Tuesday, July 14, 2026	Submit Notice of Property Tax Levy to County Assessors

District Mission Statement:

“Alsea School and community share responsibility for creating a safe learning environment where performance and behavior reflect high expectations”

2026-2027 Budget Message
Ms. Stacy Knudson, Superintendent

I present this budget amid ongoing financial uncertainty within the Oregon Education System, specifically for the Alsea School District (“District”). The Governor and Legislature have proposed a funding level of \$11,359,400,000 billion for the 2025 - 2027 biennium, which serves as the basis for this budget. Despite this proposed amount, many districts, including ours, are grappling with increasing personnel costs—particularly related to PERS—rising facility maintenance and insurance expenses, as well as a reduction in enrollment. These challenges are prompting many Oregon districts to consider budget cuts in the coming fiscal year.

The budget has been prepared based on an Average Daily Membership (ADM) projection of FY 2026-2027. In addition to the state school fund allocation, the District will receive funding through various special revenue streams, including Early Literacy (EL), High School Success (HSS), Comprehensive Support and Improvement (CSI), Early Indicator and Intervention System (EIIS), and the Student Investment Account (SIA). The amount allocated to each grant is based on the District’s Average Daily Membership Weighted (ADMw). Given the District’s declining enrollment, these amounts are a reduction in comparison to the prior year. Furthermore, this budget accounts for a 10% reduction in federal title funds based on declining enrollment trends.

In the development of this budget, Business Manager Stephanie Lewis, Nancy Hall and I worked closely with each administrator and supervisor to conduct a thorough review of their programs. Each department was tasked with presenting proposals to reduce their budget supplies, while also evaluating all expenses to identify potential reductions or eliminations. The only department that budgeted significant increases was Maintenance and Facilities, due to the escalating costs of utilities and insurance.

In addition to the funding from the State School Fund and special revenue grants, this budget incorporates several additional revenue sources, including:

- Summer Learning Grant funds applied for, yet not officially awarded (\$200,000/summer in 2026, 2027 and 2028).
- Transportation services provided in partnership with Willamette Leadership Academy (WLA) for the 2026-2027 school year, including the rental of three buses.
- A \$100,000 transfer from the General Fund to support the Food Service Program. There is a \$150,000 transfer to the bus replacement fund and a \$200,000 transfer to the capital projects fund.
- An Unemployment Reserve Fund of approximately \$240,000 to cover potential unemployment claims.

2026-2027 Budget Message
Ms. Stacy Knudson, Superintendent

- PERS Reserve will have funds held in a liability account to assist in the offset of future rate increases.
- Interest income has been increased by \$125K due to additional funds in the local governmental pool (LGIP).

During the 2025-2026 fiscal year, the District completed the seismic rehabilitation phase 1, with a total of three planned phases. The 2026-2027 budget includes the 2026 TAP Grant for Engineered Wood Roof Systems Assessment, however the district will need to provide funding for the remaining phases through the Seismic grant application process.

The 2026-2027 budget presented here is balanced and aligned to support District goals of effective MTSS, RTI and data-driven decision making. The District will continue to fund all existing positions, honor employee contracts, and maintain current program levels. A contingency fund of \$500,000 is included, along with a beginning fund balance of \$6.2 million. However, approximately \$770,000 of the fund balance will be utilized to maintain staffing levels and current program offerings.

This budget allows the District to continue providing :

- A full school year
- Professional development opportunities for all staff aligned to district goals (*RTI, MTSS, Trauma Informed Practices, Chronic Absenteeism and On track*)
- State standard-aligned curriculum
- Essential building and grounds maintenance
- Enhanced elective offerings
- Learn at Home Oregon's addition of 7th grade

While the District's Average Daily Membership Weighted (ADMw) has been in decline over the past three years, the state school support formula has been based on the prior year's ADMw, enabling the District to build its cash reserves. Although the District currently has a relatively large reserve, enrollment has stabilized, and careful planning is required to protect these reserves for future needs.

As is the case for many Oregon districts, the District will need to identify cost-saving measures in order to operate within our budget. For the upcoming year, we will refrain from hiring non-essential positions. Any additional duties from these positions will be absorbed within existing roles, especially in classified, confidential, and administrative positions. Despite these challenges, the District remains committed to using our resources wisely, ensuring that our students receive a comprehensive education that prepares them to be productive global citizens.

The Budget At A Glance

Local Budget Law

Oregon's Local Budget Law is set forth in ORS 294.305 to 294.565 and sets the standard procedures for preparing, presenting, and using budgets. Citizen involvement is encouraged before the budget is formally adopted.

A budget is a financial plan for one fiscal year. It shows estimates of revenues and costs of items or services that the District wants to purchase in the coming year.

The budget authorizes the District to spend money and limits how much it can spend. The budget also justifies the levy of property taxes. The District must plan a balanced budget where resources equal expenditures. The District can't plan to purchase more items or services than it has money to pay for them.

The Budget Process

The budget process is broken down into four phases. Phase 1 the budget officer puts together a proposed budget. This takes months of time and involves both building and central office staff. The format of the proposed budget is designed by the Department of Revenue and includes a budget message prepared

annually by the Superintendent. Once the proposed budget is given to the Budget Committee, citizens may obtain a copy by calling (541) 487-5643 or at the website <https://alsea.k12.or.us/>. The Budget Committee is made up of all the current Board Members and an equal number of appointed electors. The Budget Committee's duties are: to receive the budget document; to hear the budget message; to hear and consider public comment; to discuss and revise the budget as needed; to approve the budget; and to approve the property taxes.

Phase 2 is when the Budget Committee approves the budget. The first Budget Committee meeting usually takes place in May. The Budget Committee reviews the proposed budget, listens to comments from citizens, and then approves the budget.

Phase 3 includes adopting the budget and certifying property taxes to the county assessor. This phase includes a special hearing of the School Board. Notice of the hearing and a summary of the budget are published in the local newspaper five to thirty days in advance of the hearing.

Phase 4 occurs when the District is operating under the adopted budget. Any changes to the adopted budget must be made before additional money is spent, or money is spent for a different purpose than described in the adopted budget. The School Board may adopt a supplemental budget at a regular meeting if expenditures in the supplemental budget are less than 10 percent of the annual budget fund being adjusted. If the expenditures are more than 10 percent, the School Board must first publish the supplemental budget and hold a special hearing.

Budget Funds

1. General Fund

The General Fund keeps track of expenditures needed to run the daily operations of the District. Property tax money raised through the permanent rate limit and State School Fund payments go into this fund.

2. Special Revenue Fund

These funds account for money that must be used for a specific purpose. They include Federal, State, and Local

grants, as well as Food Service and School Activity Funds.

Most federal grants are received as part of the Elementary and Secondary Education Act (Title I through V). The allocations for these are not published until after the fiscal year starts so we budget slight increases in each grant entitlement in order to have authority to spend what we receive.

Federal, State and Local grant funds include some “placeholders” for additional grants that may be received during the year. This gives us the authority to spend the funds if any new grants are approved.

The Food Service fund accounts for the resources and expenditures of the District’s meal programs. Revenue sources include sales of meals, and subsidies under the National School Lunch Act.

School Activity Funds account for the District’s individual school activity programs. The major sources of revenue are student participation fees, and fund raising activities.

3. Debt Service Fund

This fund records the repayment of general obligation bonds and general long-term debt, principal and interest.

4. Capital Project Fund

This fund records the revenues and expenditures used to build or acquire facilities such as land or buildings. Once the building is built or the land acquired, the fund is closed. Revenues usually come from the sale of general obligation bonds.

5. Internal Service Funds

Account for the operation of district functions that provide goods or services to other district functions, other districts, or to other governmental units, on a cost-reimbursable basis. Some examples of internal service funds could include those used for unemployment reserve fund and PERS reserve fund.

BUDGETING AND ACCOUNTING

The budget is developed to reflect Generally Accepted Accounting Principles (GAAP). As governmental funds, revenues and expenditures are budgeted and accounted for using the modified accrual basis of accounting. Under this basis, revenues are recognized when they become both measurable and available. Available is defined as collectible within the current period or soon enough thereafter to pay liabilities

of the current period. Revenues subject to accrual include property taxes, grant revenue and charges for services. Property taxes are considered to be available if they are collected within 60 days after year end.

Expenditures are recorded when the related fund liability is incurred. Principal and interest on long-term debt are recorded as fund liabilities when due.

Resources include a good faith estimate of beginning fund balance forward from the previous fiscal year.

ASSUMPTIONS FOR BUDGET PREPARATION

General Fund

Revenue and Resource Estimates The General Fund budget is heavily dependent upon funding from the state. Historically, the largest source of revenue for public schools in Oregon has been local property taxes. Measure 5 required the state legislature to offset lost property tax revenue with money from the state general fund, which is composed primarily of state income taxes. As a result, Oregon schools are increasingly supported by state, not local, dollars.

The 2026-27 budget is developed using the Legislative appropriated funding for schools at \$11,359,400,000 billion for the 2026-2027 biennium.

As part of the Linn Benton Lincoln ESD Local Service Plan, the District receives resolution funds every year to be used on services provided by the ESD.

Expenditures and Commitments Salaries, health insurance and other benefit increases will be budgeted for in accordance with contractual agreements.

Budget increases will be estimated for basic items expected to increase such as;

utilities, leases, property and liability insurance, etc.

The District continues to “pick-up” the 6% employee contribution to PERS.

Contingency and Ending Fund Balance

Contingency is for expenditures which cannot be foreseen and planned in the budget process because of an occurrence of an unusual or extraordinary event. The budgeted amount is transferred by school board resolution to the proper expenditure code if used.

Unappropriated Ending Fund Balance is an estimate of funds needed to maintain operations from July 1 of the ensuing fiscal year and the time when sufficient new revenues become available.

Other Funds

Revenue and Resource Estimates

Federal Title programs include: Title I-A Improving Basic Programs; II-A Improving Teacher Quality; and X Education for Homeless. Other Federal programs include IDEA (Individuals with Disabilities in Education Act) and ESSER (Elementary and Secondary School Emergency Relief Fund). The amounts for these grants are typically not announced until the fall so they are

assumed to be funded at slightly higher than current level. If these grants are not funded, or are funded for less, expenditures will not be made.

Student Activity Funds account for funds collected by the student body at each school. The student organization at each school determines how the funds are to be used. The main criteria is that they are used for the benefit of the students.

Debt Service Funds levy taxes to pay back outstanding bonds for the District.

PROGRAM BUDGETING AND ACCOUNTING MANUAL OVERVIEW

The budget is prepared following the “Program Budgeting and Accounting Manual for School District and Education Service Districts in Oregon” published by the Oregon Department of Education. The Manual is designed as a resource tool and the use of the budget and accounting codes will vary with the individual needs of each district. The minimum requirement is adopted as Administrative Rule by the State Board of Education. Additional codes are available at the option of the district for more extensive use of account descriptions. The 2023 Manual was developed based on the following goals:

- To provide consistent

classification of expenditures to allow valid spending comparisons among schools and district. The system complies with Generally Accepted Accounting Principles (GAAP)

- The system can be used to plan and manage the resources of the district
- The manual is a working handbook to which revisions will be made.

A primary emphasis of the manual is to define account classifications that provide meaningful financial management information to its users. Achieving consistency in budgeting and financial reporting enhances our ability to present a clear picture of the district's financial condition and to make valid comparisons among districts. Financial information that is consistently presented in a simple and straightforward format will be readily understood by the public, and provide a sound basis for decision-making.

Governmental accounting systems are organized and operated on a fund basis. If one were to compare fund accounting with commercial accounting, each fund would equate to an independent business, with a separate set of records owned by one entity, the district. The majority of

the District's funds are in the Governmental Funds group. These include: 100 General Fund; 200 Special Revenue Funds; 300 Debt Service Funds; and 400 Capital Projects Funds.

There are three basic types of financial activity within funds: (1) revenues and other sources of funds, (2) expenditures and other uses of funds, and (3) transactions affecting the balance sheet (assets and liabilities) of the District.

Revenues are classified by Fund and Source. Sources are further classified by major source: 1000 Local sources; 2000 Intermediate Sources; 3000 State Sources; 4000 Federal Sources, and: 5000 Other Sources.

Expenditures are classified by Fund, Function, Object, Operational Unit, Area of Responsibility, and Sub-Area.

Function describes the activity for which a service or material object is acquired. The major functions of a district are: 1000 Instruction; 2000 Support Services; 3000 Enterprise and Community Services; 4000 Facilities Acquisition and Construction; 5000 Other Uses; 6000 Contingency, and; 7000 Unappropriated Ending Fund Balance.

The Object is the service or commodity bought. Objects are divided into: 100 Salaries; 200 Benefits; 300 Purchased Services; 400 Supplies and Materials; 500 Capital Outlay; 600 Other Objects; 700 Transfer, and; 800 Other Uses.

The Operational Unit is used to identify schools or non-school cost centers such as central programs or departments. These codes are defined by the District but are required for state reporting.

The Area of Responsibility provides additional detail to the account code and is used to identify expenditures for specific curriculum areas and programs. The Sub-Area is used by the District to classify expenditures for particular purposes at our discretion. This is most often used to identify the fiscal year for Federal Grants.

An example of an account code would be:

100.1131.0410.007.100.000

Fund **100** is the General Fund

Function **1131** is High School Programs

Object **0410** is Supplies

Operational Unit **007** is High School

Area **100** is English

Sub-Area **000** is unassigned

This structure allows for detailed reporting of expenditures in order to present a clear picture of the District's financial condition. The chart of accounts is adopted by the Oregon Department of Education, is approved by the Department of Revenue, and classifies revenues and expenditures for compliance with Oregon Budget Law.

School Formula Finance

K-12 School Districts: Oregon has 197 school districts serving about 539,896 students in K-12. These districts operate with relative autonomy within guidelines specified by both the Legislature and the Oregon Department of Education. The federal government also mandates certain programs.

Local Revenue: School districts receive general operating revenue from various sources with property taxes being the primary local source. Local revenues are included as an offset to the state school fund formula. Other offset sources include the Common School Fund, Federal Forest Fees, and County School fund.

State Support: The State School Fund (SSF) provides about 67% of school formula operating revenue. This revenue is mostly from state income taxes and lottery revenue. The state's share of

education funding increased from about 30% before Measure 5 (1990) to about 70% after Measure 50 (1997). State revenue replaced reduced local revenue because of these two property tax limitations.

Along with increased state aid, the school fund distribution method for state support changed dramatically.

Equalization Formula: In 1991 the Legislature adopted the SSF formula and phased in its implementation. The SSF equalization formula allocates an amount to each school district based primarily on the number of students. The state grant is this formula amount reduced by local revenues. The formula equalizes revenues per student by removing past differentials caused by widely varying local tax rates and property wealth per student.

To recognize that some students need more school services, the formula assigns weights to certain students. For example, special education students count as 2.0 students to recognize their need for special programs. There are additional weights for: ESL .50; students in pregnant/parenting programs 1.0; students in poverty .25; and students in foster care or neglected/delinquent .25. There is a limit to the total weight per student. The grant per weighted student is also adjusted for: teacher experience;

70% - 90% of transportation costs; costs over \$30,000 per high cost disability student; and up to 8% for classroom construction costs with a limit per biennium.

Frequently Asked Questions:

Why Can't we eliminate or reduce funds spent on Special Education?

We, like all other public schools in the nation, serve the needs of many kinds of students. Special Education is a required service by both federal and state law and cannot be eliminated. The Individuals with Disabilities Education Act (IDEA) grant program requires school districts, as a condition of receiving these federal funds, to meet "maintenance of effort" (MOE). This means that the total state and local general fund expenditures of a school district for education of children with disabilities for any year fiscal year must be at least equal to the amount spent in the most recent preceding fiscal year. If we do not meet MOE, we must return general funds in the amount equal to the shortfall to ODE.

Why do we need a contingency fund and what is it used for?

The Operating Contingency fund is a specific amount of money that is budgeted and set aside to provide for

unforeseen costs of an unusual or extraordinary nature that could not be planned for when the budget was developed. Examples would include a

major equipment failure (like a school's boiler) or a significant increase in fuel prices resulting from some external event. These funds are under the direct control of the school board and cannot be used without their approval.

What is an Ending Fund Balance and how is it used?

An ending fund balance is money left at the end of the school year. In the budget, it is an estimate of funds needed to maintain operations of the district from July 1 of the ensuing fiscal year and the time when sufficient new revenues become available to meet cash flow needs of the fund. No expenditures can be made from the unappropriated ending fund balance. An ending fund balance is important for the following reasons:

1. Over 77% of our General Fund revenue is through the State School Fund and used to pay for our operations and services. Payments from ODE fluctuate based on the economy. ODE provides us with estimates of how much these payments will be for the coming year.

However, as payments are made, ODE adjusts them based on changes in factors that make up the funding. The payments could be less or more than estimated. Having an ending fund balance allows us to stabilize overall revenue in order to maintain instructional programs for students.

2. As a "rule of thumb", OSBA recommends boards maintain a minimum ending fund balance of 5% - 8% of its General Fund resources. This is based upon an average-size district (ADM of about 6,000) and assumes that districts will be able to anticipate a fairly reliable level of funding each year. The Government Finance Officers Association (GFOA) recommends, at a minimum and for any size district, that governments maintain an unreserved (not earmarked for a specific purpose) ending fund balance of no less than 5% - 15% of its general fund operating revenues, or of no less than one to two months of regular general fund operating expenditures. The more unpredictable your revenues and expenditures are, the more likely you will need to maintain a larger ending fund balance. Ending fund balance is not a sustainable source of revenue for a district, thus it is generally designed to address one-time expenditures. Once you draw those reserves down to cover lost

revenue or to pay for ongoing expenditures, they are gone.

3. Funds left at the end of a school year can be rolled forward into the next school year as a revenue source. This is the carryover money, which in a time of unstable school funding has helped to stabilize programs and services preventing a roller coaster ride of cuts and add backs.

Alesea School District Notice of Budget Committee Meeting

Notice of Budget Committee Meeting

A public meeting of the Budget Committee of Alesea School District #7j, Benton County, State of Oregon, to discuss the budget for the fiscal year July 1, 2026, to June 30, 2027, will be held at the Alesea School District Staff Room, 301 South 3rd Street, Alesea Oregon. There will be budget committee meetings on April 21, 2026 starting at 6:00 pm, and May 11, 2026, starting at 6pm. A third meeting will take place, only if needed, on May 26, 2026, starting at 6 pm.

The purpose of the meeting is to receive the budget message and to receive comments from the public on the budget. This is a public meeting where deliberation of the Budget Committee will take place. Any person may appear at the meeting and discuss the proposed programs with the Budget Committee. Comments will be subject to a three-minute limit per community member.

A copy of the budget document may be inspected or obtained on or after April 14, 2026 at the Alesea School District Office, 301 South 3rd Street, Alesea Oregon, between the hours of 11 am and 3 pm, or on the District website <https://alesea.k12.or.us/district/budget>
4/4, 4/11 COL-OR-101778

5. Public Comment
6. Board Reflection / Comment
7. Approve Proposed Budget
8. Additional meeting May 19, 2026 and May 26, 2026 if necessary
9. Meeting Adjourn
