3. New Business

A. Review of the District Safe School Climate Work

Dr. Tracy Youngberg, Superintendent shared an update with the committee on the District Safe School Climate Plan. She noted that Public Act 23-167 moved away from solely focusing on bullying investigation and replaced the "Safe School Climate Plan" with a mandatory "School Climate Improvement Plan". Dr. Youngberg reviewed the checklist relative to this legislation, including the Board policy, a Climate Specialist at each school and mandatory annual training for staff on school climate and restorative practices.

Dr. Youngberg noted the work is underway. Some data has already been gathered from the District Parent Advisory Council, Community Forums, Student Support Services Needs Assessment and the BEA Blitz. It was further noted the School Climate and Safety Committee meets monthly.

F. Bogle-Assegai suggested mini-session with families and/or students to gather additional data.

B. Curriculum Map Deep Dive

Lisa Lamenzo, Executive Director of Teaching, Learning, and Leadership and Nicole Jones, District Teaching and Learning Specialist shared an overview of Curriculum Map work. Ms. Jones noted this is an orientation to the plan of action for English Language Arts and math curriculum work. The teams have been meeting to develop curriculum maps for all grades K-12. Principals will be engaged in the final review of the maps before they are presented to the Curriculum Committee and the Board of Education for approval.

Ms. Jones reviewed the process and steps in which curriculum is created to ensure adherence and alignment to the standards. It was noted this process provided access and opportunity for all students, as well as vertical and horizontal alignment. Ms. Jones stated having curriculum maps are the “framework” and they look for utilization in Focus Walks, evaluations, lesson plan and instruction.

The committee asked how staff are being engaged and encouraged to support this work. They also inquired how the Portrait of a Graduate fits into the development of curriculum.

It was noted that this work requires a shift in mindset, and that district coaches are supporting its implementation. The work is also grounded in data, with the next phase focusing on equity.

4. Adjournment

At 7:16 p.m., a motion was made by H. Frydman and seconded by T. Mack-Mohammed to adjourn.

The motion passed unanimously 3-0-0.

Our **WHY**

BPS Teaching & Learning Vision Statement

*Bloomfield Public Schools is committed to improving educational outcomes by creating a rigorous, high-quality learning environment where motivation sparks curiosity and resilience drives perseverance for students and adults. As **problem solvers** and **communicators**, we **foster adaptability** and **critical thinking**, preparing everyone to navigate an ever-evolving world and thrive in an interconnected society.*

Theory of Action

If We ...

Then ...

So That...

If We...

- *Develop high-quality curriculum across all grade levels, and provide rigorous and robust professional development.*

Then...

Bloomfield Public Schools will foster a cohesive and rigorous learning environment to improve student outcomes, prepare them for college and careers, and ensure equitable educational opportunities. This will be achieved by maintaining consistent standards and offering engaging, relevant instruction.

So That...

Every student is empowered to be lifelong learners, who read closely, think critically, ask questions, solve problems, and communicate effectively.

What is a Curriculum Map?

Unit Title	Pacing	Essential Questions	Priority Standards	Supporting Standards	Key Skills	Assessments	Resources
------------	--------	---------------------	--------------------	----------------------	------------	-------------	-----------

A curriculum map offers structure and a visual representation of key learning experiences over time. It presents the “Big Picture” of student learning, detailing what will be taught, when it will be taught, and how it aligns with learning objectives and standards.

The BPS Collaborative Curriculum Mapping Framework

Phase 1: Initiation and Analysis

Phase 2: Iterative Development and Refinement

Assemble Specialized Teams

Form Curriculum Advisory (CAT) and Curriculum Development (CDT) teams to lead the initiative.

Conduct Standards and Gap Analysis

Review Common Core standards against existing materials to identify instructional gaps.

The Cyclical Review Process

Engage in a continuous loop of drafting, gathering feedback, and revising content.

Systematic Tools and Coaching

Utilize standardized templates and central office coaching to maintain alignment and quality.

What We are Presenting Today

- ❑ This first batch of **42 curriculum maps**, covering **Pre-K, ELA, and Math K-12**, represents the **culmination of a systematic and collaborative development process**.
- ❑ These **42 maps** serve as a baseline for **continuous improvement** by grounding the district's work in a **Cyclical Review and Refinement process**. This ensures that the maps remain dynamic, **allowing for ongoing feedback and revision** to better connect standards to meaningful learning.

BPS PreK-12 Curriculum Design Principles

The infographic is titled "BPS PreK-12 Curriculum Design Principles" and features seven colored boxes, each with an icon and a description of a principle. The principles are: Relevant (green box, puzzle pieces icon), Appropriate (pink box, head with sun icon), Innovative (orange box, lightbulb icon), Inclusive & Equitable (pink box, globe icon), Coherent (blue box, atom icon), Multidisciplinary (orange box, tree icon), and Bloomfield Public Schools logo (blue circular logo with a graduation cap and book).

Relevant
Engages students in reality-based experiences, explorations, inquiry, and models with multiple and varied opportunities to apply learning.

Appropriate
Ensures the content presents an appropriate level of challenge for the developmental stage of the learners.

Innovative
Fosters imaginative thinking to inspire innovative ideas

Inclusive & Equitable
Ensure the engagement in meaningful discussions. Foster equitable access to resources, and create a culturally responsive and inclusive learning environment.

Coherent
Connects and links learner goals, learner framework, vision or portrait of a learner/graduate. Answers the questions of how does this unit build upon and connect to prior knowledge? How does the unit prepare the student for future learning?

Multidisciplinary
Ensures the integration of multiple academic disciplines to provide a more comprehensive understanding of topics and subjects. Students will explore a subject from various perspectives, enhancing their ability to apply knowledge across different fields.
