A. District Grants Update

Ms. Elisa Pierce, District Grants Specialist shared an overview of federal, state and private grants the district has worked on during the current fiscal year. Ms. Pierce provided additional information regarding the type of grant, award amount and other notes relative to each grant. A handout entitled “Status of Grants” was provided.

T. Moore inquired why Global Experience Magnet School (GEMS) received more funds than Wintonbury Early Childhood Magnet School for the Magnet School - After School Grant. Ms. Pierce noted the distribution reflect the higher cost for transportation at GEMS.

J. Wilkerson asked how many of the grants are restricted and if they are renewable. Ms. Pierce all grants reported are restricted. She further noted many of the entitlement grants are renewable. Mr. Wilkerson also asked if there is a response to an increase need to support mental health in the schools. Ms. Elisa Pierce noted the ARP grant did aide in supports for mental health.

H. Frydman inquired about grants to support additional programming for technical programs. Elisa Pierce noted that the CTE grant funds programs at the high school in addition to summer internships and credit recovery courses. D. Harris also noted the technical programs at the Donald F. Harris Sr. Agriscience & Technology Center.

L. Easmon asked if grant funds have all been utilized or if some will be carried over. E. Pierce noted it depends on the grant. For instance, the funds to establish magnet school sports programs is intended for multiple years. She further noted that some grants require a sustainability plan.
