Deregulation for Library Media Services for Oologah Middle School Library

OAC 210:

Oologah Middle School is asking for a deregulation waiver for Library Media Services. We have a full-time library media assistant working in the Middle School Library without a full time Library Media Specialist. Our 4 school sites sit on the same campus. There are 3 Library Media Specialists on campus at other sites that will assist the Middle School library assistant in any areas needed.

Thank you,

 NAME OF WAIVER

- A. Reason for the Waiver request. Please include circumstances which necessitate hiring a non certified library media specialist. What alternative means will be employed if your waiver is denied? Where is the applicant as it pertains to their pursuit of their course of study? What percentage of your student population will benefit from the waiver if approved?

Oologah Middle School has a very small library that does not require a full-time librarian. This library is not utilized for instructional purposes, but rather only for book check out. It is staffed by a full time support employee with experience working in a school library. If this waiver is approved, the OMS library will be managed by a certified library media specialist currently working as the librarian at Oologah High School. The librarian will oversee all aspects of managing the catalogue of books in the library and will collaborate with the support employee for day to day questions. If this waiver is approved, all students at OMS will benefit from having a library on site.

- B. List alternate strategies/plans which the district/site proposes. How does this plan best serve the students of your district, i.e., a description of the educational benefits to the students and learning achievement? Please list any negative impact if the waiver were to be denied.

The collaboration between the certified librarian at OHS and a trained support employee at OMS will allow the middle school to have a library on site. This is a benefit to our students as they have better access to books and instructional materials without having to travel to another site. If this waiver is denied, our middle school students will have to schedule time to go to another site to use a library.

- C. Educational impact to the district: Results of the Statutory Waiver/Deregulation, i.e., effect on student performance levels, impact of plan on other sites in the district.

This deregulation would allow our middle school students to have easy access to grade appropriate reading materials, which would enhance their learning across the curriculum. Access to both fiction and nonfiction reading materials written at the level of a middle school reader will help our students learn content and gain a love for reading. It will also ensure our other libraries don't have to facilitate book check out for additional students which would overtax both our staff and our facilities.

- D. Timeline: Please submit class schedule, calendars, assessment forms and other attachments as necessary.

There is no schedule for this library as classes are not taught there. Students would be welcome to visit the library as allowed by their teacher, and teachers could take their whole class if they chose to do so.

- E. Any financial impact to the District (positive or negative) for the proposed waiver/deregulation? If positive please describe where the available would be reallocated.

Allowing for a support employee to staff the library instead of a certified librarian will save the district money which can be allocated toward other programs and resources.

- F. Describe method of assessment or evaluation of effectiveness of the plan both for staff and students, I.E., TLE, ACT scores, graduation rates, RSA, School Report Card, etc.

We will look at data points from TLE, OSTP, NWEA and others to evaluate the effectiveness of the library. We will also use reports from the library circulation program to determine how often the library is being used by middle schools students.

** You will be contacted if more information is needed to process this request.
