The BOE discussed their SWOT Analysis. SWOT stands for Strengths, Weaknesses, Opportunities, and Threats. It's a strategic planning tool used by schools to assess their internal capabilities (Strengths and Weaknesses) and the external environment (Opportunities and Threats) to inform decision-making and drive improvement.

President Deb Wragge reported that she has been in contact with Caden Frank of the NASB. Mr. Frank has set aside November 6, 2025, to work with the BOE and assist them in identifying and clarifying objectives, as well as in planning the Community/Stakeholder meeting. The BOE will meet with Mr. Frank at 4:00 pm in room 14 on November 6, 2025.

Administrative and Leadership reports were given. Mr. Strom informed the BOE that a Junior High wrestling coop was extended to Crofton, but they would like to maintain separate programs this year. Bloomfield will be hosting the Elementary Honor Choir. Mr. Conroy gave an overview of the Fall NWEA MAP testing results for the high school and elementary. Both schools saw growth from last year.

The 3000 Business policies were reviewed and revised by the board and administrative team. Policies 5101 and 5103 will be revised, and the second reading will be waived.

There was no public comment.

Motion by Justin Jindra, seconded by Casey Schmeckpeper, to adjourn this COW Meeting of the Bloomfield Community Schools Board of Education at 9:42pm. The next regular meeting of the Bloomfield Community Schools Board of Education will be October 20, 2025 at 6:30 pm..

StudentsStudent Discipline

- A. Development of Uniform Discipline System. It shall be the responsibility of the Superintendent to develop and maintain a system of uniform discipline. The discipline that may be imposed includes actions that are determined to be reasonably necessary to aid the student, to further school purposes, or to prevent interference with the educational process, such as (without limitation) counseling and warning students, parent contacts, and parent conferences, rearrangement of schedules, requirements that a student remains in school after regular hours to do additional work, restriction of extracurricular activity, or requirements that a student receive counseling upon written consent of the parent or guardian or in-school suspension. The discipline may include out-of-school suspension (short-term or long-term) and expulsion.
1. Short-Term Suspension: Students may be excluded by the Principal or the Principal's designee from school or any school function for a period of up to five school days (short-term suspension) on the following grounds:
 - a. Conduct that constitutes grounds for expulsion, whether the conduct occurs on or off school grounds; or
 - b. Other violations of rules and standards of behavior adopted by the Board of Education or the administrative or teaching staff of the school, which occur on or off school grounds, if such conduct interferes with school purposes or there is a nexus between such conduct and school.

The following process will apply to short-term suspensions:

- a. The Principal or the Principal's designee will make a reasonable investigation of the facts and circumstances. A short-term suspension will be made upon a determination that the suspension is necessary to help any student, to further school purposes, or to prevent an interference with school purposes.
- b. Prior to commencement of the short-term suspension, the student will be given oral or written notice of the charges against the student. The student will be advised of what the student is accused of having done, an explanation of the evidence the authorities have, and be afforded an opportunity to explain the student's version of the facts.
- c. Within 24 hours or such additional time as is reasonably necessary, not to exceed an additional 48 hours, following the suspension, the Principal or administrator will send a written statement to the student and the student's parent or guardian describing the student's conduct, misconduct or violation of the rule or standard and the reasons for the action taken.
- d. An opportunity will be given to the student, and the student's parent or guardian, to have a conference with the Principal or administrator ordering the short-term suspension before or at the time the student returns to school. The Principal or administrator shall determine who in addition to

the parent or guardian is to attend the conference. The Principal shall document their attempt to make a reasonable effort to hold a conference with the parent or guardian.

- e. A student who is on a short-term suspension shall not be permitted to be on school grounds without the express permission of the Principal.
2. Long-Term Suspension: A long-term suspension means an exclusion from school and any school functions for a period of more than five school days but less than twenty school days. A student who is on a long-term suspension shall not be permitted to be on school grounds without the express permission of the Principal. A notice will be given to the student and the parents/guardian when the Principal recommends a long-term suspension. The notice will include a description of the procedures for long-term suspension; the procedures will be those set forth in the Student Discipline Act.
 3. Expulsion:
 - a. Meaning of Expulsion. Expulsion means exclusion from attendance in all schools, grounds and activities of or within the system for a period not to exceed the remainder of the semester in which it took effect unless the misconduct occurred (a) within ten school days prior to the end of the first semester, in which case the expulsion shall remain in effect through the second semester, or (b) within ten school days prior to the end of the second semester, in which case the expulsion shall remain in effect for summer school and the first semester of the following school year, or (c) unless the expulsion is for conduct specified in these rules or in law as permitting or requiring a longer removal, in which case the expulsion shall remain in effect for the period specified therein. Such action may be modified or terminated by the school district at any time during the expulsion period. A student who has been expelled shall not be permitted to be on school grounds without the express permission of the Principal. A notice will be given to the student and the parents/guardian when the Principal recommends an expulsion. The notice will include a description of the procedures for expulsion; the procedures will be those set forth in the Student Discipline Act.
 - b. Suspensions Pending Hearing. When a notice of intent to discipline a student by long-term suspension, expulsion, or mandatory reassignment is filed with the Superintendent, the student may be suspended by the principal until the date the long-term suspension, expulsion, or mandatory reassignment takes effect if the principal determines that the student must be suspended immediately to prevent or substantially reduce the risk of (a) interference with an educational function or school purpose or (b) a personal injury to the student himself or herself, other students, school employees, or school volunteers. If the student is suspended pending the outcome of the hearing, the student may complete classwork and homework, including, but not limited to, examinations missed during the

period of suspension. During this period, the student will not be required to attend the alternative programs for expelled students in order to complete classwork or homework.

- c. Summer Review. Any expulsion that will remain in effect during the first semester of the following school year will be automatically scheduled for review before the beginning of the school year in accordance with law.
- d. Alternative Education: Students who are expelled may be offered an alternative education program that will enable the student to continue academic work for credit toward graduation. A student will not be required to attend the alternative education program in order to complete classwork and homework. In the event an alternative education program is not provided, a conference will be held with the parent, student, the Principal or another school representative assigned by the Principal, and a representative of a community organization that assists young people or that is involved with juvenile justice to develop a plan for the student in accordance with law.
- e. Suspension of Enforcement of an Expulsion: Enforcement of an expulsion action may be suspended for a period of not more than one full semester in addition to the balance of the semester in which the expulsion takes effect. As a condition of such suspended action, the student and parents will be required to sign a discipline agreement.
- f. Students Subject to Juvenile or Court Probation. Prior to the readmission to school of any student who is less than nineteen years of age and who is subject to the supervision of a juvenile probation officer or an adult probation officer pursuant to the order of the District Court, County Court, or Juvenile Court, who chooses to meet conditions of probation by attending school, and who has previously been expelled from school, the Principal or the Principal's designee shall meet with the student's probation officer and assist in developing conditions of probation that will provide specific guidelines for behavior and consequences for misbehavior at school (including conduct on school grounds and conduct during an educational function or event off school grounds) as well as educational objectives that must be achieved. If the guidelines, consequences, and objectives provided by the Principal or the Principal's designee are agreed to by the probation officer and the student, and the court permits the student to return to school under the agreed to conditions, the student may be permitted to return to school. The student may with proper consent, upon such return, be evaluated by the school for possible disabilities and may be referred for evaluation for possible placement in a special education program. The student may be expelled or otherwise disciplined for subsequent conduct as provided in Board policy and state statute.

- g. Returning from Expulsion. At the conclusion of an expulsion, the District will reinstate the student and accept nonduplicative, grade-appropriate credits earned by the student during the term of expulsion from any Nebraska accredited institution or institution accredited by one of the six regional accrediting bodies in the United States.
 - h. Exception for Pre-Kindergarten through Second Grade Students. Notwithstanding the foregoing, no pre-kindergarten through second grade student may be suspended from school, unless the student brings a deadly weapon on school grounds, in a school vehicle, or to a school activity. Instead, the Principal or Principal's designee may implement alternative disciplinary measures on a case-by-case basis if a pre-kindergarten through second grade student engages in misconduct that would otherwise result in a short-term suspension. If a pre-kindergarten through second grade student brings a deadly weapon on school grounds, in a school vehicle, or to a school activity, then the student may be suspended or expelled in accordance with this Policy's disciplinary procedures.
 - i. Religious Freedom. The District will not substantially burden a student's right to religious exercise unless the student's religious exercise is disruptive to the school environment, not permitted by staff, may pose a safety risk, or would otherwise interfere with the school day.
4. Emergency Exclusion: A student may be excluded from school in the following circumstances:
- a. If the student has a dangerous communicable disease transmissible through normal school contacts and poses an imminent threat to the health or safety of the school community; or
 - b. If the student's conduct presents a clear threat to the physical safety of himself, herself, or others, or is so extremely disruptive as to make temporary removal necessary to preserve the rights of other students to pursue an education.

Any emergency exclusion shall be based upon a clear factual situation warranting it and shall last no longer than is necessary to avoid the dangers described above.

If the emergency exclusion will be for five school days or less, the procedures for a short-term suspension shall be followed. If the Superintendent or his or her designee determines that an emergency exclusion shall extend beyond five days, a hearing may be held, upon a parent's timely request, and a final determination made within ten school days after the initial date of exclusion. Such procedures shall substantially comply with the procedures set forth in this policy for a long-term suspension or expulsion, and be modified only to the extent necessary to accomplish the hearing and determination within this shorter time period.

5. Other Forms of Student Discipline: Administrative and teaching personnel may also take actions regarding student behavior, other than removal of students from school, which are reasonably necessary to aid the student, further school purposes, or prevent interference with the educational process. Such actions may include, but are not limited to, counseling of students, parent conferences, rearrangement of schedules, requirements that a student remain in school after regular hours to do additional work, restriction of extracurricular activity, or requirements that a student receive counseling, psychological evaluation, or psychiatric evaluation upon the written consent of a parent or guardian to such counseling or evaluation. The actions may also include in-school suspensions. When in-school suspensions, after-school assignments, or other disciplinary measures are assigned, the student is responsible for complying with such disciplinary measures. A failure to serve such assigned discipline as directed will serve as grounds for further discipline, up to expulsion from school.
- B. Student Conduct Expectations. Students are not to engage in conduct which causes or which creates a reasonable likelihood that it will cause a substantial disruption in or material interference with any school function, activity or purpose or interfere with the health, safety, well being or rights of other students, staff or visitors.
- C. Grounds for Short-Term Suspension, Long-Term Suspension, Expulsion or Mandatory Reassignment. The following conduct has been determined by the Board of Education to have the potential to seriously affect the health, safety or welfare of students, staff and other persons or to otherwise seriously interfere with the educational process. Such conduct constitutes grounds for long-term suspension, expulsion, or mandatory reassignment, and any other lesser forms of discipline. The conduct is subject to the consequence of long-term suspension, expulsion, or mandatory reassignment where it occurs on school grounds, in a vehicle owned, leased, or contracted by the school and being used for a school purpose or in a vehicle being driven for a school purpose by a school employee or an employee's designee, or at a school-sponsored activity or athletic event.
1. Willfully disobeying any reasonable written or oral request of a school staff member, or the voicing of disrespect to those in authority.
 2. Use of violence, force, coercion, threat, intimidation, harassment, or similar conduct in a manner that constitutes a substantial interference with school purposes or making any communication that a reasonable recipient would interpret as a serious expression of an intent to harm or cause injury to another.
 3. Willfully causing or attempting to cause substantial damage to property, stealing or attempting to steal property of substantial value, repeated damage or theft involving property, or setting or attempting to set a fire of any magnitude.
 4. Causing or attempting to cause personal injury to any person, including any school employee, school volunteer, or student. Personal injury caused by accident, self-defense, or other action undertaken on the reasonable belief that it was necessary to protect some other person shall not constitute a violation of this subdivision.

5. Threatening or intimidating any student for the purpose of or with the intent of obtaining money or anything of value from such student or making a threat which causes or may be expected to cause a disruption to school operations.
6. Knowingly possessing, handling, or transmitting any object or material that is ordinarily or generally considered a weapon or that has the appearance of a weapon or bringing or possessing any explosive device, including fireworks.
7. Engaging in selling, using, possessing or dispensing of alcohol, tobacco, narcotics, drugs, controlled substance, or an inhalant; being under the influence of any of the above; possession of drug paraphernalia, or the selling, using, possessing, or dispensing of an imitation controlled substance as defined in section 28-401 of the Nebraska statutes, or material represented to be alcohol, narcotics, drugs, a controlled substance or inhalant. Tobacco means any tobacco product (including but not limited to cigarettes, cigars, and chewing tobacco), vapor products (such as e-cigarettes), electronic nicotine delivery systems, alternative nicotine products, tobacco product look-alikes, and products intended to replicate tobacco products either by appearance or effect. Use of a controlled substance in the manner prescribed for the student by the student's physician is not a violation. The term "under the influence" has a less strict meaning than it does under criminal law; for school purposes, the term means any level of impairment and includes even the odor of alcohol or illegal substances on the breath or person of a student; also, it includes being impaired by reason of the abuse of any material used as a stimulant.
8. Public indecency or sexual conduct.
9. Engaging in bullying, which includes any ongoing pattern of physical, verbal, or electronic abuse on school grounds, in a vehicle owned, leased, or contracted by a school being used for a school purpose by a school employee or a school employee's designee, or at school-sponsored activities or school-sponsored athletic events.
10. Sexually assaulting or attempting to sexually assault any person. This conduct may result in an expulsion regardless of the time or location of the offense if a complaint alleging such conduct is filed in a court of competent jurisdiction.
11. Engaging in any activity forbidden by law which constitutes a danger to other students or interferes with school purposes. This conduct may result in an expulsion regardless of the time or location of the offense if the conduct creates or has the potential to create a substantial interference with school purposes, such as the use of the telephone or internet off-school grounds to threaten.
12. A repeated violation of any rules established by the school district or school officials if such violations constitute a substantial interference with school purposes.
13. Truancy or failure to attend assigned classes or assigned activities; or tardiness to school, assigned classes or assigned activities.
14. The use of language, written or oral, or conduct, including gestures, which is profane or abusive to students or staff members. Profane or abusive language or conduct includes, but is not limited to, that which is commonly understood and intended to be derogatory toward a group or individual based upon race, gender, disability, national origin, or religion.

15. Dressing or grooming in a manner which is dangerous to the student's health and safety or a danger to the health and safety of others or repeated violations of the student dress and grooming standards; dressing, grooming, or engaging in speech that is lewd or indecent, vulgar or plainly offensive; dressing, grooming, or engaging in speech that school officials reasonably conclude will materially and substantially disrupt the work and discipline of the school; dressing, grooming, or engaging in speech that a reasonable observer would interpret as advocating illegal drug use.
16. Willfully violating the behavioral expectations for riding school buses or vehicles.

A student who engages in the following conduct shall be expelled for the remainder of the school year in which it took effect if the misconduct occurs during the first semester, and if the expulsion for such conduct takes place during the second semester, the expulsion shall remain in effect for the first semester of the following school year, with the condition that such action may be modified or terminated by the school district during the expulsion period on such terms as the administration may establish:

- a. The knowing and intentional use of force in causing or attempting to cause personal injury to a school employee, school volunteer, or student, except if caused by accident, self-defense, or on the reasonable belief that the force used was necessary to protect some other person and the extent of force used was reasonably believed to be necessary, or
- b. The knowing and intentional possession, use, or transmission of a dangerous weapon other than a firearm.

Knowingly and intentionally possessing, using, or transmitting a firearm on school grounds, in a school-owned or utilized vehicle, or during an educational function or event off school grounds, or at a school-sponsored activity or athletic event. This conduct shall result in an expulsion for one calendar year. "Firearm" means a firearm as defined in 18 U.S.C. 921, as that statute existed on January 1, 1995. That statute includes the following statement: "The term 'firearm' means (a) any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; (b) the frame or receiver of any such weapon; (c) any firearm muffler or firearm silencer; or (d) any destructive device." The Superintendent may modify such one year expulsion requirement on a case-by-case basis, provided that such modification is in writing. Bringing a firearm or other dangerous weapon to school for any reason is discouraged; however, a student will not be subject to disciplinary action if the item is brought or possessed under the following conditions:

- a. Prior written permission to bring the firearm or other dangerous weapon to school is obtained from the student's teacher, building administrator and parent.
- b. The purpose of having the firearm or other dangerous weapon in school is for a legitimate educational function.

For purposes of this policy, the term "dangerous weapon" includes any personal safety or security device (such as tasers, mace and pepper spray). If a student desires to carry or possess a personal safety or security device, the student must obtain prior approval from the building principal before bringing such device on school grounds. If a student obtains prior approval from the building principal, the student must store the device during the school day in the

student's locker, in the main office or in another secure location designated by the building principal. A student shall not carry a personal safety or security device during the school day.

D. Additional Student Conduct Expectations and Grounds for Discipline. The following additional student conduct expectations are established. Failure to comply with such rules is grounds for disciplinary action. When such conduct occurs on school grounds, in a vehicle owned, leased, or contracted by a school being used for a school purpose or in a vehicle being driven for a school purpose by a school employee or by his or her designee, or at a school-sponsored activity or athletic event, the conduct is grounds for long-term suspension, expulsion or mandatory reassignment.

1. Student Appearance: Students are expected to dress in a way that is appropriate for the school setting. Students should not dress in a manner that is dangerous to the health and safety of anyone or interferes with the learning environment or teaching process in our school. Following is a list of examples of attire that will not be considered appropriate, such list is not exclusive and other forms of attire deemed inappropriate by the administration may be deemed inappropriate for the school setting:
 - a. Clothing that shows an inappropriate amount of bare skin or underwear (midriffs, spaghetti straps, sagging pants) or clothing that is too tight, revealing or baggy, or tops and bottoms that do not overlap or any material that is sheer or lightweight enough to be seen through, or otherwise of an appropriate size and fit so as to be revealing or drag on the ground.
 - b. Clothing or jewelry that advertises or promotes beer, alcohol, tobacco, or illegal drugs.
 - c. Clothing or jewelry that could be used as a weapon (chains, spiked apparel) or that would encourage "horse-play" or that would damage property (e.g. cleats).
 - d. Head wear including hats, caps, bandannas, and scarves.
 - e. Clothing or jewelry which exhibits nudity, makes sexual references or carries lewd, indecent, or vulgar double meaning.
 - f. Clothing or jewelry that is gang related.

A student who is a member of an indigenous tribe of the United States or another country may wear tribal regalia in any location where the student is authorized to be on such school grounds or at any school function, as long as the tribal regalia does not interfere with the educational process and does not endanger another person, as determined by the administration.

The final decision regarding attire and grooming will be made by the Principal or Superintendent. In the event a student is uncertain as to whether a particular item or method of grooming is consistent with the school's guidelines, the student should contact the Principal for approval, and may also review such additional posting of prohibited items or grooming which may be available in the Principal's office.

2. Academic Integrity.

- a. Policy Statement: Students are expected to abide by the standards of academic integrity established by their teachers and school administration. Standards of academic integrity are established in order for students to learn as much as possible from instruction, for students to be given grades which accurately reflect the student's level of learning and progress, to provide a level playing field for all students, and to develop appropriate values.

Cheating and plagiarism violate the standards of academic integrity. Sanctions will be imposed against students who engage in such conduct.

- b. Definitions: The following definitions provide a guide to the standards of academic integrity:

- (1) "Cheating" means intentionally misrepresenting the source, nature, or other conditions of academic work so as to accrue undeserved credit, or to cooperate with someone else in such misrepresentation. Such misrepresentations may, but need not necessarily, involve the work of others. Cheating includes, but is not limited to:

- (a) Tests (includes tests, quizzes and other examinations or academic performances):

- (i) Advance Information: Obtaining, reviewing or sharing copies of tests or information about a test before these are distributed for student use by the instructor. For example, a student engages in cheating if, after having taken a test, the student informs other students in a later section of the questions that appear on the test.

- (ii) Use of Unauthorized Materials: Using notes, textbooks, pre-programmed formulae in calculators, or other unauthorized material, devices or information while taking a test except as expressly permitted. For example, except for "open book" tests, a student engages in cheating if the student looks at personal notes or the textbook during the test.

- (iii) Use of Other Student Answers: Copying or looking at another student's answers or work, or sharing answers or work with another student, when taking a test, except as expressly permitted. For example, a student engages in cheating if the student looks at another student's paper during a test. A student also engages in cheating if the student tells another student answers during a test or while exiting the testing room, or knowingly allows another student to look at the student's answers on the test paper.

- (iv) Use of Other Student to Take Test. Having another person take one's place for a test, or taking a test for another student, without the specific knowledge and permission of the instructor.
 - (v) Misrepresenting Need to Delay Test. Presenting false or incomplete information in order to postpone or avoid the taking of a test. For example, a student engages in cheating if the student misses class on the day of a test, claiming to be sick, when the student's real reason for missing class was because the student was not prepared for the test.
- (b) Papers (includes papers, essays, lab projects, and other similar academic work):
- i) Use of Another's Paper: Copying another student's paper, using a paper from an essay writing service, or allowing another student to copy a paper, without the specific knowledge and permission of the instructor.
 - (ii) Re-use of One's Own Papers: Using a substantial portion of a piece of work previously submitted for another course or program to meet the requirements of the present course or program without notifying the instructor to whom the work is presented.
 - (iii) Assistance from Others: Having another person assist with the paper to such an extent that the work does not truly reflect the student's work. For example, a student engages in cheating if the student has a draft essay reviewed by the student's parent or sibling, and the essay is substantially re-written by the student's parent or sibling. Assistance from home is encouraged, but the work must remain the student's.
 - (iv) Failure to Contribute to Group Projects. Accepting credit for a group project in which the student failed to contribute a fair share of the work.
 - (v) Misrepresenting Need to Delay Paper. Presenting false or incomplete information in order to postpone or avoid turning in a paper when due. For example, a student engages in cheating if the student misses class on the day a paper is due, claiming to be sick, when the student's real reason for missing class was because the student had not finished the paper.
- (c) Alteration of Assigned Grades. Any unauthorized alteration of assigned grades by a student in the teacher's

grade book or the school records is a serious form of cheating.

- (2) “Plagiarism” means to take and present as one's own a material portion of the ideas or words of another or to present as one's own an idea or work derived from an existing source without full and proper credit to the source of the ideas, words, or works. Plagiarism includes, but is not limited to:
 - (a) Failure to Credit Sources: Copying work (words, sentences, and paragraphs or illustrations or models) directly from the work of another without proper credit. Academic work frequently involves use of outside sources. To avoid plagiarism, the student must either place the work in quotations or give a citation to the outside source.
 - (b) Falsely Presenting Work as One's Own: Presenting work prepared by another in final or draft form as one's own without citing the source, such as the use of purchased research papers or use of another student's paper.
 - (3) “Contributing” to academic integrity violations means to participate in or assist another in cheating or plagiarism. It includes but is not limited to allowing another student to look at your test answers, to copy your papers or lab projects, and to fail to report a known act of cheating or plagiarism to the instructor or administration.
- c. Sanctions: The following sanctions will occur when a student engages in cheating, plagiarism, or contributing to an academic integrity offense:
- (1) Academic Sanction. The instructor will refuse to accept the student's work in which the academic integrity offense took place, assign a grade of "F" or zero for the work, and require the student to complete a test or project in place of the work within such time and under such conditions as the instructor may determine appropriate. In the event the student completes the replacement test or project at a level meeting minimum performance standards, the instructor will assign a grade which the instructor determines to be appropriate for the work.
 - (2) Report to Parents and Administration. The instructor will notify the Principal of the offense and the instructor or Principal will notify the student's parents or guardian.
 - (3) Student Discipline Sanctions. Academic integrity offenses are a violation of school rules. The Principal may recommend sanctions in addition to those assigned by the instructor, up to and including suspension or expulsion. Such additional sanctions will be given strong consideration where a student has engaged in serious or repeated academic integrity offense or other rule violations, and where the academic sanction is otherwise not a sufficient remedy,

such as for offenses involving altering assigned grades or contributing to academic integrity violations.

E. Law Violations

1. Any act of a student which is a basis for expulsion and which the principal or designee knows or suspects is a violation of the Nebraska Criminal Code will be reported to law enforcement as soon as possible. Conduct to be reported for law enforcement referral includes conduct that may constitute a felony, conduct which may constitute a threat to the safety or well-being of students or others in school programs and activities, and conduct that the legal system is better equipped to address than school officials. Conduct that does not need to be reported for law enforcement referral includes typical adolescent behavior that can be addressed by school administrators without the involvement of law enforcement. In making the decision of whether to report, consideration should be given to the student's maturity, mental capacity, and behavioral disorders, where applicable. When appropriate, it shall be the responsibility of the referring administrator to contact the student's parent of the fact that the referral to legal authorities has been or will be made.

The foregoing reporting standards shall be reviewed annually by the school Board on or before August 1 of each year, be annually reviewed in collaboration with the County Attorney each year, be distributed to each student and his or her parent or guardian at the beginning of each school year, or at the time of enrollment if during the school year, and shall be posted in conspicuous places in each school during the school year.

2. When a principal or other school official releases a minor student to a peace officer (e.g., police officer, sheriff, and all other persons with similar authority to make arrests) for the purpose of removing the minor from the school premises, the principal or other school official shall take immediate steps to notify the parent, guardian, or responsible relative of the minor regarding the release of the minor to the officer and regarding the place to which the minor is reportedly being taken, except when a minor has been taken into custody as a victim of suspected child abuse, in which case the principal or other school official shall provide the peace officer with the address and telephone number of the minor's parents or guardian.

Extracurricular Activity

Section 1 Extracurricular Activity Philosophy

Extracurricular activity programs enrich the school's curriculum by offering a wide variety of activities for students to participate in. They are considered an integral part of the school's education program and provide experiences that will help students physically, mentally, and emotionally.

The element of competition and winning, though it exists, is controlled to the point it does not determine the nature or success of the program. This is considered educationally and psychologically sound because of the training it offers for living in a competitive society. Students are stimulated to want to win and excel, but the principles of good sportsmanship always prevail to enhance the educational values of contests. Participation in activities as a competitor and as a student spectator is integral to the student's academic experiences. Such participation is a privilege that carries responsibilities to the school, team, student body, community, and students. In their play and conduct, students represent all of these groups. Such experiences contribute to the knowledge, skill, and emotional patterns that they possess, thereby making them better individuals and citizens.

Safety

The District's philosophy is to maintain an activities program that recognizes the importance of the safety of the participants. To ensure safety, participants are required to become thoroughly familiar with the dangers and safety measures established for the activity in which they participate, to adhere to all safety instructions for the activity in which they participate, to inform their coach or sponsor when they are injured or have health problems that require their activities be restricted, and to exercise common-sense.

Warning for Participants and Parents

The purpose of this warning is to bring your attention to the existence of potential dangers associated with athletic injuries. Participation in any intramural or athletic activity may involve injury of some type. The severity of such injury can range from minor cuts, bruises, sprains, and muscle strains to more severe injuries to the body's bones, joints, ligaments, tendons, or muscles to catastrophic injuries to the head, neck, and spinal cord. On rare occasions, injuries can be so severe as to result in total disability, paralysis, or death. Even with appropriate coaching, appropriate safety instruction, proper protective equipment, and strict observance of the rules, injuries are still a possibility.

Section 2 Extracurricular Activity Code of Conduct

The purpose of the Code of Conduct is to ensure that participation in extracurricular activities is a privilege. This privilege carries responsibilities to the school, team, student body, and community. Participants represent themselves and their school and community in all of their actions. Others judge our school on the student participants' conduct and attitudes and how they contribute to our school spirit and community image.

The student participants' performance and devotion to high ideals and values make their school and community proud. Consequently, participation depends upon adherence to this Code of Conduct and the school district's policies, procedures, and rules.

Scope of the Code of Conduct.

Activities Subject to the Code of Conduct: The Code of Conduct applies to all extracurricular activities **and is in effect for the entire calendar year, including summer months**. Extracurricular activities mean student activities or organizations supervised or administered by the school district that do not count toward graduation or grade advancement and in which the school does not otherwise require participation.

Extracurricular activities include, but are not limited to, all sports, cheerleading, dance team, Pep Club, Pep Band, vocal, band, speech and drama, One-Act, FBLA, FCCLA, Spanish Club, Art Club, Student Council, Student Advisory Board, National Honor Society, and other school-sponsored organizations and activities. The Code of Conduct also applies to participation in school-sponsored activities such as school dances and royalty for such activities.

A participant is a student who participates in, has participated in, or will participate in an extracurricular activity.

When: The Code of Conduct rules apply to conduct that occurs at any time during the **school** calendar year, **including the summer months, and also includes the time frame that begins with the official starting day of the fall sports season established by the NSAA and extends to the last day of the spring sports season established by the NSAA**

~~The rules also apply when a student participates in or is scheduled to participate in an extracurricular activity held outside the school year or the NSAA season. For example, if an FBLA or FCCLA student plans to participate in a conference in July and commits a Code of Conduct infraction in June, the student may be suspended from the conference. Conduct during the summer months may also affect a student's participation under the team selection and playing time guidelines.~~

Where: The Code of Conduct rules apply regardless of whether the conduct occurs on or off school grounds. If the conduct occurs on school grounds, at a school function or event, or in a school vehicle, the student may also be subject to further discipline under the general student code of conduct. A student who is **serving an out of school**

suspension or expelled from school shall not be permitted to participate in activities during the period of the suspension or expulsion and may also receive an extended activity suspension. **A student that is serving an in-school suspension may be required to attend practices. This will be at the discretion of the administration, coach and/or activity sponsor.**

Grounds for Extracurricular Activity Discipline. Students who participate in extracurricular activities are expected to demonstrate cooperation, patience, pride, character, self-respect, self-discipline, teamwork, sportsmanship, and respect for authority. The Board of Education has determined the following conduct rules to be reasonably necessary to aid students, further school purposes, and prevent interference with the educational process. Such conduct constitutes grounds for suspension from participation in extracurricular activities and grounds for other restrictions or disciplinary measures related to extracurricular activity participation:

1. Willfully disobeying any reasonable written or oral request of a school staff member or voicing disrespect to those in authority.
2. Use of violence, force, coercion, threat, intimidation, bullying, harassment, or similar conduct in a manner that constitutes a substantial interference with school or extracurricular activity purposes or making any communication that a reasonable person would interpret as a serious expression of an intent to harm or cause injury to another.
3. Willfully causing or attempting to cause substantial property damage, stealing or trying to steal property, repeated damage or theft involving property, or setting or attempting to set a fire of any magnitude.
4. Causing or attempting to cause personal injury to any person, including a school employee, school volunteer, or student. Personal injury caused by accident, self-defense, or other action undertaken on the reasonable belief that it was necessary to protect another person shall not constitute a violation.
5. Threatening or intimidating any student for the purpose of, or with the intent of, obtaining money or anything of value from a student or making a threat that causes or may be expected to cause a disruption to school operations.
6. Knowingly possessing, handling, or transmitting any object or material that is ordinarily or generally considered a weapon (including personal safety or security devices, such as tasers, mace, and pepper spray, unless a District administrator gives prior approval) or that has the appearance of a weapon, or bringing or possessing any explosive device, including fireworks, on school grounds or at a school function or event, or in a manner that is unlawful or contrary to school activity rules.
7. Engaging in selling, using, possessing, or dispensing of alcohol, tobacco, narcotics, drugs, controlled substance, or an inhalant; being under the influence of any of the above; possession of drug paraphernalia, or the selling, using, possessing, or dispensing of an imitation controlled substance as defined in section 28-401 of the Nebraska statutes, or material represented to be alcohol, narcotics, drugs, a controlled substance or inhalant. Tobacco means any tobacco product (including but not limited to cigarettes, cigars, and chewing tobacco), vapor products (such as e-cigarettes), electronic nicotine delivery systems,

alternative nicotine products, tobacco product look-alikes, and products intended to replicate tobacco products by appearance or effect. Use of a controlled substance in the manner prescribed for the student by the student's physician is not a violation. The term "under the influence" has a less strict meaning than it does under criminal law; for school purposes, the word means any level of impairment and includes even the odor of alcohol or illegal substances on the breath or person of a student; also, it includes being impaired because of the abuse of any material used as a stimulant.

8. Public indecency.
9. Sexual assault or attempting to assault any person sexually. Engaging in sexual conduct, even if consensual, on school grounds or at a school function or event.
10. Engaging in any activity forbidden by law that constitutes a danger to other students, interferes with school purposes or an extracurricular activity, or reflects a lack of high ideals.
11. Repeated violation of any of the school rules.
12. Truancy or failure to attend assigned classes or assigned activities; or tardiness to school, assigned classes, or assigned activities.
13. Using written or oral language or conduct, including gestures, is profane or abusive to a school employee, school volunteer, or student. Profane or abusive language or conduct includes, but is not limited to, that which is commonly understood and intended to be derogatory toward a group or individual based on race, gender, national origin, or religion.
14. Dressing or grooming in a manner that is dangerous to the student's health and safety or a danger to the health and safety of others or repeated violations of dress and grooming standards; dressing, grooming, or engaging in speech that is lewd or indecent, vulgar or offensive; dressing, grooming, or engaging in speech that school officials reasonably conclude will materially and substantially disrupt the work and discipline of the school or extracurricular activity; dressing, grooming, or engaging in speech that a reasonable observer would interpret as advocating illegal drug use.
15. Willfully violating the behavioral expectations for those students riding Bloomfield Community Schools buses or vehicles used for activity purposes.
16. Failure to report for the activity at the beginning of the season. Reporting for one activity may count as reporting on time if the coach or the supervisor approves a change in activity within the season.
17. Failure to participate in regularly scheduled classes on an extracurricular activity or event day.
18. Failure to attend scheduled practices and meetings. If circumstances arise to prevent the participant's attendance, the validity of the reason will be determined by the coach or sponsor. Every reasonable effort should be made to notify the coach or sponsor before any missed practice or meeting.
19. All other reasonable rules or regulations adopted by the coach or sponsor of an extracurricular activity shall be followed, provided that the coach or sponsor advises participants of such rules and regulations in writing.
20. Failure to comply with any rule established by the Nebraska School Activities Association, including, but not limited to, the rules relating to eligibility.

All terms used in the Code of Conduct have a less strict meaning than under criminal law and are subject to reasonable interpretation by school officials.

This Code of Conduct, and all school, coach, and sponsor level codes of conduct for extracurricular activities, are to be interpreted in accordance with free speech rights. Using social media sites, even while not on school grounds or at a school activity, to engage in conduct or speech that constitutes bullying, harassment, threats, advocates or depicts illegal activity (e.g., illegal drug use, alcohol use, or sexual activity), or causes a substantial disruption to school activities (or is reasonably forecast to create a substantial disruption) may result in discipline, including suspension or removal from the team or the activity, subject to free speech rights. These activities are to be reported to the school administration. Consequences will be determined by coaches, sponsors, and/or administration.

Consequences.

For violations of the Code of Conduct, students may be suspended from practices, interscholastic competitions, co-curricular activities and attendance at school activities. The school administration will determine the suspension period or other discipline for such offenses.

The disciplinary consequence will be determined based on the offense's seriousness, prior violations, the student's compliance with the self-reporting obligations, the student's level of cooperation and willingness to resolve the matter, and the student's demonstration of a commitment not to commit future violations.

Drug and Alcohol Violations.

Meaning of Terms.

Use or consumption includes any level of consumption or use. Using a controlled substance in the manner prescribed for the student by the student's physician is not a violation.

Under the influence means any level of impairment and includes even the odor of alcohol on the breath or person of a student or the odor of an illicit drug on the student. Also, it includes being impaired because of the abuse of any material used as a stimulant.

Possession includes having control of the substance and being in the same area where the substance is present, and no responsible adult is present and responsible for the substance. Possession includes situations where, for example:

- (1) Alcohol is in a vehicle where the student is present. The student is considered to be in possession if the student is aware that the alcohol is in the vehicle, even though the student has not touched or consumed the alcohol and
- (2) Alcohol is present at a party attended by the student. The student is considered to be in possession if the student is aware that alcohol is at the party and fails to

immediately leave the party, even though the student has not touched or consumed the alcohol.

In these situations, a violation would not exist if the alcohol is in the control of a parent or guardian or other responsible adult (age 21 or older) such that students are not allowed to access the alcohol. A violation would also not exist if the student did not know or have a reasonable basis to know that alcohol would be present and the student leaves the location where the alcohol is present as soon as the student could safely do so. (Students are expected to leave immediately but are not to do so in a manner that would endanger them. For example, you are not to leave in a car being driven by a person who has been drinking just to get away from the alcohol party immediately when there is no other way to get home. Instead, you should call for a safe ride home and, while waiting, clearly distance yourself from the alcohol).

(3) Random Drug and Alcohol Testing Procedures:

The Board of Education is responsible for maintaining discipline, health and safety. The Board recognizes that student substance abuse presents a continuing challenge and a danger to the student population as a whole. The Board is committed to maintaining competitive extracurricular activity programs in a safe, healthy and secure environment. The Board is further committed to being proactive in ensuring that students who participate in extracurricular activities represent the District in a positive manner.

Eligibility for Random Testing. Students who participate in competitive extracurricular activities at the high school (Grades 7-12) level are eligible for random testing. Competitive extracurricular activities are activities which are sponsored or approved by the Board, but are not offered for credit towards graduation, and which involve competition, comparison, or judging of the individuals or groups with other individuals or groups as part of selection or participation. Competitive extracurricular activities include, but are not limited to, Athletic Programs, Cheerleading, Band, Academic Teams, One-Act, Choir, Quiz Bowl, FFA, FCCLA and Speech Team.

To participate in a competitive extracurricular activity, students must submit a completed Consent to Test Form on or before the first practice or on or before the first event or meeting, whichever is applicable. The form must be signed by the student and the student's parent or guardian.

Students remain eligible for testing from the date the Consent to Test Form is turned in until the student is no longer involved in extracurricular activities, or until the student graduates or is otherwise no longer enrolled in the District.

Students who are not participants in a competitive extracurricular activity may volunteer for participation in the testing program by submitting a completed Consent to Test Form.

Testing Procedure. Random Testing: for testing will be identified by a unique personal identifier that does not make the student known to persons other than the school officials

who are directly involved in the testing program. No less than twenty percent (20%) of the pool of eligible students will be tested each school year. The Superintendent shall have the authority to determine the percentage to test, subject to the minimum 20% level, dependent on the nature and extent of the prevailing problem with drug usage in the school community from time to time. Testing will take place throughout the school year.

Collection: The testing collection process will be conducted in a manner that protects student privacy, will also guard against tampered specimens and ensure an accurate chain of custody of the specimen. To the extent the testing involves the collection of urine, an adult monitor is to wait outside a closed restroom stall and listen for the normal sounds of urination.

The specific testing procedures and mechanism are to be created by the Superintendent or designee. The tests are to be designed to detect only the use of illegal drugs, not medical conditions or the presence of authorized prescription medications.

Confidentiality: All activities related to the testing policy will be carried out in accordance with the requirements of the Family Educational Rights and Privacy Act (FERPA), the Protection of Pupil Rights Amendment (PPRA), and any other applicable confidentiality laws.

Test results will be shared only with staff who have a legitimate educational interest in having access to the information, on a "need to know" basis. Test results will not be turned over to any law enforcement authority in the absence of a court order, subpoena, or other legal process requiring such.

Test results will be kept in confidential files separate from the students' other records. The test results will be destroyed when no longer needed for individual student situations or for the overall testing program.

Consequences for Positive Tests: Any of the following shall be considered to be a positive test result:

1. A confirmed positive alcohol or drug test
2. Refusal to participate in testing when selected, including the submission of a Drop Form upon being requested to be tested; and/or Tampering with the specimen collection process.

The following shall result from a positive test result: The student's parents or guardians will be contacted, and a meeting will be held to discuss the positive test result, with the object of collaborating on a plan to assist the student in avoiding future substance abuse.

Appeal Procedures. A student or the student's parents or guardians may request a retest of his/her specimen at their own expense at a laboratory approved by the Superintendent

or designee and which follows federal Substance Abuse and Mental Health Services Administration (SAMHSA) standards concerning drug testing protocols and procedures. Requests must be made within twenty-four (24) hours of receiving the results of their drug test. The specimen previously submitted will be forwarded to the approved lab in cooperation with the District approved outside agency responsible for confirmatory testing. Results of the retest will be provided to the Superintendent or designee by the approved laboratory. During the appeal period the student may not participate in competitive extracurricular activities.

In the event a student or the student's parents or guardians wish to challenge a positive test result on a basis other than the veracity of the test result, an appeal may be made in accordance with the policy on extracurricular activity discipline.

Consequences:

~~For violations of the Code of Conduct, students may be suspended from practices, interscholastic competitions, and co-curricular activities. The school administration will determine the suspension period or other discipline for such offenses.~~

~~The disciplinary consequence will be determined based on the offense's seriousness, prior violations, the student's compliance with the self-reporting obligations, the student's level of cooperation and willingness to resolve the matter, and the student's demonstration of a commitment not to commit future violations.~~

Because of the significance of drug and alcohol violations on the student participants, other students, and the school, the following consequences are established for such violations:

~~————~~ **Drugs and Alcohol:**

~~The student's privilege of participating in extracurricular activities will be restricted as follows:~~

- ~~1. For a first violation positive test, the student is ineligible to participate in any extracurricular activities for thirty (30) calendar days. The student may continue to participate in extracurricular activities if, within ten (10) school days of the meeting with the parents or guardians, the student shows proof that the student is receiving substance abuse counseling with a qualified professional and submits to a second drug test within two (2) weeks.~~
- ~~2. For a second and subsequent violation(s) positive test, the student is ineligible to participate in any extracurricular activity for 1 calendar year. To return to participation, the student must complete substance abuse counseling and, to the extent determined appropriate by a qualified professional, and in any event for no less than four (4) hours, and must submit to five follow-up drug tests during the next twelve-month period.~~

- ~~3. The parents or guardians are responsible for the costs of the rehabilitation program, which includes the substance abuse counseling and follow-up testing described above. Positive results will not lead to the imposition of any academic consequence or disciplinary action, other than the above-described limitations on the privilege to participate in extracurricular activities.~~
- ~~4. Reduction for Participation in Chemical Dependency Program: If the student and parents agree to participate in a school-approved program for chemical dependency, the consequence will be reduced to only the next activity in which the student was to participate (including at least one contest) in the case of a first violation, and to a commensurate reduction (approximately 80%, as determined by the administration, for a second or subsequent violation).
The program must be administered by a certified alcohol and drug abuse counselor and approved by the school authorities. The student must successfully complete the approved chemical dependency program. Proof of successful completion must be submitted in writing to the Activities Director. Failure to participate and successfully complete the approved chemical dependency program may cause the participating student to be suspended from extracurricular activities for one calendar year. All costs associated with the program are to be borne by the student/parent, or guardian.~~
5. More Serious Violations: In the event of more serious drug or alcohol violations, such as students engaging in the use of especially serious drug offenses (cocaine, meth, etc.) or procuring alcohol for minors, the consequence of the violation is not limited by the foregoing, and may be established in the sound discretion of the administration.

Drugs and Alcohol. An activity participant who violates the drug or alcohol rules (other than steroids) shall be prohibited from participating in any extracurricular activity for the following minimum periods. Attendance at activities during that time will be determined by administration:

1. First Violation: 30 calendar days.
2. Second Violation: 90 calendar days
3. Third and Any Subsequent Violations: One (1) calendar year.
4. Reduction for Self-Reporting: If the student has self-reported, the first violation shall be reduced to 20 days. Subsequent violations shall not be privy to this option.
5. Reduction for Participation in Chemical Dependency Program: If the student and parents agree to participate in a school-approved program for chemical dependency, a first offense consequence will be reduced to only the next activity in which the student was to participate (including at least one contest). This applies to the first violation only. The program must be administered by a certified alcohol and drug abuse counselor and be approved by the school authorities. The student will need to successfully complete the approved chemical dependency program before returning to activities. Proof of successful completion of the program must be submitted in writing to the Principal. Failure to participate and successfully complete the approved chemical dependency program may cause the participating student to be suspended from extracurricular activities for one calendar year. All costs associated with the program are to be borne by the student/parent or guardian.
6. More Serious Violations: In the event of more serious drug or alcohol violations, such as students engaging in use of especially serious drug offenses (cocaine, meth, etc.) or

procuring alcohol for minors, the consequence of the violation is not limited by the foregoing, and may be established in the good discretion of the administration.

Steroid Offenses. A student who possesses, dispenses, delivers, or administers anabolic steroids shall be prohibited from participating in any extracurricular activity for the following minimum periods:

1. First Violation: 45 consecutive days.
2. Second or Any Subsequent Offense: One calendar year.

When Suspensions Begin, All suspensions begin with the next scheduled activity in which the student is a participant, after the determination by school officials of the sanction to be imposed, provided that the school officials shall have the discretion to establish a ~~time~~-duration period for the suspension that makes the suspension have a real consequence for the student. During a suspension, participants may be required or permitted to practice at the sole discretion of the coach or activity sponsor. Suspensions in the Spring will be carried over to the Fall when the suspension has not been fully served or when determined appropriate for the suspension to have a real consequence for the student.

Letters and Post-Season Honors. A student who commits a Code of Conduct violation is:

1. Eligible to letter, provided the student meets the criteria of the coach or sponsor.
2. Not eligible to receive honors during the sport or activity in which they are participating at the time of the offense and/or in sports or activities in which they have been suspended due to a code violation. The coach/sponsor, with the Athletic Director's approval, may make an exception where the student has self-reported or otherwise demonstrated excellence in character, allowing for such honors.

Self-Reporting. A student who violates the Code of Conduct must self-report. The self-report must be made to the principal, athletic director, head coach, or sponsor of an activity in which the student participates. The student's parent or guardian may initiate the self-reporting process, but the student will be later required to give a written statement of the self-report. The self-report must be made the earlier:

- (1) Before the end of the next school day after the conduct occurred and
- (2) Before participation in an extracurricular or co-curricular activity.

In making a self-report, the student must identify the events that took place, what conduct the student engaged in, and any witnesses to the student's conduct, and will be required to put this information in a written statement. In the event the student has received a criminal citation, charge, or ticket and proclaims innocence of a violation, the student will be required to self-report such offense and provide information as to why they should be found innocent, not as it relates to the criminal offense, but as it relates to the Code of Conduct.

All students are expected to be honest and forthright with school officials. In the event the coach or activity sponsor or any school administrator asks a student participant for information pertaining to compliance (or lack of compliance) by the student or other student participants with the Code of Conduct or eligibility conditions for participation in activities, the student is expected to fully, completely, and honestly provide the information. Students may be disciplined for a failure to be honest and forthright.

Determining a Violation Has Occurred. A violation of the Code of Conduct will be determined to have occurred based on any of the following criteria:

1. When a student is cited by law enforcement, school officials have a reasonable basis for determining that grounds for the issuance of the citation exist.
2. When a student is convicted of a criminal offense. Conviction includes, without limitation, a plea of no contest and an adjudication of delinquency by the juvenile court.
3. When a student admits to violating one of the standards of the Code of Conduct.
4. When another person accuses a student of violating one of the standards of the Code of Conduct and school officials determine that such information is reliable.
5. When school officials otherwise find sufficient evidence to support a determination that a violation has occurred.

Procedures for Extracurricular Discipline. The following procedures are established for suspensions from participation in extracurricular activities:

1. Investigation. The school official(s) considering the suspension will conduct a reasonable investigation of the facts and circumstances and determine whether the suspension will help the student or other students, further school purposes, or prevent interference with a school purpose.
2. Meeting. Before the commencement of the suspension, the school official considering the suspension or their designee will provide the student an opportunity to give the student's side of the story. The meeting for this purpose may be held in person or via a telephone conference.
 - a. The student will be given oral or written notice of what the student is accused of having done, an explanation of the evidence the school has, and the opportunity to explain the student's version. Detail is not required where the activity participant has made a self-report or otherwise admits the conduct. Names of informants may be kept confidential where determined to be appropriate.
 - b. The suspension may be imposed before the meeting if the meeting can not reasonably be held before the suspension begins. In that case, the meeting will occur as soon as reasonably practicable. The student is responsible for cooperating in scheduling the meeting.
3. Notice Letter. Within two school days (two business days if school is not in session) or such additional time, as is reasonably necessary following the suspension, ~~the Principal or Principal's Athletic Director or the Athletic Director's~~ designee will send a written statement to the student and the student's parents or

- guardian. The statement will describe the student's conduct violation and the discipline imposed. The student and parents or guardian will be informed of the opportunity to request a hearing.
4. Informal Hearing Before Superintendent. The student or student's parent/guardian may request an informal hearing before the Superintendent. The Superintendent may designate the Athletic Director or another administrator not responsible for the suspension decision as the Superintendent's designee to conduct the hearing and make a decision.
 - a. The parent or guardian must sign a form to request such a hearing. The form will be provided with the notice letter or made available by request from the Principal's office.
 - b. The superintendent's office must receive the request for a hearing within five calendar days of receiving the notice letter.
 - c. If a hearing is requested:
 - i. The hearing will be held within ten calendar days of receipt of the request, subject to extension for good cause as determined by the Superintendent or the Superintendent's designee.
 - ii. The Superintendent or the Superintendent's designee will notify the participants of the time and place of the hearing a reasonable time in advance to allow preparation for the hearing.
 - iii. Upon the hearing's conclusion, a written decision will be rendered within five school days (ten calendar days if school is not in session). The decision will be mailed or otherwise delivered to the participant, parents, or guardian.
 - iv. The school will keep a record of the hearing (copies of documents provided at the hearing and a tape recording or other recording of the informal hearing) if the parent/guardian requests it sufficiently before the hearing.
 5. No Stay of Penalty. There will be no stay of the penalty imposed pending completion of the due process procedures.
 6. Opportunity for Informal Resolution. These due process procedures do not prevent the student or parent/guardian from discussing and settling the matter with the appropriate school officials at any stage.

Section 3 Attendance

Student participants are expected to meet the following attendance expectations:

1. Attend school regularly. Students with "excessive absences," as determined under the school's attendance policy, are ineligible to participate in extracurricular activity contests or performances. Students who have four or more unexcused absences in the semester of participation will be ineligible to participate in extracurricular activity contests or performances.

2. Be on time for all scheduled practices, contests and departure for contests. If a participant cannot attend a practice or competition, the participant should contact the coach or sponsor in advance.
3. On the day of a contest, performance, or other activity, be in attendance for the full day. A student not in attendance the full day is ineligible for the competition, performance, or activity.

Exceptions may be made for extenuating circumstances, such as doctor/dentist appointments or family emergencies. The exception must be approved by the Principal or Athletic Director.

Every attempt should be made to *attend* on the day of a contest. Sleeping to rest up for the game will not be considered an extenuating circumstance, nor will going home ill and returning to play in the contest later that day.

Section 4 Academic Standards

Participation in extracurricular school activities is encouraged and desirable for all students. At the same time, each student's primary mission and responsibility is to establish a firm academic foundation. A student participating in extracurricular school activities must show evidence of sincere effort toward scholastic achievement. To be eligible for participation in extracurricular activities, students must:

1. Be enrolled in at least 25 credit hours in the semester of participation.
2. Maintain passing grades in all courses. A student not passing one or more classes at progress reporting times will be ineligible to participate in extracurricular activity contests or performances if the grade remains below passing one week after progress reporting time. The student will only be eligible once the student is passing all classes.
- ~~3. Maintain an overall "C" average to participate in extracurricular activities, except school dances.~~
4. Academic requirements do not apply to:
 - (A) Instructional field trips, which are a part of the scheduled course learning experience; or
 - (B) Activities or events are part of the student's grade requirements.

Policy 5004, NSAA bylaws, and state law govern the eligibility criteria for part-time students.

BOARD OF EDUCATION

The members of the Board of Education of Bloomfield have been elected by the people to establish the policies under which the school is to be operated. They appoint a superintendent, principal, and teachers to carry out those policies, and they act as an evaluation committee in measuring the results of the work of the school staff. The members of your Board of Education are:

Deb Wragge	President
Hally Ziegler	Vice President
Dee Bratetic	Member
Brady Folck	Member
Casey Schmeckpeper	Member
Justin Jindra	Member
Heather Gubbels	Secretary
Barb True	Treasurer

FUNCTIONS OF THE BOARD

Three functional activities are recognized in respect to the Board of Education's administration of public education within the School District.

- a. Policy-Making
 - i. Planning is basic to all activities. Policy-making is that function, which determines what shall be done, establishes procedures for accomplishing the tasks, selects an executive officer and delegates to him the placing of plans and policies into operation and provides the financial means for their achievement.
- b. Executive
 - i. The executive is that function which is concerned with the placing into operation the plans and policies, keeping the Board of Education informed and furnishing creative leadership to the Board and to the Profession.
- c. Hiring and Evaluation of the Superintendent: The school board is responsible for hiring the

Superintendent who serves as the chief executive officer of the district. The board and superintendent then collaborate to set goals and priorities for the district. The board also evaluates the Superintendent's performance annually and establishes contractual terms with the Superintendent.

PROCEDURES OF THE BOARD

1. While the Board of Education is charged by the state with the responsibility for providing educational opportunities for the children of its schools, and of directing those public school activities which the state entrusts to its care and supervision, a carefully planned pattern of authority is observed by the Board. In fulfilling its obligations, the Board acts similarly in its relationship to the school as do Boards of Directors to successful business organizations; that is, through the power of legislation, by determination of policies, and the evaluation of results. The direct administration of the school system is delegated to the Superintendent of Schools, whom the Board appoints to act as Executive Officer of the Board. The Superintendent is held individually and directly responsible to the Board for the execution of all its policies and its legislation, and for such other duties assigned to him by the Board. Individual members have status as Board members only when acting formally as members of the Board while it is in regular or special session, or when specifically entrusted by the Board to carry out definite assignments.

2. While it is true that the individual members of the Board exercise the authority and responsibility of their position only when the Board is in session, the public thinks of them as members of the Board twenty-four hours a day, and his/her own interest and desires to serve the community through his/her membership on the Board of Education continues when the Board is not in session. A single Board member has no authority and cannot speak for the Board, but the public has a right to expect him/her to be able to discuss school matters intelligently, and he/she has a right to expect to have access to the information which makes it possible for him/her to be intelligent about school affairs.

3. Much of his/her information may come to him/her in casual conversation with members of the public, parents, or employees of the Board. Much more of this information will come from bulletins and publications from the office of the Superintendent and members of his staff. When a Board member is seeking information about a specific problem he/she should ask the Superintendent to prepare a report on the matter with the help of his/her staff.

4. At times a person or group of persons may confront a single Board member with a problem or a complaint, which should be handled by the Superintendent or a member of his staff. Each Board member must decide how much time can be spent at this sort of thing, and what the demands of courtesy may be in each case, but the policy of the Board in such cases should be clear to all -- no member, nor the Board itself, will officially consider such problems or complaints until they have been submitted to the proper authority, generally the Superintendent or Principal(s), and a report made by the Superintendent to the Board in session. If satisfactory adjustment cannot be accomplished by this procedure, the Board may, if it deems it advisable, grant a hearing to the persons interested. Such a hearing will be held during a regular or special session of the Board.

5. When a member is confronted with a situation, which in his judgment justifies a departure from this procedure, it is suggested that the Board member withhold commitment and/or opinion until the matter has been presented to the whole Board during a regular meeting, committee of the whole or special session. It is often wise for Board members to postpone the formulation of their own opinion until they have had the benefit of hearing the issue discussed by the Board where all aspects of the problem are aired.

PARAPROFESSIONALS

Paraprofessionals provide valuable assistance in the educational process and allow teachers to carry out their responsibilities in a more efficient and effective manner. A paraprofessional must not, however, assume teaching responsibilities. The classroom teacher must maintain the role of leadership and responsibility for the students, with the teacher aide in a supportive role. Paraprofessionals may be used to assist the classroom teacher by, among other tasks, assisting with instructional activities under the direction of the teacher, helping to supervise students, copying tests and other written material, organizing class materials, preparing bulletin boards, grading tests or class work, and calculating and recording grades. Paraprofessionals are to work only on and within their assigned workdays. If the classroom teacher desires the paraprofessionals to work hours other than the assigned work hours or assigned work day, he or she must contact the administration for approval.

SEXUAL HARASSMENT

The Board of Education is committed to providing an educational environment free from unwelcome sexual advances, requests for sexual favors and other verbal or physical conduct constituting sexual harassment. Sexual harassment involves conduct which interferes with work productivity and deprives employees of the opportunity to work, and students of the opportunity to learn and be in an environment free from unsolicited and unwelcome sexual overtones. Sexual harassment includes all unwelcome sexual advances and sexually oriented communication, requests for sexual favors, and other such verbal or physical conduct. Sexual harassment is a prohibited practice and is a violation of law. Sexual harassment has been defined by the United States Equal Opportunity Commission as follows: Unwelcome sexual advances, requests for sexual favors and other verbal or physical misconduct of a sexual nature constitutes sexual harassment when (a) submission to such conduct is made either explicitly or implicitly, a term or condition of an individual's employment; (b) submission to or rejection of such conduct by an individual is used as the basis for employment decisions affecting such individual or (c) the conduct has a purpose or effect of unreasonably interfering with an individual's work performance or creating an intimidating, hostile, or offensive working environment.

Any employee or student subjected to sexual harassment should directly inform the person subjecting them to said harassment that the conduct or communication is offensive and must stop. If the aggrieved person does not wish to communicate directly with the offender, or if the communication with the offender has not been effective, the aggrieved individual should report the conduct or communication to the principal or superintendent. If the offending person is the superintendent or a member of the Board of Education, the aggrieved person should report the incident to the Board of Education.

Initiation of a complaint of sexual harassment will not be cause for change or amendment in the complainant's employment compensation, work assignments or status as an employee or student.

DISCRIMINATION AND HARASSMENT

The school district prohibits discrimination and harassment based upon or related to race, color, national origin, sex, religion, marital status, disability, age or any other unlawful basis that (1) has the purpose or effect of creating an intimidating, hostile, or offensive school environment, (2) has the purpose or effect of substantially or unreasonably interfering with an employee's school performance, or (3) otherwise adversely affects an employee's employment opportunities. Employees who believe that they have been the

subject of unlawful discrimination or harassment due to their disability should contact the following Section 504 Coordinator: Reann Risor at (402-373-4800), (rrisor@blfdbees.org) or in person at school. Employees who believe that they have been the subject of unlawful discrimination or harassment due to their sex should contact the following Title IX Coordinator: Klint Conroy at (402-373-4800), (kfrevert@blfdbees.org) or in person at school. Employees who believe that they have been the subject of any other unlawful discrimination or harassment should contact Todd Strom at (402-373-4800), (tstrom@blfdbees.org) or in person at school. Employees may report discrimination or harassment to any staff member who will then forward it on to the appropriate coordinator or administrator. The staff member will follow school district policies to respond to the report.

COMPLAINT PROCEDURE

Good communication helps to resolve many misunderstandings and disagreements. This complaint procedure applies to board members, patrons, students, and school staff, unless the staff member is subject to a different grievance procedure pursuant to policy or contract. Individuals who have a complaint should discuss their concerns with appropriate school personnel in an effort to resolve problems. When such efforts do not resolve matters satisfactorily, including matters involving discrimination or harassment on the basis of race, color, national origin, sex, marital status, disability, or age, a complainant should follow the procedures set forth below.

A preponderance of the evidence will be required to discipline a party accused of misconduct. This means that the investigator must conclude that it is more likely than not that misconduct occurred.

Complaint and Appeal Process

1. The first step is for the complainant to speak directly to the person(s) with whom the complainant has a concern. For example, a parent who is unhappy with a classroom teacher should initially discuss the matter with the teacher. However, the complainant should skip the first step if the complainant believes speaking directly to the person would subject the complainant to discrimination or harassment.
2. The second step is for the complainant to speak to the building principal, Title IX Coordinator, superintendent of schools, or president of the board of education, as set forth below.
 - a. Complaints about the operation, decisions, or personnel within a building should be submitted in writing to the principal of the building.
 - b. Complaints about the operations of the school district or a building principal should be submitted in writing to the superintendent of schools.
 - c. Complaints about the superintendent of schools should be submitted in writing to the president of the board of education.
 - d. Complaints involving discrimination or harassment on the basis of race, color, national origin, sex, marital status, disability, or age may also be submitted at any time during the complaint procedure to the School District's Title IX Coordinator, Klint Conroy at kconroy@blfdbees.org.
3. When a complainant submits a complaint to an administrator or to the Title IX Coordinator, the administrator or Title IX coordinator shall promptly and thoroughly investigate the complaint, and shall:
 - a. Determine whether the complainant has discussed the matter with the staff member involved.
 - i. If the complainant has not, the administrator or Title IX coordinator will urge the complainant to discuss the matter directly with that staff member, if appropriate.
 - ii. If the complainant refuses to discuss the matter with the staff member, the administrator or Title IX/504 coordinator shall, in his or her sole discretion, determine whether the complaint should be pursued further.

- b. Strongly encourage the complainant to reduce his or her concerns to writing.
 - i. Interview the complainant to determine:
 - 1. All relevant details of the complaint;
 - 2. All witnesses and documents which the complainant believes support the complaint;
 - 3. The action or solution which the complainant seeks.
 - 4. Respond to the complainant. If the complaint involved discrimination or harassment, the response shall be in writing and shall be submitted within 180 days after the administrator or Title IX coordinator received the complaint.
- c. If either the complainant or the accused party is not satisfied with the administrator's or the Title IX coordinator's decision regarding a complaint, he or she may appeal the decision to the superintendent.
 - i. This appeal must be in writing.
 - ii. This appeal must be received by the superintendent no later than ten (10) business days from the date the administrator or Title IX coordinator communicated his/her decision to the complainant.
 - iii. The superintendent will investigate, as he or she deems appropriate. However, all matters involving discrimination or harassment shall be promptly and thoroughly investigated.
 - iv. Upon completion of this investigation, the superintendent will inform the complainant in writing of his or her decision. If the complaint involved discrimination or harassment, the superintendent shall submit the decision within 180 days after the superintendent received the complainant's written appeal.
- d. If either the complainant or the accused party is not satisfied with the superintendent's decision regarding a complaint, he or she may appeal the decision to the board.
 - i. This appeal must be in writing.
 - ii. This appeal must be received by the board president no later than ten (10) business days from the date the superintendent communicated his/her decision to the complainant.
 - iii. This policy allows, but does not require the board to receive statements from interested parties and witnesses relevant to the complaint appeal. However, all matters involving discrimination or harassment shall be promptly and thoroughly investigated.
 - iv. The board will notify the complainant in writing of its decision. If the complaint involved discrimination or harassment, the board shall submit its decision within 180 days after it received the complainant's written appeal.
 - v. There is no appeal from a decision of the board.
- e. When a formal complaint about the superintendent of schools has been filed with the president of the board, the president shall promptly and thoroughly investigate the complaint, and shall:
 - i. Determine whether the complainant has discussed the matter with the superintendent.
 - ii. If the complainant has not, the board president will urge the complainant to discuss the matter directly with the superintendent, if appropriate.
 - iii. If the complainant refuses to discuss the matter with the superintendent, the board president shall, in his or her sole discretion, determine whether the complaint should be pursued further.
 - iv. Strongly encourage the complainant to reduce his or her concerns to writing.

- v. Determine, in his or her sole discretion, whether to place the matter on the board agenda for consideration at a regular or special meeting.
- vi. Respond to the complainant. If the complaint involved discrimination or harassment, the response shall be in writing and shall be submitted within 180 days after the president received the complaint.

No Retaliation. The school district prohibits retaliation against any person for filing a complaint or for participating in the complaint procedure in good faith.

Bad Faith or Serial Filings. The purpose of the complaint procedure is to resolve complaints at the lowest level possible within the chain of command. Complaints filed (a) without a good faith intention to attempt to resolve the issues raised; (b) for the purpose of adding administrative burden; (c) at a volume unreasonable to expect satisfactory resolution; or (d) for purposes inconsistent with the efficient operation of the district may be dismissed by the superintendent without providing final resolution other than noting the dismissal. There is no appeal from dismissals made pursuant to this section.

ADMINISTRATIVE SUPERVISION

Supervision is an endeavor to improve the instructional practices in the interest of the teacher and his or her pupils. Teachers should expect observations, and usually visits will be followed by verbal or written communication. Teachers should feel free to ask the principal for suggestions and help. Teachers are encouraged to inform the principal about interesting and new projects, work, instructional goals etc. that are taking place in their classroom.

EVALUATION PROCEDURE

Evaluations of teachers will be conducted in accordance with the District's evaluation policy. Supervisors reserve the right to observe, appraise or evaluate teachers more frequently than required by policy on an as-needed basis. Teachers are expected to participate constructively and positively in the evaluation process and to accept and implement constructive suggestions and improvement strategies developed by the administration.

The Board of Education shall employ, retain, and advance only the most qualified professional personnel on the staff. The administration shall complete two teacher observation records on all returning professional personnel each year by March 15th for the first 3 years of employment. An annual formal written evaluation shall be completed on all returning tenured professional personnel by May 1st unless otherwise arranged between the administration and staff member.

The Principal shall prepare evaluation or observation reports after each formal supervisory visit to a classroom. In conferring with a teacher regarding a formal supervisory visit, it is the duty of both the principal and the teacher to sign the report. In signing the report, a teacher is not admitting any weakness on his/her part as may be designated by the report of said teacher, signing merely signifies that a conference has been held regarding the previous supervisory visit on the part of the principal. Copies of the completed evaluations shall be placed in the individual personnel file in the principal's and superintendent's office after they have been properly signed by all parties. The evaluation shall be conducted in such a manner to ensure the incorporation of the educational philosophy of the Bloomfield Community Schools.

Appraisal includes both informal and formal evaluation. It encompasses the areas of classroom management and performance, professional characteristics, and school and community relations. CONFLICT OF INTEREST

All staff members are subject to the board's policy governing conflict of interest. That policy provides, in part, that no employee shall solicit or accept anything of value, including a gift, loan, contribution, reward, or promise of future employment based on an agreement that the vote, official action, or judgment of the employee would thereby be influenced.

SOLICITATION AND DISTRIBUTION OF MERCHANDISE

In the interest of maintaining a proper school environment and preventing interference with school purposes, employees may not sell merchandise, solicit financial contributions, solicit, or distribute literature or printed material for any non- school related cause during working time or on school grounds.

TEACHER ATTENDANCE

The school day for teachers and other certified personnel (counselors, librarians, etc.)generally begins at 7:45 AM and ends at 4 pm. or until one-half hour after the dismissal of pupils in the afternoon Monday through Thursday. Teachers may leave at 3:45 p.m. on Fridays. Duties and service to students needing additional assistance after school must be a first priority. Adjusted hours may be established by the administration for certain meetings or duties of staff as needed.

Certified personnel leaving the building during the school day for personal or school business must be approved by the building principal, inform office personnel and sign out in the office.

STAFF APPEARANCE

Staff are expected to maintain professional attire and grooming when on duty. As professionals, educators are expected to be aware of the standard or the profession and community to be maintained. As a minimal guide, staff should wear attire considered as business casual in our society.

DRUG AND ALCOHOL TESTING

School district administrators who suspect that drugs or alcohol may be present in a staff member's system may require the staff member to provide a body fluid or breath sample as provided in the Nebraska law. Staff members who refuse a lawful directive to provide a body fluid or breath sample may be subject to disciplinary or administrative action by the employer, including denial of continued employment.

ABSENCE OF TEACHERS

Teachers, who are ill or otherwise unable to attend school, should call the principal at her/his cell phone by 6:00 a.m. after making substitute arrangements on the school forms. This is necessary in order to let others know to assist with additional duties. If a teacher is ill and is sure that he will not be able to attend the following day, it will be appreciated if the teacher will call during the day in order that there may be a better chance of retaining the same substitute for the following day. It is realized that this is not always possible because in many cases there would be some doubt as to whether the teacher could return. However, when the teacher is sure he/she cannot return, it is requested that this procedure be followed. Upon the teacher's return to school, they should be sure and complete an online "Staff Absence Report" to ensure that his/her wages will not be withheld during the time he/she was absent. Failure to complete the staff absence form in detail may result in a violation in school board policy and result in an unnecessary pay deduction. Your staff absence not only assures your wages but your substitutes wages also.

KEYS

Staff will not lend or have any duplicate keys made of any school key. Staff will make sure all doors are locked when they enter or leave the building other than regular school hours and are responsible for setting the security system after hours if applicable. Staff members are responsible at all times for all keys issued to them and must keep their keys in a secure location or on the employee's person. Each classroom teacher must check that the doors and windows in his or her room are closed and locked at the end of the school day. **Staff must report lost or stolen keys to the building principal immediately.**

SECURITY

Each staff member is responsible for the security of his/her own classroom or work area. Staff must lock the doors and windows of their classrooms and/or other work areas each night.

Staff members who use the building after it has been locked by the custodian or on weekends are responsible for turning off all lights and locking all windows and doors that they or students under their supervision may have used.

Under no circumstances are pupils to be allowed in the building after school hours without faculty/adult supervision. Keys to any school areas are not to be loaned to students, current or former under any circumstances.

SEARCHES and SEIZURES

To safeguard the property and interests of our students, employees, and patrons; to help prevent the possession, sale, and use of illegal drugs on school grounds, and in keeping with the spirit and intent of the district's drug-free workplace policy and other district policies, the school district reserves the right to question employees and all other persons entering and leaving our premises, and to inspect any packages, parcels, purses, handbags, briefcases, lunch boxes, or any other possessions or articles carried to and from school when it has reasonable grounds to do so. The school also reserves the right to search an employee's office, desk, files, locker, or any other area or article on school grounds. All offices, desks, files, lockers, and so forth, are school district property and are issued or provided for the use of employees only during their employment with the district. Inspections may be conducted at any time at the discretion of the administration. Employees who refuse to cooperate with this provision will be subject to disciplinary action up to and including discharge.

Students and staff are specifically notified that Classrooms, common areas, hallways, lockers, vehicles on school property, personal items (such as bags, backpacks, coats, etc.) may be searched by administration, law enforcement or dogs at any time. If contraband of any kind is found, the student or staff member shall be subject to appropriate disciplinary action.

STUDENT SEARCHES BY STAFF

Certified staff members may not search students or their belongings. If a staff member suspects that a student is in possession of contraband, he/she should immediately contact a member of the administration/lead teacher and supervise the student until the administrator arrives. Students who are

GRADING AND REPORTING

Grades are never to be used as punishment! Each staff member is responsible to ensure their procedures reflect research-based best practice in grading. Grades should be recorded frequently enough to show a true picture of the student's performance in your subject area. At minimal, one grade entry per week. The awarding of grades is a very important responsibility of the teacher and should be based on the careful consideration of such factors as:

1. **Equitable** to all students.
2. Based on concrete evidence.
3. Objective observations.
4. Quality of daily work.
5. Ability and effort of the students.
6. Justification of grade to students and parents in terms of documented student performance through the use of rubrics or scales.
7. Standards based or related.
8. Related IEP or 504 requirements

PARENT-TEACHER CONFERENCES

At least one formal conference will be scheduled annually at both the elementary and high school in the Fall. Elementary (K-6) only conferences will be held in the Spring. All staff are required to attend all parent teacher conferences.

PARENT-TEACHER COMMUNICATION

Students' academic success has been closely linked to parental involvement in school. Certified staff should strive to develop open and supportive relationships with parents and guardians. Each classroom teacher is responsible for keeping a student's parents informed about the student's progress. **POWERSCHOOL IS NOT ENOUGH!** Teachers are responsible for consistent parental communication. This may be done by letter, telephone, email, text or personal conference. Keep your documentation! Certified staff must attend parent teacher conferences, return phone calls within 24 hours, participate in teacher events for students and parents, and where necessary utilize a planner as a communication tool. Certified staff who need additional support in communicating with parents should contact their building principal or guidance counselor.

DISCIPLINE

Teachers have the responsibility of discipline in their respective classes, classrooms, study halls, and activities. All staff members are responsible for the conduct of students outside of the classroom. Whenever you see students engaging in conduct or activity contrary to the rules or well-being of the school, it is your duty to take charge of the situation immediately and you have the authority to act on the spot. Call 911 if the situation is serious enough. "WE ARE IN ALICE" is the phrasing used to alert staff members to an active shooter/intruder situation. All staff must be ready to carry out this responsibility at all times. Strategies for Successful Teaching training will be required for all teaching staff to utilize in their classroom management and daily activities with students. It will also be a part of their formal evaluation process.

Be sure that all of your work is well organized and well planned. Keep the students engaged academically at all times. Be definite in your expectations! Be reasonable and be well prepared!

If you maintain a positive atmosphere conducive to good study conditions, you will be giving your students the best possible chance at making positive academic progress in their respective classes. Never lose the "BEES" expectations for learning!

Corporal punishment is the infliction of bodily pain as a penalty for disapproved behavior and is prohibited by law. Some physical contact is inevitable, and most of it is appropriate. Corporal punishment does not include the use of physical force that is reasonable and necessary to (1) protect school employees; (2) protect students or property; or (3) remove a student from a situation that endangers the student, persons, or property. Staff members should promptly report any event that required the use of physical force to their building principal. Request assistance from the CPI team for any student removal.

Anticipate problems. Be "on the job" at all times in your supervision of your students. Most discipline is achieved before situations arise. Be business-like at all times with students and groups. Teachers are to be in the classroom when the bell rings for the class period to begin. It is the teacher's duty to be on time. This

is good organization on the part of all of us. Students needing special counseling, because of behavior, which seems beyond the control or understanding of the teacher, should be sent directly to the Assistant Principal, or Principal or asked to report at a designated time; when possible, the teacher should accompany the student to the Principal's office. In either case, we need to know the teacher's side of the story. Teachers should write up an incident report or speak with the administration right away if you are sending a student out of your room.

Policies of classroom discipline should be as consistent as possible throughout the entire school system. We want our students to be good citizens as they go about their schoolwork and while at activities at home or away

1. Sending a student from your room should be the last resort. This is in reference to your classroom discipline. If trouble arises in the halls, send the students to the office. The punishment will be handled there.
2. Each teacher/ para/ custodian and support staff has authority over any student in their building.
3. All of the students are to address the faculty and staff with a title - Mr., Mrs., Ms., or Coach. When one faculty member is addressing another in front of the students, we should use these titles, also.
4. Teachers are expected to supervise the halls when students are present. Be visible in the hallway in order to have good classroom discipline, teachers must be in their rooms (or by their door or by the restroom) when the students are there.
5. **PROCEDURE FOR SENDING PUPILS TO THE OFFICE FOR DISCIPLINE:**
 - a. Call, text or come to the Principals' office to see if he/she is available. If a retraining is required, document the incident, and e-mail the principals.
 - b. When a teacher finds him/herself in a difficult situation, it would be better to send the child to the office for a time out or to cool off. Please notify the office of your intent. Teachers are responsible for discipline referrals to the office in Writing.

STUDY HALL PERIOD PROCEDURES

No student should leave your room with their cell phone during class time. Students are not to be on their cell phones without an educational purpose during this time. Students are to be working on future assignments in the study hall. After school, the 9th period is for late work.

MATERIALS SELECTION POLICY

Introduction

The media program stands at the center of the total instructional program of the school and is responsible for facilitating, implementing and supporting all facets of the curriculum. The media program is charged with providing the books, audiovisual materials, and accompanying technology to enable teachers to teach and students to learn.

In order to maximize the effectiveness of the media program short and long term goals should be established, based on a media program philosophy that is in accord with the school district philosophy. Acquisition of equipment and materials should reflect and enhance the achievement of the established goals of the program and the long and short term objectives. Major program developments should be prioritized and reviewed annually to monitor the progress of current goals and objectives.

Responsibility for Selection

The Bloomfield Board of Education is legally responsible for all matters relating to the operations of the Bloomfield schools. Each library collection is considered a segment of the total district library collection. All materials are shared; all materials are made available upon request to any school library in the district. Selection of materials involves many people: principals, teachers, and the media specialist. The responsibility for coordinating the selection of library materials and making the recommendation for purchase rests with the professionally trained library-media personnel. Needs of the individual school based on knowledge of the curriculum and of the existing collection are given first consideration.

Criteria for Selection

Materials for purchase are considered on the basis of: overall purpose, timeliness or permanence, importance of the subject matter, quality of the writing/production, readability and popular appeal, authority, reputation of the publisher/producer, reputation and significance of the author/artist/composer/producer, etc., and format and price. Requests from faculty and students are given high priority.

Procedures for Selection

In selecting materials for purchase, the librarian evaluates the existing collection and consults reputable, unbiased, professionally prepared selection aids as well as specialists from all departments and/or all grade levels. In specific areas the librarian follows these procedures:

1. Gift materials are judged by basic selection standards and are accepted or rejected by these standards.
2. Multiple copies of items much in demand are purchased as needed.
3. Worn or missing standard items are replaced periodically.
4. Out-of-date materials or those no longer useful are withdrawn from the collection.

Objectives of Selection

The Bloomfield Board of Education recognizes that it is the primary objective of the library media centers in our schools to implement, enrich, and support the educational programs of the schools. It is the duty of the library media centers to provide a wide range of materials on all levels of difficulty, with diversity of appeal and the presentation of different points of view.

To this end, the Board of Education reaffirms the Bill of Rights for School Library Media Programs and asserts that the responsibility of the School Library Media Center is:

1. To provide materials that will enrich and support the curriculum, taking into consideration the varied interests, abilities, and maturity levels of the students served.
2. To provide materials that will stimulate growth in factual knowledge, literary appreciation, aesthetic values, and ethical standards.
3. To provide a background of information which will enable students to make intelligent judgments in their daily life.
4. To provide materials on opposing sides of controversial issues so that young citizens may develop under guidance the practice of critical analysis of all media. (Opinions expressed in library materials are not necessarily endorsed by the Bloomfield Board of Education).
5. To provide materials representative of the many religious, ethnic, and cultural groups and their contribution to our American heritage.
6. To place principle above personal opinion and reason above prejudice in selection of materials of the highest quality in order to assure a comprehensive collection appropriate for the users of the library media center.

In addition, the Board of Education recognizes that the final decision as to what materials an individual student will be exposed to rests with that student's parents or guardians. However, at no time will the wishes of one child's parents to restrict his/her reading or viewing of a particular item infringe on other parents' rights to permit their child to read or view the same material.

Challenged Materials

Despite the care taken to select materials for student and teacher use and the qualifications of the persons who select the materials, it is recognized that occasional objections may be raised by community members, students, or school staff.

In the event a complaint is made the following procedures will apply:

1. The complaint shall be heard by the media specialist.
2. If the matter is not resolved the complainant will be given a "Request for Review of Library Materials" form to fill out. The form will be forwarded to the Principal and the Superintendent of Schools.
3. The principal shall appoint a committee composed of the following people to review the

complaint: one administrator at the appropriate grade level; one librarian/media specialist; one classroom teacher; the department head in the subject area of the challenged materials; one community member.

4. The review committee shall: read and examine the materials referred to them; check general acceptance of the materials by reading reviews; weigh values and faults against each other and form opinions based on the material as a whole and not on passages or portions pulled out of context; meet to discuss the material.
5. The decision of the reviewing committee shall be forwarded in writing to the complainant and the superintendent.
6. If the complainant is not satisfied by the decision of the reviewing committee and desires to carry the request further, the form may then be submitted to the Board of Education.
7. No materials shall be removed from use until the committee has made a final decision.
8. Cooperation will be given to any parent wishing to restrict his or her own child from using materials objectionable to the parent. The librarian, with the parent, will try to work out a solution that will keep that family's child or children from checking out the materials the parent objects to, while still allowing free access for other children.

SCHOOL LIBRARY BILL OF RIGHTS

The American Library Association affirms that all libraries are forums for information and ideas, and that the following basic policies should guide their services.

I. Books and other library resources should be provided for the interest, information, and enlightenment of all people of the community the library serves. Materials should not be excluded because of the origin, background, or views of those contributing to their creation.

II. Libraries should provide materials and information presenting all points of view on current and historical issues. Materials should not be proscribed or removed because of partisan or doctrinal disapproval.

III. Libraries should challenge censorship in the fulfillment of their responsibility to provide information and enlightenment.

IV. Libraries should cooperate with all persons and groups concerned with resisting abridgment of free expression and free access to ideas.

V. A person's right to use a library should not be denied or abridged because of origin, age, background, or views.

VI. Libraries which make exhibit spaces and meeting rooms available to the public they serve should make such facilities available on an equitable basis, regardless of the beliefs or affiliations of individuals or groups requesting their use.

VII. All people, regardless of origin, age, background, or views, possess a right to privacy and confidentiality in their library use. Libraries should advocate for, educate about, and protect people's privacy, safeguarding all library use data, including personally identifiable information.
