MEMORANDUM

TO: Board of Education Members

FROM: Christopher Leone, Chief Operating Officer /Director of Magnet Schools

DATE: October 16, 2012

SUBJECT: **Title I Grant Funding 2012-2013**

This memo is to inform the Board of Education that there has been a reduction in Title I grant funding for the 2012-2013 school year. The anticipated funding award has been lowered from \$415,148 to \$371,591 which is a reduction of \$43,557. This reduction will limit the districts goal of hiring a full-time Parent Community Engagement Director. However, Metacomet and Bloomfield High School have piloted the position of School Community Liaison to increase parent engagement.

Per the United States Department of Education, and for background knowledge, the following serves as an explanation on Title I funding:

Title I, Part A (Title I) of the Elementary and Secondary Education Act, as amended (ESEA) provides financial assistance to local educational agencies (LEAs) and schools with high numbers or high percentages of children from low-income families to help ensure that all children meet challenging state academic standards. Federal funds are currently allocated through four statutory formulas that are based primarily on census poverty estimates and the cost of education in each state.

1. *Basic Grants provide funds to LEAs in which the number of children counted in the formula is at least 10 and exceeds 2 percent of an LEA's school-age population.*
2. *Concentration Grants flow to LEAs where the number of formula children exceeds 6,500 or 15 percent of the total school-age population.*
3. *Targeted Grants are based on the same data used for Basic and Concentration Grants except that the data are weighted so that LEAs with higher numbers or higher percentages of children from low-income families receive more funds. Targeted Grants flow to LEAs where the number of schoolchildren counted in the formula (without application of the formula weights) is at least 10 and at least 5 percent of the LEA's school-age population.*
4. *Education Finance Incentive Grants (EFIG) distribute funds to states based on factors that measure:*
 - o *a state's effort to provide financial support for education compared to its relative wealth as measured by its per capita income; and*
 - o *the degree to which education expenditures among LEAs within the state are equalized.*

Once a state's EFIG allocation is determined, funds are allocated (using a weighted count formula that is similar to Targeted Grants) to LEAs in which the number of children from low-income families

is at least 10 and at least 5 percent of the LEA's school-age population. LEAs target the Title I funds they receive to schools with the highest percentages of children from low-income families. Unless a participating school is operating a schoolwide program, the school must focus Title I services on children who are failing, or most at risk of failing, to meet state academic standards. Schools in which children from low-income families make up at least 40 percent of enrollment are eligible to use Title I funds for schoolwide programs that serve all children in the school. LEAs also must use Title I funds to provide academic enrichment services to eligible children enrolled in private schools. (Source: <http://www2.ed.gov/programs/titleiparta/index.html>)

Climate and Satisfaction Survey Results

Dr. James Thompson, Superintendent

Dr. Ellen J. Stoltz, Chief Academic Officer

Dr. Bethany Silver, Director of Assessment, Evaluation and Research

October 16, 2012

Today I will share with you...

- Results of the 2011-12 Annual Climate and Satisfaction Survey
- Background:
 - Survey Specifics:
 - Why
 - When administered
 - What the survey measures
 - How to interpret the report and results
 - Next steps to connect results with actions to improve climate and satisfaction at our schools

Why the Survey was Administered

The Climate and Satisfaction Survey invited all staff and families, as well as students in grades 5 through 12 to respond to an online questionnaire about their schools:

- In alignment with Priority 3 on the District Accountability Plan.
- To help us understand what members of our school community think about the learning environment at our schools.
- To initiate data-based conversations among all members of the school community to transform current practices on behalf of our students.

When the Survey Took Place

The 2011-12 Annual Climate and Satisfaction Survey
was administered between
March 26 and May 31, 2012.

What the Survey Measured

Responses from three distinct groups of people:

- Students in grades 5-12 enrolled in Bloomfield Schools
- Families
- Teachers and staff

Responses to similar questions in alignment with the District Accountability Plan:

- Curriculum, Instruction and Assessment
- Positive School Climate
- Parent and Community Engagement

How the Report is Organized

District Results ...six page summary of all responses to the survey, representing all schools

School-by-School Results... summarizes responses associated with each school

Three distinct sections of each report:

1. Introduction
2. Descriptive information about the various respondent groups (number, percent)
3. Item-level response information for each form of the survey, for that school color-coded
Students, where appropriate (Blue); Parents (Green); Staff (Coral)

How to Interpret the Report

The response summary begins with Student responses for students enrolled in grades 5 - 12.

These are **blue**, divided into groups of questions according to specific topics. Questions appear in the same order on the report as the survey.

After the question text, 4 components for each item include:

1. The number of respondents
2. The expected number of respondents
3. The percentage of respondents who actually answered the question, of the whole pool of expected respondents.
4. The percent of respondents who agreed or strongly agreed with the statement.

Results

The number and percent of respondents who completed the survey.

- Families:
51.7% agreed that “In this school, getting good grades makes students popular.”
- Staff:
32.2% agreed that “In this school, getting good grades makes students popular.”

NEXT STEPS

1. Principals will share the results of the survey with staff, students, and families;
2. Results will be used to support conversations with all members of the school community;
3. Effective participation practices will be replicated;
4. Sub-committees of the District Data Team will meet to review the data and plan appropriate responses;
5. In alignment with the District Climate Policy, the District Climate Steering Committee will meet to plan positive Climate events for schools and community as directed by the data from this annual survey.

Our experience with this annual survey will lead to better communication about our strengths, concerns, and collective responsibility to improve public education. In accordance with the Bloomfield District Accountability Plan we will continue to collect data to monitor our progress. The data will inform our actions toward continuous improvement.

2011-2012 EPS Family Survey

1. Family Survey

Welcome to the annual district-wide School Climate and Satisfaction Survey for Bloomfield Public Schools' families!

Your thoughtful responses will help us improve our schools.

Dr. Thompson has asked that all families participate in this survey. Please complete one survey for each school your children attend.

If you have a concern about which school you would like to receive a personal response, there is a place to provide your name, contact information, and concern at the end of the survey.

Thank you for sharing your ideas with us.

2010-2011 EPS Staff Survey

1. Staff Survey

Welcome to the second annual district-wide School Climate and Satisfaction Survey for Bloomfield Public Schools' staff members!

We ask Bloomfield Staff members to complete this online survey about their experiences at their school.

Families and Students in grades 5-12 will complete a similar survey.

We are interested in your opinions about your school, as these will help us improve the educational experiences for all of our children.

We ask our staff to please respond only once to this anonymous survey for each school where you work.

Dr. Thompson has asked that 100% of our staff members participate. At the conclusion of the survey, a summary report will be prepared and shared with each school. It is noted that half of the staff members respond the results will be summarized in the district summary, but no report will be prepared for the school.

If you have a concern about which school you would like to receive a personal response, please provide your name and contact information at the end of the survey.

Your thoughts are important to us.

Thank you for sharing them.

DATE: October 16, 2012

SUBJECT: **Extended Day Roll Out**

The district is pleased to announce that the Extended Day Program will commence on October 22, 2012.

In its inaugural year, 2011-2012, the Extended Day Program started with funds from the extension program and the After School Grant. The program served 180 students from grades 3 through 8 for 40 sessions. The program increased instructional time and was a direct contributor to the districts 2012 academic increases.

This year the 2012-2013 budget allocated \$120,000 to expand the program to 53 sessions with capacity to serve 375 students.

The program will have a student to teacher ratio of 15:1 and run Monday, Tuesday and Thursday through March 14, 2013. Program times by school are as follows:

Metacomet: 3:30 – 4:30

CAIS: 3:00 – 4:00

CAMS: 3:00 – 4:00 (Extended to 5:00 per After School Grant)

BHS: 2:50 – 3:50

RE: Natural Gas Purchase Agreement

As you know Bloomfield Public Schools has participated in the Capital Region Council of Government (CRCOG) natural gas consortium for the past nine years resulting in continued reduction in our natural gas commodity costs. At the Natural Gas Procurement Committee meeting on Wednesday, August 29th the committee decided to exercise the option of extending the current agreements for the purchase of natural gas. The rationale for exercising the option is that our current basis price is \$0.199 per ccf. The projected market basis price for the year July 2014 through June 2016 is \$0.290 per ccf. In addition to fending off a potential basis increase the NYMEX price for natural gas for those two years is lower than our current price. The Procurement Committee will be meeting in the near future to set the target triggers to lock in the NYMEX costs for those two years.

Given how volatile the energy market can be, I would recommend that we take this opportunity to continue our participation in the consortium and extend the agreement the additional two years.
