PROPOSED POLICY

Note: For information related to the selection of instructional materials, see EFA.

Collection Development Policy

The purpose of this policy is to ensure that the District provides a wide range of library materials for students and faculty that support student achievement and present varying levels of difficulty, diversity of appeal, and a variety of points of view. This policy also provides standards for collection development and the selection and evaluation of library materials.

In this policy, "library materials" is defined by law and may include printed and electronic library acquisitions, including online catalogs, and other ancillary or supplementary materials maintained in a campus library. [See EFB(LEGAL)]

7

The library collection development standards shall apply to all library materials available for use or display, including material contained in school libraries, classroom libraries, online catalogs, library mobile applications used in the District, and any other library catalog a student may access.

In developing library collections, the District shall consider the age groups, grade levels, and access to library material by all students on a campus.

Responsibility

The District shall ensure librarians, professional library staff, and other designated professional staff are trained or receive information on the proper collection development standards.

The Superintendent shall develop administrative procedures to ensure that library collections comply with applicable law, library standards, and the District's collection development purpose and goals.

Collection Development Goals

In addition to the requirements in state law and rules, the District's library collections shall:

1. Present multiple viewpoints related to controversial issues [see EMB regarding instruction about controversial issues].
2. Provide a wide range of background information that will enable students to make intelligent decisions in their daily lives.
3. Include accurate and authentic factual content from authoritative sources.
4. Have a high degree of potential user appeal and interest.

Online catalogs shall be publicly available. The District shall publish information about library material titles, including how and where material can be accessed.

Each campus shall communicate the following to parents and guardians:

- Access to policies relating to school libraries and library materials;
- Consistent access to library materials and resources; and
- Opportunities for students, parents and guardians, educators, and community members to provide feedback on library materials and services.

Parental
Involvement

Parents and guardians are the primary decision-makers regarding their child's access to library material. In general, a student is afforded the opportunity to self-select library materials as part of literacy development and the library program. District staff may assist a student in selecting library material; however, the ultimate determination of appropriateness remains with the student and parent or guardian. Parents and guardians are encouraged to communicate with the campus librarian and their child's teacher about special considerations regarding library materials self-selected by their child.

In accordance with state law and administrative procedures, parents or guardians may submit to the principal or a staff member
