Board of Trustees

Lakeland Joint School District #272

15506 N Washington Street

Rathdrum, Idaho 83858

Attention: Larry Brown, Chairman

Dear Members of the Board:

I am writing this request on behalf of our need to preserve for current and future generations, the proud history of those that serve and have served in the past in our community's fire service, and the people of Athol and the surrounding area that are served by the firefighters of Timberlake Fire Protection District. Specifically the need to reacquire a symbol of our proud past that until recently was lost by the passage of time. This symbol, a fire bell, was installed in a tower above our first fire station, whose ring was used to summon firefighters to board a lone fire engine to serve the townspeople of Athol. A fire bell, whose same ring symbolized the need for a community to come together to help their neighbor in their time of need, and resonated the beginning of the Fire District that I proudly serve as a Firefighter. A fire bell, sitting with its proud history all but forgotten, in front of Athol Elementary School, and owned by Lakeland Joint School District.

When I began my service as a Firefighter within the community of Athol, I began to inquire of its history from the people that I met, a people that I have since come to know as my neighbors and friends. From the residents that have lived in the area for many years, I was able to locate pictures of our first fire station, a small building with a bell tower that also served as City Hall. It was said that when the City Council members met, there was not enough room for all present in the office so they would instead move to the single door stall adjoining the room and sit on the City's fire engine to conduct the business of the day. The original fire station is still standing, and used for storage, near the City's park on 2nd Street. I also inquired of the empty bell tower above the original fire station, and was met with a wealth of information from a man in his 80's that served on the Athol City council, who still resides within our City limits. He explained that the fire bell was declared surplus by the city, while he served on the council, and donated to the Athol Elementary School with the intent that its history would be preserved. However, as he stated, over time the fire bell's history was forgotten and most now consider that it was an old school bell and thus displayed near the sidewalk at the school.

Our team, at Timberlake Fire Protection District, would like to discuss with the Lakeland Joint School District, the prospect of returning the fire bell to Timberlake Fire Station No.1 in Athol where it would be restored and prominently displayed, as a symbol of our community's fire service history. A symbol that would become the focal point of a history we can proudly communicate to and preserve for the children and adults that visit and tour our Fire Station.

Best Regards,

Brett Rennison

District personnel may also report the student's conduct to the appropriate law enforcement officials.

Disciplining Students on Individual Education or Section 504 Plans

The District shall comply with the procedural safeguards enumerated in state and federal law and rule when disciplining students with individualized education plans or 504 plans.

Gun-Free Schools

A student who uses, possesses, controls, or transfers a firearm, or any object that can reasonably be considered, or looks like, a firearm, shall be expelled for a definite period of time of at least one (1) calendar year. The Board, however, may modify the expulsion period on a case-by-case basis. The building administrator shall notify the appropriate law enforcement agency of any student who brings a firearm to school.

If a student violating this policy is identified as disabled, either under the IDEA or Section 504, a determination must be made whether the student's conduct is related to the disability. If the violation of the policy is due to a disability recognized by the IDEA or Section 504, lawful procedures for changes in placement must be followed.

Any student subject to an expulsion shall be entitled to a hearing before the Board, in accordance with I.C. § ~~33-205~~ **Idaho Code** and Board policy.

Possession of a Weapon On School Property – Misdemeanor

No person shall possess a firearm or other deadly or dangerous weapon while on school property or in those portions of any building, stadium or other structure on school grounds which, at the time of the violation, are being used for an activity sponsored by or through a school in this state or while riding school provided transportation. This also applies to students of schools while attending or participating in any school sponsored activity, program or event regardless of location.

As used in this section of this Policy only:

- (a) "Deadly or dangerous weapon" means any weapon as defined in **United States Code 18-U.S.C. section 930**;
- (b) "Firearm" means any firearm as defined in **United States Code 18-U.S.C. section 921**;

Any person who possesses, carries or stores a weapon in a school building or on school property, except as provided below, shall be referred to law enforcement for immediate prosecution, as well as face disciplinary action by the District.

The Board may grant persons and entities advance permission to possess, carry, or store a weapon in a school building. All persons who wish to possess, carry or store a weapon in a school building shall present this request to the Board in a regular meeting. It is solely within the Board's discretion whether to allow a person to possess carry or store a weapon in a school building.

In the event that a knife is found to have been accidentally brought to school and the building administration is able to clearly determine the absence of any intent by the student to harm himself/herself or others, the student may be referred for a Re-Entry Hearing (formally called a Show Cause Hearing) before District Office Administration. The outcome of this hearing, which will include a signed behavior contract, shall be presented to the Board of Trustees at the next regularly scheduled Board meeting. At that time the board may hold an expulsion in abeyance and approve the recommended disciplinary action presented by District Office Administration.

This section of this policy does not apply to:

- 1. law enforcement personnel;

2. Any adult over eighteen (18) years of age and not enrolled in a public or private elementary or secondary school who has lawful possession of a firearm or other deadly or dangerous weapon, secured and locked in his vehicle in an unobtrusive, nonthreatening manner;

Teachers may remove students from a classroom for disruptive behavior.

Nondiscrimination

The District will ensure that student discipline is enforced in a nondiscriminatory manner to avoid subjecting similarly situated students to different treatment without a legitimate reason for doing so, or when such a reason is merely a pretext for discrimination. Such discrimination, which the District will endeavor to avoid, includes the following:

1. Adopting discipline rules which treat students differently based on race, color, national origin, ancestry, sex, gender identity, sexual orientation, ethnicity, age, language barrier, religious beliefs, physical and mental handicap or disability, economic or social conditions, or actual or potential marital or parental status or status as a homeless child;
2. Adopting any rule with the intention of targeting students based on the personal characteristics listed above, rather than for a legitimate purpose, regardless of whether the phrasing of the rule appears neutral with regard to students' personal characteristics;
3. Enforcing an apparently neutral rule more harshly on the basis of a student's personal characteristics; or
4. Discipline of any student when it is motivated by intentional discrimination.

Notification

A summarized version of this policy shall be provided in writing at the beginning of each school year to the school personnel, parents, and students in the District. Information provided to

students shall be provided in a manner appropriate to the student's age, grade, and level of academic achievement.

The Board shall review this policy annually.

Purchasing

Authorization and Control

It will be the policy of this District to conduct its purchasing program in a manner to assure the best utilization of District funds. The Board, or its designee, reserves the right to determine what is in the best interest of the District.

The Superintendent is authorized to direct expenditures and purchases within the limits of the detailed annual budget for the school year and pursuant to state purchasing and federal procurement requirements. Board approval for purchase of capital outlay items is required when the aggregate total of a requisition exceeds \$_____, except the Superintendent shall have the authority to make capital outlay purchases without advance approval when it is necessary to protect the interests of the District or the health and safety of the staff or students. The Superintendent shall establish requisition and purchase order procedures as a means of controlling and maintaining proper accounting of the expenditure of funds that align with state purchasing and federal procurement requirements. Staff members shall not obligate the District without express authority. Staff members who obligate the District without proper authorization may be held personally responsible for payment of such obligations.

Bids and Contracts

With the exception of the purchase of curricular materials, whenever the cost of any construction, repair, or improvement; or the acquisition, purchase, or repair of any equipment; or other personal property necessary for the effective operation of the District exceeds twenty-five thousand dollars (\$25,000.00), formal bids shall be called for by issuing public notice as specified in statute as well as following federal procurement requirements. Specifications shall be prepared and be made available to all vendors interested in submitting a bid. The contract shall be awarded to the lowest responsible bidder, except that the trustees may reject any bid, reject all bids, and publish notice for bids once again. If after calling for bids a second time, no satisfactory bid is received, the Board may proceed under its own direction, subject to the approval of the State Board of Education.

In determining what bid is the lowest responsible bidder, the District will not only take into consideration the amount of the bid. The District will also consider the skill, ability, and integrity of a bidder to do faithful and conscientious work and promptly fulfill the contract according to the letter and spirit. References for the bidder should be contacted.

The Superintendent shall establish bidding and contract awarding procedures that align with state purchasing and federal procurement requirements.

Cooperative Purchasing

The District may cooperatively enter into contracts with one or more districts to purchase materials necessary or desirable for the conduct of the business of the District provided that the purchasing cooperative follows state purchasing and federal procurement requirements.

Personnel Conflicts of Interest

No employee will make any purchase or incur any obligations for or on behalf of the District from any private business, contractor, or vendor in which or with which the employee has a direct or indirect financial or ownership interest.

Purchases or contracted services from any private business or venture in which any employee of this District has a direct or indirect financial or ownership interest will be made on a competitive bid basis strictly in accordance with the following procedures:

1. The interested employee, the business, the contractor, or the vendor will fully disclose, in writing, the employee's exact relationship to the business, the contractor, or the vendor;
2. The affected business, the contractor, or the vendor may submit a bid in compliance with the specifications outlined by the District;
3. The interested employee will not be involved in any part of bidding process, including but not limited to, preparing specifications, advertising, analyzing, or accepting bids; and
4. This policy will apply to any organization, fund, agency, or other activity maintained or operated by the District.

No employee will solicit gifts, gratuities, favors, prizes, awards, merchandise, or commissions as a result of ordering any items or as a result of placing any purchase order with a business, contractor, or vendor on behalf of the District nor accept anything of monetary value from a business, contractor, or vendor except for unsolicited gifts of \$50 or less in value.

Procurement Under a Federal Award

In addition to the conflicts of interest outlined above, no employee, officer, or agent of the District may participate in the selection, award, or administration of a contract supported by a federal award if he or she has a real or apparent conflict of interest. Such conflicts of interest include instances where any of the following has a financial or other interest in or a tangible personal benefit from a firm considered for a contract:

1. The employee, officer, or agent;
2. Any member of his or her immediate family, including spouses, children and parents;
3. His or her partner. For the purposes of this policy, "partner" shall mean an adult of the same sex or different sex with whom the employee, officer, or agent shares a non-marital intimate relationship and a common residence and with whom they mutually affirm that they share responsibility for each other's common welfare; or
4. An organization which employs or is about to employ any of the parties listed above.

The following activities are prohibited:

1. The purchase during the school day of any food or service from a District contractor or vendor for individual use;
2. The removal of any food, supplies, equipment, or school property without proper authorization;
3. Individual sales by District personnel of any school property, including used items.

Violations

Any District officer, employee, or agent who violates this policy may be subject to disciplinary action, including but not limited to a fine, suspension, or termination. Violations of law will be referred to the local, state, or federal authority having proper jurisdiction.

Report incidents that involve a suspension of .5 day or more. The number of incidents should be based on the number of students involved (e.g. a fight between two students would be two incidents if both students are suspended .5 day or more). When completing the column under "Action Taken", report the number of days of suspension, not incidents (e.g. one fight might result in as many as ten days of suspension).
