Re: February 2026 Financial Information

Attached are the financial reports for the General Fund for the month ended February 28, 2026, and additional supplemental information for your review.

Revenues

For financial statement purposes, current property tax revenue is recognized evenly throughout the year at one twelfth of the annual budget each month to better align revenue with expenditures. In the supplemental schedules, however, actual collections are presented and compared to the same period in the prior year. Because property taxes are not levied until October 1, any taxes collected in September represent delinquent collections from prior years. As a result, no current year collections are reflected for September on the supplemental schedule. The district will continue to contract with the Taylor County CAD for tax collection services, while Jones County CAD performs appraisals in Jones County as required by law. Both the Taylor County and Jones County CADs continue to do a great job monitoring and collecting taxes. At the end of February, 87.35% of taxes had been collected.

State Foundation School Program revenue and Available School Fund revenue are also recognized evenly each month for financial reporting purposes rather than based on the timing of actual receipts, which fluctuate throughout the year. The state revenue budget is reviewed and adjusted as attendance data is received after each grading period.

Expenditures

Payroll costs are tracking as expected, with 49.60% of the \$126.9 million budget expended to date.

Extracurricular Activities (FC 36) expenditures continue to run higher than the annual budget at 81.72% due to increased extra duty pay and travel costs. Security and Monitoring Services (FC 52) expenditures are elevated at 72.03% due to security requirements that increased costs for the year. Year-to-date expenditures are 50.19% of the annual budget.

Curriculum and Instructional Staff Development (FC 13), Instructional Leadership (FC 21), School Leadership (FC 23) and General Administration (FC 41) expenditures are below budget due to the timing of costs, which typically occur later in the fiscal year.

Note: For information related to the accounting of instructional materials, as this term is defined by state law and rule, see CMD.

For information related to the selection process of library materials, see EFB.

The District shall provide instructional materials designed to teach the Texas Essential Knowledge and Skills and further the District's educational mission. Although the Superintendent shall ensure that professional staff select instructional materials in accordance with District policy and administrative regulations, the ultimate authority for determining and approving the curriculum and instructional program of the District lies with the Board.

Objectives

In this policy, "instructional materials" may include textbooks, supplementary resources for classroom use, and any other instructional resources, including electronic resources, used for formal or informal teaching and learning purposes. The primary objectives of instructional materials are to implement, enrich, and support the District's educational program.

Selection

Instructional materials that are textbooks and related supplemental materials, which may include items from the list of resources adopted by the State Board of Education, shall be chosen in accordance with administrative regulations and the objectives above.

The Board shall rely on District professional staff to select and acquire instructional materials that:

1. Enrich and support the curriculum consistent with the general educational goals of the state and District, the aims and objectives of individual schools and specific courses, and the District and campus improvement plans.
2. Are appropriate for the subject area and for the age, ability level, learning styles, interests, and social and emotional development of the students for whom they are selected.
3. Meet high standards for artistic quality, literary style, authenticity, educational significance, factual content, physical format, presentation, readability, and technical quality.
4. Present various sides of controversial issues so that students have an opportunity to develop, under guidance, skills in critical analysis and in making informed judgments in their daily lives. [See also EMB regarding instruction about controversial issues.]
5. Promote literacy.

District professional staff may select additional instructional materials in accordance with administrative regulations and the criteria above.

Administrators, teachers, other District personnel, parents, and community members, as appropriate, may recommend instructional materials for selection. Gifts of instructional materials shall be evaluated according to these criteria and accepted or rejected in accordance with CDC(LOCAL).

Selection of instructional materials is an ongoing process that includes the removal of materials no longer appropriate and the periodic replacement or repair of materials that still have educational value.

**Parent Request for
Instructional Material
Review**

The Superintendent shall develop administrative regulations to ensure compliance with state law and rules that a parent or guardian of a District student may request an instructional materials review for a subject area in the grade level in which their student is enrolled on the basis of the following:

1. The material is not aligned with District-adopted materials; or
2. The material does not have the appropriate rigor for the grade level for the subject area in which the instructional material is used.

The regulations shall also address procedures for submitting a parent petition to review instructional materials, the appeal process if a petition for review is denied, criteria for reviewing any appeal, and timelines for each step in the process.

**Reconsideration of
Instructional
Materials**

A District employee or a parent or guardian of a District student may request reconsideration of instructional material used in the District's educational program on the basis that the instructional material fails to meet the standards set forth in this policy.

Guiding Principles

The following principles shall guide the Board and staff in responding to a request for reconsideration of instructional materials:

1. A complainant may raise an objection to an instructional material used in a school's educational program, despite the fact that the professional staff selecting the materials were qualified to make the selection, followed the proper procedure, and adhered to the objectives for instructional materials set out in this policy.
2. A parent's ability to exercise control over instruction extends only to his or her own child as set forth in Education Code Chapter 26.

INSTRUCTIONAL RESOURCES
INSTRUCTIONAL MATERIALS

EFA
(LOCAL)

3. Access to a challenged material shall not be restricted during the reconsideration process, except the District may deny access to a child if requested by the child's parent.

The major criterion for the final decision on challenged instructional materials is the appropriateness of the material for its intended educational use. No challenged instructional material shall be removed solely because of the ideas expressed therein.

Informal
Reconsideration

When the District or a campus receives an objection to the appropriateness of an instructional material, the appropriate administrator shall try to resolve the matter informally. The administrator shall explain the selection process and discuss the intended educational purpose for the instructional material. If appropriate, the administrator may offer a concerned parent an alternative instructional material to be used by that parent's child in place of the challenged material.

If the complainant wishes to make a formal challenge, the administrator shall provide the complainant a copy of this policy and a form to request a formal reconsideration of the instructional material.

Formal Request for
Reconsideration

A complainant shall make any formal request to reconsider an instructional material on the form provided by the District and shall submit the completed and signed form to the principal. Upon receipt of the form, the principal shall appoint a reconsideration committee.

The reconsideration committee shall include at least one member of the instructional staff who has experience using the challenged material with students or is familiar with the challenged material's content and a parent serving on the campus-level committee or district-level committee. If a campus-level committee or district-level committee parent is not available, the principal or curriculum and instruction administrator will select another parent from the campus or district. Other members of the committee may include District-level staff, secondary-level students, and any other appropriate individuals.

All members of the committee shall review the challenged instructional material in its entirety. As soon as reasonably possible, the committee shall meet and determine whether the challenged material conforms to the principles of selection set out in this policy and whether the challenged material will continue to be used in the educational program. The committee shall prepare a written report of its findings. The Superintendent, other appropriate administrators, and the complainant shall receive copies of the report.

Subject: 2026-2027 ADSY Calendar

Background Information: Stafford Elementary has officially earned designation as a Resource Campus through the Texas Education Agency, placing it among a small number of campuses statewide recognized for implementing a comprehensive, research-based school redesign model. This designation provides access to additional, ongoing funding to sustain and strengthen the campus's academic program, staffing model, and extended learning opportunities.

As part of this designation, the district is required to implement an approved calendar that meets both state instructional minute requirements and the additional design elements tied to the Resource Campus framework, including Additional Days School Year (ADSY) programming.

The proposed Stafford Elementary calendar for the 2026–2027 school year includes alignment to the district's 171-day calendar, with four additional instructional days embedded throughout the year to support continuous learning and strategic intervention:

- August 18
- October 9
- February 12
- March 29

In addition, the calendar includes six ADSY days scheduled following the end of the traditional school year:

- June 1–3 and June 7–9

These additional days are designed to provide targeted academic support, enrichment, and acceleration opportunities based on student needs, while maintaining alignment to the campus's instructional framework.

This calendar structure ensures Stafford Elementary meets all Resource Campus requirements while maximizing instructional time, supporting student achievement, and sustaining the conditions that led to its designation. Below are results from the most recent survey of Stafford parents related to the proposed calendar:

Family Survey Data

- 66.7% of families indicated the proposed additional dates are very manageable, somewhat manageable, or neutral for their family.
- 61.4% of families reported being very supportive, somewhat supportive or neutral of adding four instructional days to the school calendar.
- 33.8% of families stated they are very likely or somewhat likely to participate in Summer 2027 optional learning days.

Subject: C&I Overview—How Data Drives Instruction at the Campus Level

Background Information:

The district uses a comprehensive assessment system to monitor student progress and help guide instructional decisions at every level. Throughout the year, a variety of assessments are given based on the district assessment calendar to provide timely information on how students are performing. This data is supported by district-level resources and guidance so campuses and teachers can respond effectively to student needs. Content coordinators help analyze results and provide targeted support to campuses. Teachers use assessment data to adjust instruction, provide needed support, and monitor student growth, creating an ongoing cycle focused on improving student outcomes.
