**EXECUTIVE SUMMARY:**

Our school district recognizes that successful public education is a community-wide effort. Over time, we have been working to improve stakeholder engagement in our school system. At this work session, we will engage in partner exercises to deepen our understanding of current efforts and accomplishments to date. We will interact with representatives from the district's Equity Coalition to learn about one of the district's fundamental structures for engagement and policy decision-making with diverse stakeholders. We will then use our shared understanding of current efforts to preview upcoming priorities. Participants will collaborate to identify celebrations, strengths, opportunities, and suggestions for these priorities and next steps to further our engagement with stakeholders across the community.

Note: As a component of one exercise, each participant should be prepared to share a response to the following prompt: *Describe a personal experience you recall of a family or community member engaging in your education in a meaningful way.*
