MEMORANDUM

To: Members of the Board of Trustees

From: Elizabeth Perez, Chief Financial Officer
Jesus Martinez, Executive Director-Support Services

Subject: Discussion and possible Board action to determine whether the district budget allows for the purchase of buses with Three-Point Seat Belts and review of district-collected Seat Belt Data to fulfill SB 546 reporting requirements

Date: April 8, 2026

HISTORY: Senate Bill 546 (89th Legislature), effective September 1, 2025, amends Texas Transportation Code §547.701 to require that all buses operated by or contracted for use by a school district for the transportation of school children be equipped with three-point seat belts for every passenger, including the driver.

RATIONALE: The purpose of this agenda item is to provide the Board with data and cost information to determine whether it is financially feasible, within the current budget, to purchase buses equipped with 3-point (lap/shoulder) seat belts to replace 27 buses that are not equipped accordingly (table below). In accordance with Texas Transportation Code 547.701(e)(1), the Board of Trustees must determine whether the district's budget can support the purchase of such buses.

Below is a summary of the current bus fleet inventory:

Total fleet (all buses)	**39**
Already equipped with 3-point seat belts	8
Surplus buses (excluded from retrofit plan)	4
Buses out of compliance per Senate Bill 546	**27**

The estimated cost to purchase 27 new buses to replace the buses that do not have 3-point seatbelts is **$4,392,800.00.**

If the Board determines that the budget does not allow for the purchase of new buses with 3-point seat belts, the district should prepare a report to be presented to the Board during a public meeting. The report will need to include the following:

1. The number of buses operated by or contracted for use by the district that:

San Elizario ISD
P.O. Box 920
San Elizario, TX 79849
Phone: 915.872.3900
Fax: 915.872.3903

a. Are not equipped with seat belts; **19 buses**
b. Are equipped with two-point seat belts; **8 buses**
c. Are equipped with three-point seat belts; **8 buses**

2. The estimated cost to the district to retrofit 27 buses with three-point seat belts is **$586,372.00 (Freight charges are not included)**

As part of the estimated cost reporting, school systems will be able to participate in a TEA grant opportunity related to seat belt installation.

BUDGET IMPACT:
Contingent on the Board determination:

1. The estimated cost to purchase 27 new buses to replace the buses that do not have 3-point seatbelts is **$4,392,800.00.**

2. The estimated cost to equip 27 buses with three-point seat belts is **$586,372.00.** (Freight charges are not included)

ADMINISTRATIVE RECOMMENDATION:
The administrative recommendation is for the Board to approve one of the following determinations:

1. The Board determines that the district's budget does not allow for the purchase of buses equipped with three-point seat belts and authorizes the Superintendent or designee to submit to the Texas Education Agency the estimated cost to equip each bus operated by, and/or contracted for use by the district with three-point seat belts, pursuant to SB 546.

OR

2. The Board determines that the district's budget does allow for the purchase of buses equipped with three-point seat belts and authorizes the Superintendent or designee to plan for the purchase of such buses, pursuant to SB 546.

Lorenzo G. Alarcon Elementary School

PLC expectations were established on a weekly basis to ensure consistency and improve student outcomes.

Student rotations during PLCs are aligned weekly to support instructional coherence.

Vertical alignment PLCs focused on mathematics and reading during the fall and spring semesters.

Accountability talks are conducted with fourth- through sixth-grade teachers based on STAAR progress from the prior year.
Note: 3rd grade does not have prior year STAAR data.

Data chats are held with students in collaboration with the leadership team.

The leadership team offers ongoing support to teachers through a monthly coaching model.

Alfonso Borrego Sr. Elementary School

Ensure the daily use of high-quality instructional materials (McGraw Hill, Bluebonnet, HMH, and SAVVAS) across all RLA, Science and Math classrooms.

Data-driven decision-making and targeted interventions are strengthened using AMIRA, district assessments and interim data to identify student needs and monitor progress.

Support for Special Education is focused through monthly professional development and meetings.

Weekly PLCs are implemented through a structured plan with clearly defined topics and timelines, supported by designated content-area leads to ensure focused, high impact collaboration.

Ann M. Garcia-Enriquez Middle School

PLCs engaged in strong daily collaboration during planning to ensure instructional rigor.

Writing and organizational skills are continuously promoted through AVID and Summit across grades K–12 on a weekly basis.

Student data is analyzed quarterly in PLCs for tracking progress by content area and teacher.

The leadership team provides consistent monthly coaching to support instructional practice.

Argumentative Text

- Due to incongruent MAP data used in the previous year and the decision not to utilize MAP assessments this year, a direct comparison of results is not feasible. Instead, a district assessment is currently being administered, which limits the ability to accurately gauge year-to-year performance trends.

- In PLC Eighth-grade teachers have expressed the perception that argumentative writing is not being explicitly taught. After our review of the standards indicates that multiple expectations specifically address argumentative writing across grades 3–6. In response, we will be conducting RLA learning walks at the elementary level to support teacher discovery and gather instructional evidence.

Fund Performance Update

December 31, 2025

Comments by Mellon, Investment Manager

The US Treasury yield curve steepened in December as short rates were lower by as much as 32 basis points (bps) as yields on longer maturing bonds rose as much as 18 bps. The equity markets in the US were close to flat in December. For the year 2025, the Dow Jones Industrial Average, S&P 500, and Nasdaq-100 indexes gained 13.4%, 16.4%, and 20.4%, respectively. As expected, the Federal Open Market Committee (FOMC) reduced the federal funds rate target range by 25 bps to 3.5% to 3.75%, with two hawkish dissents and one dovish dissent. The latest SEP median projections show stronger GDP growth, lower unemployment, and inflation remaining 0.5% above the Federal Reserve's (Fed) target in 2026. The median Fed funds projections for 2026 were unchanged from September's SEP at 3.4%, though the bottom range was lowered by 50 bps. Notable was the post-meeting statement, which stated that it will consider "the extent and timing of additional adjustments" – similar verbiage was added last December, ahead of the extended pause. The statement also acknowledged that job gains have slowed during the year and that downside risks to employment have increased recently. Additionally, the Fed announced plans to purchase Treasury bills to maintain an ample supply of reserves.

6. **PRESENTATION / REPORTS / INFORMATION**

6.A. Presentations

6.A.1. Goal Progress Monitoring

6.A.1.a. (HB3) - Goal 2 - Overall Academic Growth in RLA STAAR

Mr. Edgar Ponce presented the (HB3) - Goal 2 - Overall Academic Growth in RLA STAAR presentation.

Dr. Jeannie Meza-Chavez stated she

reviewed a letter that was sent to parents in preparation for the upcoming tests. This letter is part of the systems that have been added to improve scores.

Ms. Alexis Tellez asked if the current nine-weeks local assessment, that differs from last year, was created by teachers, district, or directly by the new curriculum.

Mr. Edgar Ponce asked if there was a particular content she would like to check on.

Mr. Alexis Tellez stated she would like to know if Alarcon and Borrego are taking the same exam or if each campus created their own assessment.

Ms. Santana stated both Borrego and Alarcon do take the same assessment for math. Borrego uses the HMH RLA curriculum, but Alarcon was going to hold off on it.

Mr. Eduardo Chavez asked how the district will make sure all students are progressing now that the district is trying a different approach to reach our goal by averaging all students together.

Dr. Jeannie Meza-Chavez stated data will still be presented by grade level and subject tested to measure progress.

Ms. Blanca Cruz stated the district score shows a combination of all students. When the data is analyzed, the data is analyzed by grade level, teacher intervention, and by individual student.

Dr. Jeannie Meza-Chavez stated academic teams have been having honest conversations on scores and needs. These conversations and expectations have been trickled down into PLCs so teachers can identify the data.

Ms. Monike Ruiz stated when campus level assessment results are looked at, they filter it down to the

students not showing progress on a certain standard.

Dr. Jeannie Meza-Chavez stated during her observations, teachers have visuals to identify their assigned student progress.

Ms. Blanca Cruz stated that they will present the targeted improvement plans for Loya, Sambrano and the High School. These plans will help determine which goals are needed for the district to only reach the set goals but to set a goal that will get us to next letter grade.

Mr. Eduardo Chavez stated he would like to refocus the board on student outcomes so that set goals help the district improve test scores and not only reach goals but to move the needle to the next letter grade.

Ms. Blanca Cruz stated that when there is a new curriculum, like in math, the expectation and hope is that students do well. The aim is for growth to show this year and for greater growth next school year.

Dr. Jeannie Meza-Chavez stated that systems have been added as to when students are being pulled out for non-instructional events.

Ms. Alexis Tellez asked if the interim test will be based on previous STAAR Test questions or curriculum questions.

Mr. Edgar Ponce stated the interim test will be aligned with STAAR test questions.

Ms. Blanca Cruz stated the test is adaptive, so it levels based on how the student tests.

Ms. Alexis Tellez stated it will be hard to compare apples to apples because tests are leveled per individual. Two students might be taking the test at the same time, but if one is scoring higher, the test will keep on providing harder

questions and vice-versa.

Ms. Blanca Cruz stated once the scores are brought to the board an explanation will be given on how the test measures student progress.

No more questions.

6.A.1.a.1. PowerPoint Presentation

6.B. Reports

6.B.1. Career and Technical Education Program Evaluation for School Year 2024-2025

Myrna Hernandez asked if the survey included a question where students could provide their opinion on which CTE Courses they would like.

Ms. Blanca Cruz stated this evaluation is based on the 2024-2025 CTE program. This evaluation does not include student survey information regarding CTE Courses.

Dr. Jeannie Meza-Chavez stated student survey information can be presented at the February meeting.

6.B.2. San Elizario Early College High School Update

6.B.3. Meal Service Update

6.B.3.a. November 2025

6.B.3.b. December 2025

6.B.4. Enrollment Update

Mr. Lorenzo Luevano stated a discussion regarding enrollment is needed due to its continuing decline and for the district to be financially responsible.

Mr. Eduardo Chavez stated there have been talks about that and administration is working on options.

Dr. Jeannie Meza-Chavez stated administration needs clarification on the direction the board would like to take to avoid public disagreement. The information can be brought forward but a recommendation will not be brought

forward if the board is not comfortable of being informed about it or comfortable in making a decision. As a first step, it would be helpful if the district had a community and discussed declining enrollment. Ask the community for their input, by having a meeting at each school or a big community meeting to make an attempt to communicate with community members. The decision that the board will need to make will probably not be a popular one; definitely needed to sustain the district in the future.

Mr. Eduardo Chavez asked for an item to be added to the next agenda so that the board of trustees and administration can be well informed. The discussion for a decision should be objective before having a community meeting.

Dr. Jeannie Meza-Chavez asked if there is anything in particular that cabinet would need to bring forward.

Mr. Eduardo Chavez stated he had asked for information regarding consolidating campuses and a possible bond to achieve this.

Dr. Jeannie Meza-Chavez stated cabinet will discuss it during the upcoming cabinet meeting.

MEMORANDUM

To: Members of the Board of Trustees
From: Edgar Ponce, Administrator – Research and Evaluation
Subject: (HB 3) GPM 1.1 Progress Monitoring—Math Growth for PK4
Date: February 11, 2026

HISTORY:

As part of the HB 3 progress monitoring requirements, the Board of Trustees has approved Student Outcome Goals and Goal Progress Measures. This report aims to provide feedback on Goal Progress Measure (GPM) 1.1, which focuses on the progress of all Pre-K students in meeting mathematics skill benchmarks.

RATIONALE:

Goal Progress Measure (GPM) 1.1 (District; 1-year Goal)

- The Overall Measure of Math Growth for all Pre-K students (English) will increase from 97% at Wave 2 in January of 2025 (MOY) to ≥ 98% in January of 2026 (MOY) as measured by the CIRCLE School Average Growth Report.

- The Overall Measure of Math Growth for all Pre-K students (Spanish) will increase from 91% at Wave 2 in January of 2025 (MOY) to ≥ 93% in January of 2026 (MOY) as measured by the CIRCLE School Average Growth Report.

The CIRCLE Progress Monitoring System is a web-based prekindergarten assessment system used by PK4 teachers to determine students' knowledge in critical developmental areas. This tool prompts teachers to focus on lessons that target students' least-developed skills. The assessments are conducted three times per year and are sensitive to growth in children's skills over time.

In this report, two parameters will be examined related to PK4 performance in math:

- Meeting Wave 2 math targets based on the CIRCLE assessment;
- Comparison of Math Growth from Wave 1 to Wave 2

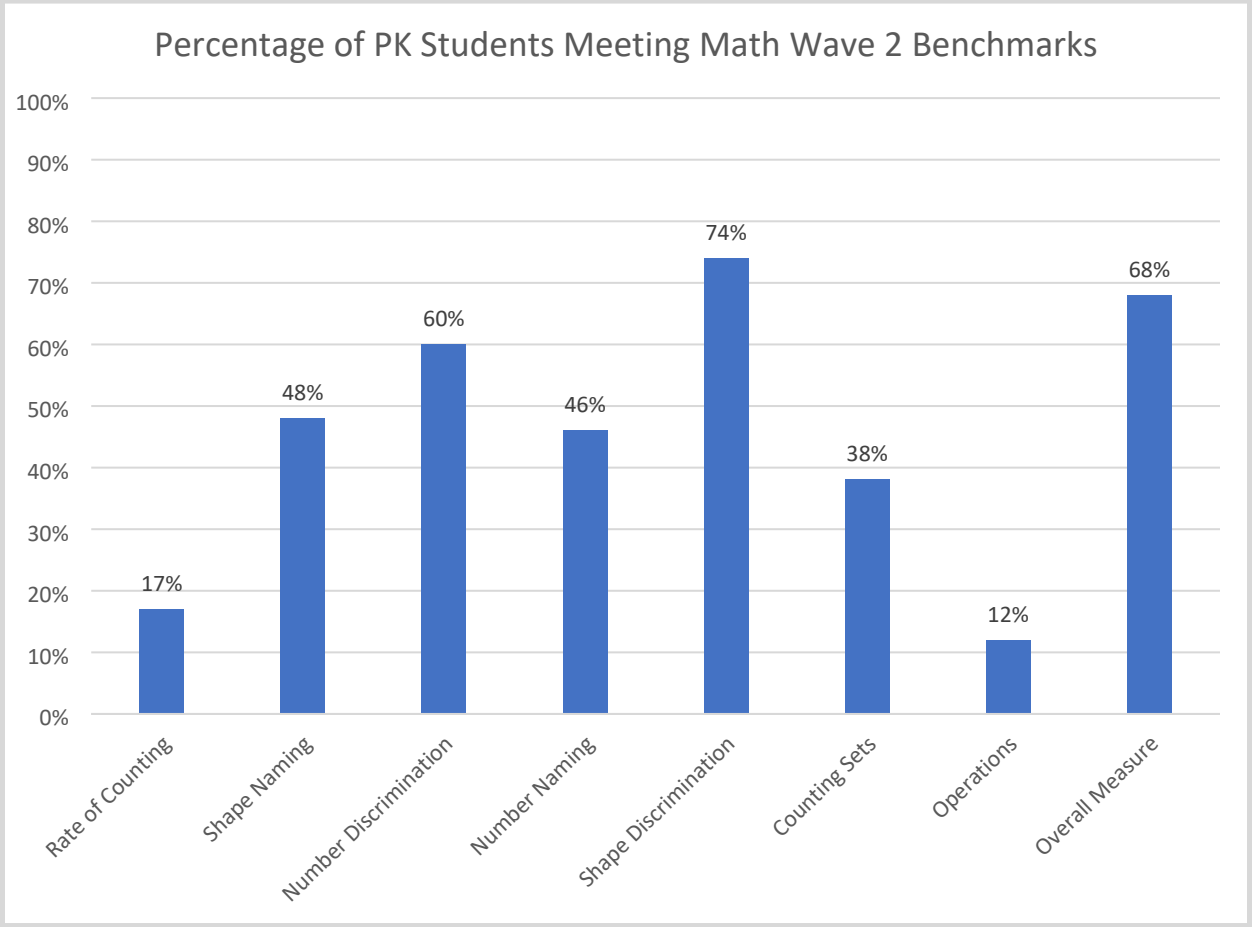
Meeting Wave 2 math targets in the CIRCLE assessment

Pre-K students were tested with the CIRCLE assessment in Mathematics during January 2026 for Wave 2, the middle-of-year assessment. The graph below represents the Wave 2 percentages "on track" for Mathematics, the percentage of all Pre-K students meeting the benchmarks in that specific math skill set. The final data piece reports the average of all Math skill sets. This graph is based on the CIRCLE Progress Monitoring School Benchmark Growth Report.



The GPM 1.1 target to reach by January 2026 was ≥ 98%, meeting math (English) benchmarks at Wave 2. Overall, **68%** of PK students met their math benchmarks at Wave 2.

Status: 30% below the target.

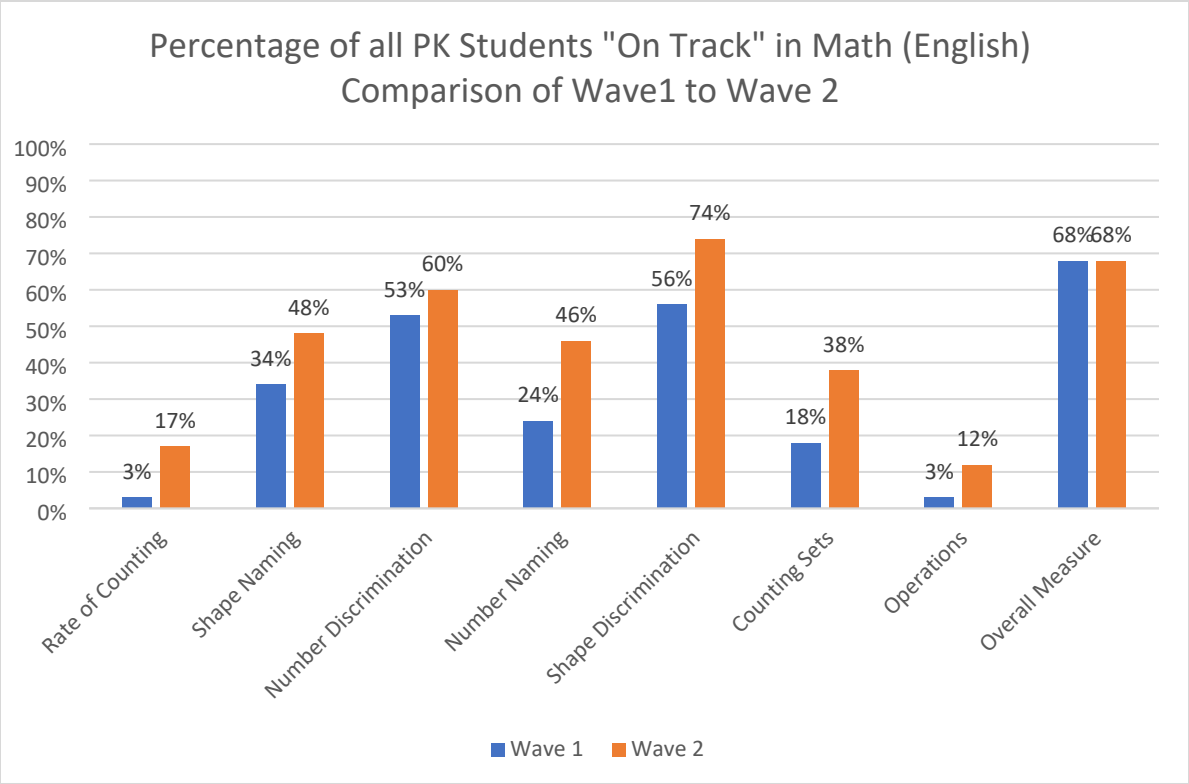
The GPM 1.1 target to reach by January 2026 was ≥ 93%, meeting math (Spanish) benchmarks at Wave 2. Students did not take a Spanish test which offers no information on this area for Wave 2.

Comparison of math growth from Wave 1 to Wave 2 in the CIRCLE assessment

Beyond determining whether the Wave 2 target was met, we will also look at our Pre-K students' Math skills growth from Wave 1 to Wave 2. Wave 1 is the beginning of the year assessment, which was given in September 2025.



Looking at each math skill (English) in the graph above, it is evident that our Pre-K students improved significantly from the beginning to the middle of the year. Our Pre-K students are progressing well in their Mathematics skills this year.

Subject: (HB 3) GPM 1.2 Progress Monitoring—Grades K-2 Math Growth
Date: February 11, 2026

HISTORY:

The Board of Trustees has approved Student Outcome Goals and Goal Progress Measures as part of HB 3 progress monitoring requirements. This report aims to provide feedback on HB 3 Goal Progress Measure (GPM) 1.2, which focuses on math growth for students in grades K-2.

RATIONALE:

Goal Progress Measure (GPM) 1.2 (District; 1-year Goal)
The iReady MOY Math (English/Spanish) assessment will help identify what percent of students are at grade level based on the recommended composite score. K ≥ 362, 1st ≥ 402, 2nd ≥ 428

In this report, two parameters will be examined related to grades K-2 growth:

- Examining math growth from BOY to MOY based on iReady data

Examining math growth from BOY to MOY based on the iReady assessment

In addition to comparing the K-2 math growth average to the GPM 1.2 target, we will also examine this grade band to look for growth in math from BOY to MOY using the iReady assessments. This will help ascertain the level of math growth of our K-2 students from the beginning of the year to the middle of the year. In this instance, we are identifying the percent of students tested that are performing at grade level based on national average.

Multi		Overall Grade-Level Placement						Students Assessed/Total

Subject: 2024-2025 TAPR Reports
Date: February 11, 2026

HISTORY:

The Texas Education Agency releases an annual report for the district and each campus. This report is called the TAPR, or Texas Academic Performance Report. These 2024-2025 school year reports were recently released and are included in the February 2026 Board Book for your review. These reports have been posted on our district website for public review and will be included in a public hearing as required by the Texas Education Code.

RATIONALE:

The Texas Academic Performance Reports (TAPR) pull together a wide range of information on students' performance in each school and district in Texas every year. Performance is shown disaggregated by student groups, including ethnicity and socioeconomic status. The reports also provide extensive information on school and district staff, programs, and student demographics. A glossary is included, further explaining the TAPR report's different parts.

BUDGET: There is not an impact to the budget for this item.

ADMINISTRATIVE RECOMMENDATION:

It is recommended that the Board review the 2024-2025 TAPR Reports.

Performance

STAAR: A comprehensive testing program for public school students in grades 3–8 or high school courses with end-of-course (EOC) assessments. The STAAR program is designed to measure to what extent a student has learned, understood, and is able to apply the concepts and skills expected at each grade level or after completing each course for which an EOC assessment exists. Each STAAR assessment is linked directly to the Texas Essential Knowledge and Skills (TEKS). The TEKS are the state-mandated content standards that describe what a student should know and be able to do upon completion of a course. For more information on the TEKS, see the *Texas Essential Knowledge and Skills* website at http://tea.texas.gov/curriculum/teks/.

Other Important Information:

STAAR (with and without accommodations) and STAAR Alternate 2. The TAPR and the Texas Performance Reporting System (TPRS) include performance on STAAR and STAAR Alternate 2.

Spanish STAAR. All STAAR assessments in grades 3, 4, and 5 are available in both English and Spanish. The TAPR and the TPRS include performance on the Spanish STAAR.

Rounding of STAAR results. STAAR performance shown on the TAPR and TPRS is rounded to whole numbers. For example, 49.877% is rounded to 50%; 49.4999% is rounded to 49%; and 59.5% is rounded to 60%.

Masking. STAAR performance rates are masked when necessary to comply with FERPA. For more information, see the Explanation of Masking at https://rptsvr1.tea.texas.gov/perfreport/tapr/2025/masking.html.

Progress (Annual Growth, Accelerated Learning and STAAR Progress Measure)

School Progress Domain— Annual Growth is the percentage of students who grew academically by at least one school year. For STAAR assessments (with or without accommodations), annual growth is measured by a transition table. Individual student growth is calculated as the change between Low Did Not Meet Grade Level, High Did Not Meet Grade Level, Low Approaches Grade Level, High Approaches Grade Level, Meets Grade Level, and Masters Grade Level performance from the prior year to the current year.

School Progress Domain—Accelerated Learning is the percentage of students who earned Did Not Meet Grade Level in the prior year and were accelerated to Approaches Grade Level or above in the current year.

The above measures were used to determine the Annual Growth and Accelerated Learning in the Bilingual Education/ESL report.

Bilingual Education/ESL

Bilingual Education (BE): Dual-language program that enables emergent bilingual (EB) students/English learners (ELs) to become proficient in listening, speaking, reading, and writing in the English language through the development of literacy and academic skills in the primary language and English. This category includes the following:

- *BE Trans Early Exit*. Bilingual program model in which students identified as EB students/ELs are served in both English and another language and are prepared to meet reclassification criteria to be successful in English-only instruction not earlier than two or later than five years after the student enrolls in school.
- *BE Trans Late Exit*. Bilingual program model in which students identified as EB students/ELs are served in both English and another language and are prepared to meet reclassification criteria to be successful in English-only instruction not earlier than six or later than seven years after the student enrolls in school.
- *BE Dual Two-Way*. Bilingual/biliteracy program model in which students identified as EB students/ELs are integrated with non-EB/non-EL students and are served in both English and another language and are prepared to meet reclassification criteria in order to be successful in English-only instruction not earlier than six or later than seven years after the student enrolls in school. This model provides ongoing instruction in literacy and academic content in English and

another language with at least half of the instruction delivered in the non-English program language for the duration of the program.

- *BE Dual One-Way*. Bilingual/biliteracy program model in which students identified as EB students/ELs are served in both English and another language and are prepared to meet reclassification criteria in order to be successful in English-only instruction not earlier than six or later than seven years after the student enrolls in school. This model provides ongoing instruction in literacy and academic content in the students' primary language as well as English, with at least half of the instruction delivered in the students' primary language for the duration of the program.

English as a Second Language (ESL): An English acquisition program that enables emergent bilingual (EB) students/English learners (ELs) to become proficient in listening, speaking, reading, and writing in the English language through the integrated use of second language acquisition methods. This category includes the following:

- *ESL Content-Based*. An English acquisition program that serves students identified as EB students/ELs through English instruction by a teacher appropriately certified in ESL under TEC, §29.061(c), through English language arts and reading, mathematics, science, and social studies.
- *ESL Pull-Out*. An English program that serves students identified as EB students/ELs through English instruction provided by an appropriately certified ESL teacher under the TEC, §29.061(c), through English language arts and reading. Instruction shall be provided by the ESL teacher in a pull-out or inclusionary delivery model.

Alternative Language Program (ALP): An alternative language program provided to emergent bilingual (EB) students/English learners (ELs) for whom the local education agency (LEA) does not have the appropriately certified teachers for the required bilingual education or English as a second language (ESL) program for the current school year. This category includes the following:

- *ALP Bilingual (Exception)*. An alternative language program to the required bilingual education (BE) program approved by the TEA for the current school year due to the LEA's submission of a bilingual education exception application.
- *ALP ESL (Waiver)*. An alternative language program to the required English as a second language (ESL) program approved by the TEA for the current school year due to the LEA's submission of an ESL waiver application.

Emergent Bilingual (EB) Students/English Learner (EL): The count and percentage of students whose primary language is other than English and who are in the process of acquiring English. As a result of the 87th Texas Legislature, the term "emergent bilingual student" replaced the term of "limited English proficient (LEP) student" used in the Texas Education Code (TEC), Chapter 29, Subchapter B, and thus, will be changing the term of "English learner (EL)" used in 19 TAC Chapter 89, Subchapter BB. These terms describe the same group of Texas students. In the revised Texas Education Data Standards (TEDS), the terms of "emergent bilingual" and "English learner" have been bridged as EB/EL. The term "English learner" is still used in federal regulations and guidance. This category includes:

- *EB/EL with Parental Denial.* Students identified as emergent bilingual (EB) students/English learners (ELs) whose parents have denied all bilingual and ESL program services.
- *Never EB/EL.* Students who have never been identified as EB students/ELs (non-EB/non-EL students).

2024–25 Texas Academic Performance Report (TAPR) Glossary

- *Total EB/EL (Current).* Students currently identified as EB students/ELs, including those served in a standard or alternative bilingual or ESL program as well as those with a parental denial of services.
- *Monitored & Former EB/EL.* Students who were once identified as EB students/ELs but have reclassified as English proficient, including students within their four years of state and federal monitoring and those beyond monitoring years.

STAAR Participation (2024–25)

This Texas Academic Performance Report (TAPR) provides the State Assessment participation rate as used in State Accountability. This participation rate includes students who are considered participants for state reporting purposes but are excluded from the federal participation rate. The report details the participation rate by All Tests, Reading, Mathematics, Science, Social Studies, and Accelerated Testers and which assessments and students are included or excluded from accountability.

Assessment Participants

- STAAR Assessments:
  - Includes STAAR and STAAR Alternate 2 assessments with a score code of "S."
- STAAR Alternate 2 Assessments:
  - Includes assessments with a score code of "N."
- STAAR Reading Language Arts (RLA) Assessments:
  - Includes STAAR and STAAR Alternate 2 assessments with a score code of "A" or "O," provided a TELPAS or TELPAS Alternate assessment has a score code of "S."
- STAAR Mathematics Assessments:
  - Includes assessments with a score code of "A" or "O," provided a TELPAS or TELPAS Alternate assessment has a score code of "S" for year 1 asylees/ refugees or students with interrupted formal education (SIFEs).
- Accelerated Testers:
  - This includes Evidence-Based Reading and Writing (EBRW) SAT, English Language Arts (ELA) ACT, ACT science, and mathematics SAT and ACT results for students who complete a STAAR End-of-Course (EOC) assessment at the Approaches Grade Level or above in Algebra I, English II, and/or Biology before grade 9.

Included in Accountability:

- This represents the state assessment participation rate used in state accountability measures.
- Includes all of the participants listed above, except for students classified as "Mobile" or under "Other Exclusions."

Not Included in Accountability:

- *Mobile:* Refers to the percentage of assessments excluded from the "Included in Accountability" rate because the students enrolled in the district or campus after the Texas Student Data System (TSDS) Public Education Information Management System (PEIMS) fall snapshot date.
- *Other Exclusions:* Refers to the percentage of assessments excluded from the "Included in Accountability" rate for the following reasons:

- STAAR Assessments (STAAR and STAAR Alternate 2) with score codes "A" or "O" that do NOT have a corresponding TELPAS or TELPAS Alternate assessment with a score code of "S."
- STAAR Alternate 2 assessments with a score code of "N."
- Answer documents of students who are an Emergent Bilingual/English learner (EB/EL) who has been in school in the U.S. for one year.
- Other exclusions specified in the 2025 Accountability Manual — Appendix G.

Not Tested

- Assessments that are not considered in the participation rate include:
  - Absent: Assessments with a score code of "A."
  - Other: Assessments with a score code of "O."
  - Accelerated Testers: Accelerated testers who did not take an SAT/ACT assessment.

The denominator for participation is the sum of these five categories: Included in Accountability, Mobile, Other Exclusions, and Not Tested (Absent and Other). *STAAR Participation Rate* is rounded to a whole number. For example, 94.49% is rounded to 94%. Small values may show as zero: 0.4% is rounded to 0%, and 0.6% is rounded to 1%.

Attendance, Graduation, and Dropout Rates (2024–25)

Attendance Rate: The percentage of days that students were present based on student attendance for the entire school year. Only students in grades 1–12 are included in the calculation.

Attendance is calculated as follows:

$$\frac{\textbf{total number of days that students in grades 1–12 were present during the 2023–24 school year}}{\textbf{total number of days that students in grades 1–12 were in membership during the 2023–24 school year}}$$

(Data source: PEIMS 42400)

Chronic Absenteeism: The unduplicated number of K–12 students enrolled for at least 10 days and absent for 10 percent or more days. Chronic Absenteeism is calculated as follows:

$$\frac{\textbf{total number of K–12 students enrolled for at least 10 days and absent for 10 percent or more days during the 2023–24 school year}}{\textbf{total number of K–12 students enrolled for at least 10 days during the 2023–24 school year}}$$

(Data source: PEIMS 42400)

Annual Dropout Rate: The percentage of students who drop out of school during a school year. Annual dropout rates are shown for districts and campuses that serve grades 7–8 and/or 9–12. State law prohibits including a student who meets any of the following criteria from campus and district annual dropout rate calculations:

- Is ordered by a court to attend a high school equivalency certificate program but has not earned a high school equivalency certificate
- Was previously reported to the state as a dropout (previous dropout exclusions do not apply to completion measure calculations for AEA campuses)
- Was in attendance but not in membership for purposes of average daily attendance (i.e., students for whom school districts are not receiving state Foundation School Program [FSP] funds)
- Was initially enrolled in a school in the United States in any grade 7 through 12 as an unschooled refugee or asylee as defined by TEC §39.027(a-1)
- Attends a district exclusively as a function of having been detained at a county detention facility and is not otherwise a student of the district in which the facility is located or is being provided services by an open-enrollment charter school exclusively as the result of having been detained at the facility
- Is incarcerated in a state jail or federal penitentiary as an adult or as a person certified to stand trial as an adult
- Is a student who has suffered a condition, injury, or illness that requires substantial medical care and leaves the student unable to attend school and assigned to a medical or residential treatment facility
- Is a student in a Texas Juvenile Justice Department facility or residential treatment facility served by a Texas public school district
- Is at least 18 years of age as of September 1 and has satisfied the credit requirements for high school graduation; has not completed his or her individualized education program (IEP); and is enrolled and receiving IEP services
- Is a student who (a) is at least 18 years of age and under 26 years of age; (b) has not been previously reported as a dropout; and (c) has not been enrolled in school during the previous nine months before enrolling in a high school equivalency program, a dropout recovery school, or an adult education program provided under a high school diploma and industry certification charter school program (previous dropout/previous dropout exclusions do not apply to completion measure calculations for AEA campuses)

Annual Dropout Rate (Gr 7–8). This includes only grades 7 and 8. It is calculated as follows:

$$\frac{\textbf{number of dropouts in grades 7 and 8 during the 2023–24 school year}}{\textbf{number of students in grades 7 and 8 in attendance at any time during the 2023–24 school year}}$$

Annual Dropout Rate (Gr 9–12). This includes grades 9 through 12. It is calculated as follows:

$$\frac{\textbf{number of dropouts in grades 9–12 during the 2023–24 school year}}{\textbf{number of students in grades 9–12 in attendance at any time during the 2023–24 school year}}$$

2024–25 Texas Academic Performance Report (TAPR) Glossary

Both annual dropout rates appear on campus, district, region, and state TAPRs. The state and region annual dropout rates that are reported on district and campus TAPRs, however, are calculated without the exclusions required for campus and district calculations.

Note that with all annual dropout rate calculations, a cumulative count of students is used in the denominator. This method for calculating the dropout rate neutralizes the effect of mobility by including in the denominator every student ever reported in attendance at the district or campus throughout the school year, regardless of length of enrollment. For a more complete description of dropout rates and exclusions, see the Secondary School Completion and Dropouts in Texas Public Schools reports, available on the TEA website at Completion, Graduation, and Dropout | Texas Education Agency.

For detailed information on data sources, see Appendix H in the *2025 Accountability Manual*. *(Data source: PEIMS 40203, 40110, 42400, and 42500)*

Longitudinal Rates: The status of a group (cohort) of students after four years in high school (*4-Year Longitudinal Rate*), after five years in high school (*5-Year Extended Longitudinal Rate*), or after six years in high school (*6-Year Extended Longitudinal Rate*).

For the *4-Year Longitudinal Rate,* the cohort consists of students who first attended ninth grade in 2020–21. They are followed through their expected graduation with the Class of 2024.

For the *5-Year Extended Longitudinal Rate,* the cohort consists of students who first attended ninth grade in 2019–20. They are followed for five years and included if they graduated within a year after their expected graduation with the Class of 2023.

For the *6-Year Extended Longitudinal Rate,* the cohort consists of students who first attended ninth grade in 2018–19. They are followed for six years and included if they graduated within two years after their expected graduation with the Class of 2022.

Additional Information on Cohorts:

A student transfers into a campus, district, or state cohort when he or she moves into the cohort from another high school in Texas, from another district in Texas, or from out of state.

A student transfers out of a campus or district cohort when he or she moves to another public high school in Texas or moves to another district in Texas. Note that these students are transferred into the cohort of the high school or district to which they moved. There are also students who move out of state or out of the country and students who transfer to private schools or who are home-schooled. These types of transfer students cannot be tracked and are not included in longitudinal rate calculations.

A student does not change cohorts if he or she repeats or skips a grade. A student who begins with the 2020–21 ninth-grade cohort remains with that cohort. A student who started the ninth grade in 2020–21 but takes 5 years to graduate (i.e., graduates in May 2025) is still part of the 2024 cohort; he or she is not switched to the 2025 cohort. This student would be considered a continuing student and counted as part of the Continued HS number for the Class of 2024. This is also true for the five-year and six-year extended longitudinal cohorts.

There are four student outcomes used in computing each longitudinal rate:

4-Year Longitudinal Rate

2024–25 Texas Academic Performance Report (TAPR) Glossary

(1) *Graduated:* The percentage who received their high school diploma in four years or fewer by August 31, 2024 for the 2024 cohort.

$$\frac{\textbf{number of students from the cohort who received a high school diploma by August 31, 2024}}{\textbf{number of students in the 2024 cohort*}}$$

(2) *Received TxCHSE:* For the 2024 cohort, the percentage who received a Texas high school equivalency certificate by August 31, 2024. It is calculated as follows:

$$\frac{\textbf{number of students from the cohort who received a TxCHSE by August 31, 2024}}{\textbf{number of students in the 2024 cohort*}}$$

(3) *Continued High School:* The percentage of the 2024 cohort still enrolled as students in the fall after his or her anticipated graduation. It is calculated as follows:

$$\frac{\textbf{number of students from the cohort who were enrolled in the fall of the 2024–25 school year}}{\textbf{number of students in the 2024 cohort*}}$$

(4) *Dropped Out:* The percentage of the 2024 cohort who dropped out and did not return by the fall of the 2024–25 school year. It is calculated as follows:

$$\frac{\textbf{number of students from the cohort who dropped out before fall of the 2024–25 school year}}{\textbf{number of students in the 2024 cohort*}}$$

(5) *Graduates & TxCHSE:* The percentage of graduates and TxCHSE recipients in the 2024 cohort. It is calculated as follows:

$$\frac{\textbf{number of students from the 2024 cohort who received a high school diploma by August 31, 2024 plus number of students from the cohort who received a TxCHSE by August 31, 2024}}{\textbf{number of students in the 2024 cohort*}}$$

(6) *Graduates, TxCHSE & Continuers:* The percentage of graduates, TxCHSE recipients, and continuers in the 2024 cohort. It is calculated as follows:

$$\frac{\begin{array}{c}\textbf{number of students from the cohort who received a high school diploma by August 31, 2024}\\ \textbf{plus}\\ \textbf{number of students from the cohort who received a TxCHSE by August 31, 2024}\\ \textbf{plus}\\ \textbf{number of students from the cohort who were enrolled in the fall of the 2024–25 school year}\end{array}}{\textbf{number of students in the 2024 cohort*}}$$

The graduation rate calculation is modified to credit AEA campuses for graduates, continuing students (continuers), TxCHSE recipients, and previous dropouts who complete. The completion rate component includes the four-year rates.

See *Annual Dropout Rate* for a list of all the exclusions mandated by state statute for districts and campuses.

The graduation, continuation, TxCHSE recipient, and dropout rates sum to 100% (some totals may not equal exactly 100% due to rounding). Students served through special education who graduate with an individualized education program (IEP) are included as graduates.

Additional Information about Federal Graduation Rates

In addition to the detailed breakdown of the four-, five- and six-year longitudinal rates, the district and campus reports show federal graduation rates for the following:

(1) *4-Year Federal Graduation Rate.* Cohort of students who first attended ninth grade in 2020–21. They are followed through their expected graduation with the Class of 2024. It is calculated as follows:

2024–25 Texas Academic Performance Report (TAPR) Glossary

$$\frac{\textbf{number of students from the cohort who received a high school diploma by August 31, 2024}}{\textbf{number of students in the 2024 cohort **}}$$

(2) *5-Year Extended Federal Graduation Rate.* Cohort of students who first attended ninth grade in 2019–20. They are followed for five years to see if they graduated within a year after their expected graduation with the Class of 2023. It is calculated as follows:

$$\frac{\textbf{number of students from the cohort who received a high school diploma by August 31, 2024}}{\textbf{number of students in the 2023 cohort**}}$$

(3) 6-*Year Extended Federal Graduation Rate.* Cohort of students who first attended ninth grade in 2018–19. They are followed for six years to see if they graduated within two years after their expected graduation with the Class of 2022. It is calculated as follows:

$$\frac{\textbf{number of students from the cohort who received a high school diploma by August 31, 2024}}{\textbf{number of students in the 2022 cohort**}}$$

** The cohort in the denominator above includes those students who graduated, continued in school, received a TxCHSE, or dropped out. It does not include data errors or leavers with leaver reason codes 03, 16, 24, 60, 66, 78, 81, 82, 83, 85, 86, 87, or 90. Students with leaver codes 88 and 89 are included in the federal rates.

A student in a Texas Juvenile Justice Department facility or residential treatment facility served by a Texas public school district is excluded from district and campus graduation rates calculated for federal accountability purposes. Students served by special education who graduate with an individualized education program (IEP) are included as graduates.

For further information on these rates, see the Secondary School Completion and Dropouts in Texas Public Schools document located on the Completion, Graduation, and Dropout Reports website. *(Data source: PEIMS 40203 and Texas Certificate of High School Equivalency Information File)*

College, Career, or Military* Readiness (CCMR) (2024–25)

Annual graduates demonstrate college, career, or military readiness in any one of the following ways:

College Readiness

1) **Texas Success Initiative (TSI) Criteria:** Meet Texas Success Initiative (TSI) Criteria in RLA and Mathematics. A student meeting the TSI college readiness standards in both RLA and mathematics; specifically, meeting the college-ready criteria on the TSIA1 and/or TSIA2 assessment, SAT, ACT, or by successfully completing and earning credit for a college prep course as defined in TEC §28.014 and TEC §51.338, in both RLA and mathematics. The

criteria for successful completion of a college prep course should be in alignment between an LEA and the partnering IHE(s). In accordance with TEC §51.338(e), upon successful completion of a college prep course, students earn a TSI exemption from the partnering IHE(s) in that content area. Students should only be reported as successfully completing a course if they have met TSI exemption requirements. The assessment results considered include TSIA1 and/or TSIA2 assessments through October 2024, SAT and ACT results through the July 2024 administration, and course completion data via TSDS PEIMS. See Appendix H for additional information. A student must meet the TSI requirement for both RLA and mathematics but does not necessarily need to meet them on the same assessment. For example, a student may meet the TSI criteria for college readiness in RLA on the SAT and complete and earn credit for a college prep course in mathematics. *(Data source: PEIMS 43415, THECB, College Board, and ACT, Inc.)*

2) **Earn Dual Course Credits:** A graduate completing and earning credit for at least three credit hours in ELA or mathematics or at least nine credit hours in any subject. *(Data source: PEIMS 43415)*

3) **Meet Criteria on Advanced Placement (AP)/International Baccalaureate (IB) Examination:** A graduate meeting the criterion score on an AP or IB examination in any subject area. Criterion score is 3 or more for AP and 4 or more for IB. *(Data source: College Board or IB)*

4) **Earn an Associate Degree:** A graduate earning an associate degree by August 31 immediately following high school graduation. *(Data source: PEIMS 40100)*

5) **Earn OnRamps Course Credits:** A graduate completing an OnRamps dual enrollment course and qualifying for at least three hours of university or college credit in any subject area. *(Data source: OnRamps program)*

6) **Graduates under an Advanced Diploma Plan and Identified as a current Special Education Student:** A graduate who is identified as receiving special education services during the year of graduation and whose graduation plan type is identified as a Recommended High School Plan (RHSP), Distinguished Achievement Plan (DAP), Foundation High School Plan with an Endorsement (FHSP-E), Foundation High School Plan with a Distinguished Level of Achievement (FHSP-DLA), or Texas First Early High School Completion Program (Texas First-DLA) (*Data source: PEIMS 40203 and 40110)*

Career/Military Readiness

7) **Earn an Industry-Based Certification (IBC):** A graduate earning an IBC under 19 TAC, §74.1003 and earned credit in a level 2 course or higher in an aligned Program of Study applies to the 2024 graduates. Alignment is determined by the IBC Crosswalk, which maps approved IBCs to their corresponding Programs of Study. The student must have earned the IBC associated with the Program of Study and also met the phase-in requirement. See Appendix J for a complete list of approved IBCs. The sunsetting IBC limit applied within the Student Achievement and School Progress, Part B: Relative Performance domains is not applied within Closing the Gaps. For prior graduating class IBC requirements please refer to "Chapter 2—Student Achievement Domain". *(Data source: PEIMS 40100)*

8) **Graduate with Completed IEP and Workforce Readiness:** A graduate receiving a graduation type code of 04, 05, 54, or 55 which indicates the student has completed his/her IEP and has either demonstrated self-employment with self-help skills to maintain employment or has demonstrated mastery of specific employability and self-help skills that do not require public school services. *(Data source: PEIMS 40203)*

9) **Graduate with Level I or Level II Certificate:** A graduate earning a level I or level II certificate in any workforce education area. *(Data source: THECB)*

Student Information (2024–25)

Please note, the Enrollment section of this report was added beginning with 2019–20. The definitions below describe the nuances between Membership and Enrollment. If comparing the data shown from this year's report to reports prior to 2019–2020, use the data displayed under Membership.

Enrollment: Students reported as enrolled as of the last Friday in October

Membership: Membership differs from enrollment, as it does not include those students who are served for less than two hours per day. A student is in membership if he/she is enrolled and is either

- scheduled to attend at least two hours of instruction each school day or
- participating in an alternative attendance accounting program.

For example, the count of *Total Students* excludes students who attend a non-public school but receive some services, such as speech therapy—for less than two hours per day—from their local school district.

Total Students: The total number of public school students who were reported at any grade from early childhood education through grade 12. *(Data source: PEIMS Student Entity)*

Students by Grade: The count of students in each grade divided by the total number of students. *(Data source: PEIMS StudentSchoolAssociation Entity)*

Ethnic Distribution: The number and percentage of students who are identified as belonging to one of the following groups: African American, Hispanic, white, American Indian, Asian, Pacific Islander, and two or more races. *(Data source: PEIMS StudentEducationOrganizationAssociation Entity)*

Male/Female: The number and percentage of students who are identified as male or female. *(Data source: PEIMS StudentEducationOrganizationAssociation Entity)*

Economically Disadvantaged: The count and percentage of students eligible for free or reduced-price lunch or eligible for other public assistance.

$$\frac{\textbf{number of students eligible for free or reduced-price lunch or other public assistance}}{\textbf{total number of students}}$$

(Data source: PEIMS StudentEducationOrganizationAssociation Entity and TEA Student Assessment Division)

Non-Educationally Disadvantaged: Those students not eligible to participate in free or reduced-price lunch or to receive any other public assistance. This is the complementary count and percentage to Economically Disadvantaged.

Section 504 Students: The count and percentage of students identified as receiving section 504 services. *(Data source: PEIMS StudentEducationOrganizationAssociation Entity)*

Emergent bilingual students/English learner (EB/EL) : The count and percentage of students whose primary language is other than English and who are in the process of acquiring English. The terms "English Learner" (EL) and "Emergent Bilingual" (EB) are used interchangeably.

The percentage of EB/ELs is calculated by dividing the number of EB/ELs by the total number of students in the district or campus. Not all students identified as EB/ELs receive bilingual or English as a second language instruction. *(Data source: TELPAS file)*

Students with Disciplinary Placements: The count and percentage of students placed in alternative education programs under Chapter 37 of the Texas Education Code (Discipline; Law and Order). Districts report the disciplinary actions taken toward students who are removed from the classroom for at least one day. Although students can have multiple removals throughout the year, this measure counts students only once and includes only those whose removal results in a placement in a disciplinary alternative education program or juvenile justice alternative education program. It is calculated as follows:

$$\frac{\textbf{number of students with one or more disciplinary placements}}{\textbf{number of students who were in attendance at any time during the school year}}$$

For 2024–25, the following 19 disciplinary action codes are included as disciplinary placements: 02, 03, 04, 07, 08, 10, 12, 13, 14, 15, 51, 52, 53, 54, 55, 57, 59, 60, and 61. *(Data source: PEIMS DisciplineAction Entity)*

(A) individuals who lack a fixed, regular, and adequate nighttime residence [within the meaning of section 11302(a)(1)]; and

(B) includes —

(i) children and youths who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters;

(Data source: PEIMS StudentEducationOrganizationAssociation Entity)

Immigrant: The count and percentage of students identified under the definition found under Title III of the No Child Left Behind Act of 2001 (NCLB), where the term 'immigrant children and youth' is defined as, "individuals who are aged 3 through 21; were not born in any state; and have not been attending one or more schools in any one or more states for more than 3 full academic years." The term 'State' means each of the 50 States, the District of Columbia, and the Commonwealth of Puerto Rico. *(Data source: PEIMS StudentEducationOrganizationAssociation Entity)*

Mobility: The count and percentage of students who have been in membership for less than 83 percent of the school year (i.e., missed six or more weeks).

$$\frac{\textbf{number of mobile students in 2023–24}}{\textbf{number of students who were in membership at any time during the 2023–24 school year}}$$

This rate is calculated at the state, region, district, and campus level and is disaggregated by race/ethnicity, economically disadvantaged status, special education status, and emergent bilingual students/English learner status. The mobility rates shown are based on the count of mobile students identified at the campus level. The district mobility rate reflects school-to-school mobility within the same district or from outside the district. The region mobility rate reflects school-to-school mobility within the same region or from outside the region. *(Data source: PEIMS BasicReportingPeriodAttendanceExtension Entity)*

Attrition Rate: The percentage of students enrolled in fall 2022-23 who did not return to the same campus in the fall of 2023-24. This calculation is adjusted to account for the grade levels available to students at each campus as well as additional factors. For instance, students were excluded from the calculation if the campus in which they were enrolled in 2022-23 did not offer the next grade they were expected to move into in 2023-24 or if they were at a campus in 2022-23 that was no longer active in 2023-24. Students who were retained in grade, including those in Grade 12, remained in the calculation.

Some campuses may not receive an attrition rate because all of their students are excluded from the attrition denominator due to their subsequent grade level not being offered at that campus in 2023-24. Examples of such campuses are campuses that serve single grade levels or campuses that changed the grades offered in 2023-24. Attrition Rate is calculated as follows:

$$\frac{\textbf{number of students enrolled in fall 2023 – number of students who returned in fall 2024}}{\textbf{number of students enrolled in fall 2023}}$$

Aggregations of campus denominators and numerators are created for district, region and state levels, and rates for each of those levels are calculated from these sums.

Retention Rates by Grade*:* The percentage of students in Texas public schools who enrolled in fall 2024 in the same grade in which they were reported for the last six-week period of the prior school year (2023–24).

$$\frac{\textbf{number of students enrolled in the same grade from one school year to the next}}{\textbf{number of students enrolled from one school year who return the next year or who graduate}}$$

Special education retention rates are calculated and reported separately because local retention practices differ for students served by special education.

The TAPR and TPRS show retention rates only for grades K–9. Retention rates for all grades can be found in Grade-Level Retention in Texas Public Schools available from TEA*. (Data source: PEIMS StudentSchoolAssociation Entity)*

Data Quality *(not on campus profile)*: The percentage of errors made by the district in the PEIMS Student Leaver Data.

Percent of Underreported Students. Underreported students are 7th–12th graders who were enrolled at any time during the prior year, who are not accounted for through district records or TEA processing in the current year, and for whom the district did not submit a leaver record. A district is required to submit a leaver record for any student served in grades 7–12 the previous year unless the student received a Texas high school equivalency certificate (TxCHSE) certificate by August 31, is a previous Texas public school graduate, moved to and enrolled in another Texas public school district, or returned to the district by the end of the school start window. (For 2023–24 the end of the school-start window was September 27, 2024)

$$\frac{\textbf{number of underreported students}}{\textbf{number of students in grades 7–12 who were served in the district in the 2023–24 school year}}$$

Class Size Averages by Grade and Subject: The average class size by grade (elementary) or selected subjects (secondary classes).

2024–25 Texas Academic Performance Report (TAPR) Glossary

For secondary classes, averages are determined by totaling the number of students served (in a subject at the campus) and dividing that sum by the count of classes for that subject.

For elementary classes, the average is determined based on the instructional model. If an elementary teacher teaches all subjects to the same group of fourth graders all day, the class size average is simply the number of fourth grade students served by that teacher. If an elementary teacher teaches a single subject to five different sections of fourth graders each day, however, the average is calculated the same way as for secondary subjects. For example, one fourth grade science teacher teaches five science classes each day with 18, 20, 19, 21, and 22 students in each class. The total of 100 students divided by the five classes produces an average class size of 20 students for that teacher.

The following rules apply to the average class sizes:

- Classes identified as serving regular, compensatory/remedial, gifted and talented, career and technical, and honors students are included in the calculation.
- English language arts (ELA), mathematics, science, social studies, languages other than English, computer science, and career and technical education are included in the calculation, as are self-contained classrooms.
- Classes where the number of students served is reported as zero are not included.
- Service codes with the "SR" prefix are not included.
- Teacher roles coded as "teacher" and/or "substitute teacher" are included.
- Only class settings coded as "regular class" are included.
- Missing partial FTE counts are not included.
- Elementary classes in which the number of students exceeds 100 are not included.
- Mixed grade-level class averages are not included.

Staff Information (2024–25)

Total Staff: The total count of staff which includes professional staff (teachers, professional support, administrators), educational aides, and (on the district profile) auxiliary staff. *(Data source: PEIMS Staff Entity, StaffEducationOrganizationEmploymentAssociation Entity, StaffEducationOrganizationAssignmentAssociation Entity, and StaffSectionAssociation Entity)*

Professional Staff: The full-time equivalent (FTE) count of teachers, professional support staff, campus administrators, and on the district profile, central office administrators. Staff are grouped according to roles as reported in PEIMS. Each type of professional staff is shown as a percentage of the total staff FTE. See Appendix B for all PEIMS Role IDs. *(Data source: PEIMS Staff Entity, StaffEducationOrganizationEmploymentAssociation Entity, StaffEducationOrganizationAssignmentAssociation Entity, and StaffSectionAssociation Entity)*

Educational Aides: The count and percentage of paraprofessional staff who are reported with a role of 033 (Educational Aide) or 036 (Certified Interpreter). The FTE counts of educational aides are expressed

as a percentage of the total staff FTEs. See Appendix B for all PEIMS Role IDs. *(Data source: PEIMS StaffEducationOrganizationAssignmentAssociation Entity and StaffSectionAssociation Entity)*

Auxiliary Staff *(not on campus profile)*: The count of full-time equivalent (FTE) staff reported in PEIMS employment and payroll records who are not reported in the PEIMS StaffEducationOrganizationAssignmentAssociation or StaffSectionAssociation Entities. The auxiliary staff (and educational aide who performs routine classroom tasks under the general supervision of a certified teacher or teaching team) are expressed as a percentage of total staff. For auxiliary staff, the FTE is the value of the percentage of day worked. *(Data source: PEIMS PayrollExt Entity and StaffEducationOrganizationEmploymentAssociation Entity)*

Librarians and Counselors (Headcount): The headcount of librarians and counselors is based on full-time equivalent (FTE) for full-time and part-time headcounts. Librarians and counselors are considered part-time when the FTE count is less than or equal to .85 (For example, if an FTE count is less than or equal to .85, the part-time headcount is equal to 1). Counselor includes PEIMS Staff Classifications 008 and 117. Librarian includes PEIMS Staff Classifications 013.

Librarians and counselors are headcounts, not sums of FTEs. The district headcount is not a sum of the campus headcount. For example, a counselor spends 50 percent of their time at the elementary (0.50 FTE) and 50 percent of their time at the high school (0.50 FTE). On each of the campus reports, this counselor will be reflected as 1.0 part-time counselor. On the district report, the counselor will be reflected as 1.0 full-time counselor since the FTE count is greater than .85 (0.50 FTE plus 0.50 FTE=1.0 FTE). See Appendix B for PEIMS Staff Classifications (Professional Support Staff). *(Data source: PEIMS Staff Entity, StaffEducationOrganizationEmploymentAssociation Entity, StaffEducationOrganizationAssignmentAssociation Entity, and StaffSectionAssociation Entity)*

Total Minority Staff: The total count of minority staff is the sum of the FTE counts for all non-white staff groups (African American, Hispanic, American Indian, Asian, Pacific Islander, and Two or More Races). The minority staff FTE count is expressed as a percentage of the total staff FTE. *(Data source: PEIMS Staff Entity, StaffEducationOrganizationEmploymentAssociation Entity, StaffEducationOrganizationAssignmentAssociation Entity, and StaffSectionAssociation Entity)*

Teachers by Ethnicity and Sex: The counts of teacher FTEs by ethnic group and by sex. Counts are also expressed as a percentage of the total teacher FTEs. *(Data source: PEIMS PEIMS Staff Entity, StaffEducationOrganizationEmploymentAssociation Entity, StaffEducationOrganizationAssignmentAssociation Entity, and StaffSectionAssociation Entity)*

Teachers by Highest Degree Held: The distribution of degrees held by teachers. The FTE counts of teachers with no degree, a bachelor's degree, a master's degree, or a doctorate are expressed as a percentage of the total teacher FTEs. *(Data source: PEIMS Staff Entity, StaffEducationOrganizationEmploymentAssociation Entity, StaffEducationOrganizationAssignmentAssociation Entity, and StaffSectionAssociation Entity)*

Teachers by Years of Experience: The FTE count of teachers by total years of experience for the individual, not necessarily years of experience in the district or campus. Teacher counts within each range of experience are expressed as a percentage of total teacher FTEs. Teachers are reported with zero years of experience (first year teachers), 1–5 years, 6–10 years, 11–20 years, 21–30 years, and over 30 years. *(Data source: PEIMS PEIMS Staff Entity, StaffEducationOrganizationEmploymentAssociation*

Entity, StaffEducationOrganizationAssignmentAssociation Entity, and StaffSectionAssociation Entity)

Number of Students per Teacher: The total number of students divided by the total teacher FTE count. *(Data source: PEIMS Staff Entity, StaffEducationOrganizationEmploymentAssociation Entity, StaffEducationOrganizationAssignmentAssociation Entity, and StaffSectionAssociation Entity)*

Experience of Campus Leadership: The average years of experience for principals and assistant principals.

Average Years as Principal: The number of completed years of experience as a principal, regardless of district or interruption in service. These amounts are added together and divided by the number of all principals reported for the campus.

Average Years as Principal with District: The number of years a principal is employed in the district regardless of any interruption in service. The amounts are added together and divided by the number of principals reported for the district.

Average Years as Assistant Principal: The number of completed years of experience as assistant principal, regardless of district or interruption of service. The amounts are added together and divided by the number of assistant principals reported for the campus.

Average Years as Assistant Principal with District: The number of years employed as assistant principal in the district regardless of any interruption in service. These amounts are added together and divided by the number of assistant principals reported for the district.

(Data source: PEIMS StaffEducationOrganizationEmploymentAssociation Entity)

Average Years Experience of Teachers: The average number of completed years of professional experience, regardless of district. Weighted averages are calculated by multiplying each teacher's FTE coefficient (1 for a full-time teacher, .75 for a three-quarter-time teacher, and .5 for a half-time teacher, for example) by his or her years of experience. These amounts are added together and divided by the sum of all teachers' FTE coefficients. *(Data source: PEIMS PEIMS Staff Entity, StaffEducationOrganizationEmploymentAssociation Entity, StaffEducationOrganizationAssignmentAssociation Entity, and StaffSectionAssociation Entity)*

Average Years Experience of Teachers with District: The average number of years employed in the district regardless of any interruption in service. Weighted averages are calculated by multiplying each teacher's FTE coefficient by his or her years of experience in the district. These amounts are added together and divided by the sum of all teacher's coefficients. *(Data source: PEIMS StaffEducationOrganizationEmploymentAssociation Entity)*

Average Teacher Salary by Years of Experience (regular duties only): Total pay for all teachers in each category divided by the total teacher FTE count in that category. For the purpose of this calculation, the total actual salary amount is pay for regular duties only and does not include supplemental pay. For teachers who also have non-teaching roles, only the portion of time and pay dedicated to classroom responsibilities is factored into the average teacher salary calculation. Teachers are reported with zero years of experience (first year teacher), 1–5 years, 6–10 years, 11–20 years, 21–30 years, and over 30 years. *(Data source: PEIMS PayrollExt Entity)*

2024–25 Texas Academic Performance Report (TAPR) Glossary

Average Actual Salaries (regular duties only): For each category, the total salary for that category divided by the total FTE count for that category. Only payment for regular duties is included in the total salary; supplemental payments for extra duties (e.g., coaching, band and orchestra assignments, club sponsorships) are not included. See Appendix B for lists of the PEIMS staff classifications included in each category.

Teachers. Teachers, special duty teachers, and substitute teachers. Substitute teachers are either temporarily hired to replace a teacher or hired permanently on an as-needed basis. The District Teacher Salary Report and Graph also uses this definition in creating counts for various salary ranges.

Professional Support. Therapists, nurses, librarians, counselors, and other campus professional personnel.

Campus Administration (School Leadership). Principals, assistant principals, and other administrators reported with a specific school ID.

Central Administration (not on campus profile). Superintendents, presidents, chief executive officers, chief administrative officers, business managers, athletic directors, and other administrators reported with a central office ID and not a specific school ID.

Instructional Staff Percent *(district profile only)*: The percentage of the district's FTEs whose job function was to provide classroom instruction directly to students during the 2024–25 school year. The instructional staff percent is a district-level measure and is calculated as follows:

$$\frac{\textbf{total number of hours for district staff who were reported under expenditure object codes 6112, 6119, and 6129, and function codes 11, 12, 13, and 31}}{\textbf{total number of hours worked by all district employees}}$$

Contact the Division of Financial Compliance at (512) 463-9095 for further details about this measure. *(Data source: PEIMS Staff Entity, StaffEducationOrganizationEmploymentAssociation Entity, StaffEducationOrganizationAssignmentAssociation Entity, and StaffSectionAssociation Entity)*

Turnover Rate for Teachers *(not on campus profile)*: The percentage of teachers from the fall of 2023–24 who were not employed in the district in the fall of 2024–25. It is calculated as the total FTE count of teachers from the fall of 2023–24 who were not employed in the district in the fall of 2024–25, divided by the total teacher FTE count for the fall of 2023–24. Teachers include PEIMS Staff Classifications (Role IDs) 087 and 047. Staff who remained employed in the district but not as teachers also count toward teacher turnover. *(Data source: PEIMS 2023-2024 PEIMS 30040 and 30090, 2024-2025 PEIMS Staff Entity StaffEducationOrganizationAssignmentAssociation Entity, and StaffSectionAssociation Entity)*

Staff Exclusions *(not on campus profile):* The counts of individuals who serve public school students but are not included in the FTE totals for any of the other employee statistics. There are two types of these entries: individuals participating in a shared services arrangement and individuals on contract with the district to provide instructional services.

Shared Services Arrangement (SSA) Staff are staff who work in schools located in districts other than their employing district or whose assigned organization (in PEIMS) shows a code of 751, indicating that

they are employed by the fiscal agent of an SSA. Only the portion of a person's total FTE amount associated with the school in another district (or with the 751 organization code) is counted as SSA. SSA staff are grouped into three categories: Professional Staff (which includes teachers, administrators, and professional support); Educational Aides; and Auxiliary Staff. Note that SSA Auxiliary Staff are identified by the type of fund from which they are paid.

Contracted Instructional Staff (District and Campus Profiles) refers to counts of instructors for whom the district has entered into a contractual agreement with some outside organization. Through the contract, the outside organization has committed to supplying instructional staff for the district. They are never employees of the reporting school district. *(Data source: PEIMS ContractedInstructionalStaffFTEExt Entity and PayrollExt Entity)*

Contracted Instructional Staff: The count of individuals who are not regular classroom teachers who have signed a contract with a district, nor are they shared services arrangement employees. Rather, these are instructors for whom the district has entered into a contractual agreement with an outside organization. Through the contract, the outside organization has committed to supplying instructional staff for the district. They include, but are not limited to, speech therapists, occupational therapists, and any other professional contracted staff working in a classroom on a dedicated basis. *(Data source: PEIMS ContractedInstructionalStaffFTEExt Entity)*

Teacher Incentive Allotment (TIA): The headcount of teachers who received incentive allotment per House Bill 3 and TEC Sec. 48.112 and average TIA payout by categories of Recognized, Exemplary and Master for the 2024-25 school year. *(Data source: Division of District Talent Systems)*

Teachers by Program *(population served):* The FTE count of teachers categorized by the type of student populations served: regular, special, compensatory, bilingual/ESL, gifted and talented education students, and other populations. Teacher FTE values are allocated across population types for teachers who serve multiple population types. Percentages are expressed as a percentage of total teacher FTEs. *(Data source: PEIMS Staff Entity, StaffEducationOrganizationEmploymentAssociation Entity, StaffEducationOrganizationAssignmentAssociation Entity, and StaffSectionAssociation Entity)*

Part (i)(III) the indicators used to meaningfully differentiate all public schools in the State:

a. Academic Achievement Indicator: STAAR Performance Status (Percent at Meets Grade Level or Above)
b. Other Academic Indicator for Non-High Schools: STAAR Growth Status
c. Graduation Rate: Federal Graduation Status
d. ELP Indicator: English Learner Language Proficiency Status
e. School Quality or Student Success (SQSS) Indicators: College, Career, and Military Readiness for High Schools and K-12s; Student Achievement Domain Score: STAAR only for All Other Schools without Annual Graduates

Part (i)(IV) the State's system for meaningfully differentiating all public schools in the State, including --
(aa) the specific weight of the indicators in such differentiation

Campus Type	Indicator	Weight
Elementary and Middle Schools	Academic Achievement	30%
	Other Academic Indicator	50%
	English Learner Language Proficiency	10%
	SQSS: Student Achievement Domain Score: STAAR Component Only	10%
High Schools, K-12s, and AEAs	Academic Achievement	50%
	Federal Graduation Status or Academic Growth Status1	10%
	English Learner Language Proficiency	10%
	SQSS: College, Career, and Military Readiness or Student Domain Score: STAAR Component Only2	30%

1 If Federal Graduation Status is not available, Academic Growth Status is used.

2 If College, Career, and Military Readiness is not available, Student Achievement Domain Score: STAAR Component Only is used.

(bb) the methodology by which the State differentiates all such schools. Total points for each component are determined by multiplying the percentage of evaluated indicators met by the corresponding weight and rounding to one decimal place. The Closing the Gaps domain score is the sum of the total points rounded to the nearest whole number and is further used to differentiate all public schools. See the accountability manual for details: Chapter 4-2025 Closing the Gaps Domain

(cc) the methodology by which the State differentiates a school as consistently underperforming for any subgroup of students. Texas uses the Closing the Gaps domain to identify campuses that have consistently under-performing student groups. A student group that misses the targets in at least the same three indicators, for three consecutive years, is considered 'consistently underperforming'. Data from 2023, 2024, and 2025 are considered consecutive years for 2025 Targeted Support and Improvement (TSI) identification. Any campus not identified for Comprehensive Support and Improvement (CSI) that has at least one consistently underperforming student group is identified for TSI. TSI identifies both Title I and non-Title I campuses. Campuses are evaluated annually for TSI identification. See the accountability manual for details: Chapter 10-2025 Identification of Schools for Improvement

(dd) the methodology by which the State identifies a school for comprehensive support and improvement. Texas annually ranks all Title I campuses based on Closing the Gaps scaled scores. First, Texas determines the bottom five percent of Closing the Gaps outcomes by rank ordering the scaled scores of Title I campuses by school type - elementary, middle, high school/K-12, and alternative education accountability. Texas then determines which campuses fell in the bottom five percent for each school type. Title I campuses that rank in their school type's bottom five percent are identified for CSI. Additionally, if any Title I or non-Title I campus does not attain a 66.7 percent six-year federal graduation rate for all students group, the campus is identified for CSI. Any Title I campus identified for Additional Targeted Support (ATS) for three consecutive years will be identified for CSI the following school year.

Part (i)(V) the number and names of all public schools in the State identified by the State for comprehensive support and improvement or implementing targeted support and improvement plans. Campuses Identified for Support under the Every Student Succeeds Act (ESSA) for the 2024-2025 school year: Comprehensive Support and Improvement Schools, Targeted Support and Improvement Schools and Additional Targeted Support Schools.

Part (i)(VI) the exit criteria established by the State, including the length of years established. Campuses that do not rank in their school type's bottom five percent of the Closing the Gaps domain for two consecutive years and have Closing the Gaps domain scaled score by the end of the second year that is higher than when originally identified are considered as having successfully exited. Campuses previously identified as CSI based solely on a graduation rate must have a six-year federal graduation rate of at least 66.7 percent for two consecutive years to exit CSI status. To exit ATS, the Closing the Gaps score for the consistently underperforming student group must surpass the score used in the year of ATS identification to identify the lowest performing five percent of each school type. A campus identified for TSI because of one consistently underperforming subgroup will exit the TSI status if the subgroup becomes not consistently underperforming subgroup. Consistently underperforming is defined as missing the targets in at least the same three indicators for three consecutive years.

Part (ii): Student Achievement by Proficiency Level

This section provides information on student achievement on the STAAR (State of Texas Assessments of Academic Readiness) performance for mathematics, reading/ELA, and science by grade level and proficiency level for the 2024-25 school year. These results include all students tested, regardless of whether they were in the accountability subset. (CWD: children with disability; CWOD: children without disability; EL: English learner)

Part (xv): Section 1003 Fund

This section provides a list of all the LEAs and schools that received funds under Section 1003, including the amount of funds each school received and the types of strategies implemented in each school with such funds for the 2023-24 school year.

Section 1003 Funds for the 2024-25 school year will be updated by the end of June, 2026.

There is no data for this district.

Part (xvi): Count of 1st Year English Learners Excluded from the State Accountability

This section provides number of recently arrived English learners exempted from the ELA/Reading assessments and whose results are excluded from the 2024-25 State accountability.

There is no data for this district.

Part (i): Description of State Accountability System

Part (i)(I) the minimum number of students that the State determines are necessary to be included in each of the subgroups of students for use in the accountability system. The Texas accountability minimum size criteria are 10 assessments or students for the all student group or any subgroup for every indicator.

Part (i)(II) the long-term goals and measurements of interim progress for all students and for each of the subgroups of students.

Part (i)(III) the indicators used to meaningfully differentiate all public schools in the State:

a. Academic Achievement Indicator: STAAR Performance Status (Percent at Meets Grade Level or Above)
b. Other Academic Indicator for Non-High Schools: STAAR Growth Status
c. Graduation Rate: Federal Graduation Status
d. ELP Indicator: English Learner Language Proficiency Status
e. School Quality or Student Success (SQSS) Indicators: College, Career, and Military Readiness for High Schools and K-12s; Student Achievement Domain Score: STAAR only for All Other Schools without Annual Graduates

Part (i)(IV) the State's system for meaningfully differentiating all public schools in the State, including --
(aa) the specific weight of the indicators in such differentiation

Campus Type	Indicator	Weight
Elementary and Middle Schools	Academic Achievement	30%
	Other Academic Indicator	50%
	English Learner Language Proficiency	10%
	SQSS: Student Achievement Domain Score: STAAR Component Only	10%
High Schools, K-12s, and AEAs	Academic Achievement	50%
	Federal Graduation Status or Academic Growth Status1	10%
	English Learner Language Proficiency	10%
	SQSS: College, Career, and Military Readiness or Student Domain Score: STAAR Component Only2	30%

1 If Federal Graduation Status is not available, Academic Growth Status is used.

2 If College, Career, and Military Readiness is not available, Student Achievement Domain Score: STAAR Component Only is used.

(bb) the methodology by which the State differentiates all such schools. Total points for each component are determined by multiplying the percentage of evaluated indicators met by the corresponding weight and rounding to one decimal place. The Closing the Gaps domain score is the sum of the total points rounded to the nearest whole number and is further used to differentiate all public schools. See the accountability manual for details: Chapter 4-2025 Closing the Gaps Domain

(cc) the methodology by which the State differentiates a school as consistently underperforming for any subgroup of students. Texas uses the Closing the Gaps domain to identify campuses that have consistently under-performing student groups. A student group that misses the targets in at least the same three indicators, for three consecutive years, is considered 'consistently underperforming'. Data from 2023, 2024, and 2025 are considered consecutive years for 2025 Targeted Support and Improvement (TSI) identification. Any campus not identified for Comprehensive Support and Improvement (CSI) that has at least one consistently underperforming student group is identified for TSI. TSI identifies both Title I and non-Title I campuses. Campuses are evaluated annually for TSI identification. See the accountability manual for details: Chapter 10-2025 Identification of Schools for Improvement

(dd) the methodology by which the State identifies a school for comprehensive support and improvement. Texas annually ranks all Title I campuses based on Closing the Gaps scaled scores. First, Texas determines the bottom five percent of Closing the Gaps outcomes by rank ordering the scaled scores of Title I campuses by school type - elementary, middle, high school/K-12, and alternative education accountability. Texas then determines which campuses fell in the bottom five percent for each school type. Title I campuses that rank in their school type's bottom five percent are identified for CSI. Additionally, if any Title I or non-Title I campus does not attain a 66.7 percent six-year federal graduation rate for all students group, the campus is identified for CSI. Any Title I campus identified for Additional Targeted Support (ATS) for three consecutive years will be identified for CSI the following school year.

Part (i)(V) the number and names of all public schools in the State identified by the State for comprehensive support and improvement or implementing targeted support and improvement plans. Campuses Identified for Support under the Every Student Succeeds Act (ESSA) for the 2024-2025 school year: Comprehensive Support and Improvement Schools, Targeted Support and Improvement Schools and Additional Targeted Support Schools.

Part (i)(VI) the exit criteria established by the State, including the length of years established. Campuses that do not rank in their school type's bottom five percent of the Closing the Gaps domain for two consecutive years and have Closing the Gaps domain scaled score by the end of the second year that is higher than when originally identified are considered as having successfully exited. Campuses previously identified as CSI based solely on a graduation rate must have a six-year federal graduation rate of at least 66.7 percent for two consecutive years to exit CSI status. To exit ATS, the Closing the Gaps score for the consistently underperforming student group must surpass the score used in the year of ATS identification to identify the lowest performing five percent of each school type. A campus identified for TSI because of one consistently underperforming subgroup will exit the TSI status if the subgroup becomes not consistently underperforming subgroup. Consistently underperforming is defined as missing the targets in at least the same three indicators for three consecutive years.

Part (ii): Student Achievement by Proficiency Level

This section provides information on student achievement on the STAAR (State of Texas Assessments of Academic Readiness) performance for mathematics, reading/ELA, and science by grade level and proficiency level for the 2024-25 school year. These results include all students tested, regardless of whether they were in the accountability subset. (CWD: children with disability; CWOD: children without disability; EL: English learner)

Part (i)(III) the indicators used to meaningfully differentiate all public schools in the State:

a. Academic Achievement Indicator: STAAR Performance Status (Percent at Meets Grade Level or Above)
b. Other Academic Indicator for Non-High Schools: STAAR Growth Status
c. Graduation Rate: Federal Graduation Status
d. ELP Indicator: English Learner Language Proficiency Status
e. School Quality or Student Success (SQSS) Indicators: College, Career, and Military Readiness for High Schools and K-12s; Student Achievement Domain Score: STAAR only for All Other Schools without Annual Graduates

Part (i)(IV) the State's system for meaningfully differentiating all public schools in the State, including --
(aa) the specific weight of the indicators in such differentiation

Campus Type	Indicator	Weight
Elementary and Middle Schools	Academic Achievement	30%
	Other Academic Indicator	50%
	English Learner Language Proficiency	10%
	SQSS: Student Achievement Domain Score: STAAR Component Only	10%
High Schools, K-12s, and AEAs	Academic Achievement	50%
	Federal Graduation Status or Academic Growth Status1	10%
	English Learner Language Proficiency	10%
	SQSS: College, Career, and Military Readiness or Student Domain Score: STAAR Component Only2	30%

1 If Federal Graduation Status is not available, Academic Growth Status is used.

2 If College, Career, and Military Readiness is not available, Student Achievement Domain Score: STAAR Component Only is used.

(bb) the methodology by which the State differentiates all such schools. Total points for each component are determined by multiplying the percentage of evaluated indicators met by the corresponding weight and rounding to one decimal place. The Closing the Gaps domain score is the sum of the total points rounded to the nearest whole number and is further used to differentiate all public schools. See the accountability manual for details: Chapter 4-2025 Closing the Gaps Domain

(cc) the methodology by which the State differentiates a school as consistently underperforming for any subgroup of students. Texas uses the Closing the Gaps domain to identify campuses that have consistently under-performing student groups. A student group that misses the targets in at least the same three indicators, for three consecutive years, is considered 'consistently underperforming'. Data from 2023, 2024, and 2025 are considered consecutive years for 2025 Targeted Support and Improvement (TSI) identification. Any campus not identified for Comprehensive Support and Improvement (CSI) that has at least one consistently underperforming student group is identified for TSI. TSI identifies both Title I and non-Title I campuses. Campuses are evaluated annually for TSI identification. See the accountability manual for details: Chapter 10-2025 Identification of Schools for Improvement

(dd) the methodology by which the State identifies a school for comprehensive support and improvement. Texas annually ranks all Title I campuses based on Closing the Gaps scaled scores. First, Texas determines the bottom five percent of Closing the Gaps outcomes by rank ordering the scaled scores of Title I campuses by school type - elementary, middle, high school/K-12, and alternative education accountability. Texas then determines which campuses fell in the bottom five percent for each school type. Title I campuses that rank in their school type's bottom five percent are identified for CSI. Additionally, if any Title I or non-Title I campus does not attain a 66.7 percent six-year federal graduation rate for all students group, the campus is identified for CSI. Any Title I campus identified for Additional Targeted Support (ATS) for three consecutive years will be identified for CSI the following school year.

Part (i)(V) the number and names of all public schools in the State identified by the State for comprehensive support and improvement or implementing targeted support and improvement plans. Campuses Identified for Support under the Every Student Succeeds Act (ESSA) for the 2024-2025 school year: Comprehensive Support and Improvement Schools, Targeted Support and Improvement Schools and Additional Targeted Support Schools.

Part (i)(VI) the exit criteria established by the State, including the length of years established. Campuses that do not rank in their school type's bottom five percent of the Closing the Gaps domain for two consecutive years and have Closing the Gaps domain scaled score by the end of the second year that is higher than when originally identified are considered as having successfully exited. Campuses previously identified as CSI based solely on a graduation rate must have a six-year federal graduation rate of at least 66.7 percent for two consecutive years to exit CSI status. To exit ATS, the Closing the Gaps score for the consistently underperforming student group must surpass the score used in the year of ATS identification to identify the lowest performing five percent of each school type. A campus identified for TSI because of one consistently underperforming subgroup will exit the TSI status if the subgroup becomes not consistently underperforming subgroup. Consistently underperforming is defined as missing the targets in at least the same three indicators for three consecutive years.

Part (ii): Student Achievement by Proficiency Level

This section provides information on student achievement on the STAAR (State of Texas Assessments of Academic Readiness) performance for mathematics, reading/ELA, and science by grade level and proficiency level for the 2024-25 school year. These results include all students tested, regardless of whether they were in the accountability subset. (CWD: children with disability; CWOD: children without disability; EL: English learner)

Part (i)(III) the indicators used to meaningfully differentiate all public schools in the State:

a. Academic Achievement Indicator: STAAR Performance Status (Percent at Meets Grade Level or Above)
b. Other Academic Indicator for Non-High Schools: STAAR Growth Status
c. Graduation Rate: Federal Graduation Status
d. ELP Indicator: English Learner Language Proficiency Status
e. School Quality or Student Success (SQSS) Indicators: College, Career, and Military Readiness for High Schools and K-12s; Student Achievement Domain Score: STAAR only for All Other Schools without Annual Graduates

Part (i)(IV) the State's system for meaningfully differentiating all public schools in the State, including --
(aa) the specific weight of the indicators in such differentiation

Campus Type	Indicator	Weight
Elementary and Middle Schools	Academic Achievement	30%
	Other Academic Indicator	50%
	English Learner Language Proficiency	10%
	SQSS: Student Achievement Domain Score: STAAR Component Only	10%
High Schools, K-12s, and AEAs	Academic Achievement	50%
	Federal Graduation Status or Academic Growth Status1	10%
	English Learner Language Proficiency	10%
	SQSS: College, Career, and Military Readiness or Student Domain Score: STAAR Component Only2	30%

1 If Federal Graduation Status is not available, Academic Growth Status is used.

2 If College, Career, and Military Readiness is not available, Student Achievement Domain Score: STAAR Component Only is used.

(bb) the methodology by which the State differentiates all such schools. Total points for each component are determined by multiplying the percentage of evaluated indicators met by the corresponding weight and rounding to one decimal place. The Closing the Gaps domain score is the sum of the total points rounded to the nearest whole number and is further used to differentiate all public schools. See the accountability manual for details: Chapter 4-2025 Closing the Gaps Domain

(cc) the methodology by which the State differentiates a school as consistently underperforming for any subgroup of students. Texas uses the Closing the Gaps domain to identify campuses that have consistently under-performing student groups. A student group that misses the targets in at least the same three indicators, for three consecutive years, is considered 'consistently underperforming'. Data from 2023, 2024, and 2025 are considered consecutive years for 2025 Targeted Support and Improvement (TSI) identification. Any campus not identified for Comprehensive Support and Improvement (CSI) that has at least one consistently underperforming student group is identified for TSI. TSI identifies both Title I and non-Title I campuses. Campuses are evaluated annually for TSI identification. See the accountability manual for details: Chapter 10-2025 Identification of Schools for Improvement

(dd) the methodology by which the State identifies a school for comprehensive support and improvement. Texas annually ranks all Title I campuses based on Closing the Gaps scaled scores. First, Texas determines the bottom five percent of Closing the Gaps outcomes by rank ordering the scaled scores of Title I campuses by school type - elementary, middle, high school/K-12, and alternative education accountability. Texas then determines which campuses fell in the bottom five percent for each school type. Title I campuses that rank in their school type's bottom five percent are identified for CSI. Additionally, if any Title I or non-Title I campus does not attain a 66.7 percent six-year federal graduation rate for all students group, the campus is identified for CSI. Any Title I campus identified for Additional Targeted Support (ATS) for three consecutive years will be identified for CSI the following school year.

Part (i)(V) the number and names of all public schools in the State identified by the State for comprehensive support and improvement or implementing targeted support and improvement plans. Campuses Identified for Support under the Every Student Succeeds Act (ESSA) for the 2024-2025 school year: Comprehensive Support and Improvement Schools, Targeted Support and Improvement Schools and Additional Targeted Support Schools.

Part (i)(VI) the exit criteria established by the State, including the length of years established. Campuses that do not rank in their school type's bottom five percent of the Closing the Gaps domain for two consecutive years and have Closing the Gaps domain scaled score by the end of the second year that is higher than when originally identified are considered as having successfully exited. Campuses previously identified as CSI based solely on a graduation rate must have a six-year federal graduation rate of at least 66.7 percent for two consecutive years to exit CSI status. To exit ATS, the Closing the Gaps score for the consistently underperforming student group must surpass the score used in the year of ATS identification to identify the lowest performing five percent of each school type. A campus identified for TSI because of one consistently underperforming subgroup will exit the TSI status if the subgroup becomes not consistently underperforming subgroup. Consistently underperforming is defined as missing the targets in at least the same three indicators for three consecutive years.

Part (ii): Student Achievement by Proficiency Level

This section provides information on student achievement on the STAAR (State of Texas Assessments of Academic Readiness) performance for mathematics, reading/ELA, and science by grade level and proficiency level for the 2024-25 school year. These results include all students tested, regardless of whether they were in the accountability subset. (CWD: children with disability; CWOD: children without disability; EL: English learner)

Part (i)(III) the indicators used to meaningfully differentiate all public schools in the State:

a. Academic Achievement Indicator: STAAR Performance Status (Percent at Meets Grade Level or Above)
b. Other Academic Indicator for Non-High Schools: STAAR Growth Status
c. Graduation Rate: Federal Graduation Status
d. ELP Indicator: English Learner Language Proficiency Status
e. School Quality or Student Success (SQSS) Indicators: College, Career, and Military Readiness for High Schools and K-12s; Student Achievement Domain Score: STAAR only for All Other Schools without Annual Graduates

Part (i)(IV) the State's system for meaningfully differentiating all public schools in the State, including --
(aa) the specific weight of the indicators in such differentiation

Campus Type	Indicator	Weight
Elementary and Middle Schools	Academic Achievement	30%
	Other Academic Indicator	50%
	English Learner Language Proficiency	10%
	SQSS: Student Achievement Domain Score: STAAR Component Only	10%
High Schools, K-12s, and AEAs	Academic Achievement	50%
	Federal Graduation Status or Academic Growth Status1	10%
	English Learner Language Proficiency	10%
	SQSS: College, Career, and Military Readiness or Student Domain Score: STAAR Component Only2	30%

1 If Federal Graduation Status is not available, Academic Growth Status is used.

2 If College, Career, and Military Readiness is not available, Student Achievement Domain Score: STAAR Component Only is used.

(bb) the methodology by which the State differentiates all such schools. Total points for each component are determined by multiplying the percentage of evaluated indicators met by the corresponding weight and rounding to one decimal place. The Closing the Gaps domain score is the sum of the total points rounded to the nearest whole number and is further used to differentiate all public schools. See the accountability manual for details: Chapter 4-2025 Closing the Gaps Domain

(cc) the methodology by which the State differentiates a school as consistently underperforming for any subgroup of students. Texas uses the Closing the Gaps domain to identify campuses that have consistently under-performing student groups. A student group that misses the targets in at least the same three indicators, for three consecutive years, is considered 'consistently underperforming'. Data from 2023, 2024, and 2025 are considered consecutive years for 2025 Targeted Support and Improvement (TSI) identification. Any campus not identified for Comprehensive Support and Improvement (CSI) that has at least one consistently underperforming student group is identified for TSI. TSI identifies both Title I and non-Title I campuses. Campuses are evaluated annually for TSI identification. See the accountability manual for details: Chapter 10-2025 Identification of Schools for Improvement

(dd) the methodology by which the State identifies a school for comprehensive support and improvement. Texas annually ranks all Title I campuses based on Closing the Gaps scaled scores. First, Texas determines the bottom five percent of Closing the Gaps outcomes by rank ordering the scaled scores of Title I campuses by school type - elementary, middle, high school/K-12, and alternative education accountability. Texas then determines which campuses fell in the bottom five percent for each school type. Title I campuses that rank in their school type's bottom five percent are identified for CSI. Additionally, if any Title I or non-Title I campus does not attain a 66.7 percent six-year federal graduation rate for all students group, the campus is identified for CSI. Any Title I campus identified for Additional Targeted Support (ATS) for three consecutive years will be identified for CSI the following school year.

Part (i)(V) the number and names of all public schools in the State identified by the State for comprehensive support and improvement or implementing targeted support and improvement plans. Campuses Identified for Support under the Every Student Succeeds Act (ESSA) for the 2024-2025 school year: Comprehensive Support and Improvement Schools, Targeted Support and Improvement Schools and Additional Targeted Support Schools.

Part (i)(VI) the exit criteria established by the State, including the length of years established. Campuses that do not rank in their school type's bottom five percent of the Closing the Gaps domain for two consecutive years and have Closing the Gaps domain scaled score by the end of the second year that is higher than when originally identified are considered as having successfully exited. Campuses previously identified as CSI based solely on a graduation rate must have a six-year federal graduation rate of at least 66.7 percent for two consecutive years to exit CSI status. To exit ATS, the Closing the Gaps score for the consistently underperforming student group must surpass the score used in the year of ATS identification to identify the lowest performing five percent of each school type. A campus identified for TSI because of one consistently underperforming subgroup will exit the TSI status if the subgroup becomes not consistently underperforming subgroup. Consistently underperforming is defined as missing the targets in at least the same three indicators for three consecutive years.

Part (ii): Student Achievement by Proficiency Level

This section provides information on student achievement on the STAAR (State of Texas Assessments of Academic Readiness) performance for mathematics, reading/ELA, and science by grade level and proficiency level for the 2024-25 school year. These results include all students tested, regardless of whether they were in the accountability subset. (CWD: children with disability; CWOD: children without disability; EL: English learner)

Part (i)(III) the indicators used to meaningfully differentiate all public schools in the State:

a. Academic Achievement Indicator: STAAR Performance Status (Percent at Meets Grade Level or Above)
b. Other Academic Indicator for Non-High Schools: STAAR Growth Status
c. Graduation Rate: Federal Graduation Status
d. ELP Indicator: English Learner Language Proficiency Status
e. School Quality or Student Success (SQSS) Indicators: College, Career, and Military Readiness for High Schools and K-12s; Student Achievement Domain Score: STAAR only for All Other Schools without Annual Graduates

Part (i)(IV) the State's system for meaningfully differentiating all public schools in the State, including --
(aa) the specific weight of the indicators in such differentiation

Campus Type	Indicator	Weight
Elementary and Middle Schools	Academic Achievement	30%
	Other Academic Indicator	50%
	English Learner Language Proficiency	10%
	SQSS: Student Achievement Domain Score: STAAR Component Only	10%
High Schools, K-12s, and AEAs	Academic Achievement	50%
	Federal Graduation Status or Academic Growth Status1	10%
	English Learner Language Proficiency	10%
	SQSS: College, Career, and Military Readiness or Student Domain Score: STAAR Component Only2	30%

1 If Federal Graduation Status is not available, Academic Growth Status is used.

2 If College, Career, and Military Readiness is not available, Student Achievement Domain Score: STAAR Component Only is used.

(bb) the methodology by which the State differentiates all such schools. Total points for each component are determined by multiplying the percentage of evaluated indicators met by the corresponding weight and rounding to one decimal place. The Closing the Gaps domain score is the sum of the total points rounded to the nearest whole number and is further used to differentiate all public schools. See the accountability manual for details: Chapter 4-2025 Closing the Gaps Domain

(cc) the methodology by which the State differentiates a school as consistently underperforming for any subgroup of students. Texas uses the Closing the Gaps domain to identify campuses that have consistently under-performing student groups. A student group that misses the targets in at least the same three indicators, for three consecutive years, is considered 'consistently underperforming'. Data from 2023, 2024, and 2025 are considered consecutive years for 2025 Targeted Support and Improvement (TSI) identification. Any campus not identified for Comprehensive Support and Improvement (CSI) that has at least one consistently underperforming student group is identified for TSI. TSI identifies both Title I and non-Title I campuses. Campuses are evaluated annually for TSI identification. See the accountability manual for details: Chapter 10-2025 Identification of Schools for Improvement

(dd) the methodology by which the State identifies a school for comprehensive support and improvement. Texas annually ranks all Title I campuses based on Closing the Gaps scaled scores. First, Texas determines the bottom five percent of Closing the Gaps outcomes by rank ordering the scaled scores of Title I campuses by school type - elementary, middle, high school/K-12, and alternative education accountability. Texas then determines which campuses fell in the bottom five percent for each school type. Title I campuses that rank in their school type's bottom five percent are identified for CSI. Additionally, if any Title I or non-Title I campus does not attain a 66.7 percent six-year federal graduation rate for all students group, the campus is identified for CSI. Any Title I campus identified for Additional Targeted Support (ATS) for three consecutive years will be identified for CSI the following school year.

Part (i)(V) the number and names of all public schools in the State identified by the State for comprehensive support and improvement or implementing targeted support and improvement plans. Campuses Identified for Support under the Every Student Succeeds Act (ESSA) for the 2024-2025 school year: Comprehensive Support and Improvement Schools, Targeted Support and Improvement Schools and Additional Targeted Support Schools.

Part (i)(VI) the exit criteria established by the State, including the length of years established. Campuses that do not rank in their school type's bottom five percent of the Closing the Gaps domain for two consecutive years and have Closing the Gaps domain scaled score by the end of the second year that is higher than when originally identified are considered as having successfully exited. Campuses previously identified as CSI based solely on a graduation rate must have a six-year federal graduation rate of at least 66.7 percent for two consecutive years to exit CSI status. To exit ATS, the Closing the Gaps score for the consistently underperforming student group must surpass the score used in the year of ATS identification to identify the lowest performing five percent of each school type. A campus identified for TSI because of one consistently underperforming subgroup will exit the TSI status if the subgroup becomes not consistently underperforming subgroup. Consistently underperforming is defined as missing the targets in at least the same three indicators for three consecutive years.

Part (i): Description of State Accountability System

Part (i)(I) the minimum number of students that the State determines are necessary to be included in each of the subgroups of students for use in the accountability system. The Texas accountability minimum size criteria are 10 assessments or students for the all student group or any subgroup for every indicator.

Part (i)(II) the long-term goals and measurements of interim progress for all students and for each of the subgroups of students.

Part (i)(III) the indicators used to meaningfully differentiate all public schools in the State:

a. Academic Achievement Indicator: STAAR Performance Status (Percent at Meets Grade Level or Above)
b. Other Academic Indicator for Non-High Schools: STAAR Growth Status
c. Graduation Rate: Federal Graduation Status
d. ELP Indicator: English Learner Language Proficiency Status
e. School Quality or Student Success (SQSS) Indicators: College, Career, and Military Readiness for High Schools and K-12s; Student Achievement Domain Score: STAAR only for All Other Schools without Annual Graduates

Part (i)(IV) the State's system for meaningfully differentiating all public schools in the State, including --
(aa) the specific weight of the indicators in such differentiation

Campus Type	Indicator	Weight
Elementary and Middle Schools	Academic Achievement	30%
	Other Academic Indicator	50%
	English Learner Language Proficiency	10%
	SQSS: Student Achievement Domain Score: STAAR Component Only	10%
High Schools, K-12s, and AEAs	Academic Achievement	50%
	Federal Graduation Status or Academic Growth Status1	10%
	English Learner Language Proficiency	10%
	SQSS: College, Career, and Military Readiness or Student Domain Score: STAAR Component Only2	30%

1 If Federal Graduation Status is not available, Academic Growth Status is used.

2 If College, Career, and Military Readiness is not available, Student Achievement Domain Score: STAAR Component Only is used.

(bb) the methodology by which the State differentiates all such schools. Total points for each component are determined by multiplying the percentage of evaluated indicators met by the corresponding weight and rounding to one decimal place. The Closing the Gaps domain score is the sum of the total points rounded to the nearest whole number and is further used to differentiate all public schools. See the accountability manual for details: Chapter 4-2025 Closing the Gaps Domain

(cc) the methodology by which the State differentiates a school as consistently underperforming for any subgroup of students. Texas uses the Closing the Gaps domain to identify campuses that have consistently under-performing student groups. A student group that misses the targets in at least the same three indicators, for three consecutive years, is considered 'consistently underperforming'. Data from 2023, 2024, and 2025 are considered consecutive years for 2025 Targeted Support and Improvement (TSI) identification. Any campus not identified for Comprehensive Support and Improvement (CSI) that has at least one consistently underperforming student group is identified for TSI. TSI identifies both Title I and non-Title I campuses. Campuses are evaluated annually for TSI identification. See the accountability manual for details: Chapter 10-2025 Identification of Schools for Improvement

(dd) the methodology by which the State identifies a school for comprehensive support and improvement. Texas annually ranks all Title I campuses based on Closing the Gaps scaled scores. First, Texas determines the bottom five percent of Closing the Gaps outcomes by rank ordering the scaled scores of Title I campuses by school type - elementary, middle, high school/K-12, and alternative education accountability. Texas then determines which campuses fell in the bottom five percent for each school type. Title I campuses that rank in their school type's bottom five percent are identified for CSI. Additionally, if any Title I or non-Title I campus does not attain a 66.7 percent six-year federal graduation rate for all students group, the campus is identified for CSI. Any Title I campus identified for Additional Targeted Support (ATS) for three consecutive years will be identified for CSI the following school year.

Part (i)(V) the number and names of all public schools in the State identified by the State for comprehensive support and improvement or implementing targeted support and improvement plans. Campuses Identified for Support under the Every Student Succeeds Act (ESSA) for the 2024-2025 school year: Comprehensive Support and Improvement Schools, Targeted Support and Improvement Schools and Additional Targeted Support Schools.

Part (i)(VI) the exit criteria established by the State, including the length of years established. Campuses that do not rank in their school type's bottom five percent of the Closing the Gaps domain for two consecutive years and have Closing the Gaps domain scaled score by the end of the second year that is higher than when originally identified are considered as having successfully exited. Campuses previously identified as CSI based solely on a graduation rate must have a six-year federal graduation rate of at least 66.7 percent for two consecutive years to exit CSI status. To exit ATS, the Closing the Gaps score for the consistently underperforming student group must surpass the score used in the year of ATS identification to identify the lowest performing five percent of each school type. A campus identified for TSI because of one consistently underperforming subgroup will exit the TSI status if the subgroup becomes not consistently underperforming subgroup. Consistently underperforming is defined as missing the targets in at least the same three indicators for three consecutive years.

Part (ii): Student Achievement by Proficiency Level

This section provides information on student achievement on the STAAR (State of Texas Assessments of Academic Readiness) performance for mathematics, reading/ELA, and science by grade level and proficiency level for the 2024-25 school year. Make your voice heard and help develop TASB's legislative priorities. Registration is open.

TASB's grassroots process begins the formation of its Advocacy Agenda Priorities, which will guide the Association's work during the 90th Legislative Session. During this grassroots meeting, trustees will determine the legislative issues of greatest importance to their region. Those regional priorities are then developed into statewide priorities by the TASB Legislative Advisory Council (LAC) and later considered and adopted by TASB's Delegate Assembly.

During this meeting, trustees will elect their regional representatives to the LAC, which will meet twice in 2026 to review all regional priorities and make recommendations to the TASB Board for adoption by the Delegate Assembly.

There will be an opportunity to observe the meeting virtually, but trustees are strongly encouraged to attend their region's grassroots meeting in person and must be physically present to be elected to the LAC and **for their school district** to be eligible for a special drawing for a $1,000 student scholarship. Thank you to our sponsors: the TASB Risk Management Fund, BuyBoard, and the TASB Energy Cooperative.

Due to new rules adopted by the Texas State Board of Education, TASB cannot provide continuing education credit for sessions that may involve political advocacy.

This meeting is free to attend, is open to trustees and superintendents, and includes dinner at no cost.

Contact TASB Governmental Relations with any questions regarding this meeting or the TASB Advocacy Agenda process at tasbgr@tasb.org or 800-580-4885.

Campus Capacity & Utilization Methodology

- **Raw Building Capacity** includes all classrooms (science labs, fine arts, computer labs, and similar spaces).
  (TASB facilities planning methodology)

- **Functional Capacity** applies planning multipliers to reflect operational and scheduling realities, accounts for flexibility in program demand, fluctuations in enrollment and building schedules:

  - Elementary: **Raw Capacity × 0.90**

  - Secondary: **Raw Capacity × 0.80**
    (TASB Facilities Services – long-range facilities planning methodology)

- Functional capacity intentionally builds in **10–20% operational headroom** to maintain instructional flexibility.
  (TASB planning norms)

- **Utilization** is calculated as **Enrollment ÷ Capacity**.
  (TEA utilization metric)

- TASB visualizations reference utilization ranges (< **60%** underutilized, **85%+** high utilization); however, **no single ideal percentage is prescribed**.
  (TASB Facilities Services – email correspondence, January 20, 2026)

- Appropriate utilization targets vary by district demographics:

  - **Stable enrollment: 70–75%**

  - **Rapid or unpredictable growth: 50–55%**
    (TASB Facilities Services – email correspondence, January 20, 2026)

- ***Why It Matters***
  - *Assessment = Facts*
  - *Supports responsible spending, transparency, and safe learning environments*

FACILITY ASSESSMENT

- ***Long Range Facility Plan***
  - *Uses Assessment data and enrollment trends*
  - *Sets a 5–10-year strategy for renovations, new construction and funding*
  - *Aligns facilities with educational goals*
  - *TEA Requirement (19 TAC §61.1040) for capital improvement projects (construction, major renovation, etc.)*
- ***Why It Matters***
  - *Long-range plan = Roadmap*
  - *Supports responsible spending, transparency, and safe learning environments*

- ***Cost for Both Services***
  - *$121k for both services, payments broken down over three (3) years ($40,333 per year)*
  - *Approximately 4-6 months to complete facility assessments*
  - *Approximately 3-6 months to complete the long-range planning*

LONG-RANGE FACILITY PLAN

Difference between a TRE/VATRE and a Bond

TRE (Tax Ratification Election)

A TRE is a vote that lets a school district raise its tax rate to get more money every year.

That extra money usually pays for day-to-day needs, like:

- Teacher salaries
- Staff positions
- Programs for students
- Operating expenses
- Under M&O tax rate (can't use for I&S items)

Think of a TRE like asking voters:

"Can we increase our monthly income to run the school better?"

Bond

A Bond is a vote that lets a school district borrow a large amount of money one time, which is then paid back over many years.

Bond money is used for big projects, such as:

- Building new schools
- Renovating classrooms
- Buying buses or technology
- Major facility upgrades
- Under I&S tax rate (can't use for M&O items)

Think of a Bond like asking voters:

"Can we take out a long-term loan to build or improve schools?"

*TRE Implementation Timeline

- 7/4/25 – The Board must select an Auditor to conduct the efficiency audit
- 8/18/25 – The Board must adopt the tax rate and call the election
- 10/4/25 - The efficiency audit must be completed and posted to the district website
  - The results must be discussed in a public meeting before the election
- 11/4/25 – Election Day

**Presented at the Board meeting on September 16, 2025*

MEMORANDUM

To: Members of the Board of Trustees
From: Gina Ramirez, Executive Director of Human Resources
Subject: 2025-2026 Athletic Stipend Information
Date: February 11, 2026

HISTORY: Compensation plans are reviewed yearly to support fair compensation for the SEISD employees. The compensation plan includes employee pay and stipends. The board of trustees provides guidance on revisions to the compensation plan and ultimately approves the final compensation plan each year.

RATIONALE: A review of SEISD athletic stipends enables the SEISD board of trustees to assess the financial impact of each athletic program on stipends for coaching positions.

Region 19 districts were used to identify the district with student enrollment closest to SEISD's. SEISD is uniquely distinct from the larger and smaller Region 19 district groups. For purposes of the athletic stipend data, the district with the closest student enrollment and campus numbers, Canutillo ISD, was selected.

The total district athletic stipend was calculated for both the middle and high schools. Additionally, a one-to-one comparison of each position and its related stipend was conducted to provide information on stipend levels between SEISD and Canutillo ISD.

The review found that, on a one-to-one basis, SEISD athletic stipends total $120,975.00 more than those of Canutillo ISD.

Sports that showed at least $1,000 more than the CISD stipends in SEISD were: Middle School (MS) Volleyball, MS Golf, MS Wrestling, MS Baseball, MS Softball, and High School (HS) Football, Cross Country, Soccer, Track, Tennis, Wrestling, and Golf.

BUDGET IMPACT: None.

ADMINISTRATIVE RECOMMENDATION: The presentation is for informational purposes only.

The tables provide an overview of the 7th and 8th grade RLA units of instruction from the 2024–2025 school year compared to 2025–2026. Based on teacher feedback, Unit 6 was removed, Unit 01 was added, and units were strategically reordered to ensure instruction aligns to key points in the academic year. As a result of these instructional shifts, the 4- and 8-week assessments were also adjusted, which is reflected in the table through slight changes in assessment design and content sources.
