

Board of Education

Elkhorn Valley Schools

April 15, 2026

Media Center

Regular Meeting
Proposed Agenda

1. Call the meeting to order - 7:30 p.m.
 - 1.a. Note the public meeting notice was published in the April 8, 2026 issues of the Tilden Citizen/Meadow Grove News and the Antelope County News.
2. Recognize Visitors - 'Public Comment' - refer to "Open Meetings Law"
3. Excuse absent board member
4. Routine Matters
 - 4.a. Approve minutes from March 9, 2026 meeting
 - 4.b. Approve financial reports for March
 - 4.c. April bills for approval
5. Presentation to the board on FALCONCAST - custom district video streaming service.
6. Consider/Discuss/Approve elementary and secondary principal salaries for 2026-27 school year.
7. Consider/Discuss/Approve substitute pay rate for 2026-27
8. Open public hearing on Policy 5052 - School Wellness Policy
9. Close public hearing on Policy 5052- School Wellness Policy
10. Consider/Discuss/Approve updates to Policy 5052 - School Wellness Policy
11. Consider/Discuss/Approve 4th grade teacher contract for 2026-27
12. Consider/Discuss/Approve classified staff resignation
13. Building and Grounds Committee Sports Complex update and next steps.
14. Principals' Report
15. Superintendent's Report
 - 15.a. Committee on American Civics meeting
 - 15.b. Legislative Update
16. Adjourn

Balance Sheet
Period Ending: March 2026
MARCH 2026

5052 School Wellness Policy

The school district is committed to providing a school environment that enhances learning and the development of lifelong wellness. The goals outlined in this policy were determined and selected after reviewing and considering evidence-based strategies.*

The school district will create a School Wellness Committee that will meet four times per year to establish goals for and oversee school health and safety policies and programs, including development and period review and updates of this district-level School Wellness Policy.

1. Goals for Nutrition Promotion and Education

- a. The district will promote healthy food and beverage choices for all students, as well as encourage participation in school meal programs by such methods as implementing evidence-based healthy food promotion techniques through the school meal programs and promoting foods and beverages that meet or exceed the USDA Smart Snacks in School nutrition standards.
- b. Nutrition topics shall be integrated within the comprehensive health education curriculum.
- c. The nutrition education program shall work with the school meal program to use the cafeteria as a learning lab.
- d. The health curriculum will include information on good nutrition and healthy living habits.
- e. Teachers will incorporate information on nutrition and wellness into the classroom curriculum as appropriate.
- f. The district will collaborate with public and private entities to promote student wellness.
- g. Water will be made available to students throughout the school day.
- h. School staff are encouraged to model healthy eating and physical activity behaviors.

- i. All school nutrition program directors, managers and staff will meet hiring and annual continuing education/training requirements in the USDA Professional Standards for Child Nutrition Professionals. These school nutrition personnel will refer to USDA's Professional Standards for School Nutrition Standards website to search for training that meets their learning needs.
- j. Applications for free/reduced priced meals are sent home to all families at the beginning of the school year. The application is also available on the district website.

2. Goals for Physical Activity

- a. The school district's curriculum shall include instruction on physical activity and habits for healthy living. **The physical education curriculum will be aligned with established state physical education standards. All junior high school students will generally participate in physical education class 45 minutes per per day five days per week. All high school students will generally have the opportunity to participate in physical education class 45 minutes per day five days per week, when the schedule permits. Elementary students will generally participate in physical education class 30 minutes per day two days per week.**
- b. Physical education classes and/or physical activity opportunities will be available for all students daily throughout the school year during school or after school. **All physical education classes should be taught by a licensed teacher.** Students will spend at least 50% of physical education class time participating in moderate to vigorous physical activity.
- c. All elementary students will have daily supervised recess, preferably outdoors, during which students should be encouraged to engage in moderate to vigorous physical activity verbally and through the provision of space and equipment.
- d. Students will be encouraged to engage in physical activities throughout the school day and will be provided with opportunities to do so.

- e. The district will discourage extended periods (i.e. periods of two or more hours) of inactivity. When activities, such as mandatory school-wide testing, make it necessary for students to remain indoors for long periods of time, students should have periodic breaks during which they should be encouraged to stand and be moderately active.
- f. The district encourages parents and guardians to support their children's participation in physical activity, to be physically active role models, and to include physical activity in family events.
- g. The physical activity and education program should expose students to a wide variety of physical activities, teach physical skills to help maintain health and fitness, and individualize the intensity of activities as needed.
- h. Physical activity exemptions and substitutions will be allowed when deemed appropriate in the district's physical education classes.
- i. The district will allow time for training for the physical education teacher(s) when appropriate.
- j. Teachers may use non-food alternatives as rewards. For example, extra recess may be provided when time allows.
- k. Teachers are discouraged from assigning physical activity as a student punishment.
- l. The administration believes recess and other opportunities for physical activity are an essential part of the school day. Teachers are encouraged to find alternatives to withholding recess or other physical activities as a punishment.

3. Goals for Other School-Based Activities Designed to Promote Student Wellness

A. Dining Environment

- a. The school district's lunchroom will be attractive, clean, and a well-lighted enjoyable meal environment for students.

- b. The school district will have drinking fountains or other accommodations available so students can get water at meals and throughout the day.
- c. The school district will encourage all students to participate in school meal programs.
- d. The school district will make every effort to eliminate any social stigma attached to, and prevent the overt identification of, students who are eligible for free and reduced-price meals.
- e. It is prohibited for students with unpaid balances to be shamed in any way, including but not limited to: announcing their names, using hand stamps to identify them or sending home clearly marked notices that they have an unpaid balance. Schools will reach out to the family of a child with an unpaid balance to assess whether the child is eligible for free or reduced-price meals.
- f. Students will be encouraged to wash and/or sanitize their hands before they eat meals or snacks.

B. Mealtimes

- a. The school district will ensure an adequate time for students to eat meals and socialize with friends by providing at least 10 minutes after being seated to eat breakfast and 20 minutes after being seated to eat lunch.
- b. Tutoring and club organizational meetings should not be scheduled during mealtimes unless students may eat during such activities.
- c. School meals will include fresh, locally grown foods in school meals whenever possible and these foods will be promoted in the cafeteria.

C. Other

- a. The district will participate in state and federal child nutrition programs as appropriate.

- b. All schools will provide breakfast through the USDA School Breakfast Program.
- c. The district will provide professional development, support, and resources for staff about student wellness.
- d. The district will allow other health-related entities to use school facilities for activities such as health clinics and screenings so long as the activities meet the district's requirements and criteria for the use of facilities.
- e. The district may partner with other individuals or entities in the community to support the implementation of this policy.
- f. The district will strive to provide physical activity breaks for all students, recess for elementary students, and before and after school activities, as well as encourage students to use active transport (walking, biking, etc.)
- g. The district will use evidence-based strategies to develop, structure, and support student wellness.
- h. The district may provide additional educational and mental health support for the wellbeing of students and staff.
- i. School physical activity equipment will be available for use by staff before or after school to support employee wellness.

4. Standards and Nutrition Guidelines for All Foods and Beverages Sold to Students on the School Campus and During the School Day

- a. The district will ensure that student access to foods and beverages meet federal, state and local laws and guidelines including, but not limited to:
 - i. USDA National School Lunch and School Breakfast nutrition standards
 - ii. USDA Smart Snacks in School nutrition standards.
- b. The district will offer students a variety of age-appropriate, healthy food and beverage selections with plenty of fruits, vegetables, and whole grains aimed at meeting the nutrition

needs of students within their calorie requirements in order to promote student health and reduce childhood obesity.

- c. Foods and beverages that have one of the following listed as the first ingredient should not be sold to students during school provided mealtimes: sugar, corn syrup, or their equivalent.
- d. Beverages containing caffeine will not be sold at school during school hours.
- e. All snacks sold and/or served to students during after school programs will meet the same nutritional standards as foods sold during the school day.

5. Standards for All Foods and Beverages Provided, But Not Sold to Students During the School Day

The district may provide a list of healthy party ideas or food and beverage alternatives to parents, teachers, and students for classroom parties, rewards and incentives, or classroom snacks. The district discourages the use of food and beverages as a reward or incentive for performance or behavior.

6. Food and Beverage Marketing

Marketing and advertising are only allowed on school grounds or at school activities for foods and beverages that meet or exceed the USDA Smart Snacks in School nutrition standards, except as follows:

- a. This requirement does not apply to marketing that occurs at events outside of school hours such as after school sporting or any other events, including school fundraising events.
- b. The district will not immediately replace menu boards, coolers, tray liners, beverage cups, and other food service equipment with depictions of noncompliant products or logos to comply with the new USDA Smart Snacks in Schools nutrition requirements. All previously purchased products will be used, and all existing contracts honored.
- c. All equipment that currently displays noncompliant marketing materials will not be removed or replaced (e.g., a score board with a Coca-Cola logo). However, as the

district reviews and considers new contracts, and as scoreboards or other such durable equipment are replaced or updated over time, any products that are marketed and advertised will meet or exceed the USDA Smart Snacks in School nutrition standards.

- d. New equipment purchased with marketing logos must market water from the company the product is purchased from (e.g. Aquafina).
- e. Criteria for selecting educational materials for the classroom shall be expanded to include review of advertising content. Every effort will be made to select materials free of brand names/logos and illustrations of unhealthy foods.

7. Public Participation

Parents, students, representatives of the school food authority, teachers, school health professionals, board members, school administrators and members of the general public shall be allowed to provide their input to the school district during the wellness policy adoption and review process.

A school district level wellness committee may consist of an administrator(s), physical education teacher, school cafeteria personnel, a school board member(s), and a member(s) of the teaching staff other than the physical education teacher.

~~The district will utilize its social media outlets (Twitter, Facebook, etc.) in conjunction with the district website to provide an opportunity for parents, students, representatives of the school food authority, teachers, school health professionals, board members, school administrators, and members of the general public to provide input and participate in the development, implementation, review, and update of the wellness policy.~~

8. Competitive Foods (Includes Food and Beverages Sold in Vending Machines, School Stores, Fundraisers or in Competition with the National School Lunch and Breakfast Programs)

- a. Except as otherwise allowed by the Nebraska Department of Education (NDE), all foods and beverages sold during the

school day as part of a fundraiser or for any other purpose in competition with the National School Lunch and Breakfast Programs must meet the nutrition standards of those programs.

b. Fundraiser food or beverages are NOT exempt from the USDA Smart Snacks in School nutrition standards. Therefore, if food is sold as a fundraiser:

(1) It shall not be sold in competition with school meals in the food service area during the meal service.

(2) It shall not be sold or otherwise made available to students anywhere on school premises during the period beginning one half hour prior to the serving period for breakfast and/or lunch and lasting until one half hour after the serving of breakfast and/or lunch.

(3) The sale of food items during the school day shall meet the USDA Smart Snacks in School nutrition requirements

(4) This restriction does not apply to food sold during non-school hours, weekends, and off-campus fundraising events such as concessions during after-school sporting events, school plays or concerts; or to bulk food items that are sold for consumption at home. (Ex: frozen pizzas, cookie dough tubs, etc.)

9. Triennial Assessment

The school board shall assess and review this policy at least every three years to determine:

- a. Compliance with this policy;
- b. How this policy compares to NDE model wellness policies;
- c. Progress made in attaining the goals of this policy.

The school board will update or modify this policy as appropriate.

10. Public Notice

In addition to identifying the topic on its meeting agenda as required by the Open Meetings Act, the school district will provide notice of this policy at least annually to the public and other stakeholders identified in this policy by one or more of the following methods: on its webpage, in

its newsletter, in the student and employee handbooks, newspaper advertisements, direct mailings, electronic mail, and public postings.

In addition to identifying the topic on its meeting agenda as required by the Open Meetings Act, the school district will provide notice of the Triennial Assessment and progress reports towards meeting the goals in this policy using one or more of those same methods.

11. Recordkeeping

The District will retain records to document compliance with the requirements of the wellness policy at its central office.

The school district will maintain records of students qualifying for free and reduced-price meals in the central office to protect the privacy of the students.

The cafeteria is cashless- all students, regardless of the type of payment they make for school meals are given a code to enter at the cash register.

12. Operational Responsibility

The superintendent is responsible for coordinating the implementation of this policy and for monitoring the district's progress in meeting the goals established by this policy. The superintendent will periodically report to the board on the district's progress in implementing this policy.

* These strategies include, but are not necessarily limited to, those cited in the Alliance for a Healthier Generation's Model Wellness Policy (Updated 9/2016 to Reflect the USDA Final Rule) found at
