there was some significant efforts to provide home visitors with training to support that pivot to virtual services. And this involves coordination with national home visiting models to inform the development of webinars to elevate those best practices and local efforts to ensure broad distribution of the materials.

We also had intent efforts by our oversight entity lead by Los Angeles Best Babies Network to transition a core training they were in the middle of conducting, which typically consist of over 150 hours of in-person training with multiple trainers, into a virtual platform in a little over a month, which is very impressive.

Essential for family was another area of focus. So in collaboration with our finance and contracts administration and purchasing teams, guidelines were

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

developed to allow providers the flexibility to spend up to 150,000 of their allocated funds in their budget on materials such as diapers, masks, hygiene products, and food delivery in case of a Covid case in the family. Funding was also included to support providers' use of virtual platforms and support additional technology needs of the home visitors.

First 5 LA staff also leveraged its partnership role to work with Baby to Baby, WIC and others to lead two diaper distribution efforts of over 10,000 boxes of diapers, representing more than a million and a half diapers. Staff also coordinated with the Department of Public Health. Supervisor Kuehl elevated and supported efforts that helped CPH procure $100,000 worth of funding to provide Chromebooks, hot spots, and wifi gift cards to 200 home visiting clients, which was a time sensitive opportunity that DPH could not have achieved on its own.

And, finally, this change also lead to evaluations change designs. So the Welcome Baby impact study was originally a randomized clinical trial. However, we realized that it was not an appropriate design in the context of Covid-19 and the many needs and challenges that families were facing. So as we shared back in the October PPC, the study was modified to a virtual outcome and implementation study to help learn

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

more about implementation of virtual home visiting, an area that has not been widely studied for which the results will help advance learning for better local and national level.

So we've learned a lot of lessons through these efforts. One has been the importance of incorporating parent and caregiver voice to ensure that we are identifying and meeting family needs. So when Los Angeles Best Babies Network modified monthly provider sites updates, we were able to capture information about families' challenges and needs. And it was this information that identified the need for diapers and technology distribution efforts.

And as they have been saying in the national field of home visiting, virtual visits have opened up Pandora's box. So the national models will not go back to only offering in-person home visits. And this is an area of ongoing exploration and learning to find the best mix of a service delivery mode. We know that there is no one-size-fits-all approach to meeting family needs. And if anything, we've learned that for some families virtual visits have been an effective recruitment strategy and service delivery method. So it's critical to not only continue to capture information, whether it's client surveys or provider updates, but to also partner more

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

closely with parents and caregivers to generate and share learning for ways to better support families and adapt our approaches, as necessary.

Thank you, and back to you, Peter.

MR. BARTH: Thanks, Diana.

And so to close out our panel of examples from our team, we're going to pivot to our program officer Jamie Kalenik who you've heard from before who is provided us some rock star examples of what it means to be an program officer in a systems change environment at First 5 LA. As we know, childcare access was a critical issue in the context of Covid-19. And so to share some more about that work and those examples from the ECE team, I'm going to hand it over to Jamie.

MS. KALENIK: Thanks, Peter.

Very quickly after the stay-at-home order last year, we realized the necessity of a coordinated response for ECE in LA County. First 5 LA came together with the LA County Office of Education and the Office for the Advancement of Early Care and Education situated in the Department of Public Health to convene the LA County ECE Covid-19 response team which also includes the Childcare Alliance of Los Angeles, research and referral agencies, LA USD Early Education, the office of Mayor Eric Garcetti, and Child 360, among others.

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

This group has been meeting together weekly since April of 2020. And in that time, we've coordinated supply acquisition and distribution to childcare providers, including diapers, personal protective equipment, cleaning supplies, and learning materials; set up an enhanced referral system for essential workers to find childcare; advised the County and City of LA in the use of CARES Act dollars to support childcare providers and families needing care; created a dedicated website for early educators to access the most current health and safety guidance, best practices to operationalize that guidance, and financial and legal resources. We hosted 15 community calls to provide up-to-date information and answer questions in real time, and we facilitated access to vaccines for the ECE workforce.

And while much of this work was done utilizing and aligning the resources and capacities of member organizations, First 5 LA has been able to fill in some critical gaps by leveraging Covid response funds from First 5 California impact and our own internal set aside. Some of what these funds have supported include contracting with the communications consultant to build and create content for childcareheros.org and reserve space in a commercial warehouse to receive and distribute supplies coming into the county for childcare providers.

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

And while we continue to learn daily from this experience, I want to point out a few things about the unique role of First 5 LA and our strengths in this situation. Even with the best intentions, we could not respond to this crisis without our partners. We are not the organization that has the contact information of all the providers in the county. We are not the experts on health and safety, and we do not receive the funding that flows from the state and federal governments. But we have relationships with all of these organizations and can make sure they are at the same table and working together to keep ECE accessible and safe for providers, children, and families.

We also learned that in some situations, we need to lean in, like in the cases of funding and managing a contract for communications for the response team. But there are other situations where we just need to make the right connections and let others lead. When Children's Hospital Los Angeles offered to provide a mobile vaccination clinic for ECE providers in the Antelope Valley, we worked with our communities team to identify partners with the location, worked with the local resource and referral agency to lead outreach to providers, facilitated one introductory call, and then let them run with the opportunity. They were able to hold two

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

clinics vaccinating over 400 people in an underserved part of the county.

And so when we think about the future, especially in our reality of declining funds, we will continue to evolve in how we do our work. We do not fund the response team and we do not fund a contract for another organization to lead it. What we bring is our relationships with our partners, our staff expertise and systems thinking, ability to facilitate and mediate, and the capacity to provide some background support that makes the whole thing work more effectively.

And the relationships we strengthen during this time will continue, such as those made with the City of Los Angeles and their partnership to connect the ECE workforce to existing resources in the employment and workforce development and department and business source centers.

And I want to quickly touch on something, one of Peter's slides that talked about the urgency of our situation. We knew before the pandemic that the financial model for early care and education was flat. And that, even in the best case where the State pays for subsidized care, does not cover the cost of even baseline quality. But this gap has been exacerbated by limiting group sizes and increased expenses during the pandemic. Most of the

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

financial burden is put on a workforce that is made up mostly of Black and Brown women who are severely underpaid for their labor. We have to keep this at the forefront of our mind as childcare is uplifted as a cornerstone of our pandemic recovery.

And with that, I will turn it back to Peter.

MR. BARTH: Thanks, Jamie.

I think we all appreciate just hearing more from you and your examples everyone that was on the panel, but we do want to make sure that we have a chance to pivot to hear from our commissioner. So just in closing, I want to say that a reminder, the pandemic's not over. We have a lot of work still to do. So this is just a point in time to pause along the journey of reflection and applying learning. As a learning organization, this is what we can do more of. We also know that going back is not an option. The goal here is not that we're just returning to the First 5 LA or the work of what happened in 2019, but instead that we're thinking about the future and the that learnings from our Covid response will continue to inform our strategic plan implementation.

And to build upon the last comment Jamie was making in a point that was in an earlier slide, we have an urgency to do our work. We both have to acknowledge that systems change does require a long-gamed approach. We

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

need to be thinking long term. But it also requires a daily sense of urgency. Families are struggling now in LA County, and we have to be able to bring that urgency to our work as we approach it every day.

So thank you to the panelists who joined me. Thank you for the attention and love. So open it back up to the chair for further conversation.

SUPERVISOR KUEHL: Thank you very, very much, all -- all of you for the thought and the presentation and the work. I think our commissioners are sort of kind of chewing into it.

And so, Ms. Vo, when you say public comment, is that a public comment or are you saying that we have a commissioner who wishes to speak.

THE SECRETARY: My apologies. Commissioner McCroskey would like to speak to this item.

SUPERVISOR KUEHL: Okay. Great let me finish and I'll turn it over to you, Jacquelyn.

I think that there -- there's a lot in here in terms of what we have done and what we have learned. Maybe after all the commissioners have spoken and, you know, shared their thoughts, that we can kind of pull it back to together with some questions and sort of future work.

But Commissioner McCroskey, if you would start,

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

that be great. Go ahead.

COMMISSIONER McCROSKEY: So I just want to compliment everybody. It's very impressive the amount of work that had to be done on the number of fronts on which it had to be done in a very challenging set of circumstances. But I really want to weigh in on the early childhood education side.

I think that the consortium that First 5 helped form is the thing that we should have had all along. And it has made such a tangible difference in the way that we think about early childhood education in this county and such a difference in the way that we form partnerships with -- between First 5, county government, city government, and others. So it just seems to me absolutely this is -- this is so intriguing to think about.

But I would really like to hear more or think more in the future, not necessarily just today, about the partnerships and the kinds of partnerships and what we've learned about that different kind of partnership development because that seems -- certainly in the home visiting and ECE arenas which I know a little bit more about than some of the others, that seems critically important.

SUPERVISOR KUEHL: Thank you, Jacky.

Commissioner Zepeda.

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

COMMISSIONER ZEPEDA: Thank you, supervisor.

Thank you for that presentation. It reminds us of how important our work is in facilitating all the different groups so that we can actually help with direct service because we're not a direct service provider any longer.

But I want to go back to the very beginning of the conversation that had to do with the technology and working in the virtual world, something I've been bringing up. You know, I think it's a tenet that, in order for us to nurture other people, we ourselves have to be nurtured. And so, therefore, how we treat our staff, what kinds of supports are given to the staff -- you know, I was happy to hear about the ergonomic. I don't -- and I don't know if you're giving people stipend for extra electricity and Internet connection and things like that.

And I've been really thinking a lot about -- and I brought this up in the PPC meeting about what the work world is going to look like after Covid because I don't think it will ever be the same anymore and -- and how we're going to juggle all that. You know, I know there's consultants out there in the field that are starting to, you know, proliferate and talk to businesses about that. But I think this is something we need to think about because, you know, we have an excellent staff, and we want

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

to hold on, we want to retain them. So just thinking forward about what those supports are, how important it is to nurture the staff, what -- what can we do to do that. Do we -- you know, we can't be in person and, you know, I don't know if you have a virtual happy hour. I don't know, Zoom party. I don't know. A Zoom-bah. I'm sorry. They were having a Zoom-bah party on a conference call that I was on the other day.

But, again, just to reiterate how important it is to nurture the staff as we -- as we're trying to navigate all of this new terrain so that we in turn can be more effective in our work.

SUPERVISOR KUEHL: All right. Thank you very much.

Sorry. Go ahead.

MS. BELSHE: I was going to say, Gala, do you want to say a word or two about some of the Commissioner Zepeda's comments in terms of some of our planning work to inform the very questions she's raising about future remote work policy, for example?

MS. COLLINS: Yes. First, I want to say that we actually have both a cell phone and an Internet stipend for our employees. So we want to make sure that they have all the resources at home to work safely and effectively. We are going to be looking at our telework policy. It's

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

not as robust prior to this pandemic, but now that we have kind of tried it out, we see how we work from home, that things are possible in Zoom, with Microsoft Teams, that we are going to be taking a different deeper dive into the policy, and we're going to get staff input. So we know -- I mean, our staff is amazing and we try to take care of them.

MS. BELSHE: Thanks, Gala.

I think the -- we -- we did -- have done staff outreach and survey work to inform many steps along the way. And as we move forward with returning to the workplace early next year, we'll be engaging, as Gala says, staff to better understand what are the principle priorities, principle fears, concerns associated with returning to the workplace. We, of course, have the capital improvement plan, which we're going to talk with the executive committee and the board about further in upcoming meetings. But safety considerations will continue to be first and foremost priority for me in the organization.

I can't wait to see people. I can't wait to give people a hug. We're a hugging office. But, you know, even understanding what kind of policies and protocols we're going to bring to hugging, you know, we don't want to make people uncomfortable. We want to meet people

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

where they are. For some people, you know, there's a deep, deep comfort in working at home that we need to be clear about what's the critical business case for bringing people back into the office because, as Gala said, we've demonstrated our ability to do the job well. Have we missed a step or two in some areas by working offsite? Absolutely. But employee, our colleagues' voice will be super important to informing our business decisions.

So thank you for raising that, Marlene.

SUPERVISOR KUEHL: Thank you all.

Next, Commissioner Woods.

COMMISSIONER WOODS: Thank you. Good afternoon, everyone.

I just want to comment on presentation. I think that the team did an amazing job in pivoting and transitioning. I do want to highlight the ECE Covid response team. I was a part of that. We continue to meet every week because it is not over. But Becca and Jamie are amazing individuals. And with just all that have participated on this committee. LA County could not have lifted up and persevered through this challenge had we not all come together in a way that we did. So I'm very proud to be a part of that group.

One of the things that we should keep in the forefront of our minds, and I know that we thought about

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

it, is that there's some kids that will be transitioning into the K system that we were not able to touch. And we are going to have many different depths as it relates to families and many challenges. We know that we still have a lot of work before us. How are we going to accelerate the learning of those kids in bridging the gaps that may are occurred over this last year? That's a huge question we keep asking ourselves as we move forward.

Thank you.

SUPERVISOR KUEHL: Thank you.

Commissioner Taylor.

COMMISSIONER TAYLOR: I want to thank everyone. Great job. Well done. Totally appreciate the thinking and planning and visualization of change.

What I wanted to do is just talk about learning and talk about systems integration. One of the things is that sometimes in bureaucracies there's a big gap between the people doing the work and the people supporting the operations. And I want to know what we learned on how to integrate the thinking of the operational support to enhance the outcomes for the program efforts.

One example that is, a lot of things had to happen with regards to the contracting. How did that work? How did we -- what have we learned from that to facilitate that? What do we need to keep doing? What do

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

we need to drop out or get rid of? Because the bureaucracy hinders success for the program because, if you don't meet with those that have to do the work on the ground like the support operations before you do it, then you can make all the plans in the world and then they come to a magic halt at the time of the operation.

So this integration strategy needs to be thought of as you go through in teaming with the operations and the support strategically; not in all the things you're doing, but at strategic time, take a stop, look and say, where do we need to integrate with the operations team, how do we need to check to see what they think and how they think it can be done more efficiently and effectively, and what rules and organizational policies, procedures, and practices, as you've done with the HR, that needs to change and needs to continue, you know, after this. So this is that learning thing. I learned it from Kim. So this learning structure, but this integration between those two.

Because let me tell you, in the county, the operations people do one thing and the program people do another, and then there's always a battle when it comes to the ground and say, how do we implement this. And then all of a sudden, everything you thought you had in hand changed. So it needs to be thought of in advance and

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

integrated in advance and teamed in advance so you don't hinder the implementation of a new innovation. You know, what I'm saying? So there may be rules that have to change to facilitate that learning and facilitate that development. I just wanted to put that on the table.

I don't want to go into all the different things you've done and learned, but, hopefully, I want to hear more about how we're teaming on both sides of that and learning from it and what needs to change so that we don't keep doing one thing on one side of the house and another thing on the other side. This innovation is ours from both sides of the house. So you have to team.

I just Thought I'd throw that on the table. If anybody wants to speak to it, fine; if not, I'm okay.

MR. BARTH: I think you just see a lot of nodding heads right now. And I'm not sure, John, if you want to say a few more words. As our executive vice president overseeing our center for operational excellence now moving into our center child family impact, I think you've seen a lot of those transformations firsthand.

MR. WAGNER: Yes. Thanks, Peter. I think that's a really great point. And it's not just the integration between the operations and the programs; it's also quite honestly the integration within the operations. And, you know, a couple examples. I think our panelists spoke

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

behind every one of the examples they highlighted, there was a team that included both the programmatic piece and the operations piece.

And just to highlight an example, I mean, one of the key challenges in this pandemic was to make sure we were able to keep our payments flowing to our contractors and grantees who were supporting really critical work and have their own workforce to worry about. So it was very close -- closely working between, you know, Christina at the time was part of this team. The operational excellence side of the operations folks were part of this team. And created a process where we started to be able to accept and approve invoicing through our contracts department in a way that was virtual instead of paper based. And then we worked with the finance team to make sure that the accounts payable staff were able to pay those invoices in a very timely way, thus further building out the operations side.

So it's just one example. And Docusign was a tool that allowed a lot of electronic signatures to process this whole thing virtually. So it's an example of how there's so many pieces that needed to come together. And you're absolutely right, the teams were needing to be working very, very closely and in an integrated way. And we've learned a lot of about that, and that's something

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

that will continue going forward.

SUPERVISOR KUEHL: Okay. Thank you anyone.

Else on the staff or Kim want to say anything about Romalis's questions or shall I move to the next commissioner?

MS. BELSHE: I think we're good, Sheila.

SUPERVISOR KUEHL: Okay. Good.

Commissioner Howell.

COMMISSIONER PLEITEZ HOWELL: I really appreciate this overview. The theme it's making me think of is sort of keeping one foot in the here and now, the present, the urgency in responding, being two steps ahead of that because it's constantly changing, but we get so much intelligence as an organization that we can see two steps ahead, and then, yes, the long term.

The lesson learned from what you all are sharing right now for me is, we're really good at the immediate response. Amazing. It was really good. And I -- I'm wondering, now that we've learned that, how are we looking at two step ahead. An immediate example that comes up is, vaccination of childcare providers, health care, and specifically some of the equity issues that are coming up. So when we look at vaccine rates in our Best Start communities of Black communities, Latin X communities, they're lower. So thinking about that two steps ahead,

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

given that we're right in the middle of this and how we address some of those equity issues.

And then the post-Covid, coming out of the Covid portal. I -- I love how our IT team presented First 5 LA's going to be operating differently. That sort of narrative of work -- we're on the cloud now. And I think others have been. But it is First 5 LA's coming out of this portal differently and will be able to contract with our grantees differently in some ways as well.

So being able to tell that sort of two steps ahead and long term from these lessons learned would be helpful continued dialogue.

MR. BARTH: I really appreciate that. I think all of us are fired to hear you say we're really good at the here and now and reaction because I think it gets to that feeling I was sharing earlier. Sometimes in a crises, it pushes you to make decisions that were hard to make when you didn't have that urgency. So there was a lot of that aspect.

I do want to maybe give Jamie the chance, if she's still with us, just to say a little bit more about that two steps ahead, and particular vaccinations. And I think we have some good lessons learned in the childcare space around that, especially with the equity and vaccine issues.

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

But also really appreciate just that continued push and encouragement for us to be thinking in this space and in this way because there's an opportunity for us to be doing that moving forward.

Jamie, if you're still on, I would love to hear your reflections on that.

MS. KALENIK: Yeah. Definitely, I think vaccination hit us over the head with how quickly things moved and changed day by day. So that's something that we are still in the thick of and I can't say that we've gotten that figured out yet. But one thing that we are working on, we've already got some content creation going on around things that we've heard about vaccine hesitancy. So just different ways of communicating information about the vaccine. But then also we have a survey that the resource referral agencies are going to be sending out to all providers. And then we're also going to have help in telephonic follow-up. So if providers have different technology needs that we won't miss them about what have been some of the barriers, that these will also be linked to ZIP codes so we'll have some better ideas of communities that we won't -- that we haven't reached as far as childcare providers go, which will give us some more information when we do have the flexibility to offer mobile vaccine clinics where we might want to target those

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

and making sure that we're sort of -- we have that information. Unfortunately, we thought my turn was collecting some information that it wasn't. So we had to pivot pretty quickly to make sure that we're getting the data about the uptake rates that we're getting, but at the same time, we know some of the challenges that might be coming up, so we're having the content creation at the same time to try and have the communication strategy in place as well.

As far as the long term, I think that we still have a lot of work to do in that area. But I think that having this team together and having a lot of entities building much stronger relationships with each other and learning to be flexible with each other and learning more about how they operate, I think in the long term will be really helpful. We have the City of LA at the table, which has been a great help to have them actually be involved in ECE issues. That's something that they weren't necessarily familiar with. So that's something that's really promising as far as we have the City and County working together to help childcare. But I think we do have -- we are thinking about what is the pivot as far as recovery goes. So what does this response team do as we're coming out of the pandemic, knowing that there are still issues with equity that we have to address, and that

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

we want to make sure that this system that comes out of this is not the same system that we had before what we -- so could not stand up to pandemic. There were still many of those issues.

MS. BELSHE: I don't know if I can jump in here. I do want to acknowledge Jaime and Becca and the team have been doing some really terrific work with our county partners, our childcare response, and most recently specific to vaccine as she just spoke to.

As we think about the two steps ahead, we also think not only about what's happening on the ground, but also the opportunities in this case in Sacramento in terms of the windows of opportunity created by the budget legislative administrative processes, the alignment and integration between the work that Charna and the office of government affairs and public policy team is leading and concert in this case with our early care and education team is also a critical piece of our systems change work because there's a huge infusion of this, as Karla and others well know, of federal dollars coming into early care and education. It seems like a very large amount and it is. At the same time, the state has lost over 50,000 slots.

So, you know, we are facing some very significant gaps. And so First 5 LA is working closely within the

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

First 5 Association, within the early care and education network, and, you know, bringing a clear sense of priorities. And a clear sense of where equity -- how equity is embedded in those priorities is a super important part of the conversation.

So maybe it's not two steps ahead, Karla. Maybe that's three steps ahead. It's certainly not long term. But the legislature is going to have to make some super and important consequential decisions within the next couple of months, and we're very, very actively involved in that.

MR. BARTH: I was just going to -- Kim was making the point I was going to make about the connection to advocacy, but here's a very concrete example. In the pandemic, there was an acknowledgment that essential frontline workers needed access to childcare to be able to continue to do their work. More often than not, we were thinking about essential frontline workers as those critical, essential frontline staff in a hospital, but not always thinking about the childcare workers themselves. And then as we're thinking about the economic recovery component, we've been pushing really hard in our advocacy to say, if childcare is a component of the emergency response to a pandemic now, it's even more essential in the context of economic recovery. So we can't have an

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

investment in childcare one time to respond to a pandemic and not have that same focus as we're thinking about economic recovery.

So hoping that we can continue to connect those dots in our advocacy space based on the lessons learned here on the ground in and our communities.

SUPERVISOR KUEHL: All right. Thank you very much.

Vice chair Abdo.

COMMISSIONER ABDO: Hi. Just a couple of things that I -- I wanted to just highlight from what has been said in this excellent discussion; and that is in -- in the recovery time, I also want to acknowledge that it's never going to be the same as it used to be and that, I think at least from the people that I've talked with here and Santa Monica, the recovery is going to -- to bring some decision making about what people are going to do about whether they're working at home or in a work space or both. And -- and I don't think we've all thought about that.

I know that some people love working remotely. Some people hate it. And -- and I -- I think that that's -- that's going to mean that it -- that we're going to have to be more flexible as we approach the -- the people coming back to work or continuing to work kind of half and

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

half. And I don't -- I don't know if anybody knows what's going to be the most efficient way to do that, but I think we all need to think about it.

I'm on a recovery task force in Santa Monica that is looking at -- at the -- the recovery of childcare centers and family daycare centers as an economic recovery for the city. And this is going to be happening everywhere, all cities in the county. As -- as we get more children back into childcare, there are going to be some childcare homes and centers that didn't make it through this pandemic. And that's going to be difficult because I'm sure some of the parents are thinking, well, you know, we'll just come back. Well, there might not be a back to come to. And I -- I think we're all going to have to be more nimble in thinking about, well, how do we provide childcare to -- to families that. And I don't know who's been working with licensing, but I just think about how long it can take to license a new childcare space and whether there are people thinking about, well, how can we do that more quickly. And I don't know if that's even possible. But I -- I know, when I was a director, that -- that took a really long time. And children are going to need childcare fast.

So I -- I don't know who will address that, but somebody will have to countywide, statewide, just to make

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

sure that we have places for children to be that are -- are safe places.

That's it. And nobody has to respond to that. I just wanted to put it into the conversation.

SUPERVISOR KUEHL: Thank you, Judy.

MS. KALENIK: I do have a --

SUPERVISOR KUEHL: We have --

MS. KALENIK: I can respond a little bit to that.

Just in this time we've seen that childcare licensing has done some interesting things with waivers that we've been able to sort of bring city and county parks and recs into the mix as far as providing childcare, especially for students who are doing distance learning. So I think there are some creative ways that we've learned to have safe and engaging spaces to children. That is not a long-term solution to the facilities challenge, but I think there are some really creative ways that we can, in the short term, at least have places for people to go, and then, again, take those lessons learned and, hopefully, applying them into the future where it makes sense.

SUPERVISOR KUEHL: Okay. Thank you.

Jon Sherin.

COMMISSIONER SHERIN: Thank you. Can you hear me all right?

SUPERVISOR KUEHL: Yes. We hear you fine.

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

COMMISSIONER SHERIN: Okay. Great.

For me, this is a real take a step back commission meeting. And I appreciate everything that I'm hearing. And it's nice to hear from you, Peter. And I want to kind of just recognize Kim for how she's really shifted the -- the focus of this entire engine to being a policy -- policy driver. And when I think about everything that's happened, and, obviously, it's going to go along with the pandemic. I did talk about this on Tuesday. I think we just have a real opportunity to flip the script on how we design policies and what we do with our resources. And I would just encourage us to think about how we move away from services and towards opportunities. I've always thought of resources as coming in two basic forms: Services and opportunities. And how do we really infuse the grassroots of our communities to empower them and to let them -- give them opportunities to lift up, I mean, as opposed to seeing our responsibility as fixing things, which is really top down.

I experienced that really intensely as a VA where I actually felt like all the work I did was taking care of Congress so that they could get the reports they liked as opposed to really empowering veterans. And I also say this, Supervisor Kuehl, because this is something that you and I have connected on a lot, and that's the role of the

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

peer, the role of the lived experience. The role of lived experience is big and lived experience in communities that are suffering is being a part of that community. So being a part of that community is in and of itself goals. And we can't let it sit. We have to ignite it.

So it's just -- I'm just making a comment very -- maybe a bit philosophical or conceptual, but as a policy influencer, how do we take a lot of the resources that are coming in and infuse them directly into the grassroots to help them -- to help them grow and take more of an opportunity stance than a service stance.

SUPERVISOR KUEHL: Anybody want to respond?

MR. BARTH: Just absolute appreciation for the insights and the partnership. Thank you, Dr. Sherin.

SUPERVISOR KUEHL: Thank you, all. I don't have any further requests from any commissioners. So I think that's right. So I'll just say a few words myself.

You know, it's have interesting, Jon and I actually have sort of virtual conversations, you know, and I listen to him at the board meeting Tuesday. I -- one of the things that I've noticed as I listened to you all is, there's a kind of a sadness and a bit of tiredness. This not a critique. This is simply an observation and could be a little bit of projection but, you know, it's been a long year. And we have coped and coped and coped and we

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

have, you know, turned on a dime and we have done what we could and we have seen so many deaths and it -- so much frustration in trying to really move forward. And yet, when we pause now and look, I think I also see an enormous amount of sort of tentative joy at kind of getting back together here and there about the -- you know, what the vaccines are allowing people to do and seeing honestly a little light at the end of the tunnel. People feel big emotions. And -- and people have spoken to me about, they -- they feel like they are burst into tears out of happiness and sadness, you know, kind of at a moment's notice. But the interesting thing is, everybody seems to be kind of in the same position. This has been the first time I have ever in my life shared something with every single person in the world, and it's -- it's quite extraordinary.

First 5 has been exemplary through this crisis in pulling together the ECE work in the county, has been a real leader and, you know, a great partner and really articulating especially for this population. And I had a couple of thoughts. One of them, in terms of talking about vaccinations, I think for -- at the moment, that is one of those really significant pieces of work that we all need to continue to pull together about. And I'm sure that Linda will, you know, tell you that there's been a

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

lot of different work in trying to convince people, trying to get the vaccines out, doing some mobile delivery, and, you know, increasing that. But as we continue to think, oh, we're going to have sufficient doses and when we hear J&J has an issue and can't deliver as many next week, it's kind of like things go up and down, and yet we are getting vaccinated and, you know, to thousands every day.

And that I think is an important part of our message to all of our clients and partners in terms of, you know, doing it for them as the ad goes, and especially for our, you know, babies and toddlers because they -- they can't take care of themselves. So you have to put our oxygen mask on, you know, first.

In terms of childcare, this is actually a big, big key to women getting back to work. It's not only women, but it is primarily women, and it's women who have suffered the most from loss of employment over the course of this pandemic. I mean, in the millions and millions. And the kind of work that women do has, you know, fallen terrifically in terms of their ability to do it. And now will begin to pick up, and we want to make certain that we give every kind of help that we can.

As you know, the ARP money is coming from the federal government. The County has been asked to put in a wish list, every department, every supervisor's office,

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

and the CEO. Childcare is big on our list in the third, and especially paying attention to childcare for our population, which is different.

Jon's point is very well taken about how we kind of, you know, look to the future and prepare. And how we will sort of continue to move forward with this. And I want to make sure that we're all working together to bring as much ARP money to these issues as we possibly can. I think the people with lived experience is just exactly the people to whom we look in our empowerment programs and in our various areas which has been a real keystone, I think, for First 5 LA.

So I look forward to -- well, I certainly look forward to seeing you too and to hugs, although I remind Kim that supervisors are required to permission ask permission before they hug. Just saying. And just seeing you all in person. This transition back is going to be strange and, yet, it gives you new appreciation.

I went to a movie theater and I have never been so happy in a movie theater in my life. It's kind of like, although it was over-stimulating between how loud it was and how big it was and how bright it was, it was kind of like, oh, I'm engulfed in art. I really enjoyed it.

So I want to thank all of you very much. Thank you for the presentation. Any second thoughts or third

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

thoughts before we go to public comment and move on?

Okay. Any public comment on Item 7?

THE SECRETARY: There are no public comments on this item.

SUPERVISOR KUEHL: All right. Great. Well, we look forward to working -- continuing to work together, taking care of the little things and the big things and each other. Again, thank you so much for the presentation.

I think now we'll take a 15-minute break. Hope that you won't go very far away. And we will resume again at 3:18.

(A brief break.)

SUPERVISOR KUEHL: All right. We are back in session. And that is definitely something I'm going to bring with me when we start meeting again in person. Instead of eating all of those chocolate chip cookies during the break, I'm going to increase my steps which is what I can do when I'm working at home.

Okay. So we will then move to our final item, which is Item 9, with a wonderful and colorful new charge to go with it. So it has to do with our structure and making sure that we all understand the new structure and who's in it.

And I believe, Mr. Barth, it's up to you again to

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

kick this off.

MR. BARTH: It is. Thank you so much.

And hopefully this will be a relatively straightforward presentation, but connect to so many of the themes we discussed earlier about our Covid-19 learning.

The goal for our conversation today is pretty focused, just to highlight First 5 LA's new structure in our leadership team. As commissioners --

MS. BELSHE: I think you got your screen moving forward prematurely.

MR. BARTH: What I see and what you see may be different. So fun times with our remote access technology. We'll see what we can do.

As commissioners will recall, one of our new strategic plans for priorities in the strategic plan is a focus on optimizing our effectiveness. Building upon the theme from our Covid discussion about that connection between our internal and our external work, there is an intentional focus on heightening organizational performance in our strategic plan.

One of the priorities -- priority objectives within that priority is adapting our structure. So in service to this objective, last fall First 5 LA announced some changes to its structure to help advance our

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

strategic planning goals. And since reconvening as a board in February, you've seen some new titles, some new names of teams reflecting this work.

So today we're putting this all together and showing you some of this information in one place. Just a reminder, as an attachment to your materials, there is a full copy of the organization chart with all of the great members of our organization, and this will stick to a bit of a higher level for your review.

So without further delay, here is an image of First 5 LA's organizational structure. And I will pause for just a moment so you can take in some of the information before we dive into some specific areas of the work.

So I'll also call out a few organizationwide shifts and the language we use to refer to structure. So first, for commissioners who have been with the organization for some time, you will see that we no longer use the terms division or department to describe components of the structure. This is an intentional shift in language to reflect our focus on integration and alignment, advancing organizationwide goals rather than dividing the work or the outcomes of our work by tactic or function. So we are all working to advance, for example, access to quality affordable early learning in LA County,

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

not just our early care and education team.

Second, you will see an intentional effort to reduce the number of layers between the executive director and the organization as a whole, and to streamline various components of the structure into three primary areas of work. So you can see these three bands. And I'll go one at a time as we talk through them. But there's the center for child and family impact in the middle, the center for operation excellence in the bottom, and a few functional offices along the top.

So starting with the center for child and family impact at the center of the chart, it's also the center of our work. The center for child and family impact was previously known as the programs division or, even earlier in the organization, the programs department. This shift in language from programs to impact reflects First 5 LA's continued evolution toward an organization focused on advancing systems change as compared to an organization focused primarily on managing contracts and programs.

The center for child and family impact is lead by our executive vice president as we shared earlier, John Wagner, and represents the largest part of the organization. The teams working within that center reporting to John are teams you're all familiar with: Communities, early care and education, family supports and

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

health systems.

And in addition to these four teams, there's a small center support team that you can see there. This small team reports directly to the executive vice president to advance integration and innovation opportunities within the center and also critical external partners.

So the next area of focus is the center for operational excellence led by a chief operating officer, currently lead by our interim chief operating officer, Jasmine Frost. This center was previously known as the administration division. And this shift in language from administration to operational excellence reflects, as we discussed during our Covid-19 conversation, First 5 LA's strategic focus on excellence in operations, advancing the use of increasingly strategic and innovative practices to improve our operational work.

The teams working within the center for operational excellence are contracts, administration, purchasing, finance, human resources and talent management, information technology, and workplace management. And this last one's important because it acknowledges that one of First 5 LA's most significant assets is our building.

And then, finally, the divisions and departments

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

formally known as integration and learning and policy and strategy have been streamlined into small functional offices. Each office is led by a chief functional officer. And we have communications, we data for action, equity, strategy and learning, and government affairs and public policy. Each of these offices will need specialized areas of expertise and coordinate the development of organizationwide strategies in each of their areas. The shift in the structure reflects the knowledge that each team at First 5 LA must own the adoption of communications, data, learning, and policy, strategies, rules, and tactics as necessary to advance their work. For example, to effectively advance our early learning or our home visiting goals that we talked about in LA County earlier, our ECE and family supports team will need to deploy some of these tactics, like communications with government affairs or data and evaluation.

So those teams will need to own the development and execution of strategies that incorporate these various tactics to make progress towards our goals. At the same time, we acknowledge that not all staff will become experts in evaluation or public relations or lobbying. And so we're maintaining staff within each of these offices to provide that technical expertise and capacity

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

to advance our work.

Finally, I want to call out the creation of the office of equity, strategy, and learning. This is a new function for First 5 LA. And it reflects the need for an intentional, coordinated approach to strategic plan implementation, more organizationwide learning, and living First 5 LA's values, in particular our newest value of diversity, equity, and inclusion.

So as we all know, in organization structure is only made real by the people working for the organization. And as we discussed earlier, we're very proud of First 5 LA's people. So in addition to the full organizational chart that I referenced in your board materials, here are the names, titles, and photos, hopefully helpful photos, of the members of the leadership team. So in practice, the head of each team office and center form the organization's leadership team. These faces are familiar to many of you and will become more familiar to all of you as we continue to do our work in the months and years ahead.

We also know that keeping our strategic plan goal of organizational effectiveness requires more than just adapting our structures. So this is a starting point, not an end point. So last month you heard from our equity, strategy, and learning colleagues about strategic plan

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

implementation and our work to more fully embrace diversity, equity, and inclusion in our work.

So to highlight the connections between our structure, which you're seeing here, the staff and the work of advancing our strategic plan, I'm pleased to hand over the time for a few closing remarks to our chief learning officer, Antoinette Andrews Bush.

Antoinette.

MS. ANDREWS BUSH: Thank you, Peter. Good afternoon, commissioners.

As I shared with the board last month, strategic plan implementation learning really prompted some deeper reflection on First 5 LA's own transformation to achieve the results to which we are committed. This presentation on structure is an example of this.

Structure is important, but alone it is insufficient for improving operational effectiveness. But when structure is combined with strategy with internal operations and organizational culture, these together create the conditions that enable implementation of our strategic plan. So as we think about and evolve our structure and our strategies or operations and culture, we're guided by the three strategic imperatives that we've been uplifting with the board and staff and that Kim discussed in her opening remarks.

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

You have heard us refer to these as implementation drivers, and they represent what is absolutely essential for us to be successful as an organization in our work internally and externally. As we lean into organizational change efforts to improve our effectiveness, it is critical that we focus and prioritize so that we're practicing greater discipline, not just in the work that we do, but how we do our work to advance our systems change and make the most significant progress towards results.

Greater alignment and integration are also essential to our effectiveness. When our internal operations are aligned with our external work, as Peter noted in the presentation on our Covid learnings, and we work in a way to emphasize the interdependencies that exist within and across our operational and external work, we're much better positioned to achieve results to which we are committed.

And, finally, but certainly not least, as we consider our operational effectiveness, we are committed to developing and implementing a coordinated, organizationwide approach to more fully live our value of diversity, equity, and inclusion by the way in which we conduct our internal and external work.

Now anchored in these three strategic

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

imperatives, we continue to adapt and evolve as an organization so that we're deploying our staff and fiscal resources strategically to achieve the greatest possible impact for children and families.

Now this concludes our presentation. I don't think I've ever had a presentation where there was only one slide. But, you know, we're doing new things at First 5 LA. So at this time, I will turn it over to the chair for board discussion.

SUPERVISOR KUEHL: Thank you very much, Antoinette and Peter. Very much appreciate presentation.

None of our commissioners have so far indicated that they have a question or a comment. So let me kick it off while they're thinking.

As I look at the chart with the smiling faces, it -- correct me if I'm wrong. My impression is that the top line -- what Peter called functional, which I assume he doesn't mean everyone else is nonfunctional, but the top line and the bottom line, that is the -- you know, the ten people that we're kind of looking at, are -- seems to me in service to the center for child and family impact. That is, for our communities, for ECE, for family support, for our work with the health systems, we would -- they would be able to access help with communication, help with data, help with how this fits in your strategy and also

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

checking in about diversity and also certainly help externally government affairs.

Is that part of what is planned or how it works?

MR. BARTH: Absolutely a part of what we're working toward. I think a few issues or -- or points that you made that I would emphasize and, obviously, defer to our executive director to for any additional comments, but one is the center for child and family impact is the center for our work. It's why we exist. It's the mission. It's the heart of who we are and what we're trying to accomplish. We also acknowledging, I think, through this change the emphasis that, in order to achieve our goals in those areas, in order to make progress towards our impact framework and our strategic plan, we can't separate and divide out things like communications and policy strategies and data strategies from the heart of that work. Together those tactics combine to make a more comprehensive strategy. And so the -- the vision here and the hope is that we're going to be able to create more of these cross-functional internal collaborative teams that are working together to advance common goals rather than having each team working separately toward goals that hopefully connect or align.

So it's an evolution that -- in our structure that reflects the evolution of our work over the past many

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

years. And that's where we're working to -- working toward.

MS. BELSHE: This is Kim. I think Peter captured it well. And in many respects, I think what -- what we're talking about here in context of structure and new ways of approaching and doing our work gets to Commissioner Taylor's comment or question about team. The organizational structure is first and foremost aligned to what it takes to execute on the strategic plan, and that recognizes the cross-organizational interdependencies. So the center for child and family impact cannot do its work independent of other aspects of the organization, and vice versa. So this idea of teaming and collaboration is a critical part of our alignment focus and integration focus. And I'm super proud of how the team is really leaning into it. And to be sure, it's messy. It requires us to really be clear about roles and responsibilities and decision rights. But it's all -- it's not so much in service of a particular center or office; it's in service of impact. And doing our work differently and more integrated way is critical to advancing the impact we seek and the structures intended to support them.

SUPERVISOR KUEHL: Well, I -- I was thinking particularly of when you have, you know, like Kim's office for data. Who decides and for what that data needs to be

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

accrued or disseminated. I was just imagining that the four directors in the center line along with John would indicate that they have some need for data or, you know, wanted to know if any existed. But I would imagine there are maybe some larger issues where you, Kim, would have decided through -- maybe through board discussion or not that we need to do that. So just as an example --

MS. BELSHE: Yeah. It's a great --

SUPERVISOR KUEHL: -- government affairs or anything.

MS. BELSHE: It's a great example. And let me invite Kim Hall, our chief officer to speak to really the number one priority Kim and ODFA have in the year ahead is around developing an organizationwide data strategy which will not be done in isolation, but in partnership with the organization broadly.

But do you want to say a word or two about that, Kim?

MS. HALL: Absolutely. So one of the things that we'll be doing over the next year is developing a data strategy as Kim said. And what that means is really getting clear around what our priority data needs are. And when we think about data needs, there are going to be data needs that we are specific to our work, like the work that's happening by -- being led by the different teams in

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

the center, but then there's also organizational level work such as our impact framework which looks at our strategic plan, as well as data that's about how we're doing internally, so operational performance.

So along with the other teams in the organization, we're going to be going through a process to get clear about what data do we really need and for what purpose. How are we going to use the data and how is it going to help us to either plan our strategy, assess the progress of our strategy, or otherwise course correct and refine what we're doing in order optimize our performance.

I do want to note that that data strategy, there will be some elements that we kind of alluded to that are org-wide, so looking at what the organization is doing as a whole, but then there will also be components that are specific to the work of each team. So as -- as was just referenced. So we will be talking with each team to say, what data do you need in order to inform your strategy or to understand how well your strategy is working or just sustainability efforts. So there will be multiple sort of layers or components of our data strategy.

SUPERVISOR KUEHL: Okay. Thank you very much.

Romalis.

COMMISSIONER TAYLOR: Okay. The one thing I don't see in the organizational structure is

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

sustainability. And you're going -- you know I always talk about that.

So what I'd like to see is in there at the highest level, say, like at the office level -- by the way, I suggest you change that name. Instead of offices, they be teams as well as naming it like the others, so we can further enhance integration and teaming so that it gets back to what the supervisor was talking about so we know that they're integrating with everybody else's work to make it work better and achieve positive outcomes.

The thing that I wanted to see is, there should be something like a grants writer or a grants development and philanthropy development and things like that that cuts across all the operations, and then in general to support the organization in general to what it wants to do. And the idea is that we can bring in funding to do some creative, innovative things to support point of -- you know, point of concept so that we can say, hey, this -- this is really going to work and we want to implement it, so we need the funding to support this concept to so we can go and get some outside funding and partnership with someone else that has the same view as us. And then that way, we're not putting all of our money, but we're putting part of our money to support new and innovative concepts to support children and families. So I want to

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

see some -- and then there might be things that we can go and get some funding that supports an overall overarching approach as well. And so I don't want to think just in the box. I want to see somebody thinking outside of the box that can go out and get those things so that all these other teams that are focusing on specific issues can bring to the table funding that may be advantageous to enhancing their outcomes that they're not even thinking about or looking at and may come from a different funding source than they have ever imagined because they weren't thinking about it in a creative and innovative way. That's just one thought. I'd love to see that. And that gets back to that sustainability, not only for those teams but overall organizational approach.

The second thing is data is also data that sustains that what you have done as a concept is working, such as home visitation. We proved that concept has because we collect the data and showed the outcomes. And so that's key to proving your point, you know, point of concept, you know. And then there also is data you have to have that says, why are we getting into this area or this arena, because this is the problem for children zero to five, their families, and these communities. And that data says why we jump in and here's our solution to that. So you have to have data that showed, this is why we do

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

what we're doing as well.

So those are the two things I wanted to talk about. So I'm willing to hear your ideas. Thank you.

SUPERVISOR KUEHL: Thank you, Romalis.

MR. BARTH: Thank you, Commissioner Taylor.

I just very quickly wanted to share. I think this is a good example where structure doesn't share everything about expectations or strategy for the work. So on the issue of sustainability, one of the things we learned actually from our work in developing the new structure was that, if you segregated or separated all of the functions required to advance and sustain the strategy from the work itself, it made it even more difficult. And so sustainability is something that is embedded in all of our work. The ability to sustain the outcomes we seek is embedded in the work. And I think in the context of upcoming budget conversations that the board will be having, there's some really good examples of where we're no longer as an organization just deploying the Proposition 10 revenues that accrue to First 5 LA, but also revenues that are generated through our partnerships with others. And that's actually being led by the center for child and family impact. So it's embedded in our family supports work, our ECE work. They're actually leading the work. So it's not just about how we spend

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

their money; it's also how we sustain the outcomes for the work. And commissioners should be hearing that in every presentation that we hear from the board when we talk about some of our work in things like home visiting and in ECE moving forward.

COMMISSIONER TAYLOR: Can I ask a question of Peter?

So, Peter, where do we -- where is that? Because it's not in the org chart. Where is that sitting, particularly within the organization, that function?

MR. BARTH: I think the point here is it's actually embedded in everyone's responsibility. So if you're a program officer, a senior program officer working in, for example, early care and education, you're looking at not only how are we deploying our resources, but how are we sustaining the outcomes in the work. So for example, I know -- and using early care and education as example -- a number of the initiatives that we're fortunate to support in LA County have actually come from additional funding from other resources. And our program officers within the center for child and family impact are thinking about that work and embedding it in their strategy.

So the fear is that, if we separate out functions like sustainability, then it becomes one person's job

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

versus the entire organization's job to do that work. So that's where it's embedded. You'll see it specifically in the work of the center for child and family impact.

COMMISSIONER TAYLOR: Who is doing the work of overarching concepts for new funding to support different and new innovative concepts and where does that sit in the organization? Does it still have to be dispersed to all these individual functions, or is there someone thinking about it at a high level to look at it from a strategic standpoint and then bringing it to the table for consideration? Who's doing that is what I'm questioning.

MS. BELSHE: That would be me, Commissioner Taylor.

COMMISSIONER TAYLOR: Wait a minute. You're doing too much work, Kim. I'm trying to find somebody to help you.

MS. BELSHE: No, no, no. I want to underscore the importance of Peter's comments, that structure is not -- as Antoinette said as well, structure is just one important, but one component of our overall effectiveness. So we've been very thoughtful and very intentional about what functions, what responsibilities and roles need to reside in a more specialized, unified way, either in a center team or in an office, and what are the functions that we really are looking to the organization broadly to

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

hold. And sustainability would be an example of that.

Now, how sustainability ultimately plays out in -- across the organization is a strategic question. So sustainability in the context of work that Diana Careaga and the family supports team with -- in close collaboration with Anna Potare are leading is really digging into sustainability under the pathway of MediCal managed care organization partnerships as a funding source from private health plans to support at least a piece of home visiting from a broader systems prospective. What sustainability looks like in the context of the work that Tara Ficek and the health systems team looks like, part of it is looking at funding opportunities so that the team's aware of the Shark Application, ACEs Aware. Those are examples of First 5 LA's health systems team being entrepreneurial and being in partnership to actually write grants and secure other funding. What sustainability looks like relative to non-First 5 or non-Prop 10 revenue would be an example of work that OGAPP, our office of government affairs and public policy, would principally lead because that is not work that can be done any other way other than through policy change.

So as can see, we went -- the board have identified sustainability in a number of ways from sustaining the outcomes we seek to securing non-Prop 10

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

revenue to leveraging private system financing. And how that plays out needs to be very strategically tailored to the particular work. And that resides across the organization, not within one office.

COMMISSIONER TAYLOR: I know, but I was -- I thank you because you kind of touched on what I was concerned about.

The issue is about what -- what about those things that go outside the art of those individual teams. And you're saying you have a different office that is handling that thinking and looking at those opportunities because we need to know -- the creativity we don't want to stop. We want to keep looking at that and how can we say, okay, all of these things limit what we want to do, but we want to do X, Y, Z beyond that to make it even better, and how do we prove it. That may be part of funding that is nongovernmental.

MS. BELSHE: That's absolutely right. And, you know, we -- as the board knows, you know, the team has done a great job bringing in additional non-Prop 10 fund -- not county Prop 10 revenues. And that will continue to be a priority going forward, but we're going to need to be both strategic and opportunistic.

Peter used the example of the early care and education funding Becca and her team rallied First 5

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

California. So, you know, this is -- there's not a one-size-fits-all. We really need to be very thoughtful and tailor to the particular opportunities and imperatives that are going to look very different within the ECE body of work than our families supports work, health systems, communities, et cetera.

COMMISSIONER TAYLOR: Right. But I think that separation you're talking about is focusing on those things that are broader than what we're looking at right now. And because you can't have your eyes focused on that when you're leading and being creative for the structure and applications of what you have. So I just wanted to know who was doing that looking and bringing that to your attention.

MS. BELSHE: The leaders of the team, I've got a lot of confidence in, as I know our board does. And they've been doing a terrific job being entrepreneurial and aggressive. And I only see us doing more of that going forward.

SUPERVISOR KUEHL: All right. Thank you both.

I don't see any other requests from commissioners for comment on this. So let me thank all of you, Peter and Antoinette particularly, for this presentation and for the chart with the pictures. I like charts with pictures.

Ms. Vo, were there any public comments for Item

DocuSign Envelope ID: CD010DBF-7C6A-4592-BDDF-95521FD58864

9?

THE SECRETARY: There are no public comments on this item.

SUPERVISOR KUEHL: All right. That was -- an information item as well.

So let us move to general public comment. Has anyone requested to make any general public comments?

THE SECRETARY: There are no general public comments either.

SUPERVISOR KUEHL: All right. Thank you to all of the staff, to all of our commissioners for being here today. And we will continue to gather virtually, but to keep each other in our hearts and minds, as they say. Everybody, please stay safe out there. Get vaccinated if and when you can. And hopefully you will want to.

And I believe that brings us to adjournment. And if there's no objection, I will adjourn the meeting. Thank you very much.

(At 3:49 p.m. the meeting was adjourned.)

CERTIFIED SHORTHAND REPORTER

FOR THE STATE OF CALIFORNIA

FIRST 5 LA

SUBJECT:
Monthly Financial Reports

RECOMMENDATION:
Approval of the monthly financial statements for the months ending March 31, 2021.

BACKGROUND:
Staff provides monthly financial reports for the Commission's review and approval to ensure transparency of the financial status of First 5 LA.

DISCUSSION:

First 5 LA began the month of March with a cash balance of $348.7 million. During the month of March, we received $7.3 million in revenues. We had $6.2 million in program expenditures, and $1.2 million in operating expenditures. As a result, First 5 LA ended the month with a cash balance of $348.6 million.

This report includes detailed financial information for the months ending March 31, 2021. The financial statements are unaudited and reported as a "soft close." All materials in this packet and check registers are available online. Statements in this report include the following:

- Revenue and Expense Statement: Summarizes financial statements to highlight the starting cash balance, revenues received, program and operating expenses, and the ending cash balance for the month.

- Balance Sheet: Provides a "snapshot" view of the Commission's assets, liabilities and fund balance as of March 31, 2021.

- Detailed operating and program expenditures: Shows expenses against the FY 2020-21 Budget approved on July 9, 2020, and adjusted in March 2021 as well as a report of expenditures related to programs functioning as pass-through agreements.

Agenda Item: 2C
Date: May 13, 2021

First 5 LA

SUBJECT:
Contracts for approval

RECOMMENDATION:
Approve one renewal and one amendment and authorize staff to complete final execution of the agreements upon approval from the Board.

BACKGROUND:
First 5 LA's approved programmatic budget for FY 2020-21 totals $101,459,000 and the approved operating budget totals $22,797,493. Funding for the new agreements and amendment were included in the budget which was approved at the July 9, 2020 meeting. For contracts that span fiscal years, the estimated spending amount for each fiscal year will be included in First 5 LA's annual budgets for approval. Pursuant to contract terms, if the Commission does not appropriate funds for the agreement in future fiscal years, First 5 LA may terminate the agreement. Upon approval of the agreements presented below, staff will complete final execution.

There is one **renewal** for approval.

- One is with Prime Healthcare Services, Inc. Welcome Baby is a voluntary and universally provided hospital and home-based intervention program for women during pregnancy and postpartum. The primary objective of the program is to work with families to maximize the health, safety and security of the newborn babies, strengthen the parent-child bond and facilitate access to support services when needed. In fiscal year 20-21, staff provided program services which included up to nine engagement points - prenatal, hospital and postpartum – and a risk assessment with referral to appropriate services, as needed. In fiscal year 21-22, the contractor will continue to serve clients with a focus on increasing enrollment and participation, as well as participate in the Welcome Baby Impact Study conducted by the First 5 LA to determine impact and effectiveness of the program.

There is one **amendment** for approval.

- One is with Viva Strategy and Communications LLC. The Contractor has been providing support on Los Angeles County's approach to Quality Counts California's (QCC) latest funding opportunity, the QCC Local Consortia and Partnership Grant. The QCC Local Consortia and Partnership Grant represents the state's first opportunity for QRIS work that combines several former funding streams into a single funding stream. In addition, this new funding opportunity necessitates additional programmatic revision based on feedback from the state. Quality Start LA (QSLA) is Los Angeles County's local Quality Rating and Improvement System (QRIS) effort. QSLA is a voluntary QRIS designed system to help parents of children birth to five choose the best early childhood education for their family by helping parents understand what makes an early learning program effective. QSLA supports the professionals from licensed centers and family child care homes in the continuous improvement of their programs through training, resources, and funding for providers.

  The contractor will assist with a number of tasks related to IMPACT 2020 and the broader Quality Counts California work, including project management, preparing materials for and facilitating QRIS Architects meetings, establishing a new singular governance structure, and more. The amendment seeks authority to add $100,000 in external funding from Los Angeles County Office of Education (LACOE) approved by the Board of Commissioners on September 10, 2020; and modify proprietary rights between F5LA and the contractor to reflect joint ownership.

DISCUSSION:
Staff seeks the Commission's approval of the agreements summarized in Attachment A.

1	Family Supports	Families \ Home Visiting \ Welcome Baby Hospitals	**PRIME HEALTHCARE SERVICES, INC (#00802)** Welcome Baby is a voluntary and universally provided hospital and home-based intervention program for women during pregnancy and postpartum. The primary objective of the program is to work with families to maximize the health, safety and security of the newborn babies, strengthen the parent-child bond and facilitate access to support services when needed. In fiscal year 20-21, staff provided program services which included up to nine engagement points - prenatal, hospital and postpartum – and a risk assessment with referral to appropriate services, as needed. In fiscal year 21-22, the contractor will continue to serve clients with a focus on increasing enrollment and participation, as well as participate in the Welcome Baby Impact Study conducted by the First 5 LA to determine impact and effectiveness of the program. The Board approved the Strategic Partnership with St. Francis on June 11, 2020. Due to bankruptcy, the contract with St. Francis was reassigned to Prime Healthcare Services, Inc. This is a request to renew the agreement with Prime Healthcare. FY 21-22 funding will be included in the budget scheduled to be presented for approval at the June 2021 Commission meeting. For FY 22-23 funding will be included in the FY 22-23 Budget which will be presented to the Board for approval in June 2022.	Strategic Partnership	10 Years, 5 Months	$21,375,087	$5,111,562 Estimated FY 21-22 Spending: $2,465,609 *Assigned* Impact to FY 22-23 Budget: $2,645,953 *Assigned*	07/01/2021	06/30/2023	06/30/2023	100% Yes

MEMORANDUM

TO: Honorable Chair and Members of the Board

CC: Kim Belshé, Executive Director

FROM: Craig A. Steele, Legal Counsel

DATE: April 8, 2021

SUBJECT: Approval of Disposition of Records Pursuant to First 5 LA's Records Retention Policy

---

State law requires local public agencies like First 5 LA to retain all records of the agency for a minimum of two years, and then permits the destruction of obsolete records pursuant to a written records retention schedule. In many cases certain specified records, such as the minutes and agendas of the agency, records relating to real property, financial audit records, contracts and personnel records, must be retained for longer periods, or even permanently. An efficient records retention and destruction system, in compliance with applicable law, is essential to the operation of the organization since records are expensive and cumbersome to maintain when they are past their useful life. Since the last significant Board-permitted elimination of obsolete records in 2019, staff undertook a very significant effort to get First 5 LA's records retention program back on track. This review and disposition of obsolete records includes both hard copy and electronic records that are no longer required to be retained under state law and First 5 LA's records retention policy.

The Board previously adopted a records retention schedule in compliance with applicable law. A copy of First 5 LA's records retention schedule is provided as Attachment A. Prior to the destruction of any record, the policy and State law require the approval of Legal Counsel, the Executive Director and the Commission. Executive Director Belshé and I have approved staff's records destruction request. These records are obsolete, no longer needed for any First 5 LA business, and permitted to be destroyed by applicable law and the Board's Records Retention Policy. The files proposed to be destroyed are described on the attached spread sheet, listing specific files, dates, and the time period that the Records Retention Policy requires those records to be kept. All records proposed to be destroyed are past their required retention periods and none of the records are considered necessary to maintain the historical record of First 5 LA.

DocuSign Envelope ID: 00A4A866-B5C1-4BD1-A0BA-816C6818DAFA

RECOMMENDATION

Staff recommends that the Board approve the destruction of the files listed on the attached spreadsheet, which are no longer needed for current business or for historical records. If the Board concurs with this request, the appropriate motion would be to approve the destruction of the First 5 LA records listed in compliance with First 5 LA's Records Retention Policy.

APPROVED
